22. In addition, Doubleday contends that the Commission cases Grayson cites as precedent for its proposal do not support it. It considers Grayson's observation that, as a de novo proposition, Monahans would not today be assigned a television channel without evidence of specific demand irrelevant since Channel 9 is assigned, occupied, and providing service to the community; and since the proposed reassignment of the channel would cause a loss of a local service, whereas an assignment of a previously unoccupied or unassigned channel would not. It also views the cases cited by Grayson for the view that fluctuations in population are sufficient to support a change in channel assignment as not dispositive on this point. In the cited Medford, Oregon, case, it points out other important distinguishing facts were involved, including that the channel sought to be reassigned was unoccupied; that the population of the community originally assigned the VHF channel was less than one-third the size of Monahans (2,637); and that reassignment of the channel to the larger city would permit one of the three national networks to acquire a full-time affiliation in the larger city. Doubleday views the Concord, California case, also cited by Grayson, as equally dissimilar since it involved reassignment of a UHF channel to a community only 8 miles distant from the original city of assignment; the channel (then unoccupied) had, in fact, been used by a permittee for a station operating in the city to which reassignment was sought; and the population change was such that the original city of assignment (Pittsburg, California), which had twenty-one years earlier been larger than the city sought for reassignment (Concord), was in 1970 much smaller. It submits that no such growth rate inversion is present in this case and that Monahans and Odessa have maintained the same size relationship in the past twenty-three years.

23. Doubleday further disagrees that the Hugo, Oklahoma and Paris, Texas, and Tucson-Nogales, Arizona, TV hyphenation cases cited by Grayson, are

[13] Data for the Doubleday exhibit was obtained from "Television Factbook," Nos. 32–42, 1961–1972–73 Editions. "Television Factbook," No. 43, 1973–74 Edition, based on ARB surveys conducted for May and November 1971 and February/March 1972, gives the total net weekly circulation of Station KMOM–TV, Monahans, measured with coverage of satellite KWAB–TV, Big Spring, as 94,000. The total net weekly circulation reported for Station KOSA–TV, Odessa, is 91,300, and a total net weekly circulation of 90,900 is reported for Station KMID–TV, Midland.

[14] The 1973–74 Edition of "Television Factbook," No. 43, shows that the total number of ARBTV households reached by Station KMOM–TV was 126,000 by Station

[15] Application for changes in facilities of Station KVKM–TV (KMOM–TV), BPCT–3000, granted July 25, 1962.

[16] Application to change the main studio location of KMOM–TV from Monahans to Odessa, BMLCT–737, dismissed at Grayson's request on May 17, 1973.

precedent for adopting its proposal based on economic necessity. The key distinction in the Hugo-Paris case, it maintains, is that the channel proposed for hyphenation was not occupied, unlike the Monahans assignment, and the petitioner's argument there centered on the necessity of having a hyphenated assignment to make the channel's activation economically feasible. Doubleday submits that it is apparent that the stations occupying the Odessa and Midland non-hyphenated assignments have, however, operated feasibly and that Station KMOM–TV, operating on the Monahans non-hyphenated Channel 9 assignment, is approaching full economic viability. The Tucson-Nogales case, it states, differed from Grayson's situation in that the net operating losses of the Nogales station occupying the channel proposed for hyphenation totalled more than $1,000,250 in the three years prior to when reassignment was sought and further, in that the Commission, in adopting the hyphenation proposal, required that an auxiliary studio, which Grayson does not propose, also be maintained at Nogales should authorization thereafter be obtained to substitute Tucson for Nogales as the principal city of license for the station.

MIDLAND TELECASTING OPPOSITION

24. Midland Telecasting Company, the Midland UHF licensee (KDCD–TV), vehemently opposes the Grayson reassignment proposal, charging that if Station KMOM–TV is thereby permitted to have its city of license changed from Monahans to Odessa and to move its offices and studios to Odessa, its licensee (Grayson) will have accomplished what it set out to do when it acquired Station KMOM–TV, and the station will be entrenched as the third VHF station in the Odessa-Midland market. If this is allowed, Midland Telecasting states that the chances of its Midland UHF station to survive will be limited, and the opportunity for eventual utilization of the unused Odessa UHF assignments (Channels 24 and 30) will be eliminated; that it would forever remove any opportunity for its UHF station to receive a network affiliation in the Odessa-Midland market and would create a serious economic problem, curtail program availabilities, and create other related problems for its UHF station. It states that the Commission may take official notice of the economic plight of a UHF station in a small market which would be served by three VHF stations, representing all networks, and calls attention to the Commission's recognition in the past of UHF problems in competing with VHF.

25. It is Midland Telecasting's view that Grayson has constantly worked to upset the delicate balance in the distribution of service that the Commission's assignments to the west Texas area were intended to achieve, by measures looking toward elimination of its obligations to Monahans and extension of its influence in Odessa and Midland; that it has pursued this same course in other areas, such as the Sweetwater-Abilene and Big Spring areas where it has stations (KTXS–TV, Channel 12, Sweetwater; KWAB–TV, Channel 4, Big Spring, satellite of its Monahans station, formerly semi-satellite of KTXS–TV; and that in doing so, it has disregarded the public interest of the local residents of the communities its Monahans, Sweetwater and Big Spring stations are licensed to serve.

GRAYSON REPLY TO OPPOSITIONS

26. In reply to the Doubleday opposition, Grayson contends that Doubleday's argument directed to showing that the Monahans location of its Channel 9 station is no basis for adopting its reassignment proposal is pervaded by the fundamental and controlling error that it bears no relationship to the realities of life in this west Texas area or to operation of a television station in a small and declining community such as Monahans. It states that, as the photographs of the two communities submitted with its reply show, it is apparent to any visitor, that Monahans is a quiet and isolated community, with no large buildings, clearly declining commercial activity, and virtually no construction of any kind taking place, while Odessa, on the other hand, is a city bustling with commercial activity, with large buildings and many new, large shopping centers and malls, and where substantial residential and other construction activity exists.

27. Grayson submitted statements of KMOM-TV employees attesting to the problems of the Monahans station in producing news and public affairs programs because of the inaccessibility of its Monahans studio to Midland and Odessa where the bulk of the news of interest to viewers in the area occurs and for live or taped interviews by Midland and Odessa newsmakers; to similar problems of the station in presenting local public affairs programming, due to the difficulty of getting potential program participants to come to Monahans from Odessa and Midland and other communities within KMOM-TV's service area because of the travel distance involved and the size of Monahans; and to the station's difficulties in buying desirable entertainment and sports programming, particularly syndicated sports programs, because of the lack of understanding by many program distributors that Station KMOM-TV serves the Odessa-Midland market. They further mention that in the event of serious technical problems, since the KMOM-TV transmitter is almost 20 road miles closer to Odessa than Monahans, the additional driving miles from Monahans for the Chief Enginer can make a real difference in lost air time and that the line of sand dunes along the path of Station KMOM-TV's STL link, which does not exist along the path between Odessa and the station's site, frequently causes interference to the STL microwave signal and adversely affects the ultimate quality of the station's transmitted signal.

28. In addition, Grayson furnished a statement of one of KMOM-TV's principal sales employees which expresses the view that, so long as Station KMOM-TV is located in Monahans, it will not be able to complete on an equal basis for advertising dollars with the other two network-affiliated Odessa and Midland stations, due to such factors as the persistent belief among national and regional time buyers that to "buy the Midland-Odessa market", it is not necessary to buy the Monahans station, but only to buy either or both the Odessa and Midland network affiliated stations; Station KMOM-TV's lack of an Odessa studio for use as a commercial production facility; and the attitude of several major Odessa and Midland advertisers that only a limited portion of their advertising dollars should be spent on the Monahans station because of their obligation to support their "local" Odessa and Midland television stations.

29. Grayson also contends that the comparative statistical showing made by Doubleday relating to the television homes reached by the Odessa, Midland and Monahans VHF stations and to their net weekly circulations is meaningless since, in its view, the figures do no more, in effect, than describe the technical limits of the stations' signals and show nothing about comparative levels of viewership of the three stations. By that critical measure, it claims, Station KMOM–TV has not come close to achieving a competitive position in the Odessa-Midland television market. This is evidenced, it states, by the day-part audience summary pages from the February/March, 1973 ARB Audience Estimate Report for the market accompanying its reply, which show that in every time period of the day measured by ARB, KMOM–TV lagged considerably behind the other two stations in its share of the "metro area" (Midland and Ector Counties) audience, where KMOM–TV's ratings were also substantially lower than its rating in the entire Area of Dominant Influence. It also points out that these figures show that Station KMOM–TV's audience shares in the critical 6–6:30 p.m., and 10–10:30 p.m., metro area local news periods are but 2 percent and 7 percent, respectively, while, in contrast, Station KOSA–TV's share of the metro area audience in the same periods was 50 percent. Grayson further states that its concern about the competitive inequality of KMOM–TV has been substantially increased since learning of the proposed acquisition of Station KOSA–TV at Odessa by Forward of Texas, Inc. (which has since taken place), a subsidiary of Forward Communications Corporation, a multiple station owner, since it is known to be an experienced and aggressive station operator, and it fears that the new ownership of the Odessa station may prove to be a more formidable competitor than Doubleday and make it impossible for Station KMOM–TV to survive at all.

30. Further, Grayson labels as "not true" Doubleday's charge that in moving Station KMOM–TV to Odessa, it would be "abandoning" Monahans, to the community's detriment. It states that the move would result in no decline of television programming or advertising service by Station KMOM–TV for Monahans,

V 39 I 86
MAY 2 74
XUM

but that, to the contrary, it would enable the station to serve Monhans and its other viewers far more effectively than is possible today; that, as the station's general manager stresses in his accompanying statement, it is anticipated that Station KMOM–TV, as an Odessa station, would still cover news and current events in Monahans to substantially the same extent as it now does and would continue to solicit advertising in Monahans to the same extent; and that, as the several letters submitted from Monahans businessmen indicate, the businessmen in the community understand this and that the proposed move is necessary for the station to continue to improve service to the community.

31. With respect to Doubleday's argument that any eventual reassignment of Station KMOM–TV to Odessa would be contrary to the Commission's duopoly rule, Grayson states that it ignores the fact that no change in the transmitter site or signal contour of Station KMOM–TV or any other Grayson station is contemplated if its rule making proposal herein is adopted; and that its proposal looks toward an eventual qualitative improvement in the program service of a station which it is already authorized to own—not an expansion of service to any new or different geographic area. It further submits that the reasons underlying the Commission's waiver of the duopoly rule in connection with its original acquisition of Station KMOM–TV (and to justify the satellite state of Station KWAB–TV, Big Spring) are just as true today, for the entire area, with the exception of Odessa and perhaps Midland, has been in a state of economic decline and Station KMOM–TV continues to be a marginal enterprise.

32. Grayson also finds no merit in Doubleday's argument respecting the absence of prior Commission precedent for its proposal. It contends that all of the factual distinctions Doubleday claims between the cases it cited and its proposal are immaterial and that Doubleday ignored the central policy questions in all of them—of whether, on balance, the proposed channel reallocation in a given case will serve the public interest. In each cited case, Grayson states, the Commission made the factual judgment that the channel reallocation involved would result in an overall improvement of service to the public which would more than counterbalance the "loss" to the community from which the channel was moved. It submits that the basis exists for the same judgment here also; that while the closing of Station KMOM–TV's main studio in Monahans would in some sense represent a "loss" to that community, the loss would be far less than the failure of the station to survive at all; that, even if the station could continue to limp along at its Monahans location, the physical presence of its studio at Monahans would mean little to the local residents if the station could not provide a satisfactory and competitive program service; and that the proposed reassignment would result in a net improvement of service, not only to television viewers in Monahans but to those throughout Station KMOM–TV's service area.

33. In reply to Midland Telecasting's opposing argument, Grayson contends that it consists primarily of general allegations that the proposed reassignment of Channel 9 to Odessa-Monahans would eliminate the opportunity for its Midland UHF station to obtain a network affiliation and would create a serious economic problem, curtail program availabilities and create other related problems for the station which provide no reason to reject its proposal. This is the case, it argues, since no physical change in Station KMOM–TV's transmitting facilities is contemplated either now or upon reassignment of Channel 9; since, to the extent that UHF Station KDCD–TV must compete with Station KMOM–TV and its Midland translator, that fact will be no more true in the future than it is now; and since no factual support was provided for the assertion that a network affiliation might under some circumstances be made available to Station KDCD–TV. Grayson submits that, given the present signal contours of all the television stations in the market, there is no reason to believe that there is any possibility of Station KDCD–TV acquiring a network affiliation. It further claims that, while its proposal is designed to change the competitive conditions as between the VHF stations in the market, to bring about true competitive conditions as between them, particularly with respect to national and regional advertisers and local advertisers in Odessa, Station KDCD–TV, which operates with extremely low power and reaches few people, is not in a position to compete for such advertising, and that the incremental impact of its proposed Channel 9 move on this UHF station would be minimal.

Discussion

34. The channel assignments listed for communities in the television Table of Assignments reflect our judgment of the requirements of the public interest and Section 307(b) of the Communications Act for their fair, efficient and equitable distribution among the several States and communities. They are not, however, fixed or immutable and have always been subject to change since the Table was established in 1952 whenever, in the light of experience, changing conditions or other considerations, we find reason to believe that the public interest and Section 307(b) requirements would be better served thereby.

35. When we assigned Channel 9 to the relatively small community of Monahans in 1952, which then had a population of under 7,000, it was in the belief that it was a developing community in the west Texas area that should be afforded an opportunity to have a first local television service. With the benefit of experience, however, it is doubtful whether we would have even then provided a community of its size with a television assignment, for over the years we have come to the view that it is questionable whether cities with populations under 25,000 have sufficient distinct need for a local television programming service or ability to support a local station to warrant an assignment. Consequently, we now require a strong showing of need and demand, and that the channel will be used before making a new assignment to a community under such size. Be that as it may, and even though Monahans did not continue to develop as anticipated in 1952 and is today still a relatively small community with a population of under 8,500—less than it had in 1960—Channel 9 has been in continuous use there as a local outlet and service since 1958, providing a useful service to the community and area. It appears from the Grayson showing, however, that it is highly questionable that the size and economic base at Monahans are today or, for that matter, ever were alone sufficient for the development of an economically viable and effective local station or that a local station there was not of necessity required to look also to the Odessa-Midland market, the principal and largest one in the area, for audience, revenues and programming. The history of the Monahans Channel 9 station indicates that in its early years of operation it was threatened with extinction because of substantial continuing losses and that the station has been able to survive and reduce its losses only by improving its technical facilities, relocating its site, acquiring a network affiliation, and providing a wide-area service in competition with the two other network-affiliated Odessa and Midland stations in the area for audience, programming, and support.

36. In authorizing the move of the Monahans Channel 9 station to its present transmitter site nearer Odessa in 1962 over the objections of the Odessa Channel 7 and Midland Channel 18 licensees, we believe that as a result of the proposed move the chances of survival of the station would improve; that it would be able to obtain a network affiliation; and that, as a result, not only would the Monahans area be able to retain its local Channel 9 service, but that the need of the Monahans-Odessa-Midland area for a third fully competitive service would, for the first time, be met. We were of the view that meeting the need for a third fully competitive service in this area, which we believed would become a reality as a result of the move, was an overriding public interest objective, outweighing any theoretical adverse impact on UHF television in the area or other objections raised to the move, from which the entire area would gain.

37. It appears that our expectations as to the resulting benefits from Station KMOM–TV's move to its present transmitter site have to some extent been realized, for, as the showings of the parties herein indicate, the station has been able to continue in operation, to acquire a network affiliation, to provide a third service in the Odessa-Midland-Big Spring-Monahans area competitive in coverage with the other two network-affiliated Odessa and Midland VHF stations, and it is nearing economic viability. Grayson, however, makes a persuasive showing that, because of the identification of Station KMOM–TV with the small community of Monahans and the location of its studios there, and the distance of Monahans from the urban complex of Odessa and Midland, to which it must necessarily look to for local programming originations and advertising support, Station KMOM–TV encounters difficulties not faced by its Odessa and Midland competitors in this market area which limit its ability to produce local programming, to acquire a proportionate share of the total market viewing audience, to achieve competitive acceptance and status in the Odessa-Midland market sufficient to compete effectively for national, regional and local advertising in Odessa, to achieve sustained economic viability, and to realize its potential for providing an effective, fully competitive third service throughout the area.

38. While, as we have often stated, we are not generally concerned with the competitive status of licensees and are not insurers of profitable operations, we are concerned with the public interest, and it is served, we believe, by creating greater opportunities in an area for survival of existing stations, for improved service, and effective and comparable competition among a greater number of stations. It appears, as Grayson urges, that moving the Monahans Channel 9 station to Odessa might increase such opportunities and enable the public in this west Texas area to receive a third more effective and fully competitive area-wide broadcast service. While this would involve deleting the only local outlet at Monahans a most important public interest consideration also, we feel that the benefits to Monahans and the rest of this area resulting from such a move might be overriding. This could be so if we should finally conclude that KMOM–TV is handicapped in providing an effective and competitive area-wide service from its Monahans location and such a conclusion is coupled with Grayson's expressed intent to continue to operate from its present transmitter site (if KMOM–TV is licensed as an Odessa station) and to continue to meet Monahans' needs for service. However, in weighing these public interest considerations, and also the desirability of requiring the maintenance of an auxiliary studio at Monahans as a condition attaching to any use of Channel 9 for an Odessa operation should the channel be reassigned, it would be helpful to have comments from the petitioner and other interested parties, particularly in the Monahans area, in regard to any local programming needs of Monahans distinct from those of Odessa or the area in general.

39. Another important public interest factor to be considered is, of course, the possible adverse impact that the proposed reassignment as an Odessa Channel 9 station could be expected to have upon the Midland UHF operation and the potential for UHF growth in Odessa, which has two unused UHF assignments. It is Midland Telecasting's view that it would be substantial. While we are concerned about any change in VHF station assignments or facilities which might adversely affect existing UHF stations or UHF growth in an area, we find nothing in Midland Telecasting's argument which would permit a reasonable assumption that the proposed reassignment would be likely to have a significant adverse impact upon its UHF station or prospects of UHF growth in Odessa, or be an overriding consideration, particularly since the proposed reassignment would not introduce a new or increased VHF signal in the Midland and Odessa areas, and the area has long had three full-market VHF services. Further, while Midland Telecasting indicates that the proposed reassignment might deprive its Midland UHF station of opportunity to obtain a network affiliation, it seems unrealistic to suppose that in the circumstances existing in this area, with the three full-market VHF stations now serving the Odessa and Midland areas each having a primary network affiliation, its Midland UHF station, whose coverage and service is largely limited to the immediate Midland area, would have opportunity for a network affiliation in the foreseeable future even if the Channel 9 network-affiliated station serving this market area should continue to operate on a Monahans assignment.

40. Another factor Doubleday would have us consider is the possible lack of justification for continued authorization of overlapping contours of Grayson's Monahans Channel 9 station, its Channel 4 Big Spring satellite, and its Channel 13 Lubbock station which we granted in connection with the reassignment of the Monahans Channel 9 station to Grayson, should its reassignment proposal be adopted and it be authorized to operate Station KMOM–TV on Channel 9 as an Odessa rather than a Monahans station. These authorizations are operative only with respect to the petitioner's existing Monahans Channel 9 operation, and in the event the proposed Channel 9 reassignment is made, a reassessment of all the reasons bearing on the existing authorizations would have to be made before grant of any application filed by the petitioner to operate on Channel 9 at Odessa instead of Monahans. Since no equities would accrue to the petitioner by the adoption of its reassignment proposal which would subsequently bar adverse action on any application which it filed for move of Station KMOM–TV to Odessa if we decided that the public interest so required, we believe it would be premature and is unnecessary to attempt to consider the overlap matter in assessing the merits of its Channel 9 reassignment proposal. If the proposal is adopted, this matter can better be considered and dealt with when raised by an application of the petitioner for relicensing of Station KMOM–TV.

41. Grayson's objective of having its Monahans Channel 9 station relicensed as an Odessa station could also be accomplished by simply reassigning Channel 9 from Monahans to Odessa, for the channel is technically feasible for use in either community. On the whole, however, we think that its proposal to reassign the channel to Odessa-Monahans in combination would have certain advantages if any reassignment is found to be warranted.

42. While our television Table of Assignments is generally predicated upon assignments to specific cities and communities only, we have sparingly assigned television channels to hyphenated communities in the Table also. Hyphenation is an assignment tool we have used to assist in making a fair, efficient and equitable assignment of television channels in areas where, for assignment purposes, it appears that the communities involved should be treated as one community (for a variety of reasons, including among others, their proximity and common social, cultural, trade and economic interests) and also where it seemed best to postpone until the application and possible adjudicatory stage any unresolved or close questions as to which of the communities in the hyphenated listing warranted use of the assignment. In looking at the situation here, we believe that Monahans and Odessa are geographically close enough and are sufficiently similar enough in their interests to warrant our considering a dual Channel 9 assignment. We also believe that, in a case such as this, where the reassignment proposal is intended to be used as a means to move a local outlet from a small community to a larger community in the same area, reassignment of the channel involved to both communities in hyphenation rather than to the larger community outright will better insure continued identity with, and service to, the smaller community from the station. Reassignment of the channel in hyphenation to both communities would also provide us with further opportunity to scrutinize any specific proposal before finally deciding whether the public interest dictates that the local outlet in the smaller community should be moved, for the proposed reassignment of Channel 9 to Odessa-Monahans, if made, would not in itself in any way change the outstanding authorization Grayson now holds for Station KMOM–TV on Channel 9 at Monahans. Monahans would continue to retain its local Channel 9 outlet until such time as favorable action would be taken on an application for its reassignment to Odessa.

43. As for the several Commission cases cited by the petitioner as precedent for its subject proposal, they are not sufficiently factually similar to require discussion or to persuade us that they should govern our ultimate decision on its proposal. We believe, however, that its showing has been adequate to merit consideration of its reassignment proposal in rule making. In connection therewith, as mentioned in paragraph 38, we believe consideration should also

V 39 I 86
MAY 2 74
XUM

be given to whether maintenance of an auxiliary studio at Monahans should attach to any use of Channel 9 for an Odessa station should the proposed reassignment be made.

44. In view of the foregoing, and pursuant to authority found in Sections 4(i), 303(g) and (r) and 307(b) of the Communications Act of 1934, as amended, and § 0.281(b)(6) of the Commission's rules, it is proposed to amend the TV Table of Assignments, § 73.606 (b) of the Commission's rules and regulations, as follows for the named communities:

City	Channel No.	
	Present	Proposed
Monahans, Tex.	9-	
Odessa, Tex.	7-, 24, 30, *36	7-, 24, 30, *36
Odessa-Monahans, Tex.		9-

45. Pursuant to applicable procedures set out in § 1.415 of the Commission's rules and regulations, interested parties may file comments on or before June 14, 1974, and reply comments on or before July 3, 1974. All submissions by parties to this proceeding or persons acting on behalf of such parties must be made in written comments, reply comments, or other appropriate pleadings.

46. In accordance with the provisions of § 1.419 of the Commission's rules and regulations, an original and 14 copies of all comments, reply comments, pleadings, briefs or other documents shall be furnished by the Commission. These will be available for public inspection during regular business hours in the Commission's Public Reference Room at its Headquarters, 1919 M Street, NW., Washington, D.C.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] WALLACE E. JOHNSON,
Chief, Broadcast Bureau.

[FR Doc.74-10056 Filed 5-1-74;8:45 am]

[47 CFR Part 73]

[Docket No. 19161; FCC 74-409]

FM BROADCAST STATIONS IN CERTAIN CITIES

Proposed Table of Assignments

In the matter of Amendment of § 73.202(b), Table of Assignments, FM Broadcast Stations. (West Allis, Berlin, Hartford, Neenah-Menasha, Shawano, Watertown and Waupun, Wis., and Escanaba, Mich.; Coal City, Dwight or Marseilles, Ill.; St. Charles and St. Louis, Mo.; Muncie, Ind. and Celina, Fostoria and Lima, Ohio; Anamosa and Iowa City, Iowa; Terrell and Corsicana, Texas; Sullivan, Bedford and Paoli, Ind.; Orangeburg, S.C.; Danville, Ind.; Decatur or Paris, Ill.; Manning and Kingstree, S.C. and Burlington, Iowa. Docket No. 19161 RM-1476, RM-1489, RM-1523, RM-1524, RM-1528, RM-1540, RM-1552, RM-1564, RM-1559, RM-1561, RM-1563, RM-1566, RM-1571, RM-1626, RM-1660, RM-1823.

1. The Commission has under consideration (a) the First [1] and the Third Report and Order in Docket No. 19161 [36 FR 21193, 23 RR 2d 1576 (1971), 32 F.C.C. 2d 191; 37FR 9999, 24 RR 2d 1790 (1972), 34 F.C.C. 2d 858]; (b) the petition for reconsideration of the Third Report and Order, filed June 12, 1972, by Communicators, Inc. (37 FR 18538) ("Communicators"); (c) the opposition to this petition for reconsideration filed July 7, 1972, by Roy Hodges, d/b as Vivid Music Enterprises ("Hodges"); (d) the reply to Hodges' opposition, filed July 19, 1972, by Communicators; (e) the petition for rulemaking filed June 16, 1971, by Big Country Broadcasting Corporation ("Big Country"), licensee of AM Station KKUZ, Burlington, Iowa; and (f) the opposition to the Big Country petition filed August 9, 1971, by Communicators.

2. The original proposal before us was to substitute Channel 228A for unoccupied Class C Channel 230 at Iowa City, Iowa, in order to permit the assignment of Channel 232A to Anamosa, Iowa. The result would have been a first assignment for Anamosa and an intermixture of channels at Iowa City. The other Iowa City assignment, a Class C channel, was already in use, but no one had yet applied for use of Channel 230. As is the usual practice, the Notice of Proposed Rule Making specified that some form of expression of continuing interest on the part of the petitioner should be submitted, or if it were not, the petition might be denied on this ground alone. In fact, that is precisely what happened. Hodges, the petitioner, did not file comments or reply comments nor did he in any other way manifest any further interest in the proceeding. We took note of this failure in the First Report and Order and refused to grant his proposal.

3. Hodges filed a petition for reconsideration of the First Report and Order, alleging that he was unaware of the need to respond to the Notice of Proposed Rule Making and providing arguments on behalf of the proposal set forth in his petition for rule making. We found these arguments persuasive and adopted the Third Report and Order which reversed the earlier action and adopted the channel changes sought by Hodges. Thereafter, Communicators filed a petition for reconsideration charging error in the Third Report and Order. As detailed below, a reversal of the Third Report and Order is required.

4. Rather than set forth the discussion of the Third Report and Order in its entirety, followed by the arguments of the parties, we shall discuss the salient points treated in that document and the arguments they occasioned on an issue-by-issue basis. Because of the confusion which resulted from that document's treatment of several of these points, our discussion of them must extend beyond that which normally would be required. In part, we shall restate long held views, indicating their continuing applicability, and in part we shall discuss matters which have not been treated before at length or perhaps at all.

5. The first issue to consider is that of the significance that attaches to a petitioner's failure to provide a response to a Notice of Proposed Rule Making. In the Third Report and Order we agreed that Hodges had slept on his rights but found overriding public interest reasons for acting favorably on his proposal anyway. Communicators insists that the result of our decision is to sanction wanton disregard of our procedural requirements and to invite similar problems in the future.

6. The statement in the Third Report and Order that the ultimate test is that of the public interest is indeed true. Nevertheless, we need to be concerned with procedure as well as substance in determining what best serves the public interest. Unless applicable procedural requirements are observed, we would face difficulties in exercising our regulatory responsibilities, hardly a situation to benefit the public. On the other hand, fairness dictates that we not proceed in Procrustean fashion either. On occasion, deviations can be warranted, but request for such special relief must adequately demonstrate the presence of an overriding public interest justification and adequately explain the failure to observe the applicable procedural requirements. It may well be that Hodges' explanation for his failure to respond to the notice of proposed rulemaking was inadequate. Hodges relied on his lack of an attorney. Can this fact relieve him of the responsibility to follow the requirements of the Notice which was sent to him by the Commission,[2] especially since Hodges is experienced in broadcasting and able to prepare and file his petition without legal assistance? Although there is some basis for questioning the adequacy of Hodges' request, it is not necessary to resolve this point as there are substantive grounds on which to reverse our previous action as will be discussed in the succeeding paragraphs.

7. One of the reasons we gave for again considering Hodges' proposal was the impact of the filing of Big Country's petition seeking the reassignment of Channel 230 from Iowa City to Burlington, Iowa. Although we stated that this petition would not be considered in this proceeding on the merits because of its late filing, we nonetheless took "judicial notice" of the filing. Since removal of Channel 230 from Iowa City was the change on which the Anamosa proposal rested, we noted that Hodges could have his proposal considered in connection with Big Country's. Rather than wait for this to occur, we acted on Hodges' petition for reconsideration. The inability to consider the Big Country petition on its merits and hence the need for a notice was dictated by the fact that it had not been filed before the "cut-off" deadline specified in the Anamosa/Iowa City Notice. Communicators strongly disputes the legitimacy of any reliance on the filing of an untimely proposal in resolving the treatment to be given to Anamosa. By taking judicial notice of the filing of the Burlington petition Communicators sees the Commission as having vitiated its entire "cut-off" procedure.

8. We can understand the view expressed by Communicators. If the Big Country filing was allowed to have an impact on the merits of the case that clearly would have been improper and contrary to our "cut-off" procedure. Obviously, if allegedly more meritorious proposals are given consideration notwithstanding their untimeliness, then it will be vastly more difficult to ever conclude a proceeding, to ever make an assignment. Whatever view might be appropriate in special circumstances or where overwhelming need appears to exist is not applicable here since no such circumstance was presented by the Big Country filing. It simply represented a competing claim for the channel, and like virtually all proposals, could be said to have some merit. In no way did it suggest such overwhelming importance as to virtually mandate its success and thus give it a basis for special consideration. Therefore no reliance should have been placed on the filing of the pleading save to note that Hodges might again have a day in court if he wished to raise the Anamosa proposal as a counterproposal in connection with any Notice issued in a Burlington proceeding. Communicators, however, though that the Third Report and Order did place some reliance on this untimely filing in deciding the merits of the Iowa City/Anamosa contest. Such was not our intent.

9. We now turn to the merits of the proposals before us. There are three communities to consider: Iowa City, Anamosa and Burlington.[4] Because of the procedural irregularities we have outlined, the whole case requires a reversion to the status quo ante, and all of our reference to channel assignments will be based on those existing before adoption of the First Report and Order. Save for our need to discuss the reasons for its reversal, reference should not be made to the Third Report and Order, for it is without force and effect. Anamosa, a community of 4,389 persons has no FM channel or AM station. Anamosa is the county seat and largest community in Jones County (pop. 19,868) and the assignment of Channel 232A would bring the county's first local aural outlet. Iowa City has a population of 46,850 and Johnson County, in which it is located, has a population of 72,127. Iowa City has a noncommercial educational FM station and two commercial FM channel assignments, one of which is occupied and the other of which is the subject of this proceeding. Iowa City also has two AM stations, one a commercial daytime-only station and the other noncommercial educational, unlimited time.[4] Burlington has a population of 32,366 and its county (Des Moines) a population of 46,982. Burlington has one Class C FM station and two AM stations, one daytime-only and the other full-time.

10. In the Third Report and Order we gave relatively little attention to intermixture in Iowa City, found little significance in the decline in Anamosa's population (and that of its county) as contrasted with Iowa City's (and its county's) substantial growth, and appeared to rely upon speculative benefits to be derived from the use of Channel 230 elsewhere than Iowa City, particularly in terms of serving previously unserved or underserved areas. In addition we gave overriding importance to the matter of local service in applying to this case the priorities used to govern the making of FM assignments. Each of these points warrants consideration at some length and will be discussed in the order mentioned.

11. Having examined the subject at length, we have concluded that the matters relied on the Third Report and Order were insufficient to override our usual practice of avoiding intermixture. While on occasion we have provided for intermixture, the circumstances present in this case do not parallel those normally relied upon by the Commission. This is not a case in which a party finding no other available channel seeks a Class A channel even though the others already in the community are Class B or C. In such situations, the proponent runs the risks and the public stands to receive the gains since the channel is the only one which could be used there. Thus, a net public gain could be said to result. Here, the effect would be to deprive not add, and to justify this there must be a showing of an important public need that would be served. Although it is true that five of the nine other communities in Iowa with populations between 25,000 and 50,000 are intermixed, the fact is that in three of them the Class A channel remains unoccupied. There is an additional question of how relevant this intermixture is when considering how much larger Iowa City is and hence arguably in greater need for two Class C channels. In addition, the occupier of Iowa City's second channel would be operating an independent station in competition with a joint AM-FM operation. Communicators had not been willing to proceed on this basis for understandable reasons. The most that could be said is that Anamosa would gain a channel. The importance of that point is one of the issues this proceeding was intended to resolve. While Burlington could also gain a second channel, this proposal was not entitled to comparative consideration with Anamosa and Iowa City in the Third Report and Order.

12. In terms of the Burlington proposal itself, the Third Report and Order referred to that community as slightly smaller than Iowa City, but the difference between 46,850 and 32,366 is not slight.[5] Iowa City is 44.8 percent larger and its county 53.5 percent larger. Moreover, if educational services and Communicators' conditional permit are excluded, each has a daytime-only AM station but Burlington has two full-time commercial stations (1 AM and 1 FM) while Iowa City has only an FM station. Particularly when intermixture is at issue, the fact that unlike Iowa City, Anamosa (and Jones County) are losing population assumes considerable importance.

13. One of the key points made by Communicators is that the operation it would establish at Iowa City would not only serve more people but in significant part would provide a first or second FM service. The Third Report and Order spoke in terms of the possibility that another use of Channel 230 would equally serve the purpose of serving populations lacking in adequate service. To the extent that the document generally pointed out that Communicators' argument about first or second service would have to be tempered by the recognition that the channel could be used elsewhere, it was on firm ground. Reliance on such substitute use, however, especially one not yet before the Commission for action and without the presence of any supporting data, would not be on equally sound footing. It would have been error to base an action on such an assumption, and as such would have been in direct conflict with the assertion that the Burlington proposal was not being considered on the merits.

14. Finally, a question has arisen regarding our use of the priorities in judging between conflicting FM proposals. To set the matter straight, the priorities [6] are these:

[1] The reasons for including the First Report and Order as well as the Third Report and Order will be detailed in the discussion which follows. The Second Report and Order dealt with matters relating to other communities in this group of proposed assignments, and as a result is not pertinent to the matters under consideration in this document

[2] Our reason for requiring a response from the proponent is simple: We want to avoid making assignments where there is no assurance that they will be effectuated. Thus, even if no data are called for, the expression of continuing interest is in itself an important matter.

[3] There is a reason for including the Burlington proposal notwithstanding our earlier discussion. Simply, the reason is this: no matter which community is preferred, Anamosa or Iowa City, the Burlington proposal would still be entitled to consideration on the merits at some future time. Ordinarily, we would simply decide the Burlington matter when it is reached in turn. However, this is not the ordinary case. To avoid further delays in this already extended proceeding, following the making of a choice between Anamosa and Iowa City, we shall act on the Burlington proposal in this proceeding.

[4] In the meantime, Communicators has obtained a construction permit for the Class A channel pending the outcome of its petition for reconsideration.

[5] All figures are from the 1970 U.S. Census.

[6] These priorities were listed in the Further notice of proposed rulemaking in the FM proceeding in Docket 14185, FCC 62-867 (1962).

V 39 I 86 MAY 2 74 XUM

(1) Provision for all existing FM stations. [not applicable here]

(2) Provisions of a first FM service to as much of the population of the United States as possible; particularly that portion of the population which receives no primary AM service nighttime.

(3) Insofar as possible, to provide each community with at least one FM broadcast station, especially where the community has only a daytime-only or local (Class IV) AM station, and especially where the community is outside of an urbanized area.

(4) To provide a choice of at least two FM services to as much of the population of the United States as possible, especially where there is no primary AM service available.

(5) To provide, in all communities which appear to be of enough size (or to be located in areas with enough population) to support two local stations, two local FM stations, especially where the community is outside of an urbanized area.

(6) To provide a substitute for AM operations which, because they are daytime-only or suffer serious interference at night, are marginal from a technical standpoint.

(7) Channels unassigned under the foregoing priorities will be assigned to the various communities on the basis of their size, location with respect to other communities, and the number of outside services available.

As can be seen, not all of the priorities are pertinent here. Likewise, it should be noted that these priorities were never intended to be applied rigidly or in a mechanical fashion.

15. Priority two (service to unserved areas) is directly involved in the present case, and it is a matter of considerable importance. Priorities three and four of course are of lesser importance and in fact are rather close to each other in terms of the weight accorded them under ordinary circumstances. In fact, in some situations, using the strict order of priorities leads to anomalous results. Thus, applying them literally, the result would be that any community, even one of only 100 persons, seeking a first channel would automatically succeed in preference to a second channel in a city of 1,000,000 that would bring a second service to 4,000,000 people. Needless to say, we have not followed such a rigid pattern and have taken into account the size of the respective communities and their need for an FM station. Whatever might be our ultimate conclusion in this proceeding, it is clear that the evidence now before us does not support the actions taken in the Third Report and Order. The regrettable fact is that not every community has been or will be able to have its own assignment. Especially where the demand is great and the supply is limited, difficult choices are presented. Although accommodation is sometimes possible, this is not always the case. In our view, the second priority—that of providing a first service—stands out, but since the relative weight to be accorded the third and fourth priorities are not so different, we must consider the relative sizes of the communities, their growth patterns and the need for service. In paragraph eight, the Third Report and Order misapplied the priorities by overemphasizing local service and giving first service short shrift. Contrary to that document, the priorities do not preclude reaching a decision to leave the channel in Iowa City. Whether that will be the outcome remains to be seen. All parties are at liberty to provide data on any pertinent aspect of the comparison process, not just the vital area of first service.

16. When we are considering the need for service and evaluating the extent to which service is already provided, recognition must be given to AM and FM services as joint components of a single aural service. This view is a relatively recent development, so it was not reflected in the discussion when we adopted the priorities for FM assignments. FM service to unserved areas still has significance, but consideration now must be given to the presence of primary AM signals, especially at night. Here, there is a lack of evidence on the extent of AM coverage nighttime in the area which Communicators would provide with a first and second FM signal. All we have before us are some general assertions by Hodges, and this will not suffice. Because this information is necessary to a resolution of the issues before us, we are issuing this further notice so that we can address these issues knowledgeably. Two specific questions exist: To what extent would Communicators be able to provide a first or second aural service, and, to what extent could it provide a first or second FM service?[1]

17. As to Burlington, the following factors should be taken into consideration in the preparation of its exhibit. As stated above, Big Country proposed Channel 230 for Burlington by moving the channel from Iowa City without proposing a replacement channel. However, if Channel 228A were to be assigned to Iowa City, the utilization of Channel 230 as a Class C channel at Burlington would be restricted to an area at least six miles southwest of the community, due to the distance separation requirements from Iowa City and Channel 232A at Beardstown, Illinois. On the other hand, if Channel 230 were to be used on a site in the state of Illinois (Zone I) as a Class B station, with its attendant restriction on the power and antenna height, there would be a greater latitude in the choice of a site because the required separation there would be 40 miles to both channels 232A and 228A [§ 73.207-(b)]. Since Channel 228A could be assigned to Burlington without a site restriction if Channel 230 were utilized at Iowa City as proposed by Communicators, Big Country should indicate its views on this alternative approach. Particularly we need to know whether Big Country would proceed to activate a station of a Class A channel were made available.

18. *Showings required.* Comments are invited upon the proposals discussed above. As indicated, the Commission has questions concerning the proposals, and the proponents of the proposed assignments will be expected to answer them. In addition, each should reaffirm its intention to apply for the channel if assigned, and, if authorized, to promptly build the station. Failure of a proponent to make these showings will result in denial of its proposal.

19. *Cut-off procedures.* The following procedures will govern:

(a) Counterproposals vis-a-vis the Burlington proposal will be considered, if advanced in initial comments in this proceeding, so that parties may comment on them in reply comments. They will not be considered, if advanced, in reply comments. Counterproposals advanced as alternatives to the Anamosa and Iowa City proposal will not be accepted because the cut-off period on it has long since expired.

(b) With respect to petitions for rule making which conflict with the Burlington proposal, they will be considered as comments in the proceeding, the Public Notice to this effect will be given, as long as they are filed before the date for filing initial comments herein. If filed later than that, they will not be considered in connection with the decision herein.

20. The authority for the action taken herein is contained in Sections 4(i), 303 (g) and (r), and 307(b) of the Communications Act of 1934, as amended.

21. *It is ordered,* That the petition for reconsideration of the Third Report and Order filed June 12, 1972, Communicators, Inc., is granted to the extent indicated above and is denied in all other respects.

22. Pursuant to applicable procedures set out in § 1.415 of the Commission's rules, interested parties may file comments on or before June 14, 1974, and reply comments on or before July 2, 1974. All submissions by parties to this proceeding, or persons acting in behalf of such parties, must be made in written comments, reply comments or other appropriate pleadings.

23. In accordance with the provisions of § 1.419 of the Rules, an original and 14 copies of all comments, replies, pleadings, briefs and other documents shall be furnished the Commission. Responses will be available for public inspection during regular business hours in the Commission's Public Reference Room at its Headquarters in Washington, D.C. (1919 M Street, NW.).

Adopted: April 16, 1974.

Released: April 26, 1974.

FEDERAL COMMUNICATIONS COMMISSION,
VINCENT J. MULLINS,
Secretary.

[FR Doc.74-10057 Filed 5-1-74;8:45 am]

[1] For the purpose of responding to these questions, the showing as to FM service should follow the procedures set forth in the Roanoke Rapids-Goldsboro, North Carolina FM proceeding, 9 F.C.C. 2d 672 (1967). Appropriate showings regarding AM nighttime service are also required so that the extent of nighttime interference-free AM coverage can be determined.

[47 CFR Part 76]

[Docket No. 20028; FCC 74-433]

CABLE TELEVISION; CARRIAGE OF LATE NIGHT PROGRAMMING

Notice of Proposed Rulemaking

In the matter of Amendment of Part 76 of the Commission's rules and regulations relative to carriage of late-night television programming by cable television systems.

1. Notice is hereby given of proposed rulemaking in the above-entitled matter.

2. We recently have had cause to consider the extent to which cable television systems may carry late-night programming on otherwise unauthorized signals when some or all of the stations which they normally must carry have signed off. Our concern with this problem largely results from the recent increase in television stations broadcasting late at night. While in the past practically all stations signed off by 1 or 2 a.m., a substantial number now broadcast—and thus make their signals potentially available to cable systems—after 3 a.m. Late night broadcasting therefore offers cable systems a new source of programming, when the stations which they must carry are off the air.

3. We currently face the issue of cable carriage of late-night broadcasting in a number of contexts. On November 21, 1973, Davis Communications, Inc., filed a "Request for rulemaking," which asked that the Commission adopt a rule allowing carriage of "any television stations not otherwise authorized for carriage during the period commencing at sign-off of the last station to do so in the market and terminating at sign-on of the first station to do so in the market." Davis argued that the rule would have no adverse economic impact on local stations which were not on the air, and that the rule would fulfill the public interest in diversity of television programming. Both the National Cable Television Association and a group of cable television systems filed comments in support of Davis' request, making similar arguments but requesting the Commission to broaden the times during which cable systems could carry additional signals.

4. We also have pending before us several requests for special relief to allow carriage of late-night programming. On October 29, 1973, Spectrum Cable Systems, Inc., filed a "Petition for Special Relief—Request to Carry Additional Station on Part-Time Basis" (CSR-486), which asked permission to carry the late-night programming of Television Station WCVB, Boston, Massachusetts. Spectrum argued that many local employees worked during the evening and that there was no significant local television broadcasting between 1 and 6 a.m. And on February 1, 1974, Cable TV Company of York filed a "Petition for Waiver to Authorize Carriage of Distant Signal during Late Evening/Early Morning Hours" (CSR-504), which requested permission to carry WCAU-TV, Philadelphia, Pennsylvania, on similar grounds.

5. Finally, there currently are on file several applications for certificates of compliance which raise similar issues. A number of applicants have requested permission to carry late-night programming in addition to other signals which are consistent with the rules. Accordingly, we must make at least a preliminary resolution of the issue, in order to treat the proceedings which already are before us.

6. In regulating cable television we always have attempted to insure that cable systems can offer the greatest diversity of programming without injuring broadcast television stations. Par. 88 of our Cable Television Report and Order, 36 FCC 2d 143, thus noted that "those who are not accommodated as are New York or Los Angeles viewers should be entitled to the degree of choice that will afford them a substantial amount of diversity and the public services rendered by local stations." And more recently, we proposed allowing cable television to import network news programs at times when the programs were not broadcast by local broadcast stations, in order to encourage diversity of news programming and opinion. Notice of proposed rulemaking in Docket No. 19859, FCC 73-1139, 43 FCC 2d 913. We encourage any cable carriage of programming which will not hurt the financial viability of local broadcast stations. Though most television viewers are content with a conventional late evening and early night program schedules, a small but significant number have work schedules or personal habits which allow them to watch television only late at night. Accordingly, we believe that limited cable carriage of late-night broadcasting would further the public interest in program diversity.

7. At the same time, we have a continued commitment to preventing cable from becoming a "threat to broadcast television's ability to perform the obligations required in our system of television service." Par. 88, Cable Television Report and Order, supra. We thus are concerned that unrestricted importation of late-night broadcasting might harm local stations in two ways. First, head-on competition with distant signals might encourage local stations to drop their existing late-night operations, particularly if they operated in an area with high cable penetration. Second, and potentially more important, importation of late-night programming might deter local stations from entering the market for late-night broadcasting.[1] We therefore will proceed in an essentially conservative matter at this point, with an eye to liberalizing our approach in the future if cable carriage of late-night broadcasting proves to have no detrimental effect on present or potential local television operations.

8. The proposed rule thus allows a cable television system to import late-night programming only from the sign-off of the last station which the cable system must carry to the sign-on of the first station which the system must carry. This formulation prevents any harmful impact on existing late-night local broadcasters, since it precludes any head-on competition between them and imported signals. It also removes any potential inhibition on local entry into the late-night broadcasting market, since a local station can terminate importation of competing signals simply by expanding its own broadcast day; indeed, to this extent the rule may even encourage local late-night broadcasting—a result which is not inimical to the interests of cable subscribers.[2] The proposed rule does not, however, extend similar protection to additional signals which a system may carry. These stations need no protection outside of their usual markets, since they are not licensed to serve the cable communities into which they may be imported.[3]

9. A pure sign-on to sign-off rule would create hardship for cable subscribers, however, in terms of overlapping programs. Television station schedules are not mechanistic enough to begin and end precisely on the hour. Allowing a cable system to commence importation of a late-night broadcast only after the last local station had completed its sign-off thus might force cable subscribers to miss the first ten or fifteen minutes of an imported program. And at the other extreme, an imported program often will run past the sign-on of the first local station, particularly if the program is a

[1] Indeed, we note that competition from imported late-night stations would be particularly dangerous where only one or two local stations remained on the air, since the potential audience would be more concentrated and thus more likely to fragment. Similar reasons impelled us to limit the number of additional signals in smaller television markets. Par. 90, Cable Television Report and Order, supra.

[2] To be sure, a local station theoretically could harass a cable system by increasing its broadcast day deliberately in order to prevent importation of late-night stations. Given the cost of operating a television station for additional hours, however, we consider this possibility to be extremely remote. And if a cable system could document such overt harassment, we would take necessary remedial action.

[3] We never have accorded the same protection to stations which a system may carry as for stations which a system must carry. For example, our rule concerning manner of carriage, Section 76.55, explicitly applies only "where a television broadcast signal is required to be carried by a cable television system, pursuant to the rules in this subpart * * *"

V 39 I 86 MAY 2 74 XUM

motion picture. Requiring a cable system to terminate importation precisely when the first local station completed its sign-on thus often would force cable subscribers to miss the last part of a program. Accordingly, we feel that some adjustment of the strict sign-off to sign-on approach is appropriate.

10. The proposed rule thus creates a presumption that a station signs off on the hour if it "terminates operations less than thirty minutes after the hour * * *" This provision will cover situations in which a local station broadcasts public service announcements, devotionals, a formal sign-off and the like after it has presented the last major program of the day. A cable system thus could commence its importation of a late-night program on the hour, without waiting for the final and often formalistic termination of a local station's broadcast day.[4]

11. Similarly, the rule would allow a cable system to carry a program until completion, even though a local station signed on. As noted before, requiring a system to cease carriage immediately after the first local station signed on would deprive cable subscribers of programs which already were in progress—an obviously disruptive and undesirable result. We have taken a similar approach in other contexts, where we have deemed the abrupt termination of a program to be inappropriate. Our rules thus provide that "a program substituted may be carried to its completion," where a cable system must delete a program pursuant to our exclusivity rules. Section 76.61–(b)(2)(ii). And our rules relating to manner of carriage establish a general policy in favor of carrying a program to completion.[5] The rule would not relieve a cable system of its obligation to carry all the programs of a station which it must carry, however, if the system lacked sufficient channel capacity to carry both the imported and the local signal.

12. The rule would not require cable systems to secure certificates of compliance in order to commence carriage of late-night stations. Since both local and distant stations continually change their program schedules, the certification process would impose an unnecessary burden on cable systems and television stations alike. Moreover, we have dispensed with the certification requirement in similar situations, such as carriage of otherwise unavailable network programs and carriage of stations which a system must carry. Sections 76.61(e)–(2), 76.11(a). Accordingly, the rule would require a cable system only to notify the Commission and other interested parties thirty days before it commenced carriage of a late-night broadcast station.[6]

13. As noted before, we have not considered whether the rule should be broader or narrower in scope. Though we favor cable carriage of late-night programming, we are well aware that there are several alternative approaches to the problem. Thus a strict sign-off to sign-on carriage rule might be appropriate, despite its disruptive effects on cable subscribers, in order to give local stations more complete protection. Conversely, it might be appropriate to allow a cable system to commence importation when the program begins, or when one or two local stations still are on the air. These and other questions are appropriate for comments from interested parties.

14. Authority for the proposed rule making instituted herein is contained in sections 4(i), 303 and 403 of the Communications Act of 1934, as amended.

15. All interested persons are invited to file written comments on the rule making proposals on or before May 31, 1974 and reply comments on or before June 11, 1974. In reaching a decision on this matter, the Commission may take into account any other relevant information before it, in addition to the comments invited by this Notice.

16. In accordance with the provisions of § 1.419 of the Commission's rules and regulations, an original and 14 copies of all comments, replies, pleadings, briefs, or other documents filed in this proceeding shall be furnished to the Commission. Responses will be available for public inspection during regular business hours in the Commission's Public Reference Room at its Headquarters in Washington, D.C.

Adopted: April 17, 1974.
Released: April 25, 1974.

FEDERAL COMMUNICATIONS COMMISSION,

[SEAL] VINCENT J. MULLINS,
Secretary.

Part 76 of 47 CFR chapter I is amended as follows:

1. In § 76.59 a new paragraph (d)(4) is added to read as follows:

§ 76.59 Provisions for smaller television market.

* * * * *

(d) * * *

(4) Any television station, during the period from sign-off of the last station which the cable television system must carry pursuant to paragraph (a) of this section to the sign-on of the first station which the cable television system must carry pursuant to paragraph (a) of this section; *Provided, however,* That if a station terminates operations less than thirty minutes after the hour, it shall be deemed to have signed off on the prior hour. A cable system may carry a program to its completion. Carriage of such additional stations shall not require prior approval in the certificating process, but shall require service of the information required in § 76.13(b)(1) on the Commission and the parties named in § 76.13(a)(6).

2. In § 76.61 a new paragraph (e)(4) is added to read as follows:

§ 76.61 Provisions for first 50 major television markets.

* * * * *

(e) * * *

(4) Any television station, during the period from sign-off of the last station which the cable television system must carry pursuant to paragraph (a) of this section to the sign-on of the first station which the cable television system must carry pursuant to paragraph (a) of this section; *Provided, however,* That if a station terminates operations less than thirty minutes after the hour, it shall be deemed to have signed off on the prior hour. A cable system may carry a program to its completion. Carriage of such additional stations shall not require prior approval in the certificating process, but shall require service of the information required in § 76.13(b)(1) on the Commission and the parties named in § 76.13(a)(6).

* * * * *

[FR Doc.74-10054 Filed 5-1-74;8:45 am]

[4] To be sure, we recognize that this might lead part of the viewing public to tune from the local station to the imported station, thus missing a small amount of the public service programming which a station is required to carry. We believe this loss to be so incremental, however, as to be *de minimis.*

[5] Section 76.55(b) provides that: "Where a television broadcast signal is carried by a cable television system, pursuant to the rules in this subpart, the programs broadcast shall be carried in full, without deletion or alteration of any portion except as required by this part."

[6] The proposed rule does not provide for the filing of oppositions to notifications, and we do not contemplate considering such. Where a television station can make a compelling showing of economic injury resulting to it from importation of late-night programming, however, we will consider granting special relief. In such a proceeding, however, a station carries a heavy burden of proof. See, e.g., Mickelson Media, Inc., FCC 73-119, 39 FCC 2d 602.

Notices

This section of the FEDERAL REGISTER contains documents other than rules or proposed rules that are applicable to the public. Notices of hearings and investigations, committee meetings, agency decisions and rulings, delegations of authority, filing of petitions and applications and agency statements of organization and functions are examples of documents appearing in this section.

DEPARTMENT OF AGRICULTURE

Forest Service

ENVIRONMENTAL STATEMENTS UNDER PREPARATION AS OF MARCH 15, 1974

A list of environmental statements is here published to provide timely public information on the status of Forest Service environmental statements under preparation as of March 15, 1974. Persons interested in a particular action and environmental statements should contact the responsible official directly.

For ease in use of this list, statements are grouped by Forest Service organizational units proposing the action. Statements marked with an asterisk indicate, in total or in part, land use planning, developments, or activities within inventoried roadless areas. National Forest Inventoried roadless areas are defined as roadless and undeveloped areas 5,000 acres or larger, except that smaller areas adjoining existing Wilderness and Primitive Areas could be included. Existing Wildnerness and Primitive Areas are excluded from this definition.

Forest Service field addresses are given at the end of the listing of environmental statements.

R. MAX PETERSON,
Deputy Chief, Forest Service.

APRIL 24, 1974.

Forest Service environmental statements under preparation as of Mar. 15, 1974

Title of environmental statement	Location of proposal	Nature of proposal (i.e., land use, herbicide, etc.)	Responsible official	Date draft filed w/CEQ (or estimated date)	Estimated date of final

FOREST SERVICE FIELD ADDRESSES

Below are listed Forest Service Regional Offices and addresses, followed by National Forests and their headquarters locations. Research unit and State and Private Forestry Area headquarters are listed on the back page.

NORTHERN REGION

(Address: Federal Bldg., Missoula, Mont. 59801)

Idaho:	
Clearwater	Orofino.
Coeur d'Alene	Coeur d'Alene.
Kaniksu	Sandpoint.
Nezperce	Grangeville.
St. Joe	St. Maries.
Montana:	
Beaverhead	Dillon.
Bitterroot	Hamilton.
Custer	Billings.
Deerlodge	Butte.
Flathead	Kalispell.
Gallatin	Bozeman.
Helena	Helena.
Kootenai	Libby.
Lewis and Clark	Great Falls.
Lolo	Missoula.
Washington:	
Colville	Colville.

ROCKY MOUNTAIN REGION

(Address: Denver Federal Center, Bldg. 85, Denver, Colo. 80225)

Colorado:	
Arapaho	Golden.
Grand Mesa-Uncompahgre [1]	Delta.
Gunnison	Gunnison.
Pike	Colorado Springs.
Rio Grande	Monte Vista.
Roosevelt	Fort Collins.
Routt	Steamboat Springs.
San Isabel	Pueblo.
San Juan	Durango.
White River	Glenwood Springs.
Nebraska:	
Nebraska	Chadron.
South Dakota:	
Blacks Hills	Custer.
Wyoming:	
Bighorn	Sheridan.
Medicine Bow	Laramie.
Shoshone	Cody.

[1] Two separately proclaimed National Forests under one supervisor.

SOUTHWESTERN REGION

(Address: 517 Gold Ave. SW., Albuquerque, N. Mex. 87101)

Arizona:	
Apache	Springerville.
Coconino	Flagstaff.
Coronado	Tucson.
Kaibab	Williams.
Prescott	Prescott.
Sitgreaves	Holbrook.
Tonto	Phoenix.
New Mexico:	
Carson	Taos.
Cibola	Albuquerque.
Gila	Silver City.
Lincoln	Alamogordo.
Santa Fe	Santa Fe.

INTERMOUNTAIN REGION

(Address: 324 25th St., Ogden, Utah 84401)

Idaho:	
Boise	Boise.
Caribou	Pocatello.
Challis	Challis.
Payette	McCall.
Salmon	Salmon.
Sawtooth	Twin Falls.
Targhee	St. Anthony.
Nevada:	
Humboldt	Elko.
Toiyabe	Reno.
Utah:	
Ashley	Vernal.
Cache	Logan.
Dixie	Cedar City.
Fishlake	Richfield.
Manti-La Sal	Price.
Uinta	Provo.
Wasatch	Salt Lake City.
Wyoming:	
Bridger	Kemmerer.
Teton	Jackson.

CALIFORNIA REGION

(Address: 630 Sansome St., San Francisco, Calif. 94111)

California:	
Angeles	Pasadena.
Cleveland	San Diego.
Eldorado	Placerville.
Inyo	Bishop.
Klamath	Yreka.
Lassen	Susanville.
Los Padres	Santa Barbara.
Mendocino	Willows.
Modoc	Alturas.
Plumas	Quincy.
San Bernardino	San Bernardino.
Sequoia	Porterville.
Shasta-Trinity [1]	Redding.
Sierra	Fresno.
Six Rivers	Eureka.
Stanislaus	Sonora.
Tahoe	Nevada City.

PACIFIC NORTHWEST REGION

(Address 319 SW. Pine St., P.O. Box 3623, Portland, Oreg. 97208)

Oregon:	
Deschutes	Bend.
Fremont	Lakeview.
Malheur	John Day.
Mount Hood	Portland.
Ochoco	Prineville.
Rogue River	Medford.
Siskiyou	Grants Pass.
Siuslaw	Corvallis.
Umatilla	Pendleton.
Umpqua	Roseburg.
Wallowa-Whitman [1]	Baker.
Willamette	Eugene.
Winema	Klamath Falls.
Washington:	
Gifford Pinchot	Vancouver.
Mount Baker	Bellingham.
Okanogan	Okanogan.
Olympic	Olympia.
Snoqualmie	Seattle.
Wenatchee	Wenatchee.

ROCK CREEK ADVISORY COMMITTEE

Notice of Meeting

The Rock Creek Advisory Committee will meet at 7:00 p.m. on May 21, 1974. Meeting place will be in Drummond, Montana, in the basement of the Catholic Church.

The purpose of this meeting is to discuss transporttaion corridors and needs in the Rock Creek Drainage: (1) The main Rock Creek Road from Gillies Bridge down Rock Creek to the Clark Fork River, and (2) the Skalkaho Road, State secondary from Highway 10A near Philipsburg to Highway 93 in the Bitterroot Valley. There will also be handouts available and a brief discussion of the Forest Service planning program for the Upper Rock Creek Area (the East Fork-Skalkaho Unit).

The meeting will be open to the public. Any member of the public who wishes to do so shall be permitted to file a written statement with the Committee before or after the meeting. To the extent that time permits, the Committee Chairman may permit interested persons to present oral statements at the meeting.

General participation by members of the public, or questioning of Committee members or other participants shall not be permitted unless approved by the majority of Committee members.

Dated: April 25, 1974.

GORDON F. BALLINGER,
Acting Forest Supervisor,
Deerlodge National Forest.

[FR Doc.74-10029 Filed 5-1-74;8:45 am]

RIO GRANDE NATIONAL FOREST MULTIPLE USE ADVISORY COMMITTEE

Notice of Meeting

The Rio Grande Forest Multiple Use Advisory Committee will meet May 18, 1974 at 1:00 p.m. at the Rio Grande Forest Headquarters, Monte Vista, Colorado.

The purpose of the meeting will be to:

1. Review current Land Use Planning on the Forest and coordination with local Governments through local planning commissions and the Council of Governments.

2. Discuss Sewage and Solid Waste Disposal problems on and adjacent to the National Forest.

3. Proposed dissolution of the Advisory Committee.

The meeting will be open to the public. Persons who wish to attend should notify Forest Supervisor James R. Mathers, Monte Vista, Colorado 81144, telephone 303-852-5941. Public participation is limited to written statements submitted before or after the meeting and as otherwise requested by the Chairman.

This is a rescheduling of the April 27, 1974 meeting, which has been postponed.

JAMES R. MATHERS,
Forest Supervisor.

APRIL 26, 1974.

Rural Electrification Administration

COLORADO-UTE ELECTRIC ASSOCIATION, INC.

Tri-State Generation & Transmission Association, Inc., Proposed Loan Guarantee

Under the authority of Pub. L. 93-32 (87 Stat. 65) notice is hereby given that the Administrator of REA will consider (a) providing a guarantee supported by the full faith and credit of the United States of America for loans in the approximate amount of $217,592,000 to Colorado-Ute Electric Association of Montrose, Colorado, and Tri-State Generation and Transmission Association of Northglenn, Colorado, and (b) supplementing such loans with insured REA loans at 5 percent interest in the amount of approximately $21,845,000 to these cooperatives. These loans would finance the applicants' undivided ownership shares of a project consisting of two 380 MW coal-fired steam generating units near Craig, Colorado, associated transmission facilities of approximately 354 miles of 230 and 345 kV line, and related terminal facilities.

Legally organized lending agencies capable of making, holding and servicing the loans proposed to be guaranteed may obtain information on the proposed project, including engineering and economic feasibility studies and the proposed schedule for the advances to the borrowers of the guaranteed loan funds, from Mr. John J. Bugas, General Manager, Colorado-Ute Electric Association, Inc., P.O. Box 1149, Montrose, Colorado 81401 or Mr. Wendell J. Garwood, Executive Vice President, Tri-State Generation and Transmission Association, Inc., P.O. Box 29198, Denver, Colorado 80229.

In order to be considered, proposals must be submitted by May 10, 1974, to Mr. Bugas or Mr. Garwood. The right is reserved to give such consideration and make such evaluations or other dispositions of all proposals received as Colorado-Ute or Tri-State and REA may deem appropriate. Prospective lenders are advised that in view of the Department of Treasury announcement of February 19, 1974, concerning the Federal Financing Bank and the eligibility of REA programs for FFB financing, it is anticipated that financing proposals for this project will be made by the FFB.

The Rural Electrification Administration has published a revision of proposed REA Bulletin 20-22 entitled "Guarantee of Loans for Bulk Power Supply Facilities," which sets forth agency proposed policies and requirements concerning loan guarantees. The text of this proposed revised Bulletin was published for comment in the FEDERAL REGISTER dated January 3, 1974, page 814.

Copies of the proposed revised REA bulletin 20-22 are available from Director, Information Services Division, Rural Electrification Administration, U.S. Department of Agriculture, Washington, D.C. 20250.

Dated at Washington, D.C., this 26th day of April, 1974.

DAVID A. HAMIL,
Administrator
Rural Electrification Administration.

Department of the Army

WINTER NAVIGATION BOARD ON GREAT LAKES AND ST. LAWRENCE SEAWAY

Notice of Meeting

Pursuant to section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463) notice is hereby given of a meeting of the Winter Navigation Board to be held on May 13, 1974 at the Sheraton Metro Inn, Romulus, Michigan. The meeting will be in session from 10:00 a.m. to 5:30 p.m.

The Winter Navigation Board is a multi-agency organization which includes representatives of Federal agencies and non-Federal public and private interests. It was established to direct the Great Lakes and St. Lawrence Seaway navigation season extension investigations being conducted pursuant to Public Law 91-611.

The primary purpose of the meeting is to approve the Interim Report on extending the navigation season on the Great Lakes-St. Lawrence Seaway System. The Interim Report is to be submitted to the Congress on July 30, 1974. The report will discuss activities and accomplishments of the first three years of the Demonstration Program and Survey Study being carried out on the Great Lakes-St. Lawrence Seaway System.

The meeting will be open to the public subject to the following limitations:

a. As the seating capacity of the meeting room is limited, it is desired that advance notice of intent to attend be provided. This will assure adequate and appropriate arrangements for all attendants.

b. Written statements may be submitted prior to, or up to 10 days following the meeting, but oral participation by the public is precluded because of the time schedule.

Inquiries may be addressed to Mr. David Westheuser, U.S. Army Engineer District, Detroit, Corps of Engineers, P.O. Box 1027, Detroit, Michigan 48231, telephone 313-226-6769.

By authority of the Secretary of the Army.

R. B. BELNAP,
Special Advisor to TAG.

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

MARATHON PIPELINE CO.

Notice of Pipeline Application

APRIL 25, 1974.

Notice is hereby given that, pursuant to section 28 of the Mineral Leasing Act of 1920, as amended (30 U.S.C. 185), the Marathon Pipe Line Company has applied for a right-of-way for an oil and other synthetic liquid fuels pipeline, and related facilities, in the following townships:

SIXTH PRINCIPAL MERIDIAN, COLORADO

T. 11 N., R. 92 W.,
Tps. 10 and 11 N., R. 93 W.;
Tps. 9 and 10 N., R. 94 W.
T. 8 N., R. 95 W.
T. 7 N., R. 9 W.,
Tps. 6 and 7 N., R. 97 W.
T. 5 N., R. 98 W.
T. 4 N., R. 99 W.
T. 3 N., Rs. 100, 101, 102, 103 and 104 W.

SALT LAKE MERIDIAN, UTAH

T. 5 S., Rs. 19, 20, 21, 22 and 23 E.
T. 6 S., Rs. 23, 24 and 25 E.
T. 7 S., R. 25 E.

SIXTH PRINCIPAL MERIDIAN, WYOMING

T. 33 N., R. 81 W.
T. 32 N., R. 82 W.
T. 31 N., R. 83 W.
T. 31 N., 9. 84 W.,
Tps. 28, 29 and 30 N., R. 85 W;
Tps. 26, 27 and 28 N., R. 86 W.;
Tps. 25 and 26 N., R. 87 W.;
Tps. 24 and 25 N., R. 88 W.;
Tps. 23 and 24 N., R. 89 W.;
Tps. 22 and 23 N., R. 90 W.;
Tps. 12, 13, 15, 16, 21 and 22 N., R. 91 W.;
Tps. 13, 14, 15, 16, 17, 18, 19 and 20 N., R. 92 W.

The pipeline will convey oil and other synthetic liquid fuels from the Uintah Basin in Utah to Casper, Wyoming, via Elk Springs, Colorado.

The purpose of this notice is to inform the public that the Bureau will be proceeding with the preparation of environmental and other analyses necessary for determining whether the application should be approved, and if so, under what terms and conditions.

Interested persons should express their interest and views to the Chief, Branch of Lands and Minerals Operations, Bureau of Land Management, P.O. Box 1828, Cheyenne, Wyoming 82001.

PHILIP C. HAMILTON,
Chief, Branch of Lands and Minerals Operations.

[FR Doc.74-10028 Filed 5-1-74;8:45 am]

NATIONAL ADVISORY BOARD COUNCIL

Notice of Meeting

Notice is hereby given that the National Advisory Board Council of the Bureau of Land Management will meet at the Sheraton Inn, Los Angeles, California International Airport, May 18-20, 1974. The first day of the meeting will be devoted to presentations and discussions on the following topics: Director's review and forecast of Bureau programs, and issues and topics for which advice will be sought from the National Advisory Board Council; the role and operation of the Council under the Federal Advisory Committee Act; energy programs and problems as they relate to the national resource lands and Outer Continental Shelf; a slide-map program on the oil shale resources of Northwest Colorado; and, a slide-map program on the Bureau's California Desert program. Additionally, committees will be formed, topics assigned, and committee efforts begun.

The second day of the meeting, May 19, will involve a field trip to selected public-use areas of the California Desert in Mojave and Imperial Counties. Members of the public wishing to participate in the field trip will have to furnish their own transportation. May 20, the final day of the meeting, will be devoted entirely to committee work and a business meeting which will include the election of a Chairman and Vice-Chairman and action on any recommendations the committees may make on assigned topics.

The proposed committees of the National Advisory Board Council and

V 391 86 MAY 2 74 XUM

topics for their consideration at the meeting are as follows:

1. Environmental Protection:
a. Primitive area program.
b. Visitor management.
2. Public Land Uses:
a. Proposed environmental impact statement for the livestock management program.
b. Criteria for utility corridors.
3. Resource Management:
a. Wild horses and burros as an element of multiple use management.
b. Criteria for a land tenure program.
4. Programs and Council Operations:
a. Flow of information to Council members.
b. Relations with other advisory boards.
c. Standing, ad hoc, and between-session committees.
d. Program format, themes, and methods.
e. Disposition of remaining funds.

The meeting will be open to the public. Time will be made available the afternoon of May 18 for a limited number of brief statements by members of the public. Those wishing to make an oral statement should inform the Director (230), Bureau of Land Management, Washington, D.C. 20240, by close of business May 13, 1974. Any interested person may file a written statement with the Council for its consideration. Such statements may be submitted at the meeting or mailed to the Director (230), Bureau of Land Management, Washington, D.C. 20240. Further information concerning the meeting may be obtained from Mr. Jerry D. Harrell, Public Affairs Officer, Bureau of Land Management, Federal Office Building, 2800 Cottage Way, Sacramento, California 95825. His phone is (916) 484-4724.

CURT BERKLUND,
Director.

COLORADO INTERSTATE CORP.

Pipeline Application

APRIL 25, 1974.

Notice is hereby given that, pursuant to Section 28 of the Mineral Leasing Act of 1920, as amended (30 U.S.C. 185), the Colorado Interstate Corporation has applied for a natural gas pipeline right-of-way across the following lands:

SIXTH PRINCIPAL MERIDIAN, WYOMING

T. 20 N., R. 100 W.,
Sec. 12, E½NE¼ and NE¼SE¼.

The pipeline will serve the Ten Mile Draw Unit 4 well in sec. 33, T. 21 N., R. 99 W.

The purpose of this notice is to inform the public that the Bureau will be proceeding with the preparation of environmental and other analyses necessary for determining whether the application should be approved, and if so, under what terms and conditions.

Interested persons should express their interest and views to the Chief, Branch of Lands and Minerals Operations, Bureau of Land Management, P.O. Box 1828, Cheyenne, Wyoming 82001.

PHILIP C. HAMILTON,
Chief, Branch of Lands and Minerals Operations.

EL PASO NATURAL GAS CO.

Pipeline Applications

APRIL 25, 1974.

Notice is hereby given that, pursuant to section 28 of the Mineral Leasing Act of 1920, as amended (30 U.S.C. 185), El Paso Natural Gas Company has applied for three 4½ inch natural gas pipeline rights-of-way across the following lands:

NEW MEXICO PRINCIPAL MERIDIAN, NEW MEXICO

T. 20 S., R. 28 E.,
Sec. 11, N½SE¼, NE¼SW¼.
T. 25 S., R. 24 E.,
Sec. 21, E½SW¼;
Sec. 28, E½W½.

These pipelines will convey natural gas across 1.894 miles of national resource lands in Eddy County, New Mexico.

The purpose of this notice is to inform the public that the Bureau will be proceeding with consideration of whether the applications should be approved, and if so, under what terms and conditions.

Interested persons desiring to express their views should promptly send their name and address to the District Manager, Bureau of Land Management, P.O. Box 1397, Roswell, NM 88201.

FRED E. PADILLA,
Chief, Branch of Lands and Minerals Operations.

[New Mexico 21058]

TRANSWESTERN PIPELINE CO.

Pipeline Application

APRIL 25, 1974.

Notice is hereby given that, pursuant to section 28 of the Mineral Leasing Act of 1920, as amended (30 U.S.C. 185), Transwestern Pipeline Company has applied for a 6 inch natural gas pipeline right-of-way across the following lands:

NEW MEXICO PRINCIPAL MERIDIAN, NEW MEXICO

T. 17 S., R. 30 E.,
Sec. 20, SW¼SE¼, SE¼SW¼;
Sec. 29, N½NW¼.

This pipeline will convey natural gas across .63 miles of national resource lands in Eddy County, New Mexico.

The purpose of this notice is to inform the public that the Bureau will be proceeding with consideration of whether the application should be approved, and if so, under what terms and conditions.

Interested persons desiring to express their views should promptly send their name and address to the District Manager, Bureau of Land Management, P.O. Box 1397, Roswell, NM 88201.

SOUTHERN UNION GAS CO.

Compressor Station Site Application

APRIL 25, 1974.

Notice is hereby given that, pursuant to section 28 of the Mineral Leasing Act of 1920, as amended (30 U.S.C. 185), Southern Union Gas Company has applied for a natural gas compressor station site right-of-way across the following lands:

NEW MEXICO PRINCIPAL MERIDIAN, NEW MEXICO

T. 15 N., R. 1 W.,
Sec. 33, N½SE¼.

This right-of-way is for construction of a natural gas compressor station site and will cover 5.0 acres of national resource lands in Sandoval County, New Mexico.

The purpose of this notice is to inform the public that the Bureau will be proceeding with consideration of whether the application should be approved, and if so, under what terms and conditions.

Interested persons desiring to express their views should promptly send their name and address to the District Manager, Bureau of Land Management, 3550 Pan American Freeway, NE, Albuquerque, NM 87107.

FRED E. PADILLA,
Chief, Branch of Lands and Minerals Operations.

[OR 11113]

OREGON

Notice of Proposed Withdrawal and Reservation of Land

APRIL 26, 1974.

The Bureau of Land Management, Department of the Interior, has filed an application, Serial No. OR 11113, for the withdrawal of public land described below, from all forms of appropriation under public land laws, including the mining laws (30 U.S.C., Ch. 2), but not from leasing under the mineral leasing laws.

The applicant desires to have the area withdrawn as the Hunter Creek Bog, for the purpose of establishing a research natural area.

All persons who wish to submit comments, suggestions, or objections in connection with the proposed withdrawal may present their views in writing no later than June 1, 1974, to the undersigned officer of the Bureau of Land Management, Department of the Interior, (729 N.E. Oregon St.), P.O. Box 2965, Portland, Oregon 97208.

The authorized officer of the Bureau of Land Management will undertake such investigations as necessary to determine the existing potential demand for the land and its resources.

After receipt of comments from interested parties, he will prepare a report for consideration by the Secretary of the Interior who will determine whether or not the land will be withdrawn as requested by the Bureau of Land Management.

The determination of the Secretary on the application will be published in the FEDERAL REGISTER. A separate notice will be sent to each interested party of record.

If circumstances warrant it, a public hearing will be held at a convenient time and place which will be announced.

The land involved in the application is:

WILLAMETTE MERIDIAN

T. 37 S., R. 14 W.,
Sec. 13, SE¼.

The area described contains 160 acres, in Curry County, Oregon.

MARVIN D. LENOUE,
Acting Chief, Branch of Lands and Minerals Operations.

NEW MEXICO GRAZING DISTRICT 3 ADVISORY BOARD

Notice of Meeting

Notice is hereby given that the Advisory Board for the Las Cruces, New Mexico Grazing District will hold a meeting and field tour on June 5-6, 1974. The business meeting will start at 1:00 p.m., June 5 at the Ramada Inn, Highway 70-80 East, Deming, New Mexico. The agenda for the meeting will include consideration of BLM's general land exchange policy, a temporary office in Lordsburg, term permits, grazing fees, predator control, acreages withdrawn from grazing privileges for experimental purposes, procedures for making up future agendas, and a preview of the field tour. The meeting will be open to the public.

On June 6 the Board will tour the Phelps-Dodge developments under construction in the Playas Valley and vicinity to observe present and potential impacts upon national resource lands in that area. The tour will leave the Ramada Inn in Deming at 7:30 a.m. and return to Deming about 4:30 p.m. Members of the public who wish to attend must provide their own transportation.

Requests for information about the meeting or field tour should be directed to BLM District Manager, P.O. Box 1420, 1705 North Valley Drive, Las Cruces, New Mexico 88001.

W. K. BARKER,
District Manager.

Bureau of Mines

DIRECTOR ET AL.

Redelegation of Authority for Research and Development Contracts and Grants

Bureau of Mines delegations of authority with respect to entering into contracts and making grants, issued June 17, 1971 (36 FR 11674), are revised as set forth below. The numbering system is that of the Bureau of Mines Manual. This document announces the following changes:

Officials in the Eastern Administrative Office, having acquired the capability to enter into and administer research and development contracts, are redelegated the contractual authority of the Director, Bureau of Mines in a limited amount.

Since funds were authorized under the Resource Recovery Act of 1970 (formerly the Solid Waste Disposal Act of October 20, 1965) only through fiscal year ending June 30, 1973, authority formerly redelegated under this Act is terminated.

The revised text in section 215.9 was necessitated by Secretarial Order No. 2953 which established within the Department of the Interior the Mining Enforcement and Safety Administration (MESA) and made it responsible for administering certain functions under the Federal Coal Mine Health and Safety Act of 1969 (Pub. L. 91-173; 30 U.S.C. 801-960) and the Federal Metal and Nonmetallic Mine Safety Act (Pub. L. 89-577; (30 U.S.C. 721-740)) Section 14 of the Order reassigned to the Director, Bureau of Mines and the Administrator, Mining Enforcement and Safety Administration those delegations of authority affected by transfer of program responsibility or abolishment of positions.

RESEARCH CONTRACTS AND GRANTS

SEC. 215.2.1. *Research Contracts.* The Director of the Bureau of Mines may enter into scientific and technological research contracts pursuant to Public Law 89-672 and, with respect to any such contract involving $25,000 or less, may make the determinations specified in paragraph (11), subsection (c) of section 302 of the Federal Property and Administrative Services Act of 1949, as amended (41 U.S.C. sec. 252(c)(11)).

SEC. 215.2.4. *Grants.* With respect to problems related to the programs of the Bureau authorized by statute, the Director of the Bureau of Mines may make grants for the support of basic scientific research to nonprofit institutions of higher education or to nonprofit organizations whose primary purpose is the conduct of scientific research pursuant to 42 U.S.C. secs. 1891 and 1892.

SEC. 215.2.5. *Redelegation.* The authorities granted in section 215.2.1 and 215.2.4 above are redelegated to the following officials:

Deputy Director—Mineral Resources and Environmental Development
Assistant Director—Administration
Chief, Division of Procurement and Property Management

And in amounts not to exceed $500,000;

Chief, Branch of Contracts and Grants
Chief, Western Administrative Office
Chief, Branch of Procurement and Property Operations, Western Administrative Office
Chief, Eastern Administrative Office
Chief, Branch of Procurement and Property Management, Eastern Administrative Office

These authorities may not be redelegated.

FEDERAL COAL MINE HEALTH AND SAFETY ACT OF 1969

SEC. 215.9.1. *Delegation of Authority.* Except as provided in 200 DM 1, the Director, Bureau of Mines is authorized to exercise, subject to regulations issued by the Secretary of the Interior, the authority of the Secretary under the Federal Coal Mine Health and Safety Act of 1969 (Pub. L. 91-173; 30 U.S.C. 801-960) with respect to:

A. The initiation of research for the purposes of subsection (c) of section 101 and subsection (b) of section 301 of the Act; and

B. Studies, research, experiments, demonstrations, and the making of grants and contracts under section 501 of the Act, except that the Director shall not make a contract or grant for work which would require an exception to any mandatory standard unless the Administrator, Mining Enforcement and Safety Administration, has first granted an exception for that purpose.

SEC. 215.9.2. *Redelegation of Authority.* In the initiation of research for the purposes of subsections 101(c) and 301(b); and in carrying out the provisions for research, demonstrations, experiments, and studies under section 501 of the Act, the authority of the Director to enter into contracts with, and make grants to, public and private agencies and organizations and individuals is redelegated to the following officials:

V 39 I 86
MAY 2 74
XUM

Assistant Director—Administration
Chief, Division of Procurement and Property Management

And in amounts not to exceed $500,000:

Chief, Branch of Contracts and Grants
Chief, Western Administrative Office
Chief, Branch of Procurement and Property Operations, Western Administrative Office
Chief, Eastern Administrative Office
Chief, Branch of Procurement and Property Management, Eastern Administrative Office

These authorities may not be redelegated.

RICHARD R. HITE,
Deputy Assistant Secretary of the Interior.

APRIL 26, 1974.

National Park Service

[Int Des 74-47]

PROPOSED KLONDIKE GOLD RUSH NATIONAL HISTORICAL PARK, ALASKA

Notice of Availability of Draft Environmental Statement

Pursuant to Section 102(2)(C) of the National Environmental Policy Act of 1969, the Department of the Interior has prepared a draft environmental statement for the proposed Klondike Gold Rush National Historical Park, Alaska.

The statement considers the establishment, management, and use of the proposed park.

Written comments on the environmental statement are invited and will be accepted for a period of forty-five (45) days following publication of this notice. Comments should be addressed to the Regional Director, Pacific Northwest Region, National Park Service, at the address given below.

Copies are available from or for inspection at the following locations:

Pacific Northwest Region, National Park Service, Fourth and Pike Bldg., Seattle, Wash. 98101.

Alaska State Office, National Park Service, Suite 250, 334 West Fifth Avenue, Anchorage, Alaska 99501.

Juneau Office, National Park Service, Federal Bldg., Room 602, Juneau, Alaska 99801.

Dated: April 25, 1974.

ROYSTON C. HUGHES,
Assistant Secretary of the Interior.

[FR Doc.74-10304 Filed 5-1-74;11:31 am]

DEPARTMENT OF HEALTH EDUCATION, AND WELFARE

Food and Drug Administration

PANEL ON REVIEW OF ALLERGENIC EXTRACTS

Notice of Meeting

Pursuant to the Federal Advisory Committee Act of October 6, 1972 (Public Law 92-463, 86 Stat. 770-776; 5 U.S.C. App.), the Food and Drug Administration announces the following public advisory committee meeting and other required information in accordance with provisions set forth in section 10(a)(1) and (2) of the act:

Committee name	Date, time, place	Type of meeting and contact person
Panel on Review of Allergenic Extracts.	May 24, 9 a.m., Room 121, Bldg. 29, National Institutes of Health, 9000 Rockville Pike, Bethesda, Md.	Open 9 a.m. to 10 a.m., closed after 10 a.m. Clay Sisk, Room 220, Bldg. 29, 9000 Rockville Pike, Bethesda, Md. 20014, 301-496-2883.

Purpose. Reviews and evaluates available data concerning the safety, effectiveness, and adequacy of labeling of currently marketed biological products consisting of products or materials, either singly or in combination, that are administered to man for the diagnosis, prevention, or treatment of allergies and allergic diseases.

Agenda. Open session: Panel orientation; introductory session; and panel organizational matters. Closed session: General review of data submitted and assignments to panel members.

Agenda items are subject to change as priorities dictate.

During the open sessions shown above, interested persons may present relevant information or views orally to any committee for its consideration. Information or views submitted to any committee in writing before or during a meeting shall also be considered by the committee.

A list of committee members and summary minutes of meetings may be obtained from the contact person for the committee both for meetings open to the public and those meetings closed to the public in accordance with section 10(d) of the Federal Advisory Committee Act.

Most Food and Drug Administration advisory committees are created to advise the Commissioner of Food and Drugs on pending regulatory matters. Recommendations made by the committees on these matters are intended to result in action under the Federal Food, Drug, and Cosmetic Act, and these committees thus necessarily participate with the Commissioner in exercising his law enforcement responsibilities.

The Freedom of Information Act recognized that the premature disclosure of regulatory plans, or indeed internal discussions of alternative regulatory approaches to a specific problem, could have adverse effects upon both public and private interests. Congress recognized that such plans, even when finalized, may not be made fully available in advance of the effective date without damage to such interests, and therefore provided for this type of discussion to remain confidential. Thus, law enforcement activities have long been recognized as a legitimate subject for confidential consideration.

These committees often must consider trade secrets and other confidential information submitted by particular manufacturers which the Food and Drug Administration by law may not disclose, and which Congress has included within the exemptions from the Freedom of Information Act. Such information includes safety and effectiveness information, product formulation, and manufacturing methods and procedures, all of which are of substantial competitive importance.

In addition, to operate most effectively, the evaluation of specific drug or device products requires that members of committees considering such regulatory matters be free to engage in full and frank discussion. Members of committees have frequently agreed to serve and to provide their most candid advice on the understanding that the discussion would be private in nature. Many experts would be unwilling to engage in candid public discussion advocating regulatory action against a specific product. If the committees were not to engage in the deliberative portions of their work on a confidential basis, the consequent loss of frank and full discussion among committee members would severely hamper the value of these committees.

The Food and Drug Administration is relying heavily on the use of outside experts to assist in regulatory decisions. The Agency's regulatory actions uniquely affect the health and safety of every citizen, and it is imperative that the best advice be made available to it on a continuing basis in order that it may most effectively carry out its mission.

A determination to close part of an advisory committee meeting does not mean that the public should not have ready access to these advisory committees considering regulatory issues. A determination to close the meeting is subject to the following conditions: First, any interested person may submit written data or information to any committee, for its consideration. This information will be accepted and will be considered by the committee. Second, a portion of every committee meeting will be open to the public, so that interested persons may present any relevant information or views orally to the committee. The period for open discussion will be designated in any announcement of a committee meeting. Third, only the deliberative portion of a committee meeting, and the portion dealing with trade secret and confidential information, will be closed to the public. The portion of any meeting during which nonconfidential information is made available to the committee will be open for public participation. Fourth, after the committee makes its recommendations and the Commissioner either accepts or rejects them, the public and the individuals affected by the regulatory decision involved will have an opportunity to express their views on the decision. If the decision results in promulgation of a regulation, for example, the proposed regulation will be published for public comment. Closing a committee meeting for deliberations on regulatory matters will therefore in no way preclude public access to the committee itself or full

public comment with respect to the decisions made based upon the committee's recommendation.

The Commissioner has been delegated the authority under section 10(d) of the Federal Advisory Committee Act to issue a determination in writing, containing the reasons therefor, that any advisory committee meeting is concerned with matters listed in 5 U.S.C. 552(b), which contains the exemptions from the public disclosure requirements of the Freedom of Information Act. Pursuant to this authority, the Commissioner hereby determines, for the reasons set out above, that the portions of the advisory committee meetings designated in this notice as closed to the public involve discussion of existing documents falling within one of the exemptions set forth in 5 U.S.C. 552(b), or matters that, if in writing, would fall within 5 U.S.C. 552(b), and that it is essential to close such portions of such meetings to protect the free exchange of internal views and to avoid undue interference with Agency and committee operations. This determination shall apply only to the designated portions of such meetings which relate to trade secrets and confidential information or to committee deliberations.

Dated: April 26, 1974.

A. M. SCHMIDT,
Commissioner of Food and Drugs.

[FR Doc.74-10048 Filed 5-1-74;8:45 am]

[Docket FDC-D-123; NDA Nos. 8-986 and 10-144]

HYNSON, WESTCOTT, AND DUNNING, INC.

Lutrexin and Trexinest; Notice of Hearing

In the FEDERAL REGISTER of March 22, 1969 (34 FR 5556), the Commissioner of Food and Drugs issued a notice of opportunity for hearing on a proposal to withdraw approval of the new drug applications for Lutrexin Tablets, NDA 8-986, and Trexinest Tablets, NDA 10-144. The grounds for such proposed withdrawal were the Commissioner's conclusion that the drugs lacked substantial evidence of effectiveness for use under the conditions of use prescribed, recommended, or suggested in their labeling. By letter of April 18, 1969, Hynson, Westcott & Dunning, Inc., holder of the NDA's, requested a public hearing on the proposed withdrawal, and in addition asserted that the drugs were no longer new drugs within the meaning of 21 U.S.C. 321(p).

By letter of May 19, 1970, the Commissioner advised Hynson, Westcott & Dunning of the promulgation of new regulations governing requests for a hearing and defining the basic standards of adequate and well-controlled clinical studies which could be considered substantial evidence of effectiveness, then codified at 21 CFR 130.14 and 130.12(a)(5) (recodified as 21 CFR 314.200 and 314.111(a)(5) in the FEDERAL REGISTER of March 29, 1974 (39 FR 11718)), respectively. The Commissioner advised Hynson to amend its request for a hearing to conform to these regulations. On October 16, 1970, subsequent to the dismissal of "Hynson, Westcott & Dunning v. Finch," No. 21112, D. Md., 1970 (a suit in which the firm sought a declaratory judgment that Lutrexin and Trexinest were not subject to the new drug requirements), the firm submitted affidavits of physicians and literature references in support of its contention that there is substantial evidence of effectiveness of Lutrexin and Trexinest and that the products are not new drugs.

After reviewing the submitted material, the Commissioner concluded that no genuine and substantial issue of fact existed requiring a hearing, and therefore entered an order, published in the FEDERAL REGISTER of June 18, 1971 (36 FR 11763), denying a hearing and withdrawing approval of the NDA's for Lutrexin and Trexinest. Hynson, Westcott & Dunning sought review of this order in the United States Court of Appeals for the Fourth Circuit, which vacated the order, holding that withdrawal of approval of the NDA's without a hearing was error. "Hynson, Westcott & Dunning v. Richardson," 461 F. 2d 215 (C.A. 4, 1972). The Supreme Court granted a writ of certiorari, and on June 18, 1973, issued an opinion in which it specifically upheld the validity of the Food and Drug Administration's summary judgment procedures for withdrawal of NDA's and the regulations setting forth criteria for an adequate and well-controlled clinical study. "Weinberger v. Hynson, Westcott & Dunning," 412 U.S. 609 (1973). However, a "majority [of the Court] were of the view that the submission [of Hynson] was sufficient to warrant a hearing" (412 U.S. at 623), and therefore the Court affirmed the Court of Appeals on this issue. The Court held that Lutrexin was not entitled to "grandfather" protection by virtue of section 107(c)(4) of the Drug Amendments of 1962, since it was covered by an effective NDA as of October 9, 1962, the effective date of the Amendments which required proof of efficacy for all new drugs.

With respect to the new drug issue, the Court held that the Food and Drug Administration has jurisdiction to determine the new drug status of a product as a part of or independent of proceedings to withdraw approval of an NDA. The Court specifically held, in determining new drug status, that "the hurdle of 'general recognition' of effectiveness requires at least 'substantial evidence' of effectiveness for approval of an NDA. In the absence of any evidence of adequate and well-controlled investigation supporting the efficacy of Lutrexin, a fortiori Lutrexin would be a 'new drug' subject to the provisions of the act." 412 U.S. at 629-30. Since the Court held that a hearing was necessary to determine the "substantial evidence" issue, the Court stated that "[c]onsequently, any ruling as to Lutrexin's 'new drug' status is premature and must await the outcome of the hearing." 412 U.S. at 632.

Hynson, Westcott & Dunning has not submitted any data in support of the effectiveness of Lutrexin and Trexinest since its submission of October 16, 1970, and the Commissioner concludes that there remains a lack of substantial evidence of the effectiveness of these drugs and that the NDA's should be withdrawn pursuant to 21 U.S.C. 355(e).

Therefore, pursuant to the decision of the Supreme Court and in accordance with the provisions of the Federal Food, Drug, and Cosmetic Act (section 505(e)) and § 314.200(g) and under authority delegated to the Commissioner (21 CFR 2.120): *It is ordered,*

1. That a public hearing be held to receive evidence on the issue of whether NDA 8-986 (Lutrexin) and NDA 10-144 (Trexinest) should be withdrawn under the provisions of 21 U.S.C. 355(e).

2. That the specific issues to be determined at such hearing are as follows:

a. Whether there exists substantial evidence of the effectiveness of Lutrexin and Trexinest for the conditions of use prescribed, recommended, or suggested in their labeling, i.e., whether there exist adequate and well-controlled clinical studies, as defined by 21 CFR 314.111(a)(5), on the basis of which it could fairly and responsibly be concluded by experts, qualified by scientific training and experience to evaluate the drugs, that the drugs have the effect they purport or are represented to have under the conditions of use prescribed, recommended, or suggested in their labeling.

b. Whether, in addition, with respect to Trexinest tablets, the drug complies with the requirements of 21 CFR 3.86 relating to fixed combination drugs, specifically, whether there exists substantial evidence, as defined above, that each component of Trexinest contributes to the claimed effect of the drug, and that the dosage of each component is such that the combination is safe and effective for a significant patient population requiring such concurrent therapy, as defined in the labeling of the drug.

The Commissioner concludes that the only issue to be determined at the hearing is the existence of substantial evidence as outlined above. If, following the hearing, the Commissioner concludes that there is substantial evidence of the effectiveness of Lutrexin and Trexinest, the Commissioner will then consider whether a further hearing is necessary, if requested, to determine whether the products are new drugs, i.e., whether the effectiveness and safety of the drugs are generally recognized among qualified experts. If the Commissioner concludes that substantial evidence of effectiveness is lacking, then a fortiori Lutrexin and Trexinest would be new drugs. "Weinberger v. Hynson, Westcott & Dunning, Inc.," 412 U.S. at 629-30.

The hearing shall take place in Hearing Room 4A-35, Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20852. The presiding administrative law judge shall be Irving Sommer. The hearing shall convene on June 17, 1974 at 9:30 a.m. Written appearances must be filed with the Hearing Clerk, Food and Drug Administration, Room 6-86,

V 39 I 86 MAY 2 74 XUM

5600 Fishers Lane, Rockville, MD 20852, not later than May 13, 1974.

Elsewhere in this issue of the FEDERAL REGISTER is a notice of Prehearing Conference, issued by Judge Sommer, setting the prehearing conference for Wednesday, May 15, 1974, at 10:00 a.m. At the Prehearing Conference the Bureau of Drugs will move for an order requiring the advance submission of all documentary evidence to be offered at the hearing pursuant to 21 CFR 314.204 and 314.220. Such submission to occur no later than May 31, 1974.

The hearing will be open to the public. Since only Hynson, Westcott & Dunning requested a hearing, it is the only person who may file appearance as a party. Any interested person, not a party, may appear at and participate in the hearing and shall have the right to present evidence and file pleadings relevant to the issues, so long as an appearance is filed by any such person not later than May 13, 1974.

Dated: April 30, 1974

SAM D. FINE,
Associate Commissioner for Compliance.

[FR Doc.74-10299 Filed 5-1-74;11:55 am]

[Docket FDC-D-123; NDA Nos. 8-986 and 10-144]

HYNSON, WESTCOTT, AND DUNNING, INC.

Lutrexin and Trexinest; Notice of Prehearing Conference

Elsewhere in this issue of the FEDERAL REGISTER, the Commissioner of Food and Drugs has ordered that a public hearing be held in this matter.

Pursuant to § 314.204 (21 CFR 314.204) (formerly § 130.18, recodified in the FEDERAL REGISTER of March 29, 1974 (39 FR 11718)), a prehearing conference for the purposes of simplification of the issues; the possibility of obtaining stipulations, admissions of facts, and documents; the limitation of the number of expert witnesses; the scheduling of witnesses to be called; the advance submission of all documentary evidence; and such other matters as may aid in the disposition of this proceeding will be held in Room 4A-35, Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20852, beginning at 10:00 a.m. on Wednesday, May 15, 1974.

Dated: April 30, 1974.

IRVING SOMMER,
Administrative Law Judge.

Office of Education

NATIONAL ADVISORY COUNCIL ON INDIAN EDUCATION (FULL COUNCIL)

Notice of Meeting

Notice is hereby given, pursuant to section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463), that the next meeting of the National Advisory Council on Indian Education (Full Council) will be held on May 11 and 12, 1974, from 9:00 a.m. to 5:00 p.m. (with planning and work session May 10, 1974) at Tamanaca Motel, 1725 Tulane Avenue, New Orleans, La.

The National Advisory Council on Indian Education is established under Section 401 of the Indian Education Act (Pub. L. 92-318, Title IV). The Council is directed to:

Advise the Commissioner in the preparation of general regulations and with respect to policy matters arising in the administration of this title, including policies and procedures governing the approval of State plans under Section 318 and policies to eliminate duplication, and to effectuate the coordination of programs under this title and other programs offering Indian Education activities and services.

The Council shall review the administration and effectiveness of programs under this title, make recommendations with respect thereto, and make annual reports to the President of its findings and recommendations (including recommendations for changes in this title and other federal laws relating to Indian Education activities and services). The President shall transmit each such report to the Congress together with his comments and recommendations.

The proposed agenda includes:

1. Review of Title IV, Part A proposals.
2. Evaluating and planning for NACIE's role in adjusting to program changes.
3. Regular Council business.

Records shall be kept of all Council proceedings and shall be available for public inspection at the Office of the National Advisory Council on Indian Education located at 425 13th Street, NW., Room 326, Washington, D.C. 20004.

Signed at Washington, D.C. on April 25, 1974.

DWIGHT A. BILLEDEAUX,
Executive Director, National Advisory Council on Indian Education.

OFFICE OF EDUCATION

Statement of Organization, Functions and Delegations of Authority

Part 2 (Office of Education) Section 2-B, Organization and Functions, of the Statement of Organization, Functions, and Delegations of Authority for the Department of Health, Education, and Welfare is hereby amended as follows:

The statement immediately following the Office of Management is hereby amended to read as follows:

OFFICE OF MANAGEMENT

The Office of Management plans, directs and coordinates the activities of all segments of the Office having to do with management planning and evaluation, administrative and business management and operation and management of a program of low interest long-term insured loans for college and vocational students.

The following statement is added immediately following the statement for the Office of Management, Management Systems and Analysis Division:

OFFICE OF GUARANTEED STUDENT LOANS

The Office of Guaranteed Student Loans plans, directs and evaluates all administrative activities associated with the operation and management of a program of low interest long-term insured loans for college and vocational students under which loans made by commercial and other lenders are insured (or reinsured) by the Federal Government and insured by State and nonprofit private agencies. Provides for payments to reduce interest costs to student borrowers and payments of special incentive allowances to lenders including payment of claims on insured loans.

The statement under the heading Bureau of Postsecondary Education, Office of Student Assistance, Division of Insured Loans is deleted in its entirety.

Dated: April 25, 1974.

THOMAS S. MCFEE,
Acting Assistant Secretary for Administration and Management.

WISCONSIN

Notice of Major Disaster and Related Determinations

Pursuant to the authority vested in the Secretary of Housing and Urban Development by the President under Executive Order 11749 of December 10, 1973; and delegated to me by the Secretary under Department of Housing and Urban Development Delegation of Authority, Docket No. D-73-238; and by virtue of the Act of December 31, 1970, entitled "Disaster Relief Act of 1970" (84 Stat. 1744), as amended by Public Law 92-209 (85 Stat. 742); notice is hereby given that on April 26, 1974, the President declared a major disaster as follows:

I have determined that the damage in certain areas of the State of Wisconsin resulting from tornadoes, occurring on April 21, 1974, is of sufficient severity and magnitude to warrant a major disaster declaration under Public Law 91-606. I therefore declare that such a major disaster exists in the State of Wisconsin. You are to determine the specific areas within the State eligible for Federal assistance under this declaration.

Notice is hereby given that pursuant to the authority vested in the Secretary of Housing and Urban Development under Executive Order 11749, and delegated to me by the Secretary under Department of Housing and Urban Development Delegation of Authority, Docket No. D-73-238, to administer the Disaster Relief Act of 1970 (Public Law 91-606, as amended), I hereby appoint Mr. Robert E. Connor, HUD Region 5, to act as the Federal Coordinating Officer to perform the duties specified by Section 201 of that Act for this disaster.

I do hereby determine the following areas in the State of Wisconsin to have been adversely affected by this declared major disaster:

The Counties of:

Dodge	Sheboygan
Fond du Lac	Winnebago

This disaster has been designated as FDAA-431-DR.

Dated: April 26, 1974.

DEPARTMENT OF TRANSPORTATION

Coast Guard

[CGD 74-120]

ILLINOIS CENTRAL GULF RAILROAD BRIDGE AND ILLINOIS RIVER, MILE 43.2

Proposed Bridge Alteration; Hearing

Notice is hereby given that a public hearing regarding the Illinois Central Gulf Railroad bridge across the Illinois River, at mile 43.2, will be held on Friday, 7 June 1974, at 10:00 a.m. in Room 1612, Federal Building, 1520 Market Street, St. Louis Missouri 63103. This hearing is being held under the authority of section 3 of the Act of June 21, 1940 (Truman-Hobbs Act) 54 Stat. 498 (33 U.S.C. 513); sec. 4(f), 80 Stat. 934, as amended (49 U.S.C. 1653(f)); sec. 6(g)(3), 80 Stat. 937 (49 U.S.C. 1655(g)(3)); 33 CFR 116.20. and 49 CFR 1.46(c)(6).

The existing bridge, which has a swing span, provides approximately 120 feet of horizontal clearance in each of the two draws when measured normal to the channel axis. A number of complaints have been received alleging that the bridge is unreasonably obstructive to navigation. The purpose of the hearing is to determine whether alteration is needed and if so, what alteration is required having due regard for the necessity of free and unobstructed navigation upon the river. The needs of rail traffic will also be considered.

Public comments, views, and data are required for ascertaining whether the bridge unreasonably obstructs navigation, whether vessels have unreasonable difficulty in passing through the bridge, the changes necessary to render navigation through or under the bridge reasonably free, easy and unobstructed, the character and amount of commerce affected, whether the commerce affected is sufficient to justify alteration of the bridge, and the impact of the alteration, if made, upon the quality of the human environment.

Any person who wishes to appear and be heard at this Public Hearing may do so. Persons planning to appear and be heard are requested to notify the Commander, Second Coast Guard District, Federal Building, 1520 Market Street, St. Louis, Missouri 63103, anytime prior to the hearing indicating the amount of time required. Depending upon the number of scheduled statements, it may be necessary to limit the amount of time allocated to each person. Limitations of time allocated, if required, will be announced at the beginning of the hearing. Written statements and exhibits may be submitted in place of, or in addition to oral statements, and will be made a part of the record of the hearing. Such written statements and exhibits may be delivered at the hearing or mailed in advance to Commander, Second Coast Guard District.

W. M. BENKERT,
Rear Admiral, U.S. Coast Guard, Chief, Office of Marine Environment and Systems.

APRIL 26, 1974.

ATOMIC ENERGY COMMISSION

[License No. 29-08449-03E]

ELECTRONS CO.

Issuance of Byproduct Material License

Please take notice that the Atomic Energy Commission has, pursuant to § 32.26 of 10 CFR Part 32, issued License No. 29-08449-03E to Electrons Company, 65 Passaic Avenue, Fairfield, New Jersey 07006, which authorizes the distribution of Model 101 fire detectors to persons exempt from the requirements for a license pursuant to § 32.20 of 10 CFR Part 30.

1. The devices are designed to detect incipient fires by responding to the products of combustion produced by thermal decomposition of building materials or contents prior to the appearance of visible smoke, flame, or appreciable heat. The sensitive element of the detector is an ionization chamber in which air flowing into the chamber is made conductive by alpha particles emitted by americium 241.

2. The byproduct material incorporated in the detector is americium in the oxide form contained in foils manufactured by Nuclear Radiation Developments (Model A-001) or by Amersham/Searle (Model AMM W862). The nominal activity contained in the unit is 3.5 microcuries but the maximum activity is 4.0 microcuries.

3. Each exempt unit will have a label identifying the manufacturer (Electrons Company) and the byproduct material (americium 241) contained in the unit and recommending that the unit be returned to Electrons Company for repair or disposal.

A copy of the license and the license application containing additional information are available for public inspec-

[Docket No. RM-50-2]

EFFLUENTS FROM LIGHT-WATER COOLED NUCLEAR POWER REACTORS

Hearing

The Commission has determined to hear oral argument in the above-entitled matter on May 21, 1974. The argument will commence at 10:00 a.m.

While participants may present oral argument on any aspect of the proceedings, the Commission is particularly interested in participants' views as to the following matters:

1. Cost-benefit considerations of the rule proposed by the staff in its Concluding Statement dated February 20, 1974, including any necessary backfitting.

2. The need for specific Commission guidance concerning application of Appendix I.

3. Application of standards on a site basis, as opposed to a reactor basis, for gaseous releases.

4. Assumptions underlying the staff's models for calculating doses to individuals from the food pathway.

Any participants who wish to present oral argument to the Commission, and have not submitted a request to date, shall notify the Secretary in writing on or before May 6, 1974. Requests received after that date will not be considered. The Commission may group participants with substantially like interests and may direct that such groups make a single presentation.

The Secretary will notify participants who file timely requests to present oral argument of the place for the argument, the order of presentation, the time allotted, and other procedural details.

It is so ordered.

Dated at Germantown, Maryland this 29th day of April, 1974.

By the Commission.

PAUL C. BENDER,
Secretary of the Commission.

CIVIL AERONAUTICS BOARD

[Docket No. 26546, et al; Order No. 74-4-154]

THE FLYING TIGER LINE INC.

Increased Air Freight Rates; Order of Suspension

Adopted by the Civil Aeronautics Board at its office in Washington, D.C. on the 29th day of April, 1974.

By tariff revisions bearing a posting date of March 15 and marked to become effective May 1, 1974, The Flying Tiger Line Inc. (Tiger) proposes to increase its domestic air freight rates as follows:

1. Most bulk minimum charges by $1.00;
2. General commodity bulk and container rates for markets, 1,000 miles and under in both directions by 12 percent;
3. Westbound general commodity bulk and container rates for mileages 1,001 through 1,800 by 8 percent—eastbound rates for the same mileages by 12 percent;
4. Eastbound general commodity bulk and container rates over 1,800 miles by 10 percent;
5. Westbound general commodity bulk and container rates over 1,800 miles by 5 percent; and
6. Eastbound and westbound specific commodity rates, with certain exceptions, by 10 percent.

Overall, Tiger is proposing a general commodity rate scale essentially based on rates in effect prior to January 31, 1974, increased by its rates effective on that date and by the rates currently proposed, and adjusted for long-haul/short-haul and eastbound-westbound discrepancies. The carrier asserts that the scale is a significant step toward rationalization of the domestic structure by increasing unjustifiably low rates and eliminating discrimination between markets.

Complaints requesting suspension pending investigation were received from Omark Industries and Tektronix, Inc., both located in Oregon, manufacturers of various types of machinery and metal products. The complaints are directed against proposed increases in specific commodity rates on those products. They variously assert, inter alia, that the complainants are shippers of a significant volume of air freight based on rates negotiated with the airlines; that operating procedures have been established upon the basis of air transport; that the proposed rate increases on top of those recently effected will be excessive, amounting to as much as 21 percent; and that these increases will be very burdensome and will divert the traffic to surface transportation.

In support of its proposal, and in answer to the complaints, Tiger asserts, inter alia, that the increases are necessary to recover increases in fuel costs in spite of improved operating efficiencies, and to implement needed rate structure revisions; that based on a restatement of 1973 operations, at current fuel prices, the proposal would increase annual revenues by $5.2 million and result in a return on investment of 7.4 percent; that without the proposed increase, return on investment would be only 2.3 percent; that in formulating its proposal the carrier was guided by recent Board decisions indicating a preference on the part of the Board for carriers to propose a change in the domestic rate structure; that Tiger has utilized its costing methodology in Docket 22859 adjusted for recent increases in the price of fuel and terminal handling costs; and that neither complainant has substantiated its claim that it cannot afford to pay the increased rates.

Tiger also states that the Board's rate standards, under which rates exceeding the costing formula of the Bureau of Economics for use in the Domestic Air Freight Rate Investigation were suspended, makes it impossible for it to obtain the Board-approved rate of return; that the reason for this is that the Board's standards, limiting the westbound increases would force Tiger to increase eastbound specific commodity rates by very high percentages, which would significantly reduce the volume of traffic; that Tiger's proposal would be consistent with the Board's decision in Phase 9 of the Domestic Passenger-Fare Investigation, in which the Board recognized that coach fares may exceed unit costs, at least for an interim period, but that the Board's freight policies have been completely different by making costs a ceiling for freight rates, and the different increases proposed in general and specific commodity rates by direction, etc., and the variations in the relationship of various rates to costs reflect value-of-service considerations; and that fuel cost increases should properly result in increasing long-haul rates more than short-haul rates.

The proposed rates and charges come within the scope of the Domestic Air Freight Rate Investigation, Docket 22859, and their lawfulness will be determined in that proceeding. The issue now before the Board is whether to suspend the proposals or to permit them to become effective pending investigation.

Tiger has made a showing of increased costs. The Board is aware of the unprecedented hikes in fuel prices in the past several months and believes that increases in rates and charges are warranted to help offset these increased costs. We are also giving weight to the sharp rises in fuel prices occurring most recently.

In our opinion, Tiger has, however, overstated the extent of fuel cost increases in determining its revenue needs.

In its justification, Tiger claims that its fuel price for domestic operations rose by 122.6 percent between a period representing an "average" six-month period for 1973 and March 1, 1974. This percentage of increase was the weighted average of the price increase of 81.5 percent for domestic fuel, and 455.4 percent for international fuel. The weighting factors, in Tiger's formulation, were (1) the 11 percent of total domestic aircraft miles for the 12 months ended June 30, 1973, that was accounted for by domestic legs of international flights for which Tiger allegedly was forced to use bonded international fuel; and (2) the 89 percent that was accounted for by purely domestic aircraft miles.

It appears, however, that the foregoing method saddles domestic rates, to a certain extent, with the sharply increased fuel costs that should be borne chiefly by international traffic. Furthermore, Tiger offers no justification for basing its current proposal in part on the relatively high prices for international fuel as of March 1, 1974. The current volatile situation in fuel supply and prices does not permit any firm basis for long-range forecasting on these factors.

In our opinion, the valid costs for the purpose of evaluating the rates proposed by Tiger, as well as by other carriers, are industry average costs, based upon both all-cargo and combination aircraft, although we agree with Tiger that those costs should reflect the most recent increases in the costs of fuel as well as in other items. We are thus evaluating Tiger's rates upon the basis of industry average costs, thus increased, which result in higher increases for longer hauls than for shorter hauls.

With respect to Tiger's statement that limiting increases for long hauls has forced it to increase unduly eastbound specific commodity rates, we believe that, whereas there is a place for value-of-service as expressed in discount rates for promotional purposes, such rates should not require compensating increases in standard rates above costs. In fact, the only valid rationale for discount rates is such additional support for the overall operation as to permit a reduction in standard rates, or to reduce the pressures for increases in such rates.

In the foregoing circumstances, and upon consideration of the complaints and all other relevant factors, the Board finds that the proposal, generally to the extent it applies to the following rates, should be suspended (see Appendix A[1] for a complete listing of the markets in which the proposed rates are suspended):

1. Eastbound and westbound 100-pound bulk general commodity rates for distances up to 1,000 miles and 200-pound rates 851-1,000 miles;
2. Westbound bulk general commodity rates for markets with lengths of haul 1,001 miles and over in all weight-breaks;
3. Eastbound bulk general commodity rates at the 100-pound weightbreak for markets with lengths of haul 1,251-1,400, 1,551-1,850, and 2,101-2,750 miles;
4. Eastbound bulk general commodity rates at the 200-pound weightbreak, all markets;
5. Eastbound bulk general commodity rates at the 1,000-pound weight-break for markets 1,151-1,500 and 1,701 miles and over.
6. Eastbound bulk general commodity rates at the 2,000-pound weightbreak, 1,151-1,450, and 2,101 miles and over;
7. Eastbound and westbound general commodity Type D container rates and charges for markets over 700 miles;
8. All other container rates and charges in westbound markets over 1,200 miles; and
9. Bulk rates on human remains at all distances.

The remainder of Tiger's proposal appears sufficiently related to costs that the Board will permit it to become effective. While the complainants have incurred substantial increases in their rates during recent months, their rates do not exceed the rates for general commodities and are below costs according to data available to the Board.

Accordingly, pursuant to the Federal Aviation Act of 1958 and particularly Sections 204(a) and 1002 thereof,

It is ordered, That:

1. Pending hearing and decision by the Board, the rates, charges, and provisions described in Appendix A hereto are suspended and their use deferred to and including July 29, 1974, unless otherwise ordered by the Board and that no change be made therein during the period of suspension except by order or special permission of the Board;

2. Except to the extent granted herein, the complaints of Tektronix, Inc., in Docket 26546 and Omark Industries in Docket 26559 are dismissed; and

3. Copies of this order shall be filed with the tariffs and served upon The Flying Tiger Line Inc., as well as upon Tektronix, Inc. and Omark Industries.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

[SEAL] EDWIN Z. HOLLAND,
Secretary.

[FR Doc.74-10080 Filed 5-1-74;8:45 am]

[Docket No. 25280, et al.; Order No. 74-4-145]

INTERNATIONAL AIR TRANSPORT ASSOCIATION

Order Relating to Currency Matters

Adopted by the Civil Aeronautics Board at its office in Washington, D.C. on the 26th day of April 1974.

An agreement has been filed with the Board pursuant to section 412(a) of the Federal Aviation Act of 1958 (the Act) and Part 261 of the Board's Economic Regulations between various air carriers, foreign air carriers and other carriers, embodied in the resolutions of the Traffic Conferences of the International Air Transport Association (IATA), and adopted by mail vote.

The agreement would revise the application and level of currently effective "negative surcharges" on passenger fares sold in local currency for transportation from certain European countries to various Western Hemisphere points. The negative surcharges on normal and excursion fares in economy-class service, which presently apply only to winter and shoulder-season fares, would now be extended to include peak-season travel. Insofar as adjustments to levels are concerned, the agreement will affect transportation from Europe to United States West Coast points by reducing the negative surcharges on normal economy fares from Austria, Belgium, Germany and the Netherlands from nine, five, thirteen, and nine percent, respectively, to eight, three, twelve and seven percent. For first-class fares, the present fourteen percent negative surcharge from Germany to the U.S. West Coast is proposed to be reduced to twelve percent.

Negative surcharges on European-originating transatlantic fares were originally adopted at conferences held in Nice and Monaco in September/October 1973, and are intended to alleviate inequities resulting from application of IATA currency conversion rules for the calculation of local currency fares for European-originating transportation. All IATA transatlantic passenger fares are specified in terms of U.S. dollars. Adjustments to account for the second (February 1973) dollar devaluation have generaly been accomplished through positive or negative surcharges on local currency fares, which are derived by conversion from the specified basic (dollar) fares using rates of exchange set forth in IATA Resolution 021b. In European countries whose currencies have appreciated in value relative to the dollar, the 021b conversion rates, which reflect pre-devaluation parities, result in unrealistically high local currency fares if negative surcharges are not applied. These negative surcharges, which have been approved by the Board in the interest of establishing a practical stability in air transportation pricing and more realistic currency conversion relationships, are now proposed to be adjusted to reflect more recent developments in exchange markets. We will herein approve the subject agreement, as the Board believes that IATA resolutions which adjust fares and rates to account for currency fluctuations should reflect actual market conditions as closely and as realistically as possible.

For this reason the Board is also taking action herein to condition our previous approvals of IATA Resolutions 021f, 021L, and 021LL governing conversion procedures between foreign currencies and U.S. dollars for sales of foreign-originating transportation destined for U.S. points. The resolutions generally require payment of all fares, rates and charges in the local currency of the country of transportation origination. Where payment is made in another currency, conversion must take place at the local banker's buying rate or the Resolution 021b rate, whichever produces the higher amount. As stated above, the 021b exchange rates reflect parities between the dollar and other currencies which existed prior to the second devaluation of the

[1] Filed as part of the original document.

V 39 I 86 MAY 2 74 XUM

dollar, and are completely unrealistic in terms of today's market.

Where the foreign local currency has appreciated in value relative to the dollar (such as in Germany), conversion takes place at the market rate of exchange, and the dollars received reflect the actual value of the transportation sold in terms of local currency. However, in cases where the foreign local currency has depreciated relative to the dollar (such as the U.K. and Italy) conversion takes place at the higher, 021b rate and the carrier receives a windfall representing the excess of dollars received over the actual value of the transportation as expressed in terms of the local currency. For instance, a passenger buying a ticket in Italy for travel from Italy to the United States has the option of paying in lire or in dollars. If he pays in dollars the Italian lire tariff is converted into dollars at the 021b rate of 581.50 lire=$1.00, whereas the present market rate is about 623 lire=$1.00, representing a differential of over seven percent. A similar situation exists with respect to cargo rates, particularly collect shipments, where the U.S. importer must pay a significantly higher amount of dollars than if the rates expressed in lire were converted at the bank exchange rate. Conversion of these dollars back into lire by the carrier for remittance abroad can be made at the actual market rate of exchange, and thus the carrier receives a seven percent windfall. The situation is similar for U.K.-originating transportation, where Resolution 021b specifies a conversion rate of $2.6057=£1.00, while the current market value of the pound is only about $2.39, a spread of over nine percent.

The Board has received a great deal of correspondence from U.S. importers of British and Italian goods protesting these unwarranted premiums, and it appears that many importers are attempting to alleviate the problem by giving up the charges collect option, and are transmitting funds to Italy and the United Kingdom to cover prepaid lire or sterling billings. The Board considers this an undue burden on the U.S. importer, and is convinced that the entire situation must be rectified in both the passenger and cargo areas.

For these reasons we are herein conditioning our approval of Resolutions 021f, 021L and 021LL to stipulate that fares, rates and charges in foreign-originating air transportation, set forth in the local currency of the country of origin, shall be converted into dollars at the local banker's buying rate of exchange.

The Board, acting pursuant to sections 102, 204(a), and 412 of the Act, does not find that the following resolutions, incorporated in Agreement C.A.B. 24279 as indicated, are adverse to the public interest or in violation of the Act:

Agreement CAB 24279:	*IATA resolutions*
R–1	JT23(Mail 331)022v JT123(Mail 724)022v
R–2	JT12(Mail 838)022w
R–3	JT12(Mail 838)022y
R–4	JT12(Mail 838)022z

Accordingly, *It is ordered*, That:

1. Agreement C.A.B. 24279, R–1 through R–4, be and hereby is approved; and

2. The outstanding approvals of Resolutions 021f (Special Conversion Rates), 021L (Special Rules for Fares Currency Adjustments), and O21LL (Special Rules for Currency Adjustments (Cargo Rates)) are subject to the following condition:

For U.S. dollar sales of foreign-originating fares, rates and charges in air transportation as defined by the Act, conversion into dollars of the published fares, rates and charges in the local currency of the country of transportation origination shall take place at the local banker's buying rate of exchange.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

[SEAL] EDWIN Z. HOLLAND,
Secretary.

Schedule Adjustments and Capacity Limitation Agreements

APRIL 26, 1974.

In matter of Joint application of Pan American World Airways, Inc., Trans World Airlines, Inc., British Caledonian Airways, and British Overseas Airways Corporation for prior Board approval of agreements. Agreement CAB 24110–A1, 24141–A1, 24293.

By Order 73–11–34, November 8, 1973, the Board authorized United States and foreign-flag air carriers providing international scheduled air services to and from the United States to engage in discussions looking toward agreements on schedule adjustments, capacity limitations, and consolidation of operations in foreign air transportation.

Pursuant to that order, discussions have been held, inter alia, between the airlines of the United States and the United Kingdom which provide scheduled services between these two countries.[1] Further discussions to establish maximum capacity levels in certain U.S.-U.K. markets for the summer 1974 period have been held.[2] As a result of the latter discussions certain agreements on capacity limitations in several city-pair markets have been reached, and were filed with the Board on March 19, 1974. These include agreements among Pan American World Airways, Inc. (Pan American), Trans World Airways, Inc. (TWA), British Overseas Airways Corporation (BOAC), and British Caledonian Airways, Inc. (BCAL) regarding the New York-London market (Agreement CAB 24141–A1) and the Los Angeles-London market (Agreement CAB 24293), and an agreement between TWA and BOAC regarding the Chicago-London market (Agreement CAB 24110–A1). In this application, approval of the three agreements is requested.

The New York-London agreement (CAB 24141–A1) provides that Pan American will reduce its 1973 peak summer nonstop round trip weekly frequencies from twenty-eight, utilizing B–747 equipment, to twenty-one, substituting narrow-body B–707 equipment on seven of the latter frequencies. TWA's and BOAC's respective frequencies for the same period will also be reduced from twenty-eight to twenty-one through the deletion of seven of the previous fourteen narrow-body aircraft frequencies. BCAL's maximum scheduled frequencies will remain unchanged at seven, continuing to utilize only narrow-body aircraft.[3]

The Los Angeles-London agreement (CAB 24293) provides that Pan American and TWA will each reduce their respective 1973 peak summer nonstop weekly frequencies from seven to six, continuing to utilize wide-body aircraft. BOAC and BCAL both agree to establish a maximum scheduled nonstop frequency level of six weekly round trips with narrow-body aircraft.[4]

The Chicago-London agreement (CAB 24110–A1) provides that TWA and BOAC will each reduce by one frequency their respective 1973 peak summer nonstop weekly flights utilizing wide-body aircraft, from seven to six, during the period June 1 through September 14, 1974, and also reduce their 1973 frequencies by two flights during the shoulder periods April 28–May 31, and September 15– October 15, 1974.

All of the agreements provide that the carriers may operate extra sections for operational reasons or unusual demand. However, such extra sections operated by each carrier are to be limited in frequency during the period of the respective agreements. During the agreement periods extra section frequencies are to be limited to a maximum of five in any single week and a total of fifteen (for a period) in the New York–London market, to a maximum of three in any single week and a total of six in the Los Angeles-London market, and to a maximum of three and a total of nine in the Chicago-London market.[5]

[1] Agreements reached as a result of these discussions were approved by Order 73–12–109, December 28, 1973 (Chicago-London) until April 27, 1974; by Order 74–1–34, January 4, 1974 (New York-London) until April 27, 1974; and by Order 74–2–93, February 22, 1974 (Miami-London) until March 31, 1974. Also, an agreement was approved by Order 74–1–111, January 23, 1974 (Philadelphia-London) until April 27, 1974, and voluntarily terminated by the parties prior to its expiration.

[2] A transcript of the meeting has been filed with the Board in Docket 26057.

[3] However, BCAL also agrees to establish a maximum scheduled frequency level of four weekly round trips with B–707 equipment between New York and London via an indirect routing.

[4] This maximum frequency level represents an increase of three weekly frequencies for BOAC and of one weekly frequency for BCAL over the 1973 peak summer service. However, in regard to BOAC, it also represents a cutback of one weekly frequency from its IATA planned schedules for 1974.

[5] Such extra sections cannot be published, advertised or otherwise held out to the public.

By their terms, the agreements provide that the specified maximum round trip frequency levels per week in scheduled nonstop service would be implemented, subject to Board approval, on April 28, 1974 and extend through October 15, 1974. In the event of a cessation or curtailment of service by any of the parties resulting from a labor dispute or other cause beyond the control of that party, the limitations of the agreement will be suspended during the period of such cessation or curtailment.

In addition to seeking approval of the agreement, the air carriers request an exemption pursuant to section 416(b) of the Federal Aviation Act of 1958, as amended, and all regulations promulgated in pursuance thereof, to the extent necessary, to permit implementation of the agreement without 10 days prior notice to the Postmaster General.

No comments regarding the agreements have been filed.

In support of their requests, the carriers state that the agreements provide for service reductions which are compelled by the shortage of fuel; that the Federal Energy Office has set the maximum potential supply of fuel available in the United States for international air services at 95 percent of 1972 levels; and that each of the four agreement carriers is experiencing shortages of fuel now and anticipates continued shortages through the 1974 summer/fall season provided for in this agreement.[6] Moreover, the British government has announced mandatory reductions of fuel consumption for international air services which have so far been on the order of 10 percent of consumption in the comparable 1973 months. The applicants state that the combined agreements provide for significant savings in fuel consumption;[7] for a better pattern of services for the traveling public than might result from uncoordinated cutbacks by insuring that each market will retain as much as is reasonably possible under the circumstances;[8] and for better adjustment of the reduced capacity levels to the needs of the traveling public.

Despite the recent lifting on March 18, 1974 of the Arab oil embargo, the problems of the fuel shortage will remain at least for several months. In order to meet the cutback levels, the carriers must make fuel-saving adjustments to their schedules. These agreements help insure that cutbacks necessitated by the fuel situation will be made in a manner which, under the circumstances, provides the best practicable service to the public.

The Board believes that reductions in capacity pursuant to carrier agreements, which are carefully monitored by the Board, will help to provide the public with optimum service. Such agreements can provide the means by which available capacity is operated under schedules that provide the public with the most convenient service practicable under the circumstances, and, in the Board's view, will best serve the public interest.[9]

Moreover, Pan American and TWA are faced with a serious financial crisis caused in great measure by increases in the cost of fuel. TWA reports a before tax loss for the first two months of 1974 on the Atlantic Division of $27.6 million, $14.5 million of which is attributed to increased fuel costs. Pan American estimates a system-wide fuel increase in 1974 of $204 million. As a result of this financial crisis, these carriers have recently made application for federal financial assistance (Dockets 26560 and 26563) and other extraordinary relief (see Order 74–4–104). Thus these measures adopted by the carriers for purposes of fuel conservation, take on a new and added significance substantially affecting the economic stability of Pan American and TWA.

Based on the foregoing, it is concluded that the agreements with respect to the scheduled service between the United States and the United Kingdom should be approved subject to certain conditions. The service proposed in these agreements reasonably satisfies the needs of the traveling public as well as saving large amounts of fuel. It will also result in considerable financial savings for the carriers. The United States-United Kingdom market is characterized by a multiplicity of frequencies and use of wide-body aircraft which have experienced low load factors in the past. The maximum scheduled frequencies and reductions in equipment size provided by the agreements are estimated by the carriers to result generally in substantial load factor increases.[10] Moreover, the traveling public will continue to receive a satisfactory frequency of service.[11]

The Board has repeatedly stated that the transfer of freed capacity to nonagreement markets will not be tolerated.[12] Moreover, in accordance with our prior orders, and in order to effectively monitor the implementation of this agreement, jurisdiction will be retained, pursuant to section 412 of the Act, for the purpose of modifying, amending or revoking our approval of the agreements at any future date. Furthermore, each part to the agreements will be required separately to report within 15 days after the end of each month any schedule changes in the U.S.–U.K. markets during the term of the agreement (see Appendix).[13] Therefore the Board will be able to react as necessary or appropriate to changes in the fuel or financial problems of the airlines which may warrant any modification or reconsideration of these agreements.

Consideration has been given to the implication of the proposed agreement on Pan American's and TWA's employees. For the reasons detailed at length in Order 73–12–32, December 7, 1973, which are equally applicable herein, it is concluded that the public interest does not require the imposition of any labor protective conditions.

It is found that enforcement of section 405(b) of the Act, requiring 10 days' notice of schedule changes to the Postmaster General, would be an undue burden upon the air carrier applicants by reason of the limited extent of, and unusual circumstances affecting their op-

[6] The carriers state that in practice, the 95 percent level established by the FEO is a maximum level of fuel availability which the carriers have not been able to enjoy. The restraints of the marketplace have been even harsher than the regulatory restraints in this area, since many suppliers have been unable or unwilling to provide the carriers with their full allotments, and since fuel suppliers vary significantly from one locale to another. We note that following the announcement of the lifting of the Arab oil embargo, the Administrator of the FEO stated that supplies of jet fuel for airlines could increase soon as a result of petroleum allocation changes presently under study. It nevertheless appears that a fuel shortage will continue for several months. Moreover, as the Energy Office has emphasized, an undue relaxation of fuel conservation efforts will inevitably produce fuel shortages even under anticipated future supplies.

[7] Pan American estimates that in the New York-London market it would save 579,739 gallons per week based upon the 1973 June–September peak summer period, or 385,787 gallons per week based upon IATA planned schedules for the 1974 corresponding months, during each week that the agreement is in effect. TWA estimates that its fuel savings in this market would amount to 191,163 gallons per week based on the 1973 June–September peak summer period, or 385,343 gallons per week based upon IATA planned schedules for the 1974 corresponding months. BOAC estimates its weekly fuel savings in this market at 230,328 gallons.

In the Chicago-London market TWA estimates its weekly fuel savings at 61,848 gallons during the June–September 1974 period, and at 123,695 gallons during the shoulder periods April 28 to May 31, 1974, and September 16, to October 15, 1974. BOAC estimates that it will save 57,121 gallons per week during the corresponding 1974 peak summer period and 114,242 gallons per week during the corresponding shoulder periods.

In the Los Angeles-London market, Pan American estimates its weekly fuel savings at 88,528 gallons, and TWA estimates a weekly fuel savings of 81,642 gallons. BOAC estimates that it would require 198,503 additional gallons per week, based upon its 1974 increase of three weekly frequencies over its 1973 operations for April 28, 1974 to October 15, 1974. However, based upon its IATA planned schedules of seven frequencies for the same period BOAC estimates it will save 47,379 gallons per week.

[8] The carriers estimate the peak period seat load factor on nonstop flights will increase as a result of the agreements as follows: New York-London from 53 percent to 70 percent; Los Angeles-London from 66 percent to 68 percent; Chicago-London from 51 percent to 60 percent.

[9] Order 74–1–111, January 23, 1974; Order 74–2–84, February 21, 1974; Order 74–4–4, April 2, 1974.

[10] See footnote 8, supra.

[11] Likewise, it does not appear that our action here will significantly affect the quality of the human environment within the meaning of the National Environmental Policy Act, since the carriers will have to reduce their schedules in any event because of the fuel shortage. Our action herein merely helps to insure that such reductions will be accomplished in a rational manner.

[12] American Airlines, Inc., Trans World Airlines, Inc., and United Air Lines, Inc., Order 73–10–110; Order 74–2–84, *supra*; Order 74–4–4, *supra*.

[13] Such reports will enable the Board to analyze such schedule change(s) to insure that freed capacity is not being unnecessarily shifted to nonagreement markets.

V 39 I 86 MAY 2 74 XUM

erations and is not in the public interest, particularly in light of the reduced fuel supplies.

Pursuant to authority duly delegated by the Board in the Board's Regulations, 14 CFR 385.13, it is found that the capacity reduction agreements discused herein are not adverse to the public interest nor in violation of the Act and should be approved subject to the conditions stated herein; and that the air carriers' request for an exemption from the provisions of section 405(b) of the Act and any regulations promulgated pursuant thereto, should be granted to the extent necessary to permit the filing of schedules on less than 10 days' prior notice to the Postmaster General and to the Board.

ACCORDINGLY, *It is ordered*, That:

1. Agreements CAB 24110–A1, 24141–A1 and 24293 be and they hereby are approved pursuant to section 412 of the Act, subject to the following conditions:

(a) Jurisdiction shall be retained in order to modify, amend or revoke approval at any time, or take whatever other action may be deemed appropriate;

(b) Schedule changes resulting pursuant to the agreement herein approved which occur at any of the controlled high-density airports [14] and which result in the vacating of slots allocated by the Airline Scheduling Committees of the respective airports pursuant to authority granted in Order 73–12–94, shall not be refilled by the carrier applicants, nor be reallocated to other carriers by the Airline Scheduling Committees, *Provided, however*, That slots originally vacated may be reinstated in the same agreement market by the vacating carrier to the extent such carrier vacates another flight (at the same airport) which operates plus or minus three hours of the flight to be reinstated; [15]

(c) Any schedule changes resulting pursuant to the agreement herein approved shall be reported to the Board within 15 days after the end of each month in accordance with the format of Appendix A; [16] copies of such reports shall be provided to all carriers requesting them;

2. Within 28 days hereafter, each carrier shall file with the Board's Docket Section, and shall provide to each carrier requesting one, a report containing the following additional data for the United States-United Kingdom markets herein:

a. Seats operated in 1972 and 1973 (April through October).

b. Passengers carried in 1972 and 1973.

c. Forecast passengers in 1974.

d. Projected seats in 1974.

e. Equipment type to be operated in the market.

f. Calculations in developing fuel savings for this market.

g. 1972/1973/1974 fuel use by month for the system of each carrier.[17]

h. 1972/1973/1974 fuel use by month in the agreement market.

3. Pan American and TWA be and they hereby are relieved from the provisions of section 405(b) of the Act, and from all regulations enacted in pursuance thereof, to the extent necessary to permit the implementation of the subject modifications without 10 days' prior notice to the Postmaster General;

4. Copies of the order shall be served on the Department: of Defense, Justice and Transportation; the U.S. Postal Service; the Port Authority of New York and New Jersey; City of Chicago, Department of Aviation; City of Los Angeles, Director of Aviation; and all certificated route and supplemental air carriers.

Persons entitled to petition the Board for review of this order pursuant to the Board's Regulations, 14 CFR 385.50, may file such petitions within seven days after the date of service of this order.

This order shall be effective immediately and filing of a petition for review shall not preclude such effectiveness.

This order shall be published in the FEDERAL REGISTER.

[SEAL] EDWIN Z. HOLLAND,[18]
Secretary.

COMMITTEE FOR THE IMPLEMENTATION OF TEXTILE AGREEMENTS

CERTAIN COTTON TEXTILE PRODUCTS PRODUCED OR MANUFACTURED IN PORTUGAL

Entry or Withdrawal From Warehouse for Consumption

APRIL 29, 1974.

On March 21, 1974, the Governments of the United States and Portugal exchanged notes further amending the comprehensive Bilateral Cotton Textile Agreement of November 17, 1970. Among the provisions of the agreement, as amended, is one establishing a specific limit for Categories 46 and 47 combined for the agreement year which began on January 1, 1974.

Accordingly, there is published below a letter of April 29, 1974, from the Chairman of the Committee for the Implementation of Textile Agreements to the Commissioner of Customs directing that the amounts of cotton textile products in Category 46/47 produced or manufactured in Portugal which may be entered or withdrawn from warehouse for consumption in the United States during the twelve-month period which began on January 1, 1974 be limited to 89,805 dozen. The letter published below and the actions pursuant thereto are not designed to implement all of the provisions of the bilateral agreement, as amended, but are designed to assist only in the implementation of certain of its provisions.

SETH M. BODNER,
Chairman, Committee for the Implementation of Textile Agreements, and Deputy Assistant Secretary for Resources and Trade Assistance.

COMMITTEE FOR THE IMPLEMENTATION OF TEXTILE AGREEMENTS

COMMISSIONER OF CUSTOMS,
Department of the Treasury,
Washington, D.C. 20229.

APRIL 29, 1974.

DEAR MR. COMMISSIONER: This directive amends but does not cancel the directive issued to you on December 20, 1973 by the Chairman, Committee for the Implementation of Textile Agreements, concerning imports into the United States of certain cotton textiles and cotton textile products produced or manufactured in Portugal.

The first paragraph of the directive of December 20, 1973 is hereby amended, effective as soon as possible, to include a level of restraint of 89,805 dozen for cotton textile products in Categories 46 and 47 combined for the twelve-month period which began on January 1, 1974. This level has not been adjusted to reflect any entries made on or after January 1, 1974.

In carrying out this directive, entries of cotton textile products in Category 46 produced or manufactured in Portugal which have been exported to the United States from Portugal prior to January 1, 1974, shall, to the extent of any unfilled balances, be charged against the level of restraint established for such goods during the period January 1, 1973 through December 31, 1973. In the event that the level of restraint for that period has been exhausted by previous entries, such goods shall be subject to the level set forth in this letter.

Cotton textile products in Category 47 produced or manufactured in Portugal and which have been exported to the United States prior to January 1, 1974, shall not be subject to this directive.

Cotton textile products in Category 47 which have been released from the custody of the U.S. Customs Service under the provisions of 19 U.S.C. 1448(b) prior to the effective date of this directive shall not be denied entry under this directive.

The level of restraint set forth above is subject to adjustment pursuant to the provisions of the bilateral agreement of November 17, 1970, between the Governments of the United States and Portugal which provide, in part, that within the aggregate limit, the limits on certain categories may be exceeded by not more than 5 percent; for the limited carryover of shortfalls in certain categories to the next agreement year; and for administrative arrangements.

A detailed description of the categories in terms of T.S.U.S.A. numbers was published in the FEDERAL REGISTER on January 25, 1974 (39 FR 3430).

In carrying out the above directions, entry into the United States for consumption shall be construed to include entry for consumption into the Commonwealth of Puerto Rico.

The actions taken with respect to the Government of Portugal and with respect to imports of cotton textiles and cotton textile products from Portugal have been determined by the Committee for the Implementation of Textile Agreements to involve foreign affairs functions of the United States. Therefore, the directions to the Commissioner of Customs, being necessary to the implementation of such actions, fall within the foreign affairs exception to the rule-making provisions of 5 U.S.C. 553. This letter will be published in the FEDERAL REGISTER.

Sincerely,

SETH M. BODNER,
Chairman, Committee for the Implementation of Textile Agreements, and Deputy Assistant Secretary for Resources and Trade Assistance.

[FR Doc.74–10147 Filed 5–1–74;8:45 am]

CERTAIN COTTON TEXTILE PRODUCTS PRODUCED OR MANUFACTURED IN THE CZECHOSLOVAK SOCIALIST REPUBLIC

Entry or Withdrawal From Warehouse for Consumption

APRIL 29, 1974.

On August 29, 1969, the United States Government concluded a comprehensive bilateral cotton textile agreement with the Government of the Czechoslovak Socialist Republic concerning exports of cotton textile products from the Czechoslovak Socialist Republic to the United States over a two-year period beginning on May 1, 1969. The bilateral agreement was extended for an additional two-year period beginning May 1, 1971 and has been further extended for four years beginning May 1, 1972. Among the provisions of the agreement, as extended, are those establishing an aggregate limit for the 64 categories and within the aggregate limit a specific limit on Category 26 (other than duck) for the agreement year beginning on May 1, 1974.

Accordingly, there is published below a letter of April 29, 1974, from the Chairman of the Committee for the Implementation of Textile Agreements to the Commissioner of Customs, directing that the amounts of cotton textile products in Category 26 (other than duck) produced or manufactured in the Czechoslovak Socialist Republic which may be entered or withdrawn from warehouse for consumption in the United States for the twelve-month period beginning May 1, 1974 and extending through April 30, 1975, be limited to the designated level. The letter published below and the actions pursuant thereto are not designed to implement all of the provisions of the bilateral agreement, but are designed to assist only in the implementation of certain of its provisions.

SETH M. BODNER,
Chairman, Committee for the Implementation of Textile Agreements, and Deputy Assistant Secretary for Resources and Trade Assistance.

COMMITTEE FOR THE IMPLEMENTATION OF TEXTILE AGREEMENTS

COMMISSIONER OF CUSTOMS,
Department of the Treasury,
Washington, D.C. 20229.

APRIL 29, 1974.

DEAR MR. COMMISSIONER: Pursuant to the Bilateral Cotton Textile Agreement of August 29, 1969, as extended, between the Governments of the United States and the Czechoslovak Socialist Republic, and in accordance with the procedures of Executive Order 11651 of March 3, 1972, you are directed to prohibit effective May 1, 1974 and for the twelve-month period extending through April 30, 1975, entry into the United States for consumption and withdrawal from warehouse for consumption of cotton textile products in Category 26 (other than duck),[1] produced or manufactured in the Czechoslovak Socialist Republic, in excess of the level of restraint for the period of 1,276,281 square yards.

Cotton textile products in Category 26 (other than duck),[1] produced or manufactured in the Czechoslovak Socialist Republic and which have been exported prior to May 1, 1974, shall, to the extent of any unfilled balances, be charged against the level of restraint established for such goods during the period May 1, 1973 to April 30, 1974. In the event that the level of restraint established for that period has been exhausted by previous entries, such goods shall be subject to the level set forth in this letter.

The level of restraint set forth above is subject to adjustment pursuant to the provisions of the bilateral agreement of August 29, 1969, as extended, between the Governments of the United States and the Czechoslovak Socialist Republic which provide, in part, that within the aggregate limit, the limitation on Category 26 (other than duck) [1] may be exceeded by not more than 5 percent; for the limited carryover of shortfalls in certain categories to the next agreement year; and for administrative arrangements.

A detailed description of the categories in terms of T.S.U.S.A. numbers was published in the FEDERAL REGISTER on January 25, 1974 (39 FR 3430).

In carrying out the above directions, entry into the United States for consumption shall be construed to include entry for consumption into the Commonwealth of Puerto Rico.

The actions taken with respect to the Government of the Czechoslovak Socialist Republic and with respect to imports of cotton textile products from the Czechoslovak Socialist Republic have been determined by the Committee for the Implementation of Textile Agreements to involve foreign affairs functions of the United States. Therefore, the directions to the Commissioner of Customs, being necessary to the implementation of such actions, fall within the foreign affairs exception to the rule-making provisions of 5 U.S.C. 553. This letter will be published in the FEDERAL REGISTER.

Sincerely,

SETH M. BODNER,
Chairman, Committee for the Implementation of Textile Agreements, and Deputy Assistant Secretary for Resources and Trade Assistance.

Correction

In FR Doc. 74–9524 appearing on page 14537 of the issue for Wednesday, April 24, 1974, in the table which is included in the appended letter, the 4th, 6th, 7th, and 8th entries in the right-hand column, now reading "9/16", "22/26", "22/26", and "22/27", respectively, should read "16", "26", "26", and "27", respectively.

ENVIRONMENTAL PROTECTION AGENCY

[OPP–32000/50]

NOTICE OF RECEIPT OF APPLICATIONS FOR PESTICIDE REGISTRATION

Data To Be Considered in Support of Applications

On November 19, 1973, the Environmental Protection Agency published in

V 39 I 86 MAY 2 74 XUM

the FEDERAL REGISTER (38 FR 31862) its interim policy with respect to the administration of section 3(c)(1)(D) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended (86 Stat. 979), and its procedures for implementation. This policy provides that EPA will, upon receipt of every application, publish in the FEDERAL REGISTER a notice containing the information shown below. The labeling furnished by the applicant will be available for examination at the Environmental Protection Agency, Room EB–37, East Tower, 401 M Street, SW., Washington, D.C. 20460.

On or before July 1, 1974, any person who (a) is or has been an applicant, (b) desires to assert a claim for compensation under section 3(c)(1)(D) against another applicant proposing to use supportive data previously submitted and approved, and (c) wishes to preserve his opportunity for determination of reasonable compensation by the Administrator must notify the Administrator and the applicant named in the FEDERAL REGISTER of his claim by certified mail. Every such claimant must include, at a minimum, the information listed in this interim policy published on November 19, 1973.

Applications submitted under 2(a) or 2(b) of the interim policy in regard to usage of existing supportive data for registration will be processed in accordance with existing procedures. Applications submitted under 2(c) will be held for the 60-day period before commencing processing. If claims are not received, the application will be processed in normal procedure. However, if claims are received within 60 days, the applicants against whom the particular claims are asserted will be advised of the alternatives available under the Act. No claims will be accepted for possible EPA adjudication which are received after this 60-day period.

ALTERNATIVE WASTE TREATMENT MANAGEMENT TECHNIQUES AND SYSTEMS

Extension of Time for Comments

Pursuant to section 304(d)(2) of the Federal Water Pollution Control Act Amendments of 1972 (Public Law 92–500), the Environmental Protection Agency (EPA) gave notice on March 25, 1974 (39 FR 11135) of the availability of a report entitled "Alternative Waste Management Techniques for Best Practicable Waste Treatment".

Since a larger number of requests for the document were received than originally anticipated, response to some requests is being delayed until more copies can be printed. Therefore, the last sentence of the March 15, 1974 notice (39 FR 11135), which reads "Comments may be submitted on or before May 9, 1974" is hereby revised to read "Comments may be submitted on or before June 10, 1974."

Dated: April 26, 1974.

JAMES L. AGEE,
Acting Assistant Administrator
for Water and Hazardous Materials.

FEDERAL COMMUNICATIONS COMMISSION

[Supplement No. 5]

CANADA–U.S.A. TV AGREEMENT OF 1952 (TIAS–2594)

Amendment of Table A

APRIL 25, 1974.

(Supplement to the table of Canadian television channel allocations within 250 miles of the Canada-U.S.A. border, dated March 21, 1973, as revised to January 20, 1973).

This supplement corrects Supplement No. 3, dated September 20, 1973, to show a correct mileage of 190 miles rather than 170 miles appearing in the footnote for the deleted channel.

Supplement No. 3 is corrected to read as follows:

Pursuant to exchange of correspondence between the Department of Communications of Canada and the Federal Communications Commission, Table A of the Canadian-U.S.A. Television Agreement has been amended as follows:

City and province	Channel No.	
	Delete	Add
Brandon, Manitoba	2–[1]	2–[2]

[1] Brandon site to be located no less than 190 miles from co-channel allocation at Grand Forks, N.Dak.

[2] Brandon site to be located no less than 176 miles from co-channel assignment at Grand Forks, N.Dak., with site coordinates 49°58'24" N., 97°59'25" W., and limited to 100 kilowatts maximum ERP and 1,000 feet EHAAT, or the equivalent, in the general direction of Grand Forks, N.Dak.

Further amendments to Table A will be issued as public notices in the form of numbered supplements or recapitulated lists.

Copies of the basic Table of Allocations may be obtained from ABS Duplicators, Inc., 1732 Eye St., Washington, D.C. 20006, telephone (202) 298–5537.

WALLACE E. JOHNSON,
Chief, Broadcast Bureau,
Federal Communications Commission.

FEDERAL MARITIME COMMISSION

[Docket No. 74–16]

U.S. AND CANADIAN CROSS-BORDER TRAFFIC

Notice of Intent To Waive Statutory Requirements

Pursuant to section 35 of the Shipping Act, 1916, (46 U.S.C. 833a), notice is hereby given that the Federal Maritime Commission is considering exempting certain types of freight traffic subject to its jurisdiction from the tariff filing requirements of section 18(b) of said Act to the extent specified herein.

Agreement No. 10090, a cooperative working arrangement among five U.S. Conferences and four Canadian Conferences serving the Canadian and U.S. East Coast-Europe trades, is presently before this Commission for approval pursuant to section 15 of the Shipping Act, 1916, (published at Vol. 38 FR No. 199, p. 28719). This Agreement provides, inter alia, that the members of the U.S. Conferences will apply the rates, terms and conditions of the Canadian Conferences on cargo originating in or destined to Canada which moves through U.S. ports and that the members of the Canadian Conferences will apply the rates, terms and conditions of the U.S. Conferences on cargo originating in or destined to the U.S. east of the 76th meridian which moves through Canadian ports. Pursuant to section 18(b) of the Shipping Act, 1916, rates on both types of traffic would have to be filed with this Commission subject to appropriate statutory notice. However, in consideration of the fact

V 39 N 86 MAY 2 74 XUM

that it might be extremely difficult, if not impossible, for the carriers engaging in such cross-border traffic to conform to the terms of Agreement No. 10090 and also meet the statutory requirements of section 18(b), we are considering exempting them from those requirements.

If the Commission decides to approve Agreement No. 10090, it intends to consider whether compliance with section 18(b) is necessary in the above described circumstances to fulfill any valid regulatory purpose and whether waiver of the filing requirements will or will not substantially impair effective regulation by the Commission, be unjustly discriminatory, or be dertimental to commerce.

Comments with reference to this matter including a request for hearing, if desired, may be submitted to the Secretary, Federal Maritime Commission, Washington, D.C. 20573 on or before May 13, 1974.

By the Commission.

[SEAL] FRANCIS C. HURNEY,
Secretary.

[FR Doc.74-10009 Filed 5-1-74;8:45 am]

FEDERAL POWER COMMISSION

[Docket No. CI60-175, etc.]

CERTIFICATES OF CONVENIENCE AND NECESSITY; CERTAIN COMPANIES

Applications, Abandonment of Service and Petitions To Amend [1]

APRIL 25, 1974.

Take notice that each of the Applicants listed herein has filed an application or petition pursuant to section 7 of the Natural Gas Act for authorization to sell natural gas in interstate commerce or to abandon service as described herein, all as more fully described in the respective applications and amendments which are on file with the Commission and open to public inspection.

Any person desiring to be heard or to make any protest with reference to said applications should on or before May 22, 1974, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure a hearing will be held without further notice before the Commission on all applications in which no petition to intervene is filed within the time required herein if the Commission on its own review of the matter believes that a grant of the certificates or the authorization for the proposed abandonment is required by the public convenience and necessity. Where a petition for leave to intervene is timely filed, or where the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicants to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

FEDERAL RESERVE SYSTEM

AMERICAN HERITAGE SHARES, INC.

Formation of Bank Holding Company

American Heritage Shares, Inc., East Lansing, Michigan, has applied for the Board's approval under section 3(a)(1) of the Bank Holding Company Act (12 U.S.C. 1842(a)(1)) to become a bank holding company through acquisition of 93.69 per cent of the voting shares of State Bank of Michigan, Coopersville, Michigan. The factors that are considered in acting on the application are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

The application may be inspected at the office of the Board of Governors or at the Federal Reserve Bank of Chicago. Any person wishing to comment on the application should submit views in writing to the Reserve Bank, to be received not later than May 20, 1974.

Board of Governors of the Federal Reserve System, April 24, 1974.

[SEAL] THEODORE E. ALLISON,
Assistant Secretary of the Board.

[FR Doc.74-10021 Filed 5-1-74;8:45 am]

BARCLAYS BANK OF NEW YORK

Order Approving Application for Merger of Banks

Barclays Bank of New York, New York, New York ("Applicant"), a member State bank of the Federal Reserve System, has applied for the approval of the Board of Governors of the Federal Reserve System pursuant to the Bank Merger Act (12 U.S.C. 1828(c)) of the merger of that bank with First Westchester National Bank, New Rochelle, New York ("First Westchester Bank") under the charter and title of Applicant. As an incident to the merger, the present offices of First Westchester Bank would become branches of the resulting bank.

As required by the Act, notice of the proposed merger, in the form approved by the Board, has been published, and reports on competitive factors have been requested from the Attorney General, the Comptroller of the Currency, and the Federal Deposit Insurance Corporation. The Board has considered this application and all comments and views in light of the factors set forth in the Act.

Applicant is a subsidiary of Barclays Bank International Limited, London, England ("BBIL"), which in turn is a subsidiary of Barclays Bank Limited, London, England ("BBL"). BBL, with total assets of approximately $24 billion as of December 31, 1972, is the seventh largest commercial bank in the Western World. BBIL has total assets of about $9 billion. Both BBL and BBIL are registered bank holding companies through their control of Applicant and of Barclays Bank of California (assets of $249 million).

Applicant, with deposits of $46.5 million as of December 31, 1973, is the 70th largest of 112 banking organizations located in the Metropolitan New York banking market [1] and controls less than 0.1 percentage point of the market's total deposits.[2] Applicant is engaged primarily in wholesale banking services on local, national and international levels, but also provides some retail banking services through three branches in the market.[3] Barclays Bank International also maintains two branches in New York City which provide primarily international banking services. These offices hold approximately $159 million in deposits.

First Westchester Bank, which is also located in the Metropolitan New York banking market, holds deposits of approximately $178 million (as of December 31, 1973), representing 0.2 percent of the total deposits in commercial banks in the market and thereby ranks as the thirty-third largest banking organization therein. The resulting bank would rank twenty-eighth in the market and hold approximately 0.3 percent of market deposits. Due to the contrast between Applicant's banking business and First Westchester Bank's banking business it does not appear that any significant existing competition would be eliminated upon consummation of this proposal.

Applicant is engaged predominantly in international wholesale operations, whereas First Westchester is essentially a local institution serving consumers and businesses in the areas surrounding its 18 offices in Westchester County. Although Applicant, with financial assistance from its parent companies, could expand its retail operations and establish additional offices in Westchester County, the amount of additional future competition would not be significant in the context of the Metropolitan New York market. Applicant presently competes in the market with many major domestic banking organizations, including several that are comparable in size to BBL and have extensive international operations. The substantial managerial and financial resources of BBL, First Westchester's new parent organization, in combination with the branch network and retail expertise of First Westchester Bank, should provide additional competition to the major domestic organizations operating in the market. Accordingly, it is concluded that consummation of the proposed merger would not have any significant adverse effect on existing or potential competition in any relevant area.

The financial and managerial resources of Applicant and First Westchester Bank are satisfactory, and the prospects for the resulting bank are favorable. Consequently, banking factors are consistent with approval of the application.

Applicant intends to increase interest rates on four year certificates of deposit to more competitive levels, to introduce daily compounding of interest on time and savings deposits, to implement a lower schedule of checking account service charges at First Westchester Bank's offices, and to offer travelers checks without a service charge. In addition, Applicant would offer international banking services at First Westchester Bank's offices. Thus, convenience and needs factors lend slight weight toward approval of the application. It is the Board's judgment that consummation of the proposal would be in the public interest and that the application should be approved.

On the basis of the record, the application is approved for the reasons summarized above. The transaction shall not be made (a) before the thirtieth calendar day following the date of this Order or (b) later than three months after the date of this Order, unless such period is extended for good cause by the Board, or by the Federal Reserve Bank of New York pursuant to delegated authority.

By order of the Board of Governors of the Federal Reserve System,[4] effective April 24, 1974.

[SEAL] CHESTER B. FELDBERG,
Secretary of the Board.

[FR Doc.74-10016 Filed 5-1-74;8:45 am]

[1] The Metropolitan New York market is defined as the five boroughs of New York City, Nassau, Westchester, Putnam, and Rockland counties, a portion of Suffolk County in New York, portions of Bergen and Hudson Counties in New Jersey, and a portion of Fairfield County in Connecticut.
[2] Unless otherwise noted, all banking data are as of June 30, 1972.
[3] The establishment of an additional branch in Manhattan has been approved.
[4] Voting for this action: Vice Chairman Mitchell and Governors Brimmer, Sheehan, Bucher, Holland, and Wallich. Absent and not voting: Chairman Burns.

COMMERCE BANCSHARES, INC.

Order Approving Acquisition of Bank

Commerce Bancshares, Inc., Kansas City, Missouri, a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval under section 3(a)(3) of the Act (12 U.S.C. 1842(a)(3)) to acquire more than 80 percent of the voting shares of Farmers and Merchants Bank, Bolivar, Missouri ("Bank").

Notice of the application, affording opportunity for interested persons to submit comments and views, has been given in accordance with section 3(b) of the Act. The time for filing comments and views has expired, and the Board has considered the application and the views of Grandview Bank & Trust Company, Grandview, Missouri, in light of the factors set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Applicant, the third largest bank holding company and banking organization in Missouri, controls 26 subsidiary banks with aggregate deposits of approximately $1 billion, representing 7.7 percent of the total commercial bank deposits in Missouri.[1] Acquisition of Bank would increase Applicant's share of State deposits by the addition of .10 percent and would not result in a significant increase in the concentration of banking resources in the State.

Bank (deposits of $14.0 million) is the second largest of five banks in Polk County (which approximates the relevant banking market), and controls almost 29 percent of the total deposits in commercial banks in the market. The largest bank in the market controls almost 40 percent of the market deposits, and Applicant's acquisition of Bank would not result in Applicant's gaining a dominant share of the market's banking resources.

Applicant's subsidiary bank closest to Bank is located in Willard, Missouri, approximately 24 miles south of Bolivar, and there is no meaningful present competition between any of Applicant's subsidiary banks and Bank. The town of Bolivar is the only town in Polk County that has experienced rapid growth in the past decade. This growth is expected to continue, and may increase competition between Bank and Applicant's subsidiary banks located in the Springfield-Willard area. This possible future competition is not regarded as significant. De novo entry into the Polk County market is regarded as relatively unlikely due to the low population and rural orientation of Polk County. Nor does it appear that "foothold" entry into the market is an attractive alternative. The Board concludes that competitive considerations are consistent with approval of the application.

In its consideration of this application, the Board has examined the covenant not to compete which was executed in con-

[1] All banking data are as of June 30, 1973, and reflect holding company formations and acquisitions approved through January 31, 1974.

V 39 186
MAY 2 74
XUM

nection with the proposal, and considered the question of whether such a covenant is contrary to the standards respecting competition and the public interest which the Board is required to consider under the Banking Holding Company Act. The Board finds that the provisions of this covenant are consistent with such standards, and that its presence in the record does not require denial of the application.

The financial and managerial resources and future prospects of Applicant are regarded as satisfactory; those of Bank are also regarded as satisfactory, particularly in view of Applicant's commitment to increase Bank's capital account, which has not kept pace with Bank's deposit growth, upon consummation of the acquisition. Accordingly, considerations relating to the banking factors lend some weight toward approval of the application. Although the major banking needs of the residents in the area are being adequately served at the present time, the proposed affiliation is likely to result in the provision of some services which cannot presently be profitably provided by banks of the size prevailing in the area, such as trust services. Considerations relating to the convenience and needs of the community to be served lend some weight toward approval of the application. It is the Board's judgment that the proposed acquisition would be in the public interest and that the application should be approved.

On the basis of the record, the application is approved for the reasons summarized above. The transaction shall not be made (a) before the thirtieth calendar day following the effective date of this Order or (b) later than three months after the effective date of this Order, unless such period is extended for good cause by the Board, or by the Federal Reserve Bank of Kansas City pursuant to delegated authority.

By order of the Board of Governors,[1] effective April 24, 1974.

[SEAL] CHESTER B. FELDBERG,
Secretary of the Board.

FEDERAL OPEN MARKET COMMITTEE

Authorization for System Foreign Currency Operations

In accordance with § 271.5 of its rules regarding availability of information there is set forth below paragraph 2 of the Committee's Authorization for Foreign Currency Operations in the form that became effective February 1, 1974.

The Federal Open Market Committee directs the Federal Reserve Bank of New York to maintain reciprocal currency arrangements ("swap" arrangements) for the System Open Market Account for periods up to a maximum of 12 months with the following foreign banks, which are among those designated by the Board of Governors of the Federal Reserve System under § 214.5 of Regulation N, Relations with Foreign Banks and Bankers, and with the approval of the Committee to renew such arrangements on maturity:

Foreign bank	*Amount of arrangement (millions of dollars equivalent)*
Austrian National Bank	250
National Bank of Belgium	1,000
Bank of Canada	2,000
National Bank of Denmark	250
Bank of England	2,000
Bank of France	2,000
German Federal Bank	2,000
Bank of Italy	3,000
Bank of Japan	2,000
Bank of Mexico	180
Netherlands Bank	500
Bank of Norway	250
Bank of Sweden	300
Swiss National Bank	1,400
Bank for International Settlements:	
Dollars against Swiss francs	600
Dollars against other European currencies	1,250

By order of the Federal Open Market Committee, April 25, 1974.

ARTHUR L. BROIDA,
Secretary.

[FR Doc.74-10014 Filed 5-1-74;8:45 am]

FEDERAL OPEN MARKET COMMITTEE

Domestic Policy Directive of January 21-22, 1974

In accordance with § 271.5 of its rules regarding availability of information, there is set forth below the Committee's Domestic Policy Directive issued at its meeting held on January 21-22, 1974.[2]

The information reviewed at this meeting indicates that growth in real output of goods and services was slow in the fourth quarter of 1973, in part because of the fuel situation. Prices continued to rise sharply in December, reflecting additional increases for petroleum products and widespread advances among other goods and services. A further weakening in activity and sharp rise in prices appear to be in prospect for early 1974. In December nonfarm payroll employment changed little, and the unemployment rate increased further. Wage rates have continued to rise substantially in recent months, although not so sharply as prices.

Major foreign currencies have depreciated further against the dollar since mid-December, and some foreign monetary authorities have continued to sell dollars in exchange markets. Steep price increases imposed by oil-producing countries have heightened fears of economic disruption in many countries and of large and erratic international flows of funds.

The narrowly defined money stock increased substantially in the last 2 months of 1973, partly reflecting increased foreign deposits, but it has changed little on balance over recent weeks. Net inflows of consumer-type time deposits remained sizable at both banks and nonbank thrift institutions. Bank credit expansion, which was moderate over the closing months of 1973, has accelerated in recent weeks as banks have stepped up issuance of large-denomination CD's. Since mid-December, interest rate movements have been mixed; yields on most long-term securities and on Treasury bills have risen on balance, while some private short-term rates have declined.

(20 U.S.C. 1301, 1302(c), 1303)

(n) The application shall include suitable procedures to assure that Federal funds made available for the project will not be commingled with State or local funds.

(20 U.S.C. 1303(b)(1)(C))

In light of the foregoing developments, it is the policy of the Federal Open Market Committee to foster financial conditions conducive to resisting inflationary pressures, cushioning the effects on production and employment growing out of the oil shortage, and maintaining equilibrium in the country's balance of payments.

To implement this policy, while taking account of the forthcoming Treasury financing and of international and domestic financial market developments, the Committee seeks to achieve bank reserve and money market conditions consistent with moderate growth in monetary aggregates over the months ahead.

By order of the Federal Open Market Committee, April 25, 1974.

ARTHUR L. BROIDA,
Secretary.

SECURITIES AND EXCHANGE COMMISSION

DETERMINATION TO ESTABLISH AN ADVISORY COMMITTEE

After consultation with the Director of the Office of Management and Budget and with the concurrence of the members of the Commission, I, Ray Garrett, Jr., Chairman of the Securities and Exchange Commission, have determined that the establishment of an advisory committee under the Federal Advisory Committee Act to be designated as the Securities and Exchange Commission Advisory Committee on the Implementation of a Central Market System (the "Committee"), to be in the public interest in connection with the performance of duties imposed on the Commission under the federal securities laws, particularly the Securities Exchange Act of 1934.

The Committee is established to assist the Commission in implementing its proposals for a central market system and in insuring that such a system will meet the coming needs of this country's capital markets over the next few decades, consistent with the public interest and the protection of investors. Specifically, the Committee is to study and submit recommendations to the Commission on such matters as:

1. The appropriate structure for regulatory supervision of the central market system;
2. The nature and scope of the Commission's role during the process of implementing the Commission's plans for a central market system;
3. The ways in which a central market system should be structured in order effectively to meet the needs of our capital markets, the public interest, the protection of investors and the maintaining of fair and orderly markets for securities;
4. The needs and perspectives of the users of a central market system including issuers of and investors in securities, as well as securities professionals; and
5. The appropriate resolution of fundamental policy issues relating to the central market system's operations.

RAY GARRETT, JR.,
Chairman, Securities and Exchange Commission.

SMALL BUSINESS ADMINISTRATION

[License No. 08/08-5033]

FIRST VENTURE CAPITAL CORP.

Issuance of License To Operate as a Small Business Investment Company

On September 27, 1973, a notice was published in the FEDERAL REGISTER (38 FR 26983) stating that First Venture Capital Corporation, located at 46 South 700 East, Salt Lake City, Utah 84102, had filed an application with the Small Business Administration, pursuant to 13 CFR 107.102 (1974) for a license to operate as a small business investment company under the provisions of section 301(d) of the Small Business Investment Act of 1958 (the Act), as amended.

The period for comment ended October 12, 1973.

Notice is hereby given that, having considered the application and other pertinent information, SBA has issued license no. 08/08-5033 to First Venture Capital Corporation.

Dated: April 26, 1974.

JAMES THOMAS PHELAN,
Deputy Associate Administrator for Investment.

[FR Doc.74-10006 Filed 5-1-74;8:45 am]

[Disaster Loan Area 1046; Amdt. 2]

TENNESSEE

Amendment to Notice of Disaster Relief Loan Availability

As a result of the President's declaration of the State of Tennessee as a major disaster area following tornadoes beginning on or about April 3, 1974, applications for disaster relief loans will be accepted by the Small Business Administration from tornado victims in the following additional counties: Bedford, Blount, Cannon, Carter, Cumberland, Davidson, Decatur, De Kalb, Dickson, Fentress, Hamblen, Hamilton, Henderson, Jackson, Johnson, Loudon, Marshall, Meigs, Monroe, Overton, Pickett, Polk, Rutherford, Scott, Trousdale, Warren, White, and Wilson and adjacent affected areas. (See 39 FR 13822 and 39 FR 14650)

Applications may be filed at the:

Small Business Administration, District Office, 1012 Parkway Towers, 404 James Robertson Parkway, Nashville, Tenn. 37219.

and at such temporary offices as are established. Such addresses will be announced locally. Applications will be processed under the provisions of Pub. L. 93-24.

Applications for disaster loans under this announcement must be filed not later than June 10, 1974.

Dated: April 11, 1974.

THOMAS S. KLEPPE,
Administrator.

DEPARTMENT OF LABOR

Office of Federal Contract Compliance

FEDERALLY ASSISTED CONSTRUCTION CONTRACTS

Ohio; Equal Employment Opportunity Requirements

Clarification of the Approval of Ohio EEO Requirements by Director of Office of Federal Contract Compliance and Opportunity for Appeal of Director's Determination to Assistant Secretary for Employment Standards.

As Director of the Office of Federal Contract Compliance, I have received a request for clarification of my approval of the Ohio EEO requirements published in the FEDERAL REGISTER on April 11, 1974 (39 FR 13210). Specifically, the request for clarification questions whether the scope of my approval includes the State's Proposed Implementing Rules and Regulations of the DPW Regulations on EEO.

In an effort to clarify the extent of my determination, the notice of approval published in the FEDERAL REGISTER on April 11, 1974, is amended to read as follows:

2. *Decision.* After careful review of the State of Ohio's requirements, in accordance with the provisions of 41 CFR 60-1.4 (b)(2), I have determined that the Governor's Executive Order of January 27, 1972, and Final Order of November 30, 1973, establishing new State EEO bid conditions for the standard metropolitan statistical areas of Akron, Cincinnati, Cleveland, Columbus, Dayton, Toledo and Youngstown, are not inconsistent with Executive Order 11246, as amended, and not incompatible with the implementation of Federal minority hiring and/or training plans in operation in the State of Ohio. Accordingly, I have approved these Ohio requirements, and the State may include them in federally assisted construction contracts. My approval does not now extend to the State's Proposed Implementing Rules and Regulations of the DPW Regulations on EEO inasmuch as they are only in the formative stage at this time, and thus were not considered.

Signed at Washington, D.C., this 29th day of April 1974.

PHILIP J. DAVIS,
Director,
Office of Federal Contract Compliance.

INTERSTATE COMMERCE COMMISSION

[NOTICE NO. 34]

MOTOR CARRIER, BROKER, WATER CARRIER AND FREIGHT FORWARDER APPLICATIONS

APRIL 26, 1974.

The following applications (except as otherwise specifically noted, each applicant (on applications filed after March 27, 1972) states that there will be no significant effect on the quality of the human environment resulting from approval of its application), are governed by Special Rule 1100.247[1] of the Commission's general rules of practice (49 CFR, as amended), published in the FEDERAL REGISTER issue of April 20, 1966, effective May 20, 1966. These rules provide, among other things, that a protest to the granting of an application must be filed with the Commission within 30 days after date of notice of filing of the application is published in the FEDERAL REGISTER. Failure seasonably to file a protest will be construed as a waiver of opposition and participation in the proceeding. A protest under these rules should comply with section 247(d)(3) of the rules of practice which requires that it set forth specifically the grounds upon which it is made, contain a detailed statement of protestant's interest in the proceeding (including a copy of the specific portions of its authority which protestant believes to be in conflict with that sought in the application, and describing in detail the method—whether by joinder, interline, or other means—by which protestant would use such authority to provide all or part of the service proposed), and shall specify with particularity the

[1] Copies of Special Rule 247 (as amended) can be obtained by writing to the Secretary Interstate Commerce Commission, Washington, D.C. 20423.

facts, matters, and things relied upon, but shall not include issues or allegations phrased generally. Protests not in reasonable compliance with the requirements of the rules may be rejected. The original and one (1) copy of the protest shall be filed with the Commission, and a copy shall be served concurrently upon applicant's representative, or applicant if no representative is named. If the protest includes a request for oral hearing, such requests shall meet the requirements of section 247(d)(4) of the special rules, and shall include the certification required therein.

Section 247(f) of the Commission's rules of practice further provides that each applicant shall, if protests to its application have been filed, and within 60 days of the date of this publication, notify the Commission in writing (1) that it is ready to proceed and prosecute the application, or (2) that it wishes to withdraw the application, failure in which the application will be dismissed by the Commission.

Further processing steps (whether modified procedure, oral hearing, or other procedures) will be determined generally in accordance with the Commission's general policy statement concerning motor carrier licensing procedures, published in the FEDERAL REGISTER issue of May 3, 1966. This assignment will be by Commission order which will be served on each party of record. Broadening amendments will not be accepted after the date of this publication except for good cause shown, and restrictive amendments will not be entertained following publication in the FEDERAL REGISTER of a notice that the proceeding has been assigned for oral hearing.

No. MC 730 (Sub-No. 363), filed March 21, 1974. Applicant: PACIFIC INTERMOUNTAIN EXPRESS CO., a Corporation, 1417 Clay Street, P.O. Box 958, Oakland, Calif. 94604. Applicant's representative: Alfred G. Krebs (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General Commodities*, (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), serving the warehouse site of Western Electric, located at or near Godard, Kans., as an off route point in connection with carrier's authorized regular route operations.

NOTE.—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at Wichita, Kans., or Kansas City, Mo.

No. MC 2202 (Sub-No. 462), filed March 20, 1974. Applicant: ROADWAY EXPRESS, INC., 1077 Gorge Blvd., P.O. Box 471, Akron, Ohio 44309. Applicant's representative: William Slabaugh (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, Classes A and B explosives, commodities in bulk, household goods as defined by the Commission, and those requiring special equipment), serving the warehouse site of Western Electric located at or near Martinsburg, W. Va. as an off-route point.

NOTE.—Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C., or Baltimore, Md.

No. MC 2900 (Sub-No. 254), filed March 4, 1974. Applicant: RYDER TRUCK LINES, INC., 2050 Kings Road, Jacksonville, Fla. 32209. Applicant's representative: S. E. Somers, Jr. (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk and those requiring special equipment), (1) Between Baltimore, Md., and the junction of U.S. Highway 13 and Delaware Highway 404, serving the termini for the purpose of joinder only: From Baltimore over Maryland Highway 2 to junction U.S. Highway 50, thence over U.S. Highway 50 to junction Maryland Highway 404, thence over Maryland Highway 404 to the Maryland-Delaware State Boundary line, thence over Delaware Highway 404 to junction U.S. Highway 13, and return over the same route; (2) Between Charleston, W. Va., and junction of Interstate Highway 77 and U.S. Highway 30, serving the termini for the purpose of joinder only: From Charleston over Interstate Highway 77 to junction U.S. Highway 30, and return over the same route; (3) Between junction Interstate Highway 77 and U.S. Highway 30 and junction U.S. Highway 23 and U.S. Highway 25, serving the termini for the purpose of joinder only: From junction Interstate Highway 77 and U.S. Highway 30 over U.S. Highway 30 to junction U.S. Highway 250, thence over U.S. Highway 250 to junction U.S. Highway 20, thence over U.S. Highway 20 to junction U.S. Highway 23, thence over U.S. Highway 23 to junction U.S. Highway 25, and return over the same route; (4) Between Charleston, W. Va., and junction U.S. Highway 70 and Interstate Highway 65, serving the junctions of Interstate Highway 64 and Interstate Highway 65 and the termini for the purpose of joinder only: From Charleston over Interstate Highway 64 to junction Interstate Highway 65, thence over Interstate Highway 65 to junction U.S. Highway 70, and return over the same route; and (5) Between Hazlehurst, Ga., and Macon, Ga., serving the termini for the purpose of joinder only: From Hazlehurst over U.S. Highway 23 to junction Georgia Highway 19, thence over Georgia Highway 19 to junction Interstate Highway 16, thence over Interstate Highway 16 to Macon, and return over the same route, in (1) through (5) above, as alternate routes for operating convenience only, serving no intermediate points, in connection with carrier's authorized regular route operations.

NOTE.—Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at either Jacksonville, Fla., or Washington, D.C.

No. MC 2900 (Sub-No. 256), filed March 18, 1974. Applicant: RYDER TRUCK LINES, INC., P.O. Box 2408, 2050 Kings Road, Jacksonville, Fla. 32209. Applicant's representative: S. E. Somers, Jr. (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and commodities requiring special equipment), serving Upland, Alexandria, Hartford City, Dunkirk, New Castle, and Winchester, Ind., as off-route points in connection with carrier's regular route operations.

NOTE.—Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Muncie, or Indianapolis, Ind.

No. MC 18535 (Sub-No. 56), filed March 21, 1974. Applicant: HICKLIN MOTOR LINE, INC., Railroad Avenue, P.O. Box 377, St. Matthews, S.C. 29135. Applicant's representative: Lawrence M. Gressette, P.O. Box 346, St. Matthews, S.C. 29315. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Wood chips, wood shavings, sawdust, and bark*, from Orangeburg, S.C., and Elgin, S.C., to Augusta, Ga.

NOTE.—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at Columbia, or Charleston, S.C.

No. MC 25869 (Sub-No. 119), filed March 22, 1974. Applicant: NOLTE BROTHERS TRUCK LINE, INC., 6217 Gilmore Avenue, Omaha, Nebr. 68107. Applicant's representative: Donald L. Stern, Suite 530 Univac Building, 7100 West Center Road, Omaha, Nebr. 68106. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Malt beverages*, from St. Louis, Mo., to Omaha, Nebr.

NOTE.—Applicant can provide all of the requested service by tacking separately issued grants of authority. It seeks here to eliminate the gateway now required at Churdan, Iowa, and points within 25 miles thereof. If a hearing is deemed necessary, the applicant requests it be held at Omaha, Nebr.

No. MC 29120 (Sub-No. 178), filed March 18, 1974. Applicant: ALL-AMERICAN, INC., 900 West Delaware, Sioux Falls, S. Dak. 57101. Applicant's representative: Michael J. Ogborn (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meats, meat products and meat by-products and articles distributed by meat packinghouses*, as described in Sections A, B, and C of Appendix I to the report

V 39 I 86 MAY 2 74 XUM

in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766 (except hides, chromes, skins, and commodities in bulk), from Sterling, Colo., to points in Illinois, Wisconsin, Michigan, Indiana, Ohio, Kentucky, and Missouri, restricted to traffic originating at the plantsites or warehouses of Sterling Colorado Beef Packers at or near Sterling, Colo., and destined to the named destinations.

NOTE.—Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Denver, Colo.

No. MC 29120 (Sub-No. 179), filed March 18, 1974. Applicant: ALL-AMERICAN, INC., 900 West Delaware, P.O. Box 769, Sioux Falls, S. Dak. 57101. Applicant's representative: Michael J. Ogborn (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meats, meat products and meat by-products and articles distributed by meat packinghouses* as described in Sections A and C of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766 (except hides, chromes, skins, and commodities in bulk), from Denver, Colo., to points in Illinois, Wisconsin, Michigan, Indiana, Ohio, Kentucky, and Missouri, restricted to traffic originating at Denver, Colo. and destined to the named destination States.

NOTE.—Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Denver, Colo.

No. MC 29910 (Sub-No. 143), filed March 22, 1974. Applicant: ARKANSAS-BEST FREIGHT SYSTEM, INC., 301 South 11th Street, Fort Smith, Ark. 72901. Applicant's representative: Thomas Harper, P.O. Box 43–Kelley Building, Fort Smith, Ark. 72901. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), serving the warehouse site of Western Electric Company located at or near Goddard, Kans., as an off-route point in connection with applicant's operations at Wichita, Kans.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Kansas City, Mo., or Washington, D.C.

No. MC 30844 (Sub-No. 500), filed March 25, 1974. Applicant: KROBLIN REFRIGERATED XPRESS, INC., 2125 Commercial Street, Waterloo, Iowa 50702. Applicant's representative: Paul Rhodes (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meats, meat products, meat by-products and articles distributed by meat packinghouses* (except commodities in bulk) as defined in Sections A and C of Appendix I to the report in *Descriptions in Motor Carrier Certificates* 61 M.C.C. 209 and 766, from Wichita, Kans., to points in Connecticut, Delaware, District of Columbia, Maine, Maryland, Massachusetts, New Hamshire, New Jeresy, New York, Ohio, Pennsylvania, Vermont, Virginia, and West Virginia, restricted to shipments originating at the plant sites and facilities of Kansas Beef Industries and Cudahy Packing Co. at the above named origin.

NOTE.—Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Kansas City, Mo., or Washington, D.C.

No. MC 41432 (Sub-No. 141), filed March 22, 1974. Applicant: EAST TEXAS MOTOR FREIGHT LINES, INC., 2355 Stemmons Freeway, P.O. Box 10125, Dallas, Tex. 75207. Applicant's representative: W. P. Furrh (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General Commodities* (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), serving the plantsite and warehouse facilities of PPG Industries, Inc., located at or near Wichita Falls, Tex., as an off-route point in connection with carrier's authorized regular route operations.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Dallas, Tex., or Fort Worth, Tex.

No. MC 45656 (Sub-No. 19), filed March 25, 1974. Applicant: ANDERSON TRUCK LINE, INC., 531 W. Harper Ave., Highway 321 South, P.O. Drawer 191, Lenoir, N.C. 28645. Applicant's representative: Theodore Polydoroff, 1250 Connecticut Ave. NW., Washington, D.C. 20036. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *New furniture*, from Toccoa, Ga., to Lenoir, N.C.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Charlotte, N.C.

No. MC 51146 (Sub-No. 370), filed March 22, 1974. Applicant: SCHNEIDER TRANSPORT, INC., 2661 South Broadway, Green Bay, Wis. 54304. Applicant's representative: Neil DuJardin, P.O. Box 2298, Green Bay, Wis. 54306. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Aluminum beverage cans and can ends*, from the plantsite of Kaiser Aluminum and Chemical Corporation at Edison, N.J., to points in Alabama, Arizona, Arkansas, California, Colorado, Florida, Georgia, Idaho, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Michigan, Minnesota, Mississippi, Missouri, Montana, Nebraska, Nevada, New Mexico, North Carolina, North Dakota, Ohio, Oklahoma, Oregon, South Carolina, South Dakota, Tennessee, Texas, Utah, Washington, West Virginia, Wisconsin, and Wyoming; and (2) *used empty pallets, skids, shrouds*, from the destination area noted in (1) above to the plant site of Kaiser Aluminum and Chemical Corporation.

NOTE.—Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

No. MC 52110 (Sub-No. 140), filed March 22, 1974. Applicant: BRADY MOTORFRATE, INC., P.O. Box No. 1000, Staunton, Va. 24401. Applicant's representative: Francis W. McInverny, 1000 16th Street NW., Washington, D.C. 20036. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General Commodities* (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), serving the plant site of Minnetonka Labs, located at or near Chanhassen, Minn., as an off-route point in connection with carrier's regular route operations:

NOTE.—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at Washington, D.C. or Minneapolis-St. Paul, Minn.

No. MC–56553 (Sub-No. 26), filed March 22, 1974. Applicant: PULASKI HIGHWAY EXPRESS, INC., 640 Hamilton Street, Nashville, Tenn. 37203. Applicant's representative: A. O. Buck, 614 Hamilton Bank Building, Nashville, Tenn. 37219. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), (1) Between the plantsite of the Reynolds Aluminum Company, located at or near Sheffield, Ala., and Memphis, Tenn.: From Sheffield, Ala., over U.S. Highway 43 to junction Alabama Highway 20, thence over Alabama Highway 20 to the Alabama-Tennessee State line, thence over Tennessee Highway 69 to junction U.S. Highway 64, thence over U.S. Highway 64 to Memphis, and return over the same route, serving no intermediate points, restricted to service at Memphis, Tenn. to that portion of Memphis and its commercial zone, as defined by the Commission, lying wholly within Tennessee; and (2) Between the plantsite of Reynolds Aluminum Company, located at Sheffield, Ala., and junction U.S. Highway 43 and the Tennessee-Alabama State line: From Sheffield, Ala., over U.S. Highway 43 to junction U.S. Highway 43 and the Tennessee-Alabama State line, and return over the same route, serving no intermediate points.

NOTE.—Applicant states that the purpose of this application is to remove its restrictions in Sub-Nos. 16 and 20. If a hearing is deemed necessary, the applicant requests it be held at Nashville, Tenn., or Florence, Ala.

No. MC 60014 (Sub-No. 35), filed March 18, 1974. Applicant: AERO TRUCKING, INC., P.O. Box 308, Monroeville, Pa. 15146. Applicant's representative: Edward J. Conto (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Iron and steel articles*, from the plantsite of Bethlehem Steel Corporation, at Lackawanna, N.Y., to points in Illinois, Indiana, Ohio, Wisconsin, and the Lower Peninsula of Michigan.

NOTE.—If a hearing is deemed necessary, applicant does not specify a location.

No. MC 61440 (Sub-No. 140), filed March 25, 1974. Applicant: LEE WAY MOTOR FREIGHT, INC., 3000 West Reno, Oklahoma City, Okla. 73108. Applicant's representative: Richard H. Champlin, P.O. Box 82488, Oklahoma City, Okla. 73108. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), serving the warehouse site of Western Electric located at or near Goddard, Kans., as an off-route point in connection with applicant's regular route operations at Wichita, Kans.

NOTE.—Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C., or Kansas City, Mo.

No. MC 61592 (Sub-No. 315), filed December 26, 1973. Applicant: JENKINS TRUCK LINE, INC., 3708 Elm Street, P.O. Box K, Bettendorf, Iowa 52722. Applicant's representative: E. A. DeVine (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Lumber and wood products*, from points in Oregon and Washington, to points in California.

NOTE.—Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Tacoma, Wash.

No. MC 69116 (Sub-No. 166), filed March 25, 1974. Applicant: SPECTOR FREIGHT SYSTEM, INC., 205 West Wacker Drive, Chicago, Ill. 60606. Applicant's representative: Edward G. Bazelon, 39 South La Salle Street, Chicago, Ill. 60603. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities*, (except those of unusual value, Classes A and B explosives, livestock, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), serving the warehouse site of Western Electric Company, Inc., located at or near Goddard, Kans., as an off-route point in connection with applicant's regular-route operation to and from Wichita, Kans.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Kansas City, Mo., or Washington, D.C.

No. MC 74321 (Sub-No. 96), filed March 15, 1974. Applicant: B. F. WALKER, INC., P.O. Box 17B, 1555 Tremont Place, Denver, Colo. 80217. Applicant's representative: Richard P. Kissinger (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Commodities*, which by reason of size or weight require special handling or the use of special equipment and commodities which do not require special handling or the use of special equipment when moving in the same shipment on the same bill of lading as commodities which by reason of size or weight require special handling or the use of special equipment; (2) *Self propelled articles*, transported on trailers, and *related machinery, tools, parts and supplies* moving in connection therewith; (3) *Iron and steel and iron and steel articles;* (4) *Pipe*, other than iron and steel, together with fittings; and (5) *Construction materials*, between points in Colorado, on the one hand, and, on the other, points in Idaho, Utah, and Wyoming.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at either Denver, Colo., or Salt Lake City, Utah.

No. MC 82841 (Sub-No. 144), filed March 25, 1974. Applicant: HUNT TRANSPORTATION, INC., 10770 I Street, Omaha, Nebr. 68127. Applicant's representative: Donald L. Stern, 530 Univac Bldg., 7100 W. Center Road, Omaha, Nebr. 68106. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Iron and steel articles*, from the plantsite of Nucor Steel, Division of Nucor Corporation, located at or near Norfolk, Nebr., to points in Colorado, Iowa, Kansas, Minnesota, Missouri, North Dakota, South Dakota, Wisconsin, and Wyoming.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Omaha, Nebr.

No. MC 85255 (Sub-No. 49), filed February 14, 1974. Applicant: PUGET SOUND TRUCK LINES, INC., P.O. Box 24526 (3720 Airport Way S.), Seattle, Wash. 98124. Applicant's representative: Clyde H. MacIver, 1001 Fourth Avenue, Suite 3712, Seattle, Wash. 98154. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, classes A and B explosives, commodities in bulk, household goods as defined by the Commission, and those requiring special equipment), between Chehalis, Wash., and Olympia, Wash.; From Chehalis over Interstate Highway 5 to Olympia, and return over the same route, in connection with carrier's regular and irregular route operations between Portland, Oreg., and Blaine, Wash.

NOTE.—Applicant indicates that the purpose of this application is to eliminate an Aberdeen, Wash., gateway. If a hearing is deemed necessary, applicant does not specify location.

No. MC 95084 (Sub-No. 99), filed March 15, 1974. Applicant: HOVE TRUCK LINE, a Corporation, Stanhope, Iowa 50246. Applicant's representative: Kenneth F. Dudley, 611 Church Street, P.O. Box 279, Ottumwa, Iowa 52501. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Agricultural machinery, equipment, and implements;* (2) *Loaders;* (3) *Attachments and accessories* for (1) and (2) above; and (4) *Parts*, for (1), (2), and (3) above, from Madison, S. Dak., to points in the United States (except Alaska and Hawaii).

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Chicago, Ill., or Kansas City, Mo.

No. MC 95540 (Sub-No. 897), filed March 4, 1974. Applicant: WATKINS MOTOR LINES, INC., 1940 Monroe Drive, P.O. Box 1636, Atlanta, Ga. 30301. Applicant's representative: Jerome F. Marks (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Bakery products, cooked bakery goods*, not frozen, in cans and in cartons, in vehicles equipped with mechanical refrigeration, from Little Rock, Ark., to points in Alabama, Colorado, Florida, Georgia, Illinois, Iowa, Kansas, Louisiana, Minnesota, Mississippi, Missouri, Nebraska, North Carolina, North Dakota, South Carolina, South Dakota, Virginia, and Wisconsin.

NOTE.—Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 95540 (Sub-No. 898), filed March 25, 1974. Applicant: WATKINS MOTOR LINES, INC., 1940 Monroe Drive, P.O. Box 1636, Atlanta, Ga. 30301. Applicant's representative: Jerome F. Marks (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Foodstuffs* (except in bulk, from Jacksonville (Morgan County), Fl., to points in Louisiana, Mississippi, Arkansas, Alabama, Georgia, Florida, North Carolina, South Carolina, and Tennessee, restricted to traffic originating at the plantsite of Anderson Clayton Foods, located at or near Jacksonville, Ill., and destined to the named destination points.

NOTE.—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at Washington, D.C.

No. MC 95876 (Sub-No. 149), filed March 25, 1974. Applicant: ANDERSON TRUCKING SERVICE, INC., 203 Cooper Avenue North, St. Cloud, Minn. 56301. Applicant's representative: Val M. Higgins, 1000 First National Bank Building, Minneapolis, Minn. 55402. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Plywood, hardboard, veneer, wood paneling, wallboard, and particle board, and materials, supplies and accessories*, used in connection therewith, from Oshkosh, Wis., to points in Connecticut, Delaware, Illinois, Indiana, Maine, Maryland, Massachusetts, Michigan, New Hampshire, New Jersey, New York, Pennsylvania, Ohio, Rhode Island, Virginia, Vermont, West Virginia, and the District of Columbia.

V 39 1 86 MAY 2 74 XUM

NOTE.—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at Minneapolis, Minn.

No. MC 100449 (Sub-No. 46), filed March 25, 1974. Applicant: MALLINGER TRUCK LINE, INC., R.F.D. 4, Fort Dodge, Iowa 50501. Applicant's representative: William L. Fairbank, 900 Hubbell Building, Des Moines, Iowa 50309. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen foods*, from the plantsites and storage facilities of Kitchens of Sara Lee, located at Chicago and Deerfield, Ill., to points in Kansas, Oklahoma, and Texas, restricted to traffic originating at the above origins.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Chicago, Ill.

No. MC 100666 (Sub-No. 277), filed March 15, 1974. Applicant: MELTON TRUCK LINES, INC., P.O. Box 7666, Shreveport, La. 71107. Applicant's representative: Wilburn L. Williamson, 3535 NW. 58th, 280 National Foundation Life Bldg., Oklahoma City, Okla. 73112. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Composition board*, from New Orleans, La., to points in Alabama, Arkansas, Mississippi, Missouri, and Tennessee.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at New Orleans, La.

No. MC 104123 (Sub-No. 75), filed March 15, 1974. Applicant: JOHN SCHUTT, JR., INC., 4361 River Road, Tonawanda, N.Y. 14207. Applicant's representative: Robert D. Gunderman, Suite 710 Statler Hilton, Buffalo, N.Y. 14202. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Dry aluminum chloride*, in bulk, in tank vehicles, (1) from Erie and Niagara Counties, N.Y., to points in North Dakota, South Dakota, Minnesota, Nebraska, Iowa, Kansas, Missouri, Oklahoma, Arkansas, Texas, and Louisiana; (2) from Brainards, N.J., and Elkton, Md., to Ashtabula, Ohio, Baltimore, Md., Institute, W. Va., West Elizabeth, Pa., Staten Island, N.Y., and points in North Dakota, South Dakota, Minnesota, Nebraska, Iowa, Kansas, Missouri, Oklahoma, Arkansas, Texas, and Louisiana; and (3) from LaPorte, Tex., to points in Ashtabula, Ohio, Baltimore, Md., Institute, W. Va., West Elizabeth, Pa., and Staten Island, N.Y.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Buffalo, N.Y.

No. MC 105045 (Sub-No. 48), filed March 15, 1974. Applicant: R. L. JEFFRIES TRUCKING CO., INC., P.O. Box 3277, Evansville, Ind. 47701. Applicant's representative: Paul F. Sullivan, 711 Washington Building, Washington, D.C. 20005. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Heavy machinery and equipment*, (2) *heavy machinery and equipment parts* and (3) *tanks and tank components*, between points in Burlington County, N.J., on the one hand, and, on the other, points in the United States (except Alaska and Hawaii).

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 106674 (Sub-No. 129), filed March 18, 1974. Applicant: SCHILLI MOTOR LINES, INC., P.O. Box 123, Remington, Ind. 47977. Applicant's representative: Carl Steiner, 39 South La Salle Street, Chicago, Ill. 60603. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Rock salt*, from Evansville, Ind., to points in Kentucky and Tennessee.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Indianapolis, Ind.

No. MC 107295 (Sub-No. 700), filed February 14, 1974. Applicant: PRE-FAB TRANSIT CO., a Corporation, 100 South Main Street, Farmer City, Ill. 61842. Applicant's representative: Mack Stephenson (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Buildings*, complete, knocked down, or in section, (2) *building sections and building panels*, (3) *parts and accessories*, used in the installation and completion (1) and (2) above, and (4) *metal prefabricated structural components and panels and accessories* used in the installation and completion thereof, from Jamestown, Ohio, to points in the United States (except Alaska, Arkansas, Illinois, Indiana, Iowa, Kentucky, Hawaii, Michigan, Missouri, Ohio, Tennessee, and Wisconsin).

Note.—Applicant can presently serve points in the territory sought insofar as the buildings involved in this application are concerned through various gateways based on authority in M.C. 107295 Parts A, B, and Sub-Nos. 5, 49, 86, 90, and 510. The purpose of this application in part is to eliminate various gateways. If a hearing is deemed necessary, applicant requests it be held at Columbus, Ohio, or Washington, D.C.

No. MC 107403 (Sub-No. 894), filed March 25, 1974. Applicant: MATLACK, INC., 10 West Baltimore Avenue, Lansdowne, Pa. 19050. Applicant's representative; John Nelson (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle over irregular routes, transporting: *Gasoline and fuel oils*, in bulk, in tank vehicles, from Clermont, Ind., to points in Kentucky.

NOTE.—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at Washington, D.C.

No. MC 107527 (Sub-No. 52), filed March 14, 1974. Applicant: POST TRANSPORTATION CO., a Corporation, P.O. Box 4827, Carson, Calif. 90745. Applicant's representative: R. Sherman Kirksey, 1970 E. 213th Street, Carson, Calif. 90745. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Sulfur trioxide without stabilizer*, from Carson, Calif., to points in Seattle, Wash., under contract with Stauffer Chemical Co.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Los Angeles or San Francisco, Calif.

No. MC 108053 (Sub-No. 126), filed March 14, 1974. Applicant: LITTLE AUDREY'S TRANSPORTATION COMPANY, INC., P.O. Box 129, Fremont, Nebr. 68025. Applicant's representative: Arnold L. Burke, 127 North Dearborn Street, Chicago, Ill. 60602. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Foodstuffs*, from Pana, Ill., Dubuque, Iowa, and St. Paul, Minn., to points in Arizona, California, Idaho, Montana, Nevada, New Mexico, Oregon, Utah, Washington, and Wyoming.

NOTE.—Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

No. MC 109124 (Sub-No. 20), filed March 21, 1974. Applicant: SENTLE TRUCKING CORPORATION, 210 Alexis Road, Toledo, Ohio 43612. Applicant's representative: James M. Burtch, 100 E. Broad Street, Suite 1800, Columbus, Ohio 43215. NOTE.—If a hearing is deemed necessary, applicant requests it be held at Columbus, Ohio.

No. MC 110563 (Sub-No. 136), filed March 25, 1974. Applicant: COLDWAY FOOD EXPRESS, INC., P.O. Box 747, Ohio Building, Sidney, Ohio 45365. Applicant's representative: Joseph M. Scanlan, 111 W. Washington, Chicago, Ill. 60602. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Foodstuffs* (except commodities in bulk, in tank vehicles), from the plantsites and warehouse facilities utilized by Beatrice Foods Co., located at or near Archbold, Ohio, to points in Pennsylvania, Maryland, Delaware, New Jersey, New York, Connecticut, Massachusetts, New Hampshire, Maine, Vermont, and the District of Columbia.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Toledo, or Columbus, Ohio.

No. MC 110988 (Sub-No. 309), filed March 25, 1974. Applicant: SCHNEIDER TANK LINES, INC., 200 West Cecil Street, Neenah, Wis. 54956. Applicant's representative: Neil A. DuJardin, P.O. Box 2298, Green Bay, Wis. 54306. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Salt cake* in bulk, in hopper type vehicles, from Otsego, Mich., to points in St. Louis, Mo.-East St. Louis, Ill., commercial zones and to points in Iowa, Kentucky, Michigan, Minnesota, Missouri, New York, Ohio, Pennsylvania, West Virginia, and Wisconsin.

NOTE.—Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

No. MC 112822 (Sub-No. 321), filed March 18, 1974. Applicant: BRAY LINES INCORPORATED, 1401 N. Little Street, P.O. Box 1191, Cushing, Okla. 74023. Applicant's representative: Robert A. Stone (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Petroleum products*, in bulk, from Wynnewood, Okla., to points in Illinois, Indiana, and Tennessee.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Oklahoma City, Okla., or Dallas, Tex.

No. MC 113106 (Sub-No. 41), filed March 19, 1974. Applicant: BLUE DIAMOND COMPANY, a Corporation, 4401 E. Fairmount Avenue, Baltimore, Md. 21224. Applicant's representative: Chester A. Zyblut, 1522 K Street NW., Washington, D.C. 20005. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Glass containers and closures* for containers, *and materials, supplies and equipment* used in the manufacture of glass containers (except commodities in bulk), and returned shipments of the above-specified commodities, (a) between Brockway, Pa., on the one hand, and, on the other, points in New York, New Jersey, Maryland (except Baltimore), and Virginia; (b) between Washington, Pa., on the one hand, and, on the other, points in New York and New Jersey; (c) between Freehold, N.J., on the one hand, and, on the other, points in New York and Pennsylvania; and (d) between Jersey City and Carteret, N.J., on the one hand, and, on the other, points in New York on and west of Interstate Highway 81, points in Pennsylvania on and west of Interstate 81 and 83, and points in Maryland, Delaware, Virginia, and the District of Columbia; and (2) *Plastic containers, and materials, supplies, and equipment*, used in the manufacture of plastic containers (except commodities in bulk), between Mt. Carmel, Pa., on the one hand, and, on the other, points in New York, New Jersey, Delaware, Maryland, Virginia, and the District of Columbia.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 113495 (Sub-No. 63), filed March 26, 1974. Applicant: GREGORY HEAVY HAULERS, INC., 51 Oldham Street, P.O. Box 60628, Nashville, Tenn. 37206. Applicant's representative: Wilmer B. Hill, 805 McLachlen Bank Building, 666 11th Street NW., Washington, D.C. 20001. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Self-propelled articles* weighing 15,000 pounds or more, *and related machinery, tools, parts, and supplies* moving in connection therewith, between points in Spotsylvania County, Va., on the one hand, and, on the other, points in that part of the United States in and east of Arkansas, Iowa, Louisiana, Minnesota, and Missouri.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Washington, D.C.

No. MC 113908 (Sub-No. 310), filed March 22, 1974. Applicant: ERICKSON TRANSPORT CORPORATION, 2105 East Dale Street, P.O. Box 3180, Springfield, Mo. 65804. Applicant's representative: B. B. Whitehead (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Vinegar and vinegar stock*, in bulk, (a) from Kansas City, Mo., and Memphis, Tenn., to Terre Haute, Ind.; and (b) from Holland, Mich., to Memphis, Tenn.; and (2) *Neutral and distilled spirits and* alcohol, in bulk, from Lake Alfred, Fla., to Rogers, Ark., Kansas City, Mo., Charlotte, N.C., Memphis, Tenn., and Houston, Tex.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Kansas City, Mo., Chicago, Ill., or Washington, D.C.

No. MC 113908 (Sub-No. 314), filed March 25, 1974. Applicant: ERICKSON TRANSPORT CORP., 2105 East Dale Street, P.O. Box 3180 G.S.S., Springfield, Mo. 65804. Applicant's representative: B. B. Whitehead (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Liquid animal and poultry feed ingredients*, in bulk, from Cabool, Mo., to Wolcott, Kans., and Omaha, Nebr.; (2) *Vinegar and vinegar stock*, in bulk, from Nixa, Mo., to points in Wisconsin; and (3) *Neutral and distilled spirits and alcohol*, in bulk, from Owensboro, Ky. to Chicago, Ill., and Montgomery, Ala.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Kansas City, Mo., Chicago, Ill., or Washington, D.C.

No. MC 114004 (Sub-No. 141), filed March 20, 1974. Applicant: CHANDLER TRAILER CONVOY, INC., 8828 New Benton Highway, Little Rock, Ark. 72209. Applicant's representative: Harold G. Hernly, Jr., 118 North St. Asaph Street, Alexandria, Va. 22314. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Trailers*, designed to be drawn by passenger automobiles, in initial movements, from points in Steuben and Oneida Counties, N.Y., to points in the United States (except Alaska and Hawaii).

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Detroit, Mich., or Washington, D.C.

No. MC 114273 (Sub-No. 170), filed March 18, 1974. Applicant: CEDAR RAPIDS STEEL TRANSPORTATION, INC., P.O. Box 68, Cedar Rapids, Iowa 52406. Applicant's representative: Robert E. Konchar, Suite 315 Commerce Exchange Building, 2720 First Avenue NE., P.O. Box 1943, Cedar Rapids, Iowa 52406. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meat, meat products and meat by-products and articles distributed by meat packinghouses* as described in Sections A and C of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766, from the plantsite and storage facilities utilized by Spencer Foods, Inc. at or near Schuyler and Fremont, Nebr., to points in Connecticut, Delaware, Indiana, Iowa, Kansas, Kentucky, Maine, Maryland, Massachusetts, Michigan, Minnesota, Missouri, New Hampshire, New Jersey, New York, Ohio, Pennsylvania, Rhode Island, Vermont, Virginia, West Virginia, Wisconsin, and the District of Columbia, restricted to traffic originating at the above named origin.

NOTE. Common control may be involved. If a hearing is deemed necessary applicant requests it be held at Washington, D.C.

No. MC 114274 (Sub-No. 28), filed March 25, 1974. Applicant: VITALIS TRUCK LINES, INC., 137 NE. 48th Street Place, Des Moines, Iowa 50306. Applicant's representative: William H. Towle, 127 North Dearborn Street, Chicago, Ill. 60602. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meats, meat products and meat by-products and articles distributed by meat packinghouses*, as described in Section A and C of Appendix I to the *Report of Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766 (except hides and commodities in bulk), from the facilities of Swift and Company, located at or near Des Moines, Marshalltown, Ames, Sioux City, and Glenwood, Iowa, to points in Tennessee, North Carolina, South Carolina, Georgia, and Florida, restricted to the transportation of traffic originating at the above-named origin points and destined to points in the above-named states.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Chicago, Ill.

No. MC 114457 (Sub-No. 189), filed March 22, 1974. Applicant: DART TRANSIT COMPANY, a Corporation, 780 North Prior Avenue, St. Paul, Minn. 55104. Applicant's representative: Michael P. Zell (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Foodstuffs*, from Bridgeport, Imlay City, and Memphis, Mich., to points in Ohio, Indiana, Kentucky, Illinois, Wisconsin, Iowa, Missouri, Minnesota, Kansas, Nebraska, South Dakota, and North Dakota.

NOTE.—Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at St. Paul, Minn., or Detroit, Mich.

No. MC 114632 (Sub-No. 70), filed March 8, 1974. Applicant: APPLE LINES, INC., 212 SW. Second, Madison, S. Dak. 57042. Applicant's representative: Robert Gisvold, 1000 First National Bank Bldg., Minneapolis, Minn. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen foods*, from the plantsites and warehouse facilities utilized by the

XUM

Kitchens of Sara Lee, at Chicago and Deerfield, Ill., to points in Arkansas, Iowa, Kansas, Missouri, Nebraska, North Dakota, Oklahoma, South Dakota, and Texas, restricted to traffic originating and destined to the named points.

NOTE.—Applicant holds contract carrier authority in MC 129706, therefore dual operations may be involved. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

No. MC 114632 (Sub-No. 72), filed March 25, 1974. Applicant: APPLE LINES, INC., 212 SW. Second, Madison, S. Dak. 57042. Applicant's representative: Robert A. Appelwick (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meats, meat products, meat by-products, and articles distributed by meat packinghouses*, as defined by the Commission in Sections A and C of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766 (except hides and liquid commodities in bulk), from Fergus Falls, Minn., to points in Illinois, Indiana, Iowa, Kansas, Missouri, Nebraska, North Dakota, South Dakota, and Wisconsin, restricted to traffic originating at the plantsite and facilities utilized by John Morrell and Co.

NOTE.—Applicant holds contract carrier authority in MC–129706, therefore dual operations may be involved. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

No. MC 115691 (Sub-No. 29), filed March 25, 1974. Applicant: MURPHY TRANSPORTATION, INC., 1414 Crawford Avenue., Anniston, Ala. 36201. Applicant's representative: John P. Carlton, 903 Frank Nelson Building, Birmingham, Ala. 35203. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Cast iron valves, hydrants, fittings, service boxes, indicator posts, floor stands, and accessories*, from the plant site of Dresser Manufacturing Division of Dresser Industries, Inc., Anniston Operation, at Anniston, Ala., to points in Alabama, Arkansas, Delaware, the District of Columbia, Florida, Georgia, Illinois, Indiana, Iowa, Kentucky, Louisiana, Maryland, the lower peninsula of Michigan, Minnesota, Mississippi, Missouri, New York, North Carolina, Ohio, Pennsylvania, South Carolina, Tennessee, Virginia, West Virginia, and Wisconsin.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Birmingham, Ala.

No. MC 115691 (Sub-No. 30), filed March 25, 1974. Applicant: MURPHY TRANSPORTATION, INC., 1414 Crawford Avenue, Anniston, Ala. 36201. Applicant's representative: John P. Carlton, 903 Frank Nelson Building, Birmingham, Ala. 35203. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Conduit, pipe and cable, and fittings and attachments* therefor, from Glendale (Marshall County), W. Va., to points in Illinois, Indiana, Iowa, Kansas, Kentucky, Maryland, Minnesota, Missouri, Nebraska, North Carolina, North Dakota, Oklahoma, South Carolina, South Dakota, Tennessee, Texas, Virginia, Wisconsin, and the District of Columbia.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 116004 (Sub-No. 32), filed March 22, 1974. Applicant: TEXAS-OKLAHOMA EXPRESS, INC., P.O. Box 47112, Dallas, Tex. 75247. Applicant's representative: Clayte Binion, 1108 Continental Life Building, Fort Worth, Tex. 75247. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), serving the warehouse site and facilities of Western Electric Company, Inc., located at or near Goddard, Kans., as an off-route point in connection with applicant's regular route operations at Wichita, Kans.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Wichita, Kans., or Kansas City, Kans.

No. MC 117883 (Sub-No. 189), filed March 21, 1974. Applicant: SUBLER TRANSFER, INC., 791 East Main Street, P.O. Box 62, Versailles, Ohio 45380. Applicant's representative: Edward J. Subler (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Confectionery, chocolate, chocolate coating, cocoa, cocoa butter, cocoa compounds, and flavoring syrup*, from points in Derry Township (Dauphin County), Pa., to points in Indiana, Michigan, and those points in Ohio on and west of Ohio State Routes 13 and 93, restricted to traffic originating at the plantsite and storage facilities of Hershey Foods Corporation, located at the named origin, and destined to the named destinations.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Philadelphia, Pa.

No. MC 117940 (Sub-No. 120), filed March 25, 1974. Applicant: NATIONWIDE CARRIERS, INC., P.O. Box 104, Maple Plain, Minn. 55359. Applicant's representative: Donald L. Stern, Suite 530, Univac Building, 7100 West Center Road, Omaha, Nebr. 68106. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meat, meat products, meat by-products, and articles distributed by meat packinghouses*, as defined by the Commission in Sections A and C of Appendix I to the Report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766 (except hides and liquid commodities in bulk), from Fergus Falls, Minn., to points in Alabama, Connecticut, Delaware, Florida, Georgia, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Mississippi, Michigan, New Hampshire, New Jersey, New York, North Carolina, Ohio, Pennsylvania, Rhode Island, South Carolina, Tennessee, Vermont, Virginia, West Virginia, and District of Columbia, restricted to traffic originating at the plantsite and facilities utilized by John Morrell and Company.

NOTE.—Dual operations may be involved. If a hearing is deemed necessary, the applicant requests it be held at Chicago, Ill., or Minneapolis, Minn.

No. MC 117940 (Sub-No. 121), filed March 25, 1974. Applicant: NATIONWIDE CARRIERS, INC., P.O. Box 104, Maple Plain, Minn. 55359. Applicant's representative: Donald L. Stern, Suite 530, Univac Building, 7100 West Center Road, Omaha, Nebr. 68106. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen foods*, from New Hampton, Iowa, to points in Connecticut, Delaware, Illinois, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New York, Pennsylvania, Rhode Island, Vermont, West Virginia, and the District of Columbia.

NOTE.—Dual operations may be involved. If a hearing is deemed necessary, the applicant requests it be held at Chicago, Ill., or Minneapolis, Minn.

No. MC 117940 (Sub-No. 123), filed March 25, 1974. Applicant: NATIONWIDE CARRIERS, INC., P.O. Box 104, Maple Plain, Minn. 55359. Applicant's representative: Donald L. Stern, Suite 530, Univac Building, 7100 West Center Road, Omaha, Nebr. 68106. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen foods*, from the plantsites and facilities utilized by the Kitchens of Sara Lee located at or near Deerfield and Chicago, Ill., to points in Connecticut, Delaware, Maine, Maryland, Massachusetts, Minnesota, New Hampshire, New Jersey, New York, Pennsylvania, Rhode Island, Vermont, West Virginia, Wisconsin, and the District of Columbia.

NOTE.—Applicant holds contract carrier authority in MC–114789 Sub-No. 1 and other subs, therefore dual operations may be involved. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill., or Minneapolis, Minn.

No. MC 118202 (Sub-No. 35), filed March 25, 1974. Applicant: SCHULTZ TRANSIT, INC., P.O. Box 406, 323 Bridge St., Winona, Minn. 55987. Applicant's representative: Val M. Higgins, 1000 First National Bank Bldg., Minneapolis, Minn. 55402. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Foodstuffs* (except hides or commodities in bulk), from the plantsite and warehouse facilities utilized by Geo. A. Hormel & Co., at or near Beloit, Wis., to points in Illinois, Indiana, Michigan, Minnesota, Iowa, Nebraska, North Dakota, South Dakota, Missouri, Oklahoma, Maine, Massachusetts, Connecticut, Delaware, New York, New Jersey, Pennsylvania, Ohio, New Hampshire, Maryland, Rhode Island, Virginia, West Virginia, Vermont, and the District of Columbia; and (2) *meat, meat products, meat by-products, foodstuffs, canning plant materials, equipment, and supplies* (except hides or commodities in bulk) from Illinois, Indiana, Michigan, Minnesota, Iowa, Nebraska, New York, Delaware, North Dakota, South Dakota, Missouri, Oklahoma, Maine, Massachusetts, Connecticut, New Jersey, Pennsylvania, Ohio, New Hampshire, Maryland, Rhode Island, Virginia, West Virginia, Vermont, and the District of Columbia, to the plantsite and warehouse facilities utilized by Geo. A. Hormel & Co., at or near Beloit, Wis., restricted to traffic originating at and destined to the points named above.

NOTE.—Applicant holds contract carrier authority in MC 134631 (Sub-No. 4) and other subs, therefore dual operations may be involved. If a hearing is deemed necessary, applicant requests it be held at Minenapolis, Minn.

No. MC 118520 (Sub-No. 9), filed March 19, 1974. Applicant: ALASKA TRUCK TRANSPORT, INC., P.O. Box 1994, Anchorage, Alaska 99510. Applicant's representative: John M. Stern, Jr. (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Ores and ore concentrates*, between points in Alaska on the one hand, and, on the other, points in Montana.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Fairbanks, Alaska or Anchorage, Alaska.

No. MC 118535 (Sub-No. 61), filed March 25, 1974. Applicant: TIONA TRUCK LINE, INC., 111 S. Prospect, Butler, Mo. 64730. Applicant's representative: Wilburn L. Williamson, 280 National Foundation Life Bldg., 3535 NW. 58th, Oklahoma City, Okla. 73112. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Dry feed and dry feed ingredients*, (1) from Kansas City, Mo., to points in Arkansas, New Mexico, Oklahoma, and Texas; and (2), from Danville, Ill., to Kansas City, Mo.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Kansas City, Mo.

No. MC 118535 (Sub-No. 62), filed March. 26, 1974. Applicant: TIONA TRUCK LINE, INC., 111 S. Prospect, Butler, Mo. 64730. Applicant's representative: Wilburn L. Williamson, 280 National Foundation Life Bldg., 3535 NW. 58th, Oklahoma City, Okla. 73112. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Dry organic fertilizer, soil conditioners, organic fertilizer materials, and organic fertilizer ingredients*, from Caldwell, Tex., to points in Illinois, Indiana, Iowa, Kansas, Minnesota, Missouri, Nebraska, and Wisconsin.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Kansas City, Mo.

No. MC 118806 (Sub-No. 34), filed March 22, 1974. Applicant: ARNOLD BROS. TRANSPORT, LTD., 739 Lagimodiere Boulevard, Winnipeg, Manitoba, Canada R2J0T8. Applicant's representative: Daniel C. Sullivan, 327 South La Salle Street, Chicago, Ill. 60604. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Fans, blowers, and air exchange systems*; and (2) *parts and attachments* for fans, blowers, and air exchange systems, from the ports of entry on the International Boundary line between Canada and the United States in Minnesota, to points in the United States (except Alaska and Hawaii), restricted to the transportation of traffic moving in foreign commerce.

NOTE.—If a hearing is deemed necessary, applicant does not specify location.

No. MC 119656 (Sub-No. 27), filed March 25, 1974. Applicant: NORTH EXPRESS, INC., 219 E. Main Street, Wilnamac, Ind. 46996. Applicant's representative: Donald W. Smith, Suite 2465. One Indiana Square, Indianapolis, Ind. 46204. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Iron and steel and iron and steel articles*, from Cleveland, Niles, Warren, and Youngstown, Ohio, to points in Illinois, and Indiana.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

No. MC 119738 (Sub-No. 2), filed March 26, 1974. Applicant: HAGGARD HEAVY HAULING, INC., 2100 Guinotte, Kansas City, Mo. 64120. Applicant's representative: Louis J. Amato, 1301 Ambassador Bldg., St. Louis, Mo. 63101. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Iron and steel articles*, from Carlinville, Sparta, Irvington, Flora, and Centralia, Ill., and Louisiana, Mo., to points in Iowa, Nebraska, Kansas, Missouri, and Minnesota.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Kansas City, Kans., or St. Louis, Mo.

No. MC 119777 (Sub-No. 291), filed March 15, 1974. Applicant: LIGON SPECIALIZED HAULER, INC., P.O. Drawer L, Madisonville, Ky. 42431. Applicant's representative: Ronald E. Butler (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Carbon and graphite articles* (except in bulk), *including anodes, electrolytic bath electrodes, furnace electrodes, lineal shapes, plates and rods, and carbon refractory material*, from St. Marys, Punxsutawney, and points in Benzinger Township, (Elk County), Pa.; and Niagara Falls, N.Y., to points in Alabama, Arizona, Arkansas, California, Colorado, Florida, Georgia, Idaho, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Mississippi, Missouri, Montana, Nevada, New Mexico, North Carolina, Oklahoma, Oregon, South Carolina, Tennessee, Texas, Utah, and Washington.

NOTE.—Applicant holds contract carrier authority in MC 126970 and subs thereunder, therefore dual operations may be involved. Common control may also be involved. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 119777 (Sub-No. 292), filed March 21, 1974. Applicant: LIGON SPECIALIZED HAULER, INC., P.O. Drawer L, Madisonville, Ky. 42431. Applicant's representative: Ronald E. Butler (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Electrical insulation*, from the plantsite or sites of Spaulding Fibre Co., Inc., at or near North Rochester, N.H., to points in the United States (except Alaska and Hawaii).

NOTE.—Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 119988 (Sub-No. 62), filed March 25, 1974. Applicant: GREAT WESTERN TRUCKING CO., INC., Rt. 3, Box 870, P.O. Box 1384, Lufkin, Tex. 75901. Applicant's representative: Hugh T. Matthews, 630 Fidelity Union Tower, Dallas, Tex. 75201. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Flat glass*, from the plantsite and warehouse facilities of PPG Industries, Inc., at or near Wichita Falls, Tex., to points in North Carolina, South Carolina, Georgia, Florida, Tennessee, Alabama, Mississippi, Wisconsin, Illinois, Minnesota, Iowa, Missouri, Arkansas, Louisiana, North Dakota, South Dakota, Nebraska, Kansas, Oklahoma, Texas, Montana, Wyoming, Colorado, New Mexico, Idaho, Utah, Arizona, Nevada, Washington, Oregon, and California.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Dallas, Tex.

No. MC 123255 (Sub-No. 41), filed March 13, 1974. Applicant: B & L MOTOR FREIGHT, INC., 140 Everett Avenue, Newark, Ohio 43055. Applicant's representative: A. Charles Tell, 100 East Broad Street, Columbus, Ohio 43215. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Fiberglas materials and fiberglas products, fibrous glass mineral wool products, fibrous glass textile materials, fibrous glass textile products, plastic materials* and *plastic products* (except plastic bottles), and *raw materials, supplies, machinery, and equipment* used in the manufacture and packing of such commodities, (a) between Newark, Ohio, and Huntingdon, Pa., on the one hand, and, on the other, points in Ohio, Pennsylvania, West Virginia, Kentucky, New York, Indiana, Illinois, Michigan, Wisconsin, Missouri, and points in Kansas within the Kansas City, Kans., Commercial Zone, as defined by the Commission; and (b) between Newark, Ohio, on the one hand, and, on the other, points in Delaware, Maryland, New Jersey, Connecticut, Massachusetts, Rhode Island, and the District of Columbia; (2) *fiberglas materials and fiberglas products, fibrous glass mineral*

V 39186
MAY 2 74
XUM

wool products, fibrous glass textile materials, fibrous glass textile products, and *plastic materials,* and *plastic products* (except plastic bottles), from points in Ohio, to points in Pennsylvania, West Virginia, Kentucky, New York, Indiana, Illinois, Michigan, Wisconsin, Missouri, Delaware, Maryland, New Jersey, Connecticut, Massachusetts, Rhode Island, the District of Columbia, and points in that part of Kansas within the Kansas City, Kans., Commercial Zone, as defined by the Commission.

(3) *Equipment, materials, and supplies* (except commodities in bulk, in tank, Hopper or dump vehicles) used in the installation and erection of fiberglas materials and products, *fibrous glass mineral wool products, plastic materials and plastic products* when moving in mixed shipments with such materials and products, between Newark, Ohio, on the one hand, and, on the other, points in Pennsylvania, West Virginia, Kentucky, New York, Indiana, Illinois, Michigan, Wisconsin, Missouri, Delaware, Maryland, New Jersey, Connecticut, Massachusetts, Rhode Island, the District of Columbia, and points in Kansas within the Kansas City Commercial Zone; (4) *fiberglas materials and fiberglas products, fibrous glass mineral wool products, fibrous glass textile materials, fibrous glass textile products, plastic materials and plastic products, raw materials, supplies, machinery, and equipment* (except commodities in bulk, in tank, hopper, or dump vehicles) used in the manufacture and packing of such commodities, and *equipment, materials, and supplies* (except commodities in bulk, in tank, hopper, or dump vehicles) used in the installation and erection of fiberglas materials and products, fibrous glass mineral wool products, and plastic materials and plastic products, when moving in mixed shipments with such materials and products, between Newark, Ohio, on the one hand, and, on the other, points in Alabama, Florida, Georgia, Maine, Mississippi, North Carolina, New Hampshire, South Carolina, Tennessee, Vermont, and Virginia; and

(5) *Composition board* and *accessories* incidental to the installation of composition board, from Newark, Ohio, to points in Indiana, Michigan, Illinois, Kentucky, West Virginia, Virginia, Maryland, Delaware, Pennsylvania, New Jersey, New York, Tennessee, North Carolina, Connecticut, Rhode Island, Massachusetts, Vermont, New Hampshire, Maine, Wisconsin, Minnesota, and the District of Columbia, restricted in paragraph (1) through (4) to shipments originating at or destined to the plantsites, warehouses or shipping facilities of Owens-Corning Fiberglas Corporation, at Toledo, Ohio, and in paragraph (5), restricted to shipments originating at or destined to the plantsites, warehouses or shipping facilities of National Gypsum Company, at Buffalo, N.Y.

NOTE.—Applicant seeks by this application to convert its Permits in MC 81968 Subs 19, 20, 23, and 25, into a Certificate of Public Convenience and Necessity. If a hearing is deemed necessary, applicant requests it be held at Columbus, Ohio.

No. MC 123379 (Sub-No. 8), filed March 22, 1974. Applicant: BRUBAKER TRANSFER, INC., 103 North Major, Eureka, Ill. 61530. Applicant's representative: Samuel G. Harrod, 107 East Eureka Avenue, Eureka, Ill. 61530. Authority sought to operate as a *contract carrier,* by motor vehicle, over irregular routes, transporting: *New display cases and store fixtures,* from plant site of Robersonville Products Co., Robersonville, N.C., to points in Alabama, Connecticut, Delaware, Florida, Georgia, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Mississippi, New Hampshire, New Jersey, New York, North Carolina, Ohio, Pennsylvania, Rhode Island, South Carolina, Tennessee, Texas, Vermont, Virginia, District of Columbia, and West Virginia, under a continuing contract with Robersonville Products Co.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill., or Raleigh, N.C.

No. MC 123407 (Sub-No. 163), filed March 25, 1974. Applicant: SAWYER TRANSPORT, INC., South Haven Square, U.S. Highway 6, Valparaiso, Ind. 46383. Applicant's representative: Robert W. Sawyer (same address as applicant). Authority sought to operate as a *common carrier,* by motor vehicle, over irregular routes, transporting: *Aluminum sulphate* in bags, from Pine Bend, Minn., to points in South Dakota, North Dakota, and Wyoming.

NOTE.—Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Minneapolis, Minn., or Washington, D.C.

No. MC 123407 (Sub-No. 164), filed March 25, 1974. Applicant: SAWYER TRANSPORT, INC., South Haven Square, U.S. Highway 6, Valparaiso, Ind. 46383. Applicant's representative: Robert W. Sawyer (same address as applicant). Authority sought to operate as a *common carrier,* by motor vehicle, over irregular routes, transporting: *Plastic pipe, fittings, couplings, and materials and supplies* used in the installation thereof, from Henderson, Ky., to points in Montana, Wyoming, Colorado, New Mexico, Texas, Kansas, Nebraska, South Dakota, North Dakota, Minnesota, Iowa, Missouri, Arkansas, Oklahoma, Louisiana, Mississippi, Tennessee, Kentucky, Illinois, Wisconsin, Michigan, Indiana, Alabama, Georgia, Florida, South Carolina, North Carolina, Virginia, West Virginia, Ohio, Pennsylvania, and New York.

NOTE.—Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Indianapolis, Ind., or Washington, D.C.

No. MC 123407 (Sub-No. 165), filed March 25, 1974. Applicant: SAWYER TRANSPORT, INC., South Haven Square, U.S. Highway 6, Valparaiso, Ind. 46383. Applicant's representative: Robert W. Sawyer (same address as applicant). [No. AB-1 (Sub-No. 23)]

CHICAGO AND NORTH WESTERN TRANSPORTATION COMPANY

Abandonment Between Elmhurst and Villa Park, in Du Page County, Ill.

Upon consideration of the record in the above-entitled proceeding, and of a staff-prepared environmental threshold assessment survey which is available for public inspection upon request; and

It appearing, That no environmental impact statement need be issued in this proceeding, because this proceeding does not represent a major federal action significantly affecting the quality of the human environment within the meaning of the National Environmental Policy Act of 1969, 42 U.S.C. §§ 4321, et seq., and good cause appearing therefor:

It is ordered, That applicant be, and it is hereby, directed to publish the appended notice in a newspaper of general circulation in Du Page County, Ill., within 15 days of the date of service of this order, and certify to the Commission that this has been accomplished.

And it is further ordered, That notice of this order shall be given to the general public by depositing a copy thereof in the Office of the Secretary of the Commission at Washington, D.C., and by forwarding a copy to the Director, Office of the Federal Register, for publication in the FEDERAL REGISTER.

Dated at Washington, D.C., this 22nd day of April 1974.

By the Commission, Commissioner Tuggle.

[SEAL] ROBERT L. OSWALD, *Secretary.*

[No. AB-1 (Sub-No. 23)]

CHICAGO AND NORTH WESTERN TRANSPORTATION COMPANY ABANDONMENT BETWEEN ELMHURST AND VILLA PARK, IN DU PAGE COUNTY, ILL.

The Interstate Commerce Commission hereby gives notice that by order dated April 22, 1974, it has been determined that the proposed abandonment of the line of Chicago and North Western Transportation Company between milepost 17.12 near Elmhurst and milepost 17.9 near Villa Park, in Du Page County, Ill., a distance of 0.78 mile, if approved by the Commission, would not constitute a major Federal action significantly affecting the quality of the human environment within the meaning of the National Environmental Policy Act of 1969 (NEPA), 42 U.S.C. 4321, et seq., and that preparation of a detailed environmental impact statement will not be required under section 4332(2)(C) of the NEPA.

It was concluded, among other things, that traffic over this line has been minimal and demand for service has been sporadic. Nearby alternative rail access is available and there will be a minimal impact on the area's total transportation scheme. In addition, the abandonment would facilitate the planned development of a park on the abandoned rail right-of-way. The determination was based upon the staff preparation and consideration of an environmental threshold assessment survey, which is available for public inspection upon request at the Interstate Commerce Commission, Office of Proceedings, Washington, D.C. 20423; telephone 202-343-6989.

Interested parties may comment on this matter by the submission of representations to the Interstate Commerce Commission, Washington, D.C. 20423, on or before May 17, 1974.

[No. AB-12 (Sub-No. 8)]

SOUTHERN PACIFIC TRANSPORTATION CO.

Abandonment Between South El Monte and Baldwin Park, Los Angeles County, Calif.

Upon consideration of the record in the above-entitled proceeding, and of a staff-prepared environmental threshold assessment survey which is available for public inspection upon request; and

It appearing, that no environmental impact statement need be issued in this proceeding, because this proceeding does not represent a major Federal action significantly affecting the quality of the human environment within the meaning of the National Environmental Policy Act of 1969, 42 U.S.C. §§ 4321, et seq.; and good cause appearing therefor:

It is ordered, That applicant be, and it is hereby, directed to publish the appended notice in a newspaper of general circulation in Los Angeles County, Calif., within 15 days of the date of service of this order, and certify to the Commission that this has been accomplished .

And it is further ordered, That notice of this order shall be given to the general public by depositing a copy thereof in the Office of the Secretary of the Commission at Washington, D.C., and by forwarding a copy to the Director, Office of the Federal Register, for publication in the FEDERAL REGISTER.

Dated at Washington, D.C., this 22nd day of April 1974.

By the Commission, Commissioner Tuggle.

[SEAL] ROBERT L. OSWALD, *Secretary.*

[No. AB-12 (Sub-No. 8)]

SOUTHERN PACIFIC TRANSPORTATION COMPANY ABANDONMENT BETWEEN SOUTH EL MONTE AND BALDWIN PARK, LOS ANGELES COUNTY, CALIF.

The Interstate Commerce Commission hereby gives notice that by order dated April 22, 1974, it has been determined that the proposed abandonment of a line of the Southern Pacific Transportation Company between South El Monte and Baldwin Park, Los Angeles County, Calif., a distance of 4.36 miles, if approved by the Commission, does not constitute a major Federal action significantly affecting the quality of the human environment within the meaning of the National Environmental Policy Act of 1969 (NEPA), 42 U.S.C. 4321, et seq., and that preparation of a detailed environmental impact statement will not be required under section 4332(2)(C) of the NEPA.

It was concluded, among other things, that inasmuch as no traffic has moved over the subject line for the past two years and no shippers rely on the services of this line, abandonment will have little effect on land use plans or transportation patterns. If abandonment is approved, the right-of-way may be utilized as a mass transportation bus corridor. The abandonment will, therefore, facilitate the improvement of mass transportation in Los Angeles County.

This determination was based upon the staff preparation and consideration of an environmental threshold assessment survey, which is available for public inspection upon request to the Interstate Commerce Commission, Office of Proceedings, Washington, D.C. 20423; telephone 202-343-6989.

Interested parties may comment on this matter by the submission of representations to the Interstate Commerce Commission, Washington, D.C. 20423, on or before May 17, 1974.

[FR Doc.74-10090 Filed 5-1-74;8:45 am]

[No. AB-12 (Sub-No. 13)]

SOUTHERN PACIFIC TRANSPORTATION CO.

Abandonment Portion Winters Branch Between Vaca Valley and Esparto, in Solano and Yolo Counties, Calif.

Upon consideration of the record in the above-entitled proceeding, and of a staff-prepared environmental threshold assessment survey which is available for public inspection upon request; and

It appearing, that no environmental impact statement need be issued in this proceeding, because this proceeding does not represent a major Federal action significantly affecting the quality of the human environment within the meaning of the National Environmental Policy Act of 1969, 42 U.S.C. §§ 4321, et seq.; and good cause appearing therefor:

It is ordered, That applicant be, and it is hereby, directed to publish the appended notice in newspapers of general circulation in Solano and Yolo Counties, Calif., within 15 days of the date of service of this order, and certify to the Commission that this has been accomplished.

And it is further ordered, That notice of this order shall be given to the general public by depositing a copy thereof in the Office of the Secretary of the Commission at Washington, D.C., and by forwarding a copy to the Director, Office of the Federal Register, for publication in the FEDERAL REGISTER.

Dated at Washington, D.C., this 22nd day of April 1974.

By the Commission, Commissioner Tuggle.

[SEAL] ROBERT L. OSWALD, *Secretary.*

[No. AB-12 (Sub-No. 13)]

SOUTHERN PACIFIC TRANSPORTATION COMPANY ABANDONMENT PORTION WINTERS BRANCH BETWEEN VACA VALLEY AND ESPARTO, IN SOLANO AND YOLO COUNTIES, CALIF.

The Interstate Commerce Commission hereby gives notice that by order dated April 22, 1974, it has been determined that the pro-

V 391 86
MAY 2 74
XUM

posed abandonment of the line of the Southern Pacific Transportation Company between Vaca Valley and Esparto, Calif., a distance of approximately 21.95 miles, if approved by the Commission, does not constitute a major Federal action significantly affecting the quality of the human environment within the meaning of the National Environmental Policy Act of 1969 (NEPA), 42 U.S.C. 4321, et seq., and that preparation of a detailed environmental impact statement will not be required under section 4332(2)(c) of the NEPA.

It was concluded, among other things, that traffic over this line is not substantial and is decreasing. Alternative motor carrier service in the area is adequate, therefore, there will be a minimal impact on the area's total transportation scheme. There are no development plans in the area, and land use will remain primarily dedicated to agriculture.

This determination was based upon the staff preparation and consideration of an environmental threshold assessment survey, which is available for public inspection upon request to the Interstate Commerce Commission, Office of Proceedings, Washington, D.C. 20423; telephone 202-343-6989.

Interested parties may comment on this matter by the submission of representations to the Interstate Commerce Commission, Washington, D.C., 20423, on or before May 17, 1974.

[Amendment No. 5 to I.C.C. Order No. 88 Under Revised Service Order No. 994]

PENN CENTRAL TRANSPORTATION CO.

Rerouting Traffic

Upon further consideration of I.C.C. Order No. 88 (Penn Central Transportation Co., George P. Baker, Richard C. Bond, and Jervis Langdon, Jr., Trustees) and good cause appearing therefor:

It is ordered, That:

I.C.C. Order No. 88 be, and it is hereby, amended by substituting the following paragraph (g) for paragraph (g) thereof:

(g) *Expiration date.* This order shall expire at 11:59 p.m., October 31, 1974, unless otherwise modified, changed, or suspended.

It is further ordered, That this amendment shall become effective at 11:59 p.m., November 30, 1973, and that this order shall be served upon the Association of American Railroads, Car Service Division, as agent for all railroads subscribing to the car service and car hire agreement under the terms of that agreement, and upon the American Short Line Railroad Association; and that it be filed with the Director, Office of the Federal Register.

Issued at Washington, D.C., April 30, 1974.

INTERSTATE COMMERCE COMMISSION,
[SEAL] R. D. PFAHLER,
Agent.

federal register

Area Code 202 Phone 523-6240

Published daily, Monday through Friday (no publication on Saturdays, Sundays, or on official Federal holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C., Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $5.00 per month or $45 per year, payable in advance. The charge for individual copies is 75 cents for each issue, or 75 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

* There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

List of CFR Parts Affected

The following numerical guide is a list of the parts of each title of the Code of Federal Regulations affected by documents published in today's issue. A cumulative list of parts affected, covering the current month to date, appears following the Notices section of each issue beginning with the second issue of the month. In the last issue of the month the cumulative list will appear at the end of the issue.

A cumulative guide is published separately at the end of each month. The guide lists the parts and sections affected by documents published since January 1, 1974, and specifies how they are affected.

Rules and Regulations

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.

The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

Title 5—Administrative Personnel

CHAPTER I—CIVIL SERVICE COMMISSION

PART 213—EXCEPTED SERVICE

Department of Defense

Section 213.3206 is amended to reflect the following title change from: Office of the Assistant Secretary (Systems Analysis) to Office of the Assistant Secretary (Program Analysis and Evaluation).

Effective on May 3, 1974, § 213.3206 (a) (2) is amended as set out below.

§ 213.3206 Department of Defense.

(a) *Office of the Secretary.* • • •

(2) Professional Positions at GS–11 and above involving systems, costs, and economic analysis functions in the Office of the Assistant Secretary (Program Analysis and Evaluation); and in the Operations Analysis Group and in the Office of the Deputy Assistant Secretary (Management Systems Development), both in the Office of the Assistant Secretary (Comptroller).

• • • • • •

(5 U.S.C. secs. 3301, 3302; E.O. 10577, 3 CFR 1954–58 comp. p. 218)

UNITED STATES CIVIL SERVICE COMMISSION,
[SEAL] JAMES C. SPRY,
Executive Assistant to the Commissioners.

[FR Doc.74–10207 Filed 5–2–74;8:45 am]

Title 14—Aeronautics and Space

CHAPTER I—FEDERAL AVIATION ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

PART 71—DESIGNATION OF FEDERAL

[Airspace Docket No. 74–WA–13]

AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Designation of Additional Control Area

The purpose of this amendment to Part 71 of the Federal Aviation Regulations is to designate Control 1180 from Kennedy, N.Y., to the western boundary of the New York Oceanic Control Area on a part-time basis to be activated by a notice to Airmen in the event that a threatened strike by Canadian Air Traffic Controllers should occur.

Transatlantic air traffic is normally routed on a northerly great circle route

V 39 I 87
MAY 3 74
XUM

through the Moncton, Canada, Flight Information Region. A strike by Canadian Air Traffic Controllers may preclude the safe use of this route. Therefore it becomes imperative that an alternate route be immediately available that does not depend on Canadian Controllers to provide the separation service necessary for the safe operation of aircraft. Control 1180 will provide a suitable alternativ: routing for such trans-atlantic flights.

Since a situation exists where safety requires immediate adoption of this amendment, it is found that notice and public procedure thereon are impracticable and for that reason good cause exists for making this amendment effective on less than 30-days notice.

Since this action involves, in part, the designation of navigable airspace outside the United States, the Administrator has consulted with the Secretary of State and the Secretary of Defense in accordance with the provisions of Executive Order 10854.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended, effective immediately as hereinafter set forth.

§ 71.163 (39 FR 346) is amended by adding the following:

Control 1180. That airspace extending upward from 6000 feet MSL to and including FL 390 within the established boundaries of Warning Area W-106 and W-506, and that airspace within Warning Area W-105 extending upward from 6000 feet MSL to and including FL 390 within tangent lines drawn from the circumference of a 5-mile-radius circle centered on the Kennedy, N.Y., VOR TAC (Lat. 40°37'57" N., Long. 73°46'22" W.) to the circumference of a 15-mile-radius circle radial at Lat. 39°50'00" N., Long. 70°00'00" radial at Lat. 39°50'00"N., Long. 70°00'00" W. This control area is effective during the specific dates and times established in advance by a Notice to Airmen.

(Sec. 307(a) and 1110 of the Federal Aviation Act of 1958 (49 U.S.C. 1348(a) and 1510 and Executive Order 10854 (24 FR 9565), and Sec. 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)))

Issued in Washington, D.C., on May 1, 1974.

GORDON E. KEWER,
Acting Chief, Airspace and Air Traffic Rules Division.

[FR Doc.74-10333 Filed 5-2-74;8:45 am]

Title 16—Commercial Practices

CHAPTER I—FEDERAL TRADE COMMISSION

[Docket No. C-2498]

PART 13—PROHIBITED TRADE PRACTICES

Carpet Bazaar, Inc., and Allen R. Greenberg

Subpart—Advertising falsely or misleadingly: § 13.10 *Advertising falsely or misleadingly;* § 13.155 *Prices;* 13.155–15 Comparative; 13.155–35 Discount savings; 13.155–40 Exaggerated as regular and customary; 13.155–70 Percentage savings; 13.155–75 Product or quantity covered; 13.155–100 Usual as reduced, special, etc. § 13.175 *Quality of product or service;* § 13.180 *Quantity;* 13.180–35 Offered; § 13.285 *Value.* Subpart—Failing to maintain records: § 13.1051 *Failing to maintain records;* 13.1051–20 Adequate: Subpart—Misrepresenting oneself and goods—Goods: § 13.1715 *Quality;* § 13.1720 *Quantity;* § 13.1775 *Value.*—Prices: § 13.1785 *Comparative;* § 13.1805 *Exaggerated as regular and customary;* § 13.1825 *Usual as reduced or to be increased.*

(Sec. 6, 38 Stat. 721 (15 U.S.C. 46). Interprets or applies sec. 5, 38 Stat. 719, as amended (15 U.S.C. 45). [Cease and desist order, Carpet Bazaar, Inc, et al., Berwyn, Ill., Docket C-2498, Mar. 20, 1974])

In the Matter of Carpet Bazaar, Inc., a Corporation, and Allen R. Greenberg, Individually and as an Officer of Said Corporation

Consent order requiring a Berwyn, Ill., retailer and installer of home carpeting, among other things to cease misrepresenting the price at which it will carpet a home and the prices of carpet remnants; that its prices are sale or reduced or that savings will be afforded to purchasers; and to cease its failure to maintain adequate records to support savings claims.

The order to cease and desist, including further order requiring report of compliance therewith, is as follows:

It is ordered, That Carpet Bazaar, Inc., a corporation, its successors and assigns, and its officers, and Allen R. Greenberg, individually and as an officer of said corporation, and respondents' agents, representatives, and employees, directly or through any corporation, subsidiary, or other device, in connection with the advertising, offering for sale, sale or distribution of carpeting and floor coverings, or any other article of merchandise in commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from:

1. Advertising or otherwise representing that respondents will carpet an entire home, regardless of the number of rooms, for "$549" or any other stated amount, unless such is the fact.

2. Using the word "Sale," or any other word or words of similar import or meaning not set forth specifically herein unless the price of such merchandise being offered for sale constitutes a reduction, in an amount not so insignificant as to be meaningless, from the actual bona fide price at which such merchandise was sold or offered for sale to the public on a regular basis by respondents for a reasonably substantial period of time in the recent, regular course of their business.

3. (a) Representing, directly or indirectly, orally or in writing, that by purchasing any of said merchandise, customers are afforded savings amounting to the difference between respondents' advertised sale price and respondents' former price unless such merchandise has been sold or offered for sale in good faith at the former price by respondents for a reasonably substantial period of time in the recent, regular course of their business.

(b) Representing, directly or indirectly, orally or in writing, that by purchasing any of said merchandise, customers are afforded savings amounting to the difference between respondents' advertised sale price and a regular price for said merchandise in respondents' trade area unless a substantial number of the principal retail outlets in the trade area regularly sell said merchandise at such regular price.

(c) Representing, directly or indirectly, orally or in writing, that by purchasing any of said merchandise, customers are afforded savings amounting to the difference between respondents' advertised sale price and a regular selling price for comparable merchandise, unless substantial sales of merchandise of like grade and quality are being made in the trade area at the stated regular price or a higher price and unless respondents have in good faith conducted a market survey or obtained a similar representative sample of prices in their trade area which establishes the validity of said regular price and it is clearly and conspicuously disclosed that the regular price is applicable to merchandise of like grade and quality.

4. Advertising or otherwise representing a regular price or compare value price for carpet remnants or rugs (a) unless the carpet remnants or rugs being advertised are of the same grade and quality as the carpets with which such advertised prices are compared; and (b) without disclosing in immediate conjunction therewith that the regular selling price or compared value price is based on the wall-to-wall price of carpeting of the same grade and quality.

5. Representing, directly or by implication, orally or in writing, that purchasers of respondents' merchandise will save any stated dollar or percentage amount without fully and conspicuously disclosing in immediate conjunction therewith, the basis for such savings representations.

6. Failing to maintain and produce for inspection or copying for a period of three (3) years, adequate records (a) which disclose the facts upon which any savings claims, sales claims and other similar representations as set forth in Paragraphs One, Two and Four of this order are based, and (b) from which the validity of any savings claims, sale claims and similar representations can be determined.

It is further ordered, That respondents shall maintain for at least a one (1) year period, following the effective date of this order, copies of all advertisements, including newspaper, radio and television advertisements, direct mail and in-store solicitation literature, and any other such promotional material utilized for the purpose of obtaining leads for the sale of carpeting or floor coverings, or utilized in the advertising, promotion or sale of carpeting or floor coverings and other merchandise.

It is further ordered, That respondents, for a period of one (1) year from the effective date of this order, shall provide each advertising agency utilized by respondents and each newspaper publishing company, television or radio station or other advertising media which is utilized by respondents to obtain leads for the sale of carpeting or floor coverings and other merchandise, with a copy of the Commission's News Release setting forth the terms of this order.

It is further ordered, That respondents shall forthwith distribute a copy of this order to each of their operating divisions.

It is further ordered, That the individual respondent named herein promptly notify the Commission of the discontinuance of his present business or employment and of his affiliation with a new business or employment. Such notice shall include respondent's current business address and a statement as to the nature of the business or employment in which he is engaged as well as a description of his duties and responsibilities.

It is further ordered, That respondents notify the Commission at least 30 days prior to any proposed change in the corporate respondent such as dissolution, assignment or sale resulting in the emergence of a successor corporation, the creation or dissolution of subsidiaries or any other change in the corporation which may affect compliance obligations arising out of the order.

It it further ordered, That the respondents herein shall within sixty (60) days after service upon them of this order file with the Commission a report in writing setting forth in detail the manner and form of their compliance with this order.

Issued: March 20, 1974.

By the Commission.

[SEAL] CHARLES A. TOBIN,
Secretary.

[FR Doc.74-10169 Filed 5-2-74;8:45 am]

[Docket No. C-2497]

PART 13—PROHIBITED TRADE PRACTICES

Dance World, Inc., et al.

Subpart—Advertising falsely or misleadingly: § 13.10 *Advertising falsely or misleadingly;* § 13.155 *Prices;* 13.155–5 Additional charges unmentioned; 13.155–95 Terms and conditions; § 13.205 *Scientific or other relevant facts.* Subpart—Misrepresenting oneself and goods—Goods: § 13.1760 *Terms and conditions;*—Prices: § 131795 *Coverage or extras;* § 13.1778 *Additional costs unmentioned;* § 13.1823 *Terms and conditions.* Subpart—Offering unfair, improper and deceptive inducements to purchase or deal; § 13.2080 *Terms and conditions.*

(Sec. 6, 38 Stat. 721; (15 U.S.C. 46). Interprets or applies sec. 5, 38 Stat. 719, as amended; (15 U.S.C. 45) [Cease and desist order, Dance World, Inc. et al., Dallas and Richardson, Texas, Docket C-2497, Mar. 20, 1974])

In the Matter of Dance World, Inc., a Corporation, Dance World Richardson, Inc., a Corporation, and Ms. Phyllis Francis Klein, Individually and as an Officer of Said Corporations

Consent order requiring sellers of memberships in dance and recreation clubs located in Dallas and Richardson, Texas, among other things to cease misrepresenting the prices and terms and conditions of their memberships.

The order to cease and desist, including further order requiring report of compliance therewith, is as follows:

It is ordered, That respondents Dance World, Inc. and Dance World Richardson, Inc., corporations, their successors and assigns, and its officers and Phyllis Francis Klein, individually and as an officer, and respondents' agents, representatives and employees directly or through any corporation, subsidiary, division or other device, in connection with the advertising, offering for sale, and sale of dance club or social club memberships or services or any other services or products in commerce as "commerce" is defined in Federal Trade Commission Act, do forthwith cease and desist from:

1. Representing, directly or by implication that any memberships may be purchased in respondents' dance clubs without clearly and conspicuously disclosing the period of time to which the membership relates and,

2. Advertising any price without also clearly and conspicuously disclosing the terms and conditions of continuing a membership beyond the initial advertised period of membership.

It is further ordered, That the individual respondent named herein promptly notify the Commission of the discontinuance of her present business or employment and of her affiliation with a new business or employment. Such notice shall include respondent's current business address and a statement as to the nature of the business or employment in which she is engaged as well as a description of her duties and responsibilities.

It is further ordered, That in the event that respondent merges with another corporation or transfers all or a substantial part of its business or assets to any other corporation or to any other person, respondent shall require said successor or transferee to file promptly with the Commission a written agreement to be bound by the terms of this order; provided that if respondent wishes to present to the Commission any reasons why said order should not apply in its present form to said successor or transferee, it shall submit to the Commission a written statement setting forth said reasons prior to the consummation of said succession or transfer.

It is further ordered, That the respondent corporation shall forthwith distribute a copy of this order to each officer of the corporation, member of the board, organization manager, and each employee, now and in the future, involved in the writing or placement of advertising or sales.

It is further ordered, That respondents notify the Commission at least 30 days prior to any proposed change in the corporate respondent such as dissolution, assignment or sale resulting in the emergence of a successor corporation, the creation or dissolution of subsidiaries or any other change in the corporation which may affect compliance obligations arising out of the order.

It is further ordered, That the respondents herein shall within sixty (60) days after service upon them of this order, file with the Commission a report, in writing, setting forth in detail the manner and form in which they have complied with this order.

Issued: March 20, 1974.

By the Commission.

[SEAL] CHARLES A. TOBIN,
Secretary.

[Docket No. C-2509]

PART 13—PROHIBITED TRADE PRACTICES

Metro Passbook, Inc., and Richard Natow

Subpart—Advertising falsely or misleadingly: § 13.75 *Free goods or services;* § 13.155 *Prices;* 13.155–15 Comparative; 13.155–40 Exaggerated as regular and customary; 13.155–70 Percentage savings; 13.155–100 Usual as reduced, special, etc.; § 13.160 *Promotional sales plans;* § 13.240 *Special or limited offers;* § 13.260 *Terms and conditions.* Subpart—Failing to maintain records; § 13.1051 Failing to maintain records; 13.1051–20 Adequate; Subpart—Misrepresenting oneself and goods—Goods: § 13.1625 *Free goods or services;* § 13.1760 *Terms and conditions.* —Prices: § 13.1785 *Comparative;* § 13.1805 *Exaggerated as regular and customary;* § 13.1823 *Terms and conditions;* § 13.1825 *Usual as reduced or to be increased.* —Promotional sales plans: § 13.1830 *Promotional sales plans.* Subpart—Offering unfair, improper and deceptive inducements to purchase or deal: § 13.1925 *Coupon, certificate, check voucher, etc., deductions in price;* § 13.1955 *Free goods;* § 13.2000 *Limited offers or supply;* § 13.2080 *Terms and conditions.*

(Sec. 6, 38 Stat. 721; (15 U.S.C. 46). Interprets or applies sec. 5, 38 Stat. 719, as amended; (15 U.S.C. 45 [Cease and desist order, Metro Passbook, Inc., et al., Philadelphia, Pa., Docket C-2509, Mar. 26, 1974]

In the Matter of Metro Passbook, Inc. a Corporation, and Richard Natow, individually and as an Officer of Said Corporation

Consent order requiring a Philadelphia, Pa., seller of promotional coupons, among other things to cease misrepresenting the terms and conditions regarding the use of its coupons; misrepresenting the prices of its coupons as sale prices; failing to maintain adequate records substantiating its claims; and misrepresenting savings afforded to purchasers or that merchandise or services are "free."

V 39 I 87 MAY 3 74 XUM

The order to cease and desist, including further order requiring report of compliance therewith, is as follows:

It is ordered, That respondents Metro Passbook, Inc., a corporation, its successors and assigns, its officers and Richard Natow, individually and as an officer of said corporation and respondents' agents, representatives, and employees, directly or through any corporation, subsidiary, division, or other device, in connection with the advertising, offering for sale or sale of promotional coupons, or any other merchandise or service, in "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from:

1. Representing, directly or by implication, that through the use of respondents' promotional coupons the purchase of any item at participating restaurants entitles the buyer to any second item free of charge.

2. Representing, directly or by implication, that through the use of respondents' promotional coupons the purchase of any ticket at participating sport exhibitors entitles the buyer to any second ticket free of charge.

3. Representing, directly or by implication, that respondents' promotional coupons are accepted by participating theaters and other places of entertainment for any and all performances.

4. Representing, directly or by implication, that respondents' promotional coupons may be used at any and all times.

5. Representing, directly or by implication, that the number of restaurants or establishments that honor respondents' promotional coupons is greater than those that do in fact honor respondents' promotional coupons.

6. Using the word "Sale", or any other word or words of similar import or meaning not set forth specifically herein unless the price of such merchandise being offered for sale constitutes a reduction, in an amount not so insignificant as to be meaningless, from the actual bona fide price at which such merchandise was sold or offered for sale to the public on a regular basis by respondents for a reasonably substantial period of time in the recent, regular course of their business.

7. (a) Representing, directly or indirectly, orally or in writing, that by purchasing any of said merchandise or services, customers are afforded savings amounting to the difference between respondents' stated price and respondents' former price unless such merchandise or services have been sold or offered for sale in good faith at the former price by respondents for a reasonably substantial period of time in the recent, regular course of their business.

(b) Representing, directly or indirectly, orally or in writing, that by purchasing any of said merchandise or services, customers are afforded savings amounting to the difference between respondents' stated price and a compared price for said merchandise or services in respondents' trade area unless a substantial number of the principal retail outlets in the trade area regularly sell said merchandise or services at the compared price or some higher price.

(c) Representing, directly or indirectly, orally or in writing, that by purchasing any of said merchandise or services, customers are afforded savings amounting to the difference between respondents' stated price and a compared value price for comparable merchandise or services, unless substantial sales of merchandise of like grade and quality are being made in the trade area at the compared price or a higher price and unless respondents have in good faith conducted a market survey or obtained a similar representative sample of prices in their trade area which establishes the validity of said compared price and it is clearly and conspicuously disclosed that the comparison is with merchandise or services of like grade and quality.

8. Representing, directly or by implication, orally or in writing, that purchasers of respondents' merchandise will save any stated dollar or percentage amount without fully and conspicuously disclosing in immediate conjunction therewith, the basis for such savings representations.

9. Failing to maintain and produce for inspection or copying for a period of three (3) years, adequate records (a) which disclose the facts upon which any savings claims, sale claims and other similar representations as se' forth in Paragraphs Six, Seven, and Eight of this order are based, and (b) from which the validity of any savings claims, sale claims and similar representations can be determined.

10. Representing, directly or indirectly, orally or in writing, that any price amount is respondents' regular price for any article of merchandise or services unless said amount is the price at which such merchandise or services have been sold or offered for sale by respondents for a reasonably substantial period of time in the recent, regular course of their business and not for the purpose of establishing fictitious higher prices upon which a deceptive comparison or a "free" or similar offer might be based.

11. Representing, directly or indirectly, orally or in writing, that a purchaser of respondents' merchandise or services will receive "free" bonuses, passes or values of any other "free" merchandise, services, gifts, prizes or awards unless all conditions, obligations, or other prerequisites to the receipt and retention of such merchandise, services, gifts, prizes or awards are clearly and conspicuously disclosed at the outset in close conjunction with the word "free" wherever it first appears in each advertisement or offer.

12. Representing, directly or indirectly, orally or in writing, that any merchandise or services is furnished "free" or at no cost to the purchaser of advertised merchandise or services, when, in fact, the cost of such merchandise or services is regularly included in the selling price of the advertised merchandise or services.

13. Representing, directly or indirectly, orally or in writing, that a "free" offer is being made in connection with the introduction of new merchandise or services offered for sale at a specified price unless the respondents expect, in good faith, to discontinue the offer after a limited time and commence selling such merchandise or services, separately, at the same price at which it was sold with a "free" offer.

14. Representing, directly or indirectly, orally or in writing, that merchandise or services are being offered "free" with the sale of merchandise or services which are usually sold at a price arrived at through bargaining, rather than at a regular price, or where there may be a regular price, but where other material factors such as quantity, quality, or size are arrived at through bargaining.

15. Representing, directly or indirectly, orally or in writing, that a "free" offer is available in a trade area for more than six (6) months in any twelve (12) month period. At least thirty (30) days shall elapse before another such "free" offer is made in the same trade area. No more than three such "free" offers shall be made in the same area in any twelve (12) month period. In such period, respondents' sale in that area of merchandise or services in the amount, size or quality promoted with the "free" offer shall not exceed 50 percent of the total volume of its sales of merchandise or services, in the same amount, size or quality, in the area.

16. Representing, directly or indirectly, orally or in writing, that merchandise or services are being offered as a "gift", "without charge", "bonus", or by other words or terms which tend to convey the impression to the consuming public that merchandise or services are free, when the use of the term "free" in relation thereto is prohibited by the provisions of this order.

It is further ordered, That respondents shall forthwith deliver a copy of this order to cease and desist, and a copy of the Commission's news release setting forth the terms of the order, to each advertising agency and advertising medium, such as newspaper publishing companies, radio stations or television stations, presently utilized in the course of their business, and that respondents shall, immediately upon opening an account, deliver a copy of such order and news release to any such agency or medium with which they subsequently open an account.

It is further ordered, That respondents shall forthwith deliver a copy of this order to cease and desist to each of their agents, representatives and employees engaged in the offering for sale or sale of respondents' merchandise or services, or in any aspect of the creation, preparation or placing of respondents' advertisements and that respondents shall deliver a copy of such order to each such person whom they subsequently employ, immediately upon employing each such person and that respondents shall secure from each such person a signed statement acknowledging receipt of said order.

It is further ordered, That respondent corporation shall forthwith deliver a copy of this order to each of its operating divisions.

It is further ordered, That respondents shall notify the Commission at least thirty (30) days prior to any proposed change in the corporate respondent, such as dissolution, assignment or sale resulting in the emergence of a successor corporation, the creation or dissolution of subsidiaries or any other change in the corporation which may affect compliance obligations arising out of the order.

It is further ordered, That the individual respondent named herein promptly notify the Commission of the discontinuance of his present business or employment and of his affiliation with any new business or employment. Such notice shall include respondent's current business address and a statement as to the nature of the business or employment in which he is engaged as well as a description of his duties and responsibilities.

It is further ordered, That the respondents herein shall within sixty (60) days after service upon them of this order, file with the Commission a report, in writing, setting forth in detail the manner and form in which they have complied with this order.

Issued: March 28, 1974.

By the Commission.

Title 16—Commercial Practices

CHAPTER I—FEDERAL TRADE COMMISSION

SUBCHAPTER D—TRADE REGULATION RULES

PART 432—POWER OUTPUT CLAIMS FOR AMPLIFIERS UTILIZED IN HOME ENTERTAINMENT PRODUCTS

The Federal Trade Commission, pursuant to the Federal Trade Commission Act, as amended, 15 U.S.C. 41, et seq., and the provisions of Part 1, Subpart B of the Commission's procedures and rules of practice, 16 CFR 1.11, et seq., has conducted a proceeding for the promulgation of a Trade Regulation Rule concerning power output claims for amplifiers utilized in home entertainment products.

The Commission has now considered all matters of fact, law, policy and discretion, including the data, views and arguments presented on the record by interested parties in response to the notices, as prescribed by law, and has determined that the adoption of the Trade Regulation rule and statement of its basis and purpose set forth herein is in the public interest.

Sec.
- 432.1 Scope.
- 432.2 Required disclosures.
- 432.3 Standard test conditions.
- 432.4 Optional disclosures.
- 432.5 Prohibited disclosures.
- 432.6 Liability for violation.

AUTHORITY: The provisions of this Part 432 issued under 38 Stat. 717, as amended; (15 U.S.C. 41-58).

§ 432.1 Scope.

(a) Except as provided in paragraph (b) of this section, this part shall apply whenever any power output (in watts or otherwise), power band or power frequency response, or distortion capability or characteristic is represented, either expressly or by implication, in connection with the advertising, sale, or offering for sale, in commerce as "commerce" is defined in the Federal Trade Commission Act, of sound power amplification equipment manufactured or sold for home entertainment purposes, such as for example, radios, record and tape players, radio-phonograph and/or tape combinations, component audio amplifiers and the like.

(b) Representations shall be exempt from this part if all representations of performance characteristics referred to in paragraph (a) of this section clearly and conspicuously disclose a manufacturer's rated power output and that rated output does not exceed two (2) watts (per channel or total).

(c) It is an unfair method of competition and an unfair or deceptive act or practice within the meaning of section 5 (a)(1) of the Federal Trade Commission Act (15 U.S.C. 45(a)(1)) to violate any applicable provision of this part.

§ 432.2 Required disclosures.

Whenever any direct or indirect representation is made of the power output, power band or power frequency response, or distortion characteristics of sound power amplification equipment, the following disclosures shall be made clearly, conspicuously, and more prominently than any other representations or disclosures permitted under this part:

(a) The manufacturer's rated minimum sine wave continuous average power output, in watts, per channel (if the equipment is designed to amplify two or more channels simultaneously)—

(1) For each load impedance required to be disclosed in paragraph (b) of this section, when measured with resistive load or loads equal to such (nominal) load impedance or impedances, and

(2) Measured with all associated channels fully driven to rated per channel power;

(b) The load impedance or impedances, in Ohms, for which the manufacturer designs the equipment to be used by the consumer;

(c) The manufacturer's rated power band or power frequency response, in Hertz (Hz), for each rated power output required to be disclosed in paragraph (a)(1) of this section; and

(d) The manufacturer's rated percentage of maximum total harmonic distortion at any power level from 250 mW to the rated power output, for each such rated power output and its corresponding rated power band or power frequency response.

§ 432.3 Standard test conditions.

For purposes of performing the tests necessary to make the disclosures required under § 432.2:

(a) The power line voltage shall be 120 volts AC (230 volts when the equipment is made for foreign sale or use, unless a different nameplate rating is permanently affixed to the product by the manufacturer in which event the latter figure would control), RMS, using a sinusoidal wave containing less than 2 percent total harmonic content. In the case of equipment designed for battery operation only, tests shall be made with the battery power supply for which the particular equipment is designed and such test voltage must be disclosed under the required disclosures of § 432.2. If capable of both AC and DC battery operation, testing shall be with AC line operation:

(b) The AC power line frequency for domestic equipment shall be 60 Hz and 50 Hz for equipment made for foreign sale or use;

(c) The amplifier shall be preconditioned by simultaneously operating all channels at one-third of rated power output for one hour using a sinusoidal wave at a frequency of 1,000 Hz;

(d) The preconditioning and testing shall be in still air and an ambient temperature of at least 77° F (25° C);

(e) Rated power shall be obtainable at all frequencies within the rated power band without exceeding the rated maximum percentage of total harmonic distortion after input signals at said frequencies have been continuously applied at full rated power for not less than five (5) minutes at the amplifier's auxiliary input, or if not provided, at the phono input.

(f) At all times during warm-up and testing, tone loudness-contour and other controls shall be preset for the flattest response.

§ 432.4 Optional disclosures.

Other operating characteristics and technical specifications not required in § 432.2 may be disclosed: *Provided:*

(a) That any other power output is rated by the manufacturer, is expressed in minimum watts per channel, and such power output representation(s) complies with the provisions of § 432.2; except that if a peak or other instantaneous power rating, such as music power or peak power, is represented under this section, the maximum percentage of total harmonic distortion (see § 432.2(d)) may be disclosed only at such rated output: *And provided further*,

(b) That all disclosures or representations made under this section are less conspicuously, and prominently made than the disclosures required in § 432.2; and

(c) The rating and testing methods or standards used in determining such representations are disclosed, and well known and generally recognized by the industry at the time the representations or disclosures are made, are neither intended nor likely to deceive or confuse

V 39 I 87
MAY 3 74
XUM

the consumers and are not otherwise likely to frustrate the purpose of this part.

NOTE.—For the purpose of paragraph (b) of this section, optional disclosures will not be considered less prominent if they are either bold faced or are more than two-thirds the height of the disclosures required by § 432.2.

NOTE 2: Use of the asterisk in effecting any of the disclosures required by § 432.2 and permitted by § 432.4 shall not be deemed conspicuous disclosure.

§ 432.5 Prohibited disclosures.

No performance characteristics to which this part applies shall be represented or disclosed if they are not obtainable as represented or disclosed when the equipment is operated by the consumer in the usual and normal manner without the use of extraneous aids.

§ 432.6 Liability for violation.

If the manufacturer or, in the case of foreign made products, the importer or domestic sales representative of a foreign manufacturer, of any product covered by this part furnishes the information required or permitted under this part, then any other seller of the product shall not be deemed to be in violation of § 432.5 due to his reliance upon or transmittal of the written representations of the manufacturer or importer if such seller has been furnished by the manufacturer, importer, or sales representative a written certification attesting to the accuracy of the representations to which this part applies: *And provided further*, That such seller is without actual knowledge of the violation contained in said written certification.

Effective: November 4, 1974.

Promulgated: May 3, 1974.

By the Commission.

[SEAL] CHARLES A. TOBIN, *Secretary.*

STATEMENT OF BASIS AND PURPOSE [1]

CHAPTER I.—BACKGROUND

With the advent of stereophonic and/or two-channel sound, manufacturers of sound power equipment began describing the performance capability of their products in terms of power output expressed as "X number of Watts". Watts in this context refers to the output capability of the amplification unit.

The industry, generally speaking, is divided into two parts; the packaged or console systems manufacturers and the component systems manufacturers. Traditionally, manufacturers of packaged systems have rated their products according to the EIA Standard Methods of Measurement [2] while manufacturers of component systems have rated their equipment according to the IHF Standard.[3]

Since the mid-50's the industry has received much criticism by the trade press for failing to agree upon a single industry standard which is meaningful to the consumer. To date no single standard has been agreed upon. It has been asserted that there are no less than seven commonly used methods of determining amplifier wattage ratings,[4] all of which will yield substantially different results.

As a result, with the proliferation of output claims for stereophonic equipment, we find mediocre products advertised as, for example, "500 watts" with no indication as to what standard or method of rating is being followed. Many times, especially in the case of low quality packaged units, output is grossly exaggerated by rating according to the "peak power", an instantaneous power rating made without regard to the level of distortion. Further, such output figure is usually expressed in terms of the total power rather than the per channel power thereby permitting a doubling of the output figure.

In the absence of any specific disclosure as to whether the so-called "RMS power" [5] or the less regorous "music power" [6] is being represented, under either the EIA or IHF standard, generally music power is followed. To arrive at the RMS power rating, it is necessary to deduct 10 to 25 percent of the music power rating and divide by 2 to arrive at the per channel figure for 2-channel stereo systems. Unless the power of an amplifier is rated at a specific level of distortion and such distortion is disclosed, it cannot realistically be compared to any other amplifier rating.[7]

Still other manufacturers have shown a tolerance in rating the output of their products by use of the symbol "±1dB" (plus or minus 1 decibel). In the case of a rating of this sort, the minimum output may be as much as 20 percent below as the nominal power stated or as much as 25 percent above. Thus, a rating of 100 watts (±1dB) would indicate a power output range of from 80 to 125 watts.[8]

It has been asserted that one of the best known and most respected manufacturers of stereo components and consoles produces a stereo component the literature for which states the power output in three rating systems, ±1dB, IHF power and RMS power, all at a total harmonic distortion level of 1 percent. When sold as a console with a different model number and a modified faceplate, this same amplifier is rated at EIA peak power with 5 percent distortion.[9]

The trade press has aptly described this situation as the "Wattage War", noting that the consumer, who normally equates watts with quality, is often deceived because he believes the higher the watts the better the quality.[10]

A technical advisor for Campbell Music Store, Washington, D.C., has submitted for the record the following statement which best illustrates the extent of the problem: "———Armed with a moderate engineering background and all published specifications available, I cannot determine, without bench testing, which of a number of amplifiers on the market is more powerful or of better quality. With the thought of literature containing meaningless values and technical doubletalk, my sympathy goes out to the average consumer who is poorly equipped to deal with this numbers game." [11]

Mr. Julian Hirsch of Stereo Hi-Fi Review states: "The widespread abuse, or disregard, of current measurement standards has resulted in the present chaotic situation, in which advertised power ratings of high fidelity amplifiers may have little relationship to their actual performance.

"As a result, manufacturers who adhere to ethical rating systems are at a competitive disadvantage, and consumers are often misled by exaggerated claims and are unable to make fair comparisons between products." [12]

In all fairness to certain members of the industry, however, there are a few manufacturers of high quality component systems who follow neither EIA nor IHF standards but conservatively rate their amplifiers according to their average continuous power output, per channel. These manufacturers disclose the maximum level of distortion across the entire audio spectrum,[13] the frequency bandwidth at which this power is available and the speaker load or load impedance in ohms at which such power is available.

Under both the EIA and IHF standards,

[1] Footnote references to the transcript of the public hearings are preceded by the prefix "Tr." and references to the written comments in the public record are preceded by the prefix "R.".

[2] EIA refers to the Consumer Electronics Group, Electronic Industries Association, with a membership composed of approximately 65 domestic manufacturers and assemblers and about 175 manufacturers and importers. Retail sales by American manufacturers total some $2.3 billion annually, Tr. 9, 10 and R. 285; See also EIA Standard, RS-234C, R. 286–300.

[3] IHF refers to the Institute of High Fidelity, with a membership composed of some 37 domestic and non-domestic member companies, Tr. 53–53B; see also IHF Standard A–201 (1966), R. 331–341.

[4] R. 183.

[5] RMS, meaning root mean square, is an engineering concept which has been defined as the average continuous power. This designation was objected to as being inaccurate and the designation "RMS" has been changed to "average" in the Final Rule.

[6] Music power, currently referred to as monetary power in the EIA Standard, is an instantaneous power rating at a given level of distortion. EIA permits a distortion level of 5 percent while IHF recommends a level of distortion not to exceed 1 percent.

[13] EIA and IHF rate their products only at a frequency signal of 1000 cycles per second (1000 hertz) which is a center point in the frequency range or power band.

even what they term "continuous power" is measured at a point on the power curve only 30 seconds after the input signal has been applied.[14] Under such procedure, the power total harmonic distortion (see subsection 2(d)) may be disclosed only at such rated output; and provided further that

b. All disclosures or representations made under this section are less conspicuously and prominently made than the disclosures required in section 2 of this rule; and

c. The rating and testing methods or standards used in determining such representations are disclosed, are well known and generally recognized by the industry at the time the representation or disclosure is made, are neither intended nor likely to deceive or confuse the consumer, and are not otherwise likely to frustrate the purpose of this rule.

NOTE—1. For the purpose of subsection (b) of this section, optional disclosures will not be considered less prominent if they are either bold faced or are more than two-thirds the height of the disclosures required by Section 2.

NOTE—2. Use of the asterisk in effecting any of the disclosures required by Section 2 and permitted by Section 3 of this rule shall not be deemed conspicuous disclosure.

SEC. 4.—*Prohibited Disclosures.* No performance characteristics to which this Rule applies shall be represented or disclosed if they are not obtainable as represented or disclosed when the equipment is operated by the consumer in the usual and normal manner without the use of extraneous aids.

SEC. 5.—*Liability for Violation.* If the manufacturer, or in the case of foreign made products, if the importer or domestic sales representative of a foreign manufacturer of any product covered by this rule furnishes the information required or permitted under this rule, then any other seller of the product shall not be deemed to be in violation of § 4 of this rule due to his reliance upon or transmittal of the written representations of the manufacturer or importer if such seller has been furnished by the manufacturer, importer, or sales representative, a written certification attesting to the accuracy of the representations to which this rule applies, and provided further that such seller is without actual knowledge of the violation contained in said written certification.

Upon issuance of the notice of hearing, consumer interest gained momentum and there was a substantial response to the invitation for comments. Views in support of the proposed rule came from organizations such as the Stanford Research Institute of Menlo Park, California; [15] Audiomation Laboratories of Upper Darby, Pennsylvania; [16] The Commonwealth of Massachusetts Consumers' Council [17] and KLH Research and Development Corp.,[18] both of Cambridge, Massachusetts.

Public hearings were held on April 13 and 14, 1971, on the proposed rule which, in essence, required affirmative disclosure in all advertising, where power output, power band, frequency response or distortion capability is represented, of the manufacturer's rated minimum [19] continuous power output in watts per channel and, in addition, three parameters:

1. the speaker load for which the manufacturer intends the equipment to be used,[20]

2. the manufacturer's rated power band or frequency response,[21] and

3. the percentage of maximum total harmonic distortion at any power level from zero watts to rated power output.

Since these parameters directly affect the output rating of an amplifier, it was believed that the consumer should have the benefit of such information in order to enable him to make an intelligent comparison among the various competing products.[22]

Section 3 of the proposed rule provided for optional disclosures provided they were less prominently disclosed and further, provided the above three parameters were disclosed and were determined in accordance with generally recognized testing methods or standards and such standards were likewise disclosed.

Although there was general agreement that where power output is represented it should be stated in terms of continuous power, differences of opinion were expressed at the hearing as to the following provisions of the proposed rule and as to the methods used to measure the various parameters.

CHAPTER III.—ARGUMENTS ADVANCED BY INDUSTRY REGARDING PROPOSED RULE

A. *Section 1(a)—Scope.* The proposed rule embraced sound power amplification equipment manufactured or sold for home entertainment purposes as, for example, radios, record and tape players, radio-phonographs and tape combinations and component audio amplifiers.

The representative of Electronic Industries Association of Japan (EIA-J) urged that the Final Rule exclude all such named sound power amplification equipment having a power level of two watts or less per channel, suggesting that it is unlikely that any consumer deception might result from any representation on equipment with a power output falling within this range.[23] No one took issue with this point.

This exception, which was included in the notice of revision and amendment hereinafter discussed, would cover a large number of low cost items where power is normally of little consequence to the consumer.

B. *Section 1(b)—Consequences of Violation.* EIA voiced concern that under section 1(b) a violation of the Rule would be automatically a violation of Section 5(a)(1) of the Federal Trade Commission Act. It contended that this represents a change in the Commission's present procedure of filing a formal complaint upon violation of section 5 and granting a respondent a hearing on the applicability of the rule to the particular case as provided in § 1.12(d) of the Commission's rules of practice.[24]

Section 1(b) of the rule does not represent a change in procedure but merely incorporates in the rule the Commission's con-

[14] See R. 294 (section 3.1.1 EIA Standard) and R. 334 (section 3.1.1 IHF Standard). output for such equipment will register higher because the power curve tends to fall with thermal (heat) build-up.

[15] R. 599.

[16] R. 558.

[17] R. 556–557.

[18] R. 551.

[19] The proposed rule required the minimum power disclosure since there is a drop in the power level at each end of the power curve. The maximum power permitted by the rule then would reflect the minimum power attainable at any point along the frequency bandwidth.

[20] Most speakers on the market are rated at 8 ohms. Some manufacturers have rated their equipment at 4 ohms load which normally results in a slightly higher output figure.

[21] The frequency range or response from the lowest to the highest tones is measured in cycles per second or Hertz (Hz). As pointed out, EIA and IHF permit a maximum power rating at a mid-point in the frequency range (1000 Hz). The proposed rule, on the other hand, required disclosure of the minimum output obtainable at any point along the audio range, from the lowest to the highest rated frequency, taking into account the outer extremes.

[22] See consumer letter, R. 72–73.

[23] Tr. 48.

[24] R. 282–4; Tr. 26–28.

V 39 I 87 MAY 3 74 XUM

clusion that practices in violation of said rule are violative of Section 5 of the Federal Trade Commission Act; the respondent still would be given the right of a hearing on the applicability of the rule to the particular case as provided in § 1.12(d) of the Commission's rules of practice.

C. *Section 2(a)—Required Disclosures.* EIA, while supporting the RMS disclosure provision of the proposed rule, argues that in requiring disclosure of additional specifications the rule as designed would accommodate a small segment of the industry and their consumers who desire the maximum information about their products; that the great majority of purchasers neither need nor desire these specifications and in fact would tend to be confused by such information.[30]

EIA's argument loses sight of the fact established by the record that the consumer has been conditioned, by the advertising of more and greater power output figures, to equate power output with quality.

The Commission believes that, even assuming that the great majority of purchasers neither need nor desire the information which the proposed rule would require be disclosed, if without disclosure of these additional parameters the purchaser is led to believe that a low-priced amplifier of inferior quality has the performance capability of a high-priced amplifier of superior quality, the purchaser is being unknowingly deceived and induced to purchase inferior equipment.[31] This is true even though a represented quality of the superior product may not lie in the range of human audibility.

(1) *Output in terms of minimum watts.* Both section 2(a) and the optional disclosure section 3(a), provided for disclosure of the per channel power output in terms of "minimum watts" so as to reflect the maximum capability of the amplifier across the entire frequency range.

Both EIA and IHF, who take the position that all measurements of power output, power band, frequency response and distortion should be measured in accordance with their own standards, state that power output should be rated at a single frequency signal of 1000 Hz.[32] They are supported in this position by H. H. Scott, Inc.,[33] Sony Corporation,[34] J. C. Penney Company[35] and Julian Hirsch, editor of Stereo Hi-Fi Review Magazine.[36] Their argument is that engineers understand this measurement technique[37] and no one would be deceived if all companies were required to measure the power output of their amplifiers at this frequency.

It is noteworthy that a representative of EIA conceded at the hearings that under the EIA and IHF method of rating at 1000 Hz, two pieces of equipment with the same rating may have entirely different performance capabilities. Mr. von Recklinghausen, speaking on behalf of H. H. Scott, Inc., stated in this connection, that an amplifier is capable of providing power outside of that band, but at a reduced capability, and, of course, having its maximum in the center.[38]

Opposing the EIA and IHF method of determining output was Dr. Amar Bose of The Bose Corporation[39] and the representative of Marantz Company. The latter stated that in speaking to dealers and consumers regarding this question, he found that the consumers believe that where equipment is rated at a certain power the product will deliver that rated power through its entire audio range.[40]

The Commission recognizes that it is standard engineering practice under both EIA and IHF standards to rate an amplifier at the single frequency signal of 1000 Hz, but believes that such a measurement is inherently deceptive to the consumer who expects that a piece of equipment represented as being capable of a stated power output will deliver that power output across its full audio range. The whole thrust of the rule is to limit the practice of disclosing power output ratings which have no relation to rating across the power bandwidth.

To do anything less would be to sanction a standard tending to favor lower quality equipment on a comparative basis, for the Record clearly establishes that higher quality equipment will perform relatively better outside the 1000 Hz mid-point. Thus it is not accurate to conclude that consumer deception will be eliminated if all sets are measured at the same point on the frequency range, for this would tend to conceal the fact that the better quality equipment will maintain a higher power output as the extremes of the power band are approached.

(2) *Per channel disclosure.* EIA, EIA–J, IHF and Lafayette Radio Electronics Corporation opposed per channel disclosure in favor of total power ratings. Support for per channel disclosure came from The Bose Corporation, Marantz Company and Julian Hirsch. The record also contains views of consumers[41] and independent experts[42] supporting per channel disclosure, as required by the rule.

This provision is amply supported by the record. The Commission has been advised that, from a technical standpoint, a stereo having, for example, 20-watts per channel, both channels driven, will give less total power output than a single channel 40-watt amplifier. So, to speak of the stereo in terms of its total power (40 watts) is, the Commission believes, misleading and deceptive. Additionally, audio speakers are rated in terms of number of watts per channel. Further, 4-channel sound systems have been introduced which, if rated according to their total power output, would, in the Commission's view, have an even greater tendency to deceive the average consumer.[43]

D. *Section 2(b)—Disclosure of Load or Working Impedance.* Some manufacturers have rated their amplifiers at a 4 ohm speaker load impedance but have supplied 8 ohm speakers with their systems. Generally, the lower the load impedance utilized in testing transistorized equipment, the higher the output of the amplifier.

Various views were expressed with respect to this provision.

EIA and IHF urged that ratings should be based on 8 ohms load with disclosure only where a different impedance is used.[44]

Lafayette Radio Electronics Corporation[45] and Marantz Company[46] favored disclosure of both 4 and 8 ohms pointing out that certain amplifiers are designed for more than one set of speakers, e.g., main and remote speakers.

Sony Corporation of America, on the other hand, would rate power output at 8 ohms load and permit optional disclosure of power output ratings at other load impedances.[47]

The Commission believes that it would be to the benefit of the consumer not to require disclosure of power output at any one or more specific load impedances but rather to require the manufacturer to state the power output in terms of the load impedance or impedances for which he designs[48] the equipment to be used by the consumer. Of course, this would not preclude the manufacturer from representing the power output in terms of other load impedances as an optional disclosure under Section 3 of the rule.

Thus, this provision would be maintained in a manner consistent with the rest of the rule in that the Commission is not undertaking to require as a matter of law that any one impedance be used, but is instead requiring the manufacturer to disclose that factor along with the other factors which must also be set forth. This then leaves the consumer, armed with the facts, free to judge for himself whether or not he is impressed with the specifications.

E. *Section 2(c)—Rated Power Band or Frequency Response.* Power bandwidth has been traditionally defined as the response range between the lowest and the highest frequencies at which the amplifier can deliver half its rated power at rated distortion or —3 dB down from the mid-frequency point (1000 Hz).[49]

As aforestated, both EIA and IHF use this method in measuring output. Under such test method, if the amplifier is capable of, for example, 50 watts output at 1000 Hz, it would be rated a "50 watt" amplifier even though the minimum power output across the frequency range or rated power bandwidth would be —3 dB or only 25 watts, i.e., 50 percent down at each extreme from the center point of 1000 Hz.

Neither EIA nor IHF favored disclosure of the power band as provided by Section 2(c) of the proposed rule. EIA contended that such information is unnecessary in advertising and could lead to a meaningless numbers game.[50] It further contended that some may promote their products by advertising a very wide bandwidth which may include sound waves out of the range of human audibility.[51]

In support of the IHF method of measurement, Mr. von Recklinghausen of H. H. Scott, Inc., explained that by using 3 points in the power band, a mid-frequency point and two

[37] Simply stated, under this method of measurement, power bandwidth is defined as that point where the frequency response is 3 dB down (or 50 percent) from the middle or center point; the center point being 1000 Hz. For example, if an amplifier's output is 50 watts at the center point (1000 Hz) the frequency range (from the lowest to the highest frequency) will be established at that point where the power drops 50 percent at either end of the spectrum. At this point, the minimum watts output would be 25. Since the amplifier is capable of maintaining only 25 watts at the extremes, the rule would require that such rating be in terms of the minimum power or 25 watts.

at the extremes, "—— you have very closely tied down the capability of that amplifier, meaning that the amplifier is capable of providing power outside of that band, *but at a reduced capability, and, of course, having its maximum in the center*". [emphasis supplied.][47]

Again, although engineers understand this method of measurement, the Commission is of the opinion that the consuming public itself is unaware of such method of rating and, even if it were, would not understand it. As noted, the record indicates the consumer believes that a set will perform as represented across the audio spectrum when, in truth and in fact, the equipment when rated according to the EIA or IHF rating technique, will perform as represented only at 1000 Hz.[48]

The Commission is of the opinion that power bandwidth is another of the significant parameters which must be disclosed in order to enable the consumer to make a meaningful comparison of quality among competing products. Further, the product must be capable of providing the rated or advertised power output over the represented power band. If this result is achieved the consumer would again have the facts from which he can judge for himself whether or not a particular piece of equipment will satisfy his requirements. Requiring disclosure of the power band should also serve to discourage an artificial narrowing of the bandwidth in order to increase the rated power output. The consumer would then be able to see for himself under what limited circumstances the rated power was achieved and it is only by considering all of these parameters that an intelligent choice can be made.

F. *Section 2(d)—Harmonic Distortion.* Section 2(d) of the proposed rule would require disclosure of the rated percentage of maximum total harmonic distortion at any power level across the power band (not just at rated output) from zero to rated output.

At the hearings, EIA urged that distortion be rated according to its standard, which permits a distortion level of 5 percent at rated output, and that the percentage of total harmonic distortion not be a required disclosure unless it is greater than 5 percent.[49] The argument was made that good sound is reproduced if distortion is not greater than 5 percent and that many consumers can perceive little, if any, difference in sound quality when the distortion is reduced from 5 percent to 1 percent.[50]

IHF urged that measurement of total harmonic distortion be made in accordance with its standard which recommends a distortion level of no greater than 1 percent at rated power level. Unlike EIA, IHF would, in accordance with the Rule, require disclosure of the level of distortion because, as Mr. Goodman of IHF put it "—the THD (total harmonic distortion) selected for any wattage rating affects the meaningfulness of that power rating—."[51]

Mr. Horowitz of IHF added: "I think the response of the human ear to distortion is a controversial subject, and I think it is a feeling of most discriminating persons that there would be a substantial distortion of quality, if you go from one percent to five percent, and we also feel there would be a big gradation in tone quality if you go say from a half percent to five percent. "It is our feeling that unless you accompany the power rating with a total amount of distortion rating, you would be getting misleading information."[52]

Mr. Robert Angus of Audio Times noted that a provision requiring distortion to be specified only if it exceeds 5 percent as proposed by EIA would permit a manufacturer almost as much latitude within the framework of an RMS rating as he now enjoys with no FTC rule at all. He emphasized that an amplifier with an output of 20 watts and total harmonic distortion of 0.5 percent, the normal tolerance for better high fidelity components, might wind up as a 30-watt amplifier if the FTC were to permit a tolerance of up to 5 percent total harmonic distortion.[53]

Dr. Bose of Bose Corporation, who has made several studies in Audio-Accoustics, proposed 2 percent as a standard reference for distortion. He stated that all indications are that a person is not able to detect any form of audible distortion on music or speech signals below the 2 percent level. He would fix distortion at a 2 percent level and have the manufacturer disclose the bandwidth over which he can achieve his stated power with that distortion.[54]

Mr. Ken Rottner of Marantz Company did not favor pegging the distortion but rather he would require disclosure of the highest percentage measurable of harmonic and intermodulation distortion with the full range of frequencies at and below the rated RMS power output.[55] (The word "pegging" refers to the suggestion that the Commission should fix the percentage of distortion at which all equipment should be evaluated.)

Mr. Reff of J. C. Penney Company favored pegging the distortion and thereby eliminating this variable, at a level of 5 percent which he contended is used by the industry and will permit the consumer to shop more wisely.[56]

But Kenneth Nelson of Hi-Fi Trade News was of the opinion that the 5 percent distortion figure is too high; that it represents merchandise which is really sloppily constructed.[57]

Larry Levine, a dealer, argued against the pegging of distortion explaining that it would restrict some manufacturers and would place others at a great advantage. Customers, he stated, realize that a higher rate of distortion means poorer sound. He noted that where a rating is pegged at 5 percent great advantage is given to the manufacturer of packaged systems, while the advantage falls to the component manufacturer under a pegged distortion of 1 percent.[58] Ivan Berger of Saturday Review agreed.[59]

Also agreeing that distortion should not be pegged and that 5 percent is far too high, Julian Hirsch of Stereo Hi-Fi Review expressed the view that as low as 2 percent distortion is relatively high even for moderately priced amplifiers. Mr. Hirsch favored the manufacturer having the option on the setting of distortion, as provided by the proposed rule.[60]

Audibility of distortion. In considering the matter of pegging the distortion at a specific level, there is no general agreement as to that point beyond which distortion becomes inaudible. One reason for this is the fact that the ability to detect distortion varies with the individual's auditory acuity.

At the hearings, Mr. Horowitz (IHF) stated that most discriminating persons would note a substantial distortion of quality if the distortion were increased from 1 to 5 percent and an even larger gradation in tone quality when increased from one-half percent to 5 percent.[61] H. H. Scott's representative agreed that there is a noticeable difference in sound between 1 and 5 percent distortion.[62]

EIA, taking a contrary view, contended that many of their customers can perceive little, if any, difference in sound quality when the distortion is reduced from 5 to 1 percent.[63]

J. C. Penney's representative expressed a similar view asserting that it is the general feeling in the industry that most consumers cannot detect less than 5 percent total harmonic distortion.[64]

Dr. Amar Bose, whose primary interest lies in the psycho-accoustic aspects of sound power equipment, took issue with this contention to a degree when he asserted that there are no audible benefits below 2 percent.[65]

However, Mr. Bose's view was disputed by Mr. Rottner of Marantz who insisted that there are audible benefits to be derived from distortion of 2 percent or less.[66] In Mr. Rottner's opinion, we have not achieved that point beyond which the human ear can no longer detect an improvement.[67]

The Commission believes that Julian Hirsch placed the issue in proper perspective when he registered the following comment: "I have known people who would not complain if they heard ten or twenty percent distortion, but I do not think that that is the normal—I would say a reasonably discerning listener can tell the difference, even if he is not aware of it specifically, he can tell the difference between an amplifier that averages around one and a half percent distortion and one down to one-tenth distortion."[68]

Mr. Hirsch further observed that the listener may not be aware he is hearing less distortion at one-tenth percent but he would be aware of a less satisfactory sound.[69]

In a statement submitted for the record, Mr. Edward Myer of Myer-Emco, Inc., Washington, D.C., comments upon the importance of harmonic distortion: "At these hearings verbal arguments were advanced purporting to show that harmonic distortion in home entertainment amplifiers is not a good measure of amplifier quality because moderate differences in harmonic distortion level have been shown to be undetectable when playing ordinary music through loudspeakers into a normal home environment. While this may or may not be true, it has been shown that listeners using earphones (thereby avoiding the room effects) are able to detect

minute amounts of distortion in sinusoidal waveforms such as are present on single musical instruments and when listening to certain types of electronic music. Sales of earphones at this time are almost equal to the sales of loudspeakers and who can say that modern composers will not make extensive use of pure sine waves in the immediate future. In my opinion the T.H.D. system is the best *simple* measure of amplifier performance." [70]

Considering the entire record, the Commission is of the view that harmonic distortion is the other parameter which must be disclosed in order to enable the consumer to make a meaningful choice among competing products.

The Commission rejects the argument that distortion should be pegged at 5 percent and not be a required disclosure unless it exceeds that amount because 5 percent total harmonic distortion has been shown to be an excessive amount of distortion for good quality sound. A pegging of distortion at 1 percent, on the other hand, might well work to the disadvantage of manufacturers of less expensive equipment with no corresponding benefit to the consumer.

Therefore, the Commission concludes that requiring the manufacturer to disclose the total harmonic distortion and giving him the option of setting the level of harmonic distortion as required by Section 2(d) and permitting optional disclosure in accordance with Section 3(a) of the proposed rule will provide the consumer with sufficient information with which to make an intelligent choice.

G. *Section 3—Optional Disclosures.* This section of the proposed rule provided that other power output or operating specifications may be disclosed provided such power output representations are in terms of minimum watts per channel and comply with the requirements of subsections 2(a)(1) through 2(d), the representations are less conspicuously and prominently made than Section 2 disclosures and the rating and testing methods or standards are disclosed. However, if an instantaneous power rating is represented, such as "peak power", the maximum total harmonic distortion may be disclosed only at such rated output where distortion will register the greatest.

EIA urged that this section be restricted to momentary or music power and measured in accordance with EIA Standard No. 234–C (1971) which provides a standard of measurement only for continuous and momentary power output. [71]

Lafayette Radio Electronics Corporation emphatically opposed optional disclosures on the ground that they will tend to confuse the consumer.[72]

H. H. Scott would restrict optional disclosures to types of power for which standard methods of measurement exist, citing IHF Standard, Section 3.1.2 as the solution.[73]

The Record reveals that some persons feel the Commission should prohibit disclosure of all short-term power, such as music power, peak power, *etc.*,[74] while others feel that only peak power representations should be prohibited.[75]

The Commission believes that the Rule, which requires disclosure of three parameters whenever a power output claim is made, will tend to discourage short-term power representations, especially those in terms of "peak power." Once consumers have been educated to look for the three parameters which this rule requires to be disclosed and to make their purchase decision on that basis alone, they should not be so impressed with subordinated disclosures of other less significant factors and hence there should be less temptation to employ these essentially unmeaningful characteristics in advertising. At the same time, the seller's freedom to make these representations in a nondeceptive manner if he so chooses is preserved, for the intent of this rule is to require adequate product information disclosure and not to establish rigid standards from which no seller may depart.

H. *Asterisk Disclosure.* Note 2 to Section 3 of the proposed rule prohibited asterisk disclosure of information provided by Sections 2 and 3.

The only person to comment on this provision was Mr. Ivan Berger who would permit use of the asterisk for disclosing all parameters except the distortion.[76] In similar cases in the past, the Commission has found that the asterisk is often used to bury the disclosure.

The Commission has been confronted with this kind of problem especially in administering the Trade Regulation Rule relating to TV Picture Sizes (16 CFR 410). The TV Rule was amended to include specifically a provision prohibiting use of the asterisk in effecting disclosure (36 FR 21518, Nov. 10, 1971). The Commission believes it would be remiss, especially in a case involving disclosure of product specifications as here, not to have a specific provision prohibiting the much abused asterisk form of disclosure.

I. *Section 4—Prohibited Disclosures.* This section, as to which no direct issue was taken, was intended to assure that all performance characteristics are based upon conditions of normal use by the consumer, *i.e.*, conditions which are encountered in the home.

CHAPTER IV.—PROCEEDING TO AMEND AND REVISE THE PROPOSED RULE

A. *Section 1(a) and (b).* At the hearing, objection was taken to section 1 as being too broad in scope. It was contended that this Section should exempt equipment having a power output capability of two watts or less on the theory that consumer deception is unlikely to result from representations on such equipment.[77]

B. *Section 2(d).* Also questioned was the accuracy of this section which would have required disclosure of the manufacturer's rated percentage of total harmonic distortion at any power level from zero watts to rated power output. One person pointed out that from a purely technical standpoint, in measuring from "zero power" in this context a meter would read 100 percent distortion.[78] Others expressed a similar view.[79]

Accordingly, on February 1, 1972, a notice to amend and revise issued for comment proposing (1) an amendment to Section 1, paragraphs (a) and (b) exempting representations with respect to equipment not having a rated output in excess of 2 watts per channel or total and (2) a revision of Section 2, paragraph (d), requiring that the maximum total harmonic distortion be measured from a minimum power of 250 milliwatts.

CHAPTER V.—RESPONSE TO NOTICE TO AMEND AND REVISE PROPOSED RULE AND FINDINGS

Unanimous support for the Amendment and Revision came from industry and consumers.[80]

The Commission is of the opinion that little consumer deception will result from claims made for equipment having a power output of 2 watts or less. Further, the section 1 exemption will greatly facilitate enforcement of the rule.

CHAPTER VI.—PROCEEDING TO REVISE TO INCLUDE STANDARD TEST CONDITIONS

The argument was made at the hearings and raised again in response to the notice to amend and revise that the rule should contain specific test conditions. EIA urged the Commission to make the measurements required by the rule in accordance with the EIA Standard stating that variations in test conditions under section 2 could result in different output ratings.[81] EIA–J,[82] Somerset Associates [83] and Audio Showcase, Inc.,[84] agreed.

[79] Klipsch and Associates, Inc., R. 2; EIA, R. 103.
[80] Consumers' letters, R. 648–656, 679, 708, 716–719; EIA, R. 662–663 and IHF, R. 714; German Hi-Fi Center, R. 687; Somerset Associates, R. 689; Texas Consumer Association, R. 715 and Marantz, R. 721.
[81] Tr. 664.
[82] Tr. 677.
[83] In speaking of his disappointment in the Commission's failure to include such conditions, Mr. Greenberg stated: "As far as our comment on the omissions in the proposed regulation we consider them obvious. We refer the Commission to *any* audio engineer for verification and submit that without their inclusion, we will again have another meaningless regulation filled with genuine loopholes for clever manufacturers to exploit." Tr. 689, 690.
[84] Tr. 691.

Accordingly, on October 11, 1973, a notice to revise to include minimum test conditions was issued for comment.[85]

CHAPTER VII.—RESPONSE TO NOTICE TO REVISE AND FINDINGS

A. *Section 3* [86]*—Standard Test Conditions.*

(1) *Power line voltage.* Section 3(a) of the revised proposed rule states: "the power line voltage shall be 117 volts AC (230 volts when the equipment is made for foreign sale or use), RMS, using a sinusoidal wave containing less than 2 percent total harmonic content".

EIA contends that a more reasonable power line voltage would be 120 volts because 117 volts is exceeded in approximately 96 percent of customers' homes; [87] that 120 volts is the voltage usually specified for measuring under standard test conditions.[88] As to foreign equipment, EIA would have the Rule provide that the test voltage be within ± 1 percent of the amplifier rating because such equipment may not be rated at 230 volts.[89]

EIA also suggests that the Commission include a testing specification of the power line voltage for AC/DC or DC operated products and that such specification be the manufacturer's rated DC power supply for the particular product.[90]

Pacific Electronics would have the Commission establish line voltage as 120 volts ± 1 percent as provided in the IHF standard.[91]

With respect to the harmonic content of the sinusoidal wave, National Electronics Service Dealers Assocation, Inc., contends the rule requirement that such wave be of less than 2 percent total harmonic content is far too high to protect the consumer and should be changed to "no more than 1 percent and/or less".[92]

Klipsch and Associates, Inc., an electronic research and development firm, states that since few power lines have as little as 2 percent total harmonic content, the rule is unnecessarily stringent. A 10 percent figure, it is stressed, would provide for an essentially sinusoidal wave form without materially affecting the power supply voltage or current levels of equipment under test.[93]

The power line voltage specification has been changed to 120 volts in the Final Rule since there appears to be general agreement on this figure. Moreover 120 volts corresponds with the average voltage in homes across the U.S.A.

With respect to equipment manufactured for foreign sale or use, as noted earlier, the Commission considers it unwise to permit tolerances such as ±1 percent, etc., since this would not permit duplication of the tests. However, this aspect of the Rule has been changed to require testing at 230 volts unless a different voltage is indicated and is permanently affixed to the equipment by the manufacturer.

Only one industry member would make the total harmonic content of the signal stricter. The Commission is of the view that this is insufficient to change what is essentially accepted by most authorities and testing facilities as the standard test for this particular parameter.

The Commission understands that in the case of AC/DC operated products, the AC converts down to 9 volts or whatever battery voltage is recommended and that testing with the battery in such case will yield a very low distortion because the hum and noise factor from the power line has been eliminated. Therefore, a provision has been inserted in the Final Rule requiring testing at AC on such combination power source equipment. The Rule also provides for equipment operating solely on battery power.

(2) *Power line frequency.* Section 3, paragraph (b), of the revised proposed rule reads, "the power line frequency shall be 60 Hz".

Importer Triad-Ultrad, contends that 230 volts for foreign power line voltages is most generally accompanied by a frequency of 50 Hz, and proposes an amendment to this Section to read: "The power line frequency shall be a minimum of 48 Hz thru a maximum of 61 Hz for domestic appplication and/or favored foreign sale or use." [94]

As noted earlier, we have not permitted the use of tolerances because this would not allow for duplication of the tests. Accordingly, section 3(b) has been amended to include a power line frequency of 50 Hz in the case of equipment intended for foreign sale or use.

(3) *Pre-conditioning.* Section 3, paragraph (c) of the revised proposed rule states: "the amplifier shall be pre-conditioned by simultaneously operating all channels at one-third of rated power output for one hour using a sinusoidal wave at a frequency of 1000 Hz".

Only two industry members take issue with this provision. Both EIA [95] and EIA–J [96] contend that since average power is 1/10 of peak power normally, 1/10 is more representative of the condition under which the amplifier will be operated than is ½.

The Commission rejects this argument. Experts in the field have advised that preconditioning at 1/10 of rated power is totally insufficient to reveal any reduction in performance due to thermal build-up.

(4) *Temperature for testing.* Section 3, paragraph (d) of the revised proposed rule states: "the pre-conditioning and testing shall be in still air and an ambient temperature of 77°F."

There is general agreement that the temperature specification should be shown in equivalent degrees centigrade. EIA, noting that ambient temperatures in a testing laboratory are often difficult to control, believes that the temperature specification should be stated as "at least 77°F.", since the performance of amplifiers is not improved by higher temperatures.[97] One person would change the temperature specification to 100.5° F.[98] a temperature not normally found in the average home.

The above suggestions that the temperature be stated as a minimum specification and the equivalent in degrees centigrade be shown are reasonable and have been incorporated in Section 3(d) of the Final Rule.

(5) *Power rating measurement.* Paragraph (e) of Section 2 of the revised proposed rule states: "rated power shall be obtainable at all frequencies within the rated power band without exceeding the rated maximum percentage of total harmonic distortion after input signals at said frequencies have been continuously applied for not less than five (5) minutes at the amplifier's auxiliary input, or if not provided, at the phono input."

Bruce Harvey, a consumer professing to have extensive experience with audio equipment, takes issue with the requirement that the signal be applied through the auxiliary input because, he maintains, auxiliary inputs are loaded with more impedance to protect the initial high amplification gain stages of the amplifier. The most common mode of operation input, he notes, is the phono input through which the tests should be made.[99] He states further that the test signal should be furnished by a standard FM/MPX test signal generator.[100]

Alan Lefkow, Engineer, Consumers Union, states, "• • • it is not clear whether the level of the input signals to be continuously applied for 5 minutes are supposed to drive the amplifier to its rated power output for that same length of time." [101]

As to the propriety of the amplifier input for application of the signal, the Commission understands that the phono input is a very low level type of input, the signal as to which only the McAdam tester is capable of duplicating; that there is no change in power output regardless of which input is used, the auxiliary or the phono. If the phono input is used, a higher distortion will be generated. Also built in equalization curves tend to foul up the input signal for most signal generators.

The Commission is of the opinion, therefore, that the auxiliary input will give an accurate picture of performance when in tape or tuner mode because they both by-pass the preamplifier. This aspect of paragraph (e) is therefore left unchanged.

However, the Commission is persuaded by Mr. Lefkow that paragraph (e) should be clarified by providing that the input signal shall be applied for 5 minutes at full rated power.[102]

Finally, paragraph (f) has been added which provides for the placement of controls during the period of testing.[103]

Other criticisms, addressed to the basic provisions of the rule as initially proposed, have already been considered and rejected.[104]

---

[85] EIA also contended that to be technically correct the term "RMS" should be changed to "average". This change was incorporated in the revised rule.
[86] Section 3 of the proposed rule, designated "Optional Disclosures," was changed to Section 4, et. seq.
[87] A survey, "65,000 Service Voltage Tests Across the USA" (1966), reported by J.W. Anderson, R. 802.
[88] R. 797.
[89] Electronic Industries of Japan (EIA–J) substantially agrees with this view, R. 793.
[90] R. 797.
[91] Radio Shack also argues that the power line voltage should be 120 volts, R. 762. For similar views see Herman Stiftiger, Bell Telephone Laboratories, R. 769, and Superscope, R. 768.
[92] R. 778.
[93] R. 757.
[94] R. 752; in agreement is Professor Ashley, R. 775–776. EIA would include a tolerance of ±2 percent for tests made at other frequencies, R. 798.
[95] R. 798–799.
[96] R. 793.
[97] R. 799. See also Ivan Berger, R. 763; Triad–Ultrad, R. 752. EIA would also include a tolerance, R. 799.
[98] Prof. Ashley, R. 776.
[99] R. 743.
[100] *Ibid.*
[101] R. 786.
[102] Julian Hirsch was the only person to object to the 5 minute requirement, R. 766.
[103] See comment of Bruce Harvey, R. 742.
[104] Zenith Radio Corporation maintains that the proposed rule will generate consumer confusion because it permits disclosure of three variables at the option and whim of the manufacturer. The Commission wishes to stress its belief, to the contrary, that permitting the manufacturer the option of disclosing frequency response, distortion and impedance will provide the consumer with the information needed to choose the product which is most suitable to his or her particular needs. Pegging these variables, on the other hand would result in favoring manufacturers at a particular point in the market spectrum.

V 39 187 MAY 3 74 XUM

CHAPTER VIII.—SUMMARY AND CONCLUSION

On the basis of the foregoing considerations and the entire Record of the Trade Regulation Proceeding, including the proceedings to Amend and Revise, the Commission has concluded that the issuance of a Trade Regulation Rule relating to the Advertising of power output of sound power amplification equipment for home entertainment products is required by that Record and is in the public interest and has, therefore, promulgated the Final Rule, herein.

CHAPTER IX.—EFFECTIVE DATE OF FINAL RULE

EIA has noted that advertisements, specification sheets, line folders, catalogs and other promotional materials have different lead times and must be planned and prepared months before they are actually printed and distributed. New product lines are shown between April and June of each year and new models are displayed in late June at the Consumer Electronics Show. Promotional materials for this annual show must be finalized weeks before the products are shown.

At the hearing, EIA–J [106] and IHF [106] urged that the effective date be set at least one year after promulgation of the Rule. Speaking for a major portion of the industry, EIA now urges that if the Rule is not issued until after January 1, 1974, the effective date should be established as six months from the date of its promulgation.[107] The Commission accepts this suggestion as a reasonable solution and, accordingly, directs that the effective date of this Rule shall be six months after the date of promulgation.

[FR Doc.74–10118 Filed 5–2–74;8:45 am]

Title 29—Labor

CHAPTER XVII—OCCUPATIONAL SAFETY AND HEALTH ADMINISTRATION, DEPARTMENT OF LABOR

PART 1952—APPROVED STATE PLANS FOR ENFORCEMENT OF STATE STANDARDS

Approval of Wyoming Plan

1. *Background.* Part 1902 of Title 29 Code of Federal Regulations prescribes procedures under section 18 of the Occupational Safety and Health Act of 1970 (29 U.S.C. 667) whereby the several States may submit for approval under the requirements of that section, plans for the development and enforcement of State occupational safety and health standards.

On January 30, 1973, the State of Wyoming submitted comprehensive developmental occupational safety and health plan in accordance with these procedures and on February 23, 1973, a notice was published in the FEDERAL REGISTER (38 FR 5018) concerning the submission of the plan to the Assistant Secretary and the fact that the question of approval was in issue before him.

The plan designates the Occupational Health and Safety Commission as the agency to be responsible for administering the plan throughout the State. It defines the covered occupational safety and health issues as defined by the Secretary of Labor in § 1902.2(c)(1) of this chapter. Wyoming plans to adopt all Federal occupational safety and health standards except those found in 29 CFR Parts 1915, 1916, 1917, and 1918 (ship repairing, ship building, ship breaking and longshoring). In addition, the State intends to adopt additional vertical standards relating to oil well drilling and servicing not provided by the Federal program. Thereafter, the Commission shall continue to adopt future Federal standards within six months after their promulgation by the Secretary of Labor.

The plan further includes the Wyoming Occupational Health and Safety Act which became law on March 7, 1969, as well as amendments to this legislation which became effective on January 1, 1974, and which are designed to bring the Wyoming Act into conformity with the requirements of Part 1902.

Interested persons were afforded thirty (30) days from the date of publication to submit written comments concerning the plan. Further, interested persons were given an opportunity to request an informal hearing with respect to the plan or any part thereof, upon the basis of substantial objections to the plan's provisions.

Written comments concerning the plan were submitted on behalf of the United States Steel Corporation. There were no requests for an informal hearing.

2. *Issues.* The public comments and the national office review of the plan raised several significant issues which were addressed by the State in numerous supplementary letters which clarify and modify the plan and which have been incorporated as part of it. These supplements included letters from the Wyoming Occupational Health and Safety Department dated April 23, 1973, May 30, 1973, August 28, 1973, August 30, 1973, September 6, 1973, and December 6, 1973. There are also letters from the Governor of the State which clarify Wyoming's review procedures and which contain proposed amendments to the State's Administrative Procedure Act.

In light of these modifications that have been made to the Wyoming program, it is considered appropriate herein to discuss the significant issues which were raised during the approval process.

a. *Employment discrimination.* The first issue raised was Wyoming's proposed provision for protecting employees from discrimination for exercising their rights under the Wyoming Occupational Health and Safety Act. Under the plan as originally submitted the State failed to provide for the relief provided under the Federal Act in section 11(c) including rehiring or reinstatement of an employee to his former position with back pay. In response to such criticism the State is planning to provide this protection to employees in the following manner: under Wyoming's revised procedures an aggrieved employee may file a complaint with the Administrator who shall then make an appropriate investigation. If the Administrator concludes that a case of discrimination does exist he shall send the employee's case file to the Wyoming Fair Employment Practices Commission for action consistent with the State's Fair Employment Practices Act of 1965. The State has agreed to amend this Act in order to make discrimination under the Wyoming Occupational Health and Safety Act an unfair labor practice. The Wyoming Fair Employment Practices Act does grant employees the same relief as is afforded under the Federal Act. Further, the Wyoming Occupational Health and Safety Commission will represent the aggrieved employee before the Fair Employment Practices Commission.

b. *Review procedures*—(1) *Finality of agency decisions.* A second issue was Wyoming's proposed review procedures. Although the Wyoming Act gives employers the right to administrative review of citations, proposed penalties, and abatement periods and judicial review of such agency action is provided pursuant to, title 9 § 276.321 of Wyoming's General Statutes, the Plan stated that the actual assessment and collection of penalties would be determined by the courts. Such proposed court system for the assessment and collection of administrative penalties raised the following questions: Whether in a contested case, where the Wyoming Review Board and reviewing court upholds the citation, proposed penalty, or abatement period, will the court in a subsequent collection proceeding be free to re-open the case and to re-determine any aspects of the case as well as the agency's proposed penalty; in a case where an employer does not contest a citation, proposed penalty, or abatement period before the Review Board will such employer be given another opportunity to contest the citation, proposed penalty or abatement period when the case is brought to trial for collection. The possibility of a complete court trial on the merits before any penalties were deemed final was viewed as unduly extending the period of time for review of citations, proposed penalties, and abatement requirements, and as unnecessarily duplicating procedures. Moreover, it appeared that any hearing before the Review Board would be rendered superfluous for whether or not an employer contested the citation before the Review Board he would still be given the opportunity for a judicial trial, and, even if an employer wanted to contest the proposed penalty, it would be futile to contest it before the Review Commission, for that body seemingly did not have the authority to assess a final penalty.

In response to such concerns, the State clarified and modified its administrative and court procedures in order to meet Federal requirements. The State has agreed to submit amendments to its Administrative Procedures Act to the 1975 session of its State Legislature which amendments will provide as follows: The failure of any person to contest administrative action within the statutory time permitted for filing contested cases shall preclude the right of further administrative review of such agency action or of judicial review; and further, in a contested case the failure of an individual to appeal an administrative decision within

[106] R. 677.
[108] R. 328.
[107] R. 800–801.

the statutory period of time allowed for review shall preclude any further judicial review. Moreover, under the Wyoming Administrative Procedure Act the right of judicial review is already subject to the requirement that administrative remedies be exhausted. Thus, under the Wyoming scheme, like that under the Federal Act, in noncontested cases the citation and proposed penalties issued by the Wyoming Department of Labor are deemed final orders of the Wyoming Review Commission not subject to review by any court or agency. Thus, if an employer does not exercise his right to contest a citation, proposed penalty or abatement period before the Review Board within the 15 day statutory period provided in Wyoming's Rules of Procedure, there can be no further agency or court appeal. In those cases where an employer does contest a citation or proposed penalty before the Review Board and the Board's decision is favorable to the Department and no judicial review is sought by an employer pursuant to § 276.321 of the Wyoming Administrative Procedure Act, the Review Board's decision will be considered a final order not subject to any further court review. The same is true upon any further judicial review. Thus, in any subsequent collection proceedings a court will be unable to reopen the case and litigate on the merits, and in cases where an employer defaults in payment of an assessed penalty, court action pursuant to section 27–279(c) of the Wyoming Occupational Health and Safety Act shall be brought to enforce Commission orders.

(2) *Separation of functions.* A third issue involved the structure of Wyoming's Review Board. The administrative review of citations, proposed penalties and abatement periods will not be accomplished by an independent review commission but rather by the Wyoming Occupational Health and Safety Commission which is the agency with the overall responsibility for administration of the program. Three members of such Commission shall comprise the Review Board, but there will be a clear separation of functions and staff between it and the Commission, thereby satisfying the requirements of the process. This procedure has been approved in the past (see the New Jersey decision, January 26, 1973, 38 FR 2426).

(3) *Employee participation.* A fourth issue concerned section 27–277(g)(vi) of the Wyoming Occupational Health and Safety Act which provides that employees have the right to contest abatement periods contained in notices of violations and to have the opportunity to participate in hearings concerning such abatement periods. It was pointed out to the State that employees must be given the right to participate as parties in all hearings before the Wyoming Review Board. In response to such criticism, the State demonstrated that employees do have the right to participate in any hearings before the Review Board. In section 9–276–25 of the Wyoming Administrative Procedure Act, it is explicitly provided that "• • • any interested person may appear before any agency or its responsible officers or employees for the presentation, adjustment or determination of any issue, request, or controversy in any proceeding • • • or in connection with any agency function." Further, the State's Open Meeting Law, section 9–692–2(b) of the State statutes provides that any member of the public may attend and participate in any public meeting and a hearing before the Wyoming Occupational Health and Safety Review Board is considered a public meeting, thereby permitting employees to participate.

(c) *Variances.* A fifth issue concerned Wyoming's proposed procedures for the granting of temporary variances. In the plan as originally submitted, the State's provision made no allowance for granting employees the opportunity for a hearing pursuant to such variance applications. Second, the length of time that a temporary variance could remain in effect was left to the discretion of the Commission and there was no time limit upon the number of times that a temporary variance could be extended or renewed. The Federal Act provides that a temporary variance may not be in effect for longer than one year and may be renewed no more than two times for limited periods. The State has since amended its rules of procedure to satisfy the Federal requirements for limitations on duration and employee input.

(d) *Enforcement*—(1) *Penalties.* A sixth issue concerned a discrepancy in penalties between section 17(a) of the Federal Act and section 27–280(b) of the Wyoming Act.

Section 17(a) provides as follows:

> Any employer who willfully or repeatedly violates the requirements of section 5 of the Act, any standard, rule or order promulgated pursuant to section 6 of this Act, or of any regulations prescribed pursuant to the Act may be assessed a civil penalty of not more than $10,000 for each violation.

Section 27–280(b) provides as follows:

> Any employer willfully and knowingly violating any of the provisions of this act, any safety and health standards, rules or regulations promulgated under this act or any existing rule or regulation governing the conditions of employment promulgated by the department shall, upon conviction, be punished by a fine of not more than $10,000.

Upon initial examination of the Wyoming provision as contrasted with the corresponding Federal it appeared that Wyoming's statute lacked a penalty for a repeated violation of the Act and that the standard of "willful and knowing" would be more restrictive than the Federal standard of "willful" for such violations. However, the interpretation of such section provided by the State's Attorney General has demonstrated that the Wyoming provision is as effective as the Federal. First, under Wyoming case laws the statutory terms "willful and knowing" are synonymous, therefore not requiring a higher burden of proof than the Federal standard. Further, it has been convincingly demonstrated by the State than an employer who subsequently or repeatedly commits an act after having been penalized does so knowingly and willfully. Based upon the State's interpretation of section 27–280(b), this Wyoming provision is as effective as section 17(a). Further, the State statute provides for a mandatory civil penalty of $10,000 for a willful or repeated violation of the Act while the Federal penalty is discretionary.

(2) *Statute of limitations.* A final area of concern was the plan's provision that notices of violation may not be issued after the expiration of ninety (90) days following the occurrence of any alleged violation unlike the Federal Act which contains a six month time period. The State, however, has shown that the 90-day period will be sufficient time for the issuance of citations and the assessment of penalties. Further, the expiration of the ninety day period does not preclude the assessment of penalties. This provision of the plan will be carefully monitored to ensure the 90 day time period is indeed adequate.

3. *Decision.* After careful consideration of the Wyoming Plan, including the modifications thereof, and comments submitted regarding the plan, the plan is hereby approved under section 18 of the Act and Part 1902.

This decision incorporates requirements of the Act and implementing regulations applicable to State plans generally. It also incorporates intentions as to continued Federal enforcement of Federal standards in areas covered by the plan and the State's Developmental Schedule as set out in §§ 1952.342 and 1952.343 below.

Pursuant to § 1902.20(b)(1)(iii) of Title 29, Code of Federal Regulations the exercise of Federal enforcement authority in Wyoming, will not be diminished. Present priorities for Federal enforcement in Wyoming will continue at least until State standards are promulgated, all administrative regulations are adopted and amendments to the State's Administrative Procedure Act and Fair Employment Practices Act are enacted. Evaluations of the State plan, as implemented, will be made on a continuing basis to assess the appropriate level of Federal enforcement activity. Federal enforcement authority will continue to be exercised to the degree necessary to assure occupational safety and health protection to employees in the State of Wyoming. Part 1952 is amended by adding a new Subpart BB effective upon signature, reading as follows:

Subpart BB—Wyoming

Sec.
1952.340 Description of the plan.
1952.341 Where the plan may be inspected.
1952.342 Level of Federal enforcement.
1952.343 Development schedule.

Subpart BB—Wyoming

§ 1952.340 Description of the plan.

(a) The plan identifies the Wyoming Occupational Health and Safety Commission as the agency to be responsible for administering the plan throughout the State. The Commission will be re-

V 39 187 MAY 3 74 XUM

sponsible for promulgating and enforcing occupational safety and health standards and deciding contested cases, subject to judicial review.

(b) The State program will protect all employees within the State, including those employed by the State and its political subdivisions. Public employees are to be granted the same protections as are afforded employees in the private sector. The State plan does not cover employees of the Federal government or those employees whose working conditions are regulated by Federal agencies other than the United States Department of Labor.

(c) The Wyoming Occupational Health and Safety Act gives the State agency full authority to administer and to enforce all laws, rules, and orders protecting employee safety and health in all places of employment in the State. The legislation provides employer and employee representatives an opportunity to accompany inspectors before or during the physical inspection of any workplace for the purpose of aiding such inspection; adequate safeguards to protect trade secrets; effective sanctions against employers; protection of employees against discharge or discrimination; procedures for prompt restraint or elimination of imminent danger situations; the right to review by employers and employees of alleged violations, abatement periods and proposed penalties; and prompt notice to employers and employees of alleged violations of standards and abatement requirements.

(d) Administrative regulations include procedures for permanent and temporary variances; notice to employees or their representatives when no compliance action is taken as a result of a complaint, including procedures for informal review; information to employees on hazards, precautions, symptoms and emergency treatment; and training and education programs for employers and employees, including an on-site consultation program consistent with the criteria set out in the Washington Plan decision (38 FR 2421).

(e) The State intends to promulgate Federal standards covering all of the issues contained in Parts 1910 and 1926 of this chapter but will not cover those found in Parts 1915, 1916, 1917, and 1918 of this chapter (ship repairing, ship building, ship breaking, and longshoring). The State also plans to adopt additional vertical standards relating to oil well drilling and servicing not provided by the Federal program. Future Federal standards shall be promulgated by the State within six months after promulgation by the Secretary of Labor. In the case of product standards the State has provided assurances that any State product standards will be required by compelling local conditions and will not unduly burden interstate commerce.

(f) The plan sets out goals and provides a timetable for bringing it into full conformity with Part 1902 of this chapter. All personnel employed to carry out the plan are to be hired under the Wyoming Personnel Merit System which conforms to standards established by the United States Civil Service Commission. The plan also contains a detailed description of the resources that are to be devoted to it.

§ 1953.341 Where the plan may be inspected.

A copy of the plan may be inspected and copied during normal business hours at the following locations: U.S. Department of Labor, Office of the Associate Assistant Secretary for Regional Programs, Occupational Safety and Health Administration, Room 800, 1726 M Street, NW., Washington, D.C. 20210; Assistant Regional Director, Occupational Safety and Health Administration, U.S. Department of Labor, P.O. Box 3588, Federal Building, 1961 Stout Street, Denver, Colorado 80202; and the Occupational Health and Safety Department, 200 East 8th Avenue, P.O. Box 2186, Cheyenne, Wyoming 82001.

§ 1953.342 Level of Federal enforcement.

Pursuant to § 1902.20(b) (1) (iii) of this chapter, the present level of Federal enforcement in Wyoming will not be diminished. Among other things, the United States Department of Labor will continue to investigate catastrophes and fatalities, investigate valid complaints under section 8(f) of the Occupational Safety and Health Act of 1970, continue its target industry and target health programs and inspect a cross section of all industries on a random basis at least until standards are promulgated, the Wyoming Administrative Procedure Act and the Fair Employment Practices Act are amended and administrative regulations are adopted. Therefore, Federal enforcement activity will continue to the degree necessary to assure occupational safety and health protection to employees in the State of Wyoming, and evaluation of the State plan as implemented, will be made on a continuing basis to assess the appropriate level of Federal enforcement activity.

§ 1952.343 Developmental schedule.

(a) Adoption of Federal standards as State standards by February 1975.

(b) Administrative regulations for recordkeeping and reporting, variances, posting requirements, employee complaint procedures, inspections under the Act, employee exposure to toxic materials, providing information to employees on their exposure to hazards, personal protective equipment, medical examinations, and monitoring, safeguarding trade secrets, administrative review of citations, proposed penalties, and abatement periods, to become effective by June 1, 1974.

(c) Amendments to the Wyoming Administrative Procedure Act to be submitted to the State Legislature January 1975 and to become effective by May 1, 1975.

(d) Management Information System to be completed August 1, 1974.

(e) Merit staffing for administration of the program to be completed by August 15, 1974.

(f) Amendments to the State's Fair Employment Practices Act to be submitted to the State Legislature which convenes January 14, 1975.

Signed at Washington, D.C., this 25th day of April 1974.

JOHN STENDER,
Assistant Secretary of Labor.

[FR Doc.74-10206 Filed 5-2-74;8:45 am]

Title 40—Protection of Environment

CHAPTER I—ENVIRONMENTAL PROTECTION AGENCY

SUBCHAPTER C—AIR PROGRAMS

PART 60—STANDARDS OF PERFORMANCE FOR NEW STATIONARY SOURCES

Additions and Miscellaneous Amendments

Correction

In FR Doc. 74-4784 appearing at page 9307 as the Part II of the issue of Friday, March 8, 1974, and corrected on page 13776 in the issue of Wednesday, April 17, 1974, on page 13776, "paragraph c." should read as follows:

c. The formula in paragraph (d) should read as follows:

(d) Particulate emission rate shall be determined by:

$c_{sw} = C_s Q_s$ (Metric or English Units)

where:

c_{sw} = Particulate matter mass emissions, mg/hr (English units: lb/hr).
c_s = Particulate matter concentration, mg/m³ (English units: lb/dscf).
Q_s = Volumetric stack gas flow rate, dscm/hr (English units: dscf/hr). Q_s and c_s shall be determined using Methods 2 and 5, respectively.

PART 61—NATIONAL EMISSION STANDARDS FOR HAZARDOUS AIR POLLUTANTS

Asbestos, Beryllium, and Mercury

Pursuant to section 112 of the Clean Air Act, as amended (42 U.S.C. 1857c-7), the Administrator of the Environmental Protection Agency promulgated national emission standards for the hazardous air pollutants asbestos, beryllium, and mercury on April 6, 1973 (38 FR 8820). The subsequent enforcement of these regulations has demonstrated a need for the clarifying revisions which follow. These revisions are necessary to advise the public of how the regulations are being interpreted in Agency enforcement activities. The revisions promulgated herein do not alter the stringency of the regulations.

A change to Subpart A, General Provisions, which applies to all affected sources, is promulgated. The definition of "alternative method" is revised to indicate more clearly that it is not a "reference method" or "equivalent method" and to make the definition consistent with that used in 40 CFR Part 60, Standards of Performance for New Stationary Sources.

The applicability of the asbestos regulation is discussed in the following documents which are available on request from the Emission Standards and Engineering Division, Environmental Protection Agency, Research Triangle Park, North Carolina 27711, Attention: Mr. Don R. Goodwin:

1. Preamble to the proposed regulation (36 FR 23239)
2. Background information document for the proposed regulation (APTD-0753)
3. Preamble to the promulgated regulation (38 FR 8820)
4. Background information document for the promulgated regulation (APTD-1503)

Comments from the owners or operators of affected sources and from Agency regional enforcement personnel have indicated, however, that the intent should be specifically expressed in the text of the regulation. Considering this, the Agency determined that the text of the promulgated regulation should be revised and four definitions are added to clarify the applicability of 40 CFR Part 61, Subpart B, National Emission Standard for Asbestos.

The definition of "commercial asbestos" is added to distinguish between asbestos that is produced as a product and asbestos that occurs as a contaminant ingredient in other materials, and to make it clear that materials that contain asbestos as a contaminant only are not covered. Questions were raised concerning the applicability of the standard to manufacturing operations that use talc and vermiculite. As indicated on page 6 of the background information report for the proposed standards (APTD-0753), talc mines were not covered by the proposed standards; this was also intended to indicate that manufacturing operations that use talc or other materials contaminated with asbestos were not covered by the asbestos standard. In addition, the information available to the Agency at the time of promulgation (April 6, 1973) did not demonstrate that the mining and milling of such materials or manufacturing operations using such materials were major sources of asbestos emissions. The Department of the Interior and the Department of Health, Education and Welfare are studying the health effects of asbestos in talc. The revisions promulgated herein merely clarify the regulations promulgated April 6, 1973, and do not involve prejudgments concerning the outcome of investigations now underway.

Asbestos is also a contaminant in taconite ore. EPA at this time believes that asbestos releases from the milling of such ores should be covered by the hazardous air pollutant regulations and intends in the near future to propose for comment regulations which would accomplish this. Because the revisions here being promulgated are only clarifications of the Agency's intentions at the time the initial hazardous air pollutant regulations for asbestos were published and because they are not being proposed for comment, EPA believes that it is not appropriate to include restrictions on releases of asbestos from taconite milling operations in these revisions.

The regulation promulgated on April 6, 1973, did not include a definition for "asbestos mill" or "manufacturing" operation, and questions arose concerning whether certain operations at these facilities are covered by the regulation, and whether the regulation applies to all milling and manufacturing operations that process ore or materials that contain asbestos. The definition of "asbestos mill" is added to clarify that the regulation covers ore crushing and conveying of asbestos tailings to disposal piles but does not cover open storage areas and asbestos tailings disposal piles. This was explained in the preamble to the promulgated regulations (38 FR 8821) and on pages 30 and 31 of the background information report (APTD-1503). The definition excludes the milling of ores that contain asbestos minerals only as a contaminant as previously discussed under the definition of "commercial asbestos." As noted earlier, the Agency intends to propose regulations covering taconite milling operations.

The definition of "manufacturing" is added to clarify that the regulation applies to only those sources within the specified categories of affected manufacturing facilities that process commercial asbestos into a product. Operations which process (cut, shape, assemble, mix, or otherwise alter) a manufactured product that contains commercial asbestos at a separate location are not intended to be covered by the regulation, and are classified as fabricating rather than manufacturing operations. The information available to EPA prior to promulgation was that new construction sites were the only major sources of asbestos emissions from fabrication operations and that these sources were adequately regulated by Occupational Safety and Health Administration standards. This was explained in the preamble to the promulgated regulation (38 FR 8821) and on page 32 of the background information report (APTD-1503).

Some questions have arisen concerning what operations constitute demolition. The definition of "demolition" is added to clarify that demolition occurs only in situations where load-supporting structural members are wrecked or removed. Accordingly, the standard does not apply to remodeling and renovation operations in which load-supporting structural members are not wrecked.

The time allowed owners or operators to notify the Administrator prior to commencement of a demolition operation is changed from 20 days to 10 days, and the time basis for the notification is clarified to be the postmark date of the notice. Experience has shown that 20 days' notice is not necessary to provide sufficient time for effective enforcement of the regulation, and the shorter time will be more convenient to demolition contractors.

Some questions have arisen concerning whether all of the friable asbestos materials on pipes, boilers, or load-supporting structural members had to be wetted and stripped off prior to demolition. The wording in § 61.22(d) (2) (i) of the promulgated regulation states that the friable asbestos material has to be removed, but does not specify the procedure to be used. A statement is added to clarify that it is not necessary for friable asbestos material to be removed or stripped from boilers, pipes, or load-supporting structural members prior to the removal of these items as units or in sections, provided that the asbestos material exposed during removal is wetted. As required in § 61.22(d) (2) (iii), such units or sections must subsequently be carefully lowered or taken to the ground level.

A paragraph is added to clarify that the regulation is not violated when uncombined water is the sole reason a source fails to meet the no-visible-emissions requirement. This makes the no-visible-emissions regulation consistent with other similar Agency regulations.

The Agency is presently studying the extent of asbestos emission from dumps of asbestos tailings and open storage of asbestos ores, disposal of asbestos waste material, and asbestos fabricating operations. Beryllium and mercury emissions resulting from the incineration of sewage sludge are also being studied. These investigations are nearing completion and the Agency will determine whether it is necessary to regulate these sources of hazardous pollutants to provide an ample margin of safety to protect the public health. The revisions to the regulations promulgated herein merely clarify the regulations promulgated April 6, 1973, and do not preclude subsequent revisions to the regulations as indicated by the studies described above.

The Agency finds that good cause exists for not proposing these revisions and for making them effective upon publication since (1) the revisions make certain clarifications, but do not change the substance of the national emission standards for asbestos, beryllium, and mercury; and (2) there is a pressing need to promulgate these revisions so that the asbestos standard can be uniformly interpreted by industry personnel and enforced by the Agency. Therefore, the Administrator has determined that it is unnecessary to publish a notice of proposed rulemaking or delay the effective date of this amendment and for the reasons cited has not done so.

The amendment of these regulations is promulgated pursuant to section 112 of the Clean Air Act, as amended (42 U.S.C. 1857c-7), and is effective upon promulgation.

Dated: April 29, 1974.

JOHN QUARLES,
Acting Administrator.

Part 61, Chapter I, Title 40, Code of Federal Regulations is amended by revising Subparts A and B as follows:

Subpart A—General Provisions

1. Section 61.02 is amended by revising paragraph (c) to read as follows:

V 39 N 87 MAY 3 74 XUM

§ 61.02 Definitions.

• • • • •

(c) "Alternative method" means any method of sampling and analyzing for an air pollutant which is not a reference method or an equivalent method but which has been demonstrated to the Administrator's satisfaction to produce, in specific cases, results adequate for his determination of compliance.

• • • • •

Subpart B—National Emission Standard for Asbestos

2. Section 61.21 is amended by adding paragraphs (g), (h), (i), and (j). The added paragraphs read as follows:

§ 61.21 Definitions.

• • • • •

(g) "Asbestos mill" means any facility engaged in the conversion or any intermediate step in the conversion of asbestos ore into commercial asbestos. Outside storage of asbestos materials is not considered a part of such facility.

(h) "Commercial asbestos" means any variety of asbestos which is produced by extracting asbestos from asbestos ore.

(i) "Manufacturing" means the combining of commercial asbestos, or in the case of woven friction products the combining of textiles containing commercial asbestos, with any other material(s), including commercial asbestos, and the processing of this combination into a product as specified in § 61.22(c).

(j) "Demolition" means the wrecking or removal of any load-supporting structural member.

3. Section 61.22 is amended by revising paragraphs (a), (d)(1), (d)(2)(i), and (d)(4), and by adding paragraph (g). The revised and added paragraphs read as follows:

§ 61.22 Emission standard.

(a) Asbestos mills: There shall be no visible emissions to the outside air from any asbestos mill except as provided in paragraph (f) of this section.

• • • • •

(d) • • •

(1) Written notice of intention to demolish shall be provided to the Administrator by the owner or operator of the demolition operation. Such notice shall be postmarked at least 10 days prior to commencement of such demolition, or anytime prior to commencement of demolition subject to paragraph (d)(4) of this section. Such notice shall include the following information:

(i) Name of owner or operator.

(ii) Address of owner or operator.

(iii) Description of the building, structure, facility, or installation to be demolished.

(iv) Address or location of the building, structure, facility or installation.

(v) Scheduled starting and completion dates of demolition.

(vi) Method of demolition to be employed.

(vii) Procedures to be employed to meet the requirements of this paragraph.

(2) • • •

(i) Friable asbestos materials, used to insulate or fireproof any boiler, pipe, or load-supporting structural member, shall be wetted and removed from any building, structure, facility, or installation subject to this paragraph before wrecking of load-supporting structural members is commenced. Boilers, pipe, or load-supporting structural members that are insulated or fireproofed with friable asbestos materials may be removed as units or in sections without stripping or wetting, except that where the boiler, pipe, or load-supporting structural member is cut or disjointed, the exposed friable asbestos materials shall be wetted. Friable asbestos debris shall be wetted adequately to insure that such debris remains wet during all stages of demolition and related handling operations.

• • • • •

(4) Any owner or operator of a demolition operation who intends to demolish a building, structure, facility, or installation to which the provisions of this paragraph would be applicable but which has been declared by proper State or local authority to be structurally unsound and which is in danger of imminent collapse is exempt from the requirements of this paragraph other than the reporting requirements specified by paragraph (d)(1) of this section and the wetting of friable asbestos debris as specified by paragraph (d)(2)(i) of this section.

• • • • •

(g) Where the presence of uncombined water is the sole reason for failure to meet the no-visible-emission requirement of paragraphs (a), (c), or (e) of this section, such failure shall not be a violation of such emission requirements.

[FR Doc.74-10252 Filed 5-2-74;8:45 am]

SUBCHAPTER D—WATER PROGRAMS

PART 108—EMPLOYEE PROTECTION HEARINGS

Establishment of Procedures; Correction

On page 12865 of the FEDERAL REGISTER of Tuesday, April 9, 1974, there appeared a notice adopting, with changes, regulations proposed on November 23, 1973 (38 FR 32268). Only § 108.3 and 108.4 of the proposed regulations were changed; these sections were set forth in the notice of adoption. However, §§ 108.1, 108.2, 108.5, 108.6, and 108.7 should have been reprinted at the same time. This notice corrects the notice of April 9 by reprinting the text of the entire regulation as promulgated.

Dated: April 29, 1974.

JOHN QUARLES,
Acting Administrator.

Sec.
108.1 Applicability.
108.2 Definitions.
108.3 Request for investigation.
108.4 Investigation by Regional Administrator.
108.5 Procedure.
108.6 Recommendations.
108.7 Hearing before Administrator.

AUTHORITY: Sec. 507(e), Pub. L. 92-500, 86 Stat. 816 (33 U.S.C. 1251 et seq.)

§ 108.1 Applicability.

This part shall be applicable to investigations and hearings required by section 507(e) of the Federal Water Pollution Control Act, as amended, 33 U.S.C. 1251 et seq. (Pub. L. 92-500).

§ 108.2 Definitions.

As used in this part, the term:

(a) "Act" means the Federal Water Pollution Control Act, as amended;

(b) "Effluent limitation" means any effluent limitation which is established as a condition of a permit issued or proposed to be issued by a State or by the Environmental Protection Agency pursuant to section 402 of the Act; any toxic or pretreatment effluent standard established under section 307 of the Act; any standard of performance established under section 306 of the Act; and any effluent limitation established under section 302, section 316, or section 318 of the Act.

(c) "Order" means any order issued by the Administrator under section 309 of the Act; any order issued by a State to secure compliance with a permit, or condition thereof, issued under a program approved pursuant to section 402 of the Act; or any order issued by a court in an action brought pursuant to section 309 or section 505 of the Act.

(d) "Party" means an employee filing a request under § 108.3, any employee similarly situated, the employer of any such employee, and the Regional Administrator or his designee.

(e) "Administrator" or "Regional Administrator" means the Administrator or a Regional Administrator of the Environmental Protection Agency.

§ 108.3 Request for investigation.

Any employee who is discharged or laid-off, threatened with discharge or lay-off, or otherwise discriminated against by any person because of the alleged results of any effluent limitation or order issued under the Act, or any representative of such employee, may submit a request for an investigation under this part to the Regional Administrator of the region in which such discrimination is alleged to have occurred.

§ 108.4 Investigation by Regional Administrator.

Upon receipt of any request meeting the requirements of § 108.3, the Regional Administrator shall conduct a full investigation of the matter, in order to determine whether the request may be related to an effluent limitation or order under the Act. Following the investigation, the Regional Administrator shall notify the employee requesting the investigation (or the employee's representative) and the employer of such employee, in writing, of his preliminary findings and conclusions. The employee, the representative of such employee, or the employer may within fifteen days following receipt of the preliminary findings and conclusions of the Regional Administrator request a hearing under this part. Upon receipt of such a request, the Regional Administrator, with the concurrence of the Chief Administrative Law Judge, shall publish notice of a hearing to be held not less than 30 days following the date of such publication where he determines that there are factual issues concerning the existence of the alleged discrimination or its relationship to an effluent limitation or order under the Act. The notice shall specify a date before which any party (or representative of such party) may submit a request to appear.

§ 108.5 Procedure.

Any hearing held pursuant to this part shall be of record and shall be conducted according to the requirements of 5 U.S.C. 554. The Administrative Law Judge shall conduct the hearing in an orderly and expeditious manner. By agreement of the parties, he may dismiss the hearing. The Administrative Law Judge, on his own motion, or at the request of any party, shall have the power to hold prehearing conferences, to issue subpoenas for the attendance and testimony of witnesses and the production of relevant papers, books, and documents, and he may administer oaths. The Regional Administrator, and any party submitting a request pursuant to § 108.3 or § 108.4, or counsel or other representative of such party or the Regional Administrator, may appear and offer evidence at the hearing.

§ 108.6 Recommendations.

At the conclusion of any hearing under this part, the Administrative Law Judge shall, based on the record, issue tentative findings of fact and recommendations concerning the alleged discrimination, and shall submit such tentative findings and recommendations to the Administrator. The Administrator shall adopt or modify the findings and recommendations of the Administrative Law Judge, and shall make copies of such findings and recommendations available to the complaining employee, the employer, and the public.

§ 108.7 Hearing before Administrator.

At his option, the Administrator may exercise any powers of an Administrative Law Judge with respect to hearings under this part.

Title 41—Public Contracts and Property Management

CHAPTER 14—DEPARTMENT OF THE INTERIOR

PART 14-63—AUDIT

Policies and Procedures

Pursuant to the authority of the Secretary of the Interior contained in 5 U.S.C. 301, Part 14-63 of Chapter 14 of Title 41 of the Code of Federal Regulations is hereby amended as follows:

1. The Audit of Modifications clause in § 14-63.104-2 and the first paragraph of § 14-63.104-3 are revised to conform with changes in 41 CFR 1-3.807-3 involving cost and pricing data published in the FEDERAL REGISTER of January 14, 1974 (39 FR 1751-1757).

2. Section 14-63.106 is revised to provide that upon written justification and request of the procuring activity, the Director of Management Services, with the concurrence of the Director of Audit and Investigation, may limit or waive the application of specific contract audit requirements.

3. In §§ 14-63.103(b)(1), and 14-63.103(d), the reference to "§ 1-3.814-2(e)" is changed to "§ 1-3.814-2(c)."

4. Editorial changes have been made to Subpart 14-63.1 to change the name "Office of Survey and Review" to "Office of Audit and Investigation."

It is the general policy of the Department of the Interior to allow time for interested parties to participate in the rulemaking process. However, the amendments herein are entirely administrative in nature. Therefore, the public rulemaking process is waived in this instance. Part 14-63 is amended to read as stated below effective on April 15, 1974.

RICHARD R. HITE,
Deputy Assistant Secretary of the Interior.

APRIL 29, 1974.

§ 14-63.000 Scope of part.

This part prescribes policies and procedures pertaining to audit of proposals, contracts, and modifications.

Subpart 14-63.1—Audit of Contractor's Records

§ 14-63.101 Audit responsibility.

The Office of Audit and Investigation conducts or arranges audits of contractors' records to the extent that such audits are required by law, regulation, or sound business judgment. Such audits include the conduct of periodic or requested audits of contractors as are warranted by such factors as the amount of the contract, the financial condition, integrity, and reliability of the contractor, prior audit experience, and the adequacy of the contractor's accounting system and other internal controls. The audits also include reviews of cost or pricing data for contractors' proposals for negotiated contracts (see § 1-3.809 of this title). In order that the Government may benefit to the maximum extent from such audits, a coordinated and cooperative effort shall be made by contracting officers, technical specialists, and finance and audit personnel. It is the responsibility of the contracting officer to include appropriate audit clauses in all contracts that are subject to audit and to obtain an audit of proposals and contract modifications (see § 14-63.103).

§ 14-63.102 Purpose of audit.

In addition to the provisions of § 1-3.809 of this title, contract audit as a pricing aid, audits are conducted to advise and make recommendations to the contracting officer concerning:

(a) Propriety of amounts paid, or to be paid, to contractors where such amounts are based on a cost (including modifications for all types of contracts) or time determination or on variable features related to the results of contractors' operations;

(b) Adequacy of measures taken by contractors regarding the use and safeguarding of Government assets under their custody or control;

(c) Compliance by contractors with contractual provisions having financial implications, such as progress payments, advance payments, guaranteed loans, cash return provisions, and price adjustments;

(d) Reasonableness of contractors' settlement proposals in termination of contracts;

(e) Compliance with contract provisions; and

(f) Contractors' financial condition and ability to perform or to continue to perform under Government contracts.

§ 14-63.103 Types of contracts subject to audit.

(a) A preaward audit as required by § 1-3.809 of this title shall be made for each negotiated proposal, contract, and modification where the cost to the Government exceeds or may exceed $100,000.

(b) The following types of contracts estimated to cost the Federal Government in excess of $25,000, shall include the examination of records clause set forth in § 14-63.104-1:

(1) Cost-reimbursement type contracts (see §§ 1-3.405 and 1-3.814-2(c) of this title);

(2) Advertised or negotiated contracts involving the use or disposition of Government-furnished property;

(3) Where advance payments, progress payments based on costs, or guaranteed loans are to be made;

(4) Contracts for supplies or services containing a price warranty or price reduction clause;

(5) Contracts or leases involving income to the Government where the income is based on operations that are under the control of the contractor or lessee;

(6) Fixed-price contracts with escalation (see §§ 1-2.104-3 and 1-3.404-3 of this title), incentives (see §§ 1-3.404-4 and 1-3.407 of this title), or redetermination (see §§ 1-3.404-5 and 1-3.404-7 of this title);

(7) Requirements and indefinite quantity (call-type) contracts (see §§ 1-2.104-4 and 1-3.409 of this title);

(8) Time and materials and labor-hours contracts (see §§ 1-3.406-1 and 1-3.406-2 of this title); and

(9) Leases where (i) the rental is subject to adjustment (such as for a change in real estate taxes or service costs) or (ii) where the rental is dependent upon actual costs.

(c) In some of the contracts listed in paragraph (b) of this section, it may be appropriate to contractually emphasize the scope or extent of any audit, such as with respect to (1) the use or disposition of Government-furnished property or (2) variable or other special features of the contract, e.g., price escalation and compliance with the price warranty or price reduction clauses. In such cases, the contract clause in § 14-63.104-1 may be appropriately modified with the written concurrence of the Office of Audit and

V 39 I 87 MAY 3 74 XUM

Investigation and the Office of Management Services.

(d) Inclusion in contracts of the clause in § 14–63.104–1 (whether or not modified) does not affect in any way the requirements for (1) use in negotiated fixed-price contracts exceeding $2,500 of the Examination of Records clause permitting review of contractor books and records by the Comptroller General (see § 1–3.814–2(c) of this title) or (2) the clauses on audit and records pertaining to the verification of cost or pricing data (see § 1–3.814–2 of this title).

(e) Contracts and contract modifications aggregating more than $100,000 shall not be divided into separate transactions to avoid the audit requirements.

(f) A request for audit in accordance with paragraph (a) of this § 14–63.103, accompanied by a copy of the applicable proposal, contract, modification, and other pertinent information, will be submitted to the Office of Audit and Investigation.

(g) A notice for each contract or modification entered into of the types described in paragraph (b) of this § 14–63.103 and § 14–63.104–2 shall be forwarded to the Office of Audit and Investigation within 15 days after the effective date of the contract. The notice shall include the following information:

(1) Contract identifying number
(2) Contractor's name and address
(3) A brief description of the work involved
(4) Effective date of the document
(5) Completion date (estimated) of the work involved
(6) Estimated dollar amount.

In addition, a copy of a notice of termination of contracts of the types described in this § 14–63.103 shall be forwarded to the Office of Audit and Investigation within 15 days after effective date of termination. Such notice shall contain the contract number and the contractor's name and address and the estimated dollar amount of the costs incurred by the contractor as of the effective date of termination.

§ 14–63.104 Contract clauses.

The following contract clauses are prescribed for use as indicated in this § 14–63.104.

§ 14–63.104–1 Examination of records.

The following contract clause is prescribed for use in contracts listed in § 14–63.103(b) and any negotiated contract which exceeds $2,500 whenever the Examination of Records by the Comptroller General clause in § 1–7.103–3 of this title is not required as set forth in § 1–3.814–2(c) of this title:

EXAMINATION OF RECORDS

(a) (1) The Contractor agrees to maintain books, records, documents, and other evidence pertaining to the costs and expenses of this contract (hereinafter collectively called "records") to the extent and in such detail as will properly reflect all net costs, direct and indirect, of labor, materials, equipment, supplies and services, and other costs and expenses of whatever nature for which reimbursement is claimed under the provisions of this contract.

(2) The Contractor agrees to make available at the office of the Contractor at all reasonable times during the period set forth in subparagraph (4) below any of the records for inspection, audit or reproduction by any authorized representative of the Comptroller General, Secretary of the Interior, and the Contracting Officer.

(3) In the event the Comptroller General or any of his duly authorized representatives determine that his audit of the amounts reimbursed under this contract as transportation charges will be made at a place other than the office of the Contractor, the Contractor agrees to deliver, with the reimbursement voucher covering such charges or as may be otherwise specified within two years after reimbursement of charges covered by any such voucher, to such representative as may be designated for that purpose through the Contracting Officer, such documentary evidence in support of transportation costs as may be required by the Comptroller General or any of his duly authorized representatives.

(4) Except for documentary evidence delivered to the Government pursuant to subparagraph (3) above, the Contractor shall preserve and make available his records (i) until expiration of three years after final payment under this contract or of the time periods for the particular records specified in Part 1–20 of the Federal Procurement Regulations (41 CFR Part 1–20), whichever expires earlier, and (ii) for such longer period, if any, as is required by applicable statutes, by any other clause of this contract, or by (A) or (B) below:

(A) If this contract is completely or partially terminated, the records relating to the work terminated shall be preserved and made available for a period of three years from the date of any resulting settlement.

(B) Records which relate to (i) appeals under the Disputes clause of this contract, (ii) litigation or the settlement of claims arising out of the performance of this contract, or (iii) costs and expenses of this contract as to which exception has been taken by the Comptroller General, Secretary of the Interior, or the Contracting Officer, or any of their duly authorized representatives, shall be retained by the Contractor until such appeals, litigation, claims, or exceptions have been disposed of.

(5) Except for documentary evidence delivered pursuant to subparagraph (3) above, and the records described in subparagraph (4)(B) above, the Contractor may in fulfillment of his obligation to retain his records as required by this clause substitute photographs, microphotographs, or other authentic reproductions of such records, after the expiration of two years following the last day of the month of reimbursement to the Contractor of the invoice or voucher to which such records relate, unless a shorter period is authorized by the Contracting Officer with the concurrence of the Comptroller General or his duly authorized representative.

(6) The provisions of this paragraph (a), including this subparagraph (6), shall be applicable to and included in each subcontract hereunder which is on a cost, cost-plus-a-fixed-fee, time-and-material or labor-hours basis.

(b) The Contractor further agrees to include in each of his subcontracts hereunder, other than those set forth in subparagraph (a)(6) above, a provision to the effect that the subcontractor agrees that the Comptroller General, the Secretary of the Interior, and the Contracting Officer, or any of their duly authorized representatives, shall, until the expiration of three years after final payment under the subcontract, or of the time periods for the particular records specified in Part 1–20 of the Federal Procurement Regulations (41 CFR Part 1–20), whichever expires earlier, have access to and the right to examine any directly pertinent books, documents, papers, and records of such subcontractor, involving transactions related to the subcontractor. The term "subcontract," as used in this paragraph (b) only, excludes (i) purchase orders not exceeding $2,500, and (ii) subcontracts or purchase orders for public utility services at rates established for uniform applicability to the general public.

§ 14–63.104–2 Audit of contract modifications.

The following clause shall be included in all contracts where the cost to the Government is estimated to exceed $100,000, except those listed in § 14–63.103:

AUDIT OF MODIFICATIONS

The "Examination of Records of Contract Modifications" clause contained in 41 CFR 14–63.104–3 shall be included in every document modifying the price to the Government when the pricing of any modification to a formally advertised or negotiated contract (whether or not cost or pricing data was required under the initial contract) involves aggregate increases and/or decreases, plus applicable profits, in excess of $100,000.

§ 14–63.104–3 Examination of records of contract modifications.

The following clause is prescribed for use in contract modifications involving aggregate increases and/or decreases plus applicable profits in excess og $100,000 in accordance with the "Audit of Modifications" clause in § 14–63.104–2:

EXAMINATION OF RECORDS OF CONTRACT MODIFICATIONS

(a) For the purpose of verifying that the cost or pricing data submitted in conjunction with this contract modification were accurate, complete and current, the Secretary and the Contracting Officer or any of their authorized representatives, shall, until the expiration of 3 years from the date of final payment under the contract of which this modification is a part, or of the time periods for the particular records specified in Part 1–20 of the Federal Procurement Regulations (41 CFR Part 1–20) whichever expires earlier, have the right to examine those books, records, documents, papers and other supporting data which involve transactions related to this modification or which will permit adequate evaluation of the cost or pricing data submitted, along with the computations and projections used therein.

(b) If the contract of which this modification is a part is completely or partially terminated and the work so terminated is included in this modification the records relating thereto shall be preserved and made available for 3 years from the date of any resulting final settlement.

(c) If the records concerning this modification relate to (1) appeals under the contract "Disputes" clauses, (2) litigation or settlement of claims arising out of the performance of the contract, or (3) costs and expenses of this contract as to which the Contracting Officer or his authorized representative have taken exception, they shall be retained by the Contractor until such appeals, litigation, claims, or exceptions have been disposed of.

§ 14–63.105 Payments under contracts subject to audit.

§ 14–63.105–1 Submission and processing of invoices or vouchers.

(a) Contractors shall be required to submit invoices or vouchers as directed by the contract provisions. The processing of invoices or vouchers prior to payment for work or services rendered shall include a review by the contracting officer, or his designated representative, to determine that the nature of items and amounts claimed are in consonance with the contract terms, represent prudent business transactions, and are within any stipulated contractual limitations. If the contractor has not deducted from his claim amounts which are questionable or which are required to be withheld, the contracting officer shall make the required deduction, except as provided in § 14–63.105–2.

(b) Provisional approval by the contracting officer of any payment, including any specific approval as to the nature or amount of a cost shall be noted on (or attached to) the invoice or voucher (see, for example, § 1–15.107 of this title regarding advance understandings on particular cost items). The invoice or voucher shall be forwarded to the appropriate accounting center and retained therein after certification and scheduling to a disbursing office for payment.

§ 14–63.105–2 Action upon receipt of an audit report.

Audit reports shall be furnished to the contracting officer. Upon receipt of an audit report, the contracting officer shall, pursuant to contract terms, determine the allowability of all costs covered by audit giving full consideration to the auditor's recommendations. Where the contracting officer is in doubt or questions the recommendations of the auditor, deductions need not be made from invoices or vouchers for provisional payments. The contracting officer in such cases, however, shall confer with the auditor and other appropriate Government personnel (such as a price specialist or legal counsel) to determine what further action should be taken regarding the items of cost in question. If the contracting officer disagrees with the audit recommendations, the contracting officer shall prepare a statement for the contract file to support and justify his decision and for informational purposes shall forward a copy of such statement to the Office of Audit and Investigation. The contracting officer shall also furnish a written notice to the Office of Audit and Investigation stating the action taken to recover questioned costs in which the contracting officer concurs with the audit recommendations. Such notices, as well as copies of statements pertaining to non-concurrence with audit recommendations, shall be forwarded to the Office of Audit and Investigation within 60 calendar days following issuance of the corresponding audit reports. (See also § 1–3.811 of this title.)

§ 14–63.105–3 Suspensions and disapprovals of amounts claimed.

The contracting officer shall notify the appropriate certifying officer in writing when amounts claimed for payment are (a) suspended tentatively, (b) disapproved as not being allowable according to contract terms, or (c) not reasonably incident or allowable to performance of the contract. Such notice by the contracting officer shall be the basis for the issuance by the certifying officer of a statement to be attached to each copy of the invoice or voucher from which the deduction has been made, explaining the reasons for the deduction.

§ 14–63.106 Waiver.

Upon written justification and request of the procuring activity, the Director of Management Services, with the concurrence of the Director of Audit and Investigation, may limit or waive the application of specific contract audit requirements in individual cases such as where the possible cost/benefits ratio of the audit do not warrant the assignment of audit resources or where audit resources are unavailable: *Provided*, That the stated urgency of a proposed procurement or other contract action shall not alone be justification for such a waiver: *And provided*, The waiver is made within the terms of the Federal Procurement Regulations. As much time as possible should be allowed by contracting officers for the audit work. Except under unusual circumstances, at least 30 days should be allowed for the review of the contractors' proposals pursuant to § 1–3.809 of this title.

Title 49—Transportation

CHAPTER X—INTERSTATE COMMERCE COMMISSION

SUBCHAPTER A—GENERAL RULES AND REGULATIONS

[2nd Rev. S. O. 1174]

PART 1033—CAR SERVICE

Distribution of Boxcars

At a session of the Interstate Commerce Commission, Railroad Service Board, held in Washington, D.C., on the 30th day of April 1974.

It appearing, that an acute shortage of plain boxcars exists on the Illinois Central Gulf Railroad Company; that shippers located on lines of this carrier are being deprived of such cars required for loading, resulting in a severe emergency; that present rules, regulations, and practices with respect to the use, supply, control, movement, distribution, exchange, interchange, and return of boxcars owned by this railroad are ineffective. It is the opinion of the Commission that an emergency exists requiring immediate action to promote car service in the interest of the public and the commerce of the people. Accordingly, the Commission finds that notice and public procedure are impracticable and contrary to the public interest, and that good cause exists for making this order effective upon less than thirty days' notice.

It is ordered, That:

§ 1033.1174 Service Order No. 1174.

(a) *Distribution of boxcars.* Each common carrier by railroad subject to the Interstate Commerce Act shall observe, enforce, and obey the following rules, regulations, and practices with respect to its car service:

(1) Return to owner empty, except as otherwise authorized in paragraphs (2) or (6) herein, all plain boxcars which are listed in the Official Railway Equipment Register, I.C.C. R.E.R., No. 391, issued by W. J. Trezise, or reissues thereof, as having mechanical designation XM, bearing reporting marks issued to the Illinois Central Gulf Railroad Company (ICG).

(2) Boxcars described in paragraph (1) herein may be loaded only to stations on the lines of the car owner or to any station which is a junction with the car owner. After unloading at a junction with the car owner, such cars shall be delivered to the car owner at that junction, either loaded or empty.

(3) Plain boxcars described in paragraph (1) include both plain boxcars in general service and plain boxcars assigned to the exclusive use of a specified shipper.

(4) Junction points with the ICG shall be those listed by the ICG in its specific registration in the Official Railway Equipment Register, I.C.C. R.E.R., No. 391, issued by W. J. Trezise, or successive issues thereof, under the heading "Freight Connections and Junction Points."

(5) No common carrier by railroad subject to the Interstate Commerce Act shall accept from shipper any loaded boxcar for movements contrary to the provisions of paragraph (2) or (6) of this section.

(6) *Exception:* To alleviate hardships or inequities, exceptions to this order may be authorized to the carrier by the Railroad Service Board, Interstate Commerce Commission, Washington, D.C. Requests for such exceptions may be made only by carriers.

(b) *Application.* The provisions of this order shall apply to intrastate, interstate, and foreign commerce.

(c) *Effective date.* This order shall become effective at 11:59 p.m., April 30, 1974.

(d) *Expiration date.* This order shall expire at 11:59 p.m., May 31, 1974, unless otherwise modified, changed, or suspended by order of this Commission.

(Secs. 1, 12, 15, and 17(2), 24 Stat. 379, 383, 384, as amended; (49 U.S.C. 1, 12, 15, and 17 (2)). Interprets or applies Secs. 1(10–17), 15 (4), and 17(2), 40 Stat. 101, as amended, 54 Stat. 911; (49 U.S.C. 1(10–17), 15(4), and 17(2)))

V 39 187
MAY 3 74
XUM

It is further ordered, That a copy of this order and direction shall be served upon the Association of American Railroads, Car Service Division as agent of all railroads subscribing to the car service and car hire agreement under the terms of that agreement, and upon the American Short Line Railroad Association; and that notice of this order be given to the general public by depositing a copy in the Office of the Secretary of the Commission at Washington, D.C., and by filing it with the Director, Office of the Federal Register.

By the Commission, Railroad Service Board.

[SEAL] ROBERT L. OSWALD,
Secretary.

[FR Doc.74-10244 Filed 5-2-74;8:45 am]

[S. O. 1178, Amdt. 1]

PART 1033—CAR SERVICE

Distribution of Covered Hopper Cars

At a session of the Interstate Commerce Commission, Railroad Service Board, held in Washington, D.C., on the 29th day of April, 1974.

Upon further consideration of Service Order No. 1178 (39 F.R. 10590) and good cause appearing therefor:

It is ordered, That: § *1033.1178 Service Order No. 1178* Distribution of covered hopper cars be, and it is hereby, amended by substituting the following paragraph (e) for paragraph (e) thereof:

(e) *Retention of cars in service and return to owners*—(1) *Retention of cars in service.* Empty covered hoppers sent by the owner to the SCL as required herein shall be returned empty to the SCL via reverse of loaded route for subsequent shipments of fertilizer originating at origins in Florida, until their removal is authorized by this Commission or until this order expires or is vacated. Cars which must be removed from active service because of mechanical defects must be replaced by the car owner in the manner provided in paragraph (c) for delivery of cars to the SCL. The car owner must notify both this Commission and the transportation officer of the SCL the initial and number of the car removed because of mechanical defects and the initial and number of the replacement car, together with the dates of removal and replacement.

(2) *Return of cars to owner.* Waybill instructions on loaded cars no longer required for empty return to the SCL may be endorsed "When empty, return to car owner." When waybills are so endorsed cars shall be returned to owner in the manner provided by Car Service Rules 1 or 2 or moved as otherwise directed by the car owner.

Effective date. This amendment shall become effective at 11:59 p.m., April 30, 1974.

(Secs. 1, 12, 15, and 17(2), 24 Stat. 379, 383, 384, as amended; (49 U.S.C. 1, 12, 15, and 17(2)). Interprets or applies Secs. 1(10-17), 15(4), and 17(2), 40 Stat. 101, as amended, 54 Stat. 911; (49 U.S.C. 1(10-17), 15(4), and 17(2)))

It is further ordered, That copies of this amendment shall be served upon the Association of American Railroads, Car Service Division, as agent of all railroads subscribing to the car service and car hire agreement under the terms of that agreement, and upon the American Short Line Railroad Association; and that notice of this amendment be given to the general public by depositing a copy in the Office of the Secretary of the Commission at Washington, D.C., and by filing it with the Director, Office of the Federal Register.

By the Commission, Railroad Service Board.

[SEAL] ROBERT L. OSWALD,
Secretary.

[FR Doc. 74-10243 Filed 5-2-74;8:45 am]

Title 9—Animals and Animal Products

CHAPTER I—ANIMAL AND PLANT HEALTH INSPECTION SERVICE, DEPARTMENT OF AGRICULTURE

SUBCHAPTER C—INTERSTATE TRANSPORTATION OF ANIMALS (INCLUDING POULTRY) AND ANIMAL PRODUCTS; EXTRAORDINARY EMERGENCY REGULATION OF INTRASTATE ACTIVITIES

PART 78—BRUCELLOSIS

Subpart D—Designation of Modified Certified Brucellosis Areas, Specifically Approved Stockyards, and Slaughtering Establishments

MODIFIED CERTIFIED BRUCELLOSIS AREAS

The following counties were deleted from the list of Modified Certified Brucellosis Areas in 9 CFR 78.13 on the specified dates: Jo Daviess and Stephenson Counties in Illinois on April 26, 1974; and Lubbock County in Texas on April 26, 1974. Since said dates, it has been determined that these counties again come within the definition of § 78.1(l); and therefore, they have been redesignated as Modified Certified Brucellosis Areas.

Accordingly, § 78.13 of said regulations designating Modified Certified Brucellosis Areas is hereby revised to read as follows:

§ 78.13 **Modified Certified Brucellosis Areas.**

(a) All States of the United States are hereby designated as Modified Certified Brucellosis Areas except Missouri, Oklahoma, and Texas.

(b) The following States are hereby designated as Modified Certified Brucellosis Areas except for the counties named:

(1) Missouri except Sullivan County.

(2) Oklahoma except Muskogee County.

(3) Texas except Kaufman and Washington Counties.

(Secs. 4-7, 23 Stat. 32, as amended, secs. 1 and 2, 32 Stat. 791-792, as amended; sec. 3, 33 Stat. 1265, as amended; sec. 2, 65 Stat. 693; and secs. 3 and 11, 76 Stat. 130, 132; (21 U.S.C. 111-113, 114a-1, 115, 117, 120, 121, 125, 134b, 134f); 37 FR 28464, 28477, 38 FR 19141, 9 CFR 78.16).

Effective date. The foregoing amendment shall become effective May 3, 1974.

The amendment imposes certain restrictions necessary to prevent the spread of brucellosis in cattle and relieves certain restrictions presently imposed. It should be made effective promptly in order to accomplish its purpose in the public interest and to be of maximum benefit to persons subject to the restrictions which are relieved. It does not appear that public participation in this rulemaking proceeding would make additional relevant information available to the Department.

Accordingly, under the administrative procedure provisions of 5 U.S.C., it is found upon good cause that notice and other public procedure with respect to the amendment are impracticable, unnecessary, and contrary to the public interest, and good cause is found for making it effective less than 30 days after publication in the FEDERAL REGISTER.

Done at Washington, D.C., this 30th day of April 1974.

PIERRE A. CHALOUX,
Acting Deputy Administrator, Veterinary Services, Animal and Plant Health Inspection Service.

Title 17—Commodity and Securities Exchanges

CHAPTER II—SECURITIES AND EXCHANGE COMMISSION

[Release No. SIPA-5A]

PART 240—GENERAL RULES AND REGULATIONS, SECURITIES EXCHANGE ACT OF 1934

Miscellaneous Amendments

On July 25, 1973, in SIPA Release No. 5, which was published in the FEDERAL REGISTER for August 7, 1973 at 38 FR 21250, the Securities and Exchange Commission announced the adoption of the first of its rules and a form under the Securities Investor Protection Act of 1970. It was intended at that time that the rules under the SIPA would constitute Subpart B of Part 240 of Title 17 of the Code of Federal Regulations. Through an oversight the following technical amendment to Part 240 to accomplish this purpose was omitted from the release and is set forth below.

Commission action. Pursuant to the authority cited in Release No. SIPA-5 as published at 38 FR 21250, the Securities and Exchange Commission further amends Part 240 of Title 17 of the Code of Federal Regulations by inserting prior to the heading reading: "Rules of General Application" which precedes § 240.0-1, the following new caption: "Subpart A—Rules and Regulations under the Securities Exchange Act of 1934"; and also by inserting prior to § 240.206d-1 the following new caption: "Subpart B—Rules and Regulations under the Securities Investor Protection Act of 1970." This change shall be effective immediately, since procedures under 5 U.S.C. 553 are inapplicable.

For the Commission.

GEORGE A. FITZSIMMONS,
Secretary.

MAY 1, 1974.

Title 7—Agriculture

CHAPTER IX—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS; FRUITS, VEGETABLES, NUTS), DEPARTMENT OF AGRICULTURE

[Lemon Reg. 637]

PART 910—LEMONS GROWN IN CALIFORNIA AND ARIZONA

Limitation of Handling

This regulation fixes the quantity of California-Arizona lemons that may be shipped to fresh market during the weekly regulation period May 5-11, 1974. It is issued pursuant to the Agricultural Marketing Agreement Act of 1937, as amended, and Marketing Order No. 910. The quantity of lemons so fixed was arrived at after consideration of the total available supply of lemons, the quantity of lemons currently available for market, the fresh market demand for lemons, lemon prices, and the relationship of season average returns to the parity price for lemons.

§ 910.937 **Lemon Regulation 637.**

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 910, as amended (7 CFR Part 910), regulating the handling of lemons grown in California and Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674), and upon the basis of the recommendations and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such lemons, as hereinafter provided, will tend to effecuate the declared policy of the act.

(2) The need for this regulation to limit the quantity of lemons that may be marketed during the ensuing week stems from the production and marketing situation confronting the lemon industry.

(i) The committee has submitted its recommendation with respect to the quantity of lemons it deems advisable to be handled during the ensuing week. Such recommendation resulted from consideration of the factors enumerated in the order. The committee further reports the demand for lemons is strong thus far this week, with good weather favorably affecting order business. Average f.o.b. price was $5.73 per carton the week ended April 27, 1974 compared to $5.53 per carton the previous week. Track and rolling supplies at 146 cars were up 11 cars from last week.

(ii) Having considered the recommendation and information submitted by the committee, and other available information, the Secretary finds that the quantity of lemons which may be handled should be fixed as hereinafter set forth.

(3) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rulemaking procedure, and postpone the effective date of this regulation until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 553) because the time intervening between the date when information upon which this regulation is based became available, and the time when this regulation must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The committee held an open meeting during the current week, after giving due notice thereof, to consider supply and market conditions for lemons and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such meeting was held; the provisions of this regulation, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such lemons; it is necessary, in order to effectuate the declared policy of the act, to make this regulation effective during the period herein specified; and compliance with this regulation will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on April 30, 1974.

(b) *Order.* (1) The quantity of lemons grown in California and Arizona which may be handled during the period May 5, 1974, through May 11, 1974, is hereby fixed at 255,000 cartons.

(2) As used in this section, "handled," and "carton(s)" have the same meaning as when used in the said amended marketing agreement and order.

(Secs. 1-19, 48 Stat. 31, as amended (7 U.S.C. 601-674))

Dated: May 1, 1974.

CHARLES R. BRADER,
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

V 39 187 MAY 3 74 XUM

CHAPTER I—AGRICULTURAL MARKETING SERVICE (STANDARDS, INSPECTION, MARKETING PRACTICES), DEPARTMENT OF AGRICULTURE

PART 52—PROCESSED FRUITS AND VEGETABLES, PROCESSED PRODUCTS THEREOF, AND CERTAIN OTHER PROCESSED FOOD PRODUCTS

United States Standards for Grades of Processed Raisins

Correction

In FR Doc. 74–8686 at page 13763 in the issue of Wednesday, April 17, 1974, make the following change.

In Table I., at page 13764, the "Defects" entry "Slightly discolored or damaged by fermentation or any other defect described above" should be "Slightly discolored or damaged by fermentation or any other defect not described above."

CHAPTER III—ANIMAL AND PLANT HEALTH INSPECTION SERVICE, DEPARTMENT OF AGRICULTURE

PART 301—DOMESTIC QUARANTINE NOTICES

Subpart—Gypsy Moth and Browntail Moth

EXEMPTED ARTICLES

This document amends the regulations supplemental to the Gypsy Moth and Browntail Moth Quarantine by changing the condition under which stone and quarry products are exempted from certification, permit, or other requirements. Stone and quarry products will now be exempted if an inspector determines that they have not been exposed to infestation. Annual surveys of the premises will be continued and compliance agreements with the establishments maintained. Various other changes were also made.

Pursuant to the provisions of sections 8 and 9 of the Plant Quarantine Act of August 20, 1912, as amended, and section 106 of the Federal Plant Pest Act (7 U.S.C. 161, 162, 150ee), and § 301.45–2 of the Gypsy Moth and Browntail Moth Quarantine regulations (7 CFR 301.45–2, as amended), the supplemental regulations exempting certain articles from specified requirements of the regulations, 7 CFR 301.45–2b, is hereby amended to read as follows:

§ 301.45–2b Exempted articles.[1]

The following regulated articles are exempted from the certification, permit, and other requirements of this subpart if they meet the applicable conditions prescribed in paragraphs (a) through (i) of this section and have not been exposed to infestation after handling as prescribed in said paragraphs:

(a) Trees and shrubs, and parts of such trees and shrubs, if grown in a greenhouse throughout the year and so labeled on the outside of each container.

(b) Cuttings and scions with stems no greater than one-half inch in diameter.

(c) Parts of trees and shrubs that have dried, pressed, waxed, lacquered, varnished, or similarly surface treated.

(d) Christmas trees, if it has been determined by an inspector that they have not been exposed to infestation.

(e) Boughs and Christmas greenery.

(f) Lumber, if dressed or sawed four sides with ends clipped and free of surface bark; or if kiln dried: *Provided,* That such lumber is shipped directly after processing and the waybill or other shipping document is marked to show that the lumber was shipped immediately after processing.

(g) Wood products which have been manufactured, such as shingles, flooring, furniture, handles, etc.

(h) Shavings, sawdust, wood flour, excelsior, and cedar bedding, if not exposed to infestation in storage.

(i) Stone and quarry products, if it has been determined by an inspector that they have not been exposed to infestation.

(Secs. 8 and 9, 37 Stat. 318, as amended, sec. 106, 71 Stat. 33; 7 U.S.C. 161, 162, 150ee; 37 FR 28464, 28477; 38 FR 19140; 38 FR 8659, 7 CFR 301.45–2)

Effective date. This amendment will become effective May 3, 1974, when it shall supersede the list of exempted articles, § 301.45–2b, which became effective November 24, 1971.

The Deputy Administrator of the Plant Protection and Quarantine Programs has found that facts exist as to the pest risk involved in the movement of such articles which make it safe to relieve the requirements as provided herein.

This amendment relieves certain restrictions heretofore imposed, and should be made effective promptly in order to be of maximum benefit to the persons subject to the restrictions that are being relieved. Also, it does not appear that additional information would be made available to the Department by public participation in rulemaking proceedings on the amendment. Accordingly, it is found, under the administrative procedure provisions of 5 U.S.C. 553, that notice and other public procedure with respect to this amendment are impracticable and unnecessary, and good cause is found for making it effective less than 30 days after publication in the FEDERAL REGISTER.

Done at Washington, D.C., this 29th day of April 1974.

T. G. DARLING,
Acting Deputy Administrator, Plant Protection and Quarantine Programs.

[FR Doc.74–10160 Filed 5–2–74;8:45 am]

[1] The articles hereby exempted remain subject to applicable restrictions under other quarantines.

CHAPTER X—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS; MILK), DEPARTMENT OF AGRICULTURE

[Docket No. AO–361–A3, etc.]

MILK IN CHICAGO REGIONAL AND CERTAIN OTHER MARKETING AREAS

Order Amending Orders

Findings and Determinations. The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of each of the aforesaid orders and of the previously issued amendments thereto; and all of the said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

The following findings are hereby made with respect to each of the aforesaid orders:

(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held upon certain proposed amendments to the tentative marketing agreement and to the order regulating the handling of milk in the respective marketing area.

Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order as hereby amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the Act;

(2) The parity prices of milk, as determined pursuant to section 2 of the Act, are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the said marketing area, and the minimum prices specified in the order as hereby amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(3) The said order as hereby amended, regulates the handling of milk in the same manner as, and is applicable only to persons in the respective classes of industrial or commercial activity specified in, a marketing agreement upon which a hearing has been held.

(b) *Determinations.* It is hereby determined that:

(1) The refusal or failure of handlers (excluding cooperative associations specified in Sec. 8c(9) of the Act) of more than 50 percent of the milk, which is marketed within each of the respective

marketing areas, to sign a proposed marketing agreement, tends to prevent the effectuation of the declared policy of the Act;

(2) The issuance of the order, amending each of the specified orders, is the only practical means pursuant to the declared policy of the Act of advancing the interests of producers as defined in the respective orders as hereby amended; and

(3) The issuance of the order amending each of the specified orders is approved or favored by at least two-thirds of the producers who during the determined representative period were engaged in the production of milk for sale in the respective marketing areas.

ORDER RELATIVE TO HANDLING

It is therefore ordered, That on and after the effective date hereof, the handling of milk in each of the aforesaid marketing areas shall be in conformity to and in compliance with the terms and conditions of each of the aforesaid orders, as amended, and as hereby further amended. The order set forth herein for the St. Louis-Ozarks marketing area includes certain provisions in § 1062.44 (a)(12)(v) that were inadvertently omitted in the tentative order included in the final decision in this proceeding. Such provisions are in the present order and were retained in the tentative order set forth in both the recommended decision and the revised recommended decision in this proceeding.

PART 1030—MILK IN CHICAGO REGIONAL MARKETING AREA

Subpart—Order Regulating Handling

GENERAL PROVISIONS

Sec.
1030.1 General provisions.

DEFINITIONS

1030.2 Chicago Regional marketing area.
1030.3 Route disposition.
1030.4 Plant.
1030.5 Distributing plant.
1030.6 Supply plant.
1030.7 Pool plant.
1030.8 Nonpool plant.
1030.9 Handler.
1030.10 Producer-handler.
1030.11 [Reserved]
1030.12 Producer.
1030.13 Producer milk.
1030.14 Other source milk.
1030.15 Fluid milk product.
1030.16 Fluid cream product.
1030.17 Filled milk.
1030.18 Cooperative association.
1030.19 Exempt milk.

HANDLER REPORTS

1030.30 Reports of receipts and utilization.
1030.31 Payroll reports.
1030.32 Other reports.

CLASSIFICATION OF MILK

1030.40 Classes of utilization.
1030.41 Shrinkage.
1030.42 Classification of transfers and diversions.
1030.43 General classification rules.
1030.44 Classification of producer milk.
1030.45 Market administrator's reports and announcements concerning classification.

CLASS PRICES

1030.50 Class prices.
1030.51 Basic formula price.
1030.52 Plant location adjustments for handlers.
1030.53 Announcement of class prices.
1030.54 Equivalent price.

UNIFORM PRICE

1030.60 Handler's value of milk for computing uniform price.
1030.61 Computation of uniform price.
1030.62 Announcement of uniform price and butterfat differential.

PAYMENTS FOR MILK

1030.70 Producer-settlement fund.
1030.71 Payments to the producer-settlement fund.
1030.72 Payments from the producer-settlement fund.
1030.73 Payments to producers and to cooperative associations.
1030.74 Butterfat differential.
1030.75 Plant location adjustments for producers and on nonpool milk.
1030.76 Payments by handler operating a partially regulated distributing plant.
1030.77 Adjustment of accounts.
1030.78 Charges on overdue accounts.

ADMINISTRATIVE ASSESSMENT AND MARKETING SERVICE DEDUCTION

1030.85 Assessment for order administration.
1030.86 Deduction for marketing services.

AUTHORITY: The provisions of this Part 1030 issued under secs. 1–19, 48 Stat. 31, as amended (7 U.S.C. 601–674).

GENERAL PROVISIONS

§ 1030.1 General provisions.

The terms, definitions, and provisions in Part 1000 of this chapter are hereby incorporated by reference and made a part of this order.

DEFINITIONS

§ 1030.2 Chicago Regional marketing area.

"Chicago Regional marketing area," hereinafter called the "marketing area," means the territory within the boundaries of the following places, including piers, docks, and wharves and territory wholly or partly within such boundaries occupied by government (municipal, State, or Federal) reservations, installations, institutions or other similar establishments:

(a) In the State of Illinois:

(1) The counties of:

Boone.	Kendall.
Carroll.	Lake.
Cook.	Lee.
De Kalb.	McHenry.
Du Page.	Ogle.
Jo Daviess (except the city of East Dubuque).	Stephenson.
	Will.
	Winnebago.
Kane.	

(2) In Whiteside County:

(i) The townships of:

Caloma.	Jordan.
Hahnaman.	Montmorency.
Hopkins.	Sterling.
Hume.	Tampico.

(b) In the State of Wisconsin:

(1) The counties of:

Adams.	Menominee.
Brown.	Milwaukee.
Calumet.	Monroe.
Columbia.	Oconto.
Crawford.	Oneida.
Dane.	Outagamie.
Dodge.	Ozaukee.
Fond du Lac.	Portage.
Forest.	Racine.
Grant.	Richland.
Green.	Rock.
Green Lake.	Sauk.
Iowa.	Shawano.
Jefferson.	Sheboygan.
Juneau.	Vernon.
Kenosha.	Vilas.
Kewaunee.	Walworth.
La Crosse.	Washington.
Lafayette.	Waukesha.
Langlade.	Waupaca.
Lincoln.	Waushara.
Manitowoc.	Winnebago.
Marquette.	

(2) In Door County the city of Sturgeon Bay;

(3) In Marathon County:

(i) The towns of:

Bergen.	Marathon.
Berlin.	Mosinee.
Bevent.	Norrie.
Easton.	Plover.
Elderon.	Reid.
Franzen.	Rib Mountain.
Guenther.	Ringle.
Harrison.	Stettin.
Hewitt.	Texas.
Knowlton.	Wausau.
Kronenwetter.	Weston.
Maine.	

(ii) The villages of:

Brokaw.	Marathon.
Elderon.	Rothschild.
Hatley.	

(iii) The cities of:

Mosinee.	Wausau.
Schofield.	

(4) In Wood County:

(i) The towns of:

Cranmoor.	Rudolph.
Grand Rapids.	Saratoga.
Port Edwards.	Seneca.

(ii) The villages of:

Biron.	Port Edwards.

(iii) The cities of:

Nekoosa.	Wisconsin Rapids.

§ 1030.3 Route disposition.

"Route disposition" means a delivery (including disposition from a retail plant store) of any fluid milk product classified as Class I milk to a retail or wholesale outlet other than a milk plant. Disposition of a plant through a vendor or through a distribution point shall be considered a route delivery at the location of the wholesale or retail outlet to which delivery is made.

§ 1030.4 Plant.

"Plant" means a building together with its facilities and equipment, whether owned or operated by one or more persons, constituting a single operating unit

V 39 187 MAY 3 74 XUM

or establishment: (a) that has facilities adequate for cleansing tank trucks, is approved by an appropriate health authority, and at which milk moved from the farm is transferred and commingled in another tank truck with other milk and is transshipped in such other tank truck to another plant, (b) at which milk is received from dairy farmers, or (c) at which milk is processed and packaged or manufactured. If a portion of the building is not approved by any health authority for the receiving, processing, or packaging of any fluid milk product for Grade A disposition and is physically separated from the approved portion, such unapproved portion shall not be considered as meeting the terms of this definition.

§ 1030.5 Distributing plant.

"Distributing plant" means a plant from which there is route disposition in the marketing area, either directly or through another plant, of a Grade A fluid milk product that is processed or packaged in such plant during the month.

§ 1030.6 Supply plant.

"Supply plant" means a plant from which a Grade A fluid milk product is shipped or transshipped during the month to another plant. Such supply plant shall be equipped with storage capacity sufficient to hold the largest quantity of fluid milk product either received in the plant or shipped from the plant as a single load during the month, except that no storage capacity shall be maintained in a plant described in § 1030.4(a). Any plant located on the premises of a pool distributing plant pursuant to § 1030.7(a) shall not be considered a supply plant unless it is located in a building that is entirely separate from the distributing plant.

§ 1030.7 Pool plant.

Except as provided in paragraph (d) of this section, "pool plant" means a plant pursuant to § 1030.4 that is specified in paragraph (a), (b), or (c) of this section. In determining the pool plant qualifications of plants pursuant to this section on milk subject to the conditions specified in § 1030.9(h), the receipts and disposition of the plant operated by the transferor-handler shall exclude the milk described in § 1030.9(h)(3) but shall include the milk described in §1030.9(h)(4).

(a) A distributing plant from which there is disposed of during the month not less than the percentages set forth in paragraph (a) (2) and (3) of this section of the receipts specified in paragraph (a)(1) of this section. Two or more distributing plants of a handler shall be considered a unit for the purpose of paragraph (a)(3) of this section in any month if the handler operating such plants has filed a written request with the market administrator prior to such month requesting that they be considered a unit.

(1) The total Grade A fluid milk products, except filled milk, received during the month at such plant, including producer milk diverted under § 1030.13, and milk received from a handler pursuant to § 1030.9(h), but excluding receipts of fluid milk products in exempt milk, packaged fluid milk products and bulk fluid milk products by agreement for Class II and Class III uses from other pool distributing plants, and receipts from other order plants and unregulated supply plants which are assigned pursuant to § 1030.44 (a)(8)(i)(*a*) and (ii) and the corresponding step of § 1030.44(b).

(2) Not less than 10 percent of such receipts is disposed of from such plant in the marketing area in the form of packaged fluid milk products, except filled milk, either as route disposition or moved to other plants from which it is disposed of in the marketing area as route disposition. Such disposition is to be exclusive of receipts of packaged fluid milk products from other pool distributing plants.

(3) Not less than 45 percent in each of the months of September, October, November, and December and 35 percent in each of the months of January, February, March, and August, and 30 percent in all other months of such receipts is disposed of in the form of packaged fluid milk products, except filled milk, either as route disposition or moved to other plants. Such disposition is to be exclusive of receipts of packaged fluid milk products from other pool distributing plants.

(b) A supply plant from which the quantity of fluid milk products (except filled milk) and condensed skim milk shipped or transshipped during the month in accordance with paragraph (b) (1) and (2) of this section is not less than the percentages specified in paragraph (b)(4) of this section subject to paragraph (b) (5), (6), (7), and (8) of this section of the volume of Grade A milk received from dairy farmers and handlers described in § 1030.9(c), including producer milk diverted under § 1030.13. Such receipts shall be reduced by the disposition of packaged fluid milk products described in paragraph (b)(3) of this section.

(1) Shipped or transshipped as fluid milk products to and physically unloaded into:

(i) Pool plants pursuant to paragraph (a) of this section to the extent of the quantity determined pursuant to paragraph (b)(5) of this section;

(ii) Plants of producer-handlers; and

(iii) Partially regulated distributing plants and assigned to Class I milk disposed of in the marketing area from such plants pursuant to § 1030.42(d)(2)(ii) (*a*) and (*c*).

(2) Moved as condensed skim milk to pool plants pursuant to paragraph (a) of this section to the extent it is used in a fluid milk product that is disposed of as a fluid milk product (except filled milk). Such use of condensed skim milk shall be prorated over receipts of condensed skim milk from all supply plants.

(3) The receipts of Grade A milk required to be included pursuant to this paragraph shall be reduced by the amount of packaged fluid milk products (except filled milk) that are disposed of from such plant as route disposition or moved to a nonpool plant from which they are disposed of as route disposition outside the marketing area.

(4) Such percentage shall be not less than 40 for each of the months of September, October, and November, and 30 for all other months, except that a plant that was a pool plant pursuant to this paragraph during each of the months of August through December, the percentage shall be not less than 20 for each of the following months of January, February, and March. A plant meeting such requirements for August through March shall be a pool plant for each of the following months of April through July, unless:

(i) The milk received at the plant does not continue to meet the Grade A milk requirements for use in fluid milk products distributed in the marketing area; or

(ii) Written application is filed with the market administrator by the plant operator on or before the first day of any such month (April–July) requesting the plant be designated a nonpool plant for such month and any subsequent month through July, provided it does not otherwise qualify as a pool plant.

(5) For the purpose of determining the percentages specified in paragraph (b)(4) and (7) of this section, the quantity of fluid milk products moved from a supply plant pursuant to paragraph (b)(1)(i) of this section shall be a net quantity assignable at pool distributing plants computed by subtracting from the quantity of fluid milk products received from a supply plant(s), but not to exceed such quantity, the amounts described in paragraph (b)(5)(i) and (ii) of this section (if fluid milk products are received from more than one supply plant, such net quantity assignable shall be prorated among supply plants in accordance with the total receipts from such plants).

(i) The quantity of fluid milk products in the form of bulk milk and skim milk transferred from the pool distributing plant to pool supply plants plus any such bulk shipments to nonpool plants as Class II or Class III milk, other than:

(*a*) Transfers classified pursuant to § 1030.40(b)(3); and

(*b*) Transfers on any Saturday or on New Year's Day, Memorial Day, July 4, Labor Day, Thanksgiving, or Christmas, that no milk is received at the pool distributing plant from a supply plant, in an amount not in excess of 120 percent of the average daily receipts of producer milk pursuant to § 1030.13(a) at the plant during the prior month, less the quantity of producer milk diverted pursuant to § 1030.13(e) on such day. If no producer milk was received in the distributing plant during the prior month, the average daily receipts during the current month shall be used in lieu of the prior month for computing the transfers to be excepted by this subdivision; and

(ii) If milk is diverted from the pool distributing plant on the date of the

receipt from the supply plant, the quantity so diverted, except any diversion of milk (not to exceed 3 days' production of any individual producer) made because of an emergency situation such as a breakdown of trucking equipment or hazardous road conditions shall not be subtracted if such emergency is reported to the market administrator.

(6) The percentages specified in paragraph (b)(4) and/or in paragraph (b)(7)(iii) of this section applicable during the months August-March shall be increased or decreased by up to 10 percentage points by the Director of the Dairy Division if he finds such revision is necessary to obtain needed shipments or to prevent uneconomic shipments except that the percentages specified in paragraph (b)(7)(iii) of this section shall not exceed 50 percent of those specified in paragraph (b)(4) of this section. Before making such a finding the Director shall investigate the need for revision either on his own initiative or at the request of interested persons and if his investigation shows that a revision might be appropriate he shall issue a notice stating that revision is being considered and inviting data, views, and arguments with respect to the proposed revision: *Provided*, That if a plant which would not otherwise qualify as a pool plant during the month pursuant to paragraph (b)(4) or (7)(iii) of this section would qualify as a pool plant as a result of this subparagraph, such plant shall be a nonpool plant for such month upon filing by the operator of such plant a written request for nonpool status with the market administrator.

(7) Two or more plants shall be considered a unit for the purpose of this paragraph if the following conditions are met:

(i) The plants included in a unit are owned or fully leased and operated by the handler establishing the unit and such plants shall have been pool plants the month prior to being included in a unit. In the case of plants operated by cooperative associations two or more cooperative associations may establish a unit of designated plants by filing with the market administrator a written contractual agreement obligating each plant of the unit to ship milk as directed by such cooperatives;

(ii) The handler or cooperatives establishing a unit notify the market administrator in writing of the plants to be included therein prior to August 1 of each year and no additional plants shall be added to the unit prior to August 1 of the following year;

(iii) Each plant in a unit ships or transships to plants specified in paragraph (b)(1) of this section the following percentages of its producer milk: 20 in each of the months of September, October, and November; 15 in each of the months of August and December; and 10 in each of the months of January, February, and March. If for any month a plant does not meet the individual plant shipping percentage, that plant shall be excluded from the unit; and

(iv) The notification pursuant to paragraph (b)(7)(ii) of this section shall list the plants in the order in which they shall be excluded from the unit if the minimum shipping requirements are not met, such exclusion to be in sequence beginning with the first plant on the list and continuing until the remaining plants as a unit have met the minimum requirements.

(8) If a handler notifies the market administrator in writing that a plant is unable to meet the requirements set forth herein because of a work stoppage due to a labor dispute between employer and employees, the market administrator, upon verification of the handler's claim, shall not include the receipts and utilization of skim milk and butterfat at such plant for those days from the date of notification through the last day of the work stoppage in determining the percentage of skim milk and butterfat shipped pursuant to this paragraph. When the work stoppage includes an entire month, the plant shall be considered to have met the minimum percentage shipping requirements in that month for pool plant status pursuant to this paragraph, but such relief shall not be granted for more than 2 consecutive months.

(c) A plant which is operated by a cooperative association and which is not a pool plant pursuant to paragraph (a) or (b) of this section shall be a pool plant if at least 50 percent of the Grade A milk of producers of such cooperative association is received at pool distributing plants of other handlers during the month and written application for pool plant status is filed with the market administrator on or before the first day of such month.

(d) The term "pool plant" shall not apply to the following plants:

(1) A producer-handler plant or exempt distributing plant; or

(2) A plant that is fully subject to the pricing and pooling provisions of another order issued pursuant to the Act, unless it is qualified as a pool plant pursuant to paragraph (a), (b), or (c) of this section and a greater volume of fluid milk products, except filled milk, is disposed of from such plant in this marketing area as route disposition and to pool plants qualified on the basis of route disposition in this marketing area than is so disposed of in the marketing area regulated pursuant to such other order.

§ 1030.8 Nonpool plant.

"Nonpool plant" means a plant (except a pool plant) which receives milk from dairy farmers or is a milk or filled milk manufacturing, processing or bottling plant. The following categories of nonpool plants are further defined as follows:

(a) "Other order plant" means a plant that is fully subject to the pricing and pooling provisions of another order issued pursuant to the Act.

(b) "Producer-handler plant" means a plant operated by a producer-handler as defined in any order (including this part) issued pursuant to the Act.

(c) "Partially regulated distributing plant" means a nonpool plant that is not an other order plant, a producer-handler plant, or an exempt distributing plant and from which there is route disposition in consumer-type packages or dispenser units in the marketing area during the month.

(d) "Unregulated supply plant" means a nonpool plant that is not an other order plant, a producer-handler plant, or an exempt distributing plant from which fluid milk products are shipped during the month to a pool plant.

(e) "Exempt distributing plant" means a distributing plant operated by a governmental agency.

§ 1030.9 Handler.

"Handler" means:

(a) Any person in his capacity as the operator of one or more pool plants;

(b) Any cooperative association with respect to producer milk which it causes to be diverted from a pool plant of another handler pursuant to § 1030.13 for the account of such cooperative association;

(c) Any cooperative association with respect to milk of its producers which is received from the farm for delivery to the pool plant of another handler in a tank truck owned and operated by or under contract to such cooperative association;

(d) Any person in his capacity as the operator of a partially regulated distributing plant;

(e) A producer-handler;

(f) Any person in his capacity as the operator of an other order plant that is either a distributing plant or a supply plant;

(g) Any person in his capacity as a broker negotiating a purchase or sale of fluid milk products or fluid cream products from or to a person described in paragraph (a) or (d) of this section; or

(h) Any person who is a handler operating a pool distributing plant pursuant to paragraph (a) of this section may be the handler on producer milk delivered to pool distributing plants of other handlers, subject to the following conditions:

(1) Prior to the first month he becomes the handler pursuant to this paragraph such handler shall notify the market administrator in writing of his election to do so and he shall provide the name and address of each transferee-pool plant receiving the milk that is subject to the conditions of this paragraph;

(2) All of the producer milk on which he is the handler pursuant to this paragraph shall be considered a transfer from such handler's pool distributing plant to another pool distributing plant for the purposes of classification pursuant to §§ 1030.40 through 1030.45;

(3) If an entire tank truck load of milk is delivered to the pool plant of an other handler, it shall be considered a receipt by the transferor-handler pursuant to this paragraph for pricing purposes pursuant to §§ 1030.50 through 1030.53 and 1030.60 through 1030.77 at the location of the transferee-plant; and

(4) If less than an entire tank truck load of milk is delivered to the pool plant

V 391 87 MAY 3 74 XUM

of another handler, a portion of the milk on the tank truck load must be physically received at the transferor-handler's pool distributing plant. Such split load shall be considered a receipt of producer milk at the transferor-handler's plant for pricing purposes pursuant to §§ 1030.50 through 1030.53 and 1030.60 through 1030.77.

§ 1030.10 Producer-handler.

"Producer-handler" means any person who operates a dairy farm and a distributing plant and who has route disposition in the marketing area of only fluid milk products of such person's own production or fluid milk products received from pool plants: *Provided*, That such person provides proof satisfactory to the market administrator that the care and management of all dairy animals and other resources necessary to produce the entire volume of fluid milk products handled (excluding receipts from pool plants) and the operation of the processing and packaging business are the personal enterprise and risk of such person.

§ 1030.11 [Reserved]

§ 1030.12 Producer.

(a) Except as provided in paragraph (b) of this section, "producer" means any person who produces milk in compliance with the Grade A inspection requirements of a duly constituted health authority and whose milk is received at a pool plant or diverted pursuant to § 1030.13.

(b) "Producer" shall not include:

(1) A dairy farmer who is a government and has nonproducer status for the month pursuant to § 1030.19;

(2) A producer-handler as defined in any order (including this part) issued pursuant to the Act;

(3) Any person with respect to milk produced by him which is diverted to a pool plant from an other order plant if the other order designates such person as a producer under that order and such milk is allocated to Class II or Class III utilization pursuant to § 1030.44(a)(8)(ii) and the corresponding step of § 1030.44(b);

(4) Any person with respect to milk produced by him which is reported as diverted to an other order plan if any portion of such person's milk so moved is assigned to Class I under the provisions of such other order; and

(5) A dairy farmer with respect to milk produced by him that is received at a handler's pool plant during the months of January through July if any milk from the same farm was a receipt of producer milk in any "payback" month during the preceding year under an other order that provided for a seasonal incentive payment plan whereby funds previously withheld in the computation of the uniform price to producers were paid back to producers through the uniform price computation in subsequent months of the year.

§ 1030.13 Producer milk.

"Producer milk" means milk produced by producers which is:

(a) Received at a pool plant directly from producers, by being physically unloaded into processing facilities or a storage tank (including another tank truck in the case of a reload facility), and the shrinkage of skim milk and butterfat in milk received from producers' farms which was not unloaded in a pool plant. Such direct receipts from producers shall include the portion of a tank truck load of milk unloaded in a pool plant in the case where a portion of such load was first unloaded at another pool plant or diverted to a nonpool plant. The quantity of milk so received at each such plant shall be prorated over the total quantity of milk picked up at each producer's farm.

(b) Received by a handler pursuant to § 1030.9(h).

(c) Received at a pool plant from a handler described in § 1030.9(c). The utilization value of such milk at class prices shall be included in computing the receiving handler's value of milk pursuant to § 1030.60.

(d) Received by a handler described in § 1030.9(c) to the extent of the shrinkage of skim milk and butterfat received from producers' farms which was not received in a pool plant under paragraph (c) of this section. In applying §§ 1030.52 and 1030.75 such skim milk and butterfat shall be deemed to be received at the location of the pool plant to which delivery is normally made.

(e) Diverted from a pool plant to a nonpool plant that is not a producer-handler plant, subject to the conditions specified in this paragraph. Milk shall be eligible for diversion as producer milk only if the person producing such milk had delivered milk as producer milk to a pool plant prior to the diversion. Milk picked up at a producer's farm in a tank truck, to the extent it is unloaded at a nonpool plant, shall be subject to the conditions specified in this paragraph; and if the tank truck contains milk from more than one producer, the quantity subject to the conditions specified in this paragraph shall be prorated over the total quantity of milk picked up at each producer's farm. In calculating the percentages specified in § 1030.7, milk so diverted shall be considered as received in the pool plant from which diverted. The location price adjustments pursuant to § 1030.75 shall be based on the zone location of the nonpool plant(s) where such milk is physically received, except that in the case of a distributing plant, diverted milk of a producer shall be priced at the location of such plant if during the month not more than 4 days' production of such producer is diverted, or if the diverted milk is part of a tank truck load of milk that exceeds the milk storage capacity of such distributing plant. Diverted milk shall be limited as follows:

(1) Milk of a producer diverted for the account of the operator of a pool plant or a handler described in § 1030.9(b) that during the months of April through December does not exceed the quantity of such producer's milk received in the pool plant from which diverted, and during the months of January, February and March does not exceed 70 percent of such producer's milk received in or diverted from such pool plant: *Provided*, That during the months of April through July such limits shall not apply for a producer who delivered to a pool plant any time during the prior August–December period and subsequently maintained producer status without interruption of more than 30 consecutive days;

(2) To the extent that milk diverted by a cooperative as a handler during any month would result in the plant failing to qualify as a pool plant under § 1030.7 such diverted milk shall not be producer milk; and

(3) Milk of a producer diverted by a handler who fails to report the information required pursuant to § 1030.32(a)(2) shall not be considered producer milk pursuant to this paragraph.

§ 1030.14 Other source milk.

"Other source milk" means all skim milk and butterfat contained in or represented by:

(a) Receipts of fluid milk products and bulk products specified in § 1030.40(b)(1) from any source other than producers, handlers described in § 1030.9(c), or pool plants;

(b) Receipts in packaged form from other plants of products specified in § 1030.40(b)(1);

(c) Products (other than fluid milk products, products specified in § 1030.40(b)(1), and products produced at the plant during the same month) from any source which are reprocessed, converted into, or combined with another product in the plant during the month; and

(d) Receipts of any milk product (other than a fluid milk product or a product specified in § 1030.40(b)(1)) for which the handler fails to establish a disposition.

§ 1030.15 Fluid milk product.

(a) Except as provided in paragraph (b) of this section, "fluid milk product" means any of the following products in fluid or frozen form:

(1) Milk, skim milk, lowfat milk, milk drinks, buttermilk, filled milk, and milkshake and ice milk mixes containing less than 20 percent total solids, including any such products that are flavored, cultured, modified with added nonfat milk solids, concentrated (if in a consumer-type package), or reconstituted; and

(2) Any milk product not specified in paragraph (a)(1) of this section or in § 1030.40(b) or (c)(1)(i) through (v), if it contains by weight at least 80 percent water and 6.5 percent nonfat milk solids and less than 9 percent butterfat and 20 percent total solids.

(b) The term "fluid milk product" shall not include:

(1) Evaporated or condensed milk (plain or sweetened), evaporated or condensed skim milk (plain or sweetened), formulas especially prepared for infant feeding or dietary use that are packaged in hermetically sealed glass or all-metal containers, any product that contains by weight less than 6.5 percent nonfat milk solids, and whey; and

(2) The quantity of skim milk in any modified product specified in paragraph (a) of this section that is in excess of the quantity of skim milk in an equal volume of an unmodified product of the same nature and butterfat content.

§ 1030.16 Fluid cream product.

"Fluid cream product" means cream (other than plastic cream or frozen cream), sour cream, or a mixture (including a cultured mixture) of cream and milk or skim milk containing 9 percent or more butterfat, with or without the addition of other ingredients.

§ 1030.17 Filled milk.

"Filled milk" means any combination of nonmilk fat (or oil) with skim milk (whether fresh, cultured, reconstituted, or modified by the addition of nonfat milk solids), with or without milkfat, so that the product (including stabilizers, emulsifiers, or flavoring) resembles milk or any other fluid milk product, and contains less than 6 percent nonmilk fat (or oil).

§ 1030.18 Cooperative association.

"Cooperative association" means any cooperative marketing association of producers which the Secretary determines after application by the association:

(a) To be qualified under the provisions of the Act of Congress of February 18, 1922, as amended, known as the "Capper-Volstead Act"; and

(b) To have full authority in the sale of milk of its members and is engaged in making collective sales of or marketing milk or milk products for its members.

§ 1030.19 Exempt milk.

"Exempt milk" means milk received at a pool plant in bulk from the dairy farmer who produced it, to the extent of the quantity of any packaged fluid milk products returned to the dairy farmer if:

(a) The dairy farmer is a government which is not engaged in the route disposition of any of the returned products; and

(b) The dairy farmer has, by written notice to the market administrator and the receiving handler, elected nonproducer status for a period of not less than 12 months beginning with the month in which the election was made and continuing for each subsequent month until canceled in writing, and the election is in effect for the current month.

HANDLER REPORTS

§ 1030.30 Reports of receipts and utilization.

On or before the 10th day after the end of each month, each handler shall report for such month to the market administrator, in the detail and on the forms prescribed by the market administrator, as follows:

(a) Each handler, with respect to each of his pool plants (except that if a handler so requests and the request is approved by the market administrator, a single report may be filed), shall report the quantities of skim milk and butterfat contained in or represented by:

(1) Receipts of producer milk, including producer milk diverted by the handler from the pool plant to other plants;

(2) Receipts of milk from handlers described in § 1030.9(c);

(3) Receipts of fluid milk products and bulk fluid cream products from pool plants of other handlers (or other pool plants, as applicable), including a separate statement of the net receipts from each supply plant computed pursuant to § 1030.7(b)(5), except that during the months of April through July no such separate statement need be made if receipts from supply plants are from only plants that were pool plants during the prior months of August through March;

(4) Receipts of other source milk;

(5) Inventories at the beginning and end of the month of fluid milk products and products specified in § 1030.40(b)(1); and

(6) The utilization or disposition of all milk, filled milk, and milk products required to be reported pursuant to this paragraph.

(b) Each handler operating a partially regulated distributing plant shall report with respect to such plant in the same manner as prescribed for reports required by paragraph (a) of this section. Receipts of milk that would have been producer milk if the plant had been fully regulated shall be reported in lieu of producer milk. Such report shall show also the quantity of any reconstituted skim milk in route disposition in the marketing area.

(c) Each handler described in § 1030.9(b) and (c) shall report:

(1) The quantities of all skim milk and butterfat contained in receipts of milk from producers; and

(2) The utilization or disposition of all such receipts.

(d) Each handler not specified in paragraphs (a) through (c) of this section shall report with respect to his receipts and utilization of milk, filled milk, and milk products in such manner as the market administrator may prescribe.

§ 1030.31 Payroll reports.

(a) On or before the 25th day after the end of each month, each handler described in § 1030.9(a), (b), and (c) shall report to the market administrator his producer payroll for such month, in the detail prescribed by the market administrator, showing for each producer:

(1) His name and address;

(2) The total pounds of milk received from such producer;

(3) The average butterfat content of such milk; and

(4) The price per hundredweight, the gross amount due, the amount and nature of any deductions, and the net amount paid.

(b) Each handler operating a partially regulated distributing plant who elects to make payment pursuant to § 1030.76(b) shall report for each dairy farmer who would have been a producer if the plant had been fully regulated in the same manner as prescribed for reports required by paragraph (a) of this section.

§ 1030.32 Other reports.

(a) Each handler pursuant to § 1030.9(a), (b), (g), and (h) shall report to the market administrator on or before the 10th day after the end of the month in detail and on forms prescribed by the market administrator as follows:

(1) Each handler pursuant to § 1030.9(g) shall report the quantities of skim milk and butterfat in fluid milk products and fluid cream products moved for his account from each pool plant and received at each pool plant or partially regulated distributing plant during the month;

(2) Each handler pursuant to § 1030.9(a) and (b) shall report for each load of milk diverted for his account the quantity of each producer's milk included therein, the date(s) and times of pickup and delivery to the nonpool plant the name and location of that plant, and the plant from which diverted;

(3) Each handler pursuant to § 1030.9(h) shall report for each load of milk transferred for his account the quantity of each producer's milk included therein, the dates and times of pickup and delivery to the transferee-plant, the name and location of that plant and the plant from which transferred. Also, he shall report the quantities of skim milk and butterfat in his receipts of producer milk and delivery of such milk to each pool distributing plant during the month: and

(4) Each handler who, during the month, received milk from a dairy farmer from whom he had not received milk for at least 30 consecutive days, shall report the name and address of the dairy farmer and the plant to which each such person previously delivered milk. Each handler who discontinues receiving milk from a producer during the month shall report each such producer's name, address, and the plant to which such person transferred.

(b) In addition to the reports required pursuant to paragraph (a) of this section and §§ 1030.30 and 1030.31, each handler shall report such other information as the market administrator deems necessary to verify or establish such handler's obligation under the order.

CLASSIFICATION OF MILK

§ 1030.40 Classes of utilization.

Except as provided in § 1030.42, all skim milk and butterfat required to be reported by a handler pursuant to § 1030.30 shall be classified as follows:

(a) *Class I milk.* Class I milk shall be all skim milk and butterfat:

(1) Disposed of in the form of a fluid milk product, except as otherwise provided in paragraphs (b) and (c) of this section; and

(2) Not specifically accounted for as Class II or Class III milk.

(b) *Class II milk.* Class II milk shall be all skim milk and butterfat:

(1) Disposed of in the form of a fluid cream product, eggnog, yogurt, and any product containing 6 percent or more nonmilk fat (or oil) that resembles a fluid cream product, eggnog, or yogurt, except as otherwise provided in paragraph (c) of this section;

V 39 I 87 MAY 3 74 XUM

(2) In packaged inventory at the end of the month of the products specified in paragraph (b) (1) of this section;

(3) In bulk fluid milk products and bulk fluid cream products disposed of to any commercial food processing establishment (other than a milk or filled milk plant) at which food products (other than milk products and filled milk) are processed and from which there is no disposition of fluid milk products or fluid cream products other than those received in consumer-type packages; and

(4) Used to produce:

(i) Cottage cheese, lowfat cottage cheese, and dry curd cottage cheese;

(ii) Milkshake and ice milk mixes (or bases) containing 20 percent or more total solids, frozen desserts, and frozen dessert mixes;

(iii) Any concentrated milk product in bulk, fluid form other than that specified in paragraph (c) (1) (iv) of this section;

(iv) Plastic cream, frozen cream, and anhydrous milkfat;

(v) Custards, puddings, and pancake mixes; and

(vi) Formulas especially prepared for infant feeding or dietary use that are packaged in hermetically sealed glass or all-metal containers.

(c) *Class III milk.* Class III milk shall be all skim milk and butterfat:

(1) Used to produce:

(i) Cheese (other than cottage cheese, lowfat cottage cheese, and dry curd cottage cheese);

(ii) Butter;

(iii) Any milk product in dry form;

(iv) Any concentrated milk product in bulk, fluid form that is used to produce a Class III product;

(v) Evaporated or condensed milk (plain or sweetened) in a consumer-type package and evaporated or condensed skim milk (plain or sweetened) in a consumer-type package; and

(vi) Any product not otherwise specified in this section;

(2) In inventory at the end of the month of fluid milk products in bulk or packaged form and products specified in paragraph (b) (1) of this section in bulk form;

(3) In fluid milk products and products specified in paragraph (b) (1) of this section that are disposed of by a handler for animal feed;

(4) In fluid milk products and products specified in paragraph (b) (1) of this section that are dumped by a handler if the market administrator is notified of such dumping in advance and is given the opportunity to verify such disposition;

(5) In skim milk in any modified fluid milk product that is in excess of the quantity of skim milk in such product that was included within the fluid milk product definition pursuant to § 1030.15; and

(6) In shrinkage assigned pursuant to § 1030.41(a) to the receipts specified in § 1030.41(a) (2) and in shrinkage specified in § 1030.41 (b) and (c).

§ 1030.41 Shrinkage.

For purposes of classifying all skim milk and butterfat to be reported by a handler pursuant to § 1030.30, the market administrator shall determine the following:

(a) The pro rata assignment of shrinkage of skim milk and butterfat, respectively, at each pool plant (or at all of the handler's pool plants combined if a single report is filed pursuant to § 1030.30) to the respective quantities of skim milk and butterfat:

(1) In the receipts specified in paragraph (b) (1) through (6) of this section on which shrinkage is allowed pursuant to such paragraph; and

(2) In other source milk not specified in paragraph (b) (1) through (6) of this section, excluding that received in the form of a packaged fluid milk product;

(b) The shrinkage of skim milk and butterfat, respectively, assigned pursuant to paragraph (a) of this section to the receipts specified in paragraph (a) (1) of this section that is not in excess of:

(1) Two percent of the skim milk and butterfat, respectively, in producer milk (excluding milk diverted by the plant operator to another plant and milk received from a handler described in § 1030.9(c));

(2) Plus 1.5 percent of the skim milk and butterfat, respectively, in milk received from a handler described in § 1030.9(c), except that if the operator of the plant to which the milk is delivered purchases such milk on the basis of weights determined from its measurement at the farm and butterfat tests determined from farm bulk tank samples, the applicable percentage under this subparagraph shall be 2 percent;

(3) Plus 0.5 percent of the skim milk and butterfat, respectively, in producer milk diverted from such plant by the plant operator to another plant, except that if the operator of the plant to which the milk is delivered purchases such milk on the basis of weights determined from its measurement at the farm and butterfat tests determined from farm bulk tank samples, the applicable percentage under this subparagraph shall be zero;

(4) Plus 1.5 percent of the skim milk and butterfat, respectively, in bulk fluid milk products received by transfer from other pool plants (or pool plants of other handlers, if applicable);

(5) Plus 1.5 percent of the skim milk and butterfat, respectively, in bulk fluid milk products received by transfer from other order plants, excluding the quantity for which Class II or Class III classification is requested by the operators of both plants;

(6) Plus 1.5 percent of the skim milk and butterfat, respectively, in bulk fluid milk products received from unregulated supply plants, excluding the quantity for which Class II or Class III classification is requested by the handler; and

(7) Less 1.5 percent of the skim milk and butterfat, respectively, in bulk fluid milk products transferred to other pool plants (or pool plants of other handlers, if applicable) and to nonpool plants that is not in excess of the respective amounts of skim milk and butterfat to which percentages are applied in paragraph (b) (1), (2), (4), (5), and (6) of this section; and

(c) The quantity of skim milk and butterfat, respectively, in shrinkage of milk from producers for which a cooperative association is the handler pursuant to § 1030.9 (b) or (c), but not in excess of 0.5 percent of the skim milk and butterfat, respectively, in such milk. If the operator of the plant to which the milk is delivered purchases such milk on the basis of weights determined from its measurement at the farm and butterfat tests determined from farm bulk tank samples, the applicable percentage under this paragraph for the cooperative association shall be zero.

§ 1030.42 Classification of transfers and diversions.

(a) *Transfers to pool plants.* Skim milk or butterfat transferred in the form of a fluid milk product or a bulk fluid cream product from a pool plant to another pool plant (or to the pool plant of another handler if a single report is filed pursuant to § 1030.30 by the transferor-handler) shall be classified as Class I milk unless the operators of both plants request the same classification in another class. The skim milk or butterfat classified in each class shall be limited to the amount of skim milk and butterfat, respectively, remaining in such class at the transferee-plant after the computations pursuant to § 1030.44(a) (12) and the corresponding step of § 1030.44(b).

(b) *Transfers and diversions to other order plants.* Skim milk or butterfat transferred or diverted in the form of a fluid milk product or a bulk fluid cream product from a pool plant to an other order plant shall be classified in the following manner. Such classification shall apply only to the skim milk or butterfat that is in excess of any receipts at the pool plant from the other order plant of skim milk and butterfat, respectively, in fluid milk products and bulk fluid cream products, respectively, that are in the same category as described in paragraph (b) (1), (2), or (3) of this section:

(1) If transferred as packaged fluid milk products, classification shall be in the classes to which allocated as a fluid milk product under the other order;

(2) If transferred in bulk form, classification shall be in the classes to which allocated under the other order (including allocation under the conditions set forth in paragraph (b) (3) of this section);

(3) If the operators of both plants so request in their reports of receipts and utilization filed with their respective market administrators, transfers or diversions in bulk form shall be classified as Class II or Class III milk to the extent of such utilization available for such classification pursuant to the allocation provisions of the other order;

(4) If information concerning the classes to which such transfers or diversions were allocated under the other order is not available to the market administrator for the purpose of establishing classification under this paragraph, classification shall be as Class I, subject to adjustment when such information is available;

(5) For purposes of this paragraph, if the other order provides for a different number of classes of utilization than is provided for under this part, skim milk or butterfat allocated to a class consisting primarily of fluid milk products shall be classified as Class I milk, and skim milk or butterfat allocated to the other classes shall be classified as Class III milk; and

(6) If the form in which any fluid milk product that is transferred to an other order plant is not defined as a fluid milk product under such other order, classification under this paragraph shall be in accordance with the provisions of § 1030.40.

(c) *Transfers to producer-handlers and transfers and diversions to exempt distributing plants.* Skim milk or butterfat in the following forms that is transferred from a pool plant to a producer-handler under this or any other Federal order or transferred or diverted from a pool plant to an exempt distributing plant shall be classified:

(1) As Class I milk, if so moved in the form of a fluid milk product; and

(2) In accordance with the utilization assigned to it by the market administrator, if transferred in the form of a bulk fluid cream product. For this purpose, the transferee's utilization of skim milk and butterfat in each class, in series beginning with Class III, shall be assigned to the extent possible to its receipts of skim milk and butterfat, respectively, in bulk fluid cream products, pro rata to each source.

(d) *Transfers and diversions to other nonpool plants.* Skim milk or butterfat transferred or diverted in the following forms from a pool plant to a nonpool plant that is not an other order plant, a producer-handler plant, or an exempt distributing plant shall be classified:

(1) As Class I milk, if transferred in the form of a packaged fluid milk product; and

(2) As Class I milk, if transferred or diverted in the form of a bulk fluid milk product or a bulk fluid cream product, unless the following conditions apply:

(i) If the conditions described in paragraph (d) (2) (i) (*a*) and (*b*) of this section are met, transfers or diversions in bulk form shall be classified on the basis of the assignment of the nonpool plant's utilization to its receipts as set forth in paragraph (d) (2) (ii) through (viii) of this section:

(*a*) The transferor-handler or diverter-handler claims such classification in his report of receipts and utilization filed pursuant to § 1030.30 for the month within which such transaction occurred; and

(*b*) The nonpool plant operator maintains books and records showing the utilization of all skim milk and butterfat received at such plant which are made available for verification purposes if requested by the market administrator;

(ii) Route disposition in the marketing area of each Federal milk order from the nonpool plant and transfers of packaged fluid milk products from such nonpool plant to plants fully regulated thereunder shall be assigned to the extent possible in the following sequence:

(*a*) Pro rata to receipts of packaged fluid milk products at such nonpool plant from pool plants;

(*b*) Pro rata to any remaining unassigned receipts of packaged fluid milk products at such nonpool plant from other order plants;

(c) Pro rata to receipts of bulk fluid milk products at such nonpool plant from pool plants; and

(*d*) Pro rata to any remaining unassigned receipts of bulk fluid milk products at such nonpool plant from other order plants;

(iii) Any remaining Class I disposition of packaged fluid milk products from the nonpool plant shall be assigned to the extent possible pro rata to any remaining unassigned receipts of packaged fluid milk products at such nonpool plant from pool plants and other order plants;

(iv) Transfers of bulk fluid milk products from the nonpool plant to a plant fully regulated under any Federal milk order, to the extent that such transfers to the regulated plant exceed receipts of fluid milk products from such plant and are allocated to Class I at the transferee-plant, shall be assigned to the extent possible in the following sequence:

(*a*) Pro rata to receipts of fluid milk products at such nonpool plant from pool plants; and

(*b*) Pro rata to any remaining unassigned receipts of fluid milk products at such nonpool plant from other order plants;

(v) Any remaining unassigned Class I disposition from the nonpool plant shall be assigned to the extent possible in the following sequence:

(*a*) To such nonpool plant's receipts from dairy farmers who the market administrator determines constitute regular sources of Grade A milk for such nonpool plant; and

(*b*) To such nonpool plant's receipts of Grade A milk from plants not fully regulated under any Federal milk order which the market administrator determines constitute regular sources of Grade A milk for such nonpool plant;

(vi) Any remaining unassigned receipts of bulk fluid milk products at the nonpool plant from pool plants and other order plants shall be assigned, pro rata among such plants, to the extent possible first to any remaining Class I utilization, then to Class III utilization, and then to Class II utilization at such nonpool plant;

(vii) Receipts of bulk fluid cream products at the nonpool plant from pool plants and other order plants shall be assigned, pro rata among such plants, to the extent possible first to any remaining Class III utilization, then to any remaining Class II utilization, and then to Class I utilization at such nonpool plant; and

(viii) In determining the nonpool plant's utilization for purposes of this subparagraph, any fluid milk products and bulk fluid cream products transferred from such nonpool plant to a plant not fully regulated under any Federal milk order shall be classified on the basis of the second plant's utilization using the same assignment priorities at the second plant that are set forth in this subparagraph.

§ 1030.43 General classification rules.

In determining the classification of producer milk pursuant to § 1030.44, the following rules shall apply:

(a) Each month the market administrator shall correct for mathematical and other obvious errors all reports filed pursuant to § 1030.30 and shall compute separately for each pool plant (or for all of a handler's pool plants combined if paragraph (d) of this section applies) and for each cooperative association with respect to milk for which it is the handler pursuant to § 1030.9 (b) or (c) the pounds of skim milk and butterfat, respectively, in each class in accordance with §§ 1030.40, 1030.41, and 1030.42;

(b) If any of the water contained in the milk from which a product is made is removed before the product is utilized or disposed of by a handler, the pounds of skim milk in such product that are to be considered under this part as used or disposed of by the handler shall be an amount equivalent to the nonfat milk solids contained in such product plus all of the water originally associated with such solids;

(c) The classification of producer milk for which a cooperative association is the handler pursuant to § 1030.9 (b) or (c) shall be determined separately from the operations of any pool plant operated by such cooperative; and

(d) If a handler operates two or more pool plants, the classification of producer milk shall be determined on the basis of all of his pool plants combined if he files a single report pursuant to § 1030.30 or has received skim milk or butterfat that would be allocated pursuant to § 1030.44 (a) (11) or (12) or the corresponding steps of § 1030.44(b).

§ 1030.44 Classification of producer milk.

For each month the market administrator shall determine the classification of producer milk of each handler described in § 1030.9(a) for each of his pool plants separately (or for all of his pool plants combined if § 1030.43(d) applies) and of each handler described in § 1030.9 (b) and (c) by allocating the handler's receipts of skim milk and butterfat to his utilization as follows:

(a) Skim milk shall be allocated in the following manner:

(1) Subtract from the total pounds of skim milk in Class III the pounds of skim milk in shrinkage specified in § 1030.41(b);

V 39 I 87 MAY 3 74 XUM

(2) Subtract from the total pounds of skim milk in Class I the pounds of skim milk in:

(i) Receipts of packaged fluid milk products from an unregulated supply plant to the extent that an equivalent amount of skim milk disposed of to such plant by handlers fully regulated under any Federal milk order is classified and priced as Class I milk and is not used as an offset for any other payment obligation under any order; and

(ii) Receipts of exempt milk;

(3) Subtract from the pounds of skim milk remaining in each class the pounds of skim milk in fluid milk products received in packaged form from an other order plant, except that to be subtracted pursuant to paragraph (a) (7) (vi) of this section, as follows:

(i) From Class III milk, the lesser of the pounds remaining or 2 percent of such receipts; and

(ii) From Class I milk, the remainder of such receipts;

(4) Subtract from the pounds of skim milk in Class II the pounds of skim milk in products specified in § 1030.40(b) (1) that were received in packaged form from other plants, but not in excess of the pounds of skim milk remaining in Class II;

(5) Subtract from the remaining pounds of skim milk in Class II the pounds of skim milk in products specified in § 1030.40(b) (1) that were in inventory at the beginning of the month in packaged form, but not in excess of the pounds of skim milk remaining in Class II. This subparagraph shall apply only if the pool plant was subject to the provisions of this subparagraph or comparable provisions of another Federal milk order in the immediately preceding month;

(6) Subtract from the remaining pounds of skim milk in Class II the pounds of skim milk in other source milk (except that received in the form of a fluid milk product or a fluid cream product) that is used to produce, or added to, any product specified in § 1030.40(b), but not in excess of the pounds of skim milk remaining in Class II;

(7) Subtract in the order specified below from the pounds of skim milk remaining in each class, in series beginning with Class III, the pounds of skim milk in each of the following:

(i) Other source milk (except that received in the form of a fluid milk product) and, if paragraph (a) (5) of this section applies, packaged inventory at the beginning of the month of products specified in § 1030.40(b) (1) that was not subtracted pursuant to paragraph (a) (4), (5), and (6) of this section;

(ii) Receipts of fluid milk products (except filled milk) for which Grade A certification is not established;

(iii) Receipts of fluid milk products from unidentified sources;

(iv) Receipts of fluid milk products from a producer-handler as defined under this or any other Federal milk order and from an exempt distributing plant;

(v) Receipts of reconstituted skim milk in filled milk from an unregulated supply plant that were not subtracted pursuant to paragraph (a) (2) (i) of this section;

(vi) Receipts of reconstituted skim milk in filled milk from an other order plant that is regulated under any Federal milk order providing for individual-handler pooling, to the extent that reconstituted skim milk is allocated to Class I at the transferor-plant;

(vii) Receipts of fluid milk products (other than exempt milk) from a government which has elected nonproducer status for the month pursuant to § 1030.19; and

(viii) Receipts of fluid milk products from persons described in § 1030.12(b) (5);

(8) Subtract in the order specified below from the pounds of skim milk remaining in Class II and Class III, in sequence beginning with Class III, but not in excess of such quantities, the pounds of skim milk in each of the following:

(i) Receipts of fluid milk products from an unregulated supply plant that were not subtracted pursuant to paragraph (a) (2) (i) and (7) (v) of this section:

(a) For which the handler requests a classification other than Class I; or

(b) Which are in excess of the pounds of skim milk determined by multiplying the pounds of skim milk remaining in Class I (excluding any duplication of Class I utilization resulting from reported Class I transfers between pool plants of the handler) by 1.25 and subtracting the sum of the pounds of skim milk in receipts of producer milk, fluid milk products from other pool plants (or from pool plants of other handlers if § 1030.43(d) applies), and bulk fluid milk products from other order plants that were not subtracted pursuant to paragraph (a) (7) (vi) of this section; and

(ii) Receipts of bulk fluid milk products from an other order plant that are in excess of bulk fluid milk products transferred or diverted to such plant and that were not subtracted pursuant to paragraph (a) (7) (vi) of this section, if Class II or Class III classification is requested by the operator of the other order plant and the handler;

(9) Subtract from the pounds of skim milk remaining in each class, in series beginning with Class III, the pounds of skim milk in fluid milk products and products specified in § 1030.40(b) (1) in inventory at the beginning of the month that were not subtracted pursuant to paragraph (a) (5) and (7) (i) of this section;

(10) Add to the remaining pounds of skim milk in Class III the pounds of skim milk subtracted pursuant to paragraph (a) (1) of this section;

(11) Subtract from the pounds of skim milk remaining in each class, pro rata to such quantities in Class I and in Class II and Class III combined (excluding any duplication of utilization in each class resulting from transfers between pool plants of the handler), with the quantity prorated to Class II and Class III combined being subtracted first from Class III and then from Class II, the pounds of skim milk in receipts of fluid milk products from an unregulated supply plant that were not subtracted pursuant to paragraph (a) (2) (i), (7) (v), and (8) (i) of this section and that were not offset by transfers or diversions of fluid milk products to the same unregulated supply plant from which fluid milk products to be allocated at this step were received;

(12) Subtract in the order specified below from the pounds of skim milk remaining in each class the pounds of skim milk in receipts of bulk fluid milk products from an other order plant that are in excess of bulk fluid milk products transferred or diverted to such plant and that were not subtracted pursuant to paragraph (a) (7) (vi) and (8) (ii) of this section:

(i) From each class, in series beginning with Class III, the pounds determined by multiplying the pounds of such net receipts by the larger of the percentage of estimated combined Class II and Class III utilization of skim milk announced for the month by the market administrator pursuant to § 1030.45(a) or the percentage that the combined Class II and Class III utilization remaining is of the total remaining utilization of skim milk of the handler (excluding any duplication of utilization in each class resulting from transfers between pool plants of the handler); and

(ii) From Class I, the remainder of such receipts;

(13) Subtract from the pounds of skim milk remaining in each class the pounds of skim milk in receipts of fluid milk products and bulk fluid cream products from other pool plants (or from pool plants of other handlers if § 1030.43(d) applies) according to the classification of such products pursuant to § 1030.42 (a); and

(14) If the total pounds of skim milk remaining in all classes exceed the pounds of skim milk in producer milk, subtract such excess from the pounds of skim milk remaining in each class in series beginning with Class III. Any amount so subtracted shall be known as "overage";

(b) Butterfat shall be allocated in accordance with the procedure outlined for skim milk in paragraph (a) of this section; and

(c) The quantity of producer milk in each class shall be the combined pounds of skim milk and butterfat remaining in each class after the computations pursuant to paragraph (a) (14) of this section and the corresponding step of paragraph (b) of this section.

§ 1030.45 Market administrator's reports and announcements concerning classification.

The market administrator shall make the following reports and announcements concerning classification:

(a) Whenever required for the purpose of allocating receipts from other order plants pursuant to § 1030.44(a) (12) and the corresponding step of § 1030.44 (b), estimate and publicly announce the utilization (to the nearest whole percentage) in each class during the month of skim milk and butterfat, respectively, in producer milk of all handlers. Such estimate shall be based upon the most current available data and shall be final for such purpose.

(b) Report to the market administrator of the other order, as soon as possible after the report of receipts and utilization for the month is received from a handler who has received fluid milk products or bulk fluid cream products from an other order plant, the class to which such receipts are allocated pursuant to § 1030.44 on the basis of such report, and, thereafter, any change in such allocation required to correct errors disclosed in the verification of such report.

(c) Furnish to each handler operating a pool plant who has shipped fluid milk products or bulk fluid cream products to an other order plant the class to which such shipments were allocated by the market administrator of the other order on the basis of the report by the receiving handler, and, as necessary, any changes in such allocation arising from the verification of such report.

(d) On or before the 17th day after the end of each month, report to each cooperative association, upon request by such association, the percentage of the milk caused to be delivered by the cooperative association for its members which was utilized in each class at each pool plant receiving such milk. For the purpose of this report, the milk so received shall be allocated to each class at each pool plant in the same ratio as all producer milk received at such plant during the month.

CLASS PRICES

§ 1030.50 Class prices.

Subject to the provisions of § 1030.52, the class prices for the month per hundredweight of milk containing 3.5 percent butterfat shall be as follows:

(a) *Class I price.*—The Class I price shall be the basic formula price for the second preceding month plus $1.26.

(b) *Class II price.*—The Class II price shall be the basic formula price for the month plus 10 cents.

(c) *Class III price.*—The Class III price shall be the basic formula price for the month.

§ 1030.51 Basic formula price.

The "basic formula price" shall be the average price per hundredweight for manufacturing grade milk, f.o.b. plants in Minnesota and Wisconsin, as reported by the Department for the month, adjusted to a 3.5 percent butterfat basis and rounded to the nearest cent. For such adjustment, the butterfat differential (rounded to the nearest one-tenth cent) per one-tenth percent butterfat shall be 0.12 times the simple average of the wholesale selling prices (using the midpoint of any price range as one price) of Grade A (92-score) bulk butter per pound at Chicago, as reported by the Department for the month. For the purpose of computing the Class I price, the resulting price shall be not less than $4.33.

§ 1030.52 Plant location adjustments for handlers.

A location adjustment for each handler shall be computed by the market administrator as follows:

(a) The market administrator shall determine the location adjustment rate for each plant at which milk is to be priced under this part on the following basis:

(1) Zone 1—adjustment rate—none. Zone I shall consist of the territory within 40 miles of the city hall in Chicago.

(2) Zone 2—adjustment rate—minus 2 cents per hundredweight of milk. Zone 2 shall consist of the territory beyond Zone 1 but within 55 miles of the city hall in Chicago.

(3) Zone 3—adjustment rate—minus 4 cents per hundredweight of milk. Zone 3 shall consist of the territory beyond Zone 2 but within 70 miles of the city hall in Chicago.

(4) Zone 4—adjustment rate—minus 6 cents per hundredweight of milk. Zone 4 shall consist of the territory beyond Zone 3 but within 85 miles of the city hall in Chicago, plus Milwaukee County, Wis., and Winnebago County, Ill.

(5) For plants located beyond Zone 4 the adjustment rate shall be an additional 2 cents per hundredweight of milk for each 15 miles or fraction thereof over 85 miles. The territory beyond 85 miles, but not to exceed 100 miles, shall be Zone 5 and each successive 15-mile area shall be an additional zone.

(b) (1) The mileages applicable pursuant to this section and § 1030.75 shall be determined by the market administrator on the basis of the shortest highway distance between the handler's plant and the city hall in Chicago.

(2) The market administrator shall notify each handler of the zone or mileage determination.

(3) Mileage shall be subject to redetermination at all times. In the event a handler requests a redetermination of the mileage pertaining to any plant, the market administrator shall notify the handler of his findings within 30 days after the receipt of such request. Any financial obligations resulting from a change in mileage shall not be retroactive for any period prior to the redetermination announced by the market administrator.

(c) A handler who operates a pool distributing plant (or plants) shall receive a location adjustment computed as follows:

(1) Determine the aggregate quantity of Class I milk at such plant (or all pool plants of such handler for which a single report is filed pursuant to § 1030.30 after eliminating duplication for transfer between such plants);

(2) Subtract the receipts of exempt milk and the quantity of packaged fluid milk products received at the handler's pool plant(s) from the pool plants of other handlers (or other pool plants, if applicable) and from nonpool plants if assigned to Class I milk;

(3) Subtract the quantity of bulk fluid milk products shipped from the handler's pool plant(s) to pool plants of other handlers (or other pool plants, if applicable) and to nonpool plants that are classified as Class I;

(4) Subtract the Class I milk packaged by pool supply plants and disposed of as route disposition or to other plants;

(5) Subtract the quantity of bulk fluid milk products received at the handler's pool plant(s) from other order plants and unregulated supply plants that are assigned to Class I pursuant to § 1030.44;

(6) Assign the remaining quantity pro rata to receipts during the month from each source as specified in paragraph (c) (6) (i) and (ii) of this section:

(i) Receipts at the handler's pool distributing plant(s) of producer milk, except that if the quantity prorated to any distributing plant exceeds the Class I disposition from such plant, such quantity shall be reduced to the amount of such Class I disposition and the quantity of milk represented in such reduction shall be prorated to receipts of producer milk at other distributing plants of the handler (limited in each instance to the amount of Class I disposition at each such plant) and receipts of bulk fluid milk products at such distributing plants from other pool plants; and

(ii) Receipts of bulk fluid milk products at such distributing plants from each other pool plant according to the quantity of such receipts from each such source;

(7) If receipts during the month at such distributing plants of producer milk and bulk fluid milk products from other pool plants are less than the quantity to be assigned pursuant to paragraph (c) (6) of this section, prorate the amount of such excess in the same manner over such receipts in the next prior month in which there were receipts in excess of those assigned in that month pursuant to this subparagraph;

(8) Multiply by the location adjustment rates applicable at the transferor plants, the quantity assigned to receipts of producer milk at such distributing plants pursuant to paragraph (c) (6) (i) and (7) of this section;

(9) Multiply by the location adjustment rates applicable at the transferor plants, the lesser of:

(i) 110 percent of the quantities assigned to receipts from each other pool plant pursuant to paragraph (c) (6) (ii) of this section; or

(ii) Receipts specified in paragraph (c) (6) (ii) of this section;

(10) Multiply by the location adjustment rates applicable at the transferor plants, the quantities assigned pursuant to paragraph (c) (7) of this section to receipts from other pool plants in prior months;

(11) Multiply the quantity of bulk fluid milk products shipped from the handler's pool plant(s) to nonpool plants and classified as Class I by the location adjustment rates applicable at the shipping plant;

(12) Multiply the quantity of Class I milk packaged by pool supply plants and disposed of as route disposition or to

V 39 I 87 MAY 3 74 XUM

other plants by the location adjustment rates applicable at the pool supply plants from which disposition is made; and

(13) Add together the minus amounts obtained pursuant to paragraph (c) (8), (9), (10), (11), and (12) of this section.

(d) A handler (other than one described in paragraph (c) of this section) who operates a pool supply plant shall receive a location adjustment credit on producer milk at such plant classified as Class I that is not shipped as a bulk fluid milk product to a pool distributing plant.

(e) The Class I price applicable to other source milk shall be reduced at the rates set forth in paragraph (a) of this section, except that the adjusted Class I price shall not be less than the Class III price.

§ 1030.53 Announcement of class prices.

The market administrator shall announce publicly on or before the fifth day of each month the Class I price for the following month and the Class II and Class III prices for the preceding month.

§ 1030.54 Equivalent price.

If for any reason a price quotation or other pricing factor required by this order for computing class prices or for other purposes is not available in the manner described, the market administrator shall use a price quotation or price factor determined by the Secretary to be equivalent to that required.

UNIFORM PRICE

§ 1030.60 Handler's value of milk for computing uniform price.

For the purpose of computing the uniform price, the market administrator shall determine for each month the value of milk of each handler described in § 1030.9 (a), (b), (c), and (h) as follows:

(a) Multiply the pounds of producer milk in each class as determined pursuant to § 1030.44 by the applicable class prices and add the resulting amounts;

(b) Add the amounts obtained from multiplying the pounds of overage subtracted from each class pursuant to § 1030.44(a)(14) and the corresponding step of § 1030.44(b) by the respective class prices, as adjusted by the butterfat differential specified in § 1030.74, that are applicable at the location of the pool plant;

(c) Add the amount obtained from multiplying the difference between the Class III price for the preceding month and the Class I price applicable at the location of the pool plant or the Class II price, as the case may be, for the current month by the hundredweight of skim milk and butterfat subtracted from Class I and Class II pursuant to § 1030.44 (a)(9) and the corresponding step of § 1030.44(b);

(d) Add the amount obtained from multiplying the difference between the Class I price applicable at the location of the pool plant and the Class III price by the hundredweight of skim milk and butterfat subtracted from Class I pursuant to § 1030.44(a)(7) (i) through (iv), (vii), and (viii) and the corresponding step of § 1030.44(b), excluding receipts of bulk fluid cream products from an other order plant;

(e) Add the amount obtained from multiplying the difference between the Class I price applicable at the location of the transferor-plant and the Class III price by the hundredweight of skim milk and butterfat subtracted from Class I pursuant to § 1030.44(a)(7) (v) and (vi) and the corresponding step of § 1030.44 (b);

(f) Add the amount obtained from multiplying the Class I price applicable at the location of the nearest unregulated supply plants from which an equivalent volume was received by the pounds of skim milk and butterfat subtracted from Class I pursuant to § 1030.44(a) (11) and the corresponding step of § 1030.44(b), excluding such skim milk and butterfat in receipts of bulk fluid milk products from an unregulated supply plant to the extent that an equivalent amount of skim milk or butterfat disposed of to such plant by handlers fully regulated under any Federal milk order is classified and priced as Class I milk and is not used as an offset for any other payment obligation under any order; and

(g) Subtract an amount equal to the minus location adjustment computed pursuant to § 1030.52(c) (13) or (d).

§ 1030.61 Computation of uniform price.

For each month the market administrator shall compute the uniform price per hundredweight of producer milk of 3.5 percent butterfat content at plants in Zone I pursuant to paragraphs (a) through (e) of this section. If the unreserved cash balance in the producer-settlement fund to be included in the computation is less than 2 cents per hundredweight of producer milk on all reports, the report of any handler who has not made the payments required pursuant to § 1030.71 for the preceding month shall not be included in the computation of the uniform price. The report of such handler shall not be included in the computation for succeeding months until he has made full payment of outstanding monthly obligations. Subject to the aforementioned conditions, the market administrator shall compute the uniform price in the following manner:

(a) Combine into one total the values computed pursuant to § 1030.60 for all handlers;

(b) Add an amount equal to the total value of the minus location adjustments computed pursuant to § 1030.75(a);

(c) Add an amount representing not less than one-half the unobligated balance in the producer-settlement fund;

(d) Divide the resulting amount by the sum of the following for all handlers included in these computations:

(1) The total hundredweight of producer milk; and

(2) The total hundredweight for which a value is computed pursuant to § 1030.60(f); and

(e) Subtract not less than 4 cents nor more than 5 cents per hundredweight.

§ 1030.62 Announcement of uniform price and butterfat differential.

The market administrator shall announce publicly on or before:

(a) The fifth day after the end of each month the butterfat differential for such month; and

(b) The 14th day after the end of each month the uniform price for such month.

PAYMENTS FOR MILK

§ 1030.70 Producer-settlement fund.

The market administrator shall maintain a separate fund known as the "producer-settlement" fund into which he shall deposit all payments received pursuant to paragraph (a) of this section and out of which he shall make all payments required pursuant to paragraph (b) of this section.

(a) Payments made by handlers pursuant to §§ 1030.71, 1030.76, 1030.77 and 1030.78.

(b) Payments due handlers pursuant to §§ 1030.72 and 1030.77: *Provided*, That payments due any handler shall be offset by payments due from such handler pursuant to §§ 1030.71, 1030.76, 1030.77, 1030.78, 1030.85 and 1030.86.

§ 1030.71 Payments to the producer-settlement fund.

(a) On or before the 16th day after the end of the month, each handler shall pay to the market administrator the amount, if any, by which the amount specified in paragraph (a)(1) of this section exceeds the amount specified in paragraph (a)(2) of this section:

(1) The total value of milk of the handler for such month as determined pursuant to § 1030.60.

(2) The sum of:

(i) The value at the uniform price, as adjusted pursuant to § 1030.75, of such handler's receipts of producer milk; and

(ii) The value at the uniform price applicable at the location of the plant from which received of other source milk for which a value is computed pursuant to § 1030.60(f).

(b) On or before the 25th day after the end of the month each person who operated an other order plant that was regulated during such month under an order providing for individual-handler pooling shall pay to the market administrator an amount computed as follows:

(1) Determine the quantity of reconstituted skim milk in filled milk in route disposition from such plant in the marketing area which was allocated to Class I at such plant. If there is such route disposition from such plant in marketing areas regulated by two or more marketwide pool orders, the reconstituted skim milk allocated to Class I shall be prorated to each order according to such route disposition in each marketing area; and

(2) Compute the value of the reconstituted skim milk assigned in paragraph (b)(1) of this section to route disposition in this marketing area by multiplying the quantity of such skim milk by the difference between the Class I price under this part that is applicable at the location of the other order plant (but not to be less than the Class III price) and the Class III price.

§ 1030.72 Payments from the producer-settlement fund.

On or before the 17th day after the end of each month, the market administrator shall pay to each handler the amount, if any, by which the amount computed pursuant to § 1030.71(a)(2) exceeds the amount computed pursuant to § 1030.71 (a)(1): *Provided*, That if the balance in the producer-settlement fund is insufficient to make all payments pursuant to this section, the market administrator shall reduce uniformly such payments and shall complete such payments as soon as the necessary funds become available.

§ 1030.73 Payments to producers and to cooperative associations.

(a) Each handler shall pay each producer for producer milk received from such producer and for which payment is not made to a cooperative association pursuant to paragraph (b) or (c) of this section as follows:

(1) On or before the 3rd day after the end of each month, to each producer who has not discontinued shipping milk to such handler before the end of the month, for producer milk received during the first 15 days of the month at a rate per hundredweight not less than the lowest class price under the order for milk of 3.5 percent butterfat for the preceding month, less proper deductions authorized in writing by such producer; and

(2) On or before the 18th day after the end of each month, for producer milk received during such month, at a rate per hundredweight of not less than the uniform price as adjusted pursuant to §§ 1030.74, 1030.75 and 1030.86, less any payment made pursuant to paragraph (a)(1) of this section, and any proper deduction authorized in writing by such producer and plus or minus adjustments for errors in previous payments made to such producer. If by such date the handler has not received full payment from the market administrator pursuant to § 1030.72 for such month, he may reduce pro rata his payments to producers by not more than the amount of such underpayment. Payment to producers shall be completed thereafter not later than the date for making payments pursuant to this paragraph next following receipt of the balance due from the market administrator.

(b) Payments required in paragraph (a) of this section shall be made by a handler to a cooperative association qualified under § 1030.18, or its duly authorized agent, for producer milk if the cooperative association is authorized to collect such payments for such producers and has presented the handler with a written request for such payments. Payments to the cooperative association pursuant to this paragraph shall be subject to the condition that the association has provided the handler with a written promise to reimburse the handler the amount of any actual loss incurred by the handler because of any improper claim on the part of the cooperative association. The amount of payment shall be equal to the sum of the individual payments otherwise payable for such producer milk and shall be paid by the handler as follows:

(1) On or before the 1st day after the end of each month for producer milk received during the first 15 days of the month; and

(2) On or before the 16th day after the end of each month for milk received during such month.

(c) Each handler shall pay a cooperative association for milk received by the handler from the cooperative association as follows:

(1) In the case of milk received from a pool plant(s) operated by a cooperative association:

(i) For milk received during the first 15 days of the month, the handler shall pay the cooperative association on or before the 1st day after the end of the month during which the milk was received at a rate per hundredweight not less than the lowest class price under the order for milk of 3.5 percent butterfat for the preceding month; and

(ii) For milk received during the month the handler shall pay the cooperative association on or before the 16th day after the end of the month during which the milk was received at a rate per hundredweight not less than the minimum class prices pursuant to § 1030.50, as adjusted by the butterfat differential specified in § 1030.74, and less any payment made pursuant to paragraph (c)(1)(i) of this section; and

(2) In the case of milk received from a cooperative association acting as a handler described under § 1030.9(c);

(i) For milk received during the first 15 days of the month, the handler shall pay a cooperative association on or before the 1st day after the end of the month during which the milk was received at a rate per hundredweight not less than the lowest class price under the order for milk of 3.5 percent butterfat for the preceding month; and

(ii) For milk received during the month, the handler shall pay the cooperative association on or before the 16th day after the end of the month during which the milk was received at a rate per hundredweight of not less than the uniform price computed as described under § 1030.61, as adjusted pursuant to §§ 1030.74 and 1030.75 and less any payment made pursuant to paragraph (c)(2)(i) of this section.

(d) In making payments for producer milk pursuant to paragraphs (a)(2) or (b)(2) of this section, each handler shall furnish each producer or cooperative association to whom such payment is made a supporting statement in such form that it may be retained by the recipient which shall show:

(1) The month and identity of the producer;

(2) The daily and total pounds for each producer (and the average butterfat content for the entire month only);

(3) The minimum rate or rates at which payment to the producer is required pursuant to this order;

(4) The rate that is used in making the payment if such rate is other than the applicable minimum rate;

(5) The amount, or the rate per hundredweight, and nature of each deduction claimed by the handler; and

(6) The net amount of payment to such producer or cooperative association.

§ 1030.74 Butterfat differential.

For milk containing more or less than 3.5 percent butterfat, the uniform price shall be increased or decreased, respectively, for each one-tenth percent butterfat variation from 3.5 percent by a butterfat differential, rounded to the nearest one-tenth cent, which shall be 0.115 times the simple average of the wholesale selling prices (using the midpoint of any price range as one price) of Grade A (92-score) bulk butter per pound at Chicago, as reported by the Department for the month.

§ 1030.75 Plant location adjustments for producers and on nonpool milk.

(a) The uniform price pursuant to § 1030.61 for producer milk received at a plant shall be adjusted according to the location of the plant at the rates set forth in § 1030.52(a).

(b) The uniform price applicable to other source milk shall be reduced at the rates set forth in § 1030.52(a), except that the adjusted uniform price shall not be less than the Class III price.

§ 1030.76 Payments by handler operating a partially regulated distributing plant.

Each handler who operates a partially regulated distributing plant shall pay on or before the 25th day after the end of the month to the market administrator for the producer-settlement fund the amount computed pursuant to paragraph (a) of this section. If the handler submits pursuant to §§ 1030.30(b) and 1030.31(b) the information necessary for making the computations, such handler may elect to pay in lieu of such payment the amount computed pursuant to paragraph (b) of this section:

(a) The payment under this paragraph shall be the amount resulting from the following computations:

(1) Determine the pounds of route disposition in the marketing area from the partially regulated distributing plant;

(2) Subtract the pounds of fluid milk products received at the partially regulated distributing plant:

(i) As Class I milk from pool plants and other order plants, except that subtracted under a similar provision of another Federal milk order; and

(ii) From another nonpool plant that is not an other order plant to the extent that an equivalent amount of fluid milk products disposed of to such nonpool plant by handlers fully regulated under any Federal milk order is classified and priced as Class I milk and is not used as an offset for any other payment obligation under any order;

V 39 I 87
MAY 3 74
XUM

(3) Subtract the pounds of reconstituted skim milk in route disposition in the marketing area from the partially regulated distributing plant;

(4) Multiply the remaining pounds by the difference between the Class I price and the uniform price, both prices to be applicable at the location of the partially regulated distributing plant (but not to be less than the Class III price); and

(5) Add the amount obtained from multiplying the pounds of reconstituted skim milk specified in paragraph (a)(3) of this section by the difference between the Class I price applicable at the location of the partially regulated distributing plant (but not to be less than the Class III price) and the Class III price.

(b) The payment under this paragraph shall be the amount resulting from the following computations:

(1) Determine the value that would have been computed pursuant to § 1030.60 for the partially regulated distributing plant if the plant had been a pool plant, subject to the following modifications:

(i) Fluid milk products and bulk fluid cream products received at the partially regulated distributing plant from a pool plant or an other order plant shall be allocated at the partially regulated distributing plant to the same class in which such products were classified at the fully regulated plant;

(ii) Fluid milk products and bulk fluid cream products transferred from the partially regulated distributing plant to a pool plant or an other order plant shall be classified at the partially regulated distributing plant in the class to which allocated at the fully regulated plant. Such transfers shall be allocated to the extent possible to those receipts at the partially regulated distributing plant from pool plants and other order plants that are classified in the corresponding class pursuant to paragraph (b)(1)(i) of this section. Any such transfers remaining after the above allocation which are classified in Class I and for which a value is computed for the handler operating the partially regulated distributing plant pursuant to § 1030.60 shall be priced at the uniform price (or at the weighted average price if such is provided) of the respective order regulating the handling of milk at the transferee-plant, with such uniform price adjusted to the location of the nonpool plant (but not to be less than the lowest class price of the respective order), except that transfers of reconstituted skim milk in filled milk shall be priced at the lowest class price of the respective order; and

(iii) If the operator of the partially regulated distributing plant so requests, the value of milk determined pursuant to § 1030.60 for such handler shall include, in lieu of the value of other source milk specified in § 1030.60(f) less the value of such other source milk specified in § 1030.71(a)(2)(ii), a value of milk determined pursuant to § 1030.60 for each nonpool plant that is not an other order plant which serves as a supply plant for such partially regulated distributing plant by making shipments to the partially regulated distributing plant during the month equivalent to the requirements of § 1030.7(b), subject to the following conditions:

(*a*) The operator of the partially regulated distributing plant submits with his reports filed pursuant to §§ 1030.30(b) and 1030.31(b) similar reports for each such nonpool supply plant;

(b) The operator of such nonpool supply plant maintains books and records showing the utilization of all skim milk and butterfat received at such plant which are made available if requested by the market administrator for verification purposes; and

(c) The value of milk determined pursuant to § 1030.60 for such nonpool supply plant shall be determined in the same manner prescribed for computing the obligation of such partially regulated distributing plant; and

(2) From the partially regulated distributing plant's value of milk computed pursuant to paragraph (b)(1) of this section, subtract:

(i) The gross payments by the operator of such partially regulated distributing plant, adjusted to a 3.5 percent butterfat basis by the butterfat differential specified in § 1030.74, for milk received at the plant during the month that would have been producer milk if the plant had been fully regulated;

(ii) If paragraph (b)(1)(iii) of this section applies, the gross payments by the operator of such nonpool supply plant, adjusted to a 3.5 percent butterfat basis by the butterfat differential specified in § 1030.74, for milk received at the plant during the month that would have been producer milk if the plant had been fully regulated; and

(iii) The payments by the operator of the partially regulated distributing plant to the producer-settlement fund of another order under which such plant is also a partially regulated distributing plant and like payments by the operator of the nonpool supply plant if paragraph (b)(1)(iii) of this section applies.

§ 1030.77 Adjustment of accounts.

When verification by the market administrator of reports or payment of any handler discloses errors resulting in monies due (a) the market administrator from such handler, (b) such handler from the market administrator, or (c) any producer or cooperative association from such handler, the market administrator shall promptly notify such handler of any amount so due and payment thereof shall be made not later than the date for making payment next following such disclosure.

§ 1030.78 Charges on overdue accounts.

Any unpaid obligation of a handler pursuant to §§ 1030.71, 1030.76, 1030.77, 1030.85 or 1030.86, shall be increased three-fourths of one percent on the 7th day after the due date each month.

(a) The amounts payable pursuant to this section shall be computed monthly on each unpaid obligation, which shall include any unpaid interest charges previously computed pursuant to this section;

(b) For the purpose of this section, any unpaid obligation that is determined at a date later than prescribed by the order because of a handler's failure to submit a report to the market administrator shall be considered to have been due when it would have been due if such report had been submitted at the proper time; and

(c) Payment of any interest obligation computed pursuant to this section in an amount less than $10 shall be delayed until the accumulated interest obligation of such handler equals or exceeds $10.

ADMINISTRATIVE ASSESSMENT AND MARKETING SERVICE DEDUCTION

§ 1030.85 Assessment for order administration.

As his pro rata share of the expense of administration of the order, each handler shall pay to the market administrator on or before the 18th day after the end of each month 4 cents per hundredweight, or such lesser amount as the Secretary may prescribe, with respect to:

(a) Producer milk (including such handler's own farm production and including for a handler described in § 1030.9(c) producer milk described in § 1030.13(d));

(b) Other source milk allocated to Class I pursuant to § 1030.44(a)(7) and (11) and the corresponding steps of § 1030.44(b), except such other source milk that is excluded from the computations pursuant to § 1030.60(d) and (f); and

(c) Route disposition in the marketing area from a partially regulated distributing plant that exceeds the skim milk and butterfat subtracted pursuant to § 1030.76(a)(2).

§ 1030.86 Deduction for marketing services.

(a) Except as set forth in paragraph (b) of this section, each handler in making payments to each producer pursuant to § 1030.73 shall deduct 5 cents per hundredweight or such lesser amount as the Secretary may prescribe with respect to producer milk received by such handler (except such handler's own farm production) during the month, and shall pay such deductions to the market administrator not later than the 18th day after the end of the month. Such monies shall be used by the market administrator to verify or establish weights, samples, and tests of producer milk and to provide producers with market information. Such services shall be performed by the market administrator or by an agent engaged by and responsible to him.

(b) In the case of member producers for whom a cooperative association is performing, as determined by the Secretary, the services set forth in paragraph (a) of this section, each handler shall make, in lieu of the deductions specified in paragraph (a) of this section such deductions as are authorized by such producers and, on or before the 18th day after the end of each month, pay over such deductions to the association rendering such services.

PART 1032—MILK IN SOUTHERN ILLINOIS MARKETING AREA

Subpart—Order Regulation Handling

GENERAL PROVISIONS

Sec.
1032.1 General provisions.

DEFINITIONS

1032.2 Southern Illinois marketing area.
1032.3 Route disposition.
1032.4 [Reserved]
1032.5 Distributing plant.
1032.6 Supply plant.
1032.7 Pool plant.
1032.8 Nonpool plant.
1032.9 Handler.
1032.10 Produced-handler.
1032.11 [Reserved]
1032.12 Producer.
1032.13 Producer milk.

CLASSIFICATION OF MILK

1032.40 Classes of utilization.
1032.41 Shrinkage.
1032.42 Classification of transfers and diversions.
1032.43 General classification rules.
1032.44 Classification of producer milk.
1032.45 Market administrator's reports and announcements concerning classification.

CLASS PRICES

1032.50 Class prices.
1032.51 Basic formula price.
1032.52 Plant location adjustments for handlers.
1032.53 Announcement of class prices.
1032.54 Equivalent price.

UNIFORM PRICE

1032.60 Handler's value of milk for computing uniform price.
1032.61 Computation of uniform price (including weighted average price).
1032.62 Announcement of uniform price and butterfat differential.

PAYMENTS FOR MILK

1032.70 Producer-settlement fund.
1032.71 Payments to the producer-settlement fund.
1032.72 Payments from the producer-settlement fund.
1032.73 Payments to producers and to cooperative associations.
1032.74 Butterfat differential.
1032.75 Plant location adjustments for producers and on nonpool milk.
1032.76 Payments by handler operating a partially regulated distributing plant.
1032.77 Adjustment of accounts.
1032.78 Charges on overdue accounts.

ADMINISTRATIVE ASSESSMENT AND MARKETING SERVICE DEDUCTION

1032.85 Assessment for order administration.
1032.86 Deduction for marketing services.

AUTHORITY: The provisions of this Part 1032 issued under secs. 1–19, 48 Stat. 31, as amended (7 U.S.C. 601–674).

GENERAL PROVISIONS

§ 1032.1 General provisions.

The terms, definitions, and provisions in Part 1000 of this chapter are hereby incorporated by reference and made a part of this order.

DEFINITIONS

§ 1032.2 Southern Illinois marketing area.

"Southern Illinois marketing area", hereinafter called the "marketing area", means all the territory within the following counties, all of which are in the State of Illinois, together with all municipal corporations therein and all institutions owned or operated by the Federal, State, county, or municipal governments located wholly or partially within such counties:

BASE ZONE

Bond.
Calhoun.
Christian.
Clark.
Clay.
Clinton.
Coles.
Crawford.
Cumberland.
Edwards.
Effingham.
Fayette.
Greene.
Jasper.
Jefferson.
Jersey.
Lawrence.
Macoupin.
Madison.
Marion.
Monroe.
Montgomery.
Richland.
St. Clair (except Scott Military Reservation, East St. Louis, Centreville, Canteen, and Stites Townships and the city of Belleville).
Shelby.
Wabash.
Washington.
Wayne.

NORTHERN ZONE

Champaign.
De Witt.
Douglas.
Edgar.
Logan.
Macon.
McLean.
Menard.
Morgan.
Moultrie.
Platt.
Sangamon.
Vermilion.

SOUTHERN ZONE

Franklin.
Hamilton.
Jackson.
Perry.
Randolph.
Saline.
White.
Williamson.

§ 1032.3 Route disposition.

"Route disposition" means a delivery (including disposition from a plant store or from a distributing point and distribution by a vendor or vending machine) to a retail or wholesale outlet, other than a plant, of any fluid milk product classified as Class I milk.

§ 1032.4 [Reserved]

§ 1032.5 Distributing plant.

"Distributing plant" means any plant at which fluid milk products are processed and packaged and from which there is route disposition of Grade A fluid milk products in the marketing area during the month.

§ 1032.6 Supply plant.

"Supply plant" means any plant at which Grade A milk is received from dairy farmers and from which fluid milk products are moved to a distributing plant.

§ 1032.7 Pool plant.

Except as provided in paragraph (d) of this section, "pool plant" means a plant specified in paragraph (a), (b), or (c) of this section. For purposes of determining pool plant status pursuant to this section, Grade A receipts from dairy farmers shall include all quantities of milk diverted pursuant to § 1032.13(b)(1), (2), and (3) by an operator of a pool plant.

(a) A distributing plant from which during the month there is:

(1) Route disposition, except filled milk, in the marketing area equal to 10 percent or more of its Grade A receipts from dairy farmers and handlers described in § 1032.9(c), or an average of not less than 7,000 pounds per day of route disposition, except filled milk, in the marketing area; and

(2) Total route disposition, except filled milk, equal to 50 percent or more of its Grade A receipts from dairy farmers and handlers described in § 1032.9(c) during the months of August through February and 40 percent during all other months.

(b) A supply plant from which during the month an amount equal to 50 percent or more of its receipts of Grade A milk from dairy farmers and handlers described in § 1032.9(c) is moved to and received at a pool plant(s) described in paragraph (a) of this section which have at least 50 percent Class I use (not including filled milk) of the total of such supply plant milk and producer milk receipts in the months of August through February and 40 percent in other months.

(c) Any supply plant which qualified pursuant to paragraph (b) of this section in each of the immediately preceding months of September through January shall be a pool plant for the months of February through August unless the operator of such plant notifies the market administrator in writing before the first day of any such month of his intention to withdraw such plant as a pool plant, in which case such plant shall thereafter be a nonpool plant until it again meets the shipping requirements set forth in paragraph (b) of this section.

(d) The term "pool plant" shall not apply to the following plants:

(1) A producer-handler plant;

(2) A distributing plant qualified pursuant to paragraph (a) of this section which meets the requirements of a fully regulated plant pursuant to the provisions of another order issued pursuant to the Act and from which during the month there is a greater quantity of route disposition, except filled milk, in the marketing area regulated by the other order than in the Southern Illinois marketing area: *Provided*, That such a distributing plant which was a pool plant under this order in the immediately preceding month shall continue to be subject to all of the provisions of this part until the third consecutive month

V 39 I 87 MAY 3 74 XUM

in which a greater proportion of such route disposition is made in such other marketing area, unless the other order requires regulation of the plant without regard to its qualifying as a pool plant under this order subject to the proviso of this subparagraph;

(3) A distributing plant qualified pursuant to paragraph (a) of this section which meets the requirements of a fully regulated plant pursuant to the provisions of another Federal order and from which during the month there is a greater quantity of route disposition, except filled milk, in the Southern Illinois marketing area than in the other marketing area, and such other order which fully regulates the plant does not contain provisions to exempt the plant from regulation even though such plant has greater such route disposition in the marketing area of the Southern Illinois order; and

(4) Any plant qualified pursuant to paragraph (c) of this section for any portion of the period of February through August, inclusive, that the milk at such plant is subject to the classification and pricing provisions of another order issued pursuant to the Act.

§ 1032.8 Nonpool plant.

"Nonpool plant" means any milk or filled milk receiving, manufacturing, or processing plant other than a pool plant. The following categories of nonpool plants are further defined as follows:

(a) "Other order plant" means a plant that is fully subject to the pricing and pooling provisions of another order issued pursuant to the Act.

(b) "Producer-handler plant" means a plant operated by a producer-handler as defined in any order (including this part) issued pursuant to the Act.

(c) "Partially regulated distributing plant" means a nonpool plant that is neither an other order plant nor a producer-handler plant, from which there is route disposition in consumer-type packages or dispenser units in the marketing area during the month.

(d) "Unregulated supply plant" means a nonpool plant that is neither an other order plant nor a producer-handler plant, from which fluid milk products are shipped to a pool plant.

§ 1032.9 Handler.

"Handler" means:

(a) Any person in his capacity as the operator of a pool plant;

(b) Any cooperative association with respect to milk of its members diverted for its account pursuant to § 1032.13;

(c) Any cooperative association with respect to the milk of its members which is received from the farm for delivery to the pool plant of another handler in a tank truck owned and operated by, or under contract to such cooperative association. The cooperative association, prior to the first day of the month of delivery, shall notify in writing the market administrator and the handler to whose plant the milk is delivered, that it will be the handler for the milk. For purposes of location adjustments to producers, milk so delivered shall be deemed to have been received by the cooperative association at a pool plant at the location of the pool plant to which it is delivered;

(d) Any person in his capacity as the operator of a partially regulated distributing plant;

(e) A producer-handler;

(f) Any person who operates an other order plant described in § 1032.7(d); and

(g) Any person in his capacity as the operator of an unregulated supply plant.

§ 1032.10 Producer-handler.

"Producer-handler" means a person who:

(a) Operates a distributing plant and processes milk from his own farm production and who disposes of all or a portion of such milk as route disposition in the marketing area but who receives no milk from other dairy farmers or fluid milk products from nonpool plants: *Provided*, That the skim milk and butterfat disposed of in the form of fluid milk products designated as Class I milk pursuant to § 1032.40(a) does not exceed the skim milk and butterfat, respectively, in the form of milk from his own farm production, and in the form of fluid milk products from pool plants of other handlers, allowing for inventory derived from such sources; and

(b) Assumes as his personal enterprise and risk the processing and distribution of fluid milk products and the maintenance, care, and management of dairy animals and other resources necessary to produce his own farm milk production.

§ 1032.11 [Reserved]

§ 1032.12 Producer.

(a) Except as provided in paragraph (b) of this section, "producer" means any person who produces milk in compliance with the Grade A inspection requirements of a duly constituted health authority, and whose milk is received at a pool plant or diverted as producer milk pursuant to § 1032.13.

(b) "Producer" shall not include:

(1) A producer-handler as defined in any order (including this part) issued pursuant to the Act;

(2) Any person with respect to milk produced by him which is diverted to a pool plant from an other order plant if the other order designates such person as a producer under that order and such milk is allocated to Class II or Class III utilization pursuant to § 1032.44(a)(8)(iii) and the corresponding step of § 1032.44(b); and

(3) Any person with respect to milk produced by him which is reported as diverted to an other plant if any portion of such person's milk so moved is assigned to Class I under the provisions of such other order.

§ 1032.13 Producer milk.

"Producer milk" means all skim milk and butterfat produced by producers which is:

(a) Received during the month:

(1) At a pool plant from producers or from a handler described in § 1032.9(c); and

(2) By a handler described in § 1032.9(c) but which is not delivered to a pool plant of another handler and constitutes shrinkage pursuant to § 1032.41(c) or Class I shrinkage; or

(b) Diverted by a handler who is the operator of a pool plant or by a cooperative association pursuant to the following conditions:

(1) Milk of a producer diverted from a pool plant for the account of the plant operator to another pool plant(s) for not more days of production of such producer's milk than is physically received at a pool plant(s) from which diverted;

(2) Milk of a producer diverted from a pool plant to a nonpool plant that is not a producer-handler plant or an other order plant, on any day during the months of May, June, and July, during the months of August and December for not more than 12 days of production of producer milk by such producer, and in any other month for not more than 8 days of production of producer milk by such producer;

(3) Milk of a producer diverted during the month from a pool plant to a nonpool plant that is an other order plant, for not more days of production of producer milk, by such producer than is received at a pool plant(s) pursuant to paragraph (a) of this section;

(4) For pricing purposes, milk diverted pursuant to paragraph (b)(2) and (3) of this section shall be deemed to be received by the diverting handler at the location of the plant to which diverted: *Provided*, That milk diverted pursuant to paragraph (b)(2) of this section to a plant located less than 50 miles (by the shortest highway distance as determined by the market administrator) from the pool plant from which diverted, shall be deemed to be received by the diverting handler at the location of the plant from which diverted; and

(5) For pricing purposes, milk diverted pursuant to paragraph (b)(1) of this section shall be deemed to be received by the diverting handler at the location of the plant to which diverted.

§ 1032.14 Other source milk.

"Other source milk" means all skim milk and butterfat contained in or represented by:

(a) Receipts of fluid milk products and bulk products specified in § 1032.40(b)(1) from any source other than producers, handlers described in § 1032.9(c), or pool plants;

(b) Receipts in packaged form from other plants of products specified in § 1032.40(b)(1);

(c) Products (other than fluid milk products, products specified in § 1032.40(b)(1), and products produced at the plant during the same month) from any source which are reprocessed, converted into, or combined with another product in the plant during the month; and

(d) Receipts of any milk product (other than a fluid milk product or a product specified in § 1032.40(b)(1)) for which the handler fails to establish a disposition.

§ 1032.15 Fluid milk product.

(a) Except as provided in paragraph (b) of this section, "fluid milk product" means any of the following products in fluid or frozen form:

(1) Milk, skim milk, lowfat milk, milk drinks, buttermilk, filled milk, and milkshake and ice milk mixes containing less than 20 percent total solids, including any such products that are flavored, cultured, modified with added nonfat milk solids, concentrated (if in a consumer-type package), or reconstituted; and

(2) Any milk product not specified in paragraph (a)(1) of this section or in § 1032.40(b) or (c)(1)(i) through (v) if it contains by weight at least 80 percent water and 6.5 percent nonfat milk solids and less than 9 percent butterfat and 20 percent total solids.

(b) The term "fluid milk product" shall not include:

(1) Evaporated or condensed milk (plain or sweetened), evaporated or condensed skim milk (plain or sweetened), formulas especially prepared for infant feeding or dietary use that are packaged in hermetically sealed glass or all-metal containers, any product that contains by weight less than 6.5 percent nonfat milk solids, and whey; and

(2) The quantity of skim milk in any modified product specified in paragraph (a) of this section that is in excess of the quantity of skim milk in an equal volume of an unmodified product of the same nature and butterfat content.

§ 1032.16 Fluid cream product.

"Fluid cream product" means cream (other than plastic cream or frozen cream), sour cream, or a mixture (including a cultured mixture) of cream and milk or skim milk containing 9 percent or more butterfat, with or without the addition of other ingredients.

§ 1032.17 Filled milk.

"Filled milk" means any combination of nonmilk fat (or oil) with skim milk (whether fresh, cultured, reconstituted, or modified by the addition of nonfat milk solids), with or without milkfat, so that the product (including stabilizers, emulsifiers, or flavoring) resembles milk or any other fluid milk product, and contains less than 6 percent nonmilk fat (or oil).

§ 1032.18 Cooperative association.

"Cooperative association" means any cooperative marketing association of producers which the Secretary determines:

(a) To be qualified under the provisions of the Act of Congress of February 18, 1922, as amended, known as the "Capper-Volstead Act"; and

(b) To be engaged in making collective sales, or marketing milk or its products for its members.

§ 1032.19 Reload point.

"Reload point" means a location at which facilities approved by a duly constituted health authority, only for the transfer of milk from one tank truck to another and for the washing of tank trucks and at which milk moved from the farm in a tank truck is commingled in a tank truck with milk from other tank trucks before entering a milk plant: *Provided*, That reloading facilities on the premises of a plant having equipment for the receiving, cooling, storing, and processing of milk, which equipment is in current use during the month, shall be considered a supply plant rather than a reload point.

HANDLER REPORTS

§ 1032.30 Reports of receipts and utilization.

On or before the 7th day after the end of each month, each handler shall report for such month to the market administrator, in the detail and on the forms prescribed by the market administrator, as follows:

(a) Each handler, with respect to each of his pool plants, shall report the quantities of skim milk and butterfat contained in or represented by:

(1) Receipts of producer milk, including producer milk diverted by the handler from the pool plant to other plants;

(2) Receipts of milk from handlers described in § 1032.9(c);

(3) Receipts of fluid milk products and bulk fluid cream products from other pool plants;

(4) Receipts of other source milk;

(5) Inventories at the beginning and end of the month of fluid milk products and products specified in § 1032.40(b)(1); and

(6) The utilization or disposition of all milk, filled milk, and milk products required to be reported pursuant to this paragraph.

(b) Each handler operating a partially regulated distributing plant shall report with respect to such plant in the same manner as prescribed for reports required by paragraph (a) of this section. Receipts of milk that would have been producer milk if the plant had been fully regulated shall be reported in lieu of producer milk. Such report shall show also the quantity of any reconstituted skim milk in route disposition in the marketing area.

(c) Each handler described in § 1032.9(b) and (c) shall report:

(1) The quantities of all skim milk and butterfat contained in receipts of milk from producers; and

(2) The utilization or disposition of all such receipts.

(d) Each handler not specified in paragraphs (a) through (c) of this section shall report with respect to his receipts and utilization of milk, filled milk, and milk products in such manner as the market administrator may prescribe.

§ 1032.31 Payroll reports.

(a) On or before the 20th day after the end of each month, each handler described in § 1032.9 (a), (b), and (c) shall report to the market administrator his producer payroll for such month, in the detail prescribed by the market administrator, showing for each producer:

(1) His name and address;

(2) The total pounds of milk received from such producer;

(3) The average butterfat content of such milk; and

(4) The price per hundredweight, the gross amount due, the amount and nature of any deductions, and the net amount paid.

(b) Each handler operating a partially regulated distributing plant who elects to make payment pursuant to § 1032.76(b) shall report for each dairy farmer who would have been a producer if the plant had been fully regulated in the same manner as prescribed for reports required by paragraph (a) of this section.

§ 1032.32 Other reports.

In addition to the reports required pursuant to §§ 1032.30 and 1032.31, each handler shall report such other information as the market administrator deems necessary to verify or establish such handler's obligation under the order.

CLASSIFICATION OF MILK

§ 1032.40 Classes of utilization.

Except as provided in § 1032.42, all skim milk and butterfat required to be reported by a handler pursuant to § 1032.30 shall be classified as follows:

(a) *Class I milk.* Class I milk shall be all skim milk and butterfat:

(1) Disposed of in the form of a fluid milk product, except as otherwise provided in paragraphs (b) and (c) of this section; and

(2) Not specifically accounted for as Class II or Class III milk.

(b) *Class II milk.* Class II milk shall be all skim milk and butterfat:

(1) Disposed of in the form of a fluid cream product, eggnog, yogurt, and any product containing 6 percent or more nonmilk fat (or oil) that resembles a fluid cream product, eggnog, or yogurt, except as otherwise provided in paragraph (c) of this section;

(2) In packaged inventory at the end of the month of the products specified in paragraph (b)(1) of this section;

(3) In bulk fluid milk products and bulk fluid cream products disposed of to any commercial food processing establishment (other than a milk or filled milk plant) at which food products (other than milk products and filled milk) are processed and from which there is no disposition of fluid milk products or fluid cream products other than those received in consumer-type packages; and

(4) Used to produce:

(i) Cottage cheese, lowfat cottage cheese, and dry curd cottage cheese;

(ii) Milkshake and ice milk mixes (or bases) containing 20 percent or more total solids, frozen desserts, and frozen dessert mixes;

V 39 I 87 MAY 3 74 XUM

(iii) Any concentrated milk product in bulk, fluid form other than that specified in paragraph (c)(1)(iv) of this section;

(iv) Plastic cream, frozen cream, and anhydrous milkfat;

(v) Custards, puddings, and pancake mixes; and

(vi) Formulas especially prepared for infant feeding or dietary use that are packaged in hermetically sealed glass or all-metal containers.

(c) *Class III milk.* Class III milk shall be all skim milk and butterfat:

(1) Used to produce:

(i) Cheese (other than cottage cheese, lowfat cottage cheese, and dry curd cottage cheese);

(ii) Butter;

(iii) Any milk product in dry form;

(iv) Any concentrated milk product in bulk, fluid form that is used to produce a Class III product;

(v) Evaporated or condensed milk (plain or sweetened) in a consumer-type package and evaporated or condensed skim milk (plain or sweetened) in a consumer-type package; and

(vi) Any product not otherwise specified in this section;

(2) In inventory at the end of the month of fluid milk products in bulk or packaged form and products specified in paragraph (b)(1) of this section in bulk form;

(3) In fluid milk products and products specified in paragraph (b)(1) of this section that are disposed of by a handler for animal feed;

(4) In fluid milk products and products specified in paragraph (b)(1) of this section that are dumped by a handler if the market administrator is notified of such dumping in advance and is given the opportunity to verify such disposition;

(5) In skim milk in any modified fluid milk product that is in excess of the quantity of skim milk in such product that was included within the fluid milk product definition pursuant to § 1032.15; and

(6) In shrinkage assigned pursuant to § 1032.41(a) to the receipts specified in § 1032.41(a)(2) and in shrinkage specified in § 1032.41(b) and (c).

§ 1032.41 Shrinkage.

For purposes of classifying all skim milk and butterfat to be reported by a handler pursuant to § 1032.30, the market administrator shall determine the following:

(a) The pro rata assignment of shrinkage of skim milk and butterfat, respectively, at each pool plant to the respective quantities of skim milk and butterfat:

(1) In the receipts specified in paragraph (b)(1) through (6) of this section on which shrinkage is allowed pursuant to such paragraph; and

(2) In other source milk not specified in paragraph (b)(1) through (6) of this section which was received in bulk fluid form;

(b) The shrinkage of skim milk and butterfat, respectively, assigned pursuant to paragraph (a) of this section to the receipts specified in paragraph (a)(1) of this section that is not in excess of:

(1) Two percent of the skim milk and butterfat, respectively, in producer milk (excluding milk diverted by the plant operator to another plant and milk received from a handler described in § 1032.9(c));

(2) Plus 1.5 percent of the skim milk and butterfat, respectively, in milk received from a handler described in § 1032.9(c) and in milk diverted to such plant from another pool plant, except that, in either case, if the operator of the plant to which the milk is delivered purchases such milk on the basis of weights determined from its measurement at the farm and butterfat tests determined from farm bulk tank samples, the applicable percentage under this subparagraph shall be 2 percent;

(3) Plus 0.5 percent of the skim milk and butterfat, respectively, in producer milk diverted from such plant by the plant operator to another plant, except that if the operator of the plant to which the milk is delivered purchases such milk on the basis of weights determined from its measurement at the farm and butterfat tests determined from farm bulk tank samples, the applicable percentage under this subparagraph shall be zero;

(4) Plus 1.5 percent of the skim milk and butterfat, respectively, in bulk fluid milk products received by transfer from other pool plants;

(5) Plus 1.5 percent of the skim milk and butterfat, respectively, in bulk fluid milk products received by transfer from other order plants, excluding the quantity for which Class II or Class III classification is requested by the operators of both plants;

(6) Plus 1.5 percent of the skim milk and butterfat, respectively, in bulk fluid milk products received from unregulated supply plants, excluding the quantity for which Class II or Class III classification is requested by the handler; and

(7) Less 1.5 percent of the skim milk and butterfat, respectively, in bulk fluid milk products transferred to other plants that is not in excess of the respective amounts of skim milk and butterfat to which percentages are applied in paragraphs (b)(1), (2), (4), (5), and (6) of this section; and

(c) The quantity of skim milk and butterfat, respectively, in shrinkage of milk from producers for which a cooperative association is the handler pursuant to § 1032.9 (b) or (c), but not in excess of 0.5 percent of the skim milk and butterfat, respectively, in such milk. If the operator of the plant to which the milk is delivered purchases such milk on the basis of weights determined from its measurement at the farm and butterfat tests determined from farm bulk tank samples, the applicable percentage under this paragraph for the cooperative association shall be zero.

§ 1032.42 Classification of transfers and diversions.

(a) *Transfers and diversions to pool plants.* Skim milk or butterfat transferred or diverted in the form of a fluid milk product or a bulk fluid cream product from a pool plant to another pool plant shall be classified as Class I milk unless the operators of both plants request the same classification in another class. In either case, the classification of such transfers or diversions shall be subject to the following conditions:

(1) The skim milk or butterfat classified in each class shall be limited to the amount of skim milk and butterfat, respectively, remaining in such class at the transferee-plant or divertee-plant after the computations pursuant to § 1032.44(a)(12) and the corresponding step of § 1032.44(b);

(2) If the transferor-plant or divertor-plant received during the month other source milk to be allocated pursuant to § 1032.44(a)(7) or the corresponding step of § 1032.44(b), the skim milk or butterfat so transferred or diverted shall be classified so as to allocate the least possible Class I utilization to such other source milk; and

(3) If the transferor-handler or divertor-handler received during the month other source milk to be allocated pursuant to § 1032.44(a)(11) or (12) or the corresponding steps of § 1032.44(b), the skim milk or butterfat so transferred or diverted, up to the total of the skim milk and butterfat, respectively, in such receipts of other source milk, shall not be classified as Class I milk to a greater extent than would be the case if the other source milk had been received at the transferee-plant or divertee-plant.

(b) *Transfers and diversions to other order plants.* Skim milk or butterfat transferred or diverted in the form of a fluid milk product or a bulk fluid cream product from a pool plant to an other order plant shall be classified in the following manner. Such classification shall apply only to the skim milk or butterfat that is in excess of any receipts at the pool plant from the other order plant of skim milk and butterfat, respectively, in fluid milk products and bulk fluid cream products, respectively, that are in the same category as described in paragraph (b)(1), (2), or (3) of this section:

(1) If transferred as packaged fluid milk products, classification shall be in the classes to which allocated as a fluid milk product under the other order;

(2) If transferred in bulk form, classification shall be in the classes to which allocated under the other order (including allocation under the conditions set forth in paragraph (b)(3) of this section);

(3) If the operators of both plants so request in their reports of receipts and utilization filed with their respective market administrators, transfers or diversions in bulk form shall be classified as Class II or Class III milk to the extent of such utilization available for such classification pursuant to the allocation provisions of the other order;

(4) If information concerning the classes to which such transfers or diversions were allocated under the other order is not available to the market administrator for the purpose of establishing classification under this paragraph, classification shall be as Class I, subject to adjustment when such information is available;

(5) For purposes of this paragraph, if the other order provides for a different number of classes of utilization than is provided for under this part, skim milk or butterfat allocated to a class consisting primarily of fluid milk products shall be classified as Class I milk, and skim milk or butterfat allocated to the other classes shall be classified as Class III milk; and

(6) If the form in which any fluid milk product that is transferred to an other order plant is not defined as a fluid milk product under such other order, classification under this paragraph shall be in accordance with the provisions of § 1032.40.

(c) *Transfers to producer-handlers.* Skim milk or butterfat transferred in the following forms from a pool plant to a producer-handler under this or any other Federal order shall be classified:

(1) As Class I milk, if transferred in the form of a fluid milk product; and

(2) In accordance with the utilization assigned to it by the market administrator, if transferred in the form of a bulk fluid cream product. For this purpose, the producer-handler's utilization of skim milk and butterfat in each class, in series beginning with Class III, shall be assigned to the extent possible to his receipts of skim milk and butterfat, respectively, in bulk fluid cream products, pro rata to each source.

(d) *Transfers and diversions to other nonpool plants.* Skim milk or butterfat transferred or diverted in the following forms from a pool plant to a nonpool plant that is not an other order plant or a producer-handler plant shall be classified:

(1) As Class I milk, if transferred in the form of a packaged fluid milk product; and

(2) As Class I milk, if transferred or diverted in the form of a bulk fluid milk product or a bulk fluid cream product, unless the following conditions apply:

(i) If the conditions described in paragraph (d)(2)(i) (*a*) and (*b*) of this section are met, transfers or diversions in bulk form shall be classified on the basis of the assignment of the nonpool plant's utilization to its receipts as set forth in paragraph (d)(2)(ii) through (viii) of this section:

(*a*) The transferor-handler or divertor-handler claims such classification in his report of receipts and utilization filed pursuant to § 1032.30 for the month within which such transaction occurred; and

(*b*) The nonpool plant operator maintains books and records showing the utilization of all skim milk and butterfat received at such plant which are made available for verification purposes if requested by the market administrator;

(ii) Route disposition in the marketing area of each Federal milk order from the nonpool plant and transfers of packaged fluid milk products from such nonpool plant to plants fully regulated thereunder shall be assigned to the extent possible in the following sequence:

(*a*) Pro rata to receipts of packaged fluid milk products at such nonpool plant from pool plants;

(*b*) Pro rata to any remaining unassigned receipts of packaged fluid milk products at such nonpool plant from other order plants;

(c) Pro rata to receipts of bulk fluid milk products at such nonpool plant from pool plants; and

(*d*) Pro rata to any remaining unassigned receipts of bulk fluid milk products at such nonpool plant from other order plants;

(iii) Any remaining Class I disposition of packaged fluid milk products from the nonpool plant shall be assigned to the extent possible pro rata to any remaining unassigned receipts of packaged fluid milk products at such nonpool plant from pool plants and other order plants;

(iv) Transfers of bulk fluid milk products from the nonpool plant to a plant fully regulated under any Federal milk order, to the extent that such transfers to the regulated plant exceed receipts of fluid milk products from such plant and are allocated to Class I at the transferee-plant, shall be assigned to the extent possible in the following sequence:

(*a*) Pro rata to receipts of fluid milk products at such nonpool plant from pool plants; and

(*b*) Pro rata to any remaining unassigned receipts of fluid milk products at such nonpool plant from other order plants;

(v) Any remaining unassigned Class I disposition from the nonpool plant shall be assigned to the extent possible in the following sequence:

(*a*) To such nonpool plant's receipts from dairy farmers who the market administrator determines constitute regular sources of Grade A milk for such nonpool plant; and

(*b*) To such nonpool plant's receipts of Grade A milk from plants not fully regulated under any Federal milk order which the market administrator determines constitute regular sources of Grade A milk for such nonpool plant;

(vi) Any remaining unassigned receipts of bulk fluid milk products at the nonpool plant from pool plants and other order plants shall be assigned, pro rata among such plants, to the extent possible first to any remaining Class I utilization, then to Class III utilization, and then to Class II utilization at such nonpool plant;

(vii) Receipts of bulk fluid cream products at the nonpool plant from pool plants and other order plans shall be assigned, pro rata among such plants, to the extent possible first to any remaining Class III utilization, then to any remaining Class II utilization, and then to Class I utilization at such nonpool plant; and

(viii) In determining the nonpool plant's utilization for purposes of this subparagraph, any fluid milk products and bulk fluid cream products transferred from such nonpool plant to a plant not fully regulated under any Federal milk order shall be classified on the basis of the second plant's utilization using the same assignment priorities at the second plant that are set forth in this subparagraph.

§ 1032.43 General classification rules.

In determining the classification of producer milk pursuant to § 1032.44, the following rules shall apply:

(a) Each month the market administrator shall correct for mathematical and other obvious errors all reports filed pursuant to § 1032.30 and shall compute separately for each pool plant and for each cooperative association with respect to milk for which it is the handler pursuant to § 1032.9 (b) or (c) the pounds of skim milk and butterfat, respectively, in each class in accordance with §§ 1032.40, 1032.41, and 1032.42;

(b) If any of the water contained in the milk from which a product is made is removed before the product is utilized or disposed of by a handler, the pounds of skim milk in such product that are to be considered under this part as used or disposed of by the handler shall be an amount equivalent to the nonfat milk solids contained in such product plus all of the water originally associated with such solids; and

(c) The classification of producer milk for which a cooperative association is the handler pursuant to § 1032.9 (b) or (c) shall be determined separately from the operations of any pool plant operated by such cooperative association.

§ 1032.44 Classification of producer milk.

For each month the market administrator shall determine the classification of producer milk of each handler described in § 1032.9(a) for each of his pool plants separately and of each handler described in § 1032.9 (b) and (c) by allocating the handler's receipts of skim milk and butterfat to his utilization as follows:

(a) Skim milk shall be allocated in the following manner:

(1) Subtract from the total pounds of skim milk in Class III the pounds of skim milk in shrinkage specified in § 1032.41 (b);

(2) Subtract from the total pounds of skim milk in Class I the pounds of skim milk in receipts of packaged fluid milk products from an unregulated supply plant to the extent that an equivalent amount of skim milk disposed of to such plant by handlers fully regulated under any Federal milk order is classified and priced as Class I milk and is not used as an offset for any other payment obligation under any order;

(3) Subtract from the pounds of skim milk remaining in each class the pounds of skim milk in fluid milk products received in packaged form from an other order plant, except that to be subtracted pursuant to paragraph (a)(7)(vi) of this section as follows:

V 39 87 MAY 3 74 XUM

(i) From Class III milk, the lesser of the pounds remaining or 2 percent of such receipts; and

(ii) From Class I milk, the remainder of such receipts;

(4) Subtract from the pounds of skim milk in Class II the pounds of skim milk in products specified in § 1032.40(b)(1) that were received in packaged form from other plants, but not in excess of the pounds of skim milk remaining in Class II;

(5) Subtract from the remaining pounds of skim milk in Class II the pounds of skim milk in products specified in § 1032.40(b)(1) that were in inventory at the beginning of the month in packaged form, but not in excess of the pounds of skim milk remaining in Class II. This subparagraph shall apply only if the pool plant was subject to the provisions of this subparagraph or comparable provisions of another Federal milk order in the immediately preceding month;

(6) Subtract from the remaining pounds of skim milk in Class II the pounds of skim milk in other source milk (except that received in the form of a fluid milk product or a fluid cream product) that is used to produce, or added to, any product specified in § 1032.40(b), but not in excess of the pounds of skim milk remaining in Class II;

(7) Subtract in the order specified below from the pounds of skim milk remaining in each class, in series beginning with Class III, the pounds of skim milk in each of the following:

(i) Other source milk (except that received in the form of a fluid milk product) and, if paragraph (a)(5) of this section applies, packaged inventory at the beginning of the month of products specified in § 1032.40(b)(1) that was not subtracted pursuant to paragraph (a)(4), (5), and (6) of this section;

(ii) Receipts of fluid milk products (except filled milk) for which Grade A certification is not established;

(iii) Receipts of fluid milk products from unidentified sources;

(iv) Receipts of fluid milk products from a producer-handler as defined under this or any other Federal milk order;

(v) Receipts of reconstituted skim milk in filled milk from an unregulated supply plant that were not subtracted pursuant to paragraph (a)(2) of this section; and

(vi) Receipts of reconstituted skim milk in filled milk from an other order plant that is regulated under any Federal milk order providing for individual-handler pooling, to the extent that reconstituted skim milk is allocated to Class I at the transferor-plant;

(8) Subtract in the order specified below from the pounds of skim milk remaining in Class II and Class III, in sequence beginning with Class III:

(i) The pounds of skim milk in receipts of fluid milk products from an unregulated supply plant that were not subtracted pursuant to paragraph (a)(2) and (7)(v) of this section for which the handler requests a classification other than Class I, but not in excess of the pounds of skim milk remaining in Class II and Class III combined;

(ii) The pounds of skim milk in receipts of fluid milk products from an unregulated supply plant that were not subtracted pursuant to paragraph (a)(2), (7)(v), and (8)(i) of this section which are in excess of the pounds of skim milk determined pursuant to paragraph (a)(8)(ii)(*a*) through (*c*) of this section. Should the pounds of skim milk to be subtracted from Class II and Class III combined exceed the pounds of skim milk remaining in such classes, the pounds of skim milk in Class II and Class III combined shall be increased (increasing as necessary Class III and then Class II to the extent of available utilization in such classes at the nearest other pool plant of the handler, and then at each successively more distant pool plant of the handler) by an amount equal to such excess quantity to be subtracted, and the pounds of skim milk in Class I shall be decreased by a like amount. In such case, the pounds of skim milk remaining in each class at this allocation step at the handler's other pool plants shall be adjusted in the reverse direction by a like amount:

(*a*) Multiply by 1.25 the sum of the pounds of skim milk remaining in Class I at this allocation step at all pool plants of the handler (excluding any duplication of Class I utilization resulting from reported Class I transfers between pool plants of the handler);

(*b*) Subtract from the above result the sum of the pounds of skim milk in receipts at all pool plants of the handler of producer milk, fluid milk products from pool plants of other handlers, and bulk fluid milk products from other order plants that were not subtracted pursuant to paragraph (a)(7)(vi) of this section; and

(*c*) Multiply any plus quantity resulting above by the percentage that the receipts of skim milk in fluid milk products from unregulated supply plants that remain at this pool plant is of all such receipts remaining at this allocation step at all pool plants of the handler; and

(iii) The pounds of skim milk in receipts of bulk fluid milk products from an other order plant that are in excess of bulk fluid milk products transferred or diverted to such plant and that were not subtracted pursuant to paragraph (a)(7)(vi) of this section, if Class II or Class III classification is requested by the operator of the other order plant and the handler, but not in excess of the pounds of skim milk remaining in Class II and Class III combined;

(9) Subtract from the pounds of skim milk remaining in each class, in series beginning with Class III, the pounds of skim milk in fluid milk products and products specified in § 1032.40(b)(1) in inventory at the beginning of the month that were not subtracted pursuant to paragraph (a)(5) and (7)(i) of this section;

(10) Add to the remaining pounds of skim milk in Class III the pounds of skim milk subtracted pursuant to paragraph (a)(1) of this section;

(11) Subject to the provisions of paragraph (a)(11)(i) and (ii) of this section, subtract from the pounds of skim milk remaining in each class at the plant, pro rata to the total pounds of skim milk remaining in Class I and in Class II and Class III combined at this allocation step at all pool plants of the handler (excluding any duplication of utilization in each class resulting from transfers between pool plants of the handler), with the quantity prorated to Class II and Class III combined being subtracted first from Class III and then from Class II, the pounds of skim milk in receipts of fluid milk products from an unregulated supply plant that were not subtracted pursuant to paragraph (a)(2), (7)(v), and (8)(i) and (ii) of this section and that were not offset by transfers or diversions of fluid milk products to the same unregulated supply plant from which fluid milk products to be allocated at this step were received:

(i) Should the pounds of skim milk to be subtracted from Class II and Class III combined pursuant to this subparagraph exceed the pounds of skim milk remaining in such classes, the pounds of skim milk in Class II and Class III combined shall be increased (increasing as necessary Class III and then Class II to the extent of available utilization in such classes at the nearest other pool plant of the handler, and then at each successively more distant pool plant of the handler) by an amount equal to such excess quantity to be subtracted, and the pounds of skim milk in Class I shall be decreased by a like amount. In such case, the pounds of skim milk remaining in each class at this allocation step at the handler's other pool plants shall be adjusted in the reverse direction by a like amount;

(ii) Should the pounds of skim milk to be subtracted from Class I pursuant to this subparagraph exceed the pounds of skim milk remaining in such class, the pounds of skim milk in Class I shall be increased by an amount equal to such excess quantity to be subtracted, and the pounds of skim milk in Class II and Class III combined shall be decreased by a like amount (decreasing as necessary Class III and then Class II). In such case, the pounds of skim milk remaining in each class at this allocation step at the handler's other pool plants shall be adjusted in the reverse direction by a like amount, beginning with the nearest plant at which Class I utilization is available;

(12) Subtract in the manner specified below from the pounds of skim milk remaining in each class the pounds of skim milk in receipts of bulk fluid milk products from an other order plant that are in excess of bulk fluid milk products transferred or diverted to such plant and that were not subtracted pursuant to paragraph (a)(7)(vi) and (8)(iii) of this section:

(i) Subject to the provision of paragraph (a)(12)(ii), (iii), and (iv) of this section, such subtraction shall be pro rata to the pounds of skim milk in Class I and in Class II and Class III combined, with the quantity prorated to Class II and Class III combined being subtracted first from Class III and then from Class II, with respect to whichever of the following quantities represents the lower proportion of Class I milk:

(*a*) The estimated utilization of skim milk of all handlers in each class as announced for the month pursuant to § 1032.45(a); or

(*b*) The total pounds of skim milk remaining in each class at this allocation step at all pool plants of the handler (excluding any duplication of utilization in each class resulting from transfers between pool plants of the handler);

(ii) Should the proration pursuant to paragraph (a)(12)(i) of this section result in the total pounds of skim milk at all pool plants of the handler that are to be subtracted at this allocation step from Class II and Class III combined exceeding the pounds of skim milk remaining in Class II and Class III at all such plants, the pounds of such excess shall be subtracted from the pounds of skim milk remaining in Class I after such proration at the pool plants at which such other source milk was received;

(iii) Except as provided in paragraph (a)(12)(ii) of this section, should the computations pursuant to paragraph (a)(12)(i) or (ii) of this section result in a quantity of skim milk to be subtracted from Class II and Class III combined that exceeds the pounds of skim milk remaining in such classes, the pounds of skim milk in Class II and Class III combined shall be increased (increasing as necessary Class III and then Class II to the extent of available utilization in such classes at the nearest other pool plant of the handler, and then at each successively more distant pool plant of the handler) by an amount equal to such excess quantity to be subtracted, and the pounds of skim milk in Class I shall be decreased by a like amount. In such case, the pounds of skim milk remaining in each class at this allocation step at the handler's other pool plants shall be adjusted in the reverse direction by a like amount; and

(iv) Except as provided in paragraph (a)(12)(ii) of this section, should the computations pursuant to paragraph (a)(12)(i) or (ii) of this section result in a quantity of skim milk to be subtracted from Class I that exceeds the pounds of skim milk remaining in such class, the pounds of skim milk in Class I shall be increased by an amount equal to such excess quantity to be subtracted, and the pounds of skim milk in Class II and Class III combined shall be decreased by a like amount (decreasing as necessary Class III and then Class II). In such case, the pounds of skim milk remaining in each class at this allocation step at the handler's other pool plants shall be adjusted in the reverse direction by a like amount beginning with the nearest plant at which Class I utilization is available;

(13) Subtract from the pounds of skim milk remaining in each class the pounds of skim milk in receipts of fluid milk products and bulk fluid cream products from another pool plant according to the classification of such products pursuant to § 1032.42(a); and

(14) If the total pounds of skim milk remaining in all classes exceed the pounds of skim milk in producer milk, subtract such excess from the pounds of skim milk remaining in each class in series beginning with Class III. Any amount so subtracted shall be known as "overage";

(b) Butterfat shall be allocated in accordance with the procedure outlined for skim milk in paragraph (a) of this section; and

(c) The quantity of producer milk in each class shall be the combined pounds of skim milk and butterfat remaining in each class after the computations pursuant to paragraph (a)(14) of this section and the corresponding step of paragraph (b) of this section.

§ 1032.45 Market administrator's reports and announcements concerning classification.

The market administrator shall make the following reports and announcements concerning classification:

(a) Whenever required for the purpose of allocating receipts from other order plants pursuant to § 1032.44(a)(12) and the corresponding step of § 1032.44(b), estimate and publicly announce the utilization (to the nearest whole percentage) in each class during the month of skim milk and butterfat, respectively, in producer milk of all handlers. Such estimate shall be based upon the most current available data and shall be final for such purpose.

(b) Report to the market administrator of the other order, as soon as possible after the report of receipts and utilization for the month is received from a handler who has received fluid milk products or bulk fluid cream products from an other order plant, the class to which such receipts are allocated pursuant to § 1032.44 on the basis of such report, and, thereafter, any change in such allocation required to correct errors disclosed in the verification of such report.

(c) Furnish to each handler operating a pool plant who has shipped fluid milk products or bulk fluid cream products to an other order plant the class to which such shipments were allocated by the market administrator of the other order on the basis of the report by the receiving handler, and, as necessary, any changes in such allocation arising from the verification of such report.

(d) On or before the 12th day after the end of each month, report to each cooperative association which so requests, the class utilization of producer milk received by each handler from a cooperative association or from members of the association. For the purpose of this report, the milk caused to be so delivered by an association shall be prorated to each class in the proportion that the total receipts of milk received from producers by such handler were used in each class.

CLASS PRICES

§ 1032.50 Class prices.

Subject to the provisions of § 1032.52, the class prices for the month per hundredweight of milk containing 3.5 percent butterfat shall be as follows:

(a) *Class I price.* The Class I price shall be the Class I price pursuant to Part 1062 of this chapter (St. Louis-Ozarks) minus 7 cents.

(b) *Class II price.* The Class II price shall be the basic formula price for the month plus 10 cents.

(c) *Class III price.* The Class III price shall be the basic formula price for the month.

§ 1032.51 Basic formula price.

The "basic formula price" shall be the average price per hundredweight for manufacturing grade milk, f.o.b. plants in Minnesota and Wisconsin, as reported by the Department for the month, adjusted to a 3.5 percent butterfat basis and rounded to the nearest cent. For such adjustment, the butterfat differential (rounded to the nearest one-tenth cent) per one-tenth percent butterfat shall be 0.12 times the simple average of the wholesale selling prices (using the midpoint of any price range as one price) of Grade A (92-score) bulk butter per pound at Chicago, as reported by the Department for the month. For the purpose of computing the Class I price, the resulting price shall be not less than $4.33.

§ 1032.52 Plant location adjustments for handlers.

(a) For producer milk received at a pool plant which is classified as Class I milk, the price specified in § 1032.50(a) shall be adjusted for the location of such plant by the following amount:

(1) At a plant in the southern zone, plus 7 cents;

(2) At a plant in the northern zone, minus 7 cents;

(3) At a plant outside the marketing area, minus 15 cents if such plant is 100 or more miles from the city or village limits of Alton, Robinson, or Vandalia, Ill., whichever is nearest, and minus an additional 1.5 cents for each 10 miles or fraction thereof that such distance exceeds 110 miles: *Provided*, That the adjustment at a plant outside the marketing area and in the State of Illinois south of the northernmost boundaries of the Illinois counties of Adams and Schuyler and at a plant in the Indiana counties of Fountain, Parke, Vermillion, and Warren shall be the same as for a pool plant located in the northern zone; and

(4) In determining location adjustments, mileage shall be based on the shortest hard-surfaced highway distance as determined by the market administrator.

V 39 I 87 MAY 3 74 XUM

(b) For purposes of calculating such adjustment, transfers between pool plants shall be assigned Class I disposition at the transferee-plant only to the extent that 105 percent of Class I disposition at the transferee-plant exceeds the sum of receipts at such plant from producers and handlers described in § 1032.9(c), and the volume assigned as Class I to receipts from other order plants and unregulated supply plants, such assignment to be made first to transferor-plants at which no location adjustment credit is applicable and then in sequence beginning with the plant at which the least location adjustment would apply.

(c) The Class I price applicable to other source milk shall be adjusted at the rates set forth in paragraph (a) of this section, except that the adjusted Class I price shall not be less than the Class III price.

§ 1032.53 Announcement of class prices.

The market administrator shall announce publicly on or before the fifth day of each month the Class I price for the following month and the Class II and Class III prices for the preceding month.

§ 1032.54 Equivalent price.

If for any reason a price quotation required by this part for computing class prices or for other purposes is not available in the manner described, the market administrator shall use a price determined by the Secretary to be equivalent to the price which is required.

UNIFORM PRICE

§ 1032.60 Handler's value of milk for computing uniform price.

For the purpose of computing the uniform price, the market administrator shall determine for each month the value of milk of each handler with respect to each of his pool plants and of each handler described in § 1032.9 (b) and (c) as follows:

(a) Multiply the pounds of producer milk in each class as determined pursuant to § 1032.44 by the applicable class prices and add the resulting amounts;

(b) Add the amounts obtained from multiplying the pounds of overage subtracted from each class pursuant to § 1032.44(a)(14) and the corresponding step of § 1032.44(b) by the respective class prices, as adjusted by the butterfat differential specified in § 1032.74, that are applicable at the location of the pool plant;

(c) Add the amount obtained from multiplying the difference between the Class III price for the preceding month and the Class I price applicable at the location of the pool plant or the Class II price, as the case may be, for the current month by the hundredweight of skim milk and butterfat subtracted from Class I and Class II pursuant to § 1032.44 (a)(9) and the corresponding step of § 1032.44(b);

(d) Add the amount obtained from multiplying the difference between the Class I price applicable at the location of the pool plant and the Class III price by the hundredweight of skim milk and butterfat subtracted from Class I pursuant to § 1032.44(a)(7) (i) through (iv) and the corresponding step of § 1032.44 (b), excluding receipts of bulk fluid cream products from an other order plant;

(e) Add the amount obtained from multiplying the difference between the Class I price applicable at the location of the transferor-plant and the Class III price by the hundredweight of skim milk and butterfat subtracted from Class I pursuant to § 1032.44(a)(7) (v) and (vi) and the corresponding step of § 1032.44 (b);

(f) Add the amount obtained from multiplying the Class I price applicable at the location of the nearest unregulated supply plants from which an equivalent volume was received by the pounds of skim milk and butterfat subtracted from Class I pursuant to § 1032.44(a)(11) and the corresponding step of § 1032.44 (b), excluding such skim milk and butterfat in receipts of bulk fluid milk products from an unregulated supply plant to the extent that an equivalent amount of skim milk or butterfat disposed of to such plant by handlers fully regulated under any Federal milk order is classified and priced as Class I milk and is not used as an offset for any other payment obligation under any order; and

(g) For the first month that this paragraph is effective, subtract the amount obtained from multiplying the difference between the Class I price applicable at the location of the pool plant and the Class II price, both for the preceding month, by the hundredweight of skim milk and butterfat in any fluid milk product or product specified in § 1032.40 (b) that was in the plant's inventory at the end of the preceding month and classified as Class I milk.

§ 1032.61 Computation of uniform price (including weighted average price).

For each month the market administrator shall compute the uniform price per hundredweight of milk of 3.5 percent butterfat content which is received from producers at plants located in the "base zone" as follows:

(a) Combine into one total the values computed pursuant to § 1032.60 for all handlers who filed the reports prescribed by § 1032.30 for the month and who made the payments pursuant to §§ 1032.71 and 1032.73 for the preceding month;

(b) Add an amount equal to the value of the net location and zone adjustments (reductions minus increases) applicable to the uniform price pursuant to § 1032.75;

(c) Add an amount equal to one-half of the unobligated balance in the producer-settlement fund;

(d) Divide the resulting amount by the sum of the following for all handlers included in these computations:

(1) The total hundredweight of producer milk; and

(2) The total hundredweight for which a value is computed pursuant to § 1032.60(f);

(e) Subtract not less than 4 cents nor more than 5 cents per hundredweight. The result shall be the "weighted average price," and, except for the months specified below, shall be the "uniform price" for milk received from producers;

(f) For the months specified in paragraphs (g) and (h) of this section, subtract from the amount resulting from the computations pursuant to paragraphs (a) through (c) of this section an amount computed by multiplying the hundredweight of milk specified in paragraph (d)(2) of this section by the weighted average price;

(g) Subtract in the case of milk delivered during each of the months of March and July an amount equal to 15 cents per hundredweight and during each of the months of April, May, and June an amount equal to 25 cents per hundredweight of producer milk specified in paragraph (d)(1) of this section;

(h) Add in the case of milk delivered during each of the months of September and December 20 percent and during each of the months of October and November 30 percent of the total amount subtracted pursuant to paragraph (g) of this section;

(i) Divide the resulting sum by the total hundredweight of producer milk included in these computations; and

(j) Subtract not less than 4 cents nor more than 5 cents per hundredweight. The result shall be the "uniform price" for milk received from producers.

§ 1032.62 Announcement of uniform price and butterfat differential.

The market administrator shall announce publicly on or before:

(a) The fifth day after the end of each month the butterfat differential for such month; and

(b) The 12th day after the end of each month the uniform price for such month.

PAYMENTS FOR MILK

§ 1032.70 Producer-settlement fund.

The market administrator shall establish and maintain a separate fund known as the "producer-settlement fund," which shall function as follows:

(a) All payments made by handlers pursuant to §§ 1032.71, 1032.76, and 1032.77 shall be deposited in such fund and out of which shall be made all payments pursuant to §§ 1032.72 and 1032.77: *Provided*, That any payments due to any handler shall be offset by any payments due from such handler; and

(b) All amounts subtracted pursuant to § 1032.61(g) shall be deposited in this fund and set aside as an obligated balance until withdrawn to effectuate § 1032.73 in accordance with the requirements of § 1032.61(h).

§ 1032.71 Payments to the producer-settlement fund.

(a) On or before the 15th day after the end of the month, each handler shall pay to the market administrator the amount, if any, by which the amount specified in paragraph (a)(1) of this section exceeds the amount specified in paragraph (a)(2) of this section:

(1) The total value of milk of the handler for such month as determined pursuant to § 1032.60.

(2) The sum of:

(i) The value at the uniform price, as adjusted pursuant to § 1032.75, of such handler's receipts of producer milk; and

(ii) The value at the weighted average price applicable at the location of the plant from which received of other source milk for which a value is computed pursuant to § 1032.60(f).

(b) On or before the 25th day after the end of the month each person who operated an other order plant that was regulated during such month under an order providing for individual-handler pooling shall pay to the market administrator an amount computed as follows:

(1) Determine the quantity of reconstituted skim milk in filled milk in route disposition from such plant in the marketing area which was allocated to Class I at such plant. If there is such route disposition from such plant in marketing areas regulated by two or more market-wide pool orders, the reconstituted skim milk allocated to Class I shall be prorated to each order according to such route disposition in each marketing area; and

(2) Compute the value of the reconstituted skim milk assigned in paragraph (b)(1) of this section to route disposition in this marketing area by multiplying the quantity of such skim milk by the difference between the Class I price under this part that is applicable at the location of the other order plant (but not to be less than the Class III price) and the Class III price.

§ 1032.72 Payments from the producer-settlement fund.

On or before the 17th day after the end of each month the market administrator shall pay to each handler the amount, if any, by which the amount computed pursuant to § 1032.71(a)(2) exceeds the amount computed pursuant to § 1032.71(a)(1). The market administrator shall offset any payment due any handler against any payments due from such handler.

§ 1032.73 Payments to producers and to cooperative associations.

(a) Except as provided in paragraphs (b), (c), and (d) of this section, each handler shall make payment for milk received during the month as follows:

(1) On or before the last day of each month to each producer who did not discontinue shipping milk to such handler before the 25th day of the month an amount equal to not less than the Class III price for the preceding month multiplied by the hundredweight of milk received from such producer during the first 15 days of the month, less proper deductions authorized by such producer to be made from payments due pursuant to this subparagraph;

(2) On or before the 20th day of the following month to each producer, an amount equal to not less than the uniform price, as adjusted pursuant to §§ 1032.74 and 1032.75, multiplied by the hundredweight of milk received from such producer during the month, subject to the following adjustments:

(i) Less payments made to such producer pursuant to paragraph (a)(1) of this section;

(ii) Less deductions for marketing services made pursuant to § 1032.86;

(iii) Plus or minus adjustments for errors made in previous payments made to such producer; and

(iv) Less proper deductions authorized in writing by such producer: *Provided*, That, if by such date, such handler has not received full payment from the market administrator pursuant to § 1032.72 for such month, he may reduce pro rata his payments to producers by not more than the amount of such underpayment. Payments to producers shall be completed thereafter not later than the date for making payments pursuant to this paragraph next following after the receipt of the balance due from the market administrator;

(b) Payments required in paragraph (a) of this section shall be made to a cooperative association, qualified under § 1032.18 or its duly authorized agent, which the market administrator determines is authorized by its members to collect payment for their milk and which has so requested any handler in writing. Such handler shall, on or before the 18th day of the following month pay the cooperative association for milk received during the month from the producer-members of such association as determined by the market administrator an amount equal to not less than the amount due such producer-members as determined pursuant to paragraph (a) of this section, less any deductions authorized in writing by such association: *Provided*, That the association has provided the handler with a written promise to reimburse the handler the amount of any actual loss incurred by such handler because of any improper claim on the part of the cooperative association;

(c) On or before the 18th day after the end of each month, each handler shall pay to each cooperative association for milk the handler receives at his pool plant from a pool plant(s) operated by such association, not less than the minimum prices for milk in each class, as adjusted by the butterfat differential specified in § 1032.74, that are applicable at the location of the handler's pool plant;

(d) On or before the 18th day of the following month, each handler, in his capacity as the operator of a pool plant, who receives milk for which a cooperative association is the handler pursuant to § 1032.9(c) shall pay such cooperative price as adjusted pursuant to §§ 1032.74 and 1032.75;
association for such milk at the uniform

(e) None of the provisions of this section shall be construed to restrict any cooperative association qualified under section 8c(5)(F) of the Act from making payment for milk to its producers in accordance with such provision of the Act, and

(f) Each handler who receives milk during the month from producers for which payment is to be made to a cooperative association pursuant to paragraph (b) of this section shall report to such cooperative association for each such producer on forms approved by the market administrator as follows:

(1) On or before the 25th day of the month, the total pounds of milk received during the first 15 days of such month; and

(2) On or before the 7th day after the end of the month, the total pounds of milk received from each producer, together with the butterfat content of such milk, and the amount or rate and nature of any deductions authorized by the cooperative association.

§ 1032.74 Butterfat differential.

For milk containing more or less than 3.5 percent butterfat, the uniform price shall be increased or decreased, respectively, for each one-tenth percent butterfat variation from 3.5 percent by a butterfat differential, rounded to the nearest one-tenth cent, which shall be 0.115 times the simple average of the wholesale selling prices (using the midpoint of any price range as one price) of Grade A (92-score) bulk butter per pound at Chicago, as reported by the Department for the month.

§ 1032.75 Plant location adjustments for producers and on nonpool milk.

(a) The uniform price for producer milk received at a pool plant shall be adjusted according to the location of the pool plant at the rates set forth in § 1032.52(a); and

(b) The weighted average price applicable to other source milk shall be subject to the same adjustments applicable to the uniform price under paragraph (a) of this section, except that the adjusted weighted average price shall not be less than the Class III price.

§ 1032.76 Payments by handler operating a partially regulated distributing plant.

Each handler who operates a partially regulated distributing plant shall pay on or before the 25th day after the end of the month to the market administrator for the producer-settlement fund the amount computed pursuant to paragraph (a) of this section. If the handler submits pursuant to §§ 1032.30(b) and 1032.31(b) the information necessary for making the computations, such handler may elect to pay in lieu of such payment the amount computed pursuant to paragraph (b) of this section:

(a) The payment under this paragraph shall be the amount resulting from the following computations:

(1) Determine the pounds of route disposition in the marketing area from the partially regulated distributing plant;

(2) Subtract the pounds of fluid milk products received at the partially regulated distributing plant:

V 39 87
MAY 3 74
XUM

(i) As Class I milk from pool plants and other order plants, except that subtracted under a similar provision of another Federal milk order; and

(ii) From another nonpool plant that is not an other order plant to the extent that an equivalent amount of fluid milk products disposed of to such nonpool plant by handlers fully regulated under any Federal milk order is classified and priced as Class I milk and is not used as an offset for any other payment obligation under any order;

(3) Subtract the pounds of reconstituted skim milk in route disposition in the marketing area from the partially regulated distributing plant;

(4) Multiply the remaining pounds by the difference between the Class I price and the weighted average price, both prices to be applicable at the location of the partially regulated distributing plant (but not to be less than the Class III price); and

(5) Add the amount obtained from multiplying the pounds of reconstituted skim milk specified in paragraph (a)(3) of this section by the difference between the Class I price applicable at the location of the partially regulated distributing plant (but not to be less than the Class III price) and the Class III price.

(b) The payment under this paragraph shall be the amount resulting from the following computations:

(1) Determine the value that would have been computed pursuant to § 1032.60 for the partially regulated distributing plant if the plant had been a pool plant, subject to the following modifications:

(i) Fluid milk products and bulk fluid cream products received at the partially regulated distributing plant from a pool plant or an other order plant shall be allocated at the partially regulated distributing plant to the same class in which such products were classified at the fully regulated plant;

(ii) Fluid milk products and bulk fluid cream products transferred from the partially regulated distributing plant to a pool plant or an other order plant shall be classified at the partially regulated distributing plant in the class to which allocated at the fully regulated plant. Such transfers shall be allocated to the extent possible to those receipts at the partially regulated distributing plant from pool plants and other order plants that are classified in the corresponding class pursuant to paragraph (b)(1)(i) of this section. Any such transfers remaining after the above allocation which are classified in Class I and for which a value is computed for the handler operating the partially regulated distributing plant pursuant to § 1032.60 shall be priced at the uniform price (or at the weighted average price if such is provided) of the respective order regulating the handling of milk at the transferee-plant, with such uniform price adjusted to the location of the nonpool plant (but not to be less than the lowest class price of the respective order), except that transfers of reconstituted skim milk in filled milk shall be priced at the lowest class price of the respective order; and

(iii) If the operator of the partially regulated distributing plant so requests, the value of milk determined pursuant to § 1032.60 for such handler shall include, in lieu of the value of other source milk specified in § 1032.60(f) less the value of such other source milk specified in § 1032.71(a)(2)(ii), a value of milk determined pursuant to § 1032.60 for each nonpool plant that is not an other order plant which serves as a supply plant for such partially regulated distributing plant by making shipments to the partially regulated distributing plant during the month equivalent to the requirements of § 1032.7 (b) and (c), subject to the following conditions:

(a) The operator of the partially regulated distributing plant submits with his reports filed pursuant to §§ 1032.30(b) and 1032.31(b) similar reports for each such nonpool supply plant;

(b) The operator of such nonpool supply plant maintains books and records showing the utilization of all skim milk and butterfat received at such plant which are made available if requested by the market administrator for verification purposes; and

(c) The value of milk determined pursuant to § 1032.60 for such nonpool supply plant shall be determined in the same manner prescribed for computing the obligation of such partially regulated distributing plant; and

(2) From the partially regulated distributing plant's value of milk computed pursuant to paragraph (b)(1) of this section, subtract:

(i) The gross payments by the operator of such partially regulated distributing plant, adjusted to a 3.5 percent butterfat basis by the butterfat differential specified in § 1032.74, for milk received at the plant during the month that would have been producer milk if the plant had been fully regulated;

(ii) If paragraph (b)(1)(iii) of this section applies, the gross payments by the operator of such nonpool supply plant, adjusted to a 3.5 percent butterfat basis by the butterfat differential specified in § 1032.74, for milk received at the plant during the month that would have been producer milk if the plant had been fully regulated; and

(iii) The payments by the operator of the partially regulated distributing plant to the producer-settlement fund of another order under which such plant is also a partially regulated distributing plant and like payments by the operator of the nonpool supply plant if paragraph (b)(1)(iii) of this section applies.

§ 1032.77 Adjustment of accounts.

Whenever audit by the market administrator of any handler's reports, books, records, or accounts discloses errors resulting in moneys due (a) the market administrator, from such handler, (b) such handler from the market administrator, or (c) any producer or cooperative association from such handler, the market administrator shall promptly notify such handler of any amount so due and payment thereof shall be made on or before the next date for making payments as set forth in the provisions under which such error occurred.

§ 1032.78 Charges on overdue accounts.

Any unpaid obligation of a handler pursuant to §§ 1032.71, 1032.85, or 1032.86 shall be increased one-half of 1 percent for each month or portion thereof that such payment is overdue.

ADMINISTRATIVE ASSESSMENT AND MARKETING SERVICE DEDUCTION

§ 1032.85 Assessment for order administration.

As his pro rata share of the expense of administering the order, each handler (excluding a handler described in § 1032.9(c) with respect to milk delivered to pool plants) shall pay to the market administrator on or before the 20th day after the end of the month 5 cents per hundredweight, or such lesser amount as the Secretary may prescribe, with respect to:

(a) His producer milk (including such handler's own production);

(b) Other source milk allocated to Class I pursuant to § 1032.44(a)(7) and (11) and the corresponding steps of § 1032.44(b), except such other source milk that is excluded from the computations pursuant to § 1032.60 (d) and (f); and

(c) Route disposition in the marketing area from a partially regulated distributing plant that exceeds the skim milk and butterfat subtracted pursuant to § 1032.76(a)(2).

§ 1032.86 Deduction for marketing services.

(a) *Deduction for marketing services.* Except as set forth in paragraph (b) of this section, each handler in making payments to producers pursuant to § 1032.73, shall deduct 6 cents per hundredweight, or such lesser amount as the Secretary may prescribe, with respect to all milk received by such handler from producers (excluding such handler's own production) during the month, and shall pay such deductions to the market administrator on or before the 20th day after the end of such month. Such moneys shall be used by the market administrator to verify weights, samples, and tests of milk received from such producers and to provide them with market information. Such services shall be performed in whole or in part by the market administrator or by an agent engaged by and responsible to him.

(b) *Producers cooperative association.* In the case of producers for whom a cooperative association is actually performing as determined by the Secretary, the services set forth in paragraph (a) of this section each handler, in lieu of the deduction specified in paragraph (a) of this section, shall make such marketing service deductions as are authorized by producer-members, and pay the money so deducted to the cooperative association on or before the 20th day after the end of the month.

PART 1046—MILK IN LOUISVILLE-LEXINGTON-EVANSVILLE MARKETING AREA

Subpart—Order Regulating Handling

GENERAL PROVISIONS

Secs.
1046.1 General provisions.

DEFINITIONS

1046.2 Louisville-Lexington-Evansville marketing area.
1046.3 Route disposition.
1046.4 [Reserved]
1046.5 City plant.
1046.6 Country plant.
1046.7 Pool plant.
1046.8 Nonpool plant.
1046.9 Handler.
1046.10 Producer-handler.
1046.11 [Reserved]
1046.12 Producer.
1046.13 Producer milk.
1046.14 Other source milk.
1046.15 Fluid milk product.
1046.16 Fluid cream product.
1046.17 Filled milk.
1046.18 Cooperative association.

HANDLER REPORTS

1046.30 Reports of receipts and utilization.
1046.31 Payroll reports.
1046.32 Other reports.

CLASSIFICATION OF MILK

1046.40 Classes of utilization.
1046.41 Shrinkage.
1046.42 Classification of transfers and diversions.
1046.43 General classification rules.
1046.44 Classification of producer milk.
1046.45 Market administrator's reports and announcements concerning classification.

CLASS PRICES

1046.50 Class prices.
1046.51 Basic formula price.
1046.52 Plant location adjustments for handlers.
1046.53 Announcement of class prices.
1046.54 Equivalent price.

UNIFORM PRICE

1046.60 Handler's value of milk for computing uniform price.
1046.61 Computation of uniform price (including weighted average price).
1046.62 Announcement of uniform price and butterfat differential.

PAYMENTS FOR MILK

1046.70 Producer-settlement fund.
1046.71 Payments to the producer-settlement fund.
1046.72 Payments from the producer-settlement fund.
104673 Payments to producers and to cooperative associations.
1046.74 Butterfat differential.
1046.75 Plant location adjustments for producers and on nonpool milk.
1046.76 Payments by handler operating a partially regulated distributing plant.
1046.77 Adjustment of accounts.
1046.78 Charges on overdue accounts.

ADMINISTRATIVE ASSESSMENT AND MARKETING SERVICE DEDUCTION

1046.85 Assessment for order administration.
1046.86 Deduction for marketing services.

AUTHORITY: The provisions of this Part 1046 issued under secs. 1-19, 48 Stat. 31, as amended; (7 U.S.C. 601-674).

GENERAL PROVISIONS

§ 1046.1 General provisions.

The terms, definitions, and provisions in Part 1000 of this chapter are hereby incorporated by reference and made a part of this order.

DEFINITIONS

§ 1046.2 Louisville-Lexington-Evansville marketing area.

The "Louisville-Lexington-Evansville marketing area", hereinafter called the "marketing area", means all the territory geographically within the counties listed below and all territory wholly or partly therein occupied by municipal corporations and institutions owned or operated by Federal, State or local governments:

INDIANA COUNTIES

Clark.
Crawford.
Daviess.
Dubois.
Floyd.
Gibson.
Harrison.
Knox.
Martin.
Orange.
Perry.

Woodford.

§ 1046.3 Route disposition.

"Route disposition" means delivery (including disposition from a plant store or from a distribution point and distribution by a vendor) of a fluid milk product(s) classified as Class I milk to a wholesale or retail outlet(s) other than to a milk or filled milk plant(s). A delivery through a distribution point shall be attributed to the plant from which the Class I milk is moved through a distribution point to wholesale or retail outlets without intermediate movement to another milk or filled milk plant.

§ 1046.4 [Reserved]

§ 1046.5 City plant.

"City plant" means a plant where milk is processed or packaged and from which there is route disposition in the marketing area of fluid milk products permitted to be labeled as "Grade A" by a duly constituted health authority.

§ 1046.6 Country plant.

"Country plant" means a milk plant other than a city plant, which is approved by a duly constituted health authority to supply milk or skim milk to a city plant(s) for disposition as "Grade A" milk and at which milk is received during the month from persons described in § 1046.12(a)(1) or from a handler described in § 1046.9(c).

§ 1046.7 Pool plant.

Except as provided in paragraph (e) of this section, "pool plant" means:

(a) A city plant which meets the following requirements:

(1) For each of the months of May through October not less than 30 percent and for each of the months of November through April not less than 50 percent of the fluid milk products, except filled milk, received during the 2 months immediately preceding from persons described in § 1046.12(a)(1), from a handler described in § 1046.9(c), from country plants and from pool plants in containers not larger than a gallon is disposed of as Class I milk, except filled milk, from such plant during such 2-month period to all outlets except such disposition to pool plants in containers larger than a gallon: *Provided*, That, if such utilization percentage for the 2 preceding months cannot be ascertained by the market administrator, the respective percentages shall apply to receipts and sales during the current month; and

(2) There is an amount of route disposition in the marketing area, except filled milk, equal to not less than an average of 13,500 pounds per day or not less than 10 percent of the fluid milk products, except filled milk, received during the current month from persons described in § 1046.12(a)(1), from a handler described in § 1046.9(c), and from country plants.

(b) A country plant during any of the months of October through March from which not less than 50 percent, and during other months not less than 40 percent, of the receipts of milk at such plant from persons described in § 1046.12(a)(1) and from a handler described in § 1046.9(c) is moved to and received at a city plant in the form of milk or skim milk.

(c) A country plant during the months of April through September from which not less than 50 percent of the combined receipts of milk from persons described in § 1046.12(a)(1) and from a handler described in § 1046.9(c) during the preceding period of October through March was moved to and received at a city plant(s) in the form of milk or skim milk, unless the operator of such plant notifies the market administrator in writing on or before March 15 of withdrawal of the plant from the pool for the months of April through September next following.

(d) A country plant which is operated by a cooperative association if (1) two-thirds or more of the milk from persons

V 39 I 87 MAY 3 74 XUM

described in § 1046.12(a)(1) who are members of such association is delivered during the month from farms to the pool plant(s) of other handlers or transferred by such association from its plant to the pool plant(s) of other handlers or (2) such plant qualified as a pool plant pursuant to paragraph (d)(1) of this section during each of the immediately preceding consecutive months of October through February.

(e) The term "pool plant" shall not apply to the following plants:

(1) A producer-handler plant; and

(2) Unless determined otherwise by the Secretary, a milk plant during any month in which the milk at such plant would be subject to the pricing and pooling provisions of another order issued pursuant to the Act unless such plant meets the requirements for a pool plant pursuant to paragraph (a), (b), (c) or (d) of this section and a greater volume of fluid milk products, except filled milk, is disposed of from such plant in the Louisville-Lexington-Evansville marketing area to other pool plants and to retail or wholesale outlets than in the marketing area regulated pursuant to such other order during the current month.

§ 1046.8 Nonpool plant.

"Nonpool plant" means any milk or filled milk receiving, manufacturing, or processing plant other than a pool plant. The following categories of nonpool plants are further defined as follows:

(a) "Other order plant" means a plant that is fully subject to the pricing and pooling provisions of an other order issued pursuant to the Act.

(b) "Producer-handler plant" means a plant operated by a producer-handler as defined in any order (including this part) issued pursuant to the Act.

(c) "Partially regulated distributing plant" means a nonpool plant other than a producer-handler plant or an other order plant, from which there is route disposition in consumer-type packages or dispenser units in the marketing area during the month.

(d) "Unregulated supply plant" means a nonpool plant other than a producer-handler plant or an other order plant, from which fluid milk products are shipped to a pool plant.

§ 1046.9 Handler.

"Handler" means:

(a) Any person in his capacity as the operator of a pool plant;

(b) Any cooperative association with respect to milk diverted by it in accordance with the conditions set forth in § 1046.13;

(c) Any cooperative association with respect to the milk of its producer members which is delivered for the account of the cooperative association from the farm to the pool plant(s) of another handler in a tank truck owned by, operated by, or under contract to such cooperative association if the cooperative association has notified in writing prior to delivery both the market administrator and the handler to whom the milk is delivered that it wishes to be the handler for such milk. Such milk shall be considered as having been received by the cooperative association at the location of the plant to which it was delivered;

(d) Any person who operates a partially regulated distributing plant;

(e) A producer-handler; and

(f) Any person who operates an other order plant described in § 1046.7(e).

§ 1046.10 Producer-handler.

"Producer-handler" means any person who processes and packages milk from his own farm production, distributes any portion of such milk as route disposition in the marketing area and receives no fluid milk products from other dairy farmers or nonpool plants and no milk products other than fluid milk products for reconstitution into fluid milk products: *Provided*, That such person provides proof satisfactory to the market administrator that (a) the care and management of all of the dairy animals and other resources necessary to produce the entire amount of fluid milk handled (excluding transfers from pool plants) is the personal enterprise of and at the personal risk of such person, and (b) the operation of the processing and distributing business is the personal enterprise of and at the personal risk of such person.

§ 1046.11 [Reserved]

§ 1046.12 Producer.

(a) Except as provided in paragraph (b) of this section, "producer" means any person:

(1) Who produces milk on a dairy farm which is approved by a duly constituted health authority for the production of milk for fluid disposition (this definition shall include approval of milk by the authority to administer the regulations governing the quality of milk acceptable to agencies of the United States Government for fluid consumption in its institutions or bases located in the marketing area during any month in which such milk is disposed of to such institutions or bases); and

(2) Whose milk so produced pursuant to paragraph (a)(1) of this section is received at a pool plant or by a handler described in § 1046.9(c) or diverted in accordance with the conditions set forth in § 1046.13.

(b) "Producer" shall not include:

(1) A producer-handler as defined in any order (including this part) issued pursuant to the Act;

(2) Any person with respect to milk produced by him which is diverted to a pool plant from an other order plant if the other order designates such person as a producer under that order and such milk is allocated to Class II or Class III utilization pursuant to § 1046.44(a)(8)(iii) and the corresponding step of § 1046.44(b); and

(3) Any person with respect to milk produced by him which is reported as diverted to an other order plant if any portion of such person's milk so moved is assigned to Class I under the provisions of such other order.

§ 1046.13 Producer milk.

"Producer milk" means that skim milk and butterfat contained in milk of a producer which is:

(a) Received from producers at a pool plant for the account of the person operating such plant. When milk is withdrawn at more than one pool plant from the same load delivered by a farm tank pickup truck, the entire load shall be deemed to have been received at the first pool plant at which any of such milk was withdrawn unless:

(1) There is an agreement among the operators of the pool plants receiving such milk providing for other receiving handler(s) to report and pay for all or a portion of such milk; or

(2) The milk involved is that which is delivered to pool plants for the account of a handler described in § 1046.9(c).

(b) Diverted by a handler from a pool plant to another pool plant for any number of days of the month. Milk so diverted shall be deemed to have been received by the diverting handler at the location of the pool plant from which it is diverted.

(c) Diverted from a pool plant to a nonpool plant that is not a producer-handler plant, for the account of the operator of the pool plant or a cooperative association, subject to the following conditions:

(1) Milk so diverted shall be deemed to have been received at the pool plant from which it is diverted; and

(2) Producer milk pursuant to this paragraph shall not include the milk of any person during any of the months of October, November, January and February on days on which it is diverted by a handler to a nonpool plant in excess of 22 days (11 days in the case of every-other-day delivery) during the month.

(d) Received by a handler described in § 1046.9(c).

§ 1046.14 Other source milk.

"Other source milk" means all skim milk and butterfat contained in or represented by:

(a) Receipts of fluid milk products and bulk products specified in § 1046.40(b)(1) from any source other than producers, handlers described in § 1046.9(c), or pool plants;

(b) Receipts in packaged form from other plants of products specified in § 1046.40(b)(1);

(c) Products (other than fluid milk products, products specified in § 1046.40(b)(1), and products produced at the plant during the same month) from any source which are reprocessed, converted into, or combined with another product in the plant during the month; and

(d) Receipts of any milk product (other than a fluid milk product or a product specified in § 1046.40(b)(1)) for which the handler fails to establish a disposition.

§ 1046.15 Fluid milk product.

(a) Except as provided in paragraph (b) of this section, "fluid milk product" means any of the following products in fluid or frozen form:

(1) Milk, skim milk, lowfat milk, milk drinks, buttermilk, filled milk, and milkshake and ice milk mixes containing less than 20 percent total solids, including any such products that are flavored, cultured, modified with added nonfat milk solids, concentrated (if in a consumer-type package), or reconstituted; and

(2) Any milk product not specified in paragraph (a)(1) of this section or in § 1046.40 (b) or (c)(1) (i) through (v) if it contains by weight at least 80 percent water and 6.5 percent nonfat milk solids and less than 9 percent butterfat and 20 percent total solids.

(b) The term "fluid milk product" shall not include:

(1) Evaporated or condensed milk (plain or sweetened), evaporated or condensed skim milk (plain or sweetened), formulas especially prepared for infant feeding or dietary use that are packaged in hermetically sealed glass or all-metal containers, any product that contains by weight less than 6.5 percent nonfat milk solids, and whey; and

(2) The quantity of skim milk in any modified product specified in paragraph (a) of this section that is in excess of the quantity of skim milk in an equal volume of an unmodified product of the same nature and butterfat content.

§ 1046.16 Fluid cream product.

"Fluid cream product" means cream (other than plastic cream or frozen cream), sour cream, or a mixture (including a cultured mixture) of cream and milk or skim milk containing 9 percent or more butterfat, with or without the addition of other ingredients.

§ 1046.17 Filled milk.

"Filled milk" means any combination of nonmilk fat (or oil) with skim milk (whether fresh, cultured, reconstituted, or modified by the addition of nonfat milk solids), with or without milkfat, so that the product (including stabilizers, emulsifiers, or flavoring) resembles milk or any other fluid milk product, and contains less than 6 percent nonmilk fat (or oil).

§ 1046.18 Cooperative association.

"Cooperative association" means any cooperative marketing association of producers which the Secretary determines:

(a) To be qualified under the provisions of the Act of Congress of February 18, 1922, as amended, known as the "Capper-Volstead Act"; and

(b) To have full authority in the sale of milk of its members and to be engaged in making collective sales of or marketing milk or its products for its members.

HANDLER REPORTS

§ 1046.30 Reports of receipts and utilization.

On or before the 8th day after the end of each month, each handler shall report for such month to the market administrator, in the detail and on the forms prescribed by the market administrator, as follows:

(a) Each handler, with respect to each of his pool plants, shall report the quantities of skim milk and butterfat contained in or represented by:

(1) Receipts of producer milk, including producer milk diverted by the handler from the pool plant to other plants;

(2) Receipts of milk from handlers described in § 1046.9(c);

(3) Receipts of fluid milk products and bulk fluid cream products from other pool plants;

(4) Receipts of other source milk;

(5) Inventories at the beginning and end of the month of fluid milk products and products specified in § 1046.40(b)(1); and

(6) The utilization or disposition of all milk, filled milk, and milk products required to be reported pursuant to this paragraph.

(b) Each handler operating a partially regulated distributing plant shall report with respect to such plant in the same manner as prescribed for reports required by paragraph (a) of this section. Receipts of milk that would have been producer milk if the plant had been fully regulated shall be reported in lieu of producer milk. Such report shall show also the quantity of any reconstituted skim milk in route disposition in the marketing area.

(c) Each handler described in § 1046.9(b) and (c) shall report:

(1) The quantities of all skim milk and butterfat contained in receipts of milk from producers; and

(2) The utilization or disposition of all such receipts.

(d) Each handler not specified in paragraphs (a) through (c) of this section shall report with respect to his receipts and utilization of milk, filled milk, and milk products in such manner as the market administrator may prescribe.

§ 1046.31 Payroll reports.

(a) On or before the 20th day after the end of each month, each handler described § 1046.9(a), (b), and (c) shall report to the market administrator his producer payroll for such month, in the detail prescribed by the market administrator, showing for each producer:

(1) His name and address;

(2) The total pounds of milk received from such producer;

(3) The average butterfat content of such milk; and

(4) The price per hundredweight, the gross amount due, the amount and nature of any deductions, and the net amount paid.

(b) Each handler operating a partially regulated distributing plant who elects to make payment pursuant to § 1046.76(b) shall report for each dairy farmer who would have been a producer if the plant had been fully regulated in the same manner as prescribed for reports required by paragraph (a) of this section.

§ 1046.32 Other reports.

(a) Each handler shall report to the market administrator, as soon as possible after first receiving milk from any producer, the name and address of such producer, the date upon which such milk was first received, and the plant at which such milk was received.

(b) On or before the 10th day after the request of the market administrator, each handler shall submit a schedule of rates which are charged and paid for the transportation of milk from the farm of each producer to such handler's plant. Changes in such schedule of rates and the effective dates thereof shall be reported to the market administrator within 10 days.

(c) In addition to the reports required pursuant to paragraphs (a) and (b) of this section and §§ 1046.30 and 1046.31, each handler shall report such other information as the market administrator deems necessary to verify or establish such handler's obligation under the order.

CLASSIFICATION OF MILK

§ 1046.40 Classes of utilization.

Except as provided in § 1046.42, all skim milk and butterfat required to be reported by a handler pursuant to § 1046.30 shall be classified as follows:

(a) *Class I milk.* Class I milk shall be all skim milk and butterfat:

(1) Disposed of in the form of a fluid milk product, except as otherwise provided in paragraphs (b) and (c) of this section; and

(2) Not specifically accounted for as Class II or Class III milk.

(b) *Class II milk.* Class II milk shall be all skim milk and butterfat:

(1) Disposed of in the form of a fluid cream product, eggnog, yogurt, and any product containing 6 percent or more nonmilk fat (or oil) that resembles a fluid cream product, eggnog, or yogurt, except as otherwise provided in paragraph (c) of this section;

(2) In packaged inventory at the end of the month of the products specified in paragraph (b)(1) of this section;

(3) In bulk fluid milk products and bulk fluid cream products disposed of to any commercial food processing establishment (other than a milk or filled milk plant) at which food products (other than milk products and filled milk) are processed and from which there is no disposition of fluid milk products or fluid cream products other than those received in consumer-type packages; and

(4) Used to produce:

(i) Cottage cheese, lowfat cottage cheese, and dry curd cottage cheese;

(ii) Milkshake and ice milk mixes (or bases) containing 20 percent or more total solids, frozen desserts, and frozen dessert mixes;

(iii) Any concentrated milk product in bulk, fluid form other than that specified in paragraph (c)(1)(iv) of this section;

(iv) Plastic cream, frozen cream, and anhydrous milkfat;

(v) Custards, puddings, and pancake mixes; and

(vi) Formulas especially prepared for infant feeding or dietary use that are

V 39 I 87 MAY 3 74 XUM

packaged in hermetically sealed glass or all-metal containers.

(c) *Class III milk.* Class III milk shall be all skim milk and butterfat:

(1) Used to produce:

(i) Cheese (other than cottage cheese, lowfat cottage cheese, and dry curd cottage cheese);

(ii) Butter;

(iii) Any milk product in dry form;

(iv) Any concentrated milk product in bulk, fluid form that is used to produce a Class III product;

(v) Evaporated or condensed milk (plain or sweetened) in a consumer-type package and evaporated or condensed skim milk (plain or sweetened) in a consumer-type package; and

(vi) Any product not otherwise specified in this section;

(2) In inventory at the end of the month of fluid milk products in bulk or packaged form and products specified in paragraph (b)(1) of this section in bulk form;

(3) In fluid milk products and products specified in paragraph (b)(1) of this section that are disposed of by a handler for animal feed;

(4) In fluid milk products and products specified in paragraph (b)(1) of this section that are dumped by a handler if the market administrator is notified of such dumping in advance and is given the opportunity to verify such disposition;

(5) In skim milk in any modified fluid milk product that is in excess of the quantity of skim milk in such product that was included within the fluid milk product definition pursuant to § 1046.15; and

(6) In shrinkage assigned pursuant to § 1046.41(a) to the receipts specified in § 1046.41(a)(2) and in shrinkage specified in § 1046.41 (b) and (c).

§ 1046.41 Shrinkage.

For purposes of classifying all skim milk and butterfat to be reported by a handler pursuant to § 1046.30, the market administrator shall determine the following:

(a) The total shrinkage of skim milk and butterfat, respectively, at each pool plant, which shall be assigned pro rata to:

(1) The quantity of skim milk and butterfat, respectively, that is equal to 50 times the maximum amount that may be computed pursuant to paragraph (b) of this section; and

(2) The quantity of skim milk and butterfat, respectively, in other source milk received in bulk form as fluid milk products or bulk fluid cream products, excluding any such receipts used in the computations pursuant to paragraph (b)(5) and (6) of this section;

(b) The shrinkage of skim milk and butterfat, respectively, assigned pursuant to paragraph (a) of this section to the receipts specified in paragraph (a)(1) of this section that is not in excess of:

(1) Two percent of the skim milk and butterfat, respectively, in producer milk (excluding milk diverted by the plant operator to another plant);

(2) Plus 1.5 percent of the skim milk and butterfat, respectively, in milk received from a handler described in § 1046.9(c) and in milk diverted to such plant from another pool plant, except that, in either case, if the operator of the plant to which the milk is delivered purchases such milk on the basis of weights determined from its measurement at the farm and butterfat tests determined from farm bulk tank samples, the applicable percentage under this subparagraph shall be 2 percent;

(3) Plus 0.5 percent of the skim milk and butterfat, respectively, in producer milk diverted from such plant by the plant operator to another plant, except that if the operator of the plant to which the milk is delivered purchases such milk on the basis of weights determined from its measurement at the farm and butterfat tests determined from farm bulk tank samples, the applicable percentage under this subparagraph shall be zero;

(4) Plus 1.5 percent of the skim milk and butterfat, respectively, in bulk fluid milk products received by transfer from other pool plants;

(5) Plus 1.5 percent of the skim milk and butterfat, respectively, in bulk fluid milk products received by transfer from other order plants, excluding the quantity for which Class II or Class III classification is requested by the operators of both plants;

(6) Plus 1.5 percent of the skim milk and butterfat, respectively, in bulk fluid milk products received from unregulated supply plants, excluding the quantity for which Class II or Class III classification is requested by the handler; and

(7) Less 1.5 percent of the skim milk and butterfat, respectively, in bulk fluid milk products transferred to other plants that is not in excess of the respective amounts of skim milk and butterfat to which percentages are applied in paragraph (b) (1), (2), (4), (5), and (6) of this section; and

(c) The quantity of skim milk and butterfat, respectively, in shrinkage of milk from producers for which a cooperative association is the handler pursuant to § 1046.9 (b) or (c), but not in excess of 0.5 percent of the skim milk and butterfat, respectively, in such milk. If the operator of the plant to which the milk is delivered purchases such milk on the basis of weights determined from its measurement at the farm and butterfat tests determined from farm bulk tank samples, the applicable percentage under this paragraph for the cooperative association shall be zero.

§ 1046.42 Classification of transfers and diversions.

(a) *Transfers and diversions to pool plants.* Skim milk or butterfat transferred or diverted in the form of a fluid milk product or a bulk fluid cream product from a pool plant to another pool plant or by a handler described in § 1046.9(c) to another handler's pool plant shall be classified as Class I milk unless both handlers request the same classification in another class. In either case, the classification of such transfers or diversions shall be subject to the following conditions:

(1) The skim milk or butterfat classified in each class shall be limited to the amount of skim milk and butterfat, respectively, remaining in such class at the transferee-plant or divertee-plant after the computations pursuant to § 1046.44(a)(12) and the corresponding step of § 1046.44(b);

(2) If the transferor-plant or divertor-plant received during the month other source milk to be allocated pursuant to § 1046.44(a)(7) or the corresponding step of § 1046.44(b), the skim milk or butterfat so transferred or diverted shall be classified so as to allocate the least possible Class I utilization to such other source milk;

(3) If the transferor-handler or divertor-handler received during the month other source milk to be allocated pursuant to § 1046.44(a) (11) or (12) or the corresponding steps of § 1046.44(b), the skim milk or butterfat, so transferred or diverted, up to the total of the skim milk and butterfat, respectively, in such receipts of other source milk, shall not be classified as Class I milk to a greater extent than would be the case if the other source milk had been received at the transferee-plant or divertee-plant; and

(4) If a specified classification is not claimed by both handlers in the case of transfers or diversions by such a cooperative association, such skim milk and butterfat shall be classified pro rata to the respective amounts remaining in each class at the pool plant of the transferee- or divertee-handler after making the assignments pursuant to § 1046.44(a)(12) and the corresponding step of § 1046.44(b), and after the assignment of milk for which a specified classification has been claimed pursuant to this paragraph.

(b) *Transfers and diversions to other order plants.* Skim milk or butterfat transferred or diverted in the form of a fluid milk product or a bulk fluid cream product from a pool plant to an other order plant shall be classified in the following manner. Such classification shall apply only to the skim milk or butterfat that is in excess of any receipts at the pool plant from the other order plant of skim milk and butterfat, respectively, in fluid milk products and bulk fluid cream products, respectively, that are in the same category as described in paragraph (b) (1), (2), or (3) of this section:

(1) If transferred as packaged fluid milk products, classification shall be in the classes to which allocated as a fluid milk product under the other order;

(2) If transferred in bulk form, classification shall be in the classes to which allocated under the other order (including allocation under the conditions set forth in paragraph (b)(3) of this section);

(3) If the operators of both plants so request in their reports of receipts and utilization filed with their respective market administrators, transfers or diversions in bulk form shall be classified as Class II or Class III milk to the extent of such utilization available for such classification pursuant to the allocation provisions of the other order;

(4) If information concerning the classes to which such transfers or diversions were allocated under the other order is not available to the market administrator for the purpose of establishing classification under this paragraph, classification shall be as Class I, subject to adjustment when such information is available;

(5) For purposes of this paragraph, if the other order provides for a different number of classes of utilization than is provided for under this part, skim milk or butterfat allocated to a class consisting primarily of fluid milk products shall be classified as Class I milk, and skim milk or butterfat allocated to the other classes shall be classified as Class III milk; and

(6) If the form in which any fluid milk product that is transferred to an other order plant is not defined as a fluid milk product under such other order, classification under this paragraph shall be in accordance with the provisions of § 1046.40.

(c) *Transfers to producer-handlers.* Skim milk or butterfat transferred in the following forms from a pool plant to a producer-handler under this or any other Federal order shall be classified:

(1) As Class I milk, if transferred in the form of a fluid milk product; and

(2) In accordance with the utilization assigned to it by the market administrator, if transferred in the form of a bulk fluid cream product. For this purpose, the producer-handler's utilization of skim milk and butterfat in each class, in series beginning with Class III, shall be assigned to the extent possible to his receipts of skim milk and butterfat, respectively, in bulk fluid cream products, pro rata to each source.

(d) *Transfers and diversions to other nonpool plants.* Skim milk or butterfat transferred or diverted in the following forms from a pool plant to a nonpool plant that is not an other order plant or a producer-handler plant shall be classified:

(1) As Class I milk, if transferred in the form of a packaged fluid milk product; and

(2) As Class I milk, if transferred or diverted in the form of a bulk fluid milk product or a bulk fluid cream product, unless the following conditions apply:

(i) If the conditions described in paragraph (d)(2)(i) (a) and (b) of this section are met, transfers or diversions in bulk form shall be classified on the basis of the assignment of the nonpool plant's utilization to its receipts as set forth in paragraph (d)(2) (ii) through (viii) of this section:

(a) The transferor-handler or divertor-handler claims such classification in his report of receipts and utilization filed pursuant to § 1046.30 for the month within which such transaction occurred; and

(b) The nonpool plant operator maintains books and records showing the utilization of all skim milk and butterfat received at such plant which are made available for verification purposes if requested by the market administrator;

(ii) Route disposition in the marketing area of each Federal milk order from the nonpool plant and transfers of packaged fluid milk products from such nonpool plant to plants fully regulated thereunder shall be assigned to the extent possible in the following sequence:

(a) Pro rata to receipts of packaged fluid milk products at such nonpool plant from pool plants;

(b) Pro rata to any remaining unassigned receipts of packaged fluid milk products at such nonpool plant from other order plants;

(c) Pro rata to receipts of bulk fluid milk products at such nonpool plant from pool plants; and

(d) Pro rata to any remaining unassigned receipts of bulk fluid milk products at such nonpool plant from other order plants;

(iii) Any remaining Class I disposition of packaged fluid milk products from the nonpool plant shall be assigned to the extent possible pro rata to any remaining unassigned receipts of packaged fluid milk products at such nonpool plant from pool plants and other order plants;

(iv) Transfers of bulk fluid milk products from the nonpool plant to a plant fully regulated under any Federal milk order, to the extent that such transfers to the regulated plant exceed receipts of fluid milk products from such plant and are allocated to Class I at the transferee-plant, shall be assigned to the extent possible in the following sequence:

(a) Pro rata to receipts of fluid milk products at such nonpool plant from pool plants; and

(b) Pro rata to any remaining unassigned receipts of fluid milk products at such nonpool plant from other order plants;

(v) Any remaining unassigned Class I disposition from the nonpool plant shall be assigned to the extent possible in the following sequence:

(a) To such nonpool plant's receipts from dairy farmers who the market administrator determines constitute regular sources of Grade A milk for such nonpool plant; and

(b) To such nonpool plant's receipts of Grade A milk from plants not fully regulated under any Federal milk order which the market administrator determines constitute regular sources of Grade A milk for such nonpool plant;

(vi) Any remaining unassigned receipts of bulk fluid milk products at the nonpool plant from pool plants and other order plants shall be assigned, pro rata among such plants, to the extent possible first to any remaining Class I utilization, then to Class III utilization, and then to Class II utilization at such nonpool plant;

(vii) Receipts of bulk fluid cream products at the nonpool plant from pool plants and other order plants shall be assigned, pro rata among such plants, to the extent possible first to any remaining Class III utilization, then to any remaining Class II utilization, and then to Class I utilization at such nonpool plant; and

(viii) In determining the nonpool plant's utilization for purposes of this subparagraph, any fluid milk products and bulk fluid cream products transferred from such nonpool plant to a plant not fully regulated under any Federal milk order shall be classified on the basis of the second plant's utilization using the same assignment priorities at the second plant that are set forth in this subparagraph.

§ 1046.43 General classification rules.

In determining the classification of producer milk pursuant to § 1046.44, the following rules shall apply:

(a) Each month the market administrator shall correct for mathematical and other obvious errors all reports filed pursuant to § 1046.30 and shall compute separately for each pool plant and for each cooperative association with respect to milk for which it is the handler pursuant to § 1046.9 (b) or (c) the pounds of skim milk and butterfat, respectively, in each class in accordance with §§ 1046.40, 1046.41, and 1046.42;

(b) If any of the water contained in the milk from which a product is made is removed before the product is utilized or disposed of by a handler, the pounds of skim milk in such product that are to be considered under this part as used or disposed of by the handler shall be an amount equivalent to the nonfat milk solids contained in such product plus all of the water originally associated with such solids; and

(c) The classification of producer milk for which a cooperative association is the handler pursuant to § 1046.9 (b) or (c) shall be determined separately from the operations of any pool plant operated by such cooperative association.

§ 1046.44 Classification of producer milk.

For each month the market administrator shall determine the classification of producer milk of each handler described in § 1046.9(a) for each of his pool plants separately and of each handler described in § 1046.9 (b) and (c) by allocating the handler's receipts of skim milk and butterfat to his utilization as follows:

(a) Skim milk shall be allocated in the following manner:

(1) Subtract from the total pounds of skim milk in Class III the pounds of skim milk in shrinkage specified in § 1046.41 (b);

(2) Subtract from the total pounds of skim milk in Class I the pounds of skim milk in receipts of packaged fluid milk products from an unregulated supply plant to the extent that an equivalent amount of skim milk disposed of to such plant by handlers fully regulated under any Federal milk order is classified and priced as Class I milk and is not used as an offset for any other payment obligation under any order;

(3) Subtract from the pounds of skim milk remaining in each class the pounds of skim milk in fluid milk products received in packaged form from an other

V 39 I 87 MAY 3 74 XUM

order plant, except that to be subtracted pursuant to paragraph (a)(7)(vi) of this section, as follows:

(i) From Class III milk, the lesser of the pounds remaining or 2 percent of such receipts; and

(ii) From Class I milk, the remainder of such receipts;

(4) Subtract from the pounds of skim milk in Class II the pounds of skim milk in products specified in § 1046.40(b)(1) that were received in packaged form from other plants, but not in excess of the pounds of skim milk remaining in Class II;

(5) Subtract from the remaining pounds of skim milk in Class II the pounds of skim milk in products specified in § 1046.40(b)(1) that were in inventory at the beginning of the month in packaged form, but not in excess of the pounds of skim milk remaining in Class II. This subparagraph shall apply only if the pool plant was subject to the provisions of this subparagraph or comparable provisions of another Federal milk order in the immediately preceding month;

(6) Subtract from the remaining pounds of skim milk in Class II the pounds of skim milk in other source milk (except that received in the form of a fluid milk product or a fluid cream product) that is used to produce, or added to, any product specified in § 1046.40(b), but not in excess of the pounds of skim milk remaining in Class II;

(7) Subtract in the order specified below from the pounds of skim milk remaining in each class, in series beginning with Class III, the pounds of skim milk in each of the following:

(i) Other source milk (except that received in the form of a fluid milk product) and, if paragraph (a)(5) of this section applies, packaged inventory at the beginning of the month of products specified in § 1046.40(b)(1) that was not subtracted pursuant to paragraph (a)(4), (5), and (6) of this section;

(ii) Receipts of fluid milk products (except filled milk) for which Grade A certification is not established;

(iii) Receipts of fluid milk products from unidentified sources;

(iv) Receipts of fluid milk products from a producer-handler as defined under this or any other Federal milk order;

(v) Receipts of reconstituted skim milk in filled milk from an unregulated supply plant that were not subtracted pursuant to paragraph (a)(2) of this section; and

(vi) Receipts of reconstituted skim milk in filled milk from an other order plant that is regulated under any Federal milk order providing for individual-handler pooling, to the extent that reconstituted skim milk is allocated to Class I at the transferor-plant;

(8) Subtract in the order specified below from the pounds of skim milk remaining in Class II and Class III, in sequence beginning with Class III:

(i) The pounds of skim milk in receipts of fluid milk products from an unregulated supply plant that were not subtracted pursuant to paragraph (a)(2), and (7)(v) of this section for which the handler requests a classification other than Class I, but not in excess of the pounds of skim milk remaining in Class II and Class III combined;

(ii) The pounds of skim milk in receipts of fluid milk products from an unregulated supply plant that were not subtracted pursuant to paragraph (a)(2), (7)(v), and (8)(i) of this section which are in excess of the pounds of skim milk determined pursuant to paragraph (a)(8)(ii)(a) through (c) of this section. Should the pounds of skim milk to be subtracted from Class II and Class III combined exceed the pounds of skim milk remaining in such classes, the pounds of skim milk in Class II and Class III combined shall be increased (increasing as necessary Class III and then Class II to the extent of available utilization in such classes at the nearest other pool plant of the handler, and then at each successively more distant pool plant of the handler) by an amount equal to such excess quantity to be subtracted, and the pounds of skim milk in Class I shall be decreased by a like amount. In such case, the pounds of skim milk remaining in each class at this allocation step at the handler's other pool plants shall be adjusted in the reverse direction by a like amount:

(a) Multiply by 1.25 the sum of the pounds of skim milk remaining in Class I at this allocation step at all pool plants of the handler (excluding any duplication of Class I utilization resulting from reported Class I transfers between pool plants of the handler);

(b) Subtract from the above result the sum of the pounds of skim milk in receipts at all pool plants of the handler of producer milk, milk from a handler described in § 1046.9(c), fluid milk products from pool plants of other handlers, and bulk fluid milk products from other order plants that were not subtracted pursuant to paragraph (a)(7)(vi) of this section; and

(c) Multiply any plus quantity resulting above by the percentage that the receipts of skim milk in fluid milk products from unregulated supply plants that remain at this pool plant is of all such receipts remaining at this allocation step at all pool plants of the handler; and

(iii) The pounds of skim milk in receipts of bulk fluid milk products from an other order plant that are in excess of bulk fluid milk products transferred or diverted to such plant and that were not subtracted pursuant to paragraph (a)(7)(vi) of this section, if Class II or Class III classification is requested by the operator of the other order plant and the handler, but not in excess of the pounds of skim milk remaining in Class II and Class III combined;

(9) Subtract from the pounds of skim milk remaining in each class, in series beginning with Class III, the pounds of skim milk in fluid milk products and products specified in § 1046.40(b)(1) in inventory at the beginning of the month that were not subtracted pursuant to paragraphs (a)(5) and (7)(i) of this section;

(10) Add to the remaining pounds of skim milk in Class III the pounds of skim milk subtracted pursuant to paragraph (a)(1) of this section;

(11) Subject to the provisions of paragraph (a)(11)(i) and (ii) of this section, subtract from the pounds of skim milk remaining in each class at the plant, pro rata to the total pounds of skim milk remaining in Class I and in Class II and Class III combined at this allocation step at all pool plants of the handler (excluding any duplication of utilization in each class resulting from transfers between pool plants of the handler), with the quantity prorated to Class II and Class III combined being subtracted first from Class III and then from Class II, the pounds of skim milk in receipts of fluid milk products from an unregulated supply plant that were not subtracted pursuant to paragraph (a)(2), (7)(v), and (8)(i) and (ii) of this section and that were not offset by transfers or diversions of fluid milk products to the same unregulated supply plant from which fluid milk products to be allocated at this step were received:

(i) Should the pounds of skim milk to be subtracted from Class II and Class II combined pursuant to this subparagraph exceed the pounds of skim milk remaining in such classes, the pounds of skim milk in Class II and Class III combined shall be increased (increasing as necessary Class III and then Class II to the extent of available utilization in such classes at the nearest other pool plant of the handler, and then at each successively more distant pool plant of the handler) by an amount equal to such excess quantity to be subtracted, and the pounds of skim milk in Class I shall be decreased by a like amount. In such case, the pounds of skim milk remaining in each class at this allocation step at the handler's other pool plants shall be adjusted in the reverse direction by a like amount:

(a) Multiply by 1.25 the sum of the pounds of skim milk remaining in Class I at this allocation step at all pool plants of the handler (excluding any duplication of Class I utilization resulting from transfers between pool plants of the handler);

(b) Subtract from the above result the sum of the pounds of skim milk in receipts at all pool plants of the handler of producer milk, milk from a handler described in § 1046.9(c), fluid milk products from pool plants of other handlers, and bulk fluid milk products from other order plants that were not subtracted pursuant to paragraph (a)(7)(vi) of this section; and

(c) Multiply any plus quantity resulting above by the percentage that the receipts of skim milk in fluid milk products from unregulated supply plants that remain at this pool plant is of all such receipts remaining at this allocation step at all pool plants of the handler; and

(ii) Should the pounds of skim milk to be subtracted from Class I pursuant to this subparagraph exceed the pounds of skim milk remaining in such class, the pounds of skim milk in Class I shall be increased by an amount equal to such excess quantity to be subtracted, and the pounds of skim milk in Class II and Class III combined shall be decreased by a like amount (decreasing as necessary Class III and then Class II). In such case, the pounds of skim milk remaining in each class at this allocation step at the handler's other pool plants shall be adjusted in the reverse direction by a like amount, beginning with the nearest plant at which Class I utilization is available;

(12) Subtract in the manner specified below from the pounds of skim milk remaining in each class the pounds of skim milk in receipts of bulk fluid milk products from an other order plant that are in excess of bulk fluid milk products transferred or diverted to such plant and that were not subtracted pursuant to paragraph (a)(7)(vi) and (8)(iii) of this section:

(i) Subject to the provisions of paragraph (a)(12)(ii), (iii), and (iv) of this section, such subtraction shall be pro rata to the pounds of skim milk in Class I and in Class II and Class III combined, with the quantity prorated to Class II and Class III combined being subtracted first from Class III and then from Class II, with respect to whichever of the following quantities represents the lower proportion of Class I milk:

(a) The estimated utilization of skim milk of all handlers in each class as announced for the month pursuant to § 1046.45(a); or

(b) The total pounds of skim milk remaining in each class at this allocation step at all pool plants of the handler (excluding any duplication of utilization in each class resulting from transfers between pool plants of the handler);

(ii) Should the proration pursuant to paragraph (a)(12)(i) of this section result in the total pounds of skim milk at all pool plants of the handler that are to be subtracted at this allocation step from Class II and Class III combined exceeding the pounds of skim milk remaining in Class II and Class III at all such plants, the pounds of such excess shall be subtracted from the pounds of skim milk remaining in Class I after such proration at the pool plants at which such other source milk was received;

(iii) Except as provided in paragraph (a)(12)(ii) of this section, should the computations pursuant to paragraph (a)(12)(i) or (ii) of this section result in a quantity of skim milk to be subtracted from Class II and Class III combined that exceeds the pounds of skim milk remaining in such classes, the pounds of skim milk in Class II and Class III combined shall be increased (increasing as necessary Class III and then Class II to the extent of available utilization in such classes at the nearest other pool plant of the handler, and then at each successively more distant pool plant of the handler) by an amount equal to such excess quantity to be subtracted, and the pounds of skim milk in Class I shall be decreased by a like amount. In such case, the pounds of skim milk remaining in each class at this allocation step at the handler's other pool plants shall be adjusted in the reverse direction by a like amount; and

(iv) Except as provided in paragraph (a)(12)(ii) of this section, should the computations pursuant to paragraph (a)(12)(i) or (ii) of this section result in a quantity of skim milk to be subtracted from Class I that exceeds the pounds of skim milk remaining in such class, the pounds of skim milk in Class I shall be increased by an amount equal to such excess quantity to be subtracted, and the pounds of skim milk in Class II and Class III combined shall be decreased by a like amount (decreasing as necessary Class III and then Class II). In such case, the pounds of skim milk remaining in each class at this allocation step at the handler's other pool plants shall be adjusted in the reverse direction by a like amount beginning with the nearest plant at which Class I utilization is available;

(13) Subtract from the pounds of skim milk remaining in each class the pounds of skim milk in receipts of fluid milk products and bulk fluid cream products from another pool plant or a handler described in § 1046.9(c) according to the classification of such products pursuant to § 1046.42(a); and

(14) If the total pounds of skim milk remaining in all classes exceed the pounds of skim milk in producer milk, subtract such excess from the pounds of skim milk remaining in each class in series beginning with Class III. Any suant to paragraph (a)(14) of this section and the corresponding step of paragraph (b) of this section.

(b) Butterfat shall be allocated in accordance with the procedure outlined for skim milk in paragraph (a) of this section; and

(c) The quantity of producer milk in each class shall be the combined pounds of skim milk and butterfat remaining in each class after the computations pursuant to paragraph (a)(14) of this section and the corresponding step of paragraph (b) of this section.

§ 1046.45 Market administrator's reports and announcements concerning classification.

The market administrator shall make the following reports and announcements concerning classification:

(a) Whenever required for the purpose of allocating receipts from other order plants pursuant to § 1046.44(a)(12) and the corresponding step of § 1046.44(b), estimate and publicly announce the utilization (to the nearest whole percentage) in each class during the month, of skim milk and butterfat, respectively, in producer milk of all handlers. Such estimate shall be based upon the most current available data and shall be final for such purpose.

(b) Report to the market administrator of the other order, as soon as possible after the report of receipts and utilization for the month is received from a handler who has received fluid milk products or bulk fluid cream products from an other order plant, the class to which such receipts are allocated pursuant to § 1046.44 on the basis of such report, and, thereafter, any change in such allocation required to correct errors disclosed in the verification of such report.

(c) Furnish to each handler operating a pool plant who has shipped fluid milk products or bulk fluid cream products to an other order plant the class to which such shipments were allocated by the market administrator of the other order on the basis of the report by the receiving handler, and, as necessary, any changes in such allocation arising from the verification of such report.

(d) On or before the 15th day after the end of each month, report to each cooperative association, which so requests, with respect to milk delivered by such association or by its members to each handler during the month: (1) The percentage of such receipts classified in each class; and (2) the percentage relationship of such receipts to the total pounds of Class I milk available to assign to such receipts exclusive of the Class I milk disposed of by such handler to the pool plant(s) of other handlers and to nonpool plants. For the purpose of these reports, the milk received from such association shall be treated on a pro rata basis of the total producer milk received by such handler during the month.

Class Prices

§ 1046.50 Class prices.

Subject to the provisions of § 1046.52, the class prices for the month per hundredweight of milk containing 3.5 percent butterfat shall be as follows:

(a) *Class I price.* The Class I price shall be the basic formula price for the second preceding month plus $1.49.

(b) *Class II price.* The Class II price shall be the basic formula price for the month plus 10 cents.

(c) *Class III price.* The Class III price shall be the basic formula price for the month.

§ 1046.51 Basic formula price.

The "basic formula price" shall be the average price per hundredweight for manufacturing grade milk, f.o.b. plants in Minnesota and Wisconsin, as reported by the Department for the month, adjusted to a 3.5 percent butterfat basis and rounded to the nearest cent. For such adjustment, the butterfat differential (rounded to the nearest one-tenth cent) per one-tenth percent butterfat shall be 0.12 times the simple average of the wholesale selling prices (using the midpoint of any price range as one price) of Grade A (92-score) bulk butter per pound at Chicago, as reported by the Department for the month. For the purpose of computing the Class I price, the resulting price shall be not less than $4.33.

§ 1046.52 Plant location adjustments for handlers.

(a) For that milk received from producers or from a handler described in § 1046.9(c) at a pool plant located at any point which is 85 miles or more from the City Hall in Evansville, Indiana, or Louisville, Lexington, Danville, Elizabethtown, or Madisonville, Kentucky, whichever is nearer, by the shortest hard-surfaced highway distance as determined by the market administrator, and which is classified as Class I milk subject to the limitations pursuant to paragraph (b) of this section, the price specified in § 1046.50(a) shall be reduced at the rate set forth in the following schedule according to the location of the plant where such milk is received:

	Rate per hundredweight (cents)
Distance from City Hall:	
85 miles but less than 95 miles	15.0
For each additional 10 miles or fraction thereof an additional	1.5

(b) For purposes of calculating such adjustment, transfers between pool plants shall be assigned to that Class I

V 39 I 87 MAY 3 74 XUM

disposition at the transferee-plant which is in excess of the sum of receipts at such plant from producers and handlers described in § 1046.9(c), and the volume assigned as Class I to receipts from other order plants and unregulated supply plants, such assignment to be made first to transferor-plants at which no location adjustment credit is applicable and then in sequence beginning with the plant at which the least location adjustment would apply.

(c) The Class I price applicable to other source milk shall be adjusted at the rates set forth in paragraph (a) of this section, except that the adjusted Class I price shall not be less than the Class III price.

§ 1046.53 Announcement of class prices.

The market administrator shall announce publicly on or before the fifth day of each month the Class I price for the following month and the Class II and Class III prices for the preceding month.

§ 1046.54 Equivalent price.

If for any reason a price quotation required by this part for computing class prices or for other purposes is not available in the manner described, the market administrator shall use a price determined by the Secretary to be equivalent to the price which is required.

UNIFORM PRICE

§ 1046.60 Handler's value of milk for computing uniform price.

For the purpose of computing the uniform price, the market administrator shall determine for each month the value of milk of each handler with respect to each of his pool plants and of each handler described in § 1046.9 (b) and (c) as follows:

(a) Multiply the pounds of producer milk in each class as determined pursuant to § 1046.44 by the applicable class prices and add the resulting amounts;

(b) Add the amounts obtained from multiplying the pounds of overage subtracted from each class pursuant to § 1046.44(a)(14) and the corresponding step of § 1046.44(b) by the respective class prices, as adjusted by the butterfat differential specified in § 1046.74, that are applicable at the location of the pool plant;

(c) Add the amount obtained from multiplying the difference between the Class III price for the preceding month and the Class I price applicable at the location of the pool plant or the Class II price, as the case may be, for the current month by the hundredweight of skim milk and butterfat subtracted from Class I and Class II pursuant to § 1046.44(a)(9) and the corresponding step of § 1046.44(b);

(d) Add the amount obtained from multiplying the difference between the Class I price applicable at the location of the pool plant and the Class III price by the hundredweight of skim milk and butterfat subtracted from Class I pursuant to § 1046.44(a)(7)(i) through (iv) and the corresponding step of § 1046.44(b), excluding receipts of bulk fluid cream products from an other order plant;

(e) Add the amount obtained from multiplying the difference between the Class I price applicable at the location of the transferor-plant and the Class III price by the hundredweight of skim milk and butterfat subtracted from Class I pursuant to § 1046.44(a)(7)(v) and (vi) and the corresponding step of § 1046.44(b); and

(f) Add the amount obtained from multiplying the Class I price applicable at the location of the nearest unregulated supply plants from which an equivalent volume was received by the pounds of skim milk and butterfat subtracted from Class I pursuant to § 1046.44(a)(11) and the corresponding step of § 1046.44(b), excluding such skim milk and butterfat in receipts of bulk fluid milk products from an unregulated supply plant to the extent that an equivalent amount of skim milk or butterfat disposed of to such plant by handlers fully regulated under any Federal milk order is classified and priced as Class I milk and is not used as an offset for any other payment obligation under any order.

§ 1046.61 Computation of uniform price (including weighted average price).

For each month the market administrator shall compute the uniform price per hundredweight of milk of 3.5 percent butterfat content which is received from producers as follows:

(a) Combine into one total the values computed pursuant to § 1046.60 for all handlers who filed the reports prescribed by § 1046.30 for the month and who are not in default of payments pursuant to § 1046.71 for the preceding month;

(b) Add an amount equal to the total value of the location adjustments computed pursuant to § 1046.75;

(c) Add an amount equal to one-half of the unobligated balance in the producer-settlement fund;

(d) Divide the resulting amount by the sum of the following for all handlers included in these computations;

(1) The total hundredweight of producer milk; and

(2) The total hundredweight for which a value is computed pursuant to § 1046.60(f);

(e) Subtract not less than four cents nor more than five cents per hundredweight. The result shall be the "weighted average price", and, except for the months specified below, shall be the "uniform price" for milk received from producers;

(f) For the months specified in paragraphs (g) and (h) of this section, subtract from the amount resulting from the computations pursuant to paragraphs (a) through (c) of this section an amount computed by multiplying the hundredweight of milk specified in paragraph (d)(2) of this section by the weighted average price;

(g) Subtract for each month of April through July the amount obtained by multiplying the hundredweight of producer milk included in these computations by a rate that is equal to 10 percent of the average basic formula price (computed to the nearest cent) for the preceding calendar year but that is not more than 40 cents;

(h) Add during each of the months of September, October, November and December one-fourth of the total amount subtracted pursuant to paragraph (g) of this section;

(i) Divide the resulting sum by the total hundredweight of producer milk included in these computations; and

(j) Subtract not less than four cents nor more than five cents per hundredweight. The result shall be the "uniform price" per hundredweight for milk of 3.5 percent butterfat received from producers.

§ 1046.62 Announcement of uniform price and butterfat differential.

The market administrator shall announce publicly on or before:

(a) The fifth day after the end of each month the butterfat differential for such month; and

(b) The 12th day after the end of each month the uniform price for such month.

§ 1046.70 Producer-settlement fund.

The market administrator shall establish and maintain a separate fund known as the "producer-settlement fund" into which he shall deposit all payments made by handlers pursuant to §§ 1046.71, 1046.76, and 1046.77 subject to the provisions of § 1046.78, and from which he shall make all payments pursuant to §§ 1046.72 and 1046.77: *Provided*, That payments due any handler shall be offset by payments due from such handler.

§ 1046.71 Payments to the producer-settlement fund.

(a) On or before the 15th day after the end of the month, each handler shall pay to the market administrator the amount, if any, by which the amount specified in paragraph (a)(1) of this section exceeds the amount specified in paragraph (a)(2) of this section:

(1) The total value of milk of the handler for such month as determined pursuant to § 1046.60.

(2) The sum of:

(i) The value at the uniform price, as adjusted pursuant to § 1046.75, of such handler's receipts of producer milk; and

(ii) The value at the weighted average price applicable at the location of the plant from which received of other source milk for which a value is computed pursuant to § 1046.60(f).

(b) On or before the 25th day after the end of the month each person who operated an other order plant that was regulated during such month under an order providing for individual-handler pooling shall pay to the market administrator an amount computed as follows:

(1) Determine the quantity of reconstituted skim milk in filled milk in route disposition from such plant in the marketing area which was allocated to Class I at such plant. If there is such route disposition from such plant in marketing areas regulated by two or more market-wide pool orders, the reconstituted skim milk allocated to Class I shall be prorated to each order according to such route disposition in each marketing area; and

(2) Compute the value of the reconstituted skim milk assigned in paragraph (b)(1) of this section to route disposition in this marketing area by multiplying the quantity of such skim milk by the difference between the Class I price under this part that is applicable at the location of the other order plant (but not to be less than the Class III price) and the Class III price.

§ 1046.72 Payments from the producer-settlement fund.

On or before the 16th day after the end of each month the market administrator shall pay to each handler the amount, if any, by which the amount computed pursuant to § 1046.71(a)(2) exceeds the amount computed pursuant to § 1046.71(a)(1): *Provided*, That the market administrator shall offset any payment due any handler against payments due from such handler, and if the balance in the producer-settlement fund is insufficient to make all payments pursuant to this paragraph, the market administrator shall reduce uniformly such payments and shall complete such payments as soon as the necessary funds are available.

§ 1046.73 Payments to producers and to cooperative associations.

Except as provided in paragraph (c) of this section, each handler shall make payment to each producer for milk received from such producer as follows:

(a) On or before the last day of each month for milk received during the first 15 days of the month from such producer who has not discontinued delivery of milk to such handler, an amount computed at not less than the Class III price for the preceding month without deduction for hauling.

(b) On or before the 17th day after the end of each month for milk received from such producer during such month, an amount computed at not less than the uniform price per hundredweight for the month, as adjusted pursuant to §§ 1046.74 and 1046.75, and plus or minus adjustments for errors made in previous payments to such producer and less (1) the payment made pursuant to paragraph (a) of this section, (2) deductions for marketing services pursuant to § 1046.86, and (3) proper deductions authorized by such producer which, in the case of a deduction for hauling, shall be in writing and signed by such producer or, in the case of members of a cooperative association which is marketing the producer's milk, by such association.

(c)(1) Upon receipt of a written request from a cooperative association which the market administrator determines is authorized by its members to collect payment for their milk and receipt of a written promise to reimburse the handler the amount of any actual loss incurred by him because of any improper claim on the part of the cooperative association in lieu of payments pursuant to paragraphs (a) and (b) of this section, each handler shall pay to the cooperative association on or before the second day prior to the dates specified in paragraphs (a) and (b), respectively, of this section, an amount equal to the sum of the individual payments otherwise payable to such producers without the deductions provided by paragraphs (b)(2) and (3) of this section: *Provided*, That deductions for supplies authorized by such producer may be made. The foregoing payment shall be made with respect to milk of each producer whom the cooperative association certifies is a member effective on and after the first day of the month next following receipt of such certification through the last day of the month next preceding receipt of notice from the cooperative association of a termination of membership or until the original request is rescinded in writing by the cooperative association.

(2) A copy of each such request, promise to reimburse and certified list of members shall be filed simultaneously with the market administrator by the cooperative association and shall be subject to verification at his discretion through audit of the records of the cooperative association pertaining thereto. Exceptions, if any, to the accuracy of such certification by a producer claimed to be a member, or by a handler, shall be made by written notice to the market administrator and shall be subject to his determination.

(d) In making the payments to producers pursuant to paragraph (b) of this section, each handler shall furnish each producer a supporting statement which shall show for each month the following:

(1) The identity of the handler and of the producer;

(2) The total pounds and the average butterfat content of milk received from such producer;

(3) The minimum rate or rates at which payment to such producer is required pursuant to this part;

(4) The rate which is used in making the payment if such rate is other than the applicable minimum rate;

(5) The amount or the rate per hundredweight and nature of each deduction claimed by the handler; and

(6) The net amount of payment to such producer.

(e) In making payments to a cooperative association pursuant to paragraph (c) of this section, each handler shall report to such cooperative association for each such producer on forms approved by the market administrator as follows:

(1) On or before the 20th day of the month, the total pounds of milk received during the first 15 days of such month, and

(2) On or before the 7th day of the following month, the total pounds of milk received each month, together with the butterfat content of such milk and the amount of deductions claimed by such handler.

(f) Each handler shall pay to the cooperative association on or before the 10th day of the following month for milk received from it as a handler described in § 1046.9(c) an amount computed at not less than the value of such milk at the minimum prices for milk in each class, as adjusted by the butterfat differential specified in § 1046.74, that are applicable at the location of the receiving handler's pool plant.

§ 1046.74 Butterfat differential.

For milk containing more or less than 3.5 percent butterfat, the uniform price shall be increased or decreased, respectively, for each one-tenth percent butterfat variation from 3.5 percent by a butterfat differential, rounded to the nearest one-tenth cent, which shall be 0.115 times the simple average of the wholesale selling prices (using the midpoint of any price range as one price) of Grade A (92-score) bulk butter per pound at Chicago, as reported by the Department for the month.

§ 1046.75 Plant location adjustments for producers and on nonpool milk.

(a) The uniform price for producer milk received at a pool plant shall be reduced according to the location of the pool plant at the rates set forth in § 1046.52; and

(b) For purposes of computations pursuant to §§ 1046.71 and 1046.72 the weighted average price shall be reduced at the rates set forth in § 1046.52 applicable at the location of the nonpool plant(s) from which the milk was received, except that the adjusted weighted average price shall not be less than the Class III price.

§ 1046.76 Payments by handler operating a partially regulated distributing plant.

Each handler who operates a partially regulated distributing plant shall pay on or before the 25th day after the end of the month to the market administrator for the producer-settlement fund the amount computed pursuant to paragraph (a) of this section. If the handler submits pursuant to §§ 1046.30(b) and 1046.31(b) the information necessary for making the computations, such handler may elect to pay in lieu of such payment the amount computed pursuant to paragraph (b) of this section:

(a) The payment under this paragraph shall be the amount resulting from the following computations:

(1) Determine the pounds of route disposition in the marketing area from the partially regulated distributing plant;

(2) Subtract the pounds of fluid milk products received at the partially regulated distributing plant:

(i) As Class I milk from pool plants and other order plants, except that subtracted under a similar provision of another Federal milk order; and

(ii) From another nonpool plant that is not an other order plant to the extent that an equivalent amount of fluid milk products disposed of to such nonpool plant by handlers fully regulated

V 39 187
MAY 3 74
XUM

under any Federal milk order is classified and priced as Class I milk and is not used as an offset for any other payment obligation under any order;

(3) Subtract the pounds of reconstituted skim milk in route disposition in the marketing area from the partially regulated distributing plant;

(4) Multiply the remaining pounds by the difference between the Class I price and the weighted average price, both prices to be applicable at the location of the partially regulated distributing plant (but not to be less than the Class III price); and

(5) Add the amount obtained from multiplying the pounds of reconstituted skim milk specified in paragraph (a)(3) of this section by the difference between the Class I price applicable at the location of the partially regulated distributing plant (but not to be less than the Class III price) and the Class III price.

(b) The payment under this paragraph shall be the amount resulting from the following computations:

(1) Determine the value that would have been computed pursuant to § 1046.60 for the partially regulated distributing plant if the plant had been a pool plant, subject to the following modifications:

(i) Fluid milk products and bulk fluid cream products received at the partially regulated distributing plant from a pool plant or an other order plant shall be allocated at the partially regulated distributing plant to the same class in which such products were classified at the fully regulated plants;

(ii) Fluid milk products and bulk fluid cream products transferred from the partially regulated distributing plant to a pool plant or an other order plant shall be classified at the partially regulated distributing plant in the class to which allocated at the fully regulated plant. Such transfers shall be allocated to the extent possible to those receipts at the partially regulated distributing plant from pool plants and other order plants that are classified in the corresponding class pursuant to paragraph (b)(1)(i) of this section. Any such transfers remaining after the above allocation which are classified in Class I and for which a value is computed for the handler operating the partially regulated distributing plant pursuant to § 1046.60 shall be priced at the uniform price (or at the weighted average price if such is provided) of the respective order regulating the handling of milk at the transferee-plant, with such uniform price adjusted to the location of the nonpool plant (but not to be less than the lowest class price of the respective order), except that transfers of reconstituted skim milk in filled milk shall be priced at the lowest class price of the respective order; and

(iii) If the operator of the partially regulated distributing plant so requests, the value of milk determined pursuant to § 1046.60 for such handler shall include, in lieu of the value of other source milk specified in § 1046.60(f) less the value of such other source milk specified in § 1046.71(a)(2)(ii), a value of milk determined pursuant to § 1046.60 for each nonpool plant that is not an other order plant which serves as a supply plant for such partially regulated distributing plant by making shipments to the partially regulated distributing plant during the month equivalent to the requirements of § 1046.7 (b) and (c), subject to the following conditions:

(a) The operator of the partially regulated distributing plant submits with his reports filed pursuant to §§ 1046.30 (b) and 1046.31(b) similar reports for each such nonpool supply plant;

(b) The operator of such nonpool supply plant maintains books and records showing the utilization of all skim milk and butterfat received at such plant which are made available if requested by the market administrator for verification purposes; and

(c) The value of milk determined pursuant to § 1046.60 for such nonpool supply plant shall be determined in the same manner prescribed for computing the obligation of such partially regulated distributing plant; and

(2) From the partially regulated distributing plant's value of milk computed pursuant to paragraph (b)(1) of this section, subtract:

(i) The gross payments by the operator of such partially regulated distributing plant, adjusted to a 3.5 percent butterfat basis by the butterfat differential specified in § 1046.74, for milk received at the plant during the month that would have been producer milk if the plant had been fully regulated;

(ii) If paragraph (b)(1)(iii) of this section applies, the gross payments by the operator of such nonpool supply plant, adjusted to a 3.5 percent butterfat basis by the butterfat differential specified in § 1046.74, for milk received at the plant during the month that would have been producer milk if the plant had been fully regulated; and

(iii) The payments by the operator of the partially regulated distributing plant to the producer-settlement fund of another order under which such plant is also a partially regulated distributing plant and like payments by the operator of the nonpool supply plant if paragraph (b)(1)(iii) of this section applies.

§ 1046.77 Adjustment of accounts.

Whenever verification by the market administrator of payments by any handler discloses errors made in payments to the producer-settlement fund, the market administrator shall promptly bill such handler for any unpaid amount and such handler shall, within 15 days, make payment to the market administrator of the amount so billed. Whenever such verification discloses that payment is due from the market administrator to any handler, pursuant to § 1046.72, the market administrator shall, within 15 days, make such payment to such handler. Whenever verification by the market administrator of the payment by a handler to any producer for milk received by such handler discloses payment of less than is required by § 1046.73, the handler shall pay any amount so due not later than the time of making payment to producers next following such disclosure.

§ 1046.78 Charges on overdue accounts.

Any unpaid obligation of a handler or of the market administrator pursuant to §§ 1046.71, 1046.72, 1046.73, 1046.76, 1046.77, 1046.85, or 1046.86 shall be increased one-half of one percent on the first of the month next following the due date of such obligation and on the first day of each month thereafter until such obligation is paid.

ADMINISTRATIVE ASSESSMENT AND MARKETING SERVICE DEDUCTION

§ 1046.85 Assessment for order administration.

As his pro rata share of the expense of administration of the order, each handler, excluding a handler described in § 1046.9(c), shall pay to the market administrator on or before the 15th day after the end of the month three cents per hundredweight, or such lesser amount as the Secretary may prescribe, with respect to:

(a) Producer milk (including such handler's own production) and milk received from a handler described in § 1046.9(c);

(b) Other source milk allocated to Class I pursuant to § 1046.44(a)(7) and (11) and the corresponding steps of § 1046.44(b), except such other source milk that is excluded from the computations pursuant to § 1046.60 (d) and (f); and

(c) Route disposition in the marketing area from a partially regulated distributing plant that exceeds the skim milk and butterfat subtracted pursuant to § 1046.76(a)(2).

§ 1046.86 Deduction for marketing services.

(a) Except as set forth in paragraph (b) of this section, each handler, in making payments to producers pursuant to § 1046.73(b), shall deduct 5 cents per hundredweight, or such amount not in excess thereof as the Secretary may prescribe, with respect to all milk received by such handler from producers (other than such handler's own farm production) during the month and shall pay such deductions to the market administrator on or before the 15th day after the end of such month. Such moneys shall be used by the market administrator to verify weights, samples, and tests of milk received from such producers and to provide such producers with market information. Such services shall be performed in whole or in part by the market administrator or by an agent engaged by and responsible to him.

(b) Each cooperative association which is actually performing the services described in paragraph (a) of this section, as determined by the market administrator, may file with a handler a claim for authorized deductions from the payments otherwise due to its producer members for milk delivered to such handler. Such claim shall contain a list of the producers for whom such deductions apply, an agreement to indemnify the handler in the making of the deductions, and a certification that the association has an unterminated membership contract with each producer. In making payments to producers for milk received during the month, each handler shall make, in lieu of the deduction specified in paragraph (a) of this section, deductions in accordance with the association's claim and shall pay the amount deducted to the association within 15 days after the end of the month.

PART 1049—MILK IN INDIANA MARKETING AREA

Subpart—Order Regulating Handling

GENERAL PROVISIONS

Sec.
1049.1 General provisions.

DEFINITIONS

1049.2 Indiana marketing area.
1049.3 Route disposition.
1049.4 [Reserved]
1049.5 Distributing plant.
1049.6 Supply plant.
1049.7 Pool plant.
1049.8 Nonpool plant.
1049.9 Handler.
1049.10 Producer-handler.
1049.11 [Reserved]
1049.12 Producer.
1049.13 Producer milk.
1049.14 Other source milk.
1049.15 Fluid milk product.
1049.16 Fluid cream product.
1049.17 Filled milk.
1049.18 Cooperative association.

HANDLER REPORTS

1049.30 Reports of receipts and utilization.
1049.31 Payroll reports.
1049.32 Other reports.

CLASSIFICATION OF MILK

1049.40 Classes of utilization.
1049.41 Shrinkage.
1049.42 Classification of transfers and diversions.
1049.43 General classification rules.
1049.44 Classification of producer milk.
1049.45 Market administrator's reports and announcements concerning classification.

CLASS PRICES

1049.50 Class prices.
1049.51 Basic formula price.
1049.52 Plant location adjustments for handlers.
1049.53 Announcement of class prices.
1049.54 Equivalent price.

UNIFORM PRICE

1049.60 Handler's value of milk for computing uniform price.
1049.61 Computation of uniform price (including weighted average price).
1049.62 Announcement of uniform price and butterfat differential.

PAYMENTS FOR MILK

1049.70 Producer-settlement fund.
1049.71 Payments to the producer-settlement fund.
1049.72 Payments from the producer-settlement fund.
1049.73 Payments to producers and to cooperative associations.
1049.74 Butterfat differential.
1049.75 Plant location adjustments for producers and on nonpool milk.
1049.76 Payments by handler operating a partially regulated distributing plant.
1049.77 Adjustment of accounts.
1049.78 Charges on overdue accounts.

ADMINISTRATIVE ASSESSMENT AND MARKETING SERVICE DEDUCTION

1049.85 Assessment for order administration.
1049.86 Deduction for marketing services.

ADVERTISING AND PROMOTION PROGRAM

1049.110 Agency.
1049.111 Composition of the Agency.
1049.112 Term of office.
1049.113 Selection of Agency members.
1049.114 Agency operating procedure.
1049.115 Powers of the Agency.
1049.116 Duties of the Agency.
1049.117 Advertising, research, education, and promotion program.
1049.118 Limitation of expenditures by the Agency.
1049.119 Personal liability.
1049.120 Procedure for requesting refunds.
1049.121 Duties of the market administrator.
1049.122 Liquidation.

AUTHORITY.—The provisions of this Part 1049 issued under secs. 1–19, 48 Stat. 31, as amended; (7 U.S.C. 601–674).

GENERAL PROVISIONS

§ 1049.1 General provisions.

The terms, definitions, and provisions in Part 1000 of this chapter are hereby incorporated by reference and made a part of this order.

DEFINITIONS

§ 1049.2 Indiana marketing area.

"Indiana marketing area" (hereinafter referred to as the "marketing area") means all the territory within the boundaries of each of the Indiana counties listed below, including territory wholly or partly within such boundaries occupied by Government (municipal, State, or Federal) reservations, installations, institutions, or other similar establishments:

Adams.
Allen.
Bartholomew.
Blackford.
Boone.
Brown.
Cass.
Clay.
Clinton.
Decatur.
De Kalb.
Delaware.
Elkhart.
Fayette.
Fountain.
Franklin.
Fulton.
Grant.
Hamilton.
Hancock.
Hendricks.
Henry.
Howard.
Huntington.
Jackson.
Jay.
Johnson.
Kosciusko.
Lagrange.
Lake.
La Porte.
Lawrence.
Madison.
Marion.
Marshall.
Miami.
Monroe.
Montgomery.
Morgan.
Noble.
Owen.
Parke.
Porter.
Putnam.
Randolph.
Rush.
Shelby.
Steuben.
St. Joseph.
Starke.
Tippecanoe.
Tipton.
Union.
Vermillion.
Vigo.
Wabash.
Warren.
Wayne.
Wells.
Whitley.

§ 1049.3 Route disposition.

"Route disposition" means a delivery (including that custom-packaged for another person, disposition from a plant store or from a distribution point and distribution by a vendor or vending machine) of any fluid milk product classified as Class I milk other than a delivery in bulk form to any milk or filled milk processing plant.

§ 1049.4 [Reserved]

§ 1049.5 Distributing plant.

"Distributing plant" means a plant approved by any duly constituted health authority for the processing or packaging of milk for fluid consumption in the marketing area and from which there is route disposition during the month in the marketing area.

§ 1049.6 Supply plant.

"Supply plant" means a plant in which some milk approved by any duly constituted health authority for fluid consumption in the marketing area is assembled and shipped in bulk as milk or skim milk to a distributing plant during the month.

§ 1049.7 Pool plant.

Except as provided in paragraph (c) of this section, "pool plant" means:

(a) A distributing plant with:

(1) Total route disposition, exclusive of packaged fluid milk products received from other plants and filled milk, in an amount not less than 50 percent of Grade A milk received at such plant during the month from dairy farmers (excluding receipts of producer milk by diversion pursuant to § 1049.13) and supply plants, except that a plant meeting such percentage requirement for the preceding month may remain qualified under this subparagraph in the current month; and

(2) Route disposition within the marketing area during the month of at least 10 percent of such receipts, such route disposition to be exclusive of packaged fluid milk products received from other plants and filled milk: *Provided*, That any plant meeting the requirements of this paragraph in each of the months of September through May, inclusive, shall continue to have pool plant status in the months of June, July, and August, immediately following if there is route disposition, except filled milk, from the plant in the marketing area during such month.

(b) A supply plant from which not less than 50 percent of the Grade A milk received from dairy farmers at such plant during the month is shipped to plants qualifying for the month pursuant to paragraph (a) of this section. A plant qualified pursuant to this paragraph in each of the immediately preceding months of September through February shall remain so qualified for the months of April through August unless written application is filed with the market administrator on or before the first day of any such month to designate such plant as a nonpool plant for such month and for each subsequent month through

V 39 I 87 MAY 3 74 XUM

August during which it would otherwise not qualify under this paragraph.

(c) The term "pool plant" shall not apply to the following plants:

(1) A producer-handler plant;

(2) A distributing plant from which the Secretary determines there is a greater proportion of route disposition (except filled milk) in another marketing area regulated by another order issued pursuant to the Act and such plant is fully subject to regulation of such other order: *Provided*, That a distributing plant which was a pool plant under this order in the immediately preceding month shall continue to be subject to all of the provisions of this part until the third consecutive month in which it has a greater proportion of its route disposition (except filled milk) in such other marketing area, unless, notwithstanding the provisions of this subparagraph, it is regulated by such other order;

(3) A distributing plant which meets the requirements of paragraph (a) of this section which also meets the requirements of another order on the basis of its route disposition in such other marketing area and from which the Secretary determines there is a greater quantity of route disposition (except filled milk) during the month in this marketing area than in such other marketing area but which plant is nevertheless fully regulated under such other order;

(4) A supply plant which during the month is fully subject to the pricing and pooling provisions of another order issued pursuant to the Act, unless such plant is qualified as a pool plant pursuant to paragraph (b) of this section and a greater volume of fluid milk products (except filled milk) is moved to pool distributing plants qualified on the basis of route disposition in this marketing area; and

(5) That portion of a plant that is physically separated from the Grade A portion of such plant, is operated separately and is not approved by any health authority for the receiving, processing or packaging of any fluid milk product for Grade A disposition.

§ 1049.8 Nonpool plant.

"Nonpool plant" means any milk or filled milk receiving, manufacturing, or processing plant other than a pool plant. The following categories of nonpool plants are further defined as follows:

(a) "Other order plant" means a plant that is fully subject to the pricing and pooling provisions of another order issued pursuant to the Act.

(b) "Producer-handler plant" means a plant operated by a producer-handler as defined in any order (including this part) issued pursuant to the Act.

(c) "Partially regulated distributing plant" means a nonpool plant that is neither an other order plant nor a producer-handler plant, from which there is route disposition in consumer-type packages or dispenser units in the marketing area during the month.

(d) "Unregulated supply plant" means a nonpool supply plant that is not an other order plant or a producer-handler plant, from which fluid milk products are shipped during the month to a pool plant.

§ 1049.9 Handler.

"Handler" means:

(a) Any person in his capacity as the operator of a pool plant;

(b) Any cooperative association with respect to producer milk diverted for the account of such association pursuant to § 1049.13;

(c) [Reserved]

(d) Any person who operates a partially regulated distributing plant;

(e) A producer-handler; or

(f) Any person who operates an other order plant described in § 1049.7(c).

§ 1049.10 Producer-handler.

"Producer-handler" means a person who operates a dairy farm and a distributing plant and who receives no fluid milk products from other dairy farmers or from sources other than pool plants, and no milk products other than fluid milk products for reconstitution into fluid milk products: *Provided*, That such person provides proof satisfactory to the market administrator that the care and management of all dairy animals and other resources used in his own farm production and the operation of the processing and distributing business are at the personal enterprise and risk of such person.

§ 1049.11 [Reserved]

§ 1049.12 Producer.

(a) Except as provided in paragraph (b) of this section, "producer" means any person who in compliance with Grade A inspection requirements of a duly constituted health authority, produces milk for distribution as fluid milk products within the marketing area or produces milk acceptable for fluid consumption at Federal, State, or municipal institutions, which milk is received at a pool plant or diverted pursuant to § 1049.13.

(b) "Producer" shall not include:

(1) A producer-handler as defined in any order (including this part) issued pursuant to the Act;

(2) Any person with respect to milk produced by him which is diverted to a pool plant from an other order plant if the other order designates such person as a producer under that order and such milk is allocated to Class II or Class III utilization pursuant to § 1049.44(a)(8)(iii) and the corresponding step of § 1049.44(b); and

(3) Any person with respect to milk produced by him which is reported as diverted to an other order plant if any portion of such person's milk so moved is assigned to Class I under the provisions of such other order.

§ 1049.13 Producer milk.

"Producer milk" means all skim milk and butterfat contained in milk of any producer which is:

(a) Received at one or more pool plants during the month (milk may be diverted during the month by a handler from a pool distributing plant to another pool plant(s) for not more days of production of producer milk than is physically received at the diverting pool plant);

(b) Received at a pool plant at least one day during the month and then diverted by the operator of a pool plant or by a cooperative association to a nonpool plant that is not a producer-handler plant during the month under any of the following conditions:

(1) During April through August the operator of a pool plant or a cooperative association may divert the milk production of a producer from a pool plant to a nonpool plant on any number of days during the month.

(2) During September through March the milk of a producer diverted by the operator of a pool plant or a cooperative association to a nonpool plant shall be limited to the amounts specified in paragraph (b)(2)(i) and (ii) of this section:

(i) The operator of a pool plant may divert the milk of producers (except producer members of a cooperative association which is diverting milk under the percentage limit of paragraph (b)(2)(ii) of this section) for not more days of production of producer milk than is physically received at the diverting pool plant or he may divert an aggregate quantity not exceeding 40 percent of the milk of all such producers.

(ii) A cooperative association may divert the milk of its individual member producers for not more days of production of producer milk than is physically received at a pool plant or it may divert an aggregate quantity of the milk of member producers not exceeding 40 percent of all such milk either caused to be delivered to pool plants or diverted to nonpool plants by the cooperative association.

(3) When milk is diverted in excess of the limit by a handler who elects to divert on the basis of days-of-production, only that milk of the individual producer which was received at a pool plant or which was diverted to a nonpool plant for not more days of production than is physically received at a pool plant shall be considered producer milk.

(4) When milk is diverted in excess of the percentage limit by a handler who elects to divert on a percentage basis, eligibility as producer milk shall be forfeited on a quantity of milk equal to such excess. In such instances the diverting handler shall specify the dairy farmers whose milk is ineligible as producer milk. If the handler fails to designate such dairy farmers whose milk is ineligible, producer milk status shall be forfeited with respect to all milk diverted to nonpool plants by such handler.

(c) Diverted milk shall be deemed to be received by the handler at the pool plant or nonpool plant to which the milk is diverted, unless diverted to a plant located in any part of the marketing area or to a plant at which no location adjustment would apply pursuant to § 1049.52, in which case such diverted milk shall be deemed to be received at the pool plant from which diverted.

§ 1049.14 Other source milk.

"Other source milk" means all skim milk and butterfat contained in or represented by:

(a) Receipts of fluid milk products and bulk products specified in § 1049.40(b)(1) from any source other than producers, or pool plants;

(b) Receipts in packaged form from other plants of products specified in § 1049.40(b)(1);

(c) Products (other than fluid milk products, products specified in § 1049.40(b)(1), and products produced at the plant during the same month) from any source which are reprocessed, converted into, or combined with another product in the plant during the month; and

(d) Receipts of any milk product (other than a fluid milk product or a product specified in § 1049.40(b)(1)) for which the handler fails to establish a disposition.

§ 1049.15 Fluid milk product.

(a) Except as provided in paragraph (b) of this section, "fluid milk product" means any of the following products in fluid or frozen form:

(1) Milk, skim milk, lowfat milk, milk drinks, buttermilk, filled milk, and milkshake and ice milk mixes containing less than 20 percent total solids, including any such products that are flavored, cultured, modified with added nonfat milk solids, concentrated (if in a consumer-type package), or reconstituted; and

(2) Any milk product not specified in paragraph (a)(1) of this section or in § 1049.40 (b) or (c)(1)(i) through (v) if it contains by weight at least 80 percent water and 6.5 percent nonfat milk solids and less than 9 percent butterfat and 20 percent total solids.

(b) The term "fluid milk product" shall not include:

(1) Evaporated or condensed milk (plain or sweetened), evaporated or condensed skim milk (plain or sweetened), formulas especially prepared for infant feeding or dietary use that are packaged in hermetically sealed glass or all-metal containers, any product that contains by weight less than 6.5 percent nonfat milk solids, and whey; and

(2) The quantity of skim milk in any modified product specified in paragraph (a) of this section that is in excess of the quantity of skim milk in an equal volume of an unmodified product of the same nature and butterfat content.

§ 1049.16 Fluid cream product.

"Fluid cream product" means cream (other than plastic cream or frozen cream), sour cream, or a mixture (including a cultured mixture) of cream and milk or skim milk containing 9 percent or more butterfat, with or without the addition of other ingredients.

§ 1049.17 Filled milk.

"Filled milk" means any combination of nonmilk fat (or oil) with skim milk (whether fresh, cultured, reconstituted, or modified by the addition of nonfat milk solids), with or without milkfat, so that the product (including stabilizers, emulsifiers, or flavoring) resembles milk or any other fluid milk product, and contains less than 6 percent nonmilk fat (or oil).

§ 1049.18 Cooperative association.

"Cooperative association" means any cooperative marketing association of producers which the Secretary determines, after application by the association:

(a) To be qualified under the provisions of the Act of Congress of February 18, 1922, as amended, known as the "Capper-Volstead Act";

(b) To have full authority in the sale of milk of its members and is engaged in making collective sales of or marketing milk or milk products for its members; and

(c) To have all of its activities under the control of its members.

HANDLER REPORTS

§ 1049.30 Reports of receipts and utilization.

On or before the 8th day after the end of each month, each handler shall report for such month to the market administrator, in the detail and on the forms prescribed by the market administrator, as follows:

(a) Each handler, with respect to each of his pool plants, shall report the quantities of skim milk and butterfat contained in or represented by:

(1) Receipts of producer milk, including producer milk diverted by the handler from the pool plant to other plants;

(2) [Reserved]

(3) Receipts of fluid milk products and bulk fluid cream products from other pool plants;

(4) Receipts of other source milk;

(5) Inventories at the beginning and end of the month of fluid milk products and products specified in § 1049.40(b)(1); and

(6) The utilization or disposition of all milk, filled milk, and milk products required to be reported pursuant to this paragraph.

(b) Each handler operating a partially regulated distributing plant shall report with respect to such plant in the same manner as prescribed for reports required by paragraph (a) of this section. Receipts of milk that would have been producer milk if the plant had been fully regulated shall be reported in lieu of producer milk. Such report shall show also the quantity of any reconstituted skim milk in route disposition in the marketing area.

(c) Each handler described in § 1049.9(b) shall report:

(1) The quantities of all skim milk and butterfat contained in receipts of milk from producers; and

(2) The utilization or disposition of all such receipts.

(d) Each handler not specified in paragraphs (a) through (c) of this section shall report with respect to his receipts and utilization of milk, filled milk, and milk products in such manner as the market administrator may prescribe.

§ 1049.31 Payroll reports.

(a) On or before the 20th day after the end of each month, each handler described in § 1049.9 (a) and (b) shall report to the market administrator his producer payroll for such month, in the detail prescribed by the market administrator, showing for each producer:

(1) His name and address;

(2) The total pounds of milk received from such producer;

(3) The average butterfat content of such milk; and

(4) The price per hundredweight, the gross amount due, the amount and nature of any deductions, and the net amount paid.

(b) Each handler operating a partially regulated distributing plant who elects to make payment pursuant to § 1049.76(b) shall report for each dairy farmer who would have been a producer if the plant had been fully regulated in the same manner as prescribed for reports required by paragraph (a) of this section.

§ 1049.32 Other reports.

(a) On or before the day prior to diverting milk pursuant to § 1049.13, each handler shall notify the market administrator of his intention to divert such milk, the date or dates of such diversion, and the plant to which such milk is to be diverted.

(b) In addition to the reports required pursuant to paragraph (a) of this section and §§ 1049.30 and 1049.31, each handler shall report such other information as the market administrator deems necessary to verify or establish such handler's obligation under the order.

CLASSIFICATION OF MILK

§ 1049.40 Classes of utilization.

Except as provided in § 1049.42, all skim milk and butterfat required to be reported by a handler pursuant to § 1049.30 shall be classified as follows:

(a) *Class I milk.* Class I milk shall be all skim milk and butterfat:

(1) Disposed of in the form of a fluid milk product, except as otherwise provided in paragraphs (b) and (c) of this section; and

(2) Not specifically accounted for as Class II or Class III milk.

(b) *Class II milk.* Class II milk shall be all skim milk and butterfat:

(1) Disposed of in the form of a fluid cream product, eggnog, yogurt, and any product containing 6 percent or more nonmilk fat (or oil) that resembles a fluid cream product, eggnog, or yogurt, except as otherwise provided in paragraph (c) of this section;

(2) In packaged inventory at the end of the month of the products specified in paragraph (b)(1) of this section;

(3) In bulk fluid milk products and bulk fluid cream products disposed of to any commercial food processing establishment (other than a milk or filled milk plant) at which food products (other than milk products and filled milk) are processed and from which there is no disposition of fluid milk products or fluid cream products other than those received in consumer-type packages; and

V 39 187
MAY 3 74
XUM

(4) Used to produce:

(i) Cottage cheese, lowfat cottage cheese, and dry curd cottage cheese;

(ii) Milkshake and ice milk mixes (or bases) containing 20 percent or more total solids, frozen desserts, and frozen dessert mixes;

(iii) Any concentrated milk product in bulk, fluid form other than that specified in paragraph (c) (1) (iv) of this section;

(iv) Plastic cream, frozen cream, and anhydrous milkfat;

(v) Custards, puddings, and pancake mixes; and

(vi) Formulas especially prepared for infant feeding or dietary use that are packaged in hermetically sealed glass or all-metal containers.

(c) *Class III milk.* Class III milk shall be all skim milk and butterfat:

(1) Used to produce:

(i) Cheese (other than cottage cheese, lowfat cottage cheese, and dry curd cottage cheese);

(ii) Butter;

(iii) Any milk product in dry form;

(iv) Any concentrated milk product in bulk, fluid form that is used to produce a Class III product;

(v) Evaporated or condensed milk (plain or sweetened) in a consumer-type package and evaporated or condensed skim milk (plain or sweetened) in a consumer-type package; and

(vi) Any product not otherwise specified in this section;

(2) In inventory at the end of the month of fluid milk products in bulk or packaged form and products specified in paragraph (b) (1) of this section in bulk form;

(3) In fluid milk products and products specified in paragraph (b) (1) of this section that are disposed of by a handler for animal feed;

(4) In fluid milk products and products specified in paragraph (b) (1) of this section that are dumped by a handler if the market administrator is notified of such dumping in advance and is given the opportunity to verify such disposition;

(5) In skim milk in any modified fluid milk product that is in excess of the quantity of skim milk in such product that was included within the fluid milk product definition pursuant to § 1049.15; and

(6) In shrinkage assigned pursuant to § 1049.41(a) to the receipts specified in § 1049.41(a)(2) and in shrinkage specified in § 1049.41 (b) and (c).

§ 1049.41 Shrinkage.

For purposes of classifying all skim milk and butterfat to be reported by a handler pursuant to § 1049.30, the market administrator shall determine the following:

(a) The pro rata assignment of shrinkage of skim milk and butterfat, respectively, at each pool plant to the respective quantities of skim milk and butterfat:

(1) In the receipts specified in paragraph (b) (1) through (6) of this section on which shrinkage is allowed pursuant to such paragraph; and

(2) In other source milk not specified in paragraph (b) (1) through (6) of this section which was received in bulk fluid form;

(b) The shrinkage of skim milk and butterfat, respectively, assigned pursuant to paragraph (a) of this section to the receipts specified in paragraph (a)(1) of this section that is not in excess of:

(1) Two percent of the skim milk and butterfat, respectively, in producer milk (excluding milk diverted by the plant operator to another plant);

(2) Plus 1.5 percent of the skim milk and butterfat, respectively, in milk diverted to such plant from another pool plant, except that if the operator of the plant to which the milk is delivered purchases such milk on the basis of weights determined from its measurement at the farm and butterfat tests determined from farm bulk tank samples, the applicable percentage under this subparagraph shall be 2 percent;

(3) Plus 0.5 percent of the skim milk and butterfat, respectively, in producer milk diverted from such plant by the plant operator to another plant, except that if the operator of the plant to which the milk is delivered purchases such milk on the basis of weights determined from its measurement at the farm and butterfat tests determined from farm bulk tank samples, the applicable percentage under this subparagraph shall be zero;

(4) Plus 1.5 percent of the skim milk and butterfat, respectively, in bulk fluid milk products received by transfer from other pool plants;

(5) Plus 1.5 percent of the skim milk and butterfat, respectively, in bulk fluid milk products received by transfer from other order plants, excluding the quantity for which Class II or Class III classification is requested by the operators of both plants;

(6) Plus 1.5 percent of the skim milk and butterfat, respectively, in bulk fluid milk products received from unregulated supply plants, excluding the quantity for which Class II or Class III classification is requested by the handler; and

(7) Less 1.5 percent of the skim milk and butterfat, respectively, in bulk fluid milk products transferred to other plants that is not in excess of the respective amounts of skim milk and butterfat to which percentages are applied in paragraph (b) (1), (2), (4), (5) and (6) of this section; and

(c) The quantity of skim milk and butterfat, respectively, in shrinkage of milk from producers for which a cooperative association is the handler pursuant to § 1049.9(b) but not in excess of 0.5 percent of the skim milk and butterfat, respectively, in such milk. If the operator of the plant to which the milk is delivered purchases such milk on the basis of weights determined from its measurement at the farm and butterfat tests determined from farm bulk tank samples, the applicable percentage under this paragraph for the cooperative association shall be zero.

§ 1049.42 Classification of transfers and diversions.

(a) *Transfers and diversions to pool plants.* Skim milk or butterfat transferred or diverted in the form of a fluid milk product or a bulk fluid cream product from a pool plant to another pool plant shall be classified as Class I milk unless the operators of both plants request the same classification in another class. In either case, the classification of such transfers or diversions shall be subject to the following conditions:

(1) The skim milk or butterfat classified in each class shall be limited to the amount of skim milk and butterfat, respectively, remaining in such class at the transferee-plant or divertee-plant after the computations pursuant to § 1049.44(a)(12) and the corresponding step of § 1049.44(b);

(2) If the transferor-plant or divertor-plant received during the month other source milk to be allocated pursuant to § 1049.44(a)(7) or the corresponding step of § 1049.44(b), the skim milk or butterfat so transferred or diverted shall be classified so as to allocate the least possible Class I utilization to such other source milk; and

(3) If the transferor-handler or divertor-handler received during the month other source milk to be allocated pursuant to § 1049.44(a) (11) or (12) or the corresponding steps of § 1049.44 (b), the skim milk or butterfat so transferred or diverted, up to the total of the skim milk and butterfat, respectively, in such receipts of other source milk, shall not be classified as Class I milk to a greater extent than would be the case if the other source milk had been received at the transferee-plant or divertee-plant.

(b) *Transfers and diversions to other order plants.* Skim milk or butterfat transferred or diverted in the form of a fluid milk product or a bulk fluid cream product from a pool plant to an other order plant shall be classified in the following manner. Such classification shall apply only to the skim milk or butterfat that is in excess of any receipts at the pool plant from the other order plant of skim milk and butterfat, respectively, in fluid milk products and bulk fluid cream products, respectively, that are in the same category as described in paragraph (b) (1), (2), or (3) of this section:

(1) If transferred as packaged fluid milk products, classification shall be in the classes to which allocated as a fluid milk product under the other order;

(2) If transferred in bulk form, classification shall be in the classes to which allocated under the other order (including allocation under the conditions set forth in paragraph (b)(3) of this section);

(3) If the operators of both plants so request in their reports of receipts and utilization filed with their respective market administrators, transfers or diversions in bulk form shall be classified as Class II or Class III milk to the extent of such utilization available for such classification pursuant to the allocation provisions of the other order;

(4) If information concerning the classes to which such transfers or diversions were allocated under the other order is not available to the market administrator for the purpose of establishing classification under this paragraph, classification shall be as Class I, subject to adjustment when such information is available;

(5) For purposes of this paragraph, if the other order provides for a different number of classes of utilization than is provided for under this part, skim milk or butterfat allocated to a class consisting primarily of fluid milk products shall be classified as Class I milk, and skim milk or butterfat allocated to the other classes shall be classified as Class III milk; and

(6) If the form in which any fluid milk product that is transferred to an other plant is not defined as a fluid milk product under such other order, classification under this paragraph shall be in accordance with the provisions of § 1049.40.

(c) *Transfers to producer-handlers.* Skim milk or butterfat transferred in the following forms from a pool plant to a producer-handler under this or any other Federal order shall be classified:

(1) As Class I milk, if transferred in the form of a fluid milk product; and

(2) In accordance with the utilization assigned to it by the market administrator, if transferred in the form of a bulk fluid cream product. For this purpose, the producer-handler's utilization of skim milk and butterfat in each class, in series beginning with Class III, shall be assigned to the extent possible to his receipts of skim milk and butterfat, respectively, in bulk fluid cream products, pro rata to each source.

(d) *Transfers and diversions to other nonpool plants.* Skim milk or butterfat transferred or diverted in the following forms from a pool plant to a nonpool plant that is not an other order plant or a producer-handler plant shall be classified:

(1) As Class I milk, if transferred in the form of a packaged fluid milk product; and

(2) As Class I milk, if transferred or diverted in the form of a bulk fluid milk product or a bulk fluid cream product; unless the following conditions apply:

(i) If the conditions described in paragraph (d)(2)(i) (a) and (b) of this section are met, transfers or diversions in bulk form shall be classified on the basis of the assignment of the nonpool plant's utilization to its receipts as set forth in paragraph (d)(2) (ii) through (viii) of this section:

(a) The transferor-handler or divertor-handler claims such classification in his report of receipts and utilization filed pursuant to § 1049.30 for the month within which such transaction occurred; and

(b) The nonpool plant operator maintains books and records showing the utilization of all skim milk and butterfat received at such plant which are made available for verification purposes if requested by the market administrator;

(ii) Route disposition in the marketing area of each Federal milk order from the nonpool plant and transfers of packaged fluid milk products from such nonpool plant to plants fully regulated thereunder shall be assigned to the extent possible in the following sequence:

(a) Pro rata to receipts of packaged fluid milk products at such nonpool plant from pool plants;

(b) Pro rata to any remaining unassigned receipts of packaged fluid milk products at such nonpool plant from other order plants;

(c) Pro rata to receipts of bulk fluid milk products at such nonpool plant from pool plants; and

(d) Pro rata to any remaining unassigned receipts of bulk fluid milk products at such nonpool plant from other order plants;

(iii) Any remaining Class I disposition of packaged fluid milk products from the nonpool plant shall be assigned to the extent possible pro rata to any remaining unassigned receipts of packaged fluid milk products at such nonpool plant from pool plants and other order plants;

(iv) Transfers of bulk fluid milk products from the nonpool plant to a plant fully regulated under any Federal milk order, to the extent that such transfers to the regulated plant exceed receipts of fluid milk products from such plant and are allocated to Class I at the transferee-plant, shall be assigned to the extent possible in the following sequence:

(a) Pro rata to receipts of fluid milk products at such nonpool plant from pool plants; and

(b) Pro rata to any remaining unassigned receipts of fluid milk products at such nonpool plant from other order plants;

(v) Any remaining unassigned Class I disposition from the nonpool plant shall be assigned to the extent possible in the following sequence:

(a) To such nonpool plant's receipts from dairy farmers who the market administrator determines constitute regular sources of Grade A milk for such nonpool plant; and

(b) To such nonpool plant's receipts of Grade A milk from plants not fully regulated under any Federal milk order which the market administrator determines constitute regular sources of Grade A milk for such nonpool plant;

(vi) Any remaining unassigned receipts of bulk fluid milk products at the nonpool plant from pool plants and other order plants shall be assigned, pro rata among such plants, to the extent possible first to any remaining Class I utilization, then to Class III utilization, and then to Class II utilization at such nonpool plant;

(vii) Receipts of bulk fluid cream products at the nonpool plant from pool plants and other order plants shall be assigned, pro rata among such plants, to the extent possible first to any remaining Class III utilization, then to any remaining Class II utilization, and then to Class I utilization at such nonpool plant; and

(viii) In determining the nonpool plant's utilization for purposes of this subparagraph, any fluid milk products and bulk fluid cream products transferred from such nonpool plant to a plant not fully regulated under any Federal milk order shall be classified on the basis of the second plant's utilization using the same assignment priorities at the second plant that are set forth in this subparagraph.

§ 1049.43 General classification rules.

In determining the classification of producer milk pursuant to § 1049.44, the following rules shall apply:

(a) Each month the market administrator shall correct for mathematical and other obvious errors all reports filed pursuant to § 1049.30 and shall compute separately for each pool plant and for each cooperative association with respect to milk for which it is the handler pursuant to § 1049.9(b) the pounds of skim milk and butterfat, respectively, in each class in accordance with §§ 1049.40, 1049.41, and 1049.42;

(b) If any of the water contained in the milk from which a product is made is removed before the product is utilized or disposed of by a handler, the pounds of skim milk in such product that are to be considered under this part as used or disposed of by the handler shall be an amount equivalent to the nonfat milk solids contained in such product plus all of the water originally associated with such solids; and

(c) The classification of producer milk for which a cooperative association is the handler pursuant to § 1049.9(b) shall be determined separately from the operations of any pool plant operated by such cooperative association.

§ 1049.44 Classification of producer milk.

For each month the market administrator shall determine the classification of producer milk of each handler described in § 1049.9(a) for each of his pool plants separately and of each handler described in § 1049.9(b) by allocating the handler's receipts of skim milk and butterfat to his utilization as follows:

(a) Skim milk shall be allocated in the following manner:

(1) Subtract from the total pounds of skim milk in Class III the pounds of skim milk in shrinkage specified in § 1049.41(b);

(2) Subtract from the total pounds of skim milk in Class I the pounds of skim milk in receipts of packaged fluid milk products from an unregulated supply plant to the extent that an equivalent amount of skim milk disposed of to such plant by handlers fully regulated under any Federal milk order is classified and priced as Class I milk and is not used as an offset for any other payment obligation under any order;

(3) Subtract from the pounds of skim milk remaining in each class the pounds

V 39 I 87 MAY 3 74 XUM

of skim milk in fluid milk products received in packaged form from an other order plant, except that to be subtracted pursuant to paragraph (a)(7)(vi) of this section, as follows:

(i) From Class III milk, the lesser of the pounds remaining or 2 percent of such receipts; and

(ii) From Class I milk, the remainder of such receipts;

(4) Subtract from the pounds of skim milk in Class II the pounds of skim milk in products specified in § 1049.40(b)(1) that were received in packaged form from other plants, but not in excess of the pounds of skim milk remaining in Class II;

(5) Subtract from the remaining pounds of skim milk in Class II the pounds of skim milk in products specified in § 1049.40(b)(1) that were in inventory at the beginning of the month in packaged form, but not in excess of the pounds of skim milk remaining in Class II. This subparagraph shall apply only if the pool plant was subject to the provisions of this subparagraph or comparable provisions of another Federal milk order in the immediately preceding month;

(6) Subtract from the remaining pounds of skim milk in Class II the pounds of skim milk in other source milk (except that received in the form of a fluid milk product or a fluid cream product) that is used to produce, or added to, any product specified in § 1049.40(b), but not in excess of the pounds of skim milk remaining in Class II;

(7) Subtract in the order specified below from the pounds of skim milk remaining in each class, in series beginning with Class III, the pounds of skim milk in each of the following:

(i) Other source milk (except that received in the form of a fluid milk product) and, if paragraph (a)(5) of this section applies, packaged inventory at the beginning of the month of products specified in § 1049.40(b)(1) that was not subtracted pursuant to paragraph (a)(4), (5), and (6) of this section;

(ii) Receipts of fluid milk products (except filled milk) for which Grade A certification is not established;

(iii) Receipts of fluid milk products from unidentified sources;

(iv) Receipts of fluid milk products from a producer-handler as defined under this or any other Federal milk order;

(v) Receipts of reconstituted skim milk in filled milk from an unregulated supply plant that were not subtracted pursuant to paragraph (a)(2) of this section; and

(vi) Receipts of reconstituted skim milk in filled milk from an other order plant that is regulated under any Federal milk order providing for individual-handler pooling, to the extent that reconstituted skim milk is allocated to Class I at the transferor-plant;

(8) Subtract in the order specified below from the pounds of skim milk remaining in Class II and Class III, in sequence beginning with Class III:

(i) The pounds of skim milk in receipts of fluid milk products from an unregulated supply plant that were not subtracted pursuant to paragraph (a)(2) and (7)(v) of this section for which the handler requests a classification other than Class I, but not in excess of the pounds of skim milk remaining in Class II and Class III combined;

(ii) The pounds of skim milk in receipts of fluid milk products from an unregulated supply plant that were not subtracted pursuant to paragraph (a)(2), (7)(v), and (8)(i) of this section which are in excess of the pounds of skim milk determined pursuant to paragraph (a)(8)(ii) *(a)* through (c) of this section. Should the pounds of skim milk to be subtracted from Class II and Class III combined exceed the pounds of skim milk remaining in such classes, the pounds of skim milk in Class II and Class III combined shall be increased (increasing as necessary Class III and then Class II to the extent of available utilization in such classes at the nearest other pool plant of the handler, and then at each successively more distant pool plant of the handler) by an amount equal to such excess quantity to be subtracted, and the pounds of skim milk in Class I shall be decreased by a like amount. In such case, the pounds of skim milk remaining in each class at this allocation step at the handler's other pool plants shall be adjusted in the reverse direction by a like amount:

(a) Multiply by 1.25 the sum of the pounds of skim milk remaining in Class I at this allocation step at all pool plants of the handler (excluding any duplication of Class I utilization resulting from reported Class I transfers between pool plants of the handler);

(b) Subtract from the above result the sum of the pounds of skim milk in receipts at all pool plants of the handler of producer milk, fluid milk products from pool plants of other handlers, and bulk fluid milk products from other order plants that were not subtracted pursuant to paragraph (a)(7)(vi) of this section; and

(c) Multiply any plus quantity resulting above by the percentage that the receipts of skim milk in fluid milk products from unregulated supply plants that remain at this pool plant is of all such receipts remaining at this allocation step at all pool plants of the handler; and

(iii) The pounds of skim milk in receipts of bulk fluid milk products from an other order plant that are in excess of bulk fluid milk products transferred or diverted to such plant and that were not subtracted pursuant to paragraph (a)(7)(vi) of this section, if Class II or Class III classification is requested by the operator of the other order plant and the handler, but not in excess of the pounds of skim milk remaining in Class II and Class III combined;

(9) Subtract from the pounds of skim milk remaining in each class, in series beginning with Class III, the pounds of skim milk in fluid milk products and products specified in § 1049.40(b)(1) in inventory at the beginning of the month that were not subtracted pursuant to paragraph (a)(5) and (7)(i) of this section;

(10) Add to the remaining pounds of skim milk in Class III the pounds of skim milk subtracted pursuant to paragraph (a)(1) of this section;

(11) Subject to the provisions of paragraph (a)(11)(i) and (ii) of this section, subtract from the pounds of skim milk remaining in each class at the plant, pro rata to the total pounds of skim milk remaining in Class I and in Class II and Class III combined at this allocation step at all pool plants of the handler (excluding any duplication of utilization in each class resulting from transfers between pool plants of the handler), with the quantity prorated to Class II and Class III combined being subtracted first from Class III and then from Class II, the pounds of skim milk in receipts of fluid milk products from an unregulated supply plant that were not subtracted pursuant to paragraph (a)(2), (7)(v), and (8)(i) and (ii) of this section and that were not offset by transfers or diversions of fluid milk products to the same unregulated supply plant from which fluid milk products to be allocated at this step were received:

(i) Should the pounds of skim milk to be subtracted from Class II and Class III combined pursuant to this subparagraph exceed the pounds of skim milk remaining in such classes, the pounds of skim milk in Class II and Class III combined shall be increased (increasing as necessary Class III and then Class II to the extent of available utilization in such classes at the nearest other pool plant of the handler, and then at each successively more distant pool plant of the handler) by an amount equal to such excess quantity to be subtracted, and the pounds of skim milk in Class I shall be decreased by a like amount. In such case, the pounds of skim milk remaining in each class at this allocation step at the handler's other pool plants shall be adjusted in the reverse direction by a like amount; and

(ii) Should the pounds of skim milk to be subtracted from Class I pursuant to this subparagraph exceed the pounds of skim milk remaining in such class, the pounds of skim milk in Class I shall be increased by an amount equal to such excess quantity to be subtracted, and the pounds of skim milk in Class II and Class III combined shall be decreased by a like amount (decreasing as necessary Class III and then Class II). In such case, the pounds of skim milk remaining in each class at this allocation step at the handler's other pool plants shall be adjusted in the reverse direction by a like amount, beginning with the nearest plant at which Class I utilization is available;

(12) Subtract in the manner specified below from the pounds of skim milk remaining in each class the pounds of skim milk in receipts of bulk fluid milk products from an other order plant that are in excess of bulk fluid milk products transferred or diverted to such plant and that were not subtracted pursuant to paragraph (a)(7)(vi) and (8)(iii) of this section:

(i) Subject to the provisions of paragraph (a)(12)(ii), (iii), and (iv) of this section, such subtraction shall be pro rata to the pounds of skim milk in Class I and in Class II and Class III combined, with the quantity prorated to Class II and Class III combined being subtracted first from Class III and then from Class II, with respect to whichever of the following quantities represents the lower proportion of Class I milk:

(a) The estimated utilization of skim milk of all handlers in each class as announced for the month pursuant to § 1049.45(a); or

(b) The total pounds of skim milk remaining in each class at this allocation step at all pool plants of the handler (excluding any duplication of utilization in each class resulting from transfers between pool plants of the handler);

(ii) Should the proration pursuant to paragraph (a)(12)(i) of this section result in the total pounds of skim milk at all pool plants of the handler that are to be subtracted at this allocation step from Class II and Class III combined exceeding the pounds of skim milk remaining in Class II and Class III at all such plants, the pounds of such excess shall be subtracted from the pounds of skim milk remaining in Class I after such proration at the pool plants at which such other source milk was received;

(iii) Except as provided in paragraph (a)(12)(ii) of this section, should the computations pursuant to paragraph (a)(12)(i) or (ii) of this section result in a quantity of skim milk to be subtracted from Class II and Class III combined that exceeds the pounds of skim milk remaining in such classes, the pounds of skim milk in Class II and Class III combined shall be increased (increasing as necessary Class III and then Class II to the extent of available utilization in such classes at the nearest other pool plant of the handler, and then at each successively more distant pool plant of the handler) by an amount equal to such excess quantity to be subtracted, and the pounds of skim milk in Class I shall be decreased by a like amount. In such case, the pounds of skim milk remaining in each class at this allocation step at the handler's other pool plants shall be adjusted in the reverse direction by a like amount; and

(iv) Except as provided in paragraph (a)(12)(ii) of this section, should the computations pursuant to paragraph (a)(12)(i) or (ii) of this section result in a quantity of skim milk to be subtracted from Class I that exceeds the pounds of skim milk remaining in such class, the pounds of skim milk in Class I shall be increased by an amount equal to such excess quantity to be subtracted, and the pounds of skim milk in Class II and Class III combined shall be decreased by a like amount (decreasing as necessary Class III and then Class II). In such case, the pounds of skim milk remaining in each class at this allocation step at the handler's other pool plants shall be adjusted in the reverse direction by a like amount, beginning with the nearest plant at which Class I utilization is available;

(13) Subtract from the pounds of skim milk remaining in each class the pounds of skim milk in receipts of fluid milk products and bulk fluid cream products from another pool plant according to the classification of such products pursuant to § 1049.42(a); and

(14) If the total pounds of skim milk remaining in all classes exceed the pounds of skim milk in producer milk, subtract such excess from the pounds of skim milk remaining in each class in series beginning with Class III. Any amount so subtracted shall be known as "overage";

(b) Butterfat shall be allocated in accordance with the procedure outlined for skim milk in paragraph (a) of this section; and

(c) The quantity of producer milk in each class shall be the combined pounds of skim milk and butterfat remaining in each class after the computations pursuant to paragraph (a)(14) of this section and the corresponding step of paragraph (b) of this section.

§ 1049.45 Market administrator's reports and announcements concerning classification.

The market administrator shall make the following reports and announcements concerning classification:

(a) Whenever required for the purpose of allocating receipts from other order plants pursuant to § 1049.44(a)(12) and the corresponding step of § 1049.44(b), estimate and publicly announce the utilization (to the nearest whole percentage) in each class during the month of skim milk and butterfat, respectively, in producer milk of all handlers. Such estimate shall be based upon the most current available data and shall be final for such purpose.

(b) Report to the market administrator of the other order, as soon as possible after the report of receipts and utilization for the month is received from a handler who has received fluid milk products or bulk fluid cream products from an other order plant, the class to which such receipts are allocated pursuant to § 1049.44 on the basis of such report, and, thereafter, any change in such allocation required to correct errors disclosed in the verification of such report.

(c) Furnish to each handler operating a pool plant who has shipped fluid milk products or bulk fluid cream products to an other order plant the class to which such shipments were allocated by the market administrator of the other order on the basis of the report by the receiving handler, and, as necessary, any changes in such allocation arising from the verification of such report.

(d) On or before the 14th day after the end of each month, report to each cooperative association, upon request by such association, the percentage of the milk caused to be delivered by the cooperative association or its members which was utilized in each class at each pool plant receiving such milk. For the purpose of this report, the milk so received shall be allocated to each class at each pool plant in the same ratio as all producer milk received at such plant during the month.

Class Prices

§ 1049.50 Class prices.

Subject to the provisions of § 1049.52, the class prices for the month per hundredweight of milk containing 3.5 percent butterfat shall be as follows:

(a) *Class I price.* The Class I price shall be the basic formula price for the second preceding month plus $1.47.

(b) *Class II price.* The Class II price shall be the basic formula price for the month plus 10 cents.

(c) *Class III price.* The class III price shall be the basic formula price for the month.

§ 1049.51 Basic formula price.

The "basic formula price" shall be the average price per hundredweight for manufacturing grade milk, f.o.b. plants in Minnesota and Wisconsin, as reported by the Department for the month, adjusted to a 3.5 percent butterfat basis and rounded to the nearest cent. For such adjustment, the butterfat differential (rounded to the nearest one-tenth cent) per one-tenth percent butterfat shall be 0.12 times the simple average of the wholesale selling prices (using the midpoint of any price range as one price) of Grade A (92-score) bulk butter per pound at Chicago, as reported by the Department for the month. For the purpose of computing the Class I price, the resulting price shall be not less than $4.33.

§ 1049.52 Plant location adjustments for handlers.

(a) For producer milk which is received at a pool plant located outside the area for which zero location adjustment is specified in paragraph (a)(1)(i) of this section, which milk is classified as Class I milk or assigned Class I location adjustment credit pursuant to paragraph (b) of this section, the price computed pursuant to § 1049.50(a) shall be reduced on the basis of the applicable amount or rate for the location of such plant pursuant to paragraph (a)(1) or (2) of this section, respectively. For the purpose of this section and § 1049.75, the distances to be computed shall be on the basis of the shortest hard-surfaced highway distances as determined by the market administrator:

(1) At any plant located within:

	Rate of adjustment per hundredweight (Cents)
(i) The State of Ohio or any Indiana county not specifically named in subdivisions (ii) through (iv) of this subparagraph	0
(ii) Any of the Indiana counties of: Adams, Allen, Blackford, Cass, Carroll, De Kalb, Huntington, Jay, La Grange, Miami, Noble, Steuben, Wabash, Wells, White, Whitley	4

V 39 I 87 MAY 3 74 XUM

	Rate of adjustment per hundredweight (Cents)
(iii) Any of the Indiana counties of: Benton, Elkhart, Fulton, Jasper, Kosciusko, Marshall, Newton, Pulaski, St. Joseph, and Berrien and Cass Counties, Mich.	8
(iv) Any of the Indiana counties of: Lake, La Porte, Porter, Starke	12

(2) For any plant at a location outside the territory specified in the preceding paragraph (a)(1) of this section, the applicable adjustment rate per hundredweight shall be based on the shortest highway distance between the plant and the nearest of the Monument Circle, Indianapolis, Ind., or the main post offices of Fort Wayne, South Bend, or Valparaiso, Ind., and shall be 1.5 cents for each 10 miles or fraction thereof from such point plus the amount of the location adjustment pursuant to paragraph (a)(1) of this section applicable at the respective point.

(b) For the purpose of calculating adjustments pursuant to this section, transfers between pool plants shall be assigned Class I disposition at the transferee-plant, in excess of the receipts at such plant from producers and the volume assigned as Class I to receipts from other order plants and unregulated supply plants, such assignment to be made first to transferor-plants at which no location adjustment is applicable and then in sequence beginning with the plant at which the least location adjustment would apply.

(c) The Class I price applicable to other source milk shall be adjusted at the rates set forth in paragraph (a) of this section, except that the adjusted Class I price shall not be less than the Class III price.

§ 1049.53 Announcement of class prices.

The market administrator shall announce publicly on or before the fifth day of each month the Class I price for the following month and the Class II and Class III prices for the preceding month.

§ 1049.54 Equivalent price.

If for any reason a price quotation or factor required by this part for computing class prices or for other purposes is not available in the manner described, the market administrator shall use a price or factor determined by the Secretary to be equivalent to the price or factor which is required.

UNIFORM PRICE

§ 1049.60 Handler's value of milk for computing uniform price.

For the purpose of computing the uniform price, the market administrator shall determine for each month the value of milk of each handler with respect to each of his pool plants and of each handler described in §1049.9(b) as follows:

(a) Multiply the pounds of producer milk in each class as determined pursuant to § 1049.44 by the applicable class prices and add the resulting amounts;

(b) Add the amounts obtained from multiplying the pounds of overage subtracted from each class pursuant to § 1049.44(a)(14) and the corresponding step of § 1049.44(b) by the respective class prices, as adjusted by the butterfat differential specified in § 1049.74, that are applicable at the location of the pool plant;

(c) Add the amount obtained from multiplying the difference between the Class III price for the preceding month and the Class I price applicable at the location of the pool plant or the Class II price, as the case may be, for the current month by the hundredweight of skim milk and butterfat subtracted from Class I and Class II pursuant to § 1049.44(a)(9) and the corresponding step of § 1049.44(b);

(d) Add the amount obtained from multiplying the difference between the Class I price applicable at the location of the pool plant and the Class III price by the hundredweight of skim milk and butterfat subtracted from Class I pursuant to § 1049.44(a)(7) (i) through (iv) and the corresponding step of § 1049.44(b), excluding receipts of bulk fluid cream products from an other order plant;

(e) Add the amount obtained from multiplying the difference between the Class I price applicable at the location of the transferor-plant and the Class III price by the hundredweight of skim milk and butterfat subtracted from Class I pursuant to § 1049.44(a)(7) (v) and (vi) and the corresponding step of § 1049.44(b); and

(f) Add the amount obtained from multiplying the Class I price applicable at the location of the nearest unregulated supply plants from which an equivalent volume was received by the pounds of skim milk and butterfat subtracted from Class I pursuant to § 1049.44(a)(11) and the corresponding step of § 1049.44(b), excluding such skim milk and butterfat in receipts of bulk fluid milk products from an unregulated supply plant to the extent that an equivalent amount of skim milk or butterfat disposed of to such plant by handlers fully regulated under any Federal milk order is classified and priced as Class I milk and is not used as an offset for any other payment obligation under any order.

§ 1049.61 Computation of uniform price (including weighted average price).

For each month the market administrator shall compute the uniform price per hundredweight of milk of 3.5 percent butterfat content received from producers as follows:

(a) Combine into one total the values computed pursuant to § 1049.60 for all handlers who filed the reports prescribed by § 1049.30 for the month and who made the payments pursuant to § 1049.71 for the preceding month;

(b) Add an amount equal to the total value of the location adjustments computed pursuant to § 1049.75;

(c) Subtract an amount computed by multiplying the total hundredweight of producer milk included pursuant to paragraph (a) of this section by 5 cents;

(d) Add an amount equal to one-half of the unobligated balance in the producer-settlement fund;

(e) Divide the resulting amount by the sum of the following for all handlers included in these computations:

(1) The total hundredweight of producer milk; and

(2) The total hundredweight for which a value is computed pursuant to § 1049.60(f);

(f) Subtract not less than 4 cents nor more than 5 cents per hundredweight. The result shall be the "weighted average price", and, except for the months specified below, shall be the "uniform price" for milk received from producers;

(g) For the months specified in paragraphs (h) and (i) of this section, subtract from the amount resulting from the computations pursuant to paragraphs (a) through (d) of this section an amount computed by multiplying the hundredweight of milk specified in paragraph (e)(2) of this section by the weighted average price;

(h) Subtract for each month of April through July the amount obtained by multiplying the hundredweight of producer milk included in these computations by 20 cents. The amount so subtracted, and the interest subsequently earned thereon (less any money not available for crediting under this paragraph because of insufficient payment by a handler to the producer-settlement fund) shall be credited to the producer settlement fund and remain as an obligated amount until disbursed pursuant to paragraph (i) of this section;

(i) Add for the month of September one-fourth of the total money that has been credited to the producer-settlement fund pursuant to paragraph (h) of this section as of the eighth day of the following month. Similarly, for the months of October and November, add one-third and one-half, respectively, of the remainder that has been so credited. For the month of December, add the remainder of the money credited to the producer-settlement fund pursuant to paragraph (h) of this section;

(j) Divide the resulting sum by the total hundredweight of producer milk included in these computations; and

(k) Subtract not less than 4 cents nor more than 5 cents per hundredweight. The result shall be the "uniform price" for milk received from producers.

§ 1049.62 Announcement of uniform price and butterfat differential.

The market administrator shall announce publicly on or before:

(a) The fifth day after the end of each month the butterfat differential for such month; and

(b) The 14th day after the end of each month the uniform price for such month.

PAYMENTS FOR MILK

§ 1049.70 Producer-settlement fund.

The market administrator shall establish and maintain a separate fund known as the "producer-settlement fund" which shall function as follows:

(a) All payments made by handlers pursuant to §§ 1049.71, 1049.76, 1049.77, and 1049.78 shall be deposited in such fund and from which shall be made all payments pursuant to §§ 1049.72, 1049.77, and 1049.78, except that any payments due to any handler shall be offset by any payments due from such handler; and

(b) All amounts subtracted pursuant to § 1049.61(h) shall be deposited in this fund and set aside as an obligated balance until withdrawn to effectuate § 1049.73 in accordance with the requirements of § 1049.61(i).

§ 1049.71 Payments to the producer-settlement fund.

(a) On or before the 15th day after the end of the month, each handler shall pay to the market administrator the amount, if any, by which the amount specified in paragraph (a)(1) of this section exceeds the amount specified in paragraph (a)(2) of this section:

(1) The total value of milk of the handler for such month as determined pursuant to § 1049.60.

(2) The sum of:

(i) The value at the uniform price, as adjusted pursuant to § 1049.75, of such handler's receipts of producer milk; and

(ii) The value at the weighted average price applicable at the location of the plant from which received plus 5 cents of other source milk for which a value is computed pursuant to § 1049.60(f).

(b) On or before the 25th day after the end of the month each person who operated an other order plant that was regulated during such month under an order providing for individual-handler pooling shall pay to the market administrator an amount computed as follows:

(1) Determine the quantity of reconstituted skim milk in filled milk in route disposition from such plant in the marketing area which was allocated to Class I at such plant. If there is such route disposition from such plant in marketing areas regulated by two or more market-wide pool orders, the reconstituted skim milk allocated to Class I shall be prorated to each order according to such route disposition in each marketing area; and

(2) Compute the value of the reconstituted skim milk assigned in paragraph (b)(1) of this section to route disposition in this marketing area by multiplying the quantity of such skim milk by the difference between the Class I price under this part that is applicable at the location of the other order plant (but not to be less than the Class III price) and the Class III price.

§ 1049.72 Payments from the producer-settlement fund.

On or before the 16th day after the end of each month the market administrator shall pay to each handler the amount, if any, by which the amount computed pursuant to § 1049.71(a)(2) exceeds the amount computed pursuant to § 1049.71(a)(1). If the balance in the producer-settlement fund is insufficient to make all payments pursuant to this section, the market administrator shall reduce uniformly such payments and shall complete such payments as soon as the necessary funds become available.

§ 1049.73 Payments to producers and to cooperative associations.

(a) Each handler shall pay each producer for producer milk for which payment is not made to a cooperative association pursuant to paragraph (b) of this section, as follows:

(1) On or before the last day of each month, for producer milk received during the first 15 days of the month at not less than the Class III price for the preceding month; and

(2) On or before the 18th day after the end of each month, for each hundredweight of producer milk received during such month, an amount computed at not less than the uniform price as adjusted pursuant to §§ 1049.74, 1049.75 and 1049.86, less any payment made pursuant to paragraph (a)(1) of this section. If by such date the handler has not received full payment from the market administrator pursuant to § 1049.72 for such month, he may reduce pro rata his payments to producers by not more than the amount of such underpayment. Payment to producers shall be completed thereafter not later than the date for making payments pursuant to this paragraph next following receipt of the balance due from the market administrator.

(b) Each handler shall make payment to the cooperative association for producer milk which it caused to be delivered to such handler, if such cooperative association is authorized to collect such payments for its members and exercises such authority, an amount equal to the sum of the individual payments otherwise payable for such producer milk, as follows:

(1) On or before the 26th day of each month for producer milk received during the first 15 days of the month; and

(2) On or before the 16th day after the end of each month for milk received during such month.

(c) Each handler shall pay to each cooperative association, on or before the 10th day of the following month, for milk the handler receives during the month from a pool plant operated by such association, not less than the minimum prices for milk in each class, as adjusted by the butterfat differential specified in § 1049.74, that are applicable at the location of the handler's pool plant.

(d) In making payments for producer milk pursuant to this section, each handler shall furnish each producer or cooperative association from whom he has received milk a supporting statement in such form that it may be retained by the recipient which shall show:

(1) The month and identity of the producer;

(2) The daily and total pounds and the average butterfat content of producer milk;

(3) The minimum rate or rates at which payment to the producer is required pursuant to this order;

(4) The rate which is used in making the payment if such rate is other than the applicable minimum rate;

(5) The amount, or the rate per hundredweight, and nature of each deduction claimed by the handler; and

(6) The net amount of payment to such producer or cooperative association.

§ 1049.74 Butterfat differential.

For milk containing more or less than 3.5 percent butterfat, the uniform price shall be increased or decreased, respectively, for each one-tenth percent butterfat variation from 3.5 percent by a butterfat differential, rounded to the nearest one-tenth cent, which shall be 0.115 times the simple average of the wholesale selling prices (using the mid-point of any price range as one price) of Grade A (92-score) bulk butter per pound at Chicago, as reported by the Department for the month.

§ 1049.75 Plant location adjustments for producers and on nonpool milk.

(a) The uniform price for producer milk received or which is deemed to have been received at a pool plant shall be reduced according to the location of the pool plant at the rates set forth in § 1049.52(a); and

(b) For purposes of computations pursuant to §§ 1049.71 and 1049.72 the weighted average price shall be adjusted at the rates set forth in § 1049.52 applicable at the location of the nonpool plant from which the milk was received, except that the adjusted weighted average price plus 5 cents shall not be less than the Class III price.

§ 1049.76 Payments by handler operating a partially regulated distributing plant.

Each handler who operates a partially regulated distributing plant shall pay on or before the 25th day after the end of the month to the market administrator for the producer-settlement fund the amount computed pursuant to paragraph (a) of this section. If the handler submits pursuant to §§ 1049.30(b) and 1049.31(b) the information necessary for making the computations, such handler may elect to pay in lieu of such payment the amount computed pursuant to paragraph (b) of this section:

(a) The payment under this paragraph shall be the amount resulting from the following computations:

(1) Determine the pounds of route disposition in the marketing area from the partially regulated distributing plant;

(2) Subtract the pounds of fluid milk products received at the partially regulated distributing plant:

(i) As Class I milk from pool plants and other order plants, except that subtracted under a similar provision of another Federal milk order; and

(ii) From another nonpool plant that is not an other order plant to the extent that an equivalent amount of fluid milk products disposed of to such nonpool plant by handlers fully regulated under any Federal milk order is classified and

V 39 I 87 MAY 3 74 XUM

priced as Class I milk and is not used as an offset for any other payment obligation under any order;

(3) Subtract the pounds of reconstituted skim milk in route disposition in the marketing area from the partially regulated distributing plant;

(4) Multiply the remaining pounds by the difference between the Class I price and the weighted average price plus 5 cents, both prices to be applicable at the location of the partially regulated distributing plant (except that the Class I price and the weighted average price plus 5 cents shall not be less than the Class III price); and

(5) Add the amount obtained from multiplying the pounds of reconstituted skim milk specified in paragraph (a) (3) of this section by the difference between the Class I price applicable at the location of the partially regulated distributing plant (but not to be less than the Class III price) and the Class III price.

(b) The payment under this paragraph shall be the amount resulting from the following computations:

(1) Determine the value that would have been computed pursuant to § 1049.60 for the partially regulated distributing plant if the plant had been a pool plant, subject to the following modifications:

(i) Fluid milk products and bulk fluid cream products received at the partially regulated distributing plant from a pool plant or an other order plant shall be allocated at the partially regulated distributing plant to the same class in which such products were classified at the fully regulated plant;

(ii) Fluid milk products and bulk fluid cream products transferred from the partially regulated distributing plant to a pool plant or an other order plant shall be classified at the partially regulated distributing plant in the class to which allocated at the fully regulated plant. Such transfers shall be allocated to the extent possible to those receipts at the partially regulated distributing plant from pool plants and other order plants that are classified in the corresponding class pursuant to subparagraph (b)(1)(i) of this section. Any such transfers remaining after the above allocation which are classified in Class I and for which a value is computed for the handler operating the partially regulated distributing plant pursuant to § 1049.60 shall be priced at the uniform price (or at the weighted average price if such is provided) of the respective order regulating the handling of milk at the transferee-plant, with such uniform price adjusted to the location of the nonpool plant (but not to be less than the lowest class price of the respective order) except that transfers of reconstituted skim milk in filled milk shall be priced at the lowest class price of the respective order; and

(iii) If the operator of the partially regulated distributing plant so requests, the value of milk determined pursuant to § 1049.60 for such handler shall include, in lieu of the value of other source milk specified in § 1049.60(f) less the value of such other source milk specified in § 1049.71(a)(2)(ii), a value of milk determined pursuant to § 1049.60 for each nonpool plant that is not an other order plant which serves as a supply plant for such partially regulated distributing plant by making shipments to the partially regulated distributing plant during the month equivalent to the requirements of § 1049.7(b), subject to the following conditions:

(a) The operator of the partially regulated distributing plant submits with his reports filed pursuant to §§ 1049.30 (b) and 1049.31(b) similar reports for each such nonpool supply plant;

(b) The operator of such nonpool supply plant maintains books and records showing the utilization of all skim milk and butterfat received at such plant which are made available if requested by the market administrator for verification purposes; and

(c) The value of milk determined pursuant to § 1049.60 for such nonpool supply plant shall be determined in the same manner prescribed for computing the obligation of such partially regulated distributing plant; and

(2) From the partially regulated distributing plant's value of milk computed pursuant to paragraph (b)(1) of this section, subtract:

(i) The gross payments by the operator of such partially regulated distributing plant, adjusted to a 3.5 percent butterfat basis by the butterfat differential specified in § 1049.74, for milk received at the plant during the month that would have been producer milk if the plant had been fully regulated;

(ii) If paragraph (b)(1)(iii) of this section applies, the gross payments by the operator of such nonpool supply plant, adjusted to a 3.5 percent butterfat basis by the butterfat differential specified in § 1049.74, for milk received at the plant during the month that would have been producer milk if the plant had been fully regulated; and

(iii) The payments by the operator of the partially regulated distributing plant to the producer-settlement fund of another order under which such plant is also a partially regulated distributing plant and like payments by the operator of the nonpool supply plant if paragraph (b)(1)(iii) of this section applies.

§ 1049.77 Adjustment of accounts.

Whenever verification by the market administrator of reports or payments of any handler discloses errors resulting in money due (a) the market administrator from such handler (b) such handler from the market administrator, or (c) any producer or cooperative association from such handler, the market administrator shall promptly notify such handler of any amount so due and payment thereof shall be made not later than the date for making payment next following such disclosure.

§ 1049.78 Charges on overdue accounts.

Any unpaid obligation of a handler pursuant to § 1049.71, 1049.76, 1049.77 (a), 1049.78, 1049.85, or 1049.86(a) shall be increased three-fourths of 1 percent on the sixth day following the date such obligation is due and on the same day of each succeeding month until such obligation is paid.

Administrative Assessment and Marketing Service Deduction

§ 1049.85 Assessment for order administration.

As his pro rata share of the expense of administration of the order, each handler shall pay to the market administrator on or before the 15th day after the end of the month 4 cents per hundredweight, or such lesser amount as the Secretary may prescribe, with respect to:

(a) Producer milk, including such handler's own farm production;

(b) Other source milk allocated to Class I pursuant to § 1049.44(a) (7) and (11) and the corresponding steps of § 1049.44(b), except such other source milk that is excluded from the computations pursuant to § 1049.60 (d) and (f); and

(c) Route disposition in the marketing area from a partially regulated distributing plant that exceeds the skim milk and butterfat subtracted pursuant to § 1049.76(a)(2).

§ 1049.86 Deduction for marketing services.

(a) Except as set forth in paragraph (b) of this section, each handler in making payments to each producer pursuant to § 1049.73 shall deduct 5 cents per hundredweight or such lesser amount as the Secretary may prescribe with respect to producer milk received by such handler (except such handler's own farm production) during the month, and shall pay such deductions to the market administrator not later than the 15th day after the end of the month. Such money shall be used by the market administrator to verify or establish weights, samples, and tests of producer milk and to provide producers with market information. Such services shall be performed by the market administrator or by an agent engaged by and responsible to him.

(b) In the case of producers for whom a cooperative association is performing, as determined by the Secretary, the services set forth in paragraph (a) of this section, each handler shall make, in lieu of the deductions specified in paragraph (a) of this section, such deductions as are authorized by such producers and, on or before the 15th day after the end of each month, pay over such deductions to the association rendering such services.

Advertising and Promotion Program

§ 1049.110 Agency.

"Agency" means an agency organized by producers and producers' cooperative associations, in such form and with methods of operation specified in this part, which is authorized to expend funds made available pursuant to § 1049.121(b)(1), on approval by the Secretary, for the purposes of establishing or providing for establishment of research and development projects, advertising (excluding brand advertising), sales promotion, educational, and other programs, designed to improve or promote the domestic marketing and consumption of milk and its products. Members of the Agency shall serve without compensation but shall be reimbursed for reasonable expenses incurred in the performance of duties as members of the Agency.

§ 1049.111 Composition of the Agency.

Each cooperative association or combination of cooperative associations as provided for under § 1049.113(b) with 3 percent or more of the total participating producers (producers who have not requested refunds for the most recent quarter) is authorized one Agency representative plus one additional Agency representative for each additional full 10 percent of the participating member producers it represents. Cooperative associations with less than 3 percent of the total participating producers that have elected not to combine pursuant to § 1049.113(b), and participating producers who are not members of cooperatives are authorized to select from such group, in total, one Agency representative for the first full 3 percent plus one additional Agency representative for each additional full 10 percent that such producers constitute of the total participating producers. For the purpose of the Agency's initial organization, all persons defined as producers shall be considered as participating producers.

§ 1049.112 Term of office.

The term of office of each member of the Agency shall be 1 year, or until a replacement is designated by the cooperative association or is otherwise appropriately elected.

§ 1049.113 Selection of Agency members.

The selection of Agency members shall be made pursuant to paragraphs (a), (b), and (c) of this section. Each person selected shall qualify by filing with the market administrator a written acceptance promptly after being notified of such selection.

(a) Each cooperative association authorized one or more representatives to the Agency shall notify the market administrator of the name and address of each representative who shall serve at the pleasure of the cooperative.

(b) For purposes of this program, cooperative associations may elect to combine their participating memberships and, if the combined total of participating producers of such cooperatives is 3 percent or more of the total participating producers, such cooperatives shall be eligible to select a representative(s) to the Agency under the rules of § 1049.111 and paragraph (a) of this section.

(c) Selection of Agency members to represent participating nonmember producers and participating producer members of a cooperative association(s) having less than the required 3 percent of the producers participating in the advertising and promotion program and who have not elected to combine memberships as provided in paragraph (b) of this section, shall be supervised by the market administrator in the following manner:

(1) Promptly after the effective date of this amending order, and annually thereafter, the market administrator shall give notice to participating producer members of such cooperatives and participating nonmember producers of their opportunity to nominate one or more Agency representatives, as the case may be, and also shall specify the number of representatives to be selected.

(2) Following the closing date for nominations, the market administrator shall announce the nominees who are eligible for Agency membership and shall conduct a referendum among the individual producers eligible to vote. Election to membership shall be determined on the basis of the nominee (or nominees) receiving the largest number of eligible votes. If an elected representative subsequently discontinues producer status or is otherwise unable to complete his term of office, the market administrator shall appoint as his replacement the participating producer who received the next highest number of eligible votes.

§ 1049.114 Agency operating procedure.

A majority of the Agency members shall constitute a quorum and any action of the Agency shall require a majority of concurring votes of those present and voting, unless the Agency determines that more than a simple majority shall be required.

§ 1049.115 Powers of the Agency.

The Agency is empowered to:

(a) Administer the terms and provisions within the scope of Agency authority pursuant to § 1049.110.

(b) Make rules and regulations to effectuate the purposes of Public Law 91-670;

(c) Recommend amendments to the Secretary; and

(d) With the approval of the Secretary, enter into contracts and agreements with persons or organizations as deemed necessary to carry out advertising and promotion programs and projects specified in §§ 1049.110 and 1049.117.

§ 1049.116 Duties of the Agency.

The Agency shall perform all duties necessary to carry out the terms and provisions of this program including, but not limited to, the following:

(a) Meet, organize, and select from among its members a chairman and such other officers and committees as may be necessary, and adopt and make public such rules as may be necessary for the conduct of its business;

(b) Develop programs and projects pursuant to §§ 1049.110 and 1049.117;

(c) Keep minutes, books, and records, and submit books and records for examination by the Secretary and furnish any information and reports requested by the Secretary;

(d) Prepare and submit to the Secretary for approval prior to each quarterly period a budget showing the projected amounts to be collected during the quarter and how such funds are to be disbursed by the Agency;

(e) When desirable, establish an advisory committee(s) of persons other than Agency members;

(f) Employ and fix the compensation of any person deemed to be necessary to its exercise of powers and performance of duties;

(g) Establish the rate of reimbursement to the members of the Agency for expenses in attending meetings, and pay the expenses of administering the Agency; and

(h) Provide for the bonding of all persons handling Agency funds in an amount and with surety thereon satisfactory to the Secretary.

§ 1049.117 Advertising, research, education, and promotion program.

The Agency shall develop and submit to the Secretary for approval all programs or projects undertaken under the authority of this part. Such programs or projects may provide for:

(a) The establishment, issuance, effectuation, and administration of appropriate programs or projects for the advertising and promotion of milk and milk products on a nonbrand basis;

(b) The utilization of the services of other organizations to carry out Agency programs and projects if the Agency finds that such activities will benefit producers under this part; and

(c) The establishment, support, and conduct of research and development projects and studies that the Agency finds will benefit all producers under this part.

§ 1049.118 Limitation of expenditures by the Agency.

(a) Not more than 5 percent of the funds received by the Agency pursuant to § 1049.121(b)(1) shall be utilized for administrative expense of the Agency.

(b) Agency funds shall not, in any manner, be used for political activity or for the purpose of influencing governmental policy or action, except in recommending to the Secretary amendments to the advertising and promotion program provisions of this part.

(c) Agency funds may not be expended to solicit producer participation.

(d) Agency funds may be used only for programs and projects promoting the domestic marketing and consumption of milk and its products.

§ 1049.119 Personal liability.

No member of the Agency shall be held personally responsible, either individually or jointly with others, in any way whatsoever to any person for errors in judgment, mistakes, or other acts, either of commission or omission, of such member in performance of his duties, except for acts of willful misconduct,

V 39 I 87 MAY 3 74 XUM

gross negligence, or those which are criminal in nature.

§ 1049.120 Procedure for requesting refunds.

Any producer may apply for refund under the procedure set forth under paragraphs (a) through (c) of this section.

(a) Refund shall be accomplished only through application filed with the market administrator in the form prescribed by the market administrator and signed by the producer. Only that information necessary to identify the producer and the records relevant to the refund may be required of such producer.

(b) Except as provided in paragraph (c) of this section, the request shall be submitted within the first 15 days of December, March, June, or September for milk to be marketed during the ensuing calendar quarter beginning on the first day of January, April, July, and October, respectively.

(c) A dairy farmer who first acquires producer status under this part after the 15th day of December, March, June, or September, as the case may be, and prior to the start of the next refund notification period as specified in paragraph (b) of this section, may, upon application filed with the market administrator pursuant to paragraph (a) of this section, be eligible for refund on all marketings against which an assessment is withheld during such period and including the remainder of the calendar quarter involved. This paragraph also shall be applicable to all producers during the period following the effective date of this amending order to the beginning of the first full calendar quarter for which the opportunity exists for such producers to request refunds pursuant to paragraph (b) of this section.

§ 1049.121 Duties of the market administrator.

Except as specified in § 1049.116, the market administrator, in addition to other duties specified by this part, shall perform all the duties necessary to administer the terms and provisions of the advertising and promotion program including, but not limited to, the following:

(a) Within 30 days after the effective date of this amending order, and annually thereafter, conduct a referendum to determine representation on the Agency pursuant to § 1049.113(c);

(b) Set aside the amounts subtracted under § 1049.61(c) into an advertising and promotion fund, separately accounted for, from which shall be disbursed:

(1) To the Agency each month, all such funds less any necessary amount held in reserve to cover refunds pursuant to paragraph (b) (2) and (3) of this section, and payments to cover expenses of the market administrator incurred in the administration of the advertising and promotion program (including audit).

(2) Refund to producers the amounts of mandatory checkoff for advertising and promotion programs required under authority of State law applicable to such producers, but not in amounts that exceed a rate of 5 cents per hundredweight on the volume of milk pooled by any such producer for which deductions were made pursuant to § 1049.61(c).

(3) After the end of each calendar quarter, make a refund to each producer who has made application for such refund pursuant to § 1049.120. Such refund shall be computed at the rate of 5 cents per hundredweight of such producer's milk pooled for which deductions were made pursuant to § 1049.61(c) for such calendar quarter, less the amount of any refund otherwise made to the producer pursuant to paragraph (b)(2) of this section.

(c) Promptly after the effective date of this amending order, and thereafter with respect to new producers, forward to each producer a copy of the provisions of the advertising and promotion program (§§ 1049.110 through 1049.122).

(d) Audit the Agency's records of receipts and disbursements.

§ 1049.122 Liquidation.

In the event that the provisions of this advertising and promotion program are terminated, any remaining uncommitted funds applicable thereto shall revert to the producer-settlement fund of § 1049.70.

PART 1050—MILK IN CENTRAL ILLINOIS MARKETING AREA

Subpart—Order Regulating Handling

GENERAL PROVISIONS

Secs.
1050.1 General provisions.

DEFINITIONS

1050.2 Central Illinois marketing area.
1050.3 Route disposition.
1050.4 [Reserved.]
1050.5 Distributing plant.
1050.6 Supply plant.
1050.7 Pool plant.
1050.8 Nonpool plant.
1050.9 Handler.
1050.10 Producer-handler.
1050.11 [Reserved.]
1050.12 Producer.
1050.13 Producer milk.
1050.14 Other source milk.
1050.15 Fluid milk product.
1050.16 Fluid cream product.
1050.17 Filled milk.
1050.18 Cooperative association.
1050.19 Reload point.

HANDLER REPORTS

1050.30 Reports of receipts and utilization.
1050.31 Payroll reports.
1050.32 Other reports.

CLASSIFICATION OF MILK

1050.40 Classes of utilization.
1050.41 Shrinkage.
1050.42 Classification of transfers and diversions.
1050.43 General classification rules.
1050.44 Classification of producer milk.
1050.45 Market administrator's reports and announcements concerning classification.

CLASS PRICES

1050.50 Class prices.
1050.51 Basic formula price.
1050.52 Plant location adjustments for handlers.
1050.53 Announcement of class prices.
1050.54 Equivalent price.

UNIFORM PRICE

1050.60 Handler's value of milk for computing uniform price.
1050.61 Computation of uniform price (including weighted average price).
1050.62 Announcement of uniform price and butterfat differential.

PAYMENTS FOR MILK

1050.70 Producer-settlement fund.
1050.71 Payments to the producer-settlement fund.
1050.72 Payments from the producer-settlement fund.
1050.73 Payments to producers and to cooperative associations.
1050.74 Butterfat differential.
1050.75 Plant location adjustments for producers and on nonpool milk.
1050.76 Payments by handler operating a partially regulated distributing plant.
1050.77 Adjustment of accounts.
1050.78 Charges on overdue accounts.

ADMINISTRATIVE ASSESSMENT AND MARKETING SERVICE DEDUCTION

1050.85 Assessment for order administration.
1050.86 Deduction for marketing services.

AUTHORITY: The provisions of this Part 1050 issued under secs. 1–19, 48 Stat. 31, as amended (7 U.S.C. 601–674).

GENERAL PROVISIONS

§ 1050.1 General provisions.

The terms, definitions, and provisions in Part 1000 of this chapter are hereby incorporated by reference and made a part of this order.

DEFINITIONS

§ 1050.2 Central Illinois marketing area.

The "Central Illinois marketing area", hereinafter called the "marketing area", means all the territory within the following counties, all of which are in the State of Illinois, together with all municipal corporations therein and all institutions owned or operated by the Federal, State, county, or municipal governments located wholly or partially within such counties:

ZONE I

Cass.	McDonough.
Ford.	Peoria.
Fulton.	Stark.
Knox.	Tazewell.
Livingston.	Warren.
Marshall.	Woodford.
Mason.	

ZONE II

Bureau.	Kankakee
Grundy.	La Salle
Iroquois.	Putnam

§ 1050.3 Route disposition.

"Route disposition" means a delivery (including disposition from a plant store or from a distribution point and distribution by a vendor or vending machine) of any fluid milk product classified as Class I milk to a retail or wholesale outlet other than a pool plant or a nonpool plant.

§ 1050.4 [Reserved]

§ 1050.5 Distributing plant.

"Distributing plant" means any plant at which fluid milk products are processed and packaged and from which there is route disposition of Grade A fluid milk products in the marketing area during the month.

§ 1050.6 Supply plant.

"Supply plant" means any plant at which Grade A milk is received from dairy farmers and from which fluid milk products are moved to a distributing plant.

§ 1050.7 Pool plant.

Except as provided in paragraph (d) of this section, "pool plant" means a plant specified in paragraph (a), (b), or (c) of this section. For purposes of determining pool plant status pursuant to this section, Grade A receipts from dairy farmers shall include all quantities of milk diverted pursuant to § 1050.13 (b) and (c) by an operator of a pool plant.

(a) A distributing plant from which during the month there is:

(1) Route disposition of fluid milk products, except filled milk, in the marketing area equal to 10 percent or more of its Grade A receipts from dairy farmers, handlers described in § 1050.9(c), and other pool plants, such receipts to be exclusive of fluid milk products (except filled milk) transferred without specific Class II or Class III designation to other pool plants described in this paragraph, or from which there is an average of not less than 7,000 pounds per day of route disposition, except filled milk, in the marketing area; and

(2) Total route disposition of fluid milk products, except filled milk, equal to 50 percent or more of its Grade A receipts from dairy farmers, handlers described in § 1050.9(c), and other pool plants, such receipts to be exclusive of fluid milk products (except filled milk) transferred without specific Class II or Class III designation to other pool plants described in this paragraph, during the months of August through February and 40 percent during all other months.

(b) A supply plant from which during the month an amount equal to 50 percent or more of its receipts of Grade A milk from dairy farmers and handlers described in § 1050.9(c) is moved to and received at a pool plant(s) described in paragraph (a) of this section which have at least 50 percent Class use (not including filled milk) of the total of such supply plant milk and producer milk receipts in the months of August through February and 40 percent in other months.

(c) Any supply plant which qualified pursuant to paragraph (b) of this section in each of the immediately preceding months of September through January shall be a pool plant for the months of February through August unless the operator of such plant notifies the market administrator in writing before the first day of any such month of his intention to withdraw such plant as a pool plant, in which case such plant shall thereafter be a nonpool plant until it again meets the shipping requirements set forth in paragraph (b) of this section.

(d) The term "pool plant" shall not apply to the following plants:

(1) A producer-handler plant;

(2) A distributing plant qualified pursuant to paragraph (a) of this section which meets the requirements of a fully regulated plant pursuant to the provisions of another order issued pursuant to the Act and from which during the month there is a greater quantity of route disposition, except filled milk, in the marketing area regulated by the other order than in the Central Illinois marketing area: *Provided*, That such a distributing plant which was a pool plant under this order in the immediately preceding month shall continue to be subject to all of the provisions of this part until the third consecutive month in which a greater proportion of such route disposition is made in such other marketing area, unless the other order requires regulation of the plant without regard to its qualifying as a pool plant under this order subject to the proviso of this subparagraph;

(3) A distributing plant qualified pursuant to paragraph (a) of this section which meets the requirements of a fully regulated plant pursuant to the provisions of another Federal order and from which during the month there is a greater quantity of route disposition, except filled milk, in the Central Illinois marketing area than in the other marketing area, and such other order which fully regulates the plant does not contain provisions to exempt the plant from regulation even though such plant has greater route disposition in the marketing area of the Central Illinois order; and

(4) Any plant qualified pursuant to paragraph (c) of this section for any portion of the period of February through August, inclusive, that the milk at such plant is subject to the classification and pricing provisions of another order issued pursuant to the Act.

§ 1050.8 Nonpool plant.

"Nonpool plant" means any milk or filled milk receiving, manufacturing, or processing plant other than a pool plant. The following categories of nonpool plants are further defined as follows:

(a) "Other order plant" means a plant that is fully subject to the pricing and pooling provisions of another order issued pursuant to the Act.

(b) "Producer-handler plant" means a plant operated by a producer-handler as defined in any order (including this part) issued pursuant to the Act.

(c) "Partially regulated distributing plant" means a nonpool plant that is neither an other order plant nor a producer-handler plant, from which there is route disposition in consumer-type packages or dispenser units in the marketing area during the month.

(d) "Unregulated supply plant" means a nonpool plant that is neither an other order plant nor a producer-handler plant, from which fluid milk products are shipped to a pool plant.

§ 1050.9 Handler.

"Handler" means:

(a) Any person in his capacity as the operator of a pool plant;

(b) Any cooperative association with respect to milk of producers diverted for its account pursuant to § 1050.13;

(c) Any cooperative association with respect to milk it receives for its account from the farm of a producer in a tank truck owned and operated by, or under the control of, such association, for delivery to a pool plant(s);

(d) Any person in his capacity as the operator of a partially regulated distributing plant;

(e) A producer-handler;

(f) Any person who operates an other order plant described in § 1050.7(d); and

(g) Any person in his capacity as the operator of an unregulated supply plant.

§ 1050.10 Producer-handler.

"Producer-handler" means a person who:

(a) Operates a distributing plant and processes milk from his own farm production and who disposes of all or a portion of such milk as route disposition in the marketing area but who receives no milk from other dairy farmers or fluid milk products from nonpool plants: *Provided*, That the skim milk and butterfat disposed of in the form of fluid milk products designated as Class I milk pursuant to § 1050.40(a) does not exceed the skim milk and butterfat, respectively, in the form of milk from his own farm production, and in the form of fluid milk products from pool plants of other handlers, allowing for inventory derived from such sources; and

(b) Assumes as his personal enterprise and risk the processing and distributing of fluid milk products and the maintenance, care and management of dairy animals and other resources necessary to produce his own farm milk production.

§ 1050.11 [Reserved]

§ 1050.12 Producer.

(a) Except as provided in paragraph (b) of this section, "producer" means any person who produces milk in compliance with the Grade A inspection requirements of a duly constituted health authority, and whose milk is (1) received at a pool plant, (2) diverted pursuant to § 1050.13, or (3) accounted for by a cooperative association pursuant to § 1050.13(b).

(b) "Producer" shall not include:

(1) A producer-handler as defined in any order (including this part) issued pursuant to the Act;

(2) Any person with respect to milk produced by him which is diverted to a pool plant from an other order plant if the other order designates such person as a producer under that order and such milk is allocated to Class II or Class III utilization pursuant to § 1050.44(a)(8)(iii) and the corresponding step of § 1050.44(b); and

(3) Any person with respect to milk produced by him which is reported as diverted to an other order plant if any

V 39 I 87 MAY 3 74 XUM

portion of such person's milk so moved is assigned to Class I under the provisions of such other order.

§ 1050.13 Producer milk.

"Producer milk" means all skim milk and butterfat contained in milk from producers that is:

(a) Received at a pool plant from producers or from a handler described in § 1050.9(c);

(b) Represented by the difference between the quantity of milk received by a handler described in § 1050.9(c) at producers' farms and the quantity of such milk delivered to pool plants. For the purposes of §§ 1050.52 and 1050.75, such milk shall be deemed to have been received by such handler at the pool plant to which all other producer milk in the same tank truck was delivered;

(c) Diverted by a handler from a pool plant for the account of the plant operator to another pool plant(s) for not more days of production of such producer's milk than is physically received at a pool plant(s) from which diverted. For pricing purposes such diverted milk shall be deemed to be received by the diverting handler at the location of the plant to which diverted;

(d) Diverted from a pool plant to a nonpool plant that is not a producer-handler plant, subject to the conditions of this paragraph. For pricing purposes, milk so diverted shall be deemed to be received at the plant from which diverted, unless the plant to which the milk is diverted is located more than 110 miles from the city hall in Peoria, Ill. (by shortest highway distance as determined by the market administrator) in which case the milk shall be deemed to be received by the diverting handler at the location of the plant to which diverted:

(1) During May, June and July the operator of a pool plant or a cooperative association may divert the milk production of a producer on any number of days;

(2) Subject to the conditions set forth in paragraph (d)(4) of this section, during the months of August through April the operator of a pool plant may divert the milk of a producer for not more days of production of such producer's milk than it is physically received at the pool plant from which diverted: *Provided*, That the total quantity of producer milk diverted does not exceed 35 percent of the physical receipts of producer milk at the handler's pool plant during the month, exclusive of milk of producers who are members of a cooperative association that is diverting milk and the milk of other producers that is diverted pursuant to paragraph (d)(3) of this section;

(3) Subject to the conditions set forth in paragraph (d)(4) of this section, during the months of August through April a cooperative association may divert the milk of producers for not more days of production of each producer's milk than is physically received at a pool plant: *Provided*, That the total quantity of producer milk does not exceed 35 percent of (i) its member milk physically received at pool plants during such month and (ii) other producer milk for which the cooperative association is the handler pursuant to § 1050.9(c) during such month;

(4) In the case where a cooperative association has notified the market administrator and the handler in writing prior to the first day of the month that milk of specified member producers will not be diverted by the cooperative and is not to be included in computing the cooperative association's diversion percentage for the month, milk of such producers shall be deducted from the cooperative's total receipts of member milk for the purposes specified in paragraph (c)(3) of this section and added to the total milk receipts included in computing the diversions of the pool plant handler who receives their milk for the purposes specified in paragraph (c)(2) of this section; and

(5) When milk is diverted in excess of the limits specified in paragraph (d)(2) and (3) of this section, eligibility as producer milk under this section shall be forfeited on the excess quantity. In such event the diverting handler shall specify the dairy farmers whose milk is ineligible as producer milk. If a handler fails to designate such dairy farmers whose milk is ineligible, producer milk status shall be forfeited with respect to all milk diverted to nonpool plants by such handler.

§ 1050.14 Other source milk.

"Other source milk" means all skim milk and butterfat contained in or represented by:

(a) Receipts of fluid milk products and bulk products specified in § 1050.40(b)(1) from any source other than producers, handlers described in § 1050.9(c), or pool plants;

(b) Receipts in packaged form from other plants of products specified in § 1050.40(b)(1);

(c) Products (other than fluid milk products, products specified in § 1050.40(b)(1), and products produced at the plant during the same month) from any source which are reprocessed, converted into, or combined with another product in the plant during the month; and

(d) Receipts of any milk product (other than a fluid milk product or a product specified in § 1050.40(b)(1)) for which the handler fails to establish a disposition.

§ 1050.15 Fluid milk product.

(a) Except as provided in paragraph (b) of this section, "fluid milk product" means any of the following products in fluid or frozen form:

(1) Milk, skim milk, lowfat milk, milk drinks, buttermilk, filled milk, and milkshake and ice milk mixes containing less than 20 percent total solids, including any such products that are flavored, cultured, modified with added nonfat milk solids, concentrated (if in a consumer-type package), or reconstituted; and

(2) Any milk product not specified in paragraph (a)(1) of this section or in § 1050.40(b) or (c)(1) (i) through (v) if it contains by weight at least 80 percent water and 6.5 percent nonfat milk solids and less than 9 percent butterfat and 20 percent total solids.

(b) The term "fluid milk product" shall not include:

(1) Evaporated or condensed milk (plain or sweetened), evaporated or condensed skim milk (plain or sweetened), formulas especially prepared for infant feeding or dietary use that are packaged in hermetically sealed glass or all-metal containers, any product that contains by weight less than 6.5 percent nonfat milk solids, and whey; and

(2) The quantity of skim milk in any modified product specified in paragraph (a) of this section that is in excess of the quantity of skim milk in an equal volume of an unmodified product of the same nature and butterfat content.

§ 1050.16 Fluid cream product.

"Fluid cream product" means cream (other than plastic cream or frozen cream), sour cream, or a mixture (including a cultured mixture) of cream and milk or skim milk containing 9 percent or more butterfat, with or without the addition of other ingredients.

§ 1050.17 Filled milk.

"Filled milk" means any combination of nonmilk fat (or oil) with skim milk (whether fresh, cultured, reconstituted, or modified by the addition of nonfat milk solids), with or without milkfat, so that the product (including stabilizers, emulsifiers, or flavoring) resembles milk or any other fluid milk product, and contains less than 6 percent nonmilk fat (or oil).

§ 1050.18 Cooperative association.

"Cooperative association" means any cooperative marketing association of producers which the Secretary determines:

(a) To be qualified under the provisions of the Act of Congress of February 18, 1922, as amended, known as the "Capper-Volstead Act"; and

(b) To be engaged in making collective sales, or marketing milk or its products for its members.

§ 1050.19 Reload point.

"Reload point" means a location at which facilities approved by a duly constituted health authority, only for the transfer of milk from one tank truck to another and for the washing of tank trucks and at which milk moved from the farm in a tank truck is commingled in a tank truck with milk from other tank trucks before entering a milk plant: *Provided*, That reloading facilities on the premises of a plant having equipment for the receiving, cooling, storing and processing of milk, which equipment is in current use during the month, shall be considered a supply plant rather than a reload point.

HANDLER REPORTS

§ 1050.30 Reports of receipts and utilization.

On or before the 7th day after the end of each month, each handler shall report for such month to the market administrator, in the detail and on the forms prescribed by the market administrator, as follows:

(a) Each handler, with respect to each of his pool plants, shall report the quantities of skim milk and butterfat contained in or represented by:

(1) Receipts of producer milk, including producer milk diverted by the handler from the pool plant to other plants;

(2) Receipts of milk from handlers described in § 1050.9(c);

(3) Receipts of fluid milk products and bulk fluid cream products from other pool plants;

(4) Receipts of other source milk;

(5) Inventories at the beginning and end of the month of fluid milk products and products specified in § 1050.40(b)(1); and

(6) The utilization or disposition of all milk, filled milk, and milk products required to be reported pursuant to this paragraph.

(b) Each handler operating a partially regulated distributing plant shall report with respect to such plant in the same manner as prescribed for reports required by paragraph (a) of this section. Receipts of milk that would have been producer milk if the plant had been fully regulated shall be reported in lieu of producer milk. Such report shall show also the quantity of any reconstituted skim milk in route disposition in the marketing area.

(c) Each handler described in § 1050.9(b) and (c) shall report:

(1) The quantities of all skim milk and butterfat contained in receipts of milk from producers; and

(2) The utilization or disposition of all such receipts.

(d) Each handler not specified in paragraphs (a) through (c) of this section shall report with respect to his receipts and utilization of milk, filled milk, and milk products in such manner as the market administrator may prescribe.

§ 1050.31 Payroll reports.

(a) On or before the 20th day after the end of each month, each handler described in § 1050.9 (a), (b), and (c) shall report to the market administrator his producer payroll for such month, in the detail prescribed by the market administrator, showing for each producer:

(1) His name and address;

(2) The total pounds of milk received from such producer;

(3) The average butterfat content of such milk; and

(4) The price per hundredweight, the gross amount due, the amount and nature of any deductions, and the net amount paid.

(b) Each handler operating a partially regulated distributing plant who elects to make payment pursuant to § 1050.76(b) shall report for each dairy farmer who would have been a producer if the plant had been fully regulated in the same manner as prescribed for reports required by paragraph (a) of this section.

§ 1050.32 Other reports.

(a) Not later than the 7th day after the end of the month, each handler operating a pool plant shall report to the market administrator, for each of his pool plants separately, the name and address of each producer from whom milk was received during the month with statements showing dates on which such producer started shipping and the date on which milk shipments stopped.

(b) In addition to the reports required pursuant to §§ 1050.30 and 1050.31 and paragraph (a) of this section, each handler shall report such other information as the market administrator deems necessary to verify or establish such handler's obligation under the order.

CLASSIFICATION OF MILK

§ 1050.40 Classes of utilization.

Except as provided in § 1050.42, all skim milk and butterfat required to be reported by a handler pursuant to § 1050.30 shall be classified as follows:

(a) *Class I milk.* Class I milk shall be all skim milk and butterfat:

(1) Disposed of in the form of a fluid milk product, except as otherwise provided in paragraphs (b) and (c) of this section; and

(2) Not specifically accounted for as Class II or Class III milk.

(b) *Class II milk.* Class II milk shall be all skim milk and butterfat:

(1) Disposed of in the form of a fluid cream product, eggnog, yogurt, and any product containing 6 percent or more nonmilk fat (or oil) that resembles a fluid cream product, eggnog, or yogurt, except as otherwise provided in paragraph (c) of this section;

(2) In packaged inventory at the end of the month of the products specified in paragraph (b)(1) of this section;

(3) In bulk fluid milk products and bulk fluid cream products disposed of to any commercial food processing establishment (other than a milk or filled milk plant) at which food products (other than milk products and filled milk) are processed and from which there is no disposition of fluid milk products or fluid cream products other than those received in consumer-type packages; and

(4) Used to produce:

(i) Cottage cheese, lowfat cottage cheese, and dry curd cottage cheese;

(ii) Milkshake and ice milk mixes (or bases) containing 20 percent or more total solids, frozen desserts, and frozen dessert mixes;

(iii) Any concentrated milk product in bulk, fluid form other than that specified in paragraph (c)(1)(iv) of this section;

(iv) Plastic cream, frozen cream, and anhydrous milkfat;

(v) Custards, puddings, and pancake mixes; and

(vi) Formulas especially prepared for infant feeding or dietary use that are packaged in hermetically sealed glass or all-metal containers.

(c) *Class III milk.* Class III milk shall be all skim milk and butterfat:

(1) Used to produce:

(i) Cheese (other than cottage cheese, lowfat cottage cheese, and dry curd cottage cheese);

(ii) Butter;

(iii) Any milk product in dry form;

(iv) Any concentrated milk product in bulk, fluid form that is used to produce a Class III product;

(v) Evaporated or condensed milk (plain or sweetened) in a consumer-type package and evaporated or condensed skim milk (plain or sweetened) in a consumer-type package; and

(vi) Any product not otherwise specified in this section;

(2) In inventory at the end of the month of fluid milk products in bulk or packaged form and products specified in paragraph (b)(1) of this section in bulk form;

(3) In fluid milk products and products specified in paragraph (b)(1) of this section that are disposed of by a handler for animal feed;

(4) In fluid milk products and products specified in paragraph (b)(1) of this section that are dumped by a handler if the market administrator is notified of such dumping in advance and is given the opportunity to verify such disposition;

(5) In skim milk in any modified fluid milk product that is in excess of the quantity of skim milk in such product that was included within the fluid milk product definition pursuant to § 1050.15; and

(6) In shrinkage assigned pursuant to § 1050.41(a) to the receipts specified in § 1050.41(a)(2) and in shrinkage specified in § 1050.41 (b) and (c).

§ 1050.41 Shrinkage.

For purposes of classifying all skim milk and butterfat to be reported by a handler pursuant to § 1050.30, the market administrator shall determine the following:

(a) The pro rata assignment of shrinkage of skim milk and butterfat, respectively, at each pool plant to the respective quantities of skim milk and butterfat:

(1) In the receipts specified in paragraph (b)(1) through (6) of this section on which shrinkage is allowed pursuant to such paragraph; and

(2) In other source milk not specified in paragraph (b)(1) through (6) of this section which was received in bulk fluid form;

(b) The shrinkage of skim milk and butterfat, respectively, assigned pursuant to paragraph (a) of this section to the receipts specified in paragraph (a)(1) of this section that is not in excess of:

(1) Two percent of the skim milk and butterfat, respectively, in producer milk (excluding milk diverted by the plant operator to another plant and milk received from a handler described in § 1050.9(c));

(2) Plus 1.5 percent of the skim milk and butterfat, respectively, in milk re-

V 39 I 87 MAY 3 74 XUM

ceived from a handler described in § 1050.9(c) and in milk diverted to such plant from another pool plant, except that, in either case, if the operator of the plant to which the milk is delivered purchases such milk on the basis of weights determined from its measurement at the farm and butterfat tests determined from farm bulk tank samples, the applicable percentage under this subparagraph shall be 2 percent;

(3) Plus 0.5 percent of the skim milk and butterfat, respectively, in producer milk diverted from such plant by the plant operator to another plant, except that if the operator of the plant to which the milk is delivered purchases such milk on the basis of weights determined from its measurement at the farm and butterfat tests determined from farm bulk tank samples, the applicable percentage under this subparagraph shall be zero;

(4) Plus 1.5 percent of the skim milk and butterfat, respectively, in bulk fluid milk products received by transfer from other pool plants;

(5) Plus 1.5 percent of the skim milk and butterfat, respectively, in bulk fluid milk products received by transfer from other order plants, excluding the quantity for which Class II or Class III classification is requested by the operators of both plants;

(6) Plus 1.5 percent of the skim milk and butterfat, respectively, in bulk fluid milk products received from unregulated supply plants, excluding the quantity for which Class II or Class III classification is requested by the handler; and

(7) Less 1.5 percent of the skim milk and butterfat, respectively, in bulk fluid milk products transferred to other plants that is not in excess of the respective amounts of skim milk and butterfat to which percentages are applied in paragraph (b) (1), (2), (4), (5), and (6) of this section; and

(c) The quantity of skim milk and butterfat, respectively, in shrinkage of milk from producers for which a cooperative association is the handler pursuant to § 1050.9 (b) or (c), but not in excess of 0.5 percent of the skim milk and butterfat, respectively, in such milk. If the operator of the plant to which the milk is delivered purchases such milk on the basis of weights determined from its measurement at the farm and butterfat tests determined from farm bulk tank samples, the applicable percentage under this paragraph for the cooperative association shall be zero.

§ 1050.42 Classification of transfers and diversions.

(a) *Transfers and diversions to pool plants.* Skim milk or butterfat transferred or diverted in the form of a fluid milk product or a bulk fluid cream product from a pool plant to another pool plant shall be classified as Class I milk unless the operators of both plants request the same classification in another class. In either case, the classification of such transfers or diversions shall be subject to the following conditions:

(1) The skim milk or butterfat classified in each class shall be limited to the amount of skim milk and butterfat, respectively, remaining in such class at the transferee-plant or divertee-plant after the computations pursuant to § 1050.44(a)(12) and the corresponding step of § 1050.44(b);

(2) If the transferor-plant or divertor-plant received during the month other source milk to be allocated pursuant to § 1050.44(a)(7) or the corresponding step of § 1050.44(b), the skim milk or butterfat so transferred or diverted shall be classified so as to allocate the least possible Class I utilization to such other source milk; and

(3) If the transferor-handler or divertor-handler received during the month other source milk to be allocated pursuant to § 1050.44(a) (11) or (12) or the corresponding steps of § 1050.44(b), the skim milk or butterfat so transferred or diverted, up to the total of the skim milk and butterfat, respectively, in such receipts of other source milk, shall not be classified as Class I milk to a greater extent than would be the case if the other source milk had been received at the transferee-plant or divertee-plant.

(b) *Transfers and diversions to other order plants.* Skim milk or butterfat transferred or diverted in the form of a fluid milk product or a bulk fluid cream product from a pool plant to an other order plant shall be classified in the following manner. Such classification shall apply only to the skim milk or butterfat that is in excess of any receipts at the pool plant from the other order plant of skim milk and butterfat, respectively, in fluid milk products and bulk fluid cream products, respectively, that are in the same category as described in paragraph (b) (1), (2), or (3) of this section:

(1) If transferred as packaged fluid milk products, classification shall be in the classes to which allocated as a fluid milk product under the other order;

(2) If transferred in bulk form, classification shall be in the classes to which allocated under the other order (including allocation under the conditions set forth in paragraph (b)(3) of this section);

(3) If the operators of both plants so request in their reports of receipts and utilization filed with their respective market administrators, transfers or diversions in bulk form shall be classified as Class II or Class III milk to the extent of such utilization available for such classification pursuant to the allocation provisions of the other order;

(4) If information concerning the classes to which such transfers or diversions were allocated under the other order is not available to the market administrator for the purpose of establishing classification under this paragraph, classification shall be as Class I, subject to adjustment when such information is available;

(5) For purposes of this paragraph, if the other order provides for a different number of classes of utilization than is provided for under this part, skim milk or butterfat allocated to a class consisting primarily of fluid milk products shall be classified as Class I milk, and skim milk or butterfat allocated to the other classes shall be classified as Class III milk; and

(6) If the form in which any fluid milk product that is transferred to an other order plant is not defined as a fluid milk product under such other order, classification under this paragraph shall be in accordance with the provisions of § 1050.40.

(c) *Transfers to producer-handlers.* Skim milk or butterfat transferred in the following forms from a pool plant to a producer-handler under this or any other Federal order shall be classified:

(1) As Class I milk, if transferred in the form of a fluid milk product; and

(2) In accordance with the utilization assigned to it by the market administrator, if transferred in the form of a bulk fluid cream product. For this purpose, the producer-handler's utilization of skim milk and butterfat in each class, in series beginning with Class III, shall be assigned to the extent possible to his receipts of skim milk and butterfat, respectively, in bulk fluid cream products, pro rata to each source.

(d) *Transfers and diversions to other nonpool plants.* Skim milk or butterfat transferred or diverted in the following forms from a pool plant to a nonpool plant that is not an other order plant or a producer-handler plant shall be classified:

(1) As Class I milk, if transferred in the form of a packaged fluid milk product; and

(2) As Class I milk, if transferred or diverted in the form of a bulk fluid milk product or a bulk fluid cream product, unless the following conditions apply:

(i) If the conditions described in paragraph (d)(2)(i) (a) and (b) of this section are met, transfers or diversions in bulk form shall be classified on the basis of the assignment of the nonpool plant's utilization to its receipts as set forth in paragraph (d)(2) (ii) through (viii) of this section:

(a) The transferor-handler or divertor-handler claims such classification in his report of receipts and utilization filed pursuant to § 1050.30 for the month within which such transaction occurred; and

(b) The nonpool plant operator maintains books and records showing the utilization of all skim milk and butterfat received at such plant which are made available for verification purposes if requested by the market administrator;

(ii) Route disposition in the marketing area of each Federal milk order from the nonpool plant and transfers of packaged fluid milk products from such nonpool plant to plants fully regulated thereunder shall be assigned to the extent possible in the following sequence:

(a) Pro rata to receipts of packaged fluid milk products at such nonpool plant from pool plants;

(b) Pro rata to any remaining unassigned receipts of packaged fluid milk products at such nonpool plant from other order plants;

(c) Pro rata to receipts of bulk fluid milk products at such nonpool plant from pool plants; and

(d) Pro rata to any remaining unassigned receipts of bulk fluid milk products at such nonpool plant from other order plants;

(iii) Any remaining Class I disposition of packaged fluid milk products from the nonpool plant shall be assigned to the extent possible pro rata to any remaining unassigned receipts of packaged fluid milk products at such nonpool plant from pool plants and other order plants;

(iv) Transfers of bulk fluid milk products from the nonpool plant to a plant fully regulated under any Federal milk order, to the extent that such transfers to the regulated plant exceed receipts of fluid milk products from such plant and are allocated to Class I at the transferee-plant, shall be assigned to the extent possible in the following sequence:

(a) Pro rata to receipts of fluid milk products at such nonpool plant from pool plants; and

(b) Pro rata to any remaining unassigned receipts of fluid milk products at such nonpool plant from other order plants;

(v) Any remaining unassigned Class I disposition from the nonpool plant shall be assigned to the extent possible in the following sequence:

(a) To such nonpool plant's receipts from dairy farmers who the market administrator determines constitute regular sources of Grade A milk for such nonpool plant; and

(b) To such nonpool plant's receipts of Grade A milk from plants not fully regulated under any Federal milk order which the market administrator determines constitute regular sources of Grade A milk for such nonpool plant;

(vi) Any remaining unassigned receipts of bulk fluid milk products at the nonpool plant from pool plants and other order plants shall be assigned, pro rata among such plants, to the extent possible first to any remaining Class I utilization, then to Class III utilization, and then to Class II utilization at such nonpool plant;

(vii) Receipts of bulk fluid cream products at the nonpool plant from pool plants and other order plants shall be assigned, pro rata among such plants, to the extent possible first to any remaining Class III utilization, then to any remaining Class II utilization, and then to Class I utilization at such nonpool plant; and

(viii) In determining the nonpool plant's utilization for purposes of this subparagraph, any fluid milk products and bulk fluid cream products transferred from such nonpool plant to a plant not fully regulated under any Federal milk order shall be classified on the basis of the second plant's utilization using the same assignment priorities at the second plant that are set forth in this subparagraph.

§ 1050.43 General classification rules.

In determining the classification of producer milk pursuant to § 1050.44, the following rules shall apply:

(a) Each month the market administrator shall correct for mathematical and other obvious errors all reports filed pursuant to § 1050.30 and shall compute separately for each pool plant and for each cooperative association with respect to milk for which it is the handler pursuant to § 1050.9 (b) or (c) the pounds of skim milk and butterfat, respectively, in each class in accordance with §§ 1050.40, 1050.41, and 1050.42;

(b) If any of the water contained in the milk from which a product is made is removed before the product is utilized or disposed of by a handler, the pounds of skim milk in such product that are to be considered under this part as used or disposed of by the handler shall be an amount equivalent to the nonfat milk solids contained in such product plus all of the water originally associated with such solids; and

(c) The classification of producer milk for which a cooperative association is the handler pursuant to § 1050.9 (b) or (c) shall be determined separately from the operations of any pool plant operated by such cooperative association.

§ 1050.44 Classification of producer milk.

For each month the market administrator shall determine the classification of producer milk of each handler described in § 1050.9(a) for each of his pool plants separately and of each handler described in § 1050.9 (b) and (c) by allocating the handler's receipts of skim milk and butterfat to his utilization as follows:

(a) Skim milk shall be allocated in the following manner:

(1) Subtract from the total pounds of skim milk in Class III the pounds of skim milk in shrinkage specified in § 1050.41 (b);

(2) Subtract from the total pounds of skim milk in Class I the pounds of skim milk in receipts of packaged fluid milk products from an unregulated supply plant to the extent that an equivalent amount of skim milk disposed of to such plant by handlers fully regulated under any Federal milk order is classified and priced as Class I milk and is not used as an offset for any other payment obligation under any order;

(3) Subtract from the pounds of skim milk remaining in each class the pounds of skim milk in fluid milk products received in packaged form from an other order plant, except that to be subtracted pursuant to paragraph (a)(7)(vi) of this section, as follows:

(i) From Class III milk, the lesser of the pounds remaining or 2 percent of such receipts; and

(ii) From Class I milk, the remainder of such receipts;

(4) Subtract from the pounds of skim milk in Class II the pounds of skim milk in products specified in § 1050.40(b)(1) that were received in packaged form from other plants, but not in excess of the pounds of skim milk remaining in Class II;

(5) Subtract from the remaining pounds of skim milk in Class II the pounds of skim milk in products specified in § 1050.40(b)(1) that were in inventory at the beginning of the month in packaged form, but not in excess of the pounds of skim milk remaining in Class II. This subparagraph shall apply only if the pool plant was subject to the provisions of this subparagraph or comparable provisions of another Federal milk order in the immediately preceding month;

(6) Subtract from the remaining pounds of skim milk in Class II the pounds of skim milk in other source milk (except that received in the form of a fluid milk product or a fluid cream product) that is used to produce, or added to, any product specified in § 1050.40(b), but not in excess of the pounds of skim milk remaining in Class II;

(7) Subtract in the order specified below from the pounds of skim milk remaining in each class, in series beginning with Class III, the pounds of skim milk in each of the following:

(i) Other source milk (except that received in the form of a fluid milk product) and, if paragraph (a)(5) of this section applies, packaged inventory at the beginning of the month of products specified in § 1050.40(b)(1) that was not subtracted pursuant to paragraph (a)(4), (5), and (6) of this section;

(ii) Receipts of fluid milk products (except filled milk) for which Grade A certification is not established;

(iii) Receipts of fluid milk products from unidentified sources;

(iv) Receipts of fluid milk products from a producer-handler as defined under this or any other Federal milk order;

(v) Receipts of reconstituted skim milk in filled milk from an unregulated supply plant that were not subtracted pursuant to paragraph (a)(2) of this section; and

(vi) Receipts of reconstituted skim milk in filled milk from an other order plant that is regulated under any Federal milk order providing for individual-handler pooling, to the extent that reconstituted skim milk is allocated to Class I at the transferor-plant;

(8) Subtract in the order specified below from the pounds of skim milk remaining in Class II and Class III, in sequence beginning with Class III:

(i) The pounds of skim milk in receipts of fluid milk products from an unregulated supply plant that were not subtracted pursuant to paragraph (a)(2) and (7)(v) of this section for which the handler requests a classification other than Class I, but not in excess of the pounds of skim milk remaining in Class II and Class III combined;

(ii) The pounds of skim milk in receipts of fluid milk products from an unregulated supply plant that were not subtracted pursuant to paragraph (a)(2), (7)(v), and (8)(i) of this section which are in excess of the pounds of skim milk determined pursuant to paragraph (a)(8)(ii) (a) through (c) of this section. Should the pounds of skim milk to be subtracted from Class II and Class III combined exceed the pounds of skim milk remaining in such classes, the pounds of skim milk in Class II and Class III combined shall be increased (increasing as necessary Class III and then Class II to the extent of available utilization in such classes at the nearest other pool plant of the handler, and then at each successively more distant pool plant of the handler) by an amount equal to such excess quantity to be subtracted, and the pounds of skim milk in Class I shall be decreased by a like amount. In

V 39187
MAY 3 74
XUM

such case, the pounds of skim milk remaining in each class at this allocation step at the handler's other pool plants shall be adjusted in the reverse direction by a like amount:

(a) Multiply by 1.25 the sum of the pounds of skim milk remaining in Class I at this allocation step at all pool plants of the handler (excluding any duplication of Class I utilization resulting from reported Class I transfers between pool plants of the handler);

(b) Subtract from the above result the sum of the pounds of skim milk in receipts at all pool plants of the handler of producer milk, fluid milk products from pool plants of other handlers, and bulk fluid milk products from other order plants that were not subtracted pursuant to paragraph (a)(7)(vi) of this section; and

(c) Multiply any plus quantity resulting above by the percentage that the receipts of skim milk in fluid milk products from unregulated supply plants that remain at this pool plant is of all such receipts remaining at this allocation step at all pool plants of the handler; and

(iii) The pounds of skim milk in receipts of bulk fluid milk products from an other order plant that are in excess of bulk fluid milk products transferred or diverted to such plant and that were not subtracted pursuant to paragraph (a)(7)(vi) of this section, if Class II or Class III classification is requested by the operator of the other order plant and the handler, but not in excess of the pounds of skim milk remaining in Class II and Class III combined;

(9) Subtract from the pounds of skim milk remaining in each class, in series beginning with Class III, the pounds of skim milk in fluid milk products and products specified in § 1050.40(b)(1) in inventory at the beginning of the month that were not subtracted pursuant to paragraph (a)(5) and (7)(i) of this section;

(10) Add to the remaining pounds of skim milk in Class III the pounds of skim milk subtracted pursuant to paragraph (a)(1) of this section;

(11) Subject to the provisions of paragraph (a)(11)(i) and (ii) of this section, subtract from the pounds of skim milk remaining in each class at the plant, pro rata to the total pounds of skim milk remaining in Class I and in Class II and Class III combined at this allocation step at all pool plants of the handler (excluding any duplication of utilization in each class resulting from transfers between pool plants of the handler), with the quantity prorated to Class II and Class III combined being subtracted first from Class III and then from Class II, the pounds of skim milk in receipts of fluid milk products from an unregulated supply plant that were not subtracted pursuant to paragraph (a)(2), (7)(v), and (8)(i) and (ii) of this section and that were not offset by transfers or diversions of fluid milk products to the same unregulated supply plant from which fluid milk products to be allocated at this step were received:

(i) Should the pounds of skim milk to be subtracted from Class II and Class III combined pursuant to this subparagraph exceed the pounds of skim milk remaining in such classes, the pounds of skim milk in Class II and Class III combined shall be increased (increasing as necessary Class III and then Class II to the extent of available utilization in such classes at the nearest other pool plant of the handler, and then at each successively more distant pool plant of the handler) by an amount equal to such excess quantity to be subtracted, and the pounds of skim milk in Class I shall be decreased by a like amount. In such case, the pounds of skim milk remaining in each class at this allocation step at the handler's other pool plants shall be adjusted in the reverse direction by a like amount; and

(ii) Should the pounds of skim milk to be subtracted from Class I pursuant to this subparagraph exceed the pounds of skim milk remaining in such class, the pounds of skim milk in Class I shall be increased by an amount equal to such excess quantity to be subtracted, and the pounds of skim milk in Class II and Class III combined shall be decreased by a like amount (decreasing as necessary Class III and then Class II). In such case, the pounds of skim milk remaining in each class at this allocation step at the handler's other pool plants shall be adjusted in the reverse direction by a like amount, beginning with the nearest plant at which Class I utilization is available;

(12) Subtract in the manner specified below from the pounds of skim milk remaining in each class the pounds of skim milk in receipts of bulk fluid milk products from an other order plant that are in excess of bulk fluid milk products transferred or diverted to such plant and that were not subtracted pursuant to paragraph (a)(7)(vi) and (8)(iii) of this section:

(i) Subject to the provisions of paragraph (a)(12)(ii), (iii), and (iv) of this section, such subtraction shall be pro rata to the pounds of skim milk in Class I and in Class II and Class III combined, with the quantity prorated to Class II and Class III combined being subtracted first from Class III and then from Class II, with respect to whichever of the following quantities represents the lower proportion of Class I milk:

(a) The estimated utilization of skim milk of all handlers in each class as announced for the month pursuant to § 1050.45(a); or

(b) The total pounds of skim milk remaining in each class at this allocation step at all pool plants of the handler (excluding any duplication of utilization in each class resulting from transfers between pool plants of the handler);

(ii) Should the proration pursuant to paragraph (a)(12)(i) of this section result in the total pounds of skim milk at all pool plants of the handler that are to be subtracted at this allocation step from Class II and Class III combined exceeding the pounds of skim milk remaining in Class II and Class III at all such plants, the pounds of such excess shall be subtracted from the pounds of skim milk remaining in Class I after such proration at the pool plants at which such other source milk was received;

(iii) Except as provided in paragraph (a)(12)(ii) of this section, should the computations pursuant to paragraph (a)(12)(i) or (ii) of this section result in a quantity of skim milk to be subtracted from Class II and Class III combined that exceeds the pounds of skim milk remaining in such classes, the pounds of skim milk in Class II and Class III combined shall be increased (increasing as necessary Class III and then Class II to the extent of available utilization in such classes at the nearest other pool plant of the handler, and then at each successively more distant pool plant of the handler) by an amount equal to such excess quantity to be subtracted, and the pounds of skim milk in Class I shall be decreased by a like amount. In such case, the pounds of skim milk remaining in each class at this allocation step at the handler's other pool plants shall be adjusted in the reverse direction by a like amount; and

(iv) Except as provided in paragraph (a)(12)(ii) of this section, should the computations pursuant to paragraph (a)(12)(i) or (ii) of this section result in a quantity of skim milk to be subtracted from Class I that exceeds the pounds of skim milk remaining in such class, the pounds of skim milk in Class I shall be increased by an amount equal to such excess quantity to be subtracted, and the pounds of skim milk in Class II and Class III combined shall be decreased by a like amount (decreasing as necessary Class III and then Class II). In such case, the pounds of skim milk remaining in each class at this allocation step at the handler's other pool plants shall be adjusted in the reverse direction by a like amount, beginning with the nearest plant at which Class I utilization is available;

(13) Subtract from the pounds of skim milk remaining in each class the pounds of skim milk in receipts of fluid milk products and bulk fluid cream products from another pool plant according to the classification of such products pursuant to § 1050.42(a); and

(14) If the total pounds of skim milk remaining in all classes exceed the pounds of skim milk in producer milk, subtract such excess from the pounds of skim milk remaining in each class in series beginning with Class III. Any amount so subtracted shall be known as "overage";

(b) Butterfat shall be allocated in accordance with the procedure outlined for skim milk in paragraph (a) of this section; and

(c) The quantity of producer milk in each class shall be the combined pounds of skim milk and butterfat remaining in each class after the computations pursuant to paragraph (a)(14) of this section and the corresponding step of paragraph (b) of this section.

§ 1050.45 Market administrator's reports and announcements concerning classification.

The market administrator shall make the following reports and announcements concerning classification:

(a) Whenever required for the purpose of allocating receipts from other order plants pursuant to § 1050.44(a)(12) and the corresponding step of § 1050.44(b), estimate and publicly announce the utilization (to the nearest whole percentage) in each class during the month of skim milk and butterfat, respectively, in producer milk of all handlers. Such estimate shall be based upon the most current available data and shall be final for such purpose.

(b) Report to the market administrator of the other order, as soon as possible after the report of receipts and utilization for the month is received from a handler who has received fluid milk products or bulk fluid cream products from an other order plant, the class to which such receipts are allocated pursuant to § 1050.44 on the basis of such report, and, thereafter, any change in such allocation required to correct errors disclosed in the verification of such report.

(c) Furnish to each handler operating a pool plant who has shipped fluid milk products or bulk fluid cream products to an other order plant the class to which such shipments were allocated by the market administrator of the other order on the basis of the report by the receiving handler, and, as necessary, any changes in such allocation arising from the verification of such report.

(d) On or before the 12th day after the end of each month, report to each cooperative association which so requests, the class utilization of producer milk received by each handler from a cooperative association or from members of the association. For the purpose of this report, the milk caused to be so delivered by an association shall be prorated to each class in the proportion that the total receipts of milk received from producers by such handler were used in each class.

Class Prices

§ 1050.50 Class prices.

Subject to the provisions of § 1050.52, the class prices for the month per hundredweight of milk containing 3.5 percent butterfat shall be as follows:

(a) *Class I price.* The Class I price shall be the basic formula price for the second preceding month plus $1.39.

(b) *Class II price.* The Class II price shall be the basic formula price for the month plus 10 cents.

(c) *Class III price.* The Class III price shall be the basic formula price for the month.

§ 1050.51 Basic formula price.

The "basic formula price" shall be the average price per hundredweight for manufacturing grade milk, f.o.b. plants in Minnesota and Wisconsin, as reported by the Department for the month, adjusted to a 3.5 percent butterfat basis and rounded to the nearest cent. For such adjustment, the butterfat differential (rounded to the nearest one-tenth cent) per one-tenth percent butterfat shall be 0.12 times the simple average of the wholesale selling prices (using the midpoint of any price range as one price) of Grade A (92-score) bulk butter per pound at Chicago, as reported by the Department for the month. For the purpose of computing the Class I price, the resulting price shall be not less than $4.33.

§ 1050.52 Plant location adjustments for handlers.

(a) The Class I price for producer milk at a plant that is outside Zone I shall be adjusted as follows:

(1) At a plant in Zone II or in the Illinois counties of Henry and Mercer, the Class I price shall be decreased 5 cents; and

(2) At a plant located outside the State of Illinois, or in the State of Illinois but north of the northernmost boundaries of the counties of Mercer, Henry, Bureau, La Salle, Grundy, and Kankakee the Class I price shall be reduced 7.5 cents if such plant is 50 or more miles by the shortest highway distance, as determined by the market administrator from the City Hall in Peoria, Ill., plus an additional 1.5 cents for each 10 miles or fraction thereof that such distance exceeds 60 miles.

(b) For purposes of calculating such adjustment, transfers between pool plants shall be assigned Class I disposition at the transferee-plant only to the extent that 105 percent of Class I disposition at the transferee-plant exceeds the sum of receipts at such plant from producers and handlers described in § 1050.9(c), and the volume assigned as Class I to receipts from other order plants and unregulated supply plants, such assignment to be made first to transferor-plants at which no location adjustment credit is applicable and then in sequence beginning with the plant at which the least location adjustment would apply.

(c) The Class I price applicable to other source milk shall be adjusted at the rates set forth in paragraph (a) of this section, except that the adjusted Class I price shall not be less than the Class III price.

§ 1050.53 Announcement of class prices.

The market administrator shall announce publicly on or before the fifth day of each month the Class I price for the following month and the Class II and Class III prices for the preceding month.

§ 1050.54 Equivalent price.

If for any reason a price quotation required by this part for computing class prices or for other purposes is not available in the manner described, the market administrator shall use a price determined by the Secretary to be equivalent to the price which is required.

Uniform Price

§ 1050.60 Handler's value of milk for computing uniform price.

For the purpose of computing the uniform price, the market administrator shall determine for each month the value of milk of each handler with respect to each of his pool plants and of each handler described in § 1050.9(b) and (c) as follows:

(a) Multiply the pounds of producer milk in each class as determined pursuant to § 1050.44 by the applicable class prices and add the resulting amounts;

(b) Add the amounts obtained from multiplying the pounds of overage subtracted from each class pursuant to § 1050.44(a)(14) and the corresponding step of § 1050.44(b) by the respective class prices, as adjusted by the butterfat differential specified in § 1050.74, that are applicable at the location of the pool plant;

(c) Add the amount obtained from multiplying the difference between the Class III price for the preceding month and the Class I price applicable at the location of the pool plant or the Class II price, as the case may be, for the current month by the hundredweight of skim milk and butterfat subtracted from Class I and Class II pursuant to § 1050.44(a)(9) and the corresponding step of § 1050.44(b);

(d) Add the amount obtained from multiplying the difference between the Class I price applicable at the location of the pool plant and the Class III price by the hundredweight of skim milk and butterfat subtracted from Class I pursuant to § 1050.44(a)(7)(i) through (iv) and the corresponding step of § 1050.44(b), excluding receipts of bulk fluid cream products from an other order plant;

(e) Add the amount obtained from multiplying the difference between the Class I price applicable at the location of the transferor-plant and the Class III price by the hundredweight of skim milk and butterfat subtracted from Class I pursuant to § 1050.44(a)(7)(v) and (vi) and the corresponding step of § 1050.44(b);

(f) Add the amount obtained from multiplying the Class I price applicable at the location of the nearest unregulated supply plants from which an equivalent volume was received by the pounds of skim milk and butterfat subtracted from Class I pursuant to § 1050.44(a)(11) and the corresponding step of § 1050.44(b), excluding such skim milk and butterfat in receipts of bulk fluid milk products from an unregulated supply plant to the extent that an equivalent amount of skim milk or butterfat disposed of to such plant by handlers fully regulated under any Federal milk order is classified and priced as Class I milk and is not used as an offset for any other payment obligation under any order; and

(g) For the first month that this paragraph is effective, subtract the amount obtained from multiplying the difference between the Class I price applicable at the location of the pool plant and the Class II price, both for the preceding month, by the hundredweight of skim milk and butterfat in any fluid milk product or product specified in § 1050.40(b) that was in the plant's inventory at the end of the preceding month and classified as Class I milk.

§ 1050.61 Computation of uniform price (including weighted average price).

For each month the market administrator shall compute the uniform price per hundredweight of milk of 3.5 percent butterfat content which is received from producers at plants at which no location adjustment pursuant to § 1050.52 is applicable as follows:

(a) Combine into one total the values computed pursuant to § 1050.60 for all handlers who filed the reports prescribed by § 1050.30 for the month and who made

V 39 187 MAY 3 74 XUM

the payments pursuant to § 1050.71 for the preceding month;

(b) Add an amount equal to the sum of the location and zone adjustments computed pursuant to § 1050.75;

(c) Add an amount equal to one-half of the unobligated balance in the producer-settlement fund;

(d) Divide the resulting amount by the sum of the following for all handlers included in these computations:

(1) The total hundredweight of producer milk; and

(2) The total hundredweight for which a value is computed pursuant to § 1050.60(f);

(e) Subtract not less than 4 cents nor more than 5 cents per hundredweight. The result shall be the "weighted average price," and, except for the months specified below, shall be the "uniform price" for milk received from producers;

(f) For the months specified in paragraphs (g) and (h) of this section, subtract from the amount resulting from the computations pursuant to paragraphs (a) through (c) of this section an amount computed by multiplying the hundredweight of milk specified in paragraph (d)(2) of this section by the weighted averaged price;

(g) Subtract in the case of milk delivered during each of the months of March and July an amount equal to 15 cents per hundredweight and during each of the months of April, May, and June an amount equal to 25 cents per hundredweight of producer milk specified in paragraph (d)(1) of this section;

(h) Add in the case of milk delivered during each of the months of September and December 20 percent and during each of the months of October and November 30 percent of the total amount subtracted pursuant to paragraph (g) of this section;

(i) Divide the resulting sum by the total hundredweight of producer milk included in these computations; and

(j) Subtract not less than 4 cents nor more than 5 cents per hundredweight. The result shall be the "uniform price" for milk received from producers.

§ 1050.62 Announcement of uniform price and butterfat differential.

The market administrator shall announce publicly on or before:

(a) The fifth day after the end of each month the butterfat differential for such month; and

(b) The 12th day after the end of each month the uniform price for such month.

Payments for Milk

§ 1050.70 Producer-settlement fund.

The market administrator shall establish and maintain a separate fund known as the "producer-settlement fund," which shall function as follows:

(a) All payments made by handlers pursuant to §§ 1050.71, 1050.76, and 1050.77 shall be deposited in such fund and from which shall be made all payments pursuant to §§ 1050.72 and 1050.77: *Provided*, That any payments due to any handler shall be offset by any payments due from such handler; and

(b) All amounts subtracted pursuant to § 1050.61(g) shall be deposited in this fund and set aside as an obligated balance until withdrawn to effectuate § 1050.73 in accordance with the requirements of § 1050.61(h).

§ 1050.71 Payments to the producer-settlement fund.

(a) On or before the 15th day after the end of the month, each handler shall pay to the market administrator the amount, if any, by which the amount specified in paragraph (a)(1) of this section exceeds the amount specified in paragraph (a)(2) of this section:

(1) The total value of milk of the handler for such month as determined pursuant to § 1050.60.

(2) The sum of:

(i) The value at the uniform price, as adjusted pursuant to § 1050.75, of such handler's receipts of producer milk; and

(ii) The value at the weighted average price applicable at the location of the plant from which received of other source milk for which a value is computed pursuant to § 1050.60(f).

(b) On or before the 25th day after the end of the month each person who operated an other order plant that was regulated during such month under an order providing for individual-handler pooling shall pay to the market administrator an amount computed as follows:

(1) Determine the quantity of reconstituted skim milk in filled milk in route disposition from such plant in the marketing area which was allocated to Class I at such plant. If there is such route disposition from such plant in marketing areas regulated by two or more marketwide pool orders, the reconstituted skim milk allocated to Class I shall be prorated to each order according to such route disposition in each marketing area; and

(2) Compute the value of the reconstituted skim milk assigned in paragraph (b)(1) of this section to route disposition in this marketing area by multiplying the quantity of such skim milk by the difference between the Class I price under this part that is applicable at the location of the other order plant (but not to be less than the Class III price) and the Class III price.

§ 1050.72 Payments from the producer-settlement fund.

On or before the 17th day after the end of each month the market administrator shall pay to each handler the amount, if any, by which the amount computed pursuant to § 1050.71(a)(2) exceeds the amount computed pursuant to § 1050.71(a)(1). The market administrator shall offset any payment due any handler against payments due from such handler.

§ 1050.73 Payments to producers and to cooperative associations.

(a) On or before the 20th day of the following month, each handler shall make payment to each producer for milk received from such producer during such month:

(1) An amount equal to not less than the uniform price, as adjusted pursuant to §§ 1050.74 and 1050.75, multiplied by the hundredweight of milk received from such producer during the month, subject to the following adjustments:

(i) Less deductions for marketing services made pursuant to § 1050.86;

(ii) Plus or minus adjustments for errors made in previous payments made to such producer; and

(iii) Less proper deductions authorized in writing by such producer: *Provided*, That, if by such date, such handler has not received full payment from the market administrator pursuant to § 1050.72 for such month, he may reduce pro rata his payments to producers by not more than the amount of such underpayment. Payments to producers shall be completed thereafter not later than the date for making payments pursuant to this paragraph next following after the receipt of the balance due from the market administrator;

(b) Payments required in paragraph (a) of this section for milk caused to be delivered to such handler by a cooperative association qualified under § 1050.18 shall be made to such association, or its duly authorized agent, which the market administrator determines is authorized by such producers to collect payment for their milk and which has so requested the handler in writing. Such handler shall, on or before the 18th day of the following month, pay the cooperative association for milk received during the month from producers at the direction of such association as determined by the market administrator an amount equal to not less than the amounts due such producers as determined pursuant to paragraph (a) of this section, less any deductions authorized in writing by such association: *Provided*, That the association has provided the handler with a written promise to reimburse the handler the amount of any actual loss incurred by such handler because of any improper claim on the part of the cooperative association;

(c) On or before the 18th day after the end of each month, each handler shall pay to each cooperative association for milk the handler received at his pool plant from a pool plant(s) operated by such association, not less than the minimum prices for milk in each class, as adjusted by the butterfat differential specified in § 1050.74, that are applicable at the location of the handler's pool plant;

(d) On or before the 18th day of the following month, each handler, in his capacity as operator of a pool plant, who receives milk for which a cooperative association is the handler pursuant to § 1050.9(c), including the milk of producers who are not members of such association, and who the market administrator determines have authorized such cooperative association to collect payments for their milk, shall pay such cooperative association for such milk at the uniform price as adjusted pursuant to §§ 1050.74 and 1050.75; and

(e) Each handler who received milk during the month from producers for which payment is to be made to a cooperative association pursuant to paragraph (b) of this section shall report on or before the 7th day after the end of the month to such cooperative association for each such producer on forms approved by the market administrator:

(1) The total pounds of milk received from each producer together with the butterfat content of such milk; and

(2) The amount or rate and nature of any deductions authorized by a cooperative association.

§ 1050.74 Butterfat differential.

For milk containing more or less than 3.5 percent butterfat, the uniform price shall be increased or decreased, respectively, for each one-tenth percent butterfat variation from 3.5 percent by a butterfat differential, rounded to the nearest one-tenth cent, which shall be 0.115 times the simple average of the wholesale selling prices (using the midpoint of any price range as one price) of Grade A (92-score) bulk butter per pound at Chicago, as reported by the Department for the month.

§ 1050.75 Plant location adjustments for producers and on nonpool milk.

(a) In making payments pursuant to § 1050.73, the uniform price per hundredweight for producer milk received at a plant outside Zone I shall be adjusted according to the location of the plant at the rates set forth in § 1050.52.

(b) For purposes of computation pursuant to §§ 1050.71 and 1050.72, the weighted average price shall be adjusted in the same manner as the uniform price is adjusted pursuant to paragraph (a) of this section for the location of the nonpool plant from which the milk was received, except that the adjusted weighted average price shall not be less than the Class III price.

§ 1050.76 Payments by handler operating a partially regulated distributing plant.

Each handler who operates a partially regulated distributing plant shall pay on or before the 25th day after the end of the month to the market administrator for the producer-settlement fund the amount computed pursuant to paragraph (a) of this section. If the handler submits pursuant to §§ 1050.30(b) and 1050.31(b) the information necessary for making the computations, such handler may elect to pay in lieu of such payment the amount computed pursuant to paragraph (b) of this section:

(a) The payment under this paragraph shall be the amount resulting from the following computations:

(1) Determine the pounds of route disposition in the marketing area from the partially regulated distributing plant;

(2) Subtract the pounds of fluid milk products received at the partially regulated distributing plant:

(i) As Class I milk from pool plants and other order plants, except that subtracted under a similar provision of another Federal milk order; and

(ii) From another nonpool plant that is not an other order plant to the extent that an equivalent amount of fluid milk products disposed of to such nonpool plant by handlers fully regulated under any Federal milk order is classified and priced as Class I milk and is not used as an offset for any other payment obligation under any order;

(3) Subtract the pounds of reconstituted skim milk in route disposition in the marketing area from the partially regulated distributing plant;

(4) Multiply the remaining pounds by the difference between the Class I price and the weighted average price, both prices to be applicable at the location of the partially regulated distributing plant (but not to be less than the Class III price); and

(5) Add the amount obtained from multiplying the pounds of reconstituted skim milk specified in paragraph (a)(3) of this section by the difference between the Class I price applicable at the location of the partially regulated distributing plant (but not to be less than the Class III price) and the Class III price.

(b) The payment under this paragraph shall be the amount resulting from the following computations:

(1) Determine the value that would have been computed pursuant to § 1050.60 for the partially regulated distributing plant if the plant had been a pool plant, subject to the following modifications:

(i) Fluid milk products and bulk fluid cream products received at the partially regulated distributing plant from a pool plant or an other order plant shall be allocated at the partially regulated distributing plant to the same class in which such products were classified at the fully regulated plant;

(ii) Fluid milk products and bulk fluid cream products transferred from the partially regulated distributing plant to a pool plant or an other order plant shall be classified at the partially regulated distributing plant in the class to which allocated at the fully regulated plant. Such transfers shall be allocated to the extent possible to those receipts at the partially regulated distributing plant from pool plants and other order plants that are classified in the corresponding class pursuant to paragraph (b)(1)(i) of this section. Any such transfers remaining after the above allocation which are classified in Class I and for which a value is computed for the handler operating the partially regulated distributing plant pursuant to § 1050.60 shall be priced at the uniform price (or at the weighted average price if such is provided) of the respective order regulating the handling of milk at the transferee-plant, with such uniform price adjusted to the location of the nonpool plant (but not to be less than the lowest class price of the respective order), except that transfers of reconstituted skim milk in filled milk shall be priced at the lowest class price of the respective order; and

(iii) If the operator of the partially regulated distributing plant so requests, the value of milk determined pursuant to § 1050.60 for such handler shall include, in lieu of the value of other source milk specified in § 1050.60(f) less the value of such other source milk specified in § 1050.71(a)(2)(ii), a value of milk determined pursuant to § 1050.60 for each nonpool plant that is not an other order plant which serves as a supply plant for such partially regulated distributing plant by making shipments to the partially regulated distributing plant during the month equivalent to the requirements of § 1050.7(b) and (c), subject to the following conditions:

(a) The operator of the partially regulated distributing plant submits with his reports filed pursuant to §§ 1050.30(b) and 1050.31(b) similar reports for each such nonpool supply plant;

(b) The operator of such nonpool supply plant maintains books and records showing the utilization of all skim milk and butterfat received at such plant which are made available if requested by the market administrator for verification purposes; and

(c) The value of milk determined pursuant to § 1050.60 for such nonpool supply plant shall be determined in the same manner prescribed for computing the obligation of such partially regulated distributing plant; and

(2) From the partially regulated distributing plant's value of milk computed pursuant to paragraph (b)(1) of this section, subtract:

(i) The gross payments by the operator of such partially regulated distributing plant, adjusted to a 3.5 percent butterfat basis by the butterfat differential specified in § 1050.74, for milk received at the plant during the month that would have been producer milk if the plant had been fully regulated;

(ii) If paragraph (b)(1)(iii) of this section applies, the gross payments by the operator of such nonpool supply plant, adjusted to a 3.5 percent butterfat basis by the butterfat differential specified in § 1050.74, for milk received at the plant during the month that would have been producer milk if the plant had been fully regulated; and

(iii) The payments by the operator of the partially regulated distributing plant to the producer-settlement fund of another order under which such plant is also a partially regulated distributing plant and like payments by the operator of the nonpool supply plant if paragraph (b)(1)(iii) of this section applies.

§ 1050.77 Adjustment of accounts.

Whenever audit by the market administrator of any handler's reports, books, records, or accounts discloses errors resulting in moneys due (a) the market administrator from such handler, (b) such handler from the market administrator, or (c) any producer or cooperative association from such handler, the market administrator shall promptly notify such handler of any amount so due and payment thereof shall be made on or before the next date for making payments as set forth in the provisions under which such error occurred.

§ 1050.78 Charges on overdue accounts.

Any unpaid obligation of a handler pursuant to §§ 1050.71, 1050.85, or 1050.86 shall be increased one-half of 1 percent for each month or portion thereof that such payment is overdue.

Administrative Assessment and Marketing Service Deduction

V 39 I 87 MAY 3 74 XUM

§ 1050.85 Assessment for order administration.

As his pro rata share of the expense of administration of the order, each handler (excluding a handler described in § 1050.9(c) with respect to milk delivered to pool plants) shall pay to the market administrator on or before the 20th day after the end of the month 5 cents per hundredweight or such lesser amount as the Secretary may prescribe with respect to:

(a) Producer milk (including such handler's own production);

(b) Other source milk allocated to Class I pursuant to § 1050.44(a) (7) and (11) and the corresponding steps of § 1050.44(b), except such other source milk that is excluded from the computations pursuant to § 1050.60 (d) and (f); and

(c) Route disposition in the marketing area from a partially regulated distributing plant that exceeds the skim milk and butterfat subtracted pursuant to § 1050.76(a)(2).

§ 1050.86 Deduction for marketing services.

(a) *Deduction for marketing services.* Except as set forth in paragraph (b) of this section, each handler in making payments to producers, pursuant to § 1050.73, shall deduct 6 cents per hundredweight, or such lesser amount as the Secretary may prescribe, with respect to all milk received by such handler from producers (excluding such handler's own production) during the month, and shall pay such deductions to the market administrator on or before the 20th day after the end of such month. Such monies shall be used by the market administrator to verify weights, samples, and tests of milk received from such producers and to provide them with market information. Such services shall be performed in whole or in part by the market administrator or by an agent engaged by and responsible to him.

(b) *Producers cooperative association.* In the case of producers for whom a cooperative association is actually performing, as determined by the Secretary, the services set forth in paragraph (a) of this section each handler, in lieu of the deduction specified in paragraph (a) of this section, shall make such marketing service deductions as are authorized by producer-members, and pay the money so deducted to the cooperative association on or before the 20th day after the end of the month.

PART 1062—MILK IN ST. LOUIS-OZARKS MARKETING AREA

Subpart—Order Regulating Handling

GENERAL PROVISIONS

Secs.
1062.1 General provisions.

DEFINITIONS

1062.2 St. Louis-Ozarks marketing area.
1062.3 Route disposition.
1062.4 [Reserved]
1062.5 Distributing plant.
1062.6 Supply plant.
1062.7 Pool plant.
1062.8 Nonpool plant.
1062.9 Handler.
1062.10 Producer-handler.
1062.11 [Reserved]
1062.12 Producer.
1062.13 Producer milk.
1062.14 Other source milk.
1062.15 Fluid milk product.
1062.16 Fluid cream product.
1062.17 Filled milk.
1062.18 Cooperative association.

HANDLER REPORTS

1062.30 Reports of receipts and utilization.
1062.31 Payroll reports.
1062.32 Other reports.

CLASSIFICATION OF MILK

1062.40 Classes of utilization.
1062.41 Shrinkage.
1062.42 Classification of transfers and diversions.
1062.43 General classification rules.
1062.44 Classification of producer milk.
1062.45 Market administrator's reports and announcements concerning classification.

CLASS PRICES

1062.50 Class prices.
1062.51 Basic formula price.
1062.52 Plant location adjustments for handlers.

Sec.
1062.53 Announcement of class prices.
1062.54 Equivalent price.

UNIFORM PRICE

1062.60 Handler's value of milk for computing uniform price.
1062.61 Computation of uniform price (including weighted average price).
1062.62 Announcement of uniform price and butterfat differential.

PAYMENTS FOR MILK

1062.70 Producer-settlement fund.
1062.71 Payments to the producer-settlement fund.
1062.72 Payments from the producer-settlement fund.
1062.73 Payments to producers and to cooperative associations.
1062.74 Butterfat differential.
1062.75 Plant location adjustments for producers and on nonpool milk.
1062.76 Payments by handler operating a partially regulated distributing plant.
1062.77 Adjustment of accounts.
1062.78 Charges on overdue accounts.

ADMINISTRATIVE ASSESSMENT AND MARKETING SERVICE DEDUCTION

1062.85 Assessment for order administration.
1062.86 Deduction for marketing services.

ADVERTISING AND PROMOTION PROGRAM

1962.110 Agency.
1062.111 Composition of Agency.
1062.112 Term of office.
1062.113 Selection of Agency members.
1062.114 Agency operating procedure.
1062.115 Powers of the Agency.
1062.116 Duties of the Agency.
1062.117 Advertising, Research, Education and Promotion Program.
1062.118 Limitation of expenditures by the Agency.
1062.119 Personal liability.
1062.120 Procedure for requesting refunds.
1062.121 Duties of the market administrator.
1062.122 Liquidation.

AUTHORITY.—The provisions of this Part 1062 issued under secs. 1–19, 48 Stat. 31, as amended; (7 U.S.C. 601–674).

GENERAL PROVISIONS

§ 1062.1 General provisions.

The terms, definitions, and provisions in Part 1000 of this chapter are hereby incorporated by reference and made a part of this order.

DEFINITIONS

§ 1062.2 St. Louis-Ozarks marketing area.

"St. Louis-Ozarks marketing area", hereinafter called the marketing area, means all the territory within the designated military reservations, the corporate limits of the cities and the counties enumerated below:

ZONE I

(MISSOURI COUNTIES)

Barry.
Christian.
Crawford.
Douglas.
Franklin.
Greene.
Howell.
Jefferson.
Laclede.
Lawrence.
Ozark.
St. Charles.
St. Louis.
Stone.
Taney.
Warren.
Webster.
Washington.
Wright.

and the city of St. Louis, Mo., Fort Leonard Wood Military Reservation in Missouri, and the territory within Scott Military Reservation. East St. Louis, Centerville, Canteen, and Stites Townships, and the city of Belleville, all in St. Clair County, Ill.

ZONE II

(MISSOURI COUNTIES)

Cape Girardeau.
Bollinger.
St. Francois.
Perry.
Ste. Genevieve.

ZONE III

(ARKANSAS COUNTIES)

Benton.
Boone.
Marion.
Washington.

§ 1062.3 Route disposition.

"Route disposition" means any delivery of a fluid milk product classified as Class I milk to a retail or wholesale outlet (including any delivery through a vendor, or a sale in packaged form from a plant or plant store) except a delivery to another plant.

§ 1062.4 [Reserved]

§ 1062.5 Distributing plant.

"Distributing plant" means a plant which is approved by a duly constituted health authority for the processing or packaging of Grade A milk and from which during the month route disposition is made in the marketing area.

§ 1062.6 Supply plant.

"Supply plant" means a plant which qualifies as a pool plant pursuant to § 1062.7(c) or from which fluid milk products, acceptable to a duly constituted health authority for distribution under a Grade A label, are shipped during the month to and physically received at a distributing plant.

§ 1062.7 Pool plant.

Except as provided in paragraph (d) of this section, "pool plant" means:

(a) Any distributing plant which:

(1) Has during the month route disposition and disposition of packaged fluid milk products to pool distributing plants, excluding in either case filled milk, which, after subtraction of the quantity of packaged fluid milk products, except filled milk, received from other pool plants, is equal to at least 50 percent of such plant's total receipts of Grade A fluid milk products from dairy farmers (including milk diverted by the plant operator), supply plants and handlers described in § 1062.9(c), exclusive of packaged fluid milk products, except filled milk, received from other pool plants, and has route disposition in the marketing area in an amount equal to 10 percent or more of such receipts or an average of not less than 7,000 pounds per day, whichever is less; or

(2) Qualified as a pool plant in the immediately preceding month on the basis of the performance standards described in paragraph (a)(1) of this section.

(b) Any supply plant from which during the month 50 percent or more of the Grade A milk received from dairy farmers and handlers described in § 1062.9(c) is shipped to a plant(s) described in paragraph (a) of this section. Any supply plant which has shipped to a plant(s) described in paragraph (a) of this section the required percentages of its receipts during each of the months of September through February shall be designated a pool plant in each of the following months of March through August unless the plant operator requests the market administrator in writing that such plant not be a pool plant. Such nonpool plant status shall be effective the first month following such notice and thereafter until the plant again qualifies as a pool plant on the basis of shipments.

(c) Any plant which is operated by or under contract to a cooperative association, or a federation of cooperatives, if:

(1) The operator of such plant(s) requests pool status, and 50 percent or more of all the Grade A milk from farms of the member producers of such cooperative or federation including milk delivered by it as a handler described in § 1062.9(c) has been shipped to and physically received at pool distributing plants during the current month or the previous 12-month period ending with the current month, either directly from producer member farms or by transfer from such association plant(s);

(2) Such a plant does not qualify during the month as a "pool plant" under another market pool order issued pursuant to the Act by making shipments of milk to plants which qualify as "pool plants" under such other order; or

(3) Such plant meets the requirements of paragraph (c)(2) of this section and met the requirements of paragraph (c)(1) of this section in the preceding month.

(d) The term "pool plant" shall not apply to the following plants:

(1) A producer-handler plant or governmental agency plant;

(2) A distributing plant which meets the pooling requirements of another Federal order and from which route disposition, except filled milk, during the month in such other Federal order marketing area is greater than in this marketing area, except that if such plant was subject to all the provisions of this part in the immediately preceding month, it shall continue to be subject to all of the provisions of this part until the third consecutive month in which a greater proportion of such route disposition is made in such other marketing area unless, notwithstanding the provisions of this subparagraph, it is regulated under such other order;

(3) A distributing plant which meets the pooling requirements of another Federal order and from which route disposition, except filled milk, during the month in this marketing area is greater than in such other Federal order marketing area but which plant is, nevertheless, fully regulated under such other Federal order; and

(4) A supply plant meeting the requirements of paragraph (b) of this section which also meets the pooling requirements of another Federal order and from which greater qualifying shipments are made during the month to plants regulated under such other order than are made to plants regulated under this part, except during the months of March through August if such plant retains automatic pooling status under this part.

§ 1062.8 Nonpool plant.

"Nonpool plant" means any milk or filled milk receiving, manufacturing, or processing plant other than a pool plant. The following categories of nonpool plants are further defined as follows:

(a) "Other order plant" means a plant that is fully subject to the pricing and pooling provisions of another order issued pursuant to the Act;

(b) "Producer-handler plant" means a plant operated by a producer-handler as defined in any order (including this part) issued pursuant to the Act;

(c) "Partially regulated distributing plant" means a nonpool plant that is neither an other order plant, a producer-handler plant, nor a governmental agency plant, which has route disposition of fluid milk products in consumer-type packages or dispenser units in the marketing area during the month;

(d) "Unregulated supply plant" means a nonpool plant that is neither an other order plant, a producer-handler plant, nor a governmental agency plant, from which fluid milk products are shipped to a pool plant; and

(e) "Governmental agency plant" means a plant operated by a government agency.

§ 1062.9 Handler.

"Handler" means:

(a) Any person who operates a pool plant;

(b) Any cooperative association with respect to milk of its member producers which is diverted from a pool plant of another handler pursuant to § 1062.13 for the account of such association;

(c) Any cooperative association with respect to producer milk transferred from the producer's farm tank to a tank truck owned and operated by or under contract to such association for delivery to a pool plant if prior to delivery the operator of the pool plant gives notice in writing to both the market administrator and the association of his intention to purchase such milk on a basis of weights and butterfat tests other than as determined from farm tank measurements and farm tank samples;

(d) Any person who operates a partially regulated distributing plant;

(e) A producer-handler; and

(f) Any person who operates an other order plant described in § 1062.7(d).

§ 1062.10 Producer-handler.

"Producer-handler" means any person who is both a dairy farmer and the operator of a distributing plant, and who meets the qualifications specified in paragraphs (a) and (b) of this section:

(a) Receipts of fluid milk products at his plant are solely milk of his own production, fluid milk products from pool plants of other handlers, packaged fluid milk products from other order plants, and receipts of nonfluid milk products are used only to fortify fluid milk products; and

(b) The maintenance, care and management of the dairy animals and other resources necessary to produce the milk and the processing, packaging and distribution of the milk are the personal enterprise and the personal risk of such person.

§ 1062.11 [Reserved]

§ 1062.12 Producer.

(a) Except as provided in paragraph (b) of this section, "producer" means any person who produces milk in compliance with the Grade A inspection requirements of a duly constituted health authority and whose milk is:

(1) Received at a pool plant; or

(2) Diverted as producer milk pursuant to § 1062.13.

(b) "Producer" shall not include:

(1) A producer-handler as defined in any order (including this part) issued pursuant to the Act;

(2) Any person with respect to milk produced by him which is diverted to a pool plant from an other order plant if the other order designates such person as a producer under that order and such milk is allocated to Class II or Class III utilization pursuant to § 1062.44(a)(8)(iii) and the corresponding step of § 1062.44(b); and

(3) Any person with respect to milk produced by him which is reported as diverted to an other order plant if any portion of such person's milk so moved is assigned to Class I under the provisions of such other order.

§ 1062.13 Producer milk.

"Producer milk" means milk produced by producers which is received and accounted for as follows:

(a) By the operator of a pool plant (including a cooperative association) with respect to milk:

(1) Received at the pool plant from producers or from a handler described in § 1062.9(c); and

(2) Diverted by the operator of the pool plant, subject to the conditions of paragraph (c) of this section;

(b) By a cooperative association with respect to milk:

(1) Which it received from producers as a handler described in § 1062.9(b), subject to the conditions of paragraph (c) of this section; and

(2) Which it received from producers as a handler described in § 1062.9(c) and which:

V 39 I 87 MAY 3 74 XUM

(i) Is delivered to a pool plant of another handler; or

(ii) Is not so delivered and constitutes shrinkage pursuant to § 1062.41(c) or Class I shrinkage; and

(c) Milk may be diverted by the operator of a pool plant or by a cooperative association pursuant to the following conditions with respect to each producer:

(1) By the operator of a pool plant to another pool plant(s) for not more days of production of producer milk than is physically received at the pool plant from which diverted.

(2) By the operator of a pool plant or by a handler described in § 1062.9(b) to a nonpool plant that is not a producer-handler plant on any day during each of the months of March through August and for not more days of production of producer milk than is physically received at pool plants during each of the months of September through February.

(3) For pricing purposes, milk diverted pursuant to paragraph (c)(2) of this section to a plant located more than 120 miles from the city hall in St. Louis or the city hall in Springfield, Mo., whichever is nearer (by the shortest highway distance as determined by the market administrator using the most current issue of the Household Carriers Guide) or milk diverted pursuant to paragraph (c)(1) of this section, shall be deemed to be received by the diverting handler at the location of the plant to which diverted.

(4) For pricing purposes, milk diverted pursuant to paragraph (c)(2) or (3) of this section to a plant located 120 miles or less from the city hall in St. Louis or the city hall in Springfield, Mo., whichever is nearer (by the shortest highway distance as determined by the market administrator using the most current issue of the Household Carriers Guide), shall be deemed to be received at the location of the plant from which diverted.

§ 1062.14 Other source milk.

"Other source milk" means all skim milk and butterfat contained in or represented by:

(a) Receipts of fluid milk products and bulk products specified in § 1062.40(b)(1) from any source other than producers, handlers described in § 1062.9(c), or pool plants;

(b) Receipts in packaged form from other plants of products specified in § 1062.40(b)(1);

(c) Products (other than fluid milk products, products specified in § 1062.40(b)(1), and products produced at the plant during the same month) from any source which are reprocessed, converted into, or combined with another product in the plant during the month; and

(d) Receipts of any milk product (other than a fluid milk product or a product specified in § 1062.40(b)(1)) for which the handler fails to establish a disposition.

§ 1062.15 Fluid milk product.

(a) Except as provided in paragraph (b) of this section, "fluid milk product" means any of the following products in fluid or frozen form:

(1) Milk, skim milk, lowfat milk, milk drinks, buttermilk, filled milk, and milkshake and ice milk mixes containing less than 20 percent total solids, including any such products that are flavored, cultured, modified with added nonfat milk solids, concentrated (if in a consumer-type package), or reconstituted; and

(2) Any milk product not specified in paragraph (a)(1) of this section or in § 1062.40 (b) or (c)(1) (i) through (v) if it contains by weight at least 80 percent water and 6.5 percent nonfat milk solids and less than 9 percent butterfat and 20 percent total solids.

(b) The term "fluid milk product" shall not include:

(1) Evaporated or condensed milk (plain or sweetened), evaporated or condensed skim milk (plain or sweetened), formulas, especially prepared for infant feeding or dietary use that are packaged in hermetically sealed glass or all-metal containers, any product that contains by weight less than 6.5 percent nonfat milk solids, and whey; and

(2) The quantity of skim milk in any modified product specified in paragraph (a) of this section that is in excess of the quantity of skim milk in an equal volume of an unmodified product of the same nature and butterfat content.

§ 1062.16 Fluid cream product.

"Fluid cream product" means cream (other than plastic cream or frozen cream), sour cream, or a mixture (including a cultured mixture) of cream and milk or skim milk containing 9 percent or more butterfat, with or without the addition of other ingredients.

§ 1062.17 Filled milk.

"Filled milk" means any combination of nonmilk fat (or oil) with skim milk (whether fresh, cultured, reconstituted, or modified by the addition of nonfat milk solids), with or without milkfat, so that the product (including stabilizers, emulsifiers, or flavoring) resembles milk or any other fluid milk product, and contains less than 6 percent nonmilk fat (or oil).

§ 1062.18 Cooperative association.

"Cooperative association" means any cooperative marketing association of producers which the Secretary determines:

(a) To be qualified under the provisions of the Act of Congress of February 18, 1922, as amended, known as the "Capper-Volstead Act"; and

(b) To be engaged in making collective sales, or marketing milk or its products for its members.

Handler Reports

§ 1062.30 Reports of receipts and utilization.

On or before the 7th day after the end of each month, each handler shall report for such month to the market administrator, in the detail and on the forms prescribed by the market administrator, as follows:

(a) Each handler, with respect to each of his pool plants, shall report the quantities of skim milk and butterfat contained in or represented by:

(1) Receipts of producer milk, including producer milk diverted by the handler from the pool plant to other plants;

(2) Receipts of milk from handlers described in § 1062.9(c);

(3) Receipts of fluid milk products and bulk fluid cream products from other pool plants;

(4) Receipts of other source milk;

(5) Inventories at the beginning and end of the month of fluid milk products and products specified in § 1062.40 (b)(1); and

(6) The utilization or disposition of all milk, filled milk, and milk products required to be reported pursuant to this paragraph.

(b) Each handler operating a partially regulated distributing plant shall report with respect to such plant in the same manner as prescribed for reports required by paragraph (a) of this section. Receipts of milk that would have been producer milk if the plant had been fully regulated shall be reported in lieu of producer milk. Such report shall show also the quantity of any reconstituted skim milk in route disposition in the marketing area.

(c) Each handler described in § 1062.9 (b) and (c) shall report:

(1) The quantities of all skim milk and butterfat contained in receipts of milk from producers; and

(2) The utilization or disposition of all such receipts.

(d) Each handler not specified in paragraphs (a) through (c) of this section shall report with respect to his receipts and utilization of milk, filled milk, and milk products in such manner as the market administrator may prescribe.

§ 1062.31 Payroll reports.

(a) On or before the 20th day after the end of each month, each handler described in § 1062.9 (a), (b), and (c) shall report to the market administrator his producer payroll for such month, in the detail prescribed by the market administrator, showing for each producer:

(1) His name and address;

(2) The total pounds of milk received from such producer;

(3) The average butterfat content of such milk; and

(4) The price per hundredweight, the gross amount due, the amount and nature of any deductions, and the net amount paid.

(b) Each handler operating a partially regulated distributing plant who elects to make payment pursuant to § 1062.76 (b) shall report for each dairy farmer who would have been a producer if the plant had been fully regulated in the same manner as prescribed for reports required by paragraph (a) of this section.

§ 1062.32 Other reports.

In addition to the reports required pursuant to §§ 1062.30 and 1062.31, each handler shall report such other information as the market administrator deems necessary to verify or establish such handler's obligation under the order.

Classification of Milk

§ 1062.40 Classes of utilization.

Except as provided in § 1062.42, all skim milk and butterfat required to be

reported by a handler pursuant to § 1062.30 shall be classified as follows:

(a) *Class I milk.* Class I milk shall be all skim milk and butterfat:

(1) Disposed of in the form of a fluid milk product, except as provided in paragraphs (b) and (c) of this section; and

(2) Not specifically accounted for as Class II or Class III milk.

(b) *Class II milk.* Class II milk shall be all skim milk and butterfat:

(1) Disposed of in the form of a fluid cream product, eggnog, yogurt, and any product containing 6 percent or more nonmilk fat (or oil) that resembles a fluid cream product, eggnog, or yogurt, except as otherwise provided in paragraph (c) of this section;

(2) In packaged inventory at the end of the month of the products specified in paragraph (b)(1) of this section;

(3) In bulk fluid milk products and bulk fluid cream products disposed of to any commercial food processing establishment (other than a milk or filled milk plant) at which food products (other than milk products and filled milk) are processed and from which there is no disposition of fluid milk products or fluid cream products other than those received in consumer-type packages; and

(4) Used to produce:

(i) Cottage cheese, lowfat cottage cheese, and dry curd cottage cheese;

(ii) Milkshake and ice milk mixes (or bases) containing 20 percent or more total solids, frozen desserts, and frozen dessert mixes;

(iii) Any concentrated milk product in bulk, fluid form other than that specified in paragraph (c)(1)(iv) of this section;

(iv) Plastic cream, frozen cream, and anhydrous milkfat;

(v) Custards, puddings, and pancake mixes; and

(vi) Formulas especially prepared for infant feeding or dietary use that are packaged in hermetically sealed glass or all-metal containers.

(c) *Class III milk.* Class III milk shall be all skim milk and butterfat:

(1) Used to produce:

(i) Cheese (other than cottage cheese, lowfat cottage cheese, and dry curd cottage cheese);

(ii) Butter;

(iii) Any milk product in dry form;

(iv) Any concentrated milk product in bulk, fluid form that is used to produce a Class III product;

(v) Evaporated or condensed milk (plain or sweetened) in a consumer-type package and evaporated or condensed skim milk (plain or sweetened) in a consumer-type package; and

(vi) Any product not otherwise specified in this section;

(2) In inventory at the end of the month of fluid milk products in bulk or packaged form and products specified in paragraph (b)(1) of this section in bulk form;

(3) In fluid milk products and products specified in paragraph (b)(1) of this section that are disposed of by a handler for animal feed;

(4) In fluid milk products and products specified in paragraph (b)(1) of this section that are dumped by a handler if the market administrator is notified of such dumping in advance and is given the opportunity to verify such disposition;

(5) In skim milk in any modified fluid milk product that is in excess of the quantity of skim milk in such product that was included within the fluid milk product definition pursuant to § 1062.15; and

(6) In shrinkage assigned pursuant to § 1062.41(a) to the receipts specified in § 1062.41(a)(2) and in shrinkage specified in § 1062.41 (b) and (c).

§ 1062.41 Shrinkage.

For purposes of classifying all skim milk and butterfat to be reported by a handler pursuant to § 1062.30, the market administrator shall determine the following:

(a) The pro rata assignment of shrinkage of skim milk and butterfat, respectively, at each pool plant to the respective quantities of skim milk and butterfat:

(1) In the receipts specified in paragraph (b)(1) through (6) of this section on which shrinkage is allowed pursuant to such paragraph; and

(2) In other source milk not specified in paragraph (b)(1) through (6) of this section which was received in the form of a fluid milk product or a bulk fluid cream product;

(b) The shrinkage of skim milk and butterfat, respectively, assigned pursuant to paragraph (a) of this section to the receipts specified in paragraph (a)(1) of this section that is not in excess of:

(1) Two percent of the skim milk and butterfat, respectively, in producer milk (excluding milk diverted by the plant operator to another plant and milk received from a handler described in § 1062.9(c));

(2) Plus 1.5 percent of the skim milk and butterfat, respectively, in milk received from a handler described in § 1062.9(c) and in milk diverted to such plant from another pool plant, except that, in either case, if the operator of the plant to which the milk is delivered purchases such milk on the basis of weights determined from its measurement at the farm and butterfat tests determined from farm bulk tank samples, the applicable percentage under this subparagraph shall be 2 percent;

(3) Plus 0.5 percent of the skim milk and butterfat, respectively, in producer milk diverted from such plant by the plant operator to another plant, except that if the operator of the plant to which the milk is delivered purchases such milk on the basis of weights determined from its measurement at the farm and butterfat tests determined from farm bulk tank samples, the applicable percentage under this subparagraph shall be zero;

(4) Plus 1.5 percent of the skim milk and butterfat, respectively, in bulk fluid milk products received by transfer from other pool plants;

(5) Plus 1.5 percent of the skim milk and butterfat, respectively, in bulk fluid milk products received by transfer from other order plants, excluding the quantity for which Class II or Class III classification is requested by the operators of both plants;

(6) Plus 1.5 percent of the skim milk and butterfat, respectively, in bulk fluid milk products received from unregulated supply plants, excluding the quantity for which Class II or Class III classification is requested by the handler; and

(7) Less 1.5 percent of the skim milk and butterfat, respectively, in bulk fluid milk products transferred to other plants that is not in excess of the respective amounts of skim milk and butterfat to which percentages are applied in paragraph (b)(1), (2), (4), (5), and (6) of this section; and

(c) The quantity of skim milk and butterfat, respectively, in shrinkage of milk from producers for which a cooperative association is the handler pursuant to § 1062.9 (b) or (c), but not in excess of 0.5 percent of the skim milk and butterfat, respectively, in such milk. If the operator of the plant to which the milk is delivered purchases such milk on the basis of weights determined from its measurement at the farm and butterfat tests determined from farm bulk tank samples, the applicable percentage under this paragraph for the cooperative association shall be zero.

§ 1062.42 Classification of transfers and diversions.

(a) *Transfers and diversions to pool plants.* Skim milk or butterfat transferred or diverted in the form of a fluid milk product or a bulk fluid cream product from a pool plant to another pool plant shall be classified as Class I milk unless the operators of both plants request the same classification in another class. In either case, the classification of such transfers or diversions shall be subject to the following conditions:

(1) The skim milk or butterfat classified in each class shall be limited to the amount of skim milk and butterfat, respectively, remaining in such class at the transferee-plant or divertee-plant after the computations pursuant to § 1062.44(a)(12) and the corresponding step of § 1062.44(b);

(2) If the transferor-plant or divertor-plant received during the month other source milk to be allocated pursuant to § 1062.44(a)(7) or the corresponding step of § 1062.44(b), the skim milk or butterfat so transferred or diverted shall be classified so as to allocate the least possible Class I utilization to such other source milk; and

(3) If the transferor-handler or divertor-handler received during the month other source milk to be allocated pursuant to § 1062.44(a)(11) or (12) or the corresponding steps of § 1062.44(b), the skim milk or butterfat so transferred or diverted, up to the total of the skim milk and butterfat, respectively, in such receipts of other source milk, shall not be classified as Class I milk to a greater extent than would be the case if the other source milk had been received at the transferee-plant or divertee-plant.

(b) *Transfers and diversions to other order plants.* Skim milk or butterfat transferred or diverted in the form of a fluid milk product or a bulk fluid cream

V 39 I 87 MAY 3 74 XUM

product from a pool plant to an other order plant shall be classified in the following manner. Such classification shall apply only to the skim milk or butterfat that is in excess of any receipts at the pool plant from the other order plant of skim milk and butterfat, respectively, in fluid milk products and bulk fluid cream products, respectively, that are in the same category as described in paragraph (b) (1), (2), or (3) of this section:

(1) If transferred as packaged fluid milk products, classification shall be in the classes to which allocated as a fluid milk product under the other order;

(2) If transferred in bulk form, classification shall be in the classes to which allocated under the other order (including allocation under the conditions set forth in paragraph (b)(3) of this section);

(3) If the operators of both plants so request in their reports of receipts and utilization filed with their respective market administrators, transfers or diversions in bulk form shall be classified as Class II or Class III milk to the extent of such utilization available for such classification pursuant to the allocation provisions of the other order;

(4) If information concerning the classes to which such transfers or diversions were allocated under the other order is not available to the market administrator for the purpose of establishing classification under this paragraph, classification shall be as Class I, subject to adjustment when such information is available;

(5) For purposes of this paragraph, if the other order provides for a different number of classes of utilization than is provided for under this part, skim milk or butterfat allocated to a class consisting primarily of fluid milk products shall be classified as Class I milk, and skim milk or butterfat allocated to the other classes shall be classified as Class III milk; and

(6) If the form in which any fluid milk product that is transferred to an other order plant is not defined as a fluid milk product under such other order, classification under this paragraph shall be in accordance with the provisions of § 1062.40.

(c) *Transfers to producer-handlers and transfers and diversions to governmental agency plants.* Skim milk or butterfat in the following forms that is transferred from a pool plant to a producer-handler under this or any other Federal order or transferred or diverted from a pool plant to a governmental agency plant shall be classified:

(1) As Class I milk, if so moved in the form of a fluid milk product; and

(2) In accordance with the utilization assigned to it by the market administrator, if transferred in the form of a bulk fluid cream product. For this purpose, the transferee's utilization of skim milk and butterfat in each class, in series beginning with Class III, shall be assigned to the extent possible to its receipts of skim milk and butterfat, respectively, in bulk fluid cream products, pro rata to each source.

(d) *Transfers and diversions to other nonpool plants.* Skim milk or butterfat transferred or diverted in the following forms from a pool plant to a nonpool plant that is not an other order plant, a producer-handler plant, or a governmental agency plant shall be classified:

(1) As Class I milk, if transferred in the form of a packaged fluid milk product; and

(2) As Class I milk, if transferred or diverted in the form of a bulk fluid milk product or a bulk fluid cream product, unless the following conditions apply:

(i) If the conditions described in paragraph (d)(2)(i) (*a*) and (*b*) of this section are met, transfers or diversions in bulk form shall be classified on the basis of the assignment of the nonpool plant's utilization to its receipts as set forth in paragraph (d)(2) (ii) through (viii) of this section:

(*a*) The transferor-handler or divertor-handler claims such classification in his report of receipts and utilization filed pursuant to § 1062.30 for the month within which such transaction occurred; and

(*b*) The nonpool plant operator maintains books and records showing the utilization of all skim milk and butterfat received at such plant which are made available for verification purposes if requested by the market administrator;

(ii) Route disposition in the marketing area of each Federal milk order from the nonpool plant and transfers of packaged fluid milk products from such nonpool plant to plants fully regulated thereunder shall be assigned to the extent possible in the following sequence:

(*a*) Pro rata to receipts of packaged fluid milk products at such nonpool plant from pool plants;

(*b*) Pro rata to any remaining unassigned receipts of packaged fluid milk products at such nonpool plant from other order plants;

(*c*) Pro rata to receipts of bulk fluid milk products at such nonpool plant from pool plants; and

(*d*) Pro rata to any remaining unassigned receipts of bulk fluid milk products at such nonpool plant from other order plants;

(iii) Any remaining Class I disposition of packaged fluid milk products from the nonpool plant shall be assigned to the extent possible pro rata to any remaining unassigned receipts of packaged fluid milk products at such nonpool plant from pool plants and other order plants;

(iv) Transfers of bulk fluid milk products from the nonpool plant to a plant fully regulated under any Federal milk order, to the extent that such transfers to the regulated plant exceed receipts of fluid milk products from such plant and are allocated to Class I at the transferee-plant, shall be assigned to the extent possible in the following sequence:

(*a*) Pro rata to receipts of fluid milk products at such nonpool plant from pool plants; and

(*b*) Pro rata to any remaining unassigned receipts of fluid milk products at such nonpool plant from other order plants;

(v) Any remaining unassigned Class I disposition from the nonpool plant shall be assigned to the extent possible in the following sequence:

(*a*) To such nonpool plant's receipts from dairy farmers who the market administrator determines constitute regular sources of Grade A milk for such nonpool plant; and

(*b*) To such nonpool plant's receipts of Grade A milk from plants not fully regulated under any Federal milk order which the market administrator determines constitute regular sources of Grade A milk for such nonpool plant;

(vi) Any remaining unassigned receipts of bulk fluid milk products at the nonpool plant from pool plants and other order plants shall be assigned, pro rata among such plants, to the extent possible first to any remaining Class I utilization, then to Class III utilization, and then to Class II utilization at such nonpool plant;

(vii) Receipts of bulk fluid cream products at the nonpool plant from pool plants and other order plants shall be assigned, pro rata among such plants, to the extent possible first to any remaining Class III utilization, then to any remaining Class II utilization, and then to Class I utilization at such nonpool plant; and

(viii) In determining the nonpool plant's utilization for purposes of this subparagraph, any fluid milk products and bulk fluid cream products transferred from such nonpool plant to a plant not fully regulated under any Federal milk order shall be classified on the basis of the second plant's utilization using the same assignment priorities at the second plant that are set forth in this subparagraph.

§ 1062.43 General classification rules.

In determining the classification of producer milk pursuant to § 1062.44, the following rules shall apply:

(a) Each month the market administrator shall correct for mathematical and other obvious errors all reports filed pursuant to § 1062.30 and shall compute separately for each pool plant and for each cooperative association with respect to milk for which it is the handler pursuant to § 1062.9 (b) or (c) the pounds of skim milk and butterfat, respectively, in each class in accordance with §§ 1062.40, 1062.41, and 1062.42;

(b) If any of the water contained in the milk from which a product is made is removed before the product is utilized or disposed of by a handler, the pounds of skim milk in such product that are to be considered under this part as used or disposed of by the handler shall be an amount equivalent to the nonfat milk solids contained in such product plus all of the water originally associated with such solids; and

(c) The classification of producer milk for which a cooperative association is the handler pursuant to § 1062.9 (b) or (c) shall be determined separately from the operations of any pool plant operated by such cooperative association.

§ 1062.44 Classification of producer milk.

For each month the market administrator shall determine the classification of producer milk of each handler described in § 1062.9(a) for each of his pool plants separately and of each handler described in § 1062.9 (b) and (c) by allocating the handler's receipts of skim milk and butterfat to his utilization as follows:

(a) Skim milk shall be allocated in the following manner:

(1) Subtract from the total pounds of skim milk in Class III the pounds of skim milk in shrinkage specified in § 1062.41(b);

(2) Subtract from the total pounds of skim milk in Class I the pounds of skim milk in receipts of packaged fluid milk products from an unregulated supply plant to the extent that an equivalent amount of skim milk disposed of to such plant by handlers fully regulated under any Federal milk order is classified and priced as Class I milk and is not used as an offset for any other payment obligation under any order;

(3) Subtract from the pounds of skim milk remaining in each class the pounds of skim milk in fluid milk products received in packaged form from an other order plant, except that to be subtracted pursuant to paragraph (a)(7)(vi) of this section, as follows:

(i) From Class III milk, the lesser of the pounds remaining or 2 percent of such receipts; and

(ii) From Class I milk, the remainder of such receipts;

(4) Subtract from the pounds of skim milk in Class II the pounds of skim milk in products specified in § 1062.40(b)(1) that were received in packaged form from other plants, but not in excess of the pounds of skim milk remaining in Class II;

(5) Subtract from the remaining pounds of skim milk in Class II the pounds of skim milk in products specified in § 1062.40(b)(1) that were in inventory at the beginning of the month in packaged form, but not in excess of the pounds of skim milk remaining in Class II. This subparagraph shall apply only if the pool plant was subject to the provisions of this subparagraph or comparable provisions of another Federal milk order in the immediately preceding month;

(6) Subtract from the remaining pounds of skim milk in Class II the pounds of skim milk in other source milk (except that received in the form of a fluid milk product or a fluid cream product) that is used to produce, or added to, any product specified in § 1062.40(b), but not in excess of the pounds of skim milk remaining in Class II;

(7) Subtract in the order specified below from the pounds of skim milk remaining in each class, in series beginning with Class III, the pounds of skim milk in each of the following:

(i) Other source milk (except that received in the form of a fluid milk product) and, if paragraph (a)(5) of this section applies, packaged inventory at the beginning of the month of products specified in § 1062.40(b)(1) that was not subtracted pursuant to paragraph (a)(4), (5), and (6) of this section;

(ii) Receipts of fluid milk products (except filled milk) for which Grade A certification is not established;

(iii) Receipts of fluid milk products from unidentified sources;

(iv) Receipts of fluid milk products from a producer-handler as defined under this or any other Federal milk order and from a governmental agency plant;

(v) Receipts of reconstituted skim milk in filled milk from an unregulated supply plant that were not subtracted pursuant to paragraph (a)(2) of this section; and

(vi) Receipts of reconstituted skim milk in filled milk from an other order plant that is regulated under any Federal milk order providing for individual-handler pooling, to the extent that reconstituted skim milk is allocated to Class I at the transferor-plant;

(8) Subtract in the order specified below from the pounds of skim milk remaining in Class II and Class III, in sequence beginning with Class III:

(i) The pounds of skim milk in receipts of fluid milk products from an unregulated supply plant that were not subtracted pursuant to paragraph (a)(2) and (7)(v) of this section for which the handler requests a classification other than Class I, but not in excess of the pounds of skim milk remaining in Class II and Class III combined;

(ii) The pounds of skim milk in receipts of fluid milk products from an unregulated supply plant that were not subtracted pursuant to paragraph (a)(2), (7)(v), and (8)(i) of this section which are in excess of the pounds of skim milk determined pursuant to paragraph (a)(8)(ii) (*a*) through (*c*) of this section. Should the pounds of skim milk to be subtracted from Class II and Class III combined exceed the pounds of skim milk remaining in such classes, the pounds of skim milk in Class II and Class III combined shall be increased (increasing as necessary Class III and then Class II to the extent of available utilization in such classes at the nearest other pool plant of the handler, and then at each successively more distant pool plant of the handler) by an amount equal to such excess quantity to be subtracted, and the pounds of skim milk in Class I shall be decreased by a like amount. In such case, the pounds of skim milk remaining in each class at this allocation step at the handler's other pool plants shall be adjusted in the reverse direction by a like amount:

(*a*) Multiply by 1.25 the sum of the pounds of skim milk remaining in Class I at this allocation step at all pool plants of the handler (excluding any duplication of Class I utilization resulting from reported Class I transfers between pool plants of the handler);

(*b*) Subtract from the above result the sum of the pounds of skim milk in receipts at all pool plants of the handler of producer milk, fluid milk products from pool plants of other handlers, and bulk fluid milk products from other order plants that were not subtracted pursuant to paragraph (a)(7)(vi) of this section; and

(*c*) Multiply any plus quantity resulting above by the percentage that the receipts of skim milk in fluid milk products from unregulated supply plants that remain at this pool plant is of all such receipts remaining at this allocation step at all pool plants of the handler; and

(iii) The pounds of skim milk in receipts of bulk fluid milk products from an other order plant that are in excess of bulk fluid milk products transferred or diverted to such plant and that were not subtracted pursuant to paragraph (a)(7)(vi) of this section, if Class II or Class III classification is requested by the operator of the other order plant and the handler, but not in excess of the pounds of skim milk remaining in Class II and Class III combined;

(9) Subtract from the pounds of skim milk remaining in each class, in series beginning with Class III, the pounds of skim milk in fluid milk products and products specified in § 1062.40(b)(1) in inventory at the beginning of the month that were not subtracted pursuant to paragraph (a)(5) and (7)(i) of this section;

(10) Add to the remaining pounds of skim milk in Class III the pounds of skim milk subtracted pursuant to paragraph (a)(1) of this section;

(11) Subject to the provisions of paragraph (a)(11) (i) and (ii) of this section, subtract from the pounds of skim milk remaining in each class at the plant, pro rata to the total pounds of skim milk remaining in Class I and in Class II and Class III combined at this allocation step at all pool plants of the handler (excluding any duplication of utilization in each class resulting from transfers between pool plants of the handler), with the quantity prorated to Class II and Class III combined being subtracted first from Class III and then from Class II, the pounds of skim milk in receipts of fluid milk products from an unregulated supply plant that were not subtracted pursuant to paragraph (a)(2), (7)(v), and (8) (i) and (ii) of this section and that were not offset by transfers or diversions of fluid milk products to the same unregulated supply plant from which fluid milk products to be allocated at this step were received:

(i) Should the pounds of skim milk to be subtracted from Class II and Class III combined pursuant to this subparagraph exceed the pounds of skim milk remaining in such classes, the pounds of skim milk in Class II and Class III combined shall be increased (increasing as necessary Class III and then Class II to the extent of available utilization in such classes at the nearest other pool plant of the handler, and then at each successively more distant pool plant of the handler) by an amount equal to such excess quantity to be subtracted, and the pounds of skim milk in Class I shall be decreased by a like amount. In such case, the pounds of skim milk remaining in each class at this allocation step at the handler's other pool plants shall be adjusted in the reverse direction by a like amount; and

(ii) Should the pounds of skim milk to be subtracted from Class I pursuant to this subparagraph exceed the pounds of skim milk remaining in such class, the pounds of skim milk in Class I shall be increased by an amount equal to such excess quantity to be subtracted, and the pounds of skim milk in Class II and Class III combined shall be decreased by a like amount (decreasing as necessary Class III and then Class II). In such case, the pounds of skim milk remaining in each class at this allocation step at the handler's other pool plants shall be ad-

V 39 I 87 MAY 3 74 XUM

justed in the reverse direction by a like amount, beginning with the nearest plant at which Class I utilization is available;

(12) Subtract in the manner specified below from the pounds of skim milk remaining in each class the pounds of skim milk in receipts of bulk fluid milk products from an other order plant that are in excess of bulk fluid milk products transferred or diverted to such plant and that were not subtracted pursuant to paragraph (a)(7)(vi) and (8)(iii) of this section:

(i) Subject to the provisions of paragraph (a)(12)(ii), (iii), and (iv) of this section, such subtraction shall be pro rata to the pounds of skim milk in Class I and in Class II and Class III combined, with the quantity prorated to Class II and Class III combined being subtracted first from Class III and then from Class II, with respect to whichever of the following quantities represents the lower proportion of Class I milk:

(*a*) The estimated utilization of skim milk of all handlers in each class as announced for the month pursuant to § 1062.45(a); or

(*b*) The total pounds of skim milk remaining in each class at this allocation step at all pool plants of the handler (excluding any duplication of utilization in each class resulting from transfers between pool plants of the handler);

(ii) Should the proration pursuant to paragraph (a)(12)(i) of this section result in the total pounds of skim milk at all pool plants of the handler that are to be subtracted at this allocation step from Class II and Class III combined exceeding the pounds of skim milk remaining in Class II and Class III at all such plants, the pounds of such excess shall be subtracted from the pounds of skim milk remaining in Class I after such proration at the pool plants at which such other source milk was received;

(iii) Except as provided in paragraph (a)(12)(ii) of this section, should the computations pursuant to paragraph (a)(12)(i) or (ii) of this section result in a quantity of skim milk to be subtracted from Class II and Class III combined that exceeds the pounds of skim milk remaining in such classes, the pounds of skim milk in Class II and Class III combined shall be increased (increasing as necessary Class III and then Class II to the extent of available utilization in such classes at the nearest other pool plant of the handler, and then at each successively more distant pool plant of the handler) by an amount equal to such excess quantity to be subtracted, and the pounds of skim milk in Class I shall be decreased by a like amount. In such case, the pounds of skim milk remaining in each class at this allocation step at the handler's other pool plants shall be adjusted in the reverse direction by a like amount;

(iv) Except as provided in paragraph (a)(12)(ii) of this section, should the computations pursuant to paragraph (a)(12)(i) or (ii) of this section result in a quantity of skim milk to be subtracted from Class I that exceeds the pounds of skim milk remaining in such class, the pounds of skim milk in Class I shall be increased by an amount equal to such excess quantity to be subtracted, and the pounds of skim milk in Class II and Class III combined shall be decreased by a like amount (decreasing as necessary Class III and then Class II). In such case, the pounds of skim milk remaining in each class at this allocation step at the handler's other pool plants shall be adjusted in the reverse direction by a like amount beginning with the nearest plant at which Class I utilization is available; and

(v) The quantity of skim milk subtracted from each class pursuant to this subparagraph shall be assigned pro rata to the receipts from other order plants under market pool orders and under handler pool orders;

(13) Subtract from the pounds of skim milk remaining in each class the pounds of skim milk in receipts of fluid milk products and bulk fluid cream products from another pool plant according to the classification of such products pursuant to § 1062.42(a); and

(14) If the total pounds of skim milk remaining in all classes exceed the pounds of skim milk in producer milk, subtract such excess from the pounds of skim milk remaining in each class in series beginning with Class III. Any amount so subtracted shall be known as "overage";

(b) Butterfat shall be allocated in accordance with the procedure outlined for skim milk in paragraph (a) of this section; and

(c) The quantity of producer milk in each class shall be the combined pounds of skim milk and butterfat remaining in each class after the computations pursuant to paragraph (a)(14) of this section and the corresponding step of paragraph (b) of this section.

§ 1062.45 Market administrator's reports and announcements concerning classification.

The market administrator shall make the following reports and announcements concerning classification:

(a) Whenever required for the purpose of allocating receipts from other order plants pursuant to § 1062.44(a)(12) and the corresponding step of § 1062.44(b), estimate and publicly announce the utilization (to the nearest whole percentage) in each class during the month of skim milk and butterfat, respectively, in producer milk of all handlers. Such estimate shall be based upon the most current available data and shall be final for such purpose.

(b) Report to the market administrator of the other order, as soon as possible after the report of receipts and utilization for the month is received from a handler who has received fluid milk products or bulk fluid cream products from an other order plant, the class to which such receipts are allocated pursuant to § 1062.44 on the basis of such report, and, thereafter, any change in such allocation required to correct errors disclosed in the verification of such report. In the case of milk received from an other order market pool plant the classification of such milk shall be the quantities assigned to Class I milk, Class II milk, and Class III milk pursuant to § 1062.44. In the case of milk received from an other order handler pool plant, the market administrator shall report the allocation of skim milk and butterfat in the same percentage as the market-wide estimate for all handlers pursuant to paragraph (a) of this section.

(c) Furnish to each handler operating a pool plant who has shipped fluid milk products or bulk fluid cream products to an other order plant the class to which such shipments were allocated by the market administrator of the other order on the basis of the report by the receiving handler, and, as necessary, any changes in such allocation arising from the verification of such report.

(d) On or before the 10th day of each month report to each cooperative association, which so requests, the percentage utilization of milk received from producers or from handlers described in § 1062.9(c) in each class by each handler who in the previous month received milk from members of such cooperative association.

Class Prices

§ 1062.50 Class prices.

Subject to the provisions of § 1062.52, the class prices for the month per hundredweight of milk containing 3.5 percent butterfat shall be as follows:

(a) *Class I price.* The Class I price shall be the basic formula price for the second preceding month plus $1.60.

(b) *Class II price.* The Class II price shall be the basic formula price for the month plus 10 cents.

(c) *Class III price.* The Class III price shall be the basic formula price for the month.

§ 1062.51 Basic formula price.

The "basic formula price" shall be the average price per hundredweight for manufacturing grade milk, f.o.b. plants in Minnesota and Wisconsin, as reported by the Department for the month, adjusted to a 3.5 percent butterfat basis and rounded to the nearest cent. For such adjustment, the butterfat differential (rounded to the nearest one-tenth cent) per one-tenth percent butterfat shall be 0.12 times the simple average of the wholesale selling prices (using the midpoint of any price range as one price) of Grade A (92-score) bulk butter per pound at Chicago, as reported by the Department for the month. For the purpose of computing the Class I price, the resulting price shall be not less than $4.33.

§ 1062.52 Plant location adjustments for handlers.

For milk received from producers or a handler described in § 1062.9(c) at a pool plant and which is classified as Class I milk or assigned Class I location adjustment credit pursuant to paragraph (*f*) of this section, the price at such pool plant located:

(a) In Zone I of the marketing area, shall be the price computed pursuant to § 1062.50(a) except as provided in paragraph (d) of this section.

(b) In Zone II of the marketing area, shall be the Zone I price plus a location adjustment of 7 cents.

(c) In Zone III of the marketing area, shall be the Zone I price plus a location adjustment of 17 cents.

(d) In Zone A (the Missouri counties of Barry, Christian, Douglas, Green, Howell, Laclede, Lawrence, Ozark, Stone, Taney, Webster, Wright, and Texas), for any plant which does not dispose of fluid milk products in consumer-type packages and which is qualified as a pool plant pursuant to § 1062.7 (b) or (c) shall be the price pursuant to § 1062.50(a) less 27 cents.

(e) Outside the marketing area and Texas County, Mo., and more than 30 miles from the City Hall, St. Louis, Mo., or the city hall in Springfield, Mo., whichever is nearer, shall be the Class I price applicable in Zone I, less a location adjustment of 1.5 cents for each 10 miles or fraction thereof that such plant is located from the City Hall, St. Louis, Mo., or the city hall in Springfield, Mo., whichever is nearer (the distance to be by shortest hard-surfaced highway as determined by the market administrator).

(f) In the case of transfers between plants, location adjustment shall apply at the transferor-plant with respect to a quantity of the transfer calculated as follows: From total Class I milk utilization at the transferee-plant subtract Class I milk assigned to receipts from other order plants and unregulated supply plants, and 95 percent of the receipts from producers and handlers described in § 1062.9(c), and assign the remaining Class I milk to receipts from other pool plants with plus location adjustment, then to receipts from plants with no location adjustment, and then in sequence to receipts from plants at which the smallest minus adjustments apply.

(g) The Class I price applicable to other source milk shall be adjusted at the rates set forth in paragraphs (a) through (e) of this section, except that the adjusted Class I price shall not be less than the Class III price.

§ 1062.53 Announcement of class prices.

The market administrator shall announce publicly on or before the fifth day of each month the Class I price for the following month and the Class II and Class III prices for the preceding month.

§ 1062.54 Equivalent price.

If for any reason a price quotation required by this order for computing class prices or for other purposes is not available in the manner described, the market administrator shall use a price determined by the Secretary to be equivalent to the price which is required.

Uniform Price

§ 1062.60 Handler's value of milk for computing uniform price.

For the purpose of computing the uniform price, the market administrator shall determine for each month the value of milk of each handler with respect to each of his pool plants and of each handler described in § 1062.9(b) and (c) as follows:

(a) Multiply the pounds of producer milk in each class as determined pursuant to § 1062.44 by the applicable class prices and add the resulting amounts;

(b) Add the amounts obtained from multiplying the pounds of overage subtracted from each class pursuant to § 1062.44(a)(14) and the corresponding step of § 1062.44(b) by the respective class prices, as adjusted by the butterfat differential specified in § 1062.74, that are applicable at the location of the pool plant;

(c) Add the amount obtained from multiplying the difference between the Class III price for the preceding month and the Class I price applicable at the location of the pool plant or the Class II price, as the case may be, for the current month by the hundredweight of skim milk and butterfat subtracted from Class I and Class II pursuant to § 1062.44(a)(9) and the corresponding step of § 1062.44(b);

(d) Add the amount obtained from multiplying the difference between the Class I price applicable at the location of the pool plant and the Class III price by the hundredweight of skim milk and butterfat subtracted from Class I pursuant to § 1062.44(a)(7)(i) through (iv) and the corresponding step of § 1062.44(b), excluding receipts of bulk fluid cream products from an other order plant;

(e) Add the amount obtained from multiplying the difference between the Class I price applicable at the location of the transferor-plant and the Class III price by the hundredweight of skim milk and butterfat subtracted from Class I pursuant to § 1062.44(a)(7)(v) and (vi) and the corresponding step of § 1062.44(b);

(f) Add the amount obtained from multiplying the Class I price applicable at the location of the nearest unregulated supply plants from which an equivalent volume was received by the pounds of skim milk and butterfat subtracted from Class I pursuant to § 1062.44(a)(11) and the corresponding step of § 1062.44(b), excluding such skim milk and butterfat in receipts of bulk fluid milk products from an unregulated supply plant to the extent that an equivalent amount of skim milk or butterfat disposed of to such plant by handlers fully regulated under any Federal milk order is classified and priced as Class I milk and is not used as an offset for any other payment obligation under any order; and

(g) Add the amounts obtained from multiplying the pounds of skim milk and butterfat in each class that were prorated to receipts of fluid milk products from handler pool other order plants pursuant to § 1062.44(a)(12)(v) and the corresponding step of § 1062.44(b) by the respective class prices specified in § 1062.50 that are applicable at the location of the plant from which received.

§ 1062.61 Computation of uniform price (including weighted average price).

For each month the market administrator shall compute the uniform price per hundredweight of milk of 3.5 percent butterfat content received from producers as follows:

(a) Combine into one total the values computed pursuant to § 1062.60 for all handlers who filed the reports prescribed by § 1062.30 for the month and who made the payments pursuant to §§ 1062.71 and 1062.73 for the preceding month;

(b) Deduct the amount of the plus adjustments and add the amount of the minus adjustments, which are applicable pursuant to § 1062.75;

(c) Add an amount equal to not less than one-half of the unobligated balance in the producer-settlement fund;

(d) Subtract an amount computed by multiplying the total hundredweight of producer milk included pursuant to paragraph (a) of this section by 5 cents;

(e) Divide the resulting amount by the sum of the following for all handlers included in these computations:

(1) The total hundredweight of producer milk; and

(2) The total hundredweight for which a value is computed pursuant to § 1062.60 (f) and (g);

(f) Subtract not less than four cents nor more than 5 cents per hundredweight. The result shall be the "weighted average price", and, except for the months specified below, shall be the "uniform price" for milk received from producers;

(g) For the months specified in paragraphs (h) and (i) of this section, subtract from the amount resulting from the computations pursuant to paragraphs (a) through (d) of this section an amount computed by multiplying the hundredweight of milk specified in paragraph (e)(2) of this section by the weighted average price;

(h) From the remainder subtract during each of the months of March and July an amount equal to 15 cents per hundredweight and during each of the months of April, May, and June an amount equal to 25 cents per hundredweight of the total amount of producer milk included in these computations. This amount shall be retained in the producer-settlement fund and disbursed according to the provisions of paragraph (i) of this section;

(i) Add during each of the months of September and December 20 percent and during each of the months of October and November 30 percent of the total amount subtracted pursuant to paragraph (h) of this section;

(j) Divide the resulting sum by the total hundredweight of producer milk included in these computations; and

(k) Subtract not less than four cents nor more than five cents per hundredweight. The result shall be the "uniform price" for milk received from producers.

§ 1062.62 Announcement of uniform price and butterfat differential.

The market administrator shall announce publicly on or before:

(a) The fifth day after the end of each month the butterfat differential for such month; and

(b) The 10th day after the end of each month the uniform price for such month.

Payments for Milk

§ 1062.70 Producer-settlement fund.

The market administrator shall establish and maintain a separate fund known as the "producer-settlement fund" into which he shall deposit all payments made by handlers pursuant to §§ 1062.71, 1062.76, and 1062.77 subject to the provisions of § 1062.78 and from which he shall make all payments to handlers pursuant to §§ 1062.72 and 1062.77. The market administrator shall offset the payment due to a handler against payments due from such handler.

V 39 I 87
MAY 3 74
XUM

§ 1062.71 Payments to the producer-settlement fund.

(a) On or before the 12th day after the end of the month, each handler shall pay to the market administrator the amount, if any, by which the amount specified in paragraph (a) (1) of this section exceeds the amount specified in paragraph (a) (2) of this section:

(1) The total value of milk of the handler for such month as determined pursuant to § 1032.60.

(2) The sum of:

(i) The value at the uniform price, as adjusted pursuant to § 1062.75, of such handler's receipts of producer milk, excluding in the case of a handler described in § 1062.9(c) milk it delivered to a pool plant; and

(ii) The value at the weighted average price applicable at the location of the plant from which received plus 5 cents of other source milk for which a value is computed pursuant to § 1062.60 (f) and (g) plus in the case of milk received from a handler pool market the amount of the location adjustment at the location of the plant from which received applied to the quantity of Class II and Class III milk reported pursuant to § 1062.45(b) which is in excess of the Class II and Class III milk pursuant to as adjusted pursuant to §§ 1062.74 and § 1062.60(g), except that for milk received from a handler pool market the value applicable pursuant to this subdivision shall not exceed the value for such quantity calculated pursuant to § 1062.60(g).

(b) On or before the 25th day after the end of the month each person who operated an other order plant that was regulated during such month under an order providing for individual-handler pooling shall pay to the market administrator an amount computed as follows:

(1) Determine the quantity of reconstituted skim milk in filled milk in route disposition from such plant in the marketing area which was allocated to Class I at such plant. If there is such route disposition from such plant in marketing areas regulated by two or more market-wide pool orders, the reconstituted skim milk allocated to Class I shall be prorated to each order according to such route disposition in each marketing area; and

(2) Compute the value of the reconstituted skim milk assigned in paragraph (b) (1) of this section to route disposition in this marketing area by multiplying the quantity of such skim milk by the difference between the Class I price under this part that is applicable at the location of the other order plant (but not to be less than the Class III price) and the Class III price.

§ 1062.72 Payments from the producer-settlement fund.

On or before the 13th day after the end of each month the market administrator shall pay to each handler the amount, if any, by which the amount computed pursuant to § 1062.71(a)(2) exceeds the amount computed pursuant to § 1062.71(a)(1). The market administrator shall offset any payment due any handler against payments due from such handler pursuant to §§ 1062.71, 1062.77, 1062.85, and 1062.86. If the balance in the producer-settlement fund is insufficient to make all payments pursuant to this section, the market administrator shall reduce uniformly such payments and shall complete such payments as soon as the necessary funds are available.

§ 1062.73 Payments to producers and to cooperative associations.

Each handler shall make payment as follows:

(a) On or before the 17th day after the end of the month during which the milk was received, to each producer for whom payment is not made pursuant to paragraph (c) of this section, at not less than the uniform price computed pursuant to § 1062.61 for such producer's deliveries of milk, as adjusted pursuant to §§ 1062.74 and 1062.75, and less the amount of the payment made pursuant to paragraph (b) of this section. If by such date such handler has not received full payment pursuant to § 1062.72, he may reduce his total payments uniformly to all producers by not more than the amount of the reduction in payment by the market administrator. He shall, however, complete such payments pursuant to this paragraph not later than the date for making such payments next following receipt of the balance from the market administrator:

(b) On or before the last day of each month, to each producer to whom payment is not made pursuant to paragraph (c) of this section and who is still delivering Grade A milk to such handler, a partial payment with respect to milk received from him during the first 15 days of such month computed at not less than the Class III price for the preceding month, without deduction for hauling;

(c) On or before the 14th day after the end of each month and on or before the 25th day of each month, in lieu of payments pursuant to paragraphs (a) and (b), respectively, of this section, to a cooperative association which so requests, for milk which is received from members, and for which such association is determined by the market administrator to be authorized to collect payment, an amount equal to the sum of the individual payments otherwise payable to such producers;

(d) Each handler who receives milk for which a cooperative association is the handler described in § 1062.9(c), shall, on or before the second day prior to the date payments are due individual producers, pay such cooperative association for such milk as follows:

(1) A partial payment for milk received during the first 15 days of the month at not less than the amount prescribed in paragraph (b) of this section; and

(2) In making final settlement, the value of such milk at the uniform price 1062.75, less payment made pursuant to paragraph (d) (1) of this section;

(e) On or before the 14th day after the end of each month, each handler shall pay to each cooperative association for milk the handler receives from a pool plant(s) operated by such association, not less than the minimum prices for milk in each class, as adjusted by the butterfat differential specified in § 1062.74, that are applicable at the location of the handler's pool plant; and

(f) Each handler who receives milk from producers, payment for which is to be made to a cooperative association pursuant to paragraph (c) of this section, shall report to such cooperative association with respect to each such producer, on forms approved by the market administrator, as follows:

(1) On or before the 25th of the month, the total pounds of milk received during the first 15 days of the month;

(2) On or before the seventh day after the end of the month:

(i) The total pounds of milk and the average butterfat test of milk received from such producer during the month;

(ii) The amount or rate and nature of any deductions; and

(iii) The amount of any payments due such producer pursuant to § 1062.77(c) and (d).

§ 1062.74 Butterfat differential.

For milk containing more or less than 3.5 percent butterfat, the uniform price shall be increased or decreased, respectively, for each one-tenth percent butterfat variation from 3.5 percent by a butterfat differential, rounded to the nearest one-tenth cent, which shall be 0.115 times the simple average of the wholesale selling prices (using the midpoint of any price range as one price) of Grade A (92-score) bulk butter per pound at Chicago, as reported by the Department for the month.

§ 1062.75 Plant location adjustments for producers and on nonpool milk.

(a) For producer milk received at pool plants located outside Zone I and more than 30 miles from the St. Louis city hall or the city hall in Springfield, Mo., whichever is nearer, there shall be added or deducted, as the case may be, an adjustment for each such plant for all milk at the rates specified in § 1062.52 (b), (c), and (e); and

(b) For purposes of computations pursuant to §§ 1062.71(a)(2)(ii) and 1062.72, the "weighted averaged price" shall be adjusted at the rates set forth in § 1062.52 (b), (c), and (e) applicable at the location of the nonpool plant(s) from which the milk was received, except that the adjusted weighted average price plus 5 cents shall not be less than the Class III price.

§ 1062.76 Payments by handler operating a partially regulated distributing plant.

Each handler who operates a partially regulated distributing plant shall pay on or before the 25th day after the end of the month to the market administrator for the producer-settlement fund the amount computed pursuant to paragraph (a) of this section. If the handler submits pursuant to §§ 1062.30(b) and 1062.31(b) the information necessary for making the computations, such handler

may elect to pay in lieu of such payment the amount computed pursuant to paragraph (b) of this section:

(a) The payment under this paragraph shall be the amount resulting from the following computations:

(1) Determine the pounds of route disposition in the marketing area from the partially regulated distributing plant;

(2) Subtract the pounds of fluid milk products received at the partially regulated distributing plant:

(i) As Class I milk from pool plants and other order plants, except that subtracted under a similar provision of another Federal milk order; and

(ii) From another nonpool plant that is not an other order plant to the extent that an equivalent amount of fluid milk products disposed of to such nonpool plant by handlers fully regulated under any Federal milk order is classified and priced as Class I milk and is not used as an offset for any other payment obligation under any order;

(3) Subtract the pounds of reconstituted skim milk in route disposition in the marketing area from the partially regulated distributing plant;

(4) Multiply the remaining pounds by the difference between the Class I price and the weighted average price plus 5 cents, both prices to be applicable at the location of the partially regulated distributing plant (except that the Class I price and the weighted average price plus 5 cents shall not be less than the Class III price); and

(5) Add the amount obtained from multiplying the pounds of reconstituted skim milk specified in paragraph (a) (3) of this section by the difference between the Class I price applicable at the location of the partially regulated distributing plant (but not to be less than the Class III price) and the Class III price.

(b) The payment under this paragraph shall be the amount resulting from the following computations:

(1) Determine the value that would have been computed pursuant to § 1062.60 for the partially regulated distributing plant if the plant had been a pool plant, subject to the following modifications:

(i) Fluid milk products and bulk fluid cream products received at the partially regulated distributing plant from a pool plant or an other order plant shall be allocated at the partially regulated distributing plant to the same class in which such products were classified at the fully regulated plant;

(ii) Fluid milk products and bulk fluid cream products transferred from the partially regulated distributing plant to a pool plant or an other order plant shall be classified at the partially regulated distributing plant in the class to which allocated at the fully regulated plant. Such transfers shall be allocated to the extent possible to those receipts at the partially regulated distributing plant from pool plants and other order plants that are classified in the corresponding class pursuant to paragraph (b) (1) (i) of this section. Any such transfers remaining after the above allocation which are classified in Class I and for which a value is computed for the handler operating the partially regulated distributing plant pursuant to § 1062.60 shall be priced at the uniform price (or at the weighted average price if such is provided) of the respective order regulating the handling of milk at the transferee-plant, with such uniform price adjusted to the location of the nonpool plant (but not to be less than the lowest class price of the respective order), except that transfers of reconstituted skim milk in filled milk shall be priced at the lowest class price of the respective order; and

(iii) If the operator of the partially regulated distributing plant so requests, the value of milk determined pursuant to § 1062.60 for such handler shall include, in lieu of the value of other source milk specified in § 1062.60(f) less the value of such other source milk specified in § 1062.71(a)(2)(ii), a value of milk determined pursuant to § 1062.60 for each nonpool plant that is not an other order plant which serves as a supply plant for such partially regulated distributing plant by making shipments to the partially regulated distributing plant during the month equivalent to the requirements of § 1062.7(b), subject to the following conditions:

(a) The operator of the partially regulated distributing plant submits with his reports filed pursuant to §§ 1062.30(b) and 1062.31(b) similar reports for each such nonpool supply plant;

(b) The operator of such nonpool supply plant maintains books and records showing the utilization of all skim milk and butterfat received at such plant which are made available if requested by the market administrator for verification purposes; and

(c) The value of milk determined pursuant to § 1062.60 for such nonpool supply plant shall be determined in the same manner prescribed for computing the obligation of such partially regulated distributing plant; and

(2) From the partially regulated distributing plant's value of milk computed pursuant to paragraph (b) (1) of this section, subtract:

(i) The gross payments by the operator of such partially regulated distributing plant, adjusted to a 3.5 percent butterfat basis by the butterfat differential specified in § 1062.74, for milk received at the plant during the month that would have been producer milk if the plant had been fully regulated;

(ii) If paragraph (b) (1) (iii) of this section applies, the gross payments by the operator of such nonpool supply plant, adjusted to a 3.5 percent butterfat basis by the butterfat differential specified in § 1062.74, for milk received at the plant during the month that would have been producer milk if the plant had been fully regulated; and

(iii) The payments by the operator of the partially regulated distributing plant to the producer-settlement fund of another order under which such plant is also a partially regulated distributing plant and like payments by the operator of the nonpool supply plant if paragraph (b) (1) (iii) of this section applies.

§ 1062.77 Adjustment of accounts.

(a) Whenever verification by the market administrator of reports or payments of any handler discloses error in payments to the producer-settlement fund made pursuant to § 1062.71, the market administrator shall promptly bill such handler for any unpaid amount and such handler shall within 30 days of the date of such billing, make payment to the market administrator of the amount so billed;

(b) Whenever verification discloses that payment is due from the market administrator to any handler pursuant to § 1062.72, the market administrator shall promptly make payment to such handler;

(c) Whenever verification by the market administrator of the payment by a handler to any producer discloses payment to such producer of an amount which is less than is required by this part, the handler shall make up such payment to the producer not later than the time of making payment to producers next following the disclosure; and

(d) Whenever verification by the market administrator of the payment by a handler to any producer discloses that solely through error in computation, payment to such producer was in an amount more than was required to be paid pursuant to § 1062.73, no handler shall be deemed to be in violation of § 1062.73 if he reduces his next payment to such producer following discovery of such error by not more than such overpayment.

§ 1062.78 Charges on overdue accounts.

Any unpaid obligation of a handler pursuant to §§ 1062.71, 1062.77(a), 1062.85, or 1062.86(a) shall be increased one-half of one percent on the first day of the month following after the date such obligation is due and on the first day of each succeeding month until such obligation is paid. Any remittance received by the market administrator postmarked prior to the first of the month shall be considered to have been received when postmarked.

ADMINISTRATIVE ASSESSMENT AND MARKETING SERVICE DEDUCTION

§ 1062.85 Assessment for order administration.

As his pro rata share of the expense of administration of the order, each handler shall pay to the market administrator on or before the 15th day after the end of the month 2.5 cents per hundredweight, or such lesser amount as the Secretary may prescribe, with respect to:

(a) Producer milk (including that received from a handler described in § 1062.9(c)) and the handler's own production;

(b) Other source milk allocated to Class I pursuant to § 1062.44(a) (7) and (11) and the corresponding steps of § 1062.44(b), except such other source milk that is excluded from the computations pursuant to § 1062.60 (d) and (f); and

(c) Route disposition in the marketing area from a partially regulated distrib-

V 39 I 87 MAY 3 74 XUM

uting plant that exceeds the skim milk and butterfat subtracted pursuant to § 1062.76(a)(2).

§ 1062.86 Deduction for marketing services.

(a) Except as set forth in paragraph (b) of this section, each handler shall deduct 6 cents per hundredweight, or such lesser amount as the Secretary may prescribe, from the payments made to each producer other than himself pursuant to § 1062.73(a) with respect to all milk of such producer received by such handler during the month and shall pay such deductions to the market administrator on or before the 15th day after the end of such month. Such money shall be used by the market administrator to verify weights, samples and tests of milk received from, and to provide market information to such producers. The market administrator may contract with a cooperative association or cooperative associations for the furnishing of the whole or any part of such services; and

(b) In the case of producers for whom a cooperative association is actually performing, as determined by the Secretary, the services set forth in paragraph (a) of this section, each handler shall make such deductions from the payments to be made directly to producers pursuant to § 1062.73(a) as are authorized by such producers, and on or before the 15th day after the end of each month, pay over such deductions to the association of which such producers are members. When requested by the cooperative association a statement shall be supplied the cooperative association showing for each producer for whom such deduction is made the amount of such deduction, the total delivery of milk, and, unless otherwise previously provided, the butterfat test.

ADVERTISING AND PROMOTION PROGRAM

§ 1062.110 Agency.

"Agency" means an agency organized by producers and producers' cooperative associations, in such form and with methods of operation specified in this part, which is authorized to expend funds made available pursuant to § 1062.121(b)(1), on approval by the Secretary, for the purposes of establishing or providing for establishment of research and development projects, advertising (excluding brand advertising), sales promotion, educational, and other programs, designed to improve or promote the domestic marketing and consumption of milk and its products. Members of the Agency shall serve without compensation but shall be reimbursed for reasonable expenses incurred in the performance of duties as members of the Agency.

§ 1062.111 Composition of Agency.

Subject to the conditions of paragraph (a) of this section, each cooperative association or combination of cooperative associations, as provided for under § 1062.113(b), is authorized one agency representative for each full 5 percent of the participating member producers (producers who have not requested refunds for the most recent quarter) it represents. Cooperative associations with less than 5 percent of the total participating producers that have elected not to combine pursuant to § 1062.113(b), and participating producers who are not members of cooperatives are authorized to select from such group of participating producers, in total, pursuant to § 1062.113(c), one Agency representative for each full 5 percent that such producers constitute of the total participating producers. If such group of producers in total constitutes less than 5 percent but not less than 1 percent of the total participating producers it shall nevertheless be authorized to select from such group in total one agency representative. For the purpose of the agency's initial organization, all persons defined as producers shall be considered as participating producers.

(a) If any cooperative association or combination of cooperative associations, as provided for under § 1062.113(b), has a majority of the participating producers, representation from such cooperative or group of cooperatives, as the case may be, shall be limited to the minimum number of representatives necessary to constitute a majority of the agency representatives, but not less than five.

§ 1062.112 Term of office.

The term of office of each member of the Agency shall be 1 year, or until a replacement is designated by the cooperative association or is otherwise appropriately elected.

§ 1062.113 Selection of Agency members.

The selection of Agency members shall be made pursuant to paragraphs (a), (b), and (c) of this section. Each person selected shall qualify by filing with the market administratior a written acceptance promptly after being notified of such selection.

(a) Each cooperative association authorized one or more representatives to the Agency shall notify the market administrator of the name and address of each representative who shall serve at the pleasure of the cooperative.

(b) For purposes of this program, cooperative associations may elect to combine their participating memberships and, if the combined total of participating producers of such cooperatives is 5 percent or more of the total participating producers, such cooperatives shall be eligible to select a representative(s) to the Agency under the rules of § 1062.111 and paragraph (a) of this section.

(c) Selection of Agency members to represent participating nonmember producers and participating producer members of a cooperative association(s) having less than the required 5 percent of the producers participating in the advertising and promotion program and who have not elected to combine memberships as provided in paragraph (b) of this section, shall be supervised by the market administrator in the following manner:

(1) Promptly after the effective date of this amending order, and annually thereafter, the market administrator shall give notice to participating producer members of such cooperatives and participating nonmember producers of their opportunity to nominate one or more producers as Agency representatives, as the case may be, and also shall specify the number of representatives to be selected.

(2) Following the closing date for nominations, the market administrator shall announce the nominees who are eligible for Agency membership and shall conduct a referendum among the individual participating producers eligible to vote. Election to membership shall be determined on the basis of the nominee (or nominees) receiving the largest number of eligible votes. If an elected representative subsequently discontinues producer status or is otherwise unable to complete his term of office, the market administrator shall appoint as his replacement the participating producer who received the next highest number of eligible votes.

§ 1062.114 Agency operating procedure.

A majority of the Agency members shall constitute a quorum. Any action of the Agency shall require a majority of concurring votes of those present and voting, unless the Agency determines that more than a simple majority shall be required.

§ 1062.115 Powers of the Agency.

The Agency is empowered to:

(a) Administer the terms and provisions of the program within the scope of Agency authority pursuant to § 1062.110;

(b) Make rules and regulations to effectuate the purposes of Public Law 91-670;

(c) Recommend amendments to the Secretary; and

(d) With the approval of the Secretary, enter into contracts and agreements with persons or organizations as deemed necessary to carry out advertising and promotion programs and projects specified in §§ 1062.110 and 1062.117.

§ 1062.116 Duties of the Agency.

The Agency shall perform all duties necessary to carry out the terms and provisions of this program including, but not limited to, the following:

(a) Meet, organize, and select from among its members a chairman and such other officers and committees as may be necessary, and adopt and make public such rules as may be necessary for the conduct of its business;

(b) Develop programs and projects pursuant to §§ 1062.110 and 1062.117;

(c) Keep minutes, books, and records and submit books and records for examination by the Secretary and furnish any information and reports requested by the Secretary;

(d) Prepare and submit to the Secretary for approval prior to each quarterly period a budget showing the projected amounts to be collected during the quarter and how such funds are to be disbursed by the Agency;

(e) When desirable, establish an advisory committee(s) of persons other than Agency members;

(f) Employ and fix the compensation of any person deemed to be necessary to its exercise of powers and performance of duties;

(g) Establish the rate of reimbursement to the members of the Agency for expenses in attending meetings, and pay the expenses of administering the Agency; and

(h) Provide for the bonding of all persons handling Agency funds in an amount and with surety thereon satisfactory to the Secretary.

§ 1062.117 Advertising, research, education, and promotion program.

The Agency shall develop and submit to the Secretary for approval all programs or projects undertaken under the authority of this part. Such programs or projects may provide for:

(a) The establishment, issuance, effectuation, and administration of appropriate programs or projects for the advertising and promotion of milk and milk products on a nonbrand basis;

(b) The utilization of the services of other organizations to carry out Agency programs and projects if the Agency finds that such activities will benefit producers under this part; and

(c) The establishment, support, and conduct of research and development projects and studies that the Agency finds will benefit all producers under this part.

§ 1062.118 Limitation of expenditures by the Agency.

(a) Not more than 5 percent of the funds received by the Agency pursuant to § 1062.121(b)(1) shall be utilized for administrative expense of the Agency.

(b) Agency funds shall not, in any manner, be used for political activity or for the purpose of influencing governmental policy or action, except in recommending to the Secretary amendments to the advertising and promotion program provisions of this part.

(c) Agency funds may not be expended to solicit producer participation.

(d) Agency funds may be used only for programs and projects promoting the domestic marketing and consumption of milk and its products.

§ 1062.119 Personal liability.

No member of the Agency shall be held personally responsible, either individually or jointly with others, in any way whatsoever to any person for errors in judgment, mistakes, or other acts, either of commission or omission, of such member in performance of his duties, except for acts of willful misconduct, gross negligence, or those which are criminal in nature.

§ 1062.120 Procedure for requesting refunds.

Any producer may apply for refund subject to the applicable conditions set forth in this section.

(a) Refund shall be accomplished only through application filed with, and in the manner prescribed by, the market administrator and signed by the producer. Only that information necessary to identify the producer and the records relevant to the refund may be required of such producer.

(b) Except as provided in paragraph (c) of this section, the request shall be submitted within the first 15 days of December, March, June, or September for milk to be marketed during the ensuing calendar quarter beginning on the first day of January, April, July, and October, respectively.

(c) A dairy farmer who first acquires producer status under this part after the 15th day of December, March, June, or September, as the case may be, and prior to the end of the ensuing calendar quarter may, upon application filed with the market administrator pursuant to paragraph (a) of this section, be eligible for refund on all marketings against which an assessment is withheld during such calendar quarter pursuant to § 1062.61(d): *Provided:* That, such eligibility for refund shall not apply to a dairy farmer who during the first 15 days of such December, March, June, or September, respectively, was a producer under an order where the same refund notification period applied and such dairy farmer did not appropriately submit refund application during such period. This paragraph also shall be applicable to all producers during the period following the effective date of this amending order to the beginning of the first full calendar quarter for which the opportunity exists for such producers to request refunds pursuant to paragraph (b) of this section.

(d) A dairy farmer who, with respect to any calendar quarter, has appropriately filed request for refund of program assessments on his marketings of milk under another order that provides for an advertising and promotion program will be eligible (on the basis of his request filed under the other order) for refund with respect to his producer milk marketed under this order during such quarter for which deductions were made pursuant to § 1062.61(d).

§ 1062.121 Duties of the market administrator.

Except as specified in § 1062.116, the market administrator, in addition to other duties specified by this part, shall perform all the duties necessary to administer the terms and provisions of the advertising and promotion program including, but not limited to, the following:

(a) Within 30 days after the effective date of this amending order, and annually thereafter, conduct a referendum to determine representation on the Agency pursuant to § 1062.113(c);

(b) Set aside the amounts subtracted under § 1062.61(d) into an advertising and promotion fund, separately accounted for, from which shall be disbursed:

(1) To the Agency each month, all such funds less any necessary amount held in reserve to cover refunds pursuant to paragraph (b) (2) and (3) of this section, and payments to cover expenses of the market administrator incurred in the administration of the advertising and promotion program (including audit).

(2) Refund to producers the amounts of mandatory checkoff for advertising and promotion programs required under authority of State law applicable to such producers, but not in amounts that exceed a rate of 5 cents per hundredweight on the volume of milk pooled by any such producer for which deductions were made pursuant to § 1062.61(d).

(3) After the end of each calendar quarter, make a refund to each producer who has made application for such refund pursuant to § 1062.120. Such refund shall be computed at the rate of 5 cents per hundredweight of such producer's milk pooled for which deductions were made pursuant to § 1062.61(d) for such calendar quarter, less the amount of any refund otherwise made to the producer pursuant to paragraph (b)(2) of this section.

(c) Promptly after the effective date of this amending order, and thereafter with respect to new producers, forward to each producer a copy of the provisions of the advertising and promotion program (§§ 1062.110 through 1062.122).

(d) Make necessary audits to establish that all agency funds are used only for authorized purposes.

§ 1062.122 Liquidation.

In the event that the provisions of this advertising and promotion program are terminated, any remaining uncommitted funds applicable thereto shall revert to the producer-settlement fund of § 1062.70.

PART 1099—MILK IN PADUCAH, KENTUCKY, MARKETING AREA

Subpart—Order Regulating Handling

GENERAL PROVISIONS

Secs.
1099.1 General provisions.

DEFINITIONS

1099.2 Paducah, Kentucky, marketing area.
1099.3 Route disposition.
1099.4 [Reserved]
1099.5 Distributing plant.
1099.6 Supply plant.
1099.7 Pool plant.
1099.8 Nonpool plant.
1099.9 Handler.
1099.10 Producer-handler.
1099.11 [Reserved]
1099.12 Producer.
1099.13 Producer milk.
1099.14 Other source milk.
1099.15 Fluid milk product.
1099.16 Fluid cream product.
1099.17 Filled milk.
1099.18 Cooperative association.

HANDLER REPORTS

1099.30 Reports of receipts and utilization.
1099.31 Payroll reports.
1099.32 Other reports.

CLASSIFICATION OF MILK

Secs.
1099.40 Classes of utilization.
1099.41 Shrinkage.
1099.42 Classification of transfers and diversions.
1099.43 General classification rules.
1099.44 Classification of producer milk.

V 39 I 87 MAY 3 74 XUM

Secs.
1099.45 Market administrator's reports and announcements concerning classification.

CLASS PRICES

1099.50 Class prices.
1099.51 Basic formula price.
1099.52 Plant location adjustments for handlers.
1099.53 Announcement of class prices.

UNIFORM PRICE

1099.60 Handler's value of milk for computing uniform price.
1099.61 Computation of uniform price (including weighted average price).
1099.62 Announcement of uniform price and butterfat differential.

PAYMENTS FOR MILK

1099.70 Producer-settlement fund.
1099.71 Payments to the producer-settlement fund.
1099.72 Payments from the producer-settlement fund.
1099.73 Payments to producers and to cooperative associations.
1099.74 Butterfat differential.
1099.75 Plant location adjustments for producers and on nonpool milk.
1099.76 Payments by handler operating a partially regulated distributing plant.
1099.77 Adjustment of accounts.

ADMINISTRATIVE ASSESSMENT AND MARKETING SERVICE DEDUCTION

1099.85 Assessment for order administration.
1099.86 Deduction for marketing services.

AUTHORITY.—The provisions of this Part 1099 issued under secs. 1–19, 48 Stat. 31, as amended (7 U.S.C. 601–674).

GENERAL PROVISIONS

§ 1099.1 General provisions.

The terms, definitions, and provisions in Part 1000 of this chapter are hereby incorporated by reference and made a part of this order.

DEFINITIONS

§ 1099.2 Paducah, Kentucky, marketing area.

The "Paducah, Ky., marketing area," hereinafter called the "marketing area," means all the territory within the counties listed below (except that portion of any of these counties contained in the Fort Campbell military reservation):

KENTUCKY COUNTIES

Ballard.	Hickman.
Caldwell.	Livingston.
Calloway.	Lyon.
Carlisle.	Marshall.
Christian.	McCracken.
Fulton.	Todd.
Graves.	Trigg.

MISSOURI COUNTIES

Mississippi.	Pemiscot.
New Madrid.	Scott.

§ 1099.3 Route disposition.

"Route disposition" means a delivery (including disposition from a plant store or from a distribution point and distribution by a vendor or vending machine) of any fluid milk product classified as Class I milk to a retail or wholesale outlet other than a milk or filled milk plant. A delivery through a distribution point shall be attributed to the plant from which the Class I milk is moved through a distribution point to wholesale or retail outlets.

§ 1099.4 [Reserved]

§ 1099.5 Distributing plant.

"Distributing plant" means a plant in which milk is processed and packaged and from which there is route disposition during the month in the marketing area.

§ 1099.6 Supply plant.

"Supply plant" means a plant (except a distributing plant) which is qualified as a pool plant pursuant to the proviso in § 1099.7(b) or a plant from which milk or skim milk which may be distributed in the marketing area under a Grade A label is supplied during the month to a plant qualified pursuant to § 1099.7(a).

§ 1099.7 Pool plant.

Except as provided in paragraph (c) of this section, "pool plant" means:

(a) A distributing plant from which there is total route disposition, except filled milk, in an amount equal to 45 percent or more of its receipts of milk from dairy farmers producing milk under a Grade A dairy farm permit or rating issued by a duly constituted health authority (including milk of such dairy farmer diverted by the plant operator), from handlers described in § 1099.9(c), and fluid milk products, except filled milk, from other plants during the month and from which there is route disposition, except filled milk, in the marketing area in an amount equal to a daily average of 3,000 pounds or more per day, or 10 percent or more of such receipts, whichever is less: *Provided,* That a plant which qualifies as a pool plant by complying with the foregoing requirements during any month shall be a pool plant during the following month.

(b) A distributing plant or supply plant from which the volume of milk and skim milk shipped to pool plants qualified pursuant to paragraph (a) of this section, or disposed of as route disposition (excluding filled milk) is equal to not less than 50 percent of the receipts of milk from dairy farmers producing milk under a Grade A dairy farm permit or rating issued by a duly constituted health authority (including milk of such dairy farmers diverted by the plant operator), from handlers described in § 1099.9(c), and fluid milk products, except filled milk, received from other plants: *Provided,* That if a supply plant ships to pool plants qualified pursuant to paragraph (a) of this section milk and skim milk equal to at least 75 percent of its receipts of milk from such dairy farmers and handlers described in § 1099.9(c) in October and November and 35 percent of such milk in three additional months during the period from August through January, such plant shall, upon written application to the market administrator on or before the end of such period, be designated as a pool plant until the end of any month during the succeeding August through January period in which the milk of such plant is disposed of in such a way that it becomes impossible for the plant to reestablish its qualification under the term of this proviso, *And provided further,* That in the case of a supply plant operated by a cooperative association which supplies to other pool plants at least two-thirds of the producer milk of its producer members (including both the milk delivered directly from the farms of member producers and that delivered from the plant of the association) delivered to all plants during the current month or during the immediately preceding 12-month period, the milk which such association causes to be delivered to the pool plants of other handlers in its capacity as a handler described in § 1099.9 (c), shall be considered as having been received first at the plant of such cooperative association for the purpose of qualifying such plant as a pool plant pursuant to this paragraph.

(c) The term "pool plant" shall not apply to the following plants:

(1) A producer-handler plant;

(2) A distributing plant qualified pursuant to paragraph (a) or (b) of this section which meets the requirements of a fully regulated plant pursuant to the provisions of another order issued pursuant to the Act and from which a greater quantity of fluid milk products, except filled milk, is disposed of during the month from such plant as route disposition in the marketing area regulated by the other order than in the Paducah, Ky., marketing area: *Provided,* That such a distributing plant which was a pool plant under this order in the immediately preceding month shall continue to be subject to all of the provisions of this part until the third consecutive month in which a greater proportion of such route disposition is made in such other marketing area, unless the other order requires regulation of the plant without regard to its qualifying as a pool plant under this order subject to the proviso of this subparagraph: *And provided further,* on the basis of a written application made either by the plant operator or by the cooperative association supplying milk to such operator's plant, at least 15 days prior to the date for which a determination of the Secretary is to be effective, the Secretary may determine that the route dispositions in the respective marketing areas to be used for purposes of this subparagraph shall exclude (for a specified period of time) route disposition made under limited-term contracts to governmental bases and institutions;

(3) A distributing plant qualified pursuant to paragraph (a) or (b) of this section which meets the requirements of a fully regulated plant pursuant to the provisions of another Federal order and from which a greater quantity of Class I milk, except filled milk, is disposed of during the month as route disposition in the Paducah marketing area than in the other marketing area, and such other order which fully regulates the plant does not contain provisions to exempt the plant from regulation even though such plant has greater route disposition

in the marketing area of the Paducah, Ky., order; and

(4) Any supply plant which would be subject to the classification and pricing provisions of another order issued pursuant to the Act unless such plant qualified as a pool plant pursuant to the proviso of paragraph (b) of this section during the preceding August through January period.

§ 1099.8 Nonpool plant.

"Nonpool plant" means any milk or filled milk receiving, manufacturing, or processing plant other than a pool plant. The following categories of nonpool plants are further defined as follows:

(a) "Other order plant" means a plant that is fully subject to the pricing and pooling provisions of another order issued pursuant to the Act.

(b) "Producer-handler plant" means a plant operated by a producer-handler as defined in any order (including this part) issued pursuant to the Act.

(c) "Partially regulated distributing plant" means a nonpool plant that is neither an other order plant nor a producer-handler plant, from which there is route disposition in consumer-type packages or dispenser units in the marketing area during the month.

(d) "Unregulated supply plant" means a nonpool plant (other than a producer-handler plant or an other order plant) from which fluid milk products are shipped to a pool plant.

§ 1099.9 Handler.

"Handler" means:

(a) Any person in his capacity as the operator of a pool plant;

(b) A cooperative association qualified pursuant to § 1099.18 with respect to milk of producers diverted pursuant to § 1099.13 for the account of such association;

(c) A cooperative association which chooses to report as a handler with respect to milk which is delivered from the farm to a pool plant(s) of another handler in a tank truck owned or operated by, or under contract to, such cooperative association for the account of such cooperative association. The milk so delivered shall be considered to have been received by such cooperative association at a pool plant at the location of the pool plant to which it is delivered;

(d) Any person who operates a partially regulated distributing plant;

(e) A producer-handler; or

(f) Any person who operates an other order plant described in § 1099.7(c).

§ 1099.10 Producer-handler.

"Producer-handler" means any person who operates a dairy farm and a distributing plant, from which there is route disposition within the marketing area but which receives no other source milk or milk from other dairy farmers.

§ 1099.11 [Reserved]

§ 1099.12 Producer.

(a) Except as provided in paragraph (b) of this section, "producer" means any person who produces milk under a Grade A dairy farm permit or rating issued by a duly constituted health authority, which milk is received at a pool plant or by a handler described in § 1099.9(c).

(b) "Producer" shall not include:

(1) A producer-handler as defined in any order (including this part) issued pursuant to the Act;

(2) Any person with respect to milk produced by him which is diverted to a pool plant from an other order plant if the other order designates such person as a producer under that order and such milk is allocated to Class II or Class III utilization pursuant to § 1099.44(a)(8)(iii) and the corresponding step of § 1099.44(b); and

(3) Any person with respect to milk produced by him which is reported as diverted to an other order plant if any portion of such person's milk so moved is assigned to Class I under the provisions of such other order.

§ 1099.13 Producer milk.

"Producer milk" means all skim milk and butterfat contained in milk produced by a producer which is:

(a) Received during the month at a pool plant from producers or from a handler described in § 1099.9(c);

(b) Received by a handler described in § 1099.9(c) but which is not delivered to a pool plant of another handler and constitutes shrinkage pursuant to § 1099.41(c) or Class I shrinkage; or

(c) Diverted by the operator of a pool plant or by a handler described in § 1099.9(b) to a nonpool plant that is not a producer-handler plant, subject to the following conditions:

(1) Not less than 5 days' production of any producer whose milk is diverted is physically received at a pool plant;

(2) If diverted by a cooperative association for its account as milk of its members to nonpool plants which does not exceed 25 percent of the milk physically received from member producers of such cooperative association at pool plants during the month in any of the months of April through August and 15 percent in other months, except that if milk of members is diverted by the cooperative association in excess of the specified percentages, no milk diverted by the cooperative association during the month shall be producer milk unless the cooperative association designates the dairy farmers whose milk is not producer milk;

(3) If diverted by a handler in his capacity as the operator of a pool plant, as milk of a producer who is not a member of a cooperative association diverting milk pursuant to paragraph (c)(2) of this section, which does not exceed 25 percent of the aggregate quantity of milk received at such plant from such nonmember producers during the month in any of the months of April through August and 15 percent in other months, except that if milk of nonmember producers is diverted by the handler in excess of the specified percentages, no milk diverted by the handler during the month shall be producer milk unless the handler designates the dairy farmers whose milk is not producer milk; and

(4) Milk diverted for the account of a handler in his capacity as an operator of a pool plant shall be deemed to have been received at the pool plant from which diverted and milk diverted for the account of a cooperative association shall be deemed to have been received by the cooperative association at a pool plant at a location identical with that of the pool plant from which diverted.

§ 1099.14 Other source milk.

"Other source milk" means all skim milk and butterfat contained in or represented by:

(a) Receipts of fluid milk products and bulk products specified in § 1099.40(b)(1) from any source other than producers, handlers described in § 1099.9(c), or pool plants;

(b) Receipts in packaged form from other plants of products specified in § 1099.40(b)(1);

(c) Products (other than fluid milk products, products specified in § 1099.40 (b)(1), and products produced at the plant during the same month) from any source which are reprocessed, converted into, or combined with another product in the plant during the month; and

(d) Receipts of any milk product (other than a fluid milk product or a product specified in § 1099.40(b)(1)) for which the handler fails to establish a disposition.

§ 1099.15 Fluid milk product.

(a) Except as provided in paragraph (b) of this section, "fluid milk product" means any of the following products in fluid or frozen form:

(1) Milk, skim milk, lowfat milk, milk drinks, buttermilk, filled milk, and milkshake and ice milk mixes containing less than 20 percent total solids, including any such products that are flavored, cultured, modified with added nonfat milk solids, concentrated (if in a consumer-type package), or reconstituted; and

(2) Any milk product not specified in paragraph (a)(1) of this section or in § 1099.40 (b) or (c)(1) (i) through (v) if it contains by weight at least 80 percent water and 6.5 percent nonfat milk solids and less than 9 percent butterfat and 20 percent total solids.

(b) The term "fluid milk product" shall not include:

(1) Evaporated or condensed milk (plain or sweetened), evaporated or condensed skim milk (plain or sweetened), formulas especially prepared for infant feeding or dietary use that are packaged in hermetically sealed glass or all-metal containers, any product that contains by weight less than 6.5 percent nonfat milk solids, and whey; and

(2) The quantity of skim milk in any modified product specified in paragraph (a) of this section that is in excess of the quantity of skim milk in an equal volume of an unmodified product of the same nature and butterfat content.

§ 1099.16 Fluid cream product.

"Fluid cream product" means cream (other than plastic cream or frozen cream), sour cream, or a mixture (including a cultured mixture) of cream and milk or skim milk containing 9 percent or more butterfat, with or without the addition of other ingredients.

V 39 87
MAY 3 74
XUM

§ 1099.17 Filled milk.

"Filled milk" means any combination of nonmilk fat (or oil) with skim milk (whether fresh, cultured, reconstituted, or modified by the addition of nonfat milk solids), with or without milkfat, so that the product (including stabilizers, emulsifiers, or flavoring) resembles milk or any other fluid milk product, and contains less than 6 percent nonmilk fat (or oil).

§ 1099.18 Cooperative association.

"Cooperative association" means any cooperative marketing association which the Secretary determines, after application by the association:

(a) To be qualified under the provisions of the Act of Congress of February 18, 1922, as amended, known as the "Capper-Volstead Act"; and

(b) To have full authority in the sale of milk of its members and to be engaged in making collective sales of or marketing milk or its products for its members.

HANDLER REPORTS

§ 1099.30 Reports of receipts and utilization.

On or before the 6th day after the end of each month, each handler shall report for such month to the market administrator, in the detail and on the forms prescribed by the market administrator, as follows:

(a) Each handler, with respect to each of his pool plants, shall report the quantities of skim milk and butterfat contained in or represented by:

(1) Receipts of producer milk, including producer milk diverted by the handler from the pool plant to other plants;

(2) Receipts of milk from handlers described in § 1099.9(c);

(3) Receipts of fluid milk products and bulk fluid cream products from other pool plants;

(4) Receipts of other source milk;

(5) Inventories at the beginning and end of the month of fluid milk products and products specified in § 1099.40(b)(1); and

(6) The utilization or disposition of all milk, filled milk, and milk products required to be reported pursuant to this paragraph.

(b) Each handler operating a partially regulated distributing plant shall report with respect to such plant in the same manner as prescribed for reports required by paragraph (a) of this section. Receipts of milk that would have been producer milk if the plant had been fully regulated shall be reported in lieu of producer milk. Such report shall show also the quantity of any reconstituted skim milk in route disposition in the marketing area.

(c) Each handler described in § 1099.9(b) and (c) shall report:

(1) The quantities of all skim milk and butterfat contained in receipts of milk from producers; and

(2) The utilization or disposition of all such receipts.

(d) Each handler not specified in paragraphs (a) through (c) of this section shall report with respect to his receipts and utilization of milk, filled milk, and milk products in such manner as the market administrator may prescribe.

§ 1099.31 Payroll reports.

(a) On or before the 20th day after the end of each month, each handler described in § 1099.9 (a), (b), and (c) shall report to the market administrator his producer payroll for such month, in the detail prescribed by the market administrator, showing for each producer:

(1) His name and address;

(2) The total pounds of milk received from such producer;

(3) The average butterfat content of such milk; and

(4) The price per hundredweight, the gross amount due, the amount and nature of any deductions, and the net amount paid.

(b) Each handler operating a partially regulated distributing plant who elects to make payment pursuant to § 1099.76(b) shall report for each dairy farmer who would have been a producer if the plant had been fully regulated in the same manner as prescribed for reports required by paragraph (a) of this section.

§ 1099.32 Other reports.

(a) On or before the 6th day after the end of each month, each handler shall report to the market administrator, in the detail and on forms prescribed by the market administrator, as follows:

(1) The name and address of each producer from whom milk was not received during the previous months and the date on which milk was first received from such producer; and

(2) The name and address of each producer who discontinues deliveries of milk and the date on which milk was last received from such producer.

(b) In addition to the reports required pursuant to paragraph (a) of this section and §§ 1099.30 and 1099.31, each handler shall report such other information as the market administrator deems necessary to verify or establish such handler's obligation under the order.

CLASSIFICATION OF MILK

§ 1099.40 Classes of utilization.

Except as provided in § 1099.42, all skim milk and butterfat required to be reported by a handler pursuant to § 1099.30 shall be classified as follows:

(a) *Class I milk.* Class I milk shall be all skim milk and butterfat:

(1) Disposed of in the form of a fluid milk product, except as otherwise provided in paragraphs (b) and (c) of this section; and

(2) Not specifically accounted for as Class II or Class III milk.

(b) *Class II milk.* Class II milk shall be all skim milk and butterfat:

(1) Disposed of in the form of a fluid cream product, eggnog, yogurt, and any product containing 6 percent or more nonmilk fat (or oil) that resembles a fluid cream product, eggnog, or yogurt, except as otherwise provided in paragraph (c) of this section;

(2) In packaged inventory at the end of the month of the products specified in paragraph (b)(1) of this section;

(3) In bulk fluid milk products and bulk fluid cream products disposed of to any commercial food processing establishment (other than a milk or filled milk plant) at which food products (other than milk products and filled milk) are processed and from which there is no disposition of fluid milk products or fluid cream products other than those received in consumer-type packages; and

(4) Used to produce:

(i) Cottage cheese, lowfat cottage cheese, and dry curd cottage cheese;

(ii) Milkshake and ice milk mixes (or bases) containing 20 percent or more total solids, frozen desserts, and frozen dessert mixes;

(iii) Any concentrated milk product in bulk, fluid form other than that specified in paragraph (c)(1)(iv) of this section;

(iv) Plastic cream, frozen cream, and anhydrous milkfat;

(v) Custards, puddings, and pancake mixes; and

(vi) Formulas especially prepared for infant feeding or dietary use that are packaged in hermetically sealed glass or all-metal containers.

(c) *Class III milk.* Class III milk shall be all skim milk and butterfat:

(1) Used to produce:

(i) Cheese (other than cottage cheese, lowfat cottage cheese, and dry curd cottage cheese);

(ii) Butter;

(iii) Any milk product in dry form;

(iv) Any concentrated milk product in bulk, fluid form that is used to produce a Class III product;

(v) Evaporated or condensed milk (plain or sweetened) in a consumer-type package and evaporated or condensed skim milk (plain or sweetened) in a consumer-type package; and

(vi) Any product not otherwise specified in this section;

(2) In inventory at the end of the month of fluid milk products in bulk or packaged form and products specified in paragraph (b)(1) of this section in bulk form;

(3) In fluid milk products and products specified in paragraph (b)(1) of this section that are disposed of by a handler for animal feed;

(4) In fluid milk products and products specified in paragraph (b)(1) of this section that are dumped by a handler if the market administrator is notified of such dumping in advance and is given the opportunity to verify such disposition;

(5) In skim milk in any modified fluid milk product that is in excess of the quantity of skim milk in such product that was included within the fluid milk product definition pursuant to § 1099.15; and

(6) In shrinkage assigned pursuant to § 1099.41(a) to the receipts specified in § 1099.41(a)(2) and in shrinkage specified in § 1099.41 (b) and (c).

§ 1099.41 Shrinkage.

For purposes of classifying all skim milk and butterfat to be reported by a handler pursuant to § 1099.30, the market administrator shall determine the following:

(a) The pro rata assignment of shrinkage of skim milk and butterfat, respectively, at each pool plant to the respective quantities of skim milk and butterfat:

(1) In the receipts specified in paragraph (b)(1) through (6) of this section on which shrinkage is allowed pursuant to such paragraph; and

(2) In other source milk not specified in paragraph (b)(1) through (6) of this section which was received in the form of a bulk fluid milk product or a bulk fluid cream product;

(b) The shrinkage of skim milk and butterfat, respectively, assigned pursuant to paragraph (a) of this section to the receipts specified in paragraph (a)(1) of this section that is not in excess of:

(1) Two percent of the skim milk and butterfat, respectively, in producer milk (excluding milk diverted by the plant operator to another plant and milk received from a handler described in § 1099.9(c));

(2) Plus 1.5 percent of the skim milk and butterfat, respectively, in milk received from a handler described in § 1099.9(c), except that if the operator of the plant to which the milk is delivered purchases such milk on the basis of weights determined from its measurement at the farm and butterfat tests determined from farm bulk tank samples, the applicable percentage under this subparagraph shall be 2 percent;

(3) Plus 0.5 percent of the skim milk and butterfat, respectively, in producer milk diverted from such plant by the plant operator to another plant, except that if the operator of the plant to which the milk is delivered purchases such milk on the basis of weights determined from its measurement at the farm and butterfat tests determined from farm bulk tank samples, the applicable percentage under this subparagraph shall be zero;

(4) Plus 1.5 percent of the skim milk and butterfat, respectively, in bulk fluid milk products received by transfer from other pool plants;

(5) Plus 1.5 percent of the skim milk and butterfat, respectively, in bulk fluid milk products received by transfer from other order plants, excluding the quantity for which Class II or Class III classification is requested by the operators of both plants;

(6) Plus 1.5 percent of the skim milk and butterfat, respectively, in bulk fluid milk products received from unregulated supply plants, excluding the quantity for which Class II or Class III classification is requested by the handler; and

(7) Less 1.5 percent of the skim milk and butterfat, respectively, in bulk fluid milk products transferred to other plants that is not in excess of the respective amounts of skim milk and butterfat to which percentages are applied in paragraph (b)(1), (2), (4), (5), and (6) of this section; and

(c) The quantity of skim milk and butterfat, respectively, in shrinkage of milk from producers for which a cooperative association is the handler pursuant to § 1099.9 (b) or (c), but not in excess of 0.5 percent of the skim milk and butterfat, respectively, in such milk. If the operator of the plant to which the milk is delivered purchases such milk on the basis of weights determined from its measurement at the farm and butterfat tests determined from farm bulk tank samples, the applicable percentage under this paragraph for the cooperative association shall be zero.

§ 1099.42 Classification of transfers and diversions.

(a) *Transfers to pool plants.* Skim milk or butterfat transferred in the form of a fluid milk product or a bulk fluid cream product from a pool plant to another pool plant shall be classified as Class I milk unless the operators of both plants request the same classification in another class. In either case, the classification of such transfers shall be subject to the following conditions:

(1) The skim milk or butterfat classified in each class shall be limited to the amount of skim milk and butterfat, respectively, remaining in such class at the transferee-plant after the computations pursuant to § 1099.44(a)(12) and the corresponding step of § 1099.44(b);

(2) If the transferor-plant received during the month other source milk to be allocated pursuant to § 1099.44(a)(7) or the corresponding step of § 1099.44(b), the skim milk or butterfat so transferred shall be classified so as to allocate the least possible Class I utilization to such other source milk; and

(3) If the transferor-handler received during the month other source milk to be allocated pursuant to § 1099.44(a)(11) or (12) or the corresponding steps of § 1099.44(b), the skim milk or butterfat so transferred, up to the total of the skim milk and butterfat, respectively, in such receipts of other source milk, shall not be classified as Class I milk to a greater extent than would be the case if the other source milk had been received at the transferee-plant.

(b) *Transfers and diversions to other order plants.* Skim milk or butterfat transferred or diverted in the form of a fluid milk product or a bulk fluid cream product from a pool plant to an other order plant shall be classified in the following manner. Such classification shall apply only to the skim milk or butterfat that is in excess of any receipts at the pool plant from the other order plant of skim milk and butterfat, respectively, in fluid milk products and bulk fluid cream products, respectively, that are in the same category as described in paragraph (b)(1), (2), or (3) of this section:

(1) If transferred as packaged fluid milk products, classification shall be in the classes to which allocated as a fluid milk product under the other order;

(2) If transferred in bulk form, classification shall be in the classes to which allocated under the other order (including allocation under the conditions set forth in paragraph (b)(3) of this section);

(3) If the operators of both plants so request in their reports of receipts and utilization filed with their respective market administrators, transfers or diversions in bulk form shall be classified as Class II or Class III milk to the extent of such utilization available for such classification pursuant to the allocation provisions of the other order;

(4) If information concerning the classes to which such transfers or diversions were allocated under the other order is not available to the market administrator for the purpose of establishing classification under this paragraph, classification shall be as Class I, subject to adjustment when such information is available;

(5) For purposes of this paragraph, if the other order provides for a different number of classes of utilization than is provided for under this part, skim milk or butterfat allocated to a class consisting primarily of fluid milk products shall be classified as Class I milk, and skim milk or butterfat allocated to the other classes shall be classified as Class III milk; and

(6) If the form in which any fluid milk product that is transferred to an other order plant is not defined as a fluid milk product under such other order, classification under this paragraph shall be in accordance with the provisions of § 1099.40.

(c) *Transfers to producer-handlers.* Skim milk or butterfat transferred in the following forms from a pool plant to a producer-handler under this or any other Federal order shall be classified:

(1) As Class I milk, if transferred in the form of a fluid milk product; and

(2) In accordance with the utilization assigned to it by the market administrator, if transferred in the form of a bulk fluid cream product. For this purpose, the producer-handler's utilization of skim milk and butterfat in each class, in series beginning with Class III, shall be assigned to the extent possible to his receipts of skim milk and butterfat, respectively, in bulk fluid cream products, pro rata to each source.

(d) *Transfers and diversions to other nonpool plants.* Skim milk or butterfat transferred or diverted in the following forms from a pool plant to a nonpool plant that is not an other order plant or a producer-handler plant shall be classified:

(1) As Class I milk, if transferred in the form of a packaged fluid milk product; and

(2) As Class I milk, if transferred or diverted in the form of a bulk fluid milk product or a bulk fluid cream product, unless the following conditions apply:

(i) If the conditions described in paragraph (d)(2)(i) (*a*) and (*b*) of this section are met, transfers or diversions in bulk form shall be classified on the basis of the assignment of the nonpool plant's utilization to its receipts as set forth in paragraph (d)(2)(ii) through (viii) of this section:

(*a*) The transferor-handler or diverter-handler claims such classification in his report of receipts and utilization filed pursuant to § 1099.30 for the month within which such transaction occurred; and

(*b*) The nonpool plant operator maintains books and records showing the utilization of all skim milk and butterfat

V 39 87
MAY 3 74
XUM

received at such plant which are made available for verification purposes if requested by the market administrator;

(ii) Route disposition in the marketing area of each Federal milk order from the nonpool plant and transfers of packaged fluid milk products from such nonpool plant to plants fully regulated thereunder shall be assigned to the extent possible in the following sequence:

(*a*) Pro rata to receipts of packaged fluid milk products at such nonpool plant from pool plants;

(*b*) Pro rata to any remaining unassigned receipts of packaged fluid milk products at such nonpool plant from other order plants;

(*c*) Pro rata to receipts of bulk fluid milk products at such nonpool plant from pool plants; and

(*d*) Pro rata to any remaining unassigned receipts of bulk fluid milk products at such nonpool plant from other order plants;

(iii) Any remaining Class I disposition of packaged fluid milk products from the nonpool plant shall be assigned to the extent possible pro rata to any remaining unassigned receipts of packaged fluid milk products at such nonpool plant from pool plants and other order plants;

(iv) Transfers of bulk fluid milk products from the nonpool plant to a plant fully regulated under any Federal milk order, to the extent that such transfers to the regulated plant exceed receipts of fluid milk products from such plant and are allocated to Class I at the transferee-plant, shall be assigned to the extent possible in the following sequence:

(*a*) Pro rata to receipts of fluid milk products at such nonpool plant from pool plants; and

(*b*) Pro rata to any remaining unassigned receipts of fluid milk products at such nonpool plant from other order plants;

(v) Any remaining unassigned Class I disposition from the nonpool plant shall be assigned to the extent possible in the following sequence:

(*a*) To such nonpool plant's receipts from dairy farmers who the market administrator determines constitute regular sources of Grade A milk for such nonpool plant; and

(*b*) To such nonpool plant's receipts of Grade A milk from plants not fully regulated under any Federal milk order which the market administrator determines constitute regular sources of Grade A milk for such nonpool plant;

(vi) Any remaining unassigned receipts of bulk fluid milk products at the nonpool plant from pool plants and other order plants shall be assigned, pro rata among such plants, to the extent possible first to any remaining Class I utilization, then to Class III utilization, and then to Class II utilization at such nonpool plant;

(vii) Receipts of bulk fluid cream products at the nonpool plant from pool plants and other order plants shall be assigned, pro rata among such plants, to the extent possible first to any remaining Class III utilization, then to any remaining Class II utilization, and then to Class I utilization at such nonpool plant; and

(viii) In determining the nonpool plant's utilization for purposes of this subparagraph, any fluid milk products and bulk fluid cream products transferred from such nonpool plant to a plant not fully regulated under any Federal milk order shall be classified on the basis of the second plant's utilization using the same assignment priorities at the second plant that are set forth in this subparagraph.

§ 1099.43 General classification rules.

In determining the classification of producer milk pursuant to § 1099.44, the following rules shall apply:

(a) Each month the market administrator shall correct for mathematical and other obvious errors all reports filed pursuant to § 1099.30 and shall compute separately for each pool plant and for each cooperative association with respect to milk for which it is the handler pursuant to § 1099.9 (b) or (c) the pounds of skim milk and butterfat, respectively, in each class in accordance with §§ 1099.40, 1099.41, and 1099.42;

(b) If any of the water contained in the milk from which a product is made is removed before the product is utilized or disposed of by a handler, the pounds of skim milk in such product that are to be considered under this part as used or disposed of by the handler shall be an amount equivalent to the nonfat milk solids contained in such product plus all of the water originally associated with such solids; and

(c) The classification of producer milk for which a cooperative association is the handler pursuant to § 1099.9 (b) or (c) shall be determined separately from the operations of any pool plant operated by such cooperative association.

§ 1099.44 Classification of producer milk.

For each month the market administrator shall determine the classification of producer milk of each handler described in § 1099.9(a) for each of his pool plants separately and of each handler described in § 1099.9 (b) and (c) by allocating the handler's receipts of skim milk and butterfat to his utilization as follows:

(a) Skim milk shall be allocated in the following manner:

(1) Subtract from the total pounds of skim milk in Class III the pounds of skim milk in shrinkage specified in § 1099.41(b);

(2) Subtract from the total pounds of skim milk in Class I the pounds of skim milk in receipts of packaged fluid milk products from an unregulated supply plant to the extent that an equivalent amount of skim milk disposed of to such plant by handlers fully regulated under any Federal milk order is classified and priced as Class I milk and is not used as an offset for any other payment obligation under any order;

(3) Subtract from the pounds of skim milk remaining in each class the pounds of skim milk in fluid milk products received in packaged form from another order plant, except that to be subtracted pursuant to paragraph (a)(7)(vi) of this section, as follows:

(i) From Class III milk, the lesser of the pounds remaining or 2 percent of such receipts; and

(ii) From Class I milk, the remainder of such receipts;

(4) Subtract from the pounds of skim milk in Class II the pounds of skim milk in products specified in § 1099.40(b)(1) that were received in packaged form from other plants, but not in excess of the pounds of skim milk remaining in Class II;

(5) Subtract from the remaining pounds of skim milk in Class II the pounds of skim milk in products specified in § 1099.40(b)(1) that were in inventory at the beginning of the month in packaged form, but not in excess of the pounds of skim milk remaining in Class II. This subparagraph shall apply only if the pool plant was subject to the provisions of this subparagraph or comparable provisions of another Federal milk order in the immediately preceding month;

(6) Subtract from the remaining pounds of skim milk in Class II the pounds of skim milk in other source milk (except that received in the form of a fluid milk product or a fluid cream product) that is used to produce, or added to, any product specified in § 1099.40(b), but not in excess of the pounds of skim milk remaining in Class II;

(7) Subtract in the order specified below from the pounds of skim milk remaining in each class, in series beginning with Class III, the pounds of skim milk in each of the following:

(i) Other source milk (except that received in the form of a fluid milk product) and, if paragraph (a)(5) of this section applies, packaged inventory at the beginning of the month of products specified in § 1099.40(b)(1) that was not subtracted pursuant to paragraph (a)(4), (5), and (6) of this section;

(ii) Receipts of fluid milk products (except filled milk) for which Grade A certification is not established;

(iii) Receipts of fluid milk products from unidentified sources;

(iv) Receipts of fluid milk products from a producer-handler as defined under this or any other Federal milk order;

(v) Receipts of reconstituted skim milk in filled milk from an unregulated supply plant that were not subtracted pursuant to paragraph (a)(2) of this section; and

(vi) Receipts of reconstituted skim milk in filled milk from an other order plant that is regulated under any Federal milk order providing for individual-handler pooling, to the extent that reconstituted skim milk is allocated to Class I at the transferor-plant;

(8) Subtract in the order specified below from the pounds of skim milk remaining in Class II and Class III, in sequence beginning with Class III:

(i) The pounds of skim milk in receipts of fluid milk products from an unregulated supply plant that were not subtracted pursuant to paragraph (a)(2) and (7)(v) of this section for which the handler requests a classification other than Class I, but not in excess of the pounds of skim milk remaining in Class II and Class III combined;

(ii) The pounds of skim milk in receipts of fluid milk products from an unregulated supply plant that were not subtracted pursuant to paragraph (a)(2), (7)(v), and (8)(i) of this section which are in excess of the pounds of skim milk determined pursuant to paragraph (a)(8)(ii) (*a*) through (*c*) of this section. Should the pounds of skim milk to be subtracted from Class II and Class III combined exceed the pounds of skim milk remaining in such classes, the pounds of skim milk in Class II and Class III combined shall be increased (increasing as necessary Class III and then Class II to the extent of available utilization in such classes at the nearest other pool plant of the handler, and then at each successively more distant pool plant of the handler) by an amount equal to such excess quantity to be subtracted, and the pounds of skim milk in Class I shall be decreased by a like amount. In such case, the pounds of skim milk remaining in each class at this allocation step at the handler's other pool plants shall be adjusted in the reverse direction by a like amount:

(*a*) Multiply by 1.25 the sum of the pounds of skim milk remaining in Class I at this allocation step at all pool plants of the handler (excluding any duplication of Class I utilization resulting from reported Class I transfers between pool plants of the handler);

(*b*) Subtract from the above result the sum of the pounds of skim milk in receipts at all pool plants of the handler of producer milk, fluid milk products from pool plants of other handlers, and bulk fluid milk products from other order plants that were not subtracted pursuant to paragraph (a)(7)(vi) of this section; and

(*c*) Multiply any plus quantity resulting above by the percentage that the receipts of skim milk in fluid milk products from unregulated supply plants that remain at this pool plant is of all such receipts remaining at this allocation step at all pool plants of the handler; and

(iii) The pounds of skim milk in receipts of bulk fluid milk products from an other order plant that are in excess of bulk fluid milk products transferred or diverted to such plant and that were not subtracted pursuant to paragraph (a)(7)(vi) of this section, if Class II or Class III classification is requested by the operator of the other order plant and the handler, but not in excess of the pounds of skim milk remaining in Class II and Class III combined;

(9) Subtract from the pounds of skim milk remaining in each class, in series beginning with Class III, the pounds of skim milk in Class III the pounds of skim milk in fluid milk products and products specified in § 1099.40(b)(1) in inventory at the beginning of the month that were not subtracted pursuant to paragraph (a)(5) and (7)(i) of this section;

(10) Add to the remaining pounds of milk subtracted pursuant to paragraph (a)(1) of this section:

(11) Subject to the provisions of paragraph (a)(11)(i) and (ii) of this section, subtract from the pounds of skim milk remaining in each class at the plant, pro rata to the total pounds of skim milk remaining in Class I and in Class II and Class III combined at this allocation step at all pool plants of the handler (excluding any duplication of utilization in each class resulting from transfers between pool plants of the handler), with the quantity prorated to Class II and Class III combined being subtracted first from Class III and then from Class II, the pounds of skim milk in receipts of fluid milk products from an unregulated supply plant that were not subtracted pursuant to paragraph (a)(2), (7)(v), and (8)(i) and (ii) of this section and that were not offset by transfers or diversions of fluid milk products to the same unregulated supply plant from which fluid milk products to be allocated at this step were received:

(i) Should the pounds of skim milk to be subtracted from Class II and Class III combined pursuant to this subparagraph exceed the pounds of skim milk remaining in such classes, the pounds of skim milk in Class II and Class III combined shall be increased (increasing as necessary Class III and then Class II to the extent of available utilization in such classes at the nearest other pool plant of the handler, and then at each successively more distant pool plant of the handler) by an amount equal to such excess quantity to be subtracted, and the pounds of skim milk in Class I shall be decreased by a like amount. In such case, the pounds of skim milk remaining in each class at this allocation step at the handler's other pool plants shall be adjusted in the reverse direction by a like amount; and

(ii) Should the pounds of skim milk to be subtracted from Class I pursuant to this subparagraph exceed the pounds of skim milk remaining in such class, the pounds of skim milk in Class I shall be increased by an amount equal to such excess quantity to be subtracted, and the pounds of skim milk in Class II and Class III combined shall be decreased by a like amount (decreasing as necessary Class III and then Class II). In such case, the pounds of skim milk remaining in each class at this allocation step at the handler's other pool plants shall be adjusted in the reverse direction by a like amount, beginning with the nearest plant at which Class I utilization is available;

(12) Subtract in the manner specified below from the pounds of skim milk remaining in each class the pounds of skim milk in receipts of bulk fluid milk products from another order plant that are in excess of bulk fluid milk products transferred or diverted to such plant and that were not subtracted pursuant to paragraph (a)(7)(vi) and (8)(iii) of this section:

(i) Subject to the provisions of paragraph (a)(12) (ii), (iii), and (iv) of this section, such subtraction shall be pro rata to the pounds of skim milk in Class I and in Class II and Class III combined, with the quantity prorated to Class II and Class III combined being subtracted first from Class III and then from Class II, with respect to whichever of the following quantities represents the lower proportion of Class I milk:

(*a*) The estimated utilization of skim milk of all handlers in each class as announced for the month pursuant to § 1099.45(a); or

(*b*) The total pounds of skim milk remaining in each class at this allocation step at all pool plants of the handler (excluding any duplication of utilization in each class resulting from transfers between pool plants of the handler);

(ii) Should the proration pursuant to paragraph (a)(12)(i) of this section result in the total pounds of skim milk at all pool plants of the handler that are to be subtracted at this allocation step from Class II and Class III combined exceeding the pounds of skim milk remaining in Class II and Class III at all such plants, the pounds of such excess shall be subtracted from the pounds of skim milk remaining in Class I after such proration at the pool plants at which such other source milk was received;

(iii) Except as provided in paragraph (a)(12)(ii) of this section, should the computations pursuant to paragraph (a)(12) (i) or (ii) of this section result in a quantity of skim milk to be subtracted from Class II and Class III combined that exceeds the pounds of skim milk remaining in such classes, the pounds of skim milk in Class II and Class III combined shall be increased (increasing, as necessary Class III and then Class II to the extent of available utilization in such classes at the nearest other pool plant of the handler, and then at each successively more distant pool plant of the handler) by an amount equal to such excess quantity to be subtracted, and

V 39 I 87 MAY 3 74 XUM

the pounds of skim milk in Class I shall be decreased by a like amount. In such case, the pounds of skim milk remaining in each class at this allocation step at the handler's other pool plants shall be adjusted in the reverse direction by a like amount; and

(iv) Except as provided in paragraph (a)(12)(ii) of this section, should the computations pursuant to paragraph (a)(12)(i) or (ii) of this section result in a quantity of skim milk to be subtracted from Class I that exceeds the pounds of skim milk remaining in such class, the pounds of skim milk in Class I shall be increased by an amount equal to such excess quantity to be subtracted, and the pounds of skim milk in Class II and Class III combined shall be decreased by a like amount (decreasing as necessary Class III and then Class II). In such case, the pounds of skim milk remaining in each class at this allocation step at the handler's other pool plants shall be adjusted in the reverse direction by a like amount beginning with the nearest plant at which Class I utilization is available;

(13) Subtract from the pounds of skim milk remaining in each class the pounds of skim milk in receipts of fluid milk products and bulk fluid cream products from another pool plant according to the classification of such products pursuant to § 1099.42(a); and

(14) If the total pounds of skim milk remaining in all classes exceed the pounds of skim milk in producer milk, subtract such excess from the pounds of skim milk remaining in each class in series beginning with Class III. Any amount so subtracted shall be known as "overage";

(b) Butterfat shall be allocated in accordance with the procedure outlined for skim milk in paragraph (a) of this section; and

(c) The quantity of producer milk in each class shall be the combined pounds of skim milk and butterfat remaining in each class after the computations pursuant to paragraph (a)(14) of this section and the corresponding step of paragraph (b) of this section.

§ 1099.45 Market administrator's reports and announcements concerning classification.

The market administrator shall make the following reports and announcements concerning classification:

(a) Whenever required for the purpose of allocating receipts from other order plants pursuant to § 1099.44(a)(12) and the corresponding step of § 1099.44(b), estimate and publicly announce the utilization (to the nearest whole percentage) in each class during the month of skim milk and butterfat, respectively, in producer milk of all handlers. Such estimate shall be based upon the most current available data and shall be final for such purpose.

(b) Report to the market administrator of the other order, as soon as possible after the report of receipts and utilization for the month is received from a handler who has received fluid milk products or bulk fluid cream products from an other order plant, the class to which such receipts are allocated pursuant to § 1099.44 on the basis of such report, and, thereafter, any change in such allocation required to correct errors disclosed in the verification of such report.

(c) Furnish to each handler operating a pool plant who has shipped fluid milk products or bulk fluid cream products to an other order plant the class to which such shipments were allocated by the market administrator of the other order on the basis of the report by the receiving handler, and, as necessary, any changes in such allocation arising from the verification of such report.

(d) Upon request, report, on or before the 25th day after the end of each month, to each cooperative association described in § 1099.86(b) the percentage of milk which was caused to be delivered by such association or by its members and which was used in each class by each handler receiving any such milk. For the purpose of this report the milk so received shall be prorated to each class in the proportion that the total receipts of milk from producers by such handler were used in each class.

CLASS PRICES

§ 1099.50 Class prices.

Subject to the provisions of § 1099.52, the class prices for the month per hundredweight of milk containing 3.5 percent butterfat shall be as follows:

(a) *Class I price.* The Class I price shall be the basic formula price for the second preceding month plus $1.70.

(b) *Class II price.* The Class II price shall be the basic formula price for the month plus 10 cents.

(c) *Class III price.* The Class III price shall be the basic formula price for the month.

§ 1099.51 Basic formula price.

The "basic formula price" shall be the average price per hundredweight for manufacturing grade milk, f.o.b. plants in Minnesota and Wisconsin, as reported by the Department for the month, adjusted to a 3.5 percent butterfat basis and rounded to the nearest cent. For such adjustment, the butterfat differential (rounded to the nearest one-tenth cent) per one-tenth percent butterfat shall be 0.12 times the simple average of the wholesale selling prices (using the midpoint of any price range as one price) of Grade A (92-score) bulk butter per pound at Chicago, as reported by the Department for the month. For the purpose of computing the Class I price, the resulting price shall be not less than $4.33.

§ 1099.52 Plant location adjustments for handlers.

(a) For milk received from producers at a pool plant located more than 40 miles by shortest highway distance as measured by the market administrator, from the nearest County Courthouse in any of the counties included in the marketing area and disposed of as Class I milk or assigned Class I location adjustment credit pursuant to paragraph (b) of this section, the price computed pursuant to § 1099.50(a) shall be reduced by 7.5 cents, plus 1.5 cents for each 10 miles or fraction thereof that such distance exceeds 50 miles.

(b) For purposes of calculating such adjustment, transfers between pool plants shall be assigned Class I disposition at the transferee-plant, in excess of the sum of 95 percent of the receipts at such plant from producers and handlers described in § 1099.9(c), and the volume assigned as Class I to receipts from other order plants (and unregulated supply plants) such assignment to be made first to transferor-plants at which no location adjustment credit is applicable and then in sequence beginning with the plant at which the least location adjustment would apply.

(c) The Class I price applicable to other source milk shall be adjusted at the rates set forth in paragraph (a) of this section, except that the adjusted Class I price shall not be less than the Class III price.

§ 1099.53 Announcement of class prices.

The market administrator shall announce publicly on or before the fifth day of each month the Class I price for the following month and the Class II and Class III prices for the preceding month.

UNIFORM PRICE

§ 1099.60 Handler's value of milk for computing uniform price.

For the purpose of computing the uniform price, the market administrator shall determine for each month the value of milk of each handler with respect to each of his pool plants and of each handler described in § 1099.9 (b) and (c) as follows:

(a) Multiply the pounds of producer milk in each class as determined pursuant to § 1099.44 by the applicable class prices and add the resulting amounts;

(b) Add the amounts obtained from multiplying the pounds of overage subtracted from each class pursuant to § 1099.44(a)(14) and the corresponding step of § 1099.44(b) by the respective class prices, as adjusted by the butterfat differential specified in § 1099.74, that are applicable at the location of the pool plant;

(c) Add the amount obtained from multiplying the difference between the Class III price for the preceding month and the Class I price applicable at the location of the pool plant or the Class II price, as the case may be, for the current month by the hundredweight of skim milk and butterfat subtracted from Class I and Class II pursuant to § 1099.44(a)(9) and the corresponding step of § 1099.44(b);

(d) Add the amount obtained from multiplying the difference between the Class I price applicable at the location of the pool plant and the Class III price by the hundredweight of skim milk and butterfat subtracted from Class I pursuant to § 1099.44(a)(7)(i) through (iv) and the corresponding step of § 1099.44(b), excluding receipts of bulk fluid cream products from another order plant;

(e) Add the amount obtained from multiplying the difference between the Class I price applicable at the location of the transferor-plant and the Class III price by the hundredweight of skim milk and butterfat subtracted from Class I pursuant to § 1099.44(a)(7)(v) and (vi) and the corresponding step of § 1099.44(b); and

(f) Add the amount obtained from multiplying the Class I price applicable at the location of the nearest unregulated supply plants from which an equivalent volume was received by the pounds of skim milk and butterfat subtracted from Class I pursuant to § 1099.44(a)(11) and the corresponding step of § 1099.44(b), excluding such skim milk and butterfat in receipts of bulk fluid milk products from an unregulated supply plant to the extent that an equivalent amount of skim milk or butterfat disposed of to such plant by handlers fully regulated under any Federal milk order is classified and priced as Class I milk and is not used as an offset for any other payment obligation under any order.

§ 1099.61 Computation of uniform price (including weighted average price).

For each month, the market administrator shall compute the uniform price per hundredweight of milk of 3.5 percent butterfat content, f.o.b. market, received from producers as follows:

(a) Combine into one total the values computed pursuant to § 1099.60 for all handlers who filed the reports prescribed by § 1099.30 for the month and who made the payments pursuant to §§ 1099.71 and 1099.73 for the preceding month;

(b) Add an amount equivalent to the sum of the net deductions (reductions less increases) for location adjustments to be made from producer payments pursuant to § 1099.75;

(c) Add an amount equivalent to one-half the unobligated balance in the producer-settlement fund;

(d) Divide the resulting amount by the sum of the following for all handlers included in these computations:

(1) The total hundredweight of producer milk; and

(2) The total hundredweight for which a value is computed pursuant to § 1099.60(f);

(e) Subtract not less than 4 cents nor more than 5 cents from the amount computed pursuant to paragraph (d) of this section. The resulting figure shall be the "weighted average price," and, except for the months specified below, shall be the "uniform price" for milk received from producers;

(f) For the months specified in paragraphs (g) and (h) of this section, subtract from the amount resulting from the computations pursuant to paragraphs (a) through (c) of this section an amount computed by multiplying the hundredweight of milk specified in paragraph (d)(2) of this section by the weighted average price;

(g) For each of the months of April, May, June, and July, subtract an amount equal to 50 cents per hundredweight on the total amount of producer milk in these computations, which amount is to be retained in the producer-settlement fund and disbursed according to the provisions of paragraph (h) of this section;

(h) For each of the months of October, November, December, and January add one-fourth of the total amount subtracted pursuant to paragraph (g) of this section;

(i) Divide the resulting sum by the total hundredweight of producer milk included in these computations; and

(j) Subtract not less than 4 cents nor more than 5 cents per hundredweight. The result shall be the "uniform price" for milk received from producers.

§ 1099.62 Announcement of uniform price and butterfat differential.

The market administrator shall announce publicly on or before:

(a) The fifth day after the end of each month the butterfat differential for such month; and

(b) The 10th day after the end of each month the uniform price for such month.

PAYMENTS FOR MILK

§ 1099.70 Producer-settlement fund.

The market administrator shall establish and maintain a separate fund, known as the "producer-settlement fund", which shall function as follows:

(a) All payments made by handlers, pursuant to §§ 1099.71, 1099.76, and 1099.77 shall be deposited in this fund, and all payments made pursuant to §§ 1099.72 and 1099.77 shall be made from this fund: *Provided,* That payments due to any handler shall be offset by payments due from such handler; and

(b) All amounts subtracted pursuant to § 1099.61(g) shall be deposited in this fund and set aside as an obligated balance until withdrawn to effectuate § 1099.73 in accordance with the requirements of § 1099.61(h).

§ 1099.71 Payments to the producer-settlement fund.

(a) On or before the 12th day after the end of the month, each handler shall pay to the market administrator the amount, if any, by which the amount specified in paragraph (a)(1) of this section exceeds the amount specified in paragraph (a)(2) of this section:

(1) The total value of milk of the handler for such month as determined pursuant to § 1099.60.

(2) The sum of:

(i) The value at the uniform price, as adjusted pursuant to § 1099.75, of such handler's receipts of producer milk; and

(ii) The value at the weighted average price applicable at the location of the plant from which received of other source milk for which a value is computed pursuant to § 1099.60(f).

(b) On or before the 25th day after the end of the month each person who operated an other order plant that was regulated during such month under an order providing for individual-handler pooling shall pay to the market administrator an amount computed as follows:

(1) Determine the quantity of reconstituted skim milk in filled milk in route disposition from such plant in the mar-

V 39 87 MAY 3 74 XUM

keting area which was allocated to Class I at such plant. If there is such route disposition from such plant in marketing areas regulated by two or more marketwide pool orders, the reconstituted skim milk allocated to Class I shall be prorated to each order according to such route disposition in each marketing area; and

(2) Compute the value of the reconstituted skim milk assigned in paragraph (b)(1) of this section to route disposition in this marketing area by multiplying the quantity of such skim milk by the difference between the Class I price under this part that is applicable at the location of the other order plant (but not to be less than the Class III price) and the Class III price.

§ 1099.72 Payments from the producer-settlement fund.

On or before the 13th day after the end of each month the market administrator shall pay to each handler the amount, if any, by which the amount computed pursuant to § 1099.71(a)(2) exceeds the amount computed pursuant to § 1099.71(a)(1). If at such time the balance in the producer-settlement fund is insufficient to make all payments pursuant to this section, the market administrator shall reduce uniformly such payments and shall complete such payments as soon as the appropriate funds are available.

§ 1099.73 Payments to producers and to cooperative associations.

(a) Except as provided in paragraph (b) of this section, each handler operating a pool plant shall make payment to each producer from whom milk is received during the month as follows:

(1) On or before the last day of each month to each such producer who did not discontinue shipping milk to such handler before the 25th day of the month, an amount equal to not less than the Class III price for the preceding month multiplied by the hundredweight of milk received from such producer during the first 15 days of the month, less proper deductions authorized by such producer to be made from payments due pursuant to this subparagraph;

(2) On or before the 17th day of the following month, an amount equal to not less than the uniform price, as adjusted pursuant to §§ 1099.74 and 1099.75, multiplied by the hundredweight of milk received from such producer during the month, subject to the following adjustments: (i) Less payments made to such producer pursuant to paragraph (a)(1) of this section, (ii) less deductions for marketing services made pursuant to § 1099.86, (iii) plus or minus adjustments for errors made in previous payments made to such producer, and (iv) less proper deductions authorized in writing by such producer: *Provided*, That if by such date such handler has not received full payment pursuant to § 1099.72 from the market administrator for such month, he may reduce pro rata his payments to producers by not more than the amount of such underpayment. Payments to producers shall be completed thereafter not later than the date for making payments pursuant to this paragraph next following after the receipt of the balance due from the market administrator;

(b) In the case of a cooperative association qualified pursuant to § 1099.18 which has so requested any handler in writing, such handler shall on or before the third day prior to the date on which payments are due individual producers pursuant to paragraph (a) of this section pay the cooperative association for milk received during the month from the producer members of such association an amount equal to not less than the amount due such producer members pursuant to paragraph (a) of this section: *Provided*, That the proper deductions referred to in paragraphs (a)(1) and (2)(iv) of this section shall be valid in the case of cooperative members only if authorized in writing by such cooperative;

(c) Each handler shall also make payment to a cooperative association delivering milk to such handler pursuant to § 1099.9(c) for milk so delivered as follows:

(1) On or before the 28th day of the month an amount equal to not less than the Class III price for the preceding month multiplied by the hundredweight of milk so received from such cooperative association during the first 15 days of the month, less proper deductions authorized in writing by the cooperative association;

(2) On or before the 14th day of the following month not less than the uniform price, as adjusted pursuant to §§ 1099.74 and 1099.75, multiplied by the hundredweight of milk so received from the cooperative association during the month, subject to the following adjustments: (i) less payments made to such cooperative association pursuant to paragraph (c)(1) of this section and (ii) less proper deductions authorized in writing by such cooperative association: *Provided*, That if by such date the handler has not received full payment pursuant to § 1099.72 from the market administrator for such month, he may reduce pro rata his payments on such milk as in the case of payments to producers pursuant to paragraph (a) of this section, and payments hereunder shall be completed not later than the date for making payments pursuant to this subparagraph next following the receipt of the balance due from the market administrator;

(d) On or before the 14th day of the following month each handler shall pay to a cooperative association, with respect to such milk as was received from the association in its capacity as a handler operating a pool plant during the month not less than the value of such milk at the class prices, as adjusted by the butterfat differential specified in § 1099.74, that are applicable at the location of the handler's pool plant; and

(e) Each handler who receives producer milk for which payment is to be made to a cooperative association pursuant to paragraph (b) of this section shall report to such cooperative association with respect to each such producer as follows:

(1) On or before the 25th day of the month, the total pounds of milk received during the first 15 days of such month; and

(2) On or before the 7th day of the following month (i) the pounds of milk received each day and the total for the month together with the butterfat content of such milk, (ii) the amount or rate and nature of any deductions, and (iii) the amount and nature of payments due pursuant to § 1099.77.

§ 1099.74 Butterfat differential.

For milk containing more or less than 3.5 percent butterfat, the uniform price shall be increased or decreased, respectively, for each one-tenth percent butterfat variation from 3.5 percent by a butterfat differential, rounded to the nearest one-tenth cent, which shall be 0.115 times the simple average of the wholesale selling prices (using the midpoint of any price range as one price) of Grade A (92-score) bulk butter per pound at Chicago, as reported by the Department for the month.

§ 1099.75 Plant location adjustments for producers and on nonpool milk.

(a) The uniform price for producer milk received at a pool plant shall be reduced according to the location of the pool plant, and the uniform price for producer milk diverted to a nonpool plant shall be reduced according to the location of the pool plant from which it is diverted at the rates set forth in § 1099.52.

(b) For purposes of computations pursuant to §§ 1099.71 and 1099.72 the weighted average price shall be adjusted at the rates set forth in § 1099.52 applicable at the location of the nonpool plant from which the milk was received, except that the adjusted weighted average price shall not be less than the Class III price.

§ 1099.76 Payments by handler operating a partially regulated distributing plant.

Each handler who operates a partially regulated distributing plant shall pay on or before the 25th day after the end of the month to the market administrator for the producer-settlement fund the amount computed pursuant to paragraph (a) of this section. If the handler submits pursuant to §§ 1099.30(b) and 1099.31(b) the information necessary for making the computations, such handler may elect to pay in lieu of such payment the amount computed pursuant to paragraph (b) of this section:

(a) The payment under this paragraph shall be the amount resulting from the following computations:

(1) Determine the pounds of route disposition in the marketing area from the partially regulated distributing plant;

(2) Subtract the pounds of fluid milk products received at the partially regulated distributing plant:

(i) As Class I milk from pool plants and other order plants, except that subtracted under a similar provision of another Federal milk order; and

(ii) From another nonpool plant that is not an other order plant to the extent that an equivalent amount of fluid milk products disposed of to such nonpool plant by handlers fully regulated under any Federal milk order is classified and priced as Class I milk and is not used as an offset for any other payment obligation under any order;

(3) Subtract the pounds of reconstituted skim milk in route disposition in the marketing area from the partially regulated distributing plant;

(4) Multiply the remaining pounds by the difference between the Class I price and the weighted average price, both prices to be applicable at the location of the partially regulated distributing plant (but not to be less than the Class III price); and

(5) Add the amount obtained from multiplying the pounds of reconstituted skim milk specified in paragraph (a)(3) of this section by the difference between the Class I price applicable at the location of the partially regulated distributing plant (but not to be less than the Class III price) and the Class III price.

(b) The payment under this paragraph shall be the amount resulting from the following computations:

(1) Determine the value that would have been computed pursuant to § 1099.60 for the partially regulated distributing plant if the plant had been a pool plant, subject to the following modifications:

(i) Fluid milk products and bulk fluid cream products received at the partially regulated distributing plant from a pool plant or an other order plant shall be allocated at the partially regulated distributing plant to the same class in which such products were classified at the fully regulated plant;

(ii) Fluid milk products and bulk fluid cream products transferred from the partially regulated distributing plant to a pool plant or an other order plant shall be classified at the partially regulated distributing plant in the class to which allocated at the fully regulated plant. Such transfers shall be allocated to the extent possible to those receipts at the partially regulated distributing plant from pool plants and other order plants that are classified in the corresponding class pursuant to paragraph (b)(1)(i) of this section. Any such transfers remaining after the above allocation which are classified in Class I and for which a value is computed for the handler operating the partially regulated distributing plant pursuant to § 1099.60 shall be priced at the uniform price (or at the weighted average price if such is provided) of the respective order regulating the handling of milk at the transferee-plant, with such uniform price adjusted to the location of the nonpool plant (but not to be less than the lowest class price of the respective order), except that transfers of reconstituted skim milk in filled milk shall be priced at the lowest class price of the respective order; and

(iii) If the operator of the partially regulated distributing plant so requests, the value of milk determined pursuant to § 1099.60 for such handler shall include, in lieu of the value of other source milk specified in § 1099.60(f) less the value of such other source milk specified in § 1099.71(a)(2)(ii), a value of milk determined pursuant to § 1099.60 for each nonpool plant that is not an other order plant which serves as a supply plant for such partially regulated distributing plant by making shipments to the partially regulated distributing plant during the month equivalent to the requirements of § 1099.7(b), subject to the following conditions:

(*a*) The operator of the partially regulated distributing plant submits with his reports filed pursuant to §§ 1099.30(b) and 1099.31(b) similar reports for each such nonpool supply plant;

(*b*) The operator of such nonpool supply plant maintains books and records showing the utilization of all skim milk and butterfat received at such plant which are made available if requested by the market administrator for verification purposes; and

(*c*) The value of milk determined pursuant to § 1099.60 for such nonpool supply plant shall be determined in the same manner prescribed for computing the obligation of such partially regulated distributing plant; and

(2) From the partially regulated distributing plant's value of milk computed pursuant to paragraph (b)(1) of this section, subtract:

(i) The gross payments by the operator of such partially regulated distributing plant, adjusted to a 3.5 percent butterfat basis by the butterfat differential specified in § 1099.74, for milk received at the plant during the month that would have been producer milk if the plant had been fully regulated;

(ii) If paragraph (b)(1)(iii) of this section applies, the gross payments by the operator of such nonpool supply plant, adjusted to a 3.5 percent butterfat basis by the butterfat differential specified in § 1099.74, for milk received at the plant during the month that would have been producer milk if the plant had been fully regulated; and

V 39 I 87 MAY 3 74 XUM

(iii) The payments by the operator of the partially regulated distributing plant to the producer-settlement fund of another order under which such plant is also a partially regulated distributing plant and like payments by the operator of the nonpool supply plant if paragraph (b)(1)(iii) of this section applies.

§ 1099.77 Adjustment of accounts.

Whenever verification by the market administrator of payments by any handler discloses errors made in payments to the producer-settlement fund, the market administrator shall promptly bill such handler for any unpaid amount and such handler shall, within 15 days, make payment to the market administrator of the amount so billed. Whenever verification discloses that payment is due from the market administrator to any handler, the market administrator shall, within 15 days, make such payment to such handler. Whenever verification by the market administrator of the payment by a handler to any producer or cooperative association for milk received by such handler discloses payment of less than is required by § 1099.73, the handler shall make up the difference of such payment not later than the next time for making payments as set forth in the provisions relating to payments which were in error.

ADMINISTRATIVE ASSESSMENT AND MARKETING SERVICE DEDUCTION

§ 1099.85 Assessment for order administration.

As his pro rata share of the expense of administration of the order, each handler shall pay to the market administrator on or before the 15th day after the end of the month five cents per hundredweight, or such lesser amount as the Secretary may prescribe, with respect to:

(a) Producer milk (including such handler's own production) and milk received from a handler described in § 1099.9(c);

(b) Other source milk allocated to Class I pursuant to § 1099.44(a) (7) and (11) and the corresponding steps of § 1099.44(b), except such other source milk that is excluded from the computations pursuant to § 1099.60 (d) and (f); and

(c) Route disposition in the marketing area from a partially regulated distributing plant that exceeds the skim milk and butterfat subtracted pursuant to § 1099.76(a)(2);

§ 1099.86 Deduction for marketing services.

(a) *Deductions for marketing services.* Except as set forth in paragraph (b) of this section, each handler in making payments to producers pursuant to § 1099.73 with respect to milk received from producers (excluding such handler's own farm production), shall deduct 6 cents per hundredweight, or such lesser amount as the Secretary may prescribe; and, on or before the 20th day after the end of the month, shall pay such deductions to the market administrator. Such moneys shall be expended by the market administrator to verify weights, samples, and tests of the milk of such producers and to provide such producers with market information. Such services shall be performed in whole or in part by the market administrator or by an agent engaged by and responsible to him.

(b) *Cooperative associations.* In the case of producers who are members of a cooperative association, which the Secretary has determined is actually performing the services set forth in paragraph (a) of this section and which is not receiving payment for its producer members, each handler shall make, in lieu of the deductions specified in paragraph (a) of this section, such deductions from the payments to be made to such producers pursuant to § 1099.73(b) as may be authorized by the membership agreement or marketing contract between such cooperative association and such producers, and on or before the 20th day after the end of each month, pay over such deductions to the association rendering such services.

(Secs. 1–9, 48 Stat. 31, as amended; (7 U.S.C. 601–674)

Effective date: August 1, 1974.

Signed at Washington, D.C., on: April 29, 1974.

RICHARD L. FELTNER,
Assistant Secretary.

Title 45—Public Welfare

CHAPTER I—OFFICE OF EDUCATION, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

PART 189—VETERANS' COST-OF-INSTRUCTION PAYMENTS TO INSTITUTIONS OF HIGHER EDUCATION

A proposal was published in the FEDERAL REGISTER on April 16, 1973 (Vol. 38, No. 72, p. 9472) to add a new Part 189 to Chapter I of Title 45 of the Code of Federal Regulations in accordance with the authority contained in section 420 of the Higher Education Act of 1965 (20 U.S.C. 1070e–1), "Veterans' cost-of-instruction payments to institutions of higher education." These proposed regulations were promulgated as final regulations upon publication in the FEDERAL REGISTER on October 9, 1973 (Vol. 38, No. 194, p. 27825). The regulations established the procedures by which, and the conditions under which, institutions of higher education could apply for payments on the basis of undergraduate veteran enrollment, to be used for the support of improved and expanded services to veterans and to defray instructional expenses in academically related programs.

The continuation of the program necessitates several revisions in the regulations. Among these are the following:

1. Provision has been made for renewal applications.

2. Dates for counting undergraduate veteran students have been designated as April 16 (the eligibility determination date, identical with last year's eligibility determination date for the convenience of applicants), October 16, and February 16.

3. An institution's required office of veterans' affairs must be staffed by at least one person employed for such purpose on a full-time basis.

4. An additional general criterion for evaluating the adequacy of an institution's veterans' programs will be the coordination of veterans' services with other campus services available to veterans.

5. There will be required assurances that (a) an institution will initiate required veterans' services not later than 90 days after the date of award notification and (b) the required services will be reasonably accessible to all undergraduate veteran students on behalf of whom funds are received by the institution under the program.

6. Several changes have been made in light of certain parts of the Office of Education's General Provisions regulations and the Department's Grant Administration regulations.

After consideration of the relatively minor nature of the amendments and the need to receive and process applications in the near future, it has been determined purusant to 5 U.S.C. 553 that the solicitation of comment as to the regulatory amendments hereby made would be impracticable, unnecessary, and contrary to the public interest.

In light of the foregoing, the regulations are hereby amended as set forth below.

Effective date. These regulatory amendments are effective 30 days after the date of publication in the FEDERAL REGISTER.

Dated: March 26, 1974.

JOHN OTTINA,
U.S. Commissioner of Education.

DONALD E. JOHNSON,
Administrator of Veterans' Affairs.

Approved: April 29, 1974.

CASPAR W. WEINBERGER,
Secretary of Health, Education, and Welfare.

APRIL 5, 1974.

Subpart A—General Provisions

§ 189.1 Definitions.

As used in this part:

"Academic year" means a period beginning on July 1 and ending on the following June 30.

"Cost-of-instruction payment," or "payment," means an amount calculated with respect to an institution of higher education for an academic year on the basis of undergraduate veteran student enrollment.

"Institution of higher education," or "institution," means an educational institution in any State which: (a) Admits as regular students only persons having a certificate of graduation from a school providing secondary education, or the recognized equivalent of such a certificate, (b) is legally authorized within such State to provide a program of education beyond secondary education, (c) provides an educational program for which it awards a bachelor's degree or provides not less than a 2-year program which is acceptable for full credit toward such a degree, (d) is a public or other nonprofit institution, and (e) is accredited by a nationally recognized accrediting agency or association as determined by the Commissioner or, if not so accredited, (1) is an institution with respect to which the Commissioner has determined that there is satisfactory assurance, considering the resources available to the institution, the period of time, if any, during which it has operated, the effort it is making to meet accreditation standards, and the purpose for which this determination is being made, that the institution will meet the accreditation standards of such an agency or association within a reasonable time, or (2) is an institution whose credits are accepted, on transfer, by not less than three institutions which are so accredited, for credit on the same basis as if transferred from an institution so accredited. Such term also includes any school which provides not less than a 1-year program of training to prepare students for gainful employment in a recognized occupation and which meets the provisions of clauses (a), (b), (d), and (e) of this definition.

"Instructional expenses in academically related programs" means the expenditures of instructional departments of an institution of higher education for salaries, office expenses, equipment, and research.

"School or department of divinity" means an institution or a department or a branch of an institution the program of instruction of which is designed for the education of students (a) to prepare them to become ministers of religion or to enter upon some other religious vocation (or to provide continuing training for any such vocation), or (b) to prepare them to teach theological subjects.

"State" includes the 50 States, the District of Columbia, the Commonwealth of Puerto Rico, Guam, American Samoa, the Virgin Islands, and the Trust Territory of the Pacific Islands.

"Student" means a person in attendance as at least a half-time student at an institution of higher education. The term is further defined as follows:

(a) "Full-time student" means a student who (1) is enrolled for the equivalent of at least 14 semester hours or (2) is enrolled for the equivalent of not less than 12 semester hours and is being charged on the basis of the institution's normal full-time fee schedule.

(b) "Three-quarter time student" means a student who (1) is enrolled for the equivalent of 10 through 13 semester hours or (2) is enrolled for the equivalent of not less than 9 semester hours and is being charged at least three-quarters of the institution's normal full-time fees.

(c) "Half-time student" means a student who (1) is enrolled for the equivalent of 7 through 9 semester hours or (2) is enrolled for the equivalent of not less

V 391 87
MAY 3 74
XUM

than 6 semester hours and is being charged at least one-half of the institution's normal full-time fees.

"Undergraduate" refers to a student who (a) has not earned his first bachelor's degree, (b) is not enrolled in a program of study leading to (1) a degree beyond the bachelor's degree or (2) a first professional degree when at least 3 years of study at the college level are required for entrance into a program leading to such degree, and (c)(1) is fully matriculated and pursuing a program of studies leading to a certificate or diploma or (2) is receiving or has received educational assistance under subchapter V or subchapter VI of chapter 34 of title 38, United States Code.

"Veteran" means a person receiving benefits under chapter 31 or chapter 34 of title 38, United States Code, or who, if enrolled in an institution of higher education, would be eligible for such benefits.

(20 U.S.C. 1070e, 1070e–1, 1088, 1141.)

§ 189.2 Institutional eligibility.

(a) To apply for assistance under this part, an applicant must be an institution of higher education, and must meet the requirements specified in paragraph (b) or (c) of this section.

(b) In order for an institution of higher education to apply for assistance under this part during an academic year following one during which it was not eligible for or did not apply for such assistance, it must have in attendance on April 16 of such academic year (or, where such date falls between academic terms of the institution, the end of the previous academic term), a number of undergraduate veteran students receiving benefits under chapter 31 or chapter 34 of title 38, United States Code (or who have received benefits under subchapter V or subchapter VI of such chapter 34 while attending such institution during that academic year) equal to at least 110 percent of the number of undergraduate veteran students who were in attendance on the first counting date adopted under this part for the preceding academic year and were at that time receiving benefits under chapter 31 or chapter 34 of title 38, United States Code (or had received benefits under subchapter V or subchapter VI of such chapter 34 while attending such institution during that academic year).

(c) In order for an institution of higher education to apply for assistance under this part during an academic year following one during which it has received such assistance, it must have in attendance on April 16 of such academic year (or, where such date falls between academic terms of the institution, the end of the previous academic term), a number of undergraduate veteran students receiving benefits under chapter 31 or chapter 34 of title 38, United States Code (or who have received benefits under subchapter V or subchapter VI of such subchapter 34 while attending such institution during that academic year) equal to at least the number of undergraduate veteran students who were in attendance on the first counting date adopted under this part for the preceding academic year and were at that time receiving benefits under chapter 31 or chapter 34 of title 38, United States Code (or had received benefits under subchapter V or subchapter VI of such chapter 34 while attending such institution during that academic year).

(d) Schools or departments of divinity and proprietary institutions (i.e., organized for profit) are not eligible to apply for assistance under this part.

(20 U.S.C. 1070e–1.)

§ 189.3 Calculation of cost-of-instruction payment.

(a) To compute an institution's cost-of-instruction payment under this part the Commissioner of Education shall determine on the basis of data provided by the institution:

(1) The number of undergraduate veteran students in attendance on the applicable dates specified in paragraph (b) of this section who are at those times recipients of vocational rehabilitation subsistence under chapter 31 of title 38, United States Code, or of educational assistance under chapter 34 of title 38, United States Code, and to whom the services required by §§ 189.12 and 189.13 will be reasonably accessible, and

(2) The number of undergraduate veteran students in attendance on the applicable dates specified in paragraph (b) of this section who have ever received educational assistance under subchapter V or subchapter VI of chapter 34 of title 38, United States Code, and to whom the services required by §§ 189.12 and 189.13 will be reasonably accessible.

(b) A cost-of-instruction payment for a given academic year shall, subject to the availability of funds, be computed on the basis of the number of students in attendance on April 16 of the preceding academic yea rand October 16 and February 16 of the given year or, where such dates fall between academic terms of the institution, the end of the previous academic term), and at the following annual rate:

(1) For students described in paragraph (a)(1) of this section:

(i) $300 per full-time student;

(ii) $225 per three-quarter time student:

(iii) $150 per half-time student; and

(iv) No payment for students not enrolled as at least half-time students.

(2) For students described in paragraph (a)(2) of this section:

(i) $150 per full-time student;

(ii) $112.50 per three quarter time student;

(iii) $75 per half-time student; and

(iv) No payment for students not enrolled as at least half-time students.

(c) One third of the program funds available for a given academic year shall be used for payment to institutions based on enrollment data for April 16 of the preceding academic year, one third of the funds shall be used for payment based on enrollment data for October 16 of the given year, and one third of the funds shall be used for payments based on enrollment data for February 16 of the given year.

(d) Notwithstanding any other provision of this section, the amount of the second or third payment to an institution for any academic year may not exceed the amount of the first payment to such institution for such year.

(20 U.S.C. 1070e–1, 31 U.S.C. 701)

§ 189.4 Applicability of civil rights provisions.

(a) Federal financial assistance under this part is subject to the regulations in part 80 of this title, issued by the Secretary of Health, Education, and Welfare and approved by the President, to effectuate the provisions of title VI of the Civil Rights Act of 1964 (Public Law 88–352).

(42 U.S.C. 2000d.)

(b) Federal financial assistance under this part is also subject to the provisions of title IX of the Education Amendments of 1972 (prohibition of sex discrimination) and any regulations issued thereunder.

(20 U.S.C. 1681–86; Public Law 92–318, section 906.)

Subpart B—Required Services and Use of Funds

§ 189.11 Special definitions.

For purposes of this subpart:

(a) "Full-time," with respect to an office of veterans' affairs, means that the office of veterans' affairs (1) is staffed by at least one person who is employed by an institution on a full-time basis and whose sole institutional responsibility is that of coordinating the activities of the office and (2) provides services at times and places convenient to the veterans being served.

(b) "Outreach" means an extensive, coordinated, communitywide program of reaching veterans within the institution's normal service area, determining their needs, and making appropriate referral and follow-up arrangements with relevant service agencies.

(c) "Recruitment" means a concerted effort to interest veterans in taking advantage of opportunities for a wide variety of postsecondary training experiences at the institution.

(d) "Special education programs" means specially designed remedial, tutorial, and motivational programs designed to promote success in the postsecondary experience.

(e) "Counseling" means professional assistance available to veterans for consultation on personal, family, educational, and career problems.

(20 U.S.C. 1070e–1.)

§ 189.12 Office of veterans' affairs.

Except as provided in § 189.14, an application for assistance under this part shall be approved only if the Commissioner is satisfied that the applicant will maintain, during the period for which the award is made, a full-time office of veterans' affairs with adequate services, in light of the criteria set forth in § 189.16, in the areas of outreach, recruitment, special education programs, and counseling.

(20 U.S.C. 1070e–1.)

§ 189.13 Related veterans' services.

Except as provided in § 189.14, an application for assistance under this part shall be approved only if the Commissioner is satisfied that the applicant will, during the period for which the award is made, make an adequate effort, in the criteria set forth in § 189.16 and with funds received under this part, to carry out:

(a) Programs designed to prepare educationally disadvantaged veterans for postsecondary education (1) under subchapter V of chapter 34 of title 38, United States Code, and (2) in the case of any institution located near a military installation, under subchapter VI of such chapter 34;

(b) Active outreach, recruiting, and counseling activities through the use of other funds such as those available under federally assisted work-study programs; and

(c) An active tutorial assistance program (including dissemination of information regarding such program) in order to make maximum use of the benefits available under section 1692 of such title 38.

(20 U.S.C. 1070e–1.)

§ 189.14 Institutions with small numbers of students and veterans.

An institution with less than 2,500 students and no more than 70 undergraduate veteran students in attendance on April 16 (or, where such date falls between academic terms of the institution, the end of the previous academic term) of an academic year during which assistance under this part is sought need provide the services described in § 189.12 only to the extent of maintaining a full-time office of veterans' affairs with adequate services in the areas of recruitment and counseling, and need not provide the services described in § 189.13.

(20 U.S.C. 1070e–1.)

§ 189.15 Consortium agreements.

In the case of an institution with less than 2,500 students in attendance on April 16 (or, where such date falls between academic terms of the institution, the end of the previous academic term) of an academic year during which assistance under this part is sought, the Commissioner may permit one or more of the functions set forth in §§ 189.12 and 189.13 to be carried out under a consortium agreement between that institution and one or more other such institutions located within a reasonable commuting distance therefrom if he finds that (a) such institution cannot feasibly itself carry out such functions, and (b) the benefits of such functions will be readily accessible to veterans attending, and to veterans in the community served by, each of the institutions which are parties to the agreement.

(20 U.S.C. 1070e–1.)

§ 189.16 Criteria for assessing adequacy of veterans' programs.

An applicant institution's assurance pursuant to § 189.21(b)(6), with respect to the requirements of §§ 189.12 and 189.13 and to the extent that such requirements are not waived pursuant to § 189.14, shall be made in light of the following criteria, which criteria shall also be used by the Commissioner in evaluating the adequacy of the institution's veterans' programs:

(a) *In general.*—(1) Appropriate consideration of the magnitude of the veteran population in the institution's normal service area;

(2) Appropriate consideration of the number of veterans enrolled at the institution;

(3) The establishment of an appropriate advisory mechanism, to assist in the institution's decisionmaking process with respect to veterans' services as appropriate, through which the institution may become aware of the views of the institution's administrative and academic staff, its veteran student population, and relevant community organizations;

(4) The use of qualified Vietnam-era veterans in staffing the institution's office of veterans' affairs and in providing related services;

(5) The employment of a sufficient number of qualified staff members in order to adequately support required veterans' activities and services;

(6) The provision of adequate, visible and accessible housing for the institution's office of veterans' affairs, in light of the institution's veteran student enrollment and physical environment; and

(7) The coordination of veterans' services with other campus services available to veterans, such as admissions, student financial aid, counseling, and job placement.

(b) With respect to outreach, the establishment and maintenance of—

(1) Contact with veterans in the institution's normal service area;

(2) A procedure for assessing veterans' needs, problems, and interests; and

(3) A coordinated and extensive referral service involving agencies providing assistance in areas such as housing, employment, health, recreation, vocational and technical training, and financial assistance;

(c) With respect to recruitment, the establishment and maintenance of a process of bringing the maximum number of veterans into purposeful systematic programs of postsecondary education most suited to their educational and career aspirations, including such techniques as publications, use of mass media, and personal contacts;

(d) With respect to special education programs, the establishment and maintenance of:

(1) Support from appropriate departments of the institution for launching special education programs for the veteran student of a remedial, motivational, and tutorial nature;

(2) Support throughout the institution for appropriate changes in rules, policies, and procedures that will accommodate the special needs and problems of the veteran student; and

(3) Adequate guidance for individual veteran students that will insure the highest possible rate of their retention in educational programs; and

(e) With respect to counseling, the establishment and maintenance of—

(1) Ease of access of veteran students to professional assistance for consultation on personal, family, educational, and career problems as appropriate and necessary; and

(2) Frequent and scheduled liaison of the office of veterans' affairs with the institution's academic departments, counseling service, and central administration.

(20 U.S.C. 1070e–1)

§ 189.17 Expenditure requirements.

(a) Not less than (1) 50 percent of funds awarded on account of undergraduate veteran student enrollment at an institution under this part or (2) the amount of funds needed to implement the requirements of §§ 189.12 and 189.13, whichever is greater, shall be used to implement such requirements. Any remaining awarded funds may be used solely to defray instructional expenses in academically related programs of such institution.

(b) All assistance received under this part must be expended or obligated for the foregoing purposes not later than the end of the period for which the award is made. Obligations will be considered to have been incurred by a recipient on the basis of documentary evidence of binding commitments for the acquisition of goods or property or for the performance of work, except that funds for personal services, for services performed by public utilities, for travel, and for the rental of facilities, shall be considered to have been obligated as of the time such services were rendered, such travel was performed, and such rented facilities were used, respectively.

(20 U.S.C. 1070e, 1070–1, 1232c(b)(2); 31 U.S.C. 200)

Subpart C—Application Process

§ 189.21 Submission of application by individual institutions.

(a) Assistance under this part will be provided only on the basis of an application submitted by an institution which sets forth all information necessary to determine the institution's eligibility and payment amount.

(b) Each application must be submitted on a form to be provided by the Commissioner and contain the following:

(1) Information necessary to show that the institution is eligible for assistance under this part;

(2) Information necessary to determine the amount of the institution's payment, in accordance with § 189.3;

(3) An assurance that any funds received by the institution under this part

V 39 I 87 MAY 3 74 XUM

will not be used for a school or department of divinity or for any religious worship or sectarian activity;

(4) An assurance that any funds received by the institution under this part which are not required pursuant to § 189.17 to be used to implement the requirements of §§ 189.12 and 189.13 will be used solely to defray instructional expenses in academically related programs of the institution;

(5) An assurance that the institution will expend during the period for which the award is made, for all academically related programs of the institution, an amount equal in terms of either total or per student expenditure to at least the average amount so expended during the 3 academic years preceding such period, together with such supporting data as the Commissioner may require;

(6) An assurance that the institution will carry out the requirements set forth in §§ 189.12 and 189.13;

(7) An assurance that the institution will initiate the services required by §§ 189.12 and 189.13 not later than 90 days after the date of award notification;

(8) An assurance that the services required by § § 189.12 and 189.13 will be reasonably accessible to all undergraduate veteran students on behalf of whom funds are received by the institution under this part; and

(9) If the institution is seeking a waiver of any of the required activities specified in §§ 189.12 and 189.13 pursuant to § 189.14, information necessary to show that it has less than 2,500 students and not more than 70 undergraduate veteran students in attendance on April 16 (or, where such date falls between academic terms of the institution, the end of the previous academic term) of the academic year during which assistance under this part is sought.

(20 U.S.C. 1070e–1.)

§ 189.22 Submission of applications by parties to consortium agreements.

Institutions proposing to carry out the activities required under this part through a consortium agreement, pursuant to § 189.15, must submit their applications on a form to be provided by the Commissioner, and each such institution must provide all information and assurances required pursuant to § 189.21 as well as information and assurances necessary to a finding by the Commissioner that the conditions for a consortium agreement set forth in § 189.15 have been met.

(20 U.S.C. 1070e–1.)

Subpart D—Fiscal and Reporting Requirements

§ 189.31 Maintenance of records.

(a) *Records.* Each institution and consortium of institutions shall keep intact and accessible records relating to the receipt and expenditure of Federal funds in accordance with section 434(a) of the General Education Provisions Act, including all accounting records and related original and supporting documents that substantiate direct costs charged to the award. Records must be maintained so as to reflect (1) expenditures made for veterans' services provided for under this part, and (2) expenditures made for instructional costs in academicaly related programs.

(b) *Period of retention.* (1) Except as provided in paragraph (b)(2) of this section and paragraph (a) of § 189.32, the records specified in paragraph (a) of this section shall be retained for 3 years after the date of the submission of the fiscal operations report, pursuant to § 189.33, to which they pertain.

(2) Records for nonexpendable personal property which was acquired with Federal funds shall be retained for 3 years after its final disposition.

(c) *Microfilm copies.* Institutions may substitute microfilm copies in lieu of original records in meeting the requirements of this section.

(20 U.S.C. 1232c(a).)

§ 189.32 Audits.

(a) *Audit questions.* The records involved in any claim or expenditure which has been questioned by Federal audit shal be further retained until resolution of any such audit questions.

(b) *Audit and examination.* The Secretary of Health, Education, and Welfare and the Comptroller General of the United States, or any of their duly authorized representatives, shall have access for the purpose of audit and examination to all such records and to any other pertinent books, documents, papers, and records of the institution or consortium of institutions. The Commissioner may, at any time before or after making a payment under this part, review the data supplied by an institution with respect to such payment and take appropriate action as a result thereof, including that of requiring the institution to return funds received on the basis of inaccurate data submitted by the institution.

(20 U.S.C. 1232c(a), (b)(2).)

§ 189.33 Fiscal operations reports.

(a) In addition to such other accounting as the Commissioner may require, an institution or consortium shall render annually, with respect to the assistance awarded under this part, a full account of funds expended, obligated, and remaining.

(b) A report of such accounting shall be submitted to the Commissioner within 90 days of the expiration of the academic year for which such assistance was awarded, and the institution or consortium shall remit within 30 days of the receipt of a written request therefor any amounts found by the Commissioner to be due. Such period may, upon written request, be extended at the discretion of the Commissioner.

(20 U.S.C. 1232c(b)(3); 31 U.S.C. 628)

§ 189.34 Limitations on costs.

(a) The maximum amount of a payment under this part shall be set forth in the award document. The total payment from the Federal Government will not exceed the amount so set forth.

(b) Institutions will be governed by the cost principles set forth in Part II of Appendix D of 45 CFR Part 74 (Part II of Appendix C of 45 CFR Subchapter A).

(31 U.S.C. 200; 20 U.S.C. 1070e–1.)

§ 189.35 Reporting requirements.

(a) Institutions of higher education, and consortiums thereof, receiving assistance under this part must submit to the Commissioner no more than 30 days after the close of each academic year, a report describing the manner in which the required veterans' services were provided during such academic year. Such a report shall be in a format approved by the Commissioner and shall make specific reference to the extent to which the criteria set forth in § 189.16 of this part have been met.

(b) Interim reports describing the progress being made in providing the veterans' services required pursuant to §§ 189.12 and 189.13 of this part shall be submitted if, and at such times as, the Commissioner deems such reports necessary.

(20 U.S.C. 1070e–1.)

CHAPTER XIV—NATIONAL INSTITUTE OF EDUCATION, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

SUBCHAPTER B—PROGRAM REGULATIONS FOR NATIONAL INSTITUTE OF EDUCATION

PART 1450—RESEARCH GRANTS PROGRAM

Notice of proposed rulemaking was published in the FEDERAL REGISTER on November 30, 1973 (38 FR 33102) setting forth certain policies, procedures, and requirements for the award of Federal funds under the Research Grants Program.

Interested persons were given 30 days in which to submit written comments, suggestions, or objections regarding the proposed rule. Comments were received only with respect to (1) the use of prospectuses for initial review (§ 1450.5(a)) and (2) the requirements for the prospectus format (§ 1450.5(b)).

After review and consideration of these comments from the public and consistent with prior policy resolutions adopted by the National Council on Educational Research on December 3, 1973, decisions either to change the regulation or to retain the original language have been reached as follows:

A. *Summary of comments; changes in the regulations.* Comments submitted to the National Institute of Education in response to the proposed regulations are discussed below. After the summary of each comment, a response is set forth stating changes which have been made or discussing the reasons why no change has been deemed necessary.

1. Section 1450.5(a) *Applications, General.—Comment.* One commenter objected to the use of the prospectus as "the primary document upon which judgments of quality, feasibility, and

funding are made," contending, in paraphase, that the prospectus system would place an inordinate concentration of control over educational research among a small group of administrative officials, create confusion among applicants summarizing their projects for reviewers of unknown expertise, and provide an inadequate basis for reviewer feedback to applicants.

Response. The commenter's objections appear in large part to be based upon a misunderstanding of the working of the proposed prospectus review system. The decision to use the system derived principally from recommendations of the general research community and of the review panels for the fiscal year 1973 Field Initiated Studies funding competition, where time and resources expended in preparation and review of full proposals from all applicants were greatly excessive in view of the number of projects ultimately founded. The use of prospectuses, tested in a portion of the fiscal year 1973 competition, is intended to reduce these excessive burdens upon the applicant community and the reviewing agency and should not preclude the operation of a peer review process. The review of prospectuses will be conducted not by administrative officials but by NIE's professional researchers and educational staff. Although complete proposals do allow for fuller descriptions of the intended research, carefully prepared prospectuses should allow for the identification of significant ideas and for equitable and reasoned judgments according to the criteria of § 1450.6 (b) and (c). The Institute will retain the prospectus system as proposed.

2. Section 1450.5(b) *Prospectus Format—Comment.* Two commenters proposed modifying the requirements for the prospectus format. One of them suggested that inclusion of the budget, resumes, and description of facilities within the scope of the three- to five-page document left inadequate space to treat the substance of the research activity. This commenter also questioned whether § 1450.5(b)(1)(v) required presentation of the actual estimated budget or only of the estimated total budget amount. Both commenters recommended that NIE require institutional endorsement of the estimated budget.

Response. (a) The proposed regulations did not require the resumes and budget to be prepared as part of the three- to five-page project statement; this summary was required to address only "Description and rationale, Procedures, and Facilities" (§ 1450.5(b)(2)). However, inasmuch as the Institute intends that the substance and procedures of the research activity per se be addressed by the project summary and for other information of an administrative nature to be addressed separately, § 1450.5(b)(2)(iii) is redesignated § 1450.5(b)(3), to remove "Facilities" from the scope of the summary statement. Subsequent subparagraphs are renumbered accordingly; (b) § 1450.5(b)(1)(v) is in fact intended to refer to the estimated total budget amount and the wording has been changed accordingly; (c) NIE is appreciative of the concerns expressed by commenters recommending a requirement for institutional endorsement of prospectuses. Section 1403.4 of the NIE proposed general provisions does in fact provide that applications "shall be executed by the applicant or an official or representative of the applicant duly authorized to make such application." While this requirement is not specifically applicable to submission of prospectuses, NIE has assumed that a prospectus would represent a submission by the applicant or duly authorized official of the applicant. In fact, instructions for the presentation of full proposals will specifically provide for institutional approval where the application is being made on behalf of an institution. However, inasmuch as estimated budgets will not be viewed as final or as expressions of commitment on the part of principal investigators, institutions, or NIE, and in recognition of the added time and effort often required to obtain additional institutional endorsement, NIE does not feel that such endorsement of prospectuses ought to be made mandatory. This is of course an NIE policy alone and should in no way be understood to modify individual institutional sign-off policies. The Institute will give further consideration to the need for revising the provisions of this section as experience under this program provides a basis for further judgment.

B. *Other changes.* 1. In § 1450.6, a new paragraph (b) Selected issues is added, and the proposed paragraph (b) Criteria for evaluation is redesignated (c). The new paragraph provides for the periodic identification of selected issues of particular significance for American education. Research which lies within the scope of at least one of such issues as are identified will receive priority consideration for funding under this part.

This addition is based upon a resolution adopted by the National Council on Educational Research on December 3, 1973, establishing five priority areas as the focus of new NIE activities and directing the initiation of a research grants program emphasizing the contributions of research to those areas. The identification of selected priority areas for research support reflects NIE's determination that it can best pursue the purposes of its Act by focusing its resources upon research which shows the greatest promise of solving the problems of American education. Attention is invited to the "Notice of Awards Competition and Prospectus Closing Date" which appeared in the Federal Register on January 4, 1974. (39 FR 1085) This notice specified research areas, which, in addition to criteria and requirements set forth in this part, will govern fiscal year 1974 funding decisions under this part, and a closing date for submission of prospectuses of January 28, 1974.

2. In § 1450.6(c) (paragraph (b) in the proposed rule) subparagraph (6) is deleted. The Institute feels that the criteria contained in this subparagraph will be adequately reflected in such issues as the Institute may select under new paragraph (b) of this section and that the deletion will preclude confusion between selected issues and criteria for evaluation in the review of applications.

Effective date. Because of the number of proposals anticipated for this program, the complexities of the proposal review process, the necessity for obligating funds by June 30, 1974, and the Director's desire to give each proposal full consideration, the Institute has determined that there is good cause for these regulations to take immediate effect. These regulations shall therefore be effective on May 3, 1974.

(Catalog of Federal Domestic Assistance Program No. 13.575, Educational Research and Development)

Dated: April 5, 1974.

THOMAS K. GLENNAN, JR.,
Director of National Institute of Education.

Approved: April 29, 1974.

CASPAR W. WIENBERGER,
Secretary of Health, Education, and Welfare.

Title 45 of the Code of Federal Regulations is amended by adding to Chapter XIV a new Subchapter B, Part 1450 reading as follows:

Sec.
1450.1 Scope.
1450.2 Purpose.
1450.3 Eligible research projects.
1450.4 Applicant eligibility.
1450.5 Applications.
1450.6 Review of applications.
1450.7 Inexperienced investigators.
1450.8 Project duration.

AUTHORITY: Sec. 405 of the General Education Provisions Act, as added by section 301(a)(2) of Pub. L. 92–318, 86 Stat. 328 (20 U.S.C. 1221e).

§ 1450.1 Scope.

(a) This part establishes procedural and substantive requirements and criteria governing the submission and review of applications for funds under the Research Grants Program.

(b) Project awards funded pursuant to this part shall be administered in accordance with the General Provisions regulation of the National Institute of Education (Subchapter A of this chapter).

§ 1450.2 Purpose.

The Research Grants Program will make awards in support of original research projects with relevance to American education proposed by eligible persons and organizations in any discipline or field of study. Research supported pursuant to this part must show promise of contributing toward one or more of the following goals:

(a) Making educational programs more effective in meeting the needs of persons from low-income families and from minority communities;

(b) Increasing the effectiveness of use of educational resources so that individuals and society can better afford high quality education; and

V 39 I 87 MAY 3 74 XUM

(c) Improving the quality of education generally.

§ 1450.3 Eligible research projects.

(a) As used in this part "research" includes activities designed to:

(1) increase or synthesize basic knowledge of processes and conditions relevant to human learning and education; or

(2) provide answers, of sufficient generality to be widely applicable, to important questions concerning actual or possible conduct of education in this country.

(b) The following types of activities will not be considered for research support under this part:

(1) Operational support for education programs; or

(2) Projects in which the primary emphasis is on course development, training, dissemination, improving an educational program (e.g., in a school or postsecondary institution or in a State), demonstration or development of prototype programs, or instructional media or instruments, as distinguished from the production of new knowledge.

§ 1450.4 Applicant eligibility.

Colleges, universities, State departments of education, local educational agencies, and other public or private agencies, organizations, groups, or individuals are eligible for grants. Applications from any corporation, institution, or agency whose net earnings inure, or may lawfully inure, to the benefit of any private shareholder or individual will be considered as unsolicited proposals and will be evaluated in accordance with criteria specified in this part and in HEW Procurement Regulations, Subpart 3–4.52 (41 CFR Part 3–4).

§ 1450.5 Applications.

(a) *General.* The application submission and review procedures will consist of two stages:

(1) *Prospectus.* (i) The applicant shall submit a prospectus for initial review. Only prospectuses, prepared according to the format described in paragraphs (b) or (c) of this section, will be accepted at this initial stage; other submissions will be returned to the applicant.

(ii) No more than one prospectus per individual will be accepted. Although institutional applicants may submit more than one prospectus, no more than one prospectus per each principal investigator will be considered. In the event that more than one prospectus per individual/principal investigator is received, the prospectus received earlier in time will be accepted, and subsequent prospectuses will be returned to the applicant.

(2) *Full proposals.* Applicants submitting the most highly rated prospectuses will be invited to submit full proposals for evaluation. Only invited proposals will be accepted at this second stage; proposals not invited by the National Institute of Education will be returned to the applicants.

(b) *Prospectus format.* With respect to applicants other than State and local governments, the prospectus shall include:

(1) A cover sheet executed by the principal investigator indicating (i) that the prospectus is submitted to the Research Grants Program of the National Institute of Education; (ii) the title of the study; (iii) the category of the study under which the applicant believes his project should be reviewed as described in § 1450.6(a); (iv) the name(s), Department, Institution, address, and telephone number of the principal investigator(s); (v) the estimated budget amount; and (vi) the proposed duration and starting date of the project.

(2) A statement of from three to five double-spaced, typewritten pages summarizing the proposed project, including:

(i) *Description and rationale.* A description of the proposed research, its relation to what is already known and to the problems of American education, and the importance of the expected addition to knowledge.

(ii) *Procedures.* Description of the procedures to be followed in carrying out the research, including, where appropriate, such concerns as sampling, data acquisition, instrumentation, and data analysis.

(3) A description of facilities and arrangements available to the investigator for conducting the research.

(4) Resume(s) of principal investigator(s), including education, applicable experience, and a list of major publications.

(5) An estimated budget covering direct costs (salaries and benefits, travel, supplies and materials, communication, services, equipment) and indirect costs proposed to be charged against the grant.

(c) *State and local government prospectuses.* Prospectuses from State and local governments, as defined in paragraph (e) of this section, shall be made in accordance with the preapplication provisions of § 74.122 of this title with such supplementation as may be required by the Director of the National Institute of Education with the approval of the Office of Management and Budget. Information concerning such application and supplementation requirements may be obtained from the Director of the National Institute of Education upon request.

(d) *Full proposals.* Notification of procedures and forms for the development and submission of full proposals will be given to applicants invited to submit full proposals.

(e) *Definition of State and local governments.* As used in this section, the term "State and local governments" shall be determined according to the following definitions:

(1) "State" means any of the several States of the United States, the District of Columbia, the Commonwealth of Puerto Rico, any territory or possession of the United States, or any agency or instrumentality of a State exclusive of State institutions of higher education and hospitals.

(2) "Local government" means a local unit of government including specifically a county, municipality, city, town, township, school district, local public authority, special district, intrastate district, council of governments, sponsor group representative organization, and other regional or interstate government entity, or any agency or instrumentality of a local government exclusive of institutions of higher education and hospitals.

§ 1450.6 Review of applications.

(a) *Review categories.* For purposes of facilitating, and improving the quality of, review of applications by the National Institute of Education, each prospectus and invited full proposal received will be assigned to one of the following categories and will be reviewed together with other applications within the same category: (1) Learning and instruction; (2) Human development; (3) Objectives, measurement, evaluation and research methodology; (4) Social thought and processes; (5) Organization and administration; (6) Anthropology; (7) Economics; (8) Political science; and (9) Legal research.

(b) *Selected issues.* The Institute may periodically identify selected issues of particular significance for American education which will serve as conditions of eligibility or with respect to which priority funding consideration will be given.

(c) *Criteria for evaluation.* Evaluation of prospectuses and full proposals will be based upon the following criteria:

(1) Significance of the proposed research for American education, including:

(i) Importance of the problem area from the standpoint of basic knowledge or of problems of American education;

(ii) Likely magnitude of the addition that will be made to knowledge if the project is successful, including the generalizability of the results.

(2) Quality of the proposed research project, including such considerations as:

(i) Adequacy of design, methodology, and instrumentation where appropriate;

(ii) Likelihood of success of the project;

(iii) Extent to which the application exhibits thorough knowledge of pertinent previous work and relates the proposed work to it.

(3) Qualifications of the principal investigator and other professional personnel as evidenced by:

(i) Experience and previous research productivity (except in the case of inexperienced investigators); and

(ii) Quality of the discussion and analysis in the application.

(4) Adequacy of the facilities and arrangements available to the investigator to conduct the proposed study.

(5) Reasonableness of the budget for the work to be done and the anticipated results.

§ 1450.7 Inexperienced investigators.

(a) Applications for small grants from inexperienced investigators are encouraged and will be reviewed with other applications, with allowances being made for the investigator's lack of a previous research record. To be reviewed as inexperienced investigators, applicants may not have been either: (1) director or principal investigator of a research project supported by funds from a Federal, State, college, university, or other public or private agency or foundation; or (2) author or coauthor of more than two articles or chapters in professional journals or books reporting results of his or her research.

(b) Persons applying as inexperienced investigators must include in the prospectus a statement describing their eligibility under the criteria in paragraph (a) of this section.

(c) While there is no specific upper limit on the size of grants to inexperienced investigators, the average grant awarded will in general be in the neighborhood of $10,000.

§ 1450.8 Project duration.

Project duration will normally be for a maximum of three years (18 months for awards to inexperienced investigators). The initial award for a project may provide funds for less than the full project period, with further support contingent upon availability of funds and progress of the research.

Proposed Rules

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rulemaking prior to the adoption of the final rules.

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 915]

HANDLING OF AVOCADOS GROWN IN SOUTH FLORIDA

Proposed Approval of Expenses and Fixing of Rate of Assessment for 1974–75 Fiscal Year and Carryover of Unexpended Funds

This notice invites written comment relative to the proposed expenses of $38,250, a rate of assessment of $0.05 per bushel of avocados, and the carryover as a reserve of unexpended funds to support the activities of the Avocado Administrative Committee for the 1974–75 fiscal year under Marketing Order No. 915.

Consideration is being given to the following proposal submitted by the Avocado Administrative Committee established under the marketing agreement, as amended, and Order No. 915, as amended (7 CFR Part 915), regulating the handling of avocados grown in south Florida, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), as the agency to administer the terms and provisions thereof.

(1) That the expenses which are reasonable and likely to be incurred by the Avocado Administrative Committee, during the period from April 1, 1974, through March 31, 1975, will amount to $38,250;

(2) That the rate of assessment for such period, payable by each handler in accordance with § 915.41 be fixed at $0.05 per bushel of avocados; and

(3) Unexpended Assessment funds in the amount of approximately $19,306, which are in excess of expenses incurred during the fiscal year ended March 31, 1974, shall be carried over as a reserve in accordance with §§ 915.42 and 915.205 of said amended marketing agreement and order.

All persons who desire to submit written data, views, or arguments in connection with the aforesaid proposals shall file the same, in quadruplicate, with the Hearing Clerk, United States Department of Agriculture, Room 112, Administration Building, Washington, D.C. 20250, not later than May 21, 1974. All written submissions made pursuant to this notice will be made available for public inspection at the office of the Hearing Clerk during regular business hours (7 CFR 1.27(b)).

Dated: April 29, 1974.

CHARLES R. BRADER,
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

Notice is hereby given that the time for filing briefs, proposed findings and conclusions on the record of the public hearing held February 20–28, 1974, at Washington, D.C., with respect to proposed amendments to the tentative marketing agreements and to the orders regulating the handling of milk in the aforesaid specified marketing areas pursuant to notice issued on February 14, 1974 (39 FR 5642) is hereby extended to May 15, 1974, for the limited purpose of the appropriate longer-term basis of pricing reserve milk under the eight orders beginning August 1, 1974.

This notice is issued pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et. seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900).

Signed at Washington, D.C., on April 30, 1974.

JOHN C. BLUM,
Associate Administrator.

COST OF LIVING COUNCIL

[6 CFR Part 150]

PHASE IV PRICE REGULATIONS

Appendix A—Phase IV Price Forms; Phase IV Health Care Forms

The Cost of Living Council is considering the issuance of a CLC form to be used by acute care hospitals and long term care institutions for requesting approval of capital expenditures under the Phase IV health care regulations (6 CFR Part 150, Subpart R) published at 39 FR 2670 (January 23, 1974), as amended on March 27, 1974, at 39 FR 11376.

On March 6, 1974, the Council issued a notice of proposed rulemaking, 39 FR 9768 (March 13, 1974), setting out proposed Forms CLC–61, CLC–71, and CLC–81 to be filed as annual reports or used for monitoring purposes under the Phase IV health care regulations. On March 30, 1974, the Council issued a notice of proposed rulemaking, 39 FR 12540 (April 5, 1974), setting out proposed Forms CLC–62, CLC–72, and CLC–82 to be used for requesting exceptions from the Phase IV health care regulations. The Council indicated on both occasions that the form relating to capital expenditure adjustments would be issued at a later date.

The purpose of publishing the capital expenditures form with accompanying schedule and instructions in proposed form is to provide the public an opportunity to make suggestions for improvements regarding the format and computations.

The proposed form and instructions will not be adopted until they are approved by the Office of Management and Budget. At that time the Council will amend its regulations to incorporate the form and instructions, and make any necessary adjustments in the governing regulations resulting from the rulemaking.

In issuing this notice of proposed rulemaking, the Council recognizes the uncertain future of the Economic Stabilization Program. However, the concepts and specifics embodied in the proposed Form CLC–103 may well have meaning with respect to the National Health Insurance Program during the forthcoming congressional hearings and debates on the pending enabling legislation.

In addition, the Council expects that the proposed Form CLC–103 may be helpful to any hospital or other institution in its planning for a capital expenditure. The proposed form may also be useful to other agencies and organizations, both public and private, involved with the planning and review process. In particular, comprehensive health planning agencies and others designated under § 1122 of the Social Security Act, as added by § 221(a) of the Social Security Amendments of 1972 (Pub. L. 92–603, 86 Stat. 1386–89 (42 U.S.C. 1320a–1)), may find the proposed capital expenditures form useful in their determinations of community need and economic feasibility.

Interested persons are invited to participate in the rulemaking by submitting written data, views, or arguments with respect to the proposed CLC form set forth in this notice, to the Executive Secretariat, Cost of Living Council, 2000 M Street, NW., Washington, D.C. 20508. Comments should be identified with the designation "Phase IV Capital Expenditures Form Docket." At least 10 copies should be submitted. All communications received on or before May 30, 1974 will be considered by the Council before the Council takes final action on the proposed form. The proposed form contained in this notice may be changed in the light of comments received. All comments received in response to this notice will be available for examination and copying by interested persons at the Cost of Living Council, 2000 M Street, NW., Washington, D.C., during the hours of 9 a.m. to 5 p.m., Monday through Friday. Submissions will be available both before and after the closing date for comments.

Form CLC–103 is intended for use by acute care hospitals and long term care institutions requesting approval of a capital expenditure in accordance with the provisions of 6 CFR 150.713, 150.714(c), 150.781, and 150.782(c). The form is designed to provide the data needed by the approving agency in determining the level of revenues necessary for the operation of the capital expenditure and the related increases in charges and expenses.

Part II of Form CLC–103 identifies the capital expenditure and its net cost. The net capital expenditure cost determines whether or not an institution files a request for approval and the parts of Form CLC–103 which must be completed.

Part III provides information on the annual operating expense related to the capital expenditure while Part IV computes the unit cost per admission or patient day or outpatient service.

Part V of Form CLC–103 itemizes the costs associated with the capital expenditure and the sources of funds available to finance it. Part VI is a statement of projected patient statistics, revenues, and expenses for the last fiscal year and the first fiscal year in which the capital expenditure is operational and any subsequent year in which the operating status of the institution will be changed by the capital expenditure.

Part VII of Form CLC–103 identifies the sources of financing with details on each loan. Part VII also sets forth a depreciation schedule for the various items included in the capital expenditure.

Part I, "Identifying Data" and Part VIII, "Certification and Signature," are self-explanatory.

Schedule J, "Schedule of Service Area Data for Acute Care Hospitals and Long Term Care Institutions," is annexed to Form CLC–103 depending on the type and cost of the capital expenditure for which approval is being requested. For all capital expenditures involving a change in bed capacity or substantially changing the clinical services offered, hospitals and other institutions must submit Schedule J along with Form CLC–103. Small hospitals with net capital expenditure costs of $100,000 or more must file Schedule J. Large hospitals must submit Schedule J whenever the net capital expenditure costs reach $200,000. Long term care institutions submit Schedule J along with a fully completed Form CLC–103 for capital expenditures with a net cost of $25,000 or more. In any instance, however, that the hospital or other institution can submit an independently prepared feasibility study related to the capital expenditure, it need not complete Schedule J.

Schedule J provides the tools necessary to evaluate service area demands and focuses on several factors relevant thereto, including primary service area population and employment, the expected characteristics of the patient population and the volume of inpatient admissions. This information is set forth in Part II of Schedule J to Form CLC–103.

Part III of Schedule J is completed by acute care hospitals only. It provides a statement of inpatient operating statistics for the hospitals, including the petitioner, serving the primary service area. It also includes a checklist for facilities and services provided in each of the area hospitals.

Part I, "Identifying Data," is self-explanatory.

In consideration of the foregoing, it is proposed to amend 6 CFR Part 150 in the Appendix (Phase IV Price Forms) by the addition of Form CLC–103, with accompanying Schedule and instructions, to read as set forth below:

(Economic Stabilization Act of 1970, as amended, Pub. L. 92–210, 85 Stat. 743; Pub. L. 93–28, 87 Stat. 27; E.O. 11695, 38 FR 1473; E.O. 11730, 38 FR 19345; Cost of Living Council Order Number 14, 38 FR 1489)

Issued in Washington, D.C., April 29, 1974.

JAMES W. MCLANE,
Deputy Director, Cost of Living Council.

INSTRUCTIONS FOR FORM CLC-103 CAPITAL EXPENDITURE FORM FOR ACUTE CARE HOSPITALS AND LONG-TERM CARE INSTITUTIONS

GENERAL INSTRUCTIONS

A. Purpose. Form CLC-103 is designed to provide the data necessary to evaluate a request for approval of a capital expenditure as provided for in 6 CFR 150.713, 150.714(c), 150.781, and 150.782(c). Specifically, the form will enable the approving agency to determine the level of revenues necessary for the operation of the capital expenditure and the related increases in charges and expenses.

B. Who Should File CLC-103. 1. Any acute care hospital as defined in 6 CFR 150.703, that desires approval for a capital expenditure under 6 CFR 150.713 or 150.714(c) must complete Form CLC-103.

2. Any long-term care institution as defined in 6 CFR 150.771 that desires approval for a capital expenditure under 6 CFR 150.781 or 150.782(c) must complete Form CLC-103.

C. What to File. Completion of this form and any additional information required is dependent upon the size and type of the institution as well as the amount and nature of the capital expenditure. For a capital expenditure that changes the bed capacity of the facility or substantially changes the services of the facility, an acute care hospital or long-term care institution must complete Parts I through VIII of this form and the attachments. For other capital expenditures a chart has been set forth below categorizing the necessary parts of the form to be completed. The chart classifies acute care hospitals as either small or large. A small acute care hospital is defined as one having less than $2,500,000 total inpatient operating charges or fewer than 4,000 admissions in its preceding fiscal year and a large acute care hospital is defined as one having $2,500,000 or more total inpatient operating charges or 4,000 or more admissions in its preceding fiscal year. Long-term care institutions are not categorized according to size.

For purposes of this form, acute care hospitals and long-term care institutions requesting approval for a capital expenditure must complete some or all of the several parts of Form CLC-103. The following chart classifies the capital expenditures according to net capital cost (see item 9 of the form for determination of net capital cost) and illustrates the respective parts of the form that are required to be completed. Where the chart does not indicate any part of the form to be completed, the acute care hospital or long-term care institution is not eligible for approval of the capital expenditure.

Net Capital Expenditure

	0 to $9,999	$10,000 to $24,999	$25,000 to $49,999	$50,000 to $99,999	$100,000 to $199,999	$200,000 and over
Small hospital				[1] Parts I-IV, VIII plus attachments.	Parts I-VIII plus attachments.	Parts I-VIII plus attachments.
Large hospital					[1] Parts I-IV, VIII plus attachments.	Parts I-VIII plus attachments.
Long-term care institution		[1] Parts I-IV, VIII plus attachments.	Parts I-VIII plus attachments.	Parts I-VIII plus attachments.	Parts I-VIII plus attachments.	Parts I-VIII plus attachments.

[1] NOTE: If item 21(b) of Part IV to this form is 102 percent or greater, all parts of the form and all attachments must be completed.

For those acute care hospitals and long-term care institutions which are required to complete Parts I through IV and Part VIII of this form, the following attachments must be submitted:

1. A document signed by the chief executive officer giving a general description of the capital expenditure and the nature of its use and including an explanation of:

a. The operational or medical need within the facility for the capital expenditure;

b. "Need" determination when compared to other facilities in the primary service area; and

c. Historical (if applicable) and projected usage.

2. A document signed by the chief executive officer indicating the approval of the capital expenditure by the Board of Trustees. This attachment should indicate that the board has considered the following:

a. "Need" for the capital expenditure when considering internal and community demands;

b. Effect on other services within the facility;

c. Effect on other facilities within the Primary Service Area;

d. Impact of the capital expenditure on availability of qualified technicians to the facility;

e. Changes in medical staffing that will affect the number of admissions and/or quality of medical services should the capital expenditure be approved; and

f. Possible alternate capital expenditures.

3. Certified financial statements for the two years preceding the reported fiscal year (RFY). If an independent audit was not performed for any year, then unaudited statements will be accepted. Such statements normally include the following information:

a. Balance Sheets

b. Statement of Revenues and Expenses

c. Statement of Changes in Fund Balance

d. Statement of Changes in Financial Position

For those acute care hospitals and long-term care institutions which are required to complete all parts of this form (Parts I through VIII), the following attachments must be submitted:

1. All documents, schedules and statements listed in numbers 1 through 3, above.

2. Schedule J, except in those cases where an independent feasibility study can be provided.

D. Where to File.

1. Filings must be sent to the approved planning agency (as specified in 6 CFR 150.713(c) or 150.781(c)) designated pursuant to section 1122 of the Social Security Act (P.L. 92-603, 86 Stat. 1386-89, 42 U.S.C. 1320 a-1); or

2. If a State is not participating in the program under section 1122, then filings must be sent to the approved State agency (as specified in 6 CFR 150.713(c) or 150.781(c)) administering a certificate of need program; or

3. If a State is not participating in a program under section 1122 and has no State agency administering a certificate of need program, then the filings must be sent to an approved agency (as specified in 6 CFR 150.713(c) or 150.781(c)) designated under section 314(b) of the Public Health Service Act (P.L. 92-585, 86 Stat. 1292, 42 U.S.C. 243(b)); otherwise, filings must be sent to the approved State agency (as specified in 6 CFR 150.713(c) or 150.781(c)) designated pursuant to section 314(a) of the Public Health Service Act (P.L. 92-585, 86 Stat. 1292, 42 U.S.C. 245(a)); or

4. If none of the above agencies is available to an institution or have not agreed in writing with the Cost of Living Council for the State agency to approve capital expenditures, the institution may send their filings to the: Cost of Living Council, Office of Health, 2000 M Street, N.W., Washington, D.C. 20508.

E. Definitions.

As defined in 42 CFR 100.103(a), a "capital expenditure" is an expenditure, including a forced account expenditure (i.e., an expenditure for a construction project undertaken by a facility as its own contractor), which, under generally accepted accounting principles is not properly chargeable as an expense of operation and maintenance and which (i) exceeds $100,000, or (ii) changes the bed capacity of the facility with respect to which such expenditure is made, or (iii) substantially changes the services of the facility with respect to which such expenditure is made.

F. Suggestions for Improvement.

The Cost of Living Council welcomes suggestions for improving this and other forms, and seeks ways of obtaining the information it needs to exercise its responsibilities under the Economic Stabilization Program with the minimum amount of public burden. Suggestions should be submitted to: Cost of Living Council, Office of the Executive Secretariat, 2000 M Street, N.W., Washington, D.C. 20508.

SPECIFIC INSTRUCTIONS

Part I—Identifying Data.

Items 1, 2 and 3. Self-explanatory.

Part II—Capital Expenditure Identification.

Item 4. Indicate the date when the proposed capital expenditure will become operational or will begin to perform its planned function within the institution.

Item 5. Indicate by checking the appropriate box the type of capital expenditure for which approval is being requested. For purposes of this form, equipment is defined as movable equipment only. Construction is considered to be fixed equipment as well as any brick, mortar or wood additions or changes to structure.

Item 6.

(a) Indicate by checking the appropriate box(es) if the approval request is for a capital expenditure that is replacing equipment, will result in a new clinically related service being offered by the institution, is a new facility as defined in 150.703(c), or will result in an increase or decrease in bed capacity.

(b) Enter the percentage of additional operating expense for inpatient services attributable to the capital expenditure. The method of computing this percentage should be consistent with generally accepted accounting principles.

Item 7.

(a) Enter the number of beds which the institution maintained on the last day of the last fiscal year.

(b) Enter in the box labeled "1st year," the number of beds by which total bed capacity will increase or decrease in the first year in which the capital expenditure is operational. Enter in the box labeled "2nd year, the number of beds by which total bed capacity will increase or decrease in the 2nd year in which the capital expenditure is operational. The 2nd year should include a full year's operation of the capital expenditure. If a full year is not included, attach an explanation for the partial year inclusion. If there is no change in bed capacity, enter zero.

Note: Pursuant to 6 CFR 150.713(d), for a capital expenditure involving a change in bed capacity, the State approving agency is authorized to approve a modification of the adjustment for changes in volume of admissions, where appropriate, to reflect anticipated changes in volume of admissions resulting from the capital expenditure.

Item 8.

(a) Enter the total number of admissions for acute care hospitals or number of patient days for long-term care institutions in the last fiscal year. "Admissions" means the number of patients (including free care patients) accepted for inpatient service in beds licensed for care or, in States where licensing is not required, staffed for care. For purposes of this definition, births or transfers between departments may be treated as admissions, if the institution by consistent administrative practice has treated transfers or births as admissions.

(b) Enter in the box labeled "1st year" the total number of additional admissions or patient days to result from the capital expenditure in the 1st year in which the capital expenditure is operational. Similarly, enter in the box labeled "2nd year," the total number of additional admissions in the 2nd year in which the capital expenditure is operational. The 2nd year should include a full year's operation of the capital expenditure. If a full year is not included, attach an explanation for the partial year inclusion and include figures for the first full year of operations.

Item 9.

(a) Enter the cost of any land purchases including the cost of surveys and commission and settlement fees.

(b) Enter any costs associated with structural additions or changes. Besides brick, mortar and wood, these costs should include fixed equipment.

(c) Enter all costs associated with movable equipment.

V 39 187 MAY 3 74 XUM

(d) Enter any costs resulting from installing movable equipment that is not considered part of its purchase price and is not included in (b) of this item.

(e) Self-explanatory.

(f) Subtract the net depreciated value of any equipment or fixed asset being replaced as a result of the capital expenditure.

(g) The figure entered as the "Net Capital Expenditure cost" is the qualifying figure in determining if this form should be submitted, and if so, what further parts of this form must be completed. Reference should be made to the illustration in paragraph C of the General Instructions as to the amount of net capital expenditure cost and the required parts of this form to be completed. (Note: For a capital expenditure that will substantially change the clinical services or change the bed capacity the acute care hospital or long-term care institution must complete all parts and attachments of this form.)

Part III—Annual Operating Expense Related to Capital Expenditure.

For purposes of this chart, Base Year Expense (column A) is that operating expense from the most recently completed fiscal year which is directly attributable to the piece of equipment or facility which is being replaced. If the capital expenditure is for a new clinically related service this column need not be completed.

Projected Year Expense (column B) is that operating expense calculated to reflect a full year's operation of the capital expenditure.

Incremental change (column C) is the difference between column B and column A. If the capital expenditure is a new service or facility then column C will equal column B. Attach documentation explaining all changes listed in this column.

Items 10 through 15.

Enter in the appropriate boxes those expenses directly attributable to the capital expenditure.

Items 16 and 17. Self-explanatory.

Part IV—Computation of Unit Cost.

If no inpatient expenses are affected by the capital expenditure, items 18 through 21 need not be completed. Similarly if no outpatient expenses are affected by the capital expenditure, item 22 need not be completed.

Item 18. Enter actual total inpatient operating expenses from the LFY.

Items 19 and 20. Self-explanatory.

Item 21.

(a) Divide the figure entered in item 20 by the sum of LFY admissions or patient days (item 8(a)) and the incremental change in admissions or patient days resulting from the first year of admissions (item 8(b)).

(b) If the percentage entered in this item is 102% or greater, all remaining parts of this form and Schedule J must be completed. However, if an independent feasibility study can be provided, Schedule J is not required to be submitted.

Item 22(a). Column A: The petitioning acute care hospital or long-term care institution may choose not to identify every service affected by the capital expenditure but rather identify groups of services or properties. In such cases, the institution must attach documentation defining the groups of services identified. Enter a brief description of each out-patient service or property related to the capital expenditure. In those cases where the capital expenditure results in a new clinically related service, then that service need not be entered in item 22(a) but should be included in item 22(b).

Column B: For the purposes of this form, units of service are defined as the institution's normal billing unit per service. Enter the total number of units actually provided for each service or property in the LFY.

Column C: Enter the total expense attributable to each service or property in the LFY.

Column D: Self-explanatory.

Attach an additional sheet if more space is needed.

Item 22(b). All figures in this item should represent a full year's operation of the capital expenditure. Attach an additional sheet if more space is needed.

Column A: Enter the same services or properties listed in item 22(a), column A.

Column B: For each service or property, enter those additional units directly attributable to the capital expenditure only.

Column C: For each service or property, enter the additional expense directly attributable to the capital expenditure.

Column D: For each service or property, add each figure in item 22(a), Column B to the figure in column B of this item.

Column E: For each service or property add each figure in item 22(a), column C to the figure in Column C of this item.

Column F: Self-explanatory.

Attach an additional sheet if more space is needed.

Part V—Project Cost and Sources of Funds.

Refer to the General Instructions to this form to determine if this part is to be completed.

Item 23. Enter the cost of any land purchases including the cost of surveys and commission and settlement fees.

Item 24. Enter all costs covered under construction contracts including costs related to brick and mortar and fixed equipment.

Item 25. Enter the total amounts set aside for the purposes of meeting any unanticipated costs of construction. These additional costs may include construction loan interest expense related to the capital expenditure as well as construction costs and fees.

Items 26 and 27. Self-explanatory.

Item 28. Enter the cost for any equipment that is not permanently attached as a fixture to the structure of the institution or is not included in item 24.

Item 29. Enter any installation costs for movable equipment not considered part of the purchase price and not included in items 24 or 28 above.

Item 30. Self-explanatory.

Item 31. Enter any funds to be set aside in escrow or other special accounts as specified in the relevant bond indenture agreement.

Item 32. Enter such financing costs as bond discounts, legal fees, printing costs, and other expenses related to the bond issue.

Item 33. Enter any other costs related to the capital expenditure and not included above. Attach an itemization of the cost entered.

Item 34. Enter the sum of items 23 and 33.

Item 35. Enter those costs related to the capital expenditure which have already been paid for.

Item 36. Enter all unrestricted funds designated by the Board of Trustees to be applied toward the proposed capital expenditure.

Item 37. Enter all restricted funds available for the proposed capital expenditure.

Item 38. Enter the interest income earned from funds not spent because long-term financing has been received prior to payment in full for the capital expenditure.

Item 39. Enter any funds not included in the unrestricted or restricted fund balances above but are anticipated to be received prior to payment in full for the capital expenditure.

Item 40. Enter any funds that have been set aside for the purposes of meeting any contingency expenses associated with the capital expenditure.

Item 41. Enter the face value of all bonds to be issued for the capital expenditure. Do not include bond discounts in this item (they should be included in item 32).

Item 42. Enter other forms of financing not included above such as mortgages, short-term debt, or types of long-term debt not included in item 41 above.

Item 43. Enter the sum of items 35 through 42.

Part VI—Statement of Projected Patient Statistics, Revenue and Expense.

Refer to the General Instructions to determine if this part is required to be completed.

Starting in the first column with the most recently completed fiscal year (LFY), enter the appropriate year in the boxes across the top of the chart. The first Projected Year listed should be the first fiscal year in which the capital expenditure is operational. For that year and each subsequent year listed, enter budgeted figures for all items. Attach documentation listing the assumptions used in the projections, including such items as changes in patient mix, length of stay, admissions, bed complement, inflation factors, and Economic Stabilization Program regulations. Changes in projected expenses between the base year and the projected year which are attributable to the capital expenditure must be fully explained. For purposes of this form, depreciation for the capital expenditure is to be calculated on a straight line basis only. All financial data listed in this part should be prepared in accordance with the AICPA Hospital Audit Guide or by a system of accounting principles approved for use by Blue Cross, Medicare, or a State Uniform Hospital Accounting System.

Item 44. Acute care hospitals only need complete this item. Enter the total number of admissions in the respective columns. Admissions means the number of patients (including free care patients) accepted for inpatient service in beds licensed for hospital care or, in States where licensing is not required, staffed for hospital care.

Item 45. Long-term care institutions only need complete this item.

Item 46. Enter the average number of beds available for each year.

Item 47. Based on the average number of beds listed in item 46, enter the average occupancy rate for each year.

Items 48 through 50. Self-explanatory.

Item 51. Enter revenues received from those revenue producing activities involved with day-to-day hospital operations, but not included in total inpatient operating charges or outpatient charges, such as revenue from cafeteria sales, gift shops, parking lots, vending machines, etc.

Item 52. Self-explanatory.

Item 53. Enter total allowances including contractual, bad debt, courtesy, and employee. Free care as defined in 6 CFR 150.703 should be excluded.

Item 54. Self-explanatory.

Item 55. Enter total wage and salary expense including amounts paid to hospital-based personnel who function on a contractual basis but are paid as employees of the hospital. Also include fringe benefits such as pensions, insurance plans and FICA.

Item 56. Enter all amounts paid to personnel who function as independent contractors and who are not considered to be employees of the hospital.

Item 57. Self-explanatory.

Item 58. Enter any other expenses attributable to operations not covered above that conform to generally acceptable accounting principles.

Items 59 and 60. Self-explanatory.

Item 61. Enter all nonoperating income such as unrestricted endowments, gifts and contributions.

Items 62 and 63. Self-explanatory.

Item 64. Enter all expenses associated with the incurrence of debt obligations such as bond discounts, legal, accounting, and consulting fees. These expenses are amortized over the life of their respective debt.

Items 65 and 66. Self-explanatory.

Item 67. Enter all depreciation expense. Depreciation for the proposed capital expenditure should be calculated on a straight line basis only. Do not claim depreciation on a rental facility in your capacity as a tenant.

Items 68 and 69. Self-explanatory.

Item 70. Enter the principal payments on long-term debt due within each respective year.

Item 71. Enter all expenses related to capital replacement items which under generally accepted accounting principles are properly chargeable as expenses of operation and maintenance.

Item 72. Enter all other nonoperating cash requirements and attach itemization of same.

Items 73 and 74. Self-explanatory.

Part VII—Sources of Financing and Depreciation Schedules.

Item 75.

Column A. List each institution from which funds to finance the capital expenditure have been borrowed.

Column B. Enter the face value of each loan.

Column C. Enter the yearly interest rate for each loan.

Column D. Enter the date when the total amount of each loan plus interest is due.

Column E. Enter for each loan the asset(s) which was listed in the loan agreement as collateral or as mortgaged.

Item 76.

Column A. List the total cost for those items in the capital expenditure having the same depreciable lives.

Column B. For each dollar amount entered in column A, enter the number of years in which the items of the capital expenditure with the same depreciable lives are depreciated.

Part VIII—Certification and Signature.

Self-explanatory.

INSTRUCTIONS FOR SCHEDULE J TO FORM CLC–103

SCHEDULE OF SERVICE AREA DATA

GENERAL INSTRUCTIONS

Purpose. The compilation of service area data for the development of demand projections is the most critical and important aspect in planning a capital expenditure. This schedule provides the tools necessary to evaluate service area demand and focuses on several factors relevant to service demand including: primary service area population and employment, the expected characteristics of the patient population, and the volume of inpatient admissions.

Who Must File. This schedule must be prepared by those acute care hospitals and long-term care institutions specified in Section C of the General Instructions to Form CLC–103. However, any acute care hospital or long-term care institution that can submit an independently prepared feasibility study related to the capital expenditure need not complete this schedule.

SPECIFIC INSTRUCTIONS

Part I—Identifying Data.

Item 1. Self-explanatory.

Part II—Service Area Data.

Item 2. Define the principal areas providing the major portion of the institution's patients. The Primary Service Area is that geographical area from which at least 50 percent of the institution's total patient admissions originate. Generally, the Primary Service Area is within the immediate vicinity of the institution. The Secondary Service Area is the area from which the majority of total patient admissions not in the Primary Service Area originate. The normal source of this information is the admitting or medical records of the institution.

Item 3. Beginning with column A, 1970, the year of a federal census, and continuing through column G, enter the pertinent population and employment statistics. Enter in column B (LFY), figures from the most recently completed fiscal year and in column C (projected year) figures from the first year in which the capital expenditure is operational. The remaining projected year columns should include estimated figures for at least two years of full operation of the capital expenditure. Suggested sources for this information are the Federal Census Bureau, the State Planning and Development Agency, the State Department of Labor and Industry, the State Department of Health, and the local Chamber of Commerce.

Item 4. Based on the 1970 federal census, enter the population for each age grouping. The primary source for this information is the 1970 federal census publications which normally can be obtained from the organizations listed in the instructions to item 3.

Item 5.

(a) List the major employers of the Primary Service Area population and their respective number of employees. The primary source of this information would be the local Chamber of Commerce.

(b) Explain any expected changes in the employers servicing the Primary Service Area population.

Item 6. This item needs to be completed only by acute care hospitals and only if the proposed capital expenditure will result in a change in bed complement or a change in the mix of available beds.

(a) List in column A the hospitals serving the Primary Service Area starting with the petitioning hospital. In column B, enter the LFY's number of total admissions from the Primary Service Area for each hospital. In column C, enter the LFY's percentage of total admissions from the Primary Service Area for each hospital. Enter the same data in columns D and E for admissions originating from outside the Primary Service Area. Column F is self-explanatory.

(b) Self-explanatory.

Item 7. This item needs to be completed only by acute care hospitals and only if the proposed capital expenditure will result in a change in bed complement or a change in the mix of available beds. In the column titled "Year," enter the same years listed in Part VI of Form CLC–103. For each year listed, provide the following data:

Column A. Enter the populations listed in item 3 of this schedule for the years requested.

Column B. Enter the petitioning hospital's share of total admissions from the Primary Service Area as calculated in column C of item 6(a) to this schedule. Assume the same share of admissions for each year listed unless there has been a significant change in the petitioning hospital's share. If such a change has occurred, enter the changed percentage for the appropriate year(s) and attach an explanation for the changes.

Column C. Self-explanatory.

Column D. Assume that all admissions from outside the Primary Service Area will have the same admission rate as that in the Primary Service Area. Use the following formula to determine the Primary Service Area admission rate for every thousand people:

$$\text{Formula 1. Primary Service Area Rate per 1000 population} = \frac{1000 \times \text{Total Number of Admissions from Primary Service Area (Total of col. B, item 6(a))}}{\text{Total Population of Primary Service Area (column A, item 7)}}$$

To determine the population served in the area outside the Primary Service Area, use the following formula:

$$\text{Formula 2.} \quad \frac{1000 \times \text{Number of Admissions from Outside Primary Service Area (Line 1, col. D, item 6(b))}}{\text{Primary Service Area Rate per 1000 population}}$$

Enter the result from Formula 2 in the first line (LFY) of column D. For each successive year, adjust the figure entered in column D, line 1, by the assumed population growth factors as used to determine the population in item 3 of this schedule.

Column E. Self-explanatory.

Column F. Use the following formula to determine bed need according to Hill-Burton stipulations:

$$\text{Formula 3. Bed Need} = \frac{\text{Column E} \times 4.5}{1000}$$

Enter the result from Formula 3 in the appropriate lines of column F. The resulting figures for each year indicate the total number of beds needed by the petitioning hospital in order to provide the appropriate number of beds according to Hill-Burton.

Item 8. Enter in the appropriate boxes the same years identified in item B to this schedule. In the first column, enter the basic patient categories from the patient allocation system chosen. For acute care hospitals, the systems from which to choose are defined in 6 CFR 150.712. Long-term care institutions should use the system that has historically been used in classifying the levels of care provided. For the "Number of Beds" column under each year listed, enter the average number of beds available or projected to be available for each patient classification. The projections made should take into account such variables as: 1) average length of stay; 2) population growth in primary and secondary service areas; 3) addition of services; 4) changes in staffing; and 5) growth rate of admissions.

Part III—Statement of Inpatient Data and Services Available.

This part needs to be completed by acute care hospitals only.

Starting with column A, LFY data will be provided according to the institutions listed in item 6(a), column A, to this schedule. Column A will be the petitioning hospital and each successive column should correspond to the perspective hospitals listed in item 6(a).

Complete the Operating Statistics section with the appropriate figures from the LFY for each hospital. Complete the Facility or Service section by checking the facility or service found in each hospital. Source data for this part is available from the *American Health Association Guide to the Health Care Field*

[FR Doc.74–10109 Filed 4–29–74;4:07 pm]

ENVIRONMENTAL PROTECTION AGENCY

[40 CFR Part 120]

NAVIGABLE WATERS OF STATE OF OHIO

Proposed Water Quality Standards

The purpose of this notice is to propose regulations setting forth standards of water quality to be applicable to the State of Ohio, pursuant to section 303(b) of the Federal Water Pollution Control Act, as amended (33 U.S.C. 1251, 1313(b);

V 39 I 87 MAY 3 74 XUM

86 Stat. 816 et seq.; Pub. L. 92–500), "the Act". A notice announcing the intention of the Environmental Protection Agency to review all interstate and intrastate water quality standards pursuant to the Act was published in the FEDERAL REGISTER on December 29, 1972, 37 FR 28775–28780.

Under section 303(a) of the Act, the Administrator of the U.S. Environmental Protection Agency is required to review water quality standards for interstate and intrastate waters adopted and submitted by the States. When he determines that changes in such standards are necessary to meet the requirements of the Act as in effect prior to October 18, 1972 (the date of enactment of the 1972 Amendments to the Act), he must notify the State. If the State does not meet the requirements of the Act, the Administrator may publish proposed revised water quality standards in accordance with such requirements.

The State of Ohio, prior to October 17, 1972, adopted water quality standards for both interstate and intrastate waters. After the enactment of the 1972 Amendments, U.S. EPA reviewed both the interstate and intrastate standards pursuant to section 303(a) of the Act. On January 16, 1973, the Regional Administrator notified Ohio that certain revisions to its interstate water quality standards were necessary to make the standards consistent with the applicable requirements of the Act. On March 14, 1973, a similar notification was made for intrastate water quality standards.

The State of Ohio adopted revised interstate and intrastate water quality standards, in response to U.S. EPA's request, on July 27, 1973. The revised water quality standards, contained in the document entitled "EP–1, Water Quality Standards, Ohio Environmental Protection Agency, July 27, 1973", have been found by the U.S. EPA to be consistent with the requirements of the Law, except as otherwise noted below, and are the water quality standards applicable to the navigable waters of Ohio. The standards document is available for inspection and copying at the Ohio Environmental Protection Agency, Seneca Towers, Columbus, Ohio 43216, and the U.S. EPA Regional Office, One North Wacker Drive, Chicago, Illinois 60606. U.S. EPA's information regulation 40 CFR Part 2, provides that a fee may be charged for making copies.

The requested revisions include the application of standards to certain waters not previously covered, upgrading of use designations where possible, and the addition of specific regulations for mixing zones, temperature, phosphorus and toxic substances. In addition, appropriate criteria consistent with the objectives of the Agreement Between the United States of America and Canada on Great Lakes Water Quality were to be adopted for the protection of Lake Erie.

On July 27, 1973, the State of Ohio adopted revised water quality standards. The revisions are not completely consistent with the applicable requirements of section 303(a)(1) and (2) of the Act in that the State failed to adopt adequate regulations for the control of toxic substances and phosphorus and appropriate criteria for copper, phenolics and zinc. Furthermore, the standards adopted in 1967 for Lake Erie were retained without modification even though portions of these standards were previously excepted from Federal Standards as being inadequate to protect the specified uses. Accordingly, pursuant to section 303(b)(1), U.S. EPA is now proposing regulations setting forth standards required to comply with the Act as in effect prior to October 18, 1972.

Section 303(b)(2) of the Act requires the Administrator to promulgate standards no later than 190 days after the date of publication of this notice, unless by such time the State shall have adopted water quality standards which the Administrator determines to be in accordance with the requirements of section 303(a) of the Act.

However, the Administrator is not required to await State action for the entire 190 day period prior to promulgation. Thus, these standards may be promulgated by the Administrator at any time following the expiration of time for public comment.

Except as provided in the attached proposed regulations, the interstate and intrastate standards previously adopted by the State of Ohio, as referenced above, are the effective water quality standards under Section 303 of the Act for interstate and intrastate navigable waters within that State. Where the proposed regulations set forth below are inconsistent with the referenced standards, these regulations, if promulgated, will supersede such standards to extent of the inconsistency.

Interested persons may submit written data, views, or arguments, in triplicate, in regard to the proposed regulations to the Regional Administrator, One North Wacker Drive, Chicago, Illinois 60606. All relevant material received on or before July 2, 1974, will be considered. The Regional Administrator will also schedule a public hearing on the proposed regulations at a time to be determined in the future, if such a hearing appears warranted by the comments received from interested persons.

The approved water quality standards revisions of Ohio are available for inspection at the EPA Headquarters Office, 401 M St. SW., Rm. 811, East Tower, Washington, D.C. 20460, as well as the EPA Regional Office and the Ohio Environmental Protection Agency, Box 1049, 450 East Town Street, Columbus, Ohio 34216.

In consideration of the foregoing, it is hereby proposed that 40 CFR Part 120 be amended by deleting from § 120.10 the paragraph entitled Ohio and adding a new § 120.20 to read as set forth below.

The proposed new part would be effective immediately upon republication.

(Sec. 303(b), Pub. L. 92–500, 86 Stat. 816 (33 U.S.C. 1313(b)).

Dated: April 29, 1974.

JOHN QUARLES,
Acting Administrator.

PART 120—WATER QUALITY STANDARDS

§ 120.20 Ohio Water Quality Standards.

Water Quality Standards established by Ohio on July 27, 1973, and approved by U.S. EPA on December 18, 1973, contained in the document entitled "EP–1, Ohio Water Quality Standards, Ohio Environmental Protection Agency, July 27, 1973", hereinafter will be the water quality standards for the State of Ohio except for the following:

(a) The following shall be added to subsection (B) of section EP–1–01, "Classification of Waters of the State:"

(3) In certain specific waters to be identified by the State of Ohio excepted classification may be granted by the EPA Administrator upon submission of proposed water quality standards for such specified waters and upon submission of an analysis based upon presently available information and sufficient data to support the identification, that because of naturally occurring water quality conditions or technological limitations, improvement of water quality in such specific areas to the degree necessary to protect recreational use and the preservation and propagation of desirable or indigenous species of aquatic biota by the terminal date as set forth in P.L. 92–500 for the purpose of meeting water quality standards (1977) and as required by the general standards is impossible.

(b) The following shall be added to subsection (A) of Section EP–1–02, "General Standards:"

(7) Manganese (dissolved) (stores number 01054) shall not exceed 50 ug/l.

(c) All specifications for copper and zinc in subsection (J) of section EP–1–02, "General standards" shall be deleted. The specified criteria for these constituents are inadequate to protect fish, and other aquatic life. Because the toxicity of copper and zinc varies with water hardness and since the waters of Ohio vary greatly in hardness content, no single criterion for each of these constituents is appropriate. Copper and zinc shall be limited by the application of section EP–1–02 (K). Furthermore, the specified criteria in subsection (J) of section EP–1–02 shall be revised as follows:

Storet No.	Constituent	Concentration
32730	Phenolics	10 μg/l

(d) Subsection (K) of section EP–1–02, "General Standards" shall be revised to read as follows:

Pollutants or combinations of any pollutants shall not exceed at any time one-tenth of the 96 hour median tolerance limit for any indigenous aquatic species, except that other more stringent application factors shall be imposed where necessary to meet the minimum requirements of the National Technical Advisory Committee, "Water Quality Criteria".

(e) The following subsection shall be added to regulation EP–1–02, "General Standards."

(m) Total Phosphorus as P (storet number 00665):

Phosphorus shall be limited to the extent necessary to prevent nuisance growths of algae, weeds, and slimes. In areas where nuisance growths exist, phosphorus discharges from point sources determined significant by the Agency shall not exceed a daily average of one milligram per liter as total P.

(f) Section EP–1–05, Lake Erie—The water quality standards for Lake Erie shall be revised as follows:

In addition to the appropriate standards contained in EP–1, namely EP–1–01, EP–1–02, EP–1–07, EP–1–08, EP–1–09, the following criteria shall be applicable to Lake Erie:

(A) *Total dissolved solids.* Not to exceed 200 mg/l.

(B) *Taste and odor.* Objectionable taste and odor producing substances shall be virtually absent. Phenolic compounds shall not exceed 0.001 mg/l.

(C) *Filterable iron.* Not to exceed 0.3 mg/l.

(D) *Phosphorus.* Municipal waste treatment plants discharging in excess of one million gallons per day into Lake Erie or the Lake Erie Basin shall be limited to no more than a daily average effluent concentration of 1.0 mg/l as total phosphorus (P).

(E) *Dissolved oxygen.* Not less than 6 mg/l at any time nor less than 7 mg/l in the spawning areas of cold water fish.

(F) *Hydrogen ion concentration (pH).* Shall not be outside the range 6.7–8.5.

(G) *Temperature.* The maximum temperature rise at any time outside the mixing zone shall not exceed 3° F. above natural temperature. In addition, the water temperature shall not exceed the maximum limits indicated in the following table:

January	45	July	80
February	45	August	85
March	45	September	80
April	60	October	70
May	70	November	60
June	75	December	50

(H) *Mixing zones.* In applying water quality standards, areas may be allowed for the admixture of waste effluents with the receiving waters. Water quality standards must be met at every point outside of these areas. Characteristics inside the mixing zone shall not be deleterious to populations of important aquatic species. Pollutants or combinations of pollutants should not exceed the 96 hour median tolerance limit for indigenous aquatic species. Water temperature should be limited so as to assure that lethal conditions for important fish species are not created as determined by a time-exposure relationship. Location and design of mixing zones shall be determined on a case by case basis in such a manner that the protection and propagation of fish, shellfish, and wildlife together with any other legitimate use are not adversely affected in accordance with the following conditions:

(1) The size of mixing zones shall be minimized.

(2) Mixing zones shall not include important fish spawning and nursery areas.

(3) Mixing zones shall not block fish migratory routes.

(4) Mixing zones shall not include the hypolimnion.

(5) Mixing zones shall not include any drinking water supply intakes.

(6) Mixing zones shall not include any shore line bathing areas.

(g) The following section shall be added to Regulation EP–1:

EP–1–08 Chemical Applications. The application of chemicals for water resource management projects in accordance with and subject to state statutory provisions is not subject to the standards prescribed by these rules; however, all projects shall be reviewed and approved by the Agency prior to application of chemicals.

EP–1–09 Analytical Testing. All methods of sample collection, preservation, and analysis used in applying any of the rules and regulations in this chapter shall be in accord with those prescribed in the FEDERAL REGISTER, Title 40, Chapter I, Sub-Chapter D, Part 136 "Guidelines Establishing Test Procedures for Analysis of Pollutants".

FEDERAL COMMUNICATIONS COMMISSION

[47 CFR Parts 2, 89, 91, 93]

[Docket No. 20042; FCC 74–438]

SPECIAL INDUSTRIAL RADIO SERVICE IN PUERTO RICO AND VIRGIN ISLANDS

Proposed Shared Use of Certain Frequencies and Notice of Inquiry

In the matter of amendment of Parts 2, 89, 91 and 93 of the Commission's rules and regulations to provide for the shared use of certain frequencies by the Special Industrial Radio Service in Puerto Rico and the Virgin Islands, Docket No. 20042, RM–2139.

1. Notice is hereby given of proposed rulemaking in the above-entitled matter.

2. The Special Industrial Radio Service Association (SIRSA) has filed a petition to amend Parts 89, 91, and 93 of the Commission's rules to permit persons located in Puerto Rico and the Virgin Islands, and eligible in the Special Industrial Radio Service to share frequencies presently available to the Forestry-Conservation and Railroad Radio Services. Specifically, SIRSA proposes that 15 vacant frequencies which are allocated to the Forestry-Conservation Radio Service and 15 vacant frequencies which are allocated to the Railroad Radio Service should be made available for shared use by Special Industrial Radio Service users on Puerto Rico and the Virgin Islands. As proposed, fifteen 160 MHz Railroad Radio Service frequencies [1] and fifteen 159 MHz Forestry-Conservation Radio Service frequencies [2] would be assigned for shared use with the Special Industrial Radio Service. Since these two groups of fifteen frequencies are separated by approximately 1 MHz, they would meet the minimum pairing requirements needed for mobile relay operations.

3. In support of its request SIRSA notes that of the seventeen 159 MHz band frequencies presently allocated to the Forestry-Conservation Radio Service, none are in current use in Puerto Rico and the Virgin Islands. Similarly, in the Railroad Radio Service, of the forty-three VHF channels available to eligibles on these islands, only three are assigned in Puerto Rico and one in the Virgin Islands.

4. This proposal has resulted from the peculiar topographical, economic, and social conditions which exist in Puerto Rico [3] and which have resulted in the severe crowding of nearly all of the assignable Special Industrial 150 MHz frequencies. The problem is further compounded by the absence of standard frequency pairing arrangements in the Special Industrial Radio Service which makes mobile relay operations and frequency sharing extremely difficult.

5. While the newly authorized tertiary frequencies in the 150 MHz band are available to Special Industrial licensees, the geographical separation requirements [4] governing their use, and the limited dimensions of the island (105 miles long by 35 miles wide) combine to render them practically unusable.

6. The Commission recognizes the problem which exists in Puerto Rico, and to a lesser extent in the Virgin Islands, and agrees with the petitioner's argument that unused frequencies should not be permitted to continue lying fallow when licensees in other services have demonstrated a need for such frequencies. In this context, we would note, historically, that in Docket No. 14990,[5] released July 7, 1964, the Commission provided that certain land mobile service frequencies above 152 MHz should be made available to the Special Industrial Radio Service for use in Hawaii, Alaska, Puerto Rico and the Virgin Islands. The rationale at that time was that in Alaska, Hawaii, Puerto Rico, and the Virgin Islands, mobile frequencies above 152 MHz which were normally available on a three-way, co-equal priority sharing basis in the Petroleum, Forest Products, and Manufacturers Radio Services were not extensively used in these areas by licensees in these services, and therefore should be utilized by a service which has a pressing need for them. The same reasoning now motivates us to propose providing for additional shared use of certain other under-utilized frequencies.

7. However, the Commission notes that we have also recognized a similar need for additional frequencies in the Business Radio Service,[6] and that there may be other radio services which feel they have a similar need. Consequently, while we are tentatively proposing to

[1] 160.410, 160.425, 160.440, 160.455, 160.470, 160.485, 160.500, 160.515, 160.530, 160.545, 160.560, 160.575, 160.590, 160.605, 160.620, MHz.

[2] 159.225, 159.240, 159.255, 159.270, 159.285, 159.300, 159.315, 159.330, 159.345, 159.360, 159.375, 159.390, 159.405, 159.420, 159.435, MHz.

[3] Because of the proximity of the Virgin Islands to Puerto Rico, and the effect on the Virgin Islands of assignments made in Puerto Rico, the relief sought herein is proposed jointly for Puerto Rico and the Virgin Islands.

[4] The required separation is ten miles from the closest station operating on a 15 MHz adjacent channel. In Puerto Rico a significant geographic factor is the existence of two mountain ranges which cover half of the island. Because line of sight is a key to mobile relay operations, the few available mountain peaks which occupy advantageous positions have been covered by antenna supporting towers for mobile relay systems operating on almost all of the usable 150 MHz frequencies available to Special Industrial applicants.

[5] 42 FCC 1188.

[6] Docket 15534 amended Parts 2, 89, 91, and 93 of the Commission's Rules to provide additional frequencies for the Business Radio Service in Puerto Rico and the Virgin Islands.

V 39 I 87 MAY 3 74 XUM

make the frequencies in question available for shared use with the Special Industrial Radio Service, we are requesting information as to the following matters:

(a) Whether other radio services have a similar need in Puerto Rico and the Virgin Islands to share these Forestry-Conservation and Railroad frequencies; and

(b) What, if any, difficulties would be entailed by interservice sharing of these frequencies.

8. The proposed rules are shown in the Appendix and are issued pursuant to the authority contained in sections 4(i) and 303(r) of the Communications Act of 1934, as amended. Pursuant to the applicable procedures set forth in § 1.415 of the Commission's rules, interested parties may file comments on or before May 31, 1974, and reply comments on or before June 11, 1974. All relevant and timely comments will be considered by the Commission before final action is taken in this proceeding. In reaching its decision, the Commission may also take into account other relevant information before it, in addition to the specific comments invited by this notice. In accordance with the provisions of § 1.51 of the Commission's rules and regulations, an original and 14 copies of all statements, briefs, or comments filed shall be furnished the Commission. Responses will be available for public inspection during regular business hours in the Commission's Public Reference Room at its Washington, D.C. headquarters.

Adopted: April 17, 1974.

Released: April 30, 1974.

FEDERAL COMMUNICATIONS COMMISSSION,
[SEAL] VINCENT J. MULLINS,
Secretary.

Parts 2, 89, 91, and 93 of Chapter I of Title 47 of the Code of Federal Regulations are amended as follows:

PART 2—FREQUENCY ALLOCATIONS AND RADIO TREATY MATTERS; GENERAL RULES AND REGULATIONS

A. Section 2.106, the Table of Frequency Allocations, is amended in columns 7 through 11 for the bands 158.715–159.48 MHz and 159.48–161.575 MHz by adding footnote designator NG70 and will read as follows:

FEDERAL COMMUNICATIONS COMMISSION

Band (MHz)	Service	Class of Station	Frequency (MHz)	Nature of Services (of stations)
7	8	9	10	11
• • •	• • •	• • •	• • •	• • •
158.715–159.48	LAND MOBILE.	Base, Land Mobile.		PUBLIC SAFETY. (NG70)
159.48–161.575	LAND MOBILE.	Base, Land Mobile.		LAND TRANSPORTATION. (NG6) (NG26) (NG28) (NG70)
• • •	• • •	• • •	• • •	• • •

NG70 In Puerto Rico and the Virgin Islands only, the bands 159.225–159.435 and 160.410–160.620 MHz are also available for assignment to base stations and mobile stations in the Special Industrial Radio Service.

PART 89—PUBLIC SAFETY RADIO SERVICES

B. Section 89.459(d) is amended by adding new limitation (17) to read as follows:

§ 89.459 Frequencies available to the Forestry-Conservation Radio Service.

• • • • •

(d)

Frequency or band	Class of Station(s)	Limitations
• • •	• • •	• • •
159.225	do	17
159.240	do	17
159.255	do	17
159.270	do	17
159.285	do	17
159.300	do	17
159.315	do	17
159.330	do	17
159.345	do	17
159.360	do	17
159.375	do	17
159.390	do	17
159.405	do	17
159.420	do	17
159.435	do	17

• • • • •

(17) This frequency is shared with the Special Industrial Radio Service in Puerto Rico and the Virgin Islands. All applications for the assignment of a new frequency or to change existing facilities in such a manner as to require frequency coordination, as specified in § 89.15 hereof, for stations in Puerto Rico or the Virgin Islands, shall be accompanied by evidence of interservice frequency coordination.

• • • • •

PART 91—INDUSTRIAL RADIO SERVICES

C. Section 91.504 is amended by modifying the language of paragraph (a) and adding new paragraph (d) to read as follows:

§ 91.504 Frequencies available.

(a) The frequencies or bands of frequencies available for assignment to stations in this service are enumerated in the following table, together with the class of station(s) to which they are normally assigned, a general reference terminology, and the specific assignment limitations which are developed in paragraph (b) of this section. Special provisions relating to the availability and the assignment of certain frequencies above 152 MHz in Hawaii, Puerto Rico, and the Virgin Islands are contained in paragraphs (c) and (d) of this section.

• • • • •

(d) The following frequencies are available only in Puerto Rico and the Virgin Islands for shared use by base and mobile stations licensed in the Forestry-Conservation, Railroad and Special Industrial Radio Services.

Base and Mobile	*Mobile Only*
159.225	160.410
159.240	160.425
159.255	160.440
159.270	160.455
159.285	160.470
159.300	160.485
159.315	160.500
159.330	160.515
159.345	160.530
159.360	160.545
159.375	160.560
159.390	160.575
159.405	160.590
159.420	160.605
159.435	160.620

(1) A mobile station may be assigned the frequency of an associated base station. Such operation may, however, subject the single frequency system to interference that would not occur to a two-frequency system.

(2) The foregoing "Mobile Only" frequency may be assigned to a control station associated with a mobile relay system if it is also assigned to the associated mobile station.

(3) The foregoing "Base and Mobile" and "Mobile Only" frequencies are available on a shared basis in the Forestry-Conservation and Railroad Radio Services, respectively. All applications for the assignment of a new frequency, or to change existing facilities in such a manner as to require frequency coordination, as specified in § 91.8(a) hereof, shall be accompanied by evidence of frequency coordination with the sharing service.

PART 93—LAND TRANSPORTATION RADIO SERVICES

D. Section 93.352 is amended by adding new limitation 4 to read as follows:

§ 93.352 Frequencies below 952 MHz available for base and mobile stations.

• • • • • •

4	160.410	4	160.530
4	160.425	4	160.545
4	160.440	4	160.560
4	160.455	4	160.575
4	160.470	4	160.590
4	160.485	4	160.605
4	160.500	4	160.620
4	160.515		

• • • • • •

(4) This frequency is shared with the Special Industrial Radio Service in Puerto Rico and the Virgin Islands. All applications for the assignment of a new frequency or to change existing facilities in such a manner as to require frequency coordination, as specified in § 93.9 hereof, for stations in Puerto Rico or the Virgin Islands, shall be accompanied by evidence of interservice frequency coordination.

[FR Doc.74–10190 Filed 5–2–74;8:45 am]

[47 CFR Part 73]

[Docket No. 18110]

STANDARD FM AND TELEVISION BROADCASTING STATIONS

Multiple Ownership; Order Extending Time for Filing Comments

In the matter of amendment of §§ 73.35, 73.240, 73.636 of the Commission's rules Relating to Multiple Ownership of Standard, FM and Television Broadcast Stations.

1. On February 28, 1974, the Commission adopted a Memorandum Opinion and Order in which it requested supplemental written comments, both for updating and elaboration, in the above-entitled proceeding. Publication was given in the FEDERAL REGISTER on March 12, 1974, 39 FR 9551. In this Memorandum Opinion and Order the Commission specified May 1, 1974, as the deadline for the filing of supplemental comments and also set the dates of June 18, 19 and, if necessary, June 20, 1974, for Oral Argument.

2. On April 19, 1974, counsel for WBEN, Inc. and Chronicle Broadcasting Company requested that the time for filing comments be extended at least two weeks and preferably 30 days. Counsel states that it would seem more realistic to take into consideration the fact that the three vacancies on the Commission have not been filled and there is no guarantee that any of them will be by the June 18–20 dates and it would seem in the best interests of all, the new Commissioners as well as the cross-ownership stations involved, that the argument date be either put over into the fall, or be cancelled and rescheduled when the comments have been analyzed. Counsel points out that his clients are aware of no public interest in an expeditious determination of this rule making and also states The Pultizer Publishing Company and KSD KSD–TV, Inc., support this extension request.

3. The request of counsel for the petitioners sets forth carefully considered reasons why an extension would be advantageous to them and helpful to the Commission. However, in its Memorandum Opinion and Order released March 7, 1974, wherein the Commission specified May 1, 1974 as the deadline for submission of supplemental written filings, the point was made that this provided about 60 days for such submissions and allowed the Commission a short time in which to examine them before the oral argument. May 1, 1974 was also established as the deadline for requesting an opportunity to participate in the oral argument.

4. The March 7, 1974 Memorandum Opinion and Order stated that "no one must file," which meant that the Commission could have proceeded on the basis of previous submissions. However, the Commission did feel that interested parties should be given opportunity to update their pleadings or to submit pleadings for the first time.

5. We believe it unwise at this time to affect a rescheduling of the oral argument. Further, in view of the compression of time available to the staff for digesting the new submissions we cannot look favorably upon a thirty day extension of time for the filing of comments. We will, however, grant a two week extension through May 15, 1974, for all interested parties to make their submissions in accordance with suggestions in the above mentioned Memorandum Opinion and Order. Further, the deadline for requesting an opportunity to participate in oral argument will be extended through May 15, 1974.

6. *Accordingly, it is ordered,* That the joint request of WBEN, Inc. and Chronicle Broadcasting Company is granted in part, and the time for filing supplemental comments is extended to and including May 15, 1974; and the joint petition of WBEN, Inc. and Chronicle Broadcasting Company is denied in all other respects. *It is further ordered,* That the date for requesting an opportunity to participate in oral argument is extended to and including May 15, 1974.

7. This action is taken pursuant to authority found in sections 4(i), 5(d)(1), and 303(r) of the Communications Act of 1934, as amended, and § 0.281 of the Commission's rules.

Adopted: April 26, 1974.

Released: April 29, 1974.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] WALLACE E. JOHNSON,
Chief, Broadcast Bureau.

[FR Doc.74–10191 Filed 5–2–74;8:45 am]

[47 CFR Part 91]

[FCC 74–393; Docket No. 20032; RM–1917]

PETROLEUM GEOPHYSICAL OPERATIONS

Use of Certain Frequencies

1. Notice is hereby given of proposed rulemaking in the above-entitled matter.

2. The Central Committee on Communications Facilities of the American Petroleum Institute (API) has filed a petition requesting an amendment of Part 91 of the Commission's rules to incorporate into the rules governing the Petroleum Radio Service, procedures for the assignment and use of certain frequencies in connection with petroleum geophysical operations. The rule changes sought by API would codify practices and procedures that have been adhered to by both the Commission and the petroleum industry for more than 22 years.

3. In 1949, the National Petroleum Radio Frequency Coordinating Association (NPRFCA) initiated a plan to provide for the special communication requirements of petroleum licensees engaged in geophysical operations. According to the existing informal plan, the frequencies 1614, 1628, 1676, 1700 kHz, 25.02, 25.06, 25.10, 25.14 and 25.18 MHz are used in the Petroleum Radio Service exclusively for geophysical operations.[1] Certain other petroleum frequencies are made available to geophysical operations on a secondary basis subject to causing no interference to conventional base and mobile voice systems.[2] Also in the plan is the practice of issuing multiple frequency assignments to geophysical applicants so they could select the specific frequency which would result in the least amount of interference to base and mobile operations in any given area. However, even though the licensee may be assigned any number of frequencies, any given geophysical exploration party is limited to the use of only two frequencies at a time, using a simplex mode of operation. In addition, a power limitation of 100 watts input is imposed and A9 and F9 emissions are permitted on frequencies below 25 MHz.

4. API contends that these practices and procedures have worked well over the years and should be formally incorporated into the Commission's rules.

5. The frequencies concerned are allocated to the Petroleum Radio Service both exclusively and on a shared basis with other radio services. Any change in availability, however, will only affect licensees in the Petroleum Radio Service and then only on the ten channels proposed for exclusive allocation.[3] In addition, the geophysical procedures governing the frequencies have been used for twenty or more years without any problems to other land mobile licensees. For the foregoing reasons it appears that other land mobile licensees will not be affected by adopting the proposals. The Commission believes the public interest can be served by adopting provisions for petroleum geophysical operations. Accordingly, we propose to amend Part 91, of our Rules to include provisions for petroleum geophysical operations.

6. In following the NPRFCA plan, the Commission permitted geophysical operations the use of tone and impulse signalling on frequencies below 10 MHz. The rules presently limit tone signalling in the Petroleum Radio Service to frequencies above 25 MHz. For the same reasons as noted in paragraph 5, we are proposing to formally include in the Commission's rules provisions for geophysical tone signalling on frequencies below 10 MHz. However, due to bandwidth limitations in this part of the spectrum, we are limiting all operations below 10 MHz to an amplitude modulation mode of operation. Therefore, API's request for F9 emission on frequencies below 25 MHz is denied.

[1] The frequencies 1628, 1652, and 1676 kHz are shared with other services.

[2] 2292, 2398, 4637.5 kHz; 25.22, 25.26, 25.30, 30.66, 30.70, 30.74, 30.78, 30.82, 153.05, 153.11, 153.17, 153.23, 153.29, 153.35, 158.31, 158.37, 158.43, 451.6, 451.7, 451.65, 451.75 MHz.

[3] These frequencies are almost entirely used by licensees engaged in geophysical operations.

V 39 I 87 MAY 3 74 XUM

7. Authority for the proposed amendments is contained in sections 4(i) and 303 of the Communications Act of 1934, as amended. Pursuant to applicable procedures set forth in § 1.415 of the Commission's rules, interested persons may file comments on or before May 31, 1974, and reply comments on or before June 11, 1974. Relevant and timely comments and reply comments will be considered by the Commission before final action is taken in this proceeding. In reaching its decision, the Commission may also take into account other relevant information before it, in addition to the specific comments invited by this Notice.

8. In accordance with the provisions of § 1.419 of the Commission's rules, an original and fourteen copies of all statements, briefs, or comments filed shall be furnished the Commission. Response will be available for public inspection during regular business hours in the Commission's Public Reference Room at its headquarters in Washington, D.C.

Adopted: April 16, 1974.

Released: April 25, 1974.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] VINCENT J. MULLINS,
Secretary.

APPENDIX

Part 91 of the Commission's Rules and Regulations is amended as follows:

1. In § 91.302, paragraph (e) is added to read as follows:

§ 91.302 Availability and use of service.

• • • • •

(e) Geophysical operations may use tone or impulse signalling for purposes other than indicating failure of equipment or abnormal conditions on those frequencies designated for such transmissions in § 91.304. Authorizations for multiple frequency operations will be granted upon request notwithstanding the provisions of § 91.8(c). Each geophysical exploration party, however, may only use a maximum of two frequencies at any given time. All such tone or impulse signalling shall be on a secondary basis subject to the following limitations.

(1) That harmful interference is not caused to the primary operations of any other licensee on that particular frequency.

(2) Maximum duration of a non-voice transmission, including automatic repeats, may not exceed two seconds.

(3) The bandwidth utilized for secondary tone or impulse signalling shall not exceed that authorized to the licensee for voice emission on the frequency concerned.

(4) Frequency loading resulting from the use of secondary tone or impulse signalling will not be considered in whole or in part, as a justification for authorizing additional frequencies in the licensees mobile service system.

(a) • • •

(5) The maximum power output of the transmitter shall not exceed 50 watts.

• • • • •

2. In § 91.304(a) the table and par. (b) are amended to read as follows:

§ 91.304 Frequencies available.

(a) • • •

(41) This frequency is available for assignment only to stations utilized for the transmission of geophysical data. Use on this frequency is limited to an amplitude modulation mode of operation.

(42) This frequency is available for assignment only to stations utilized for the transmission of geophysical data.

(43) This frequency is available for assignment to geophysical stations on a secondary, non-interference basis to other Petroleum licensees. Geophysical stations must cease operations on this frequency immediately upon receiving notice that interference is being caused to mobile service stations. Use on this frequency is limited to an amplitude modulation mode of operation.

(44) This frequency is available for assignment to geophysical stations on a secondary, non-interference basis to other Petroleum licensees. Geophysical stations must cease operations on this frequency immediately upon receiving notice that interference is being caused to mobile service stations.

FEDERAL DEPOSIT INSURANCE CORPORATION

[12 CFR Part 340]

PUBLIC ISSUANCE OF BANK SECURITIES

Offering Circular Requirements; Extension of Comment Period

Notice is hereby given by the Board of Directors of the Federal Deposit Insurance Corporation of an extension to July 31, 1974 of the allowed period for submission of written comments on the Corporation's proposed regulation establishing minimum offering circular requirements for certain public distributions of securities issued by insured banks that are not members of the Federal Reserve System.

The proposed regulation was published for comment in the FEDERAL REGISTER on February 26, 1974 (39 FR 7434) and various specific comments have been received. In addition, several interested persons have requested an extension of time to prepare and submit comments. Because of the comprehensive and technical nature of the proposed regulation and the importance of receiving the comments of all interested persons, the Corporation has determined to extend the period for submission of written comments on the proposed regulation to July 31, 1974.

By order of the Board of Directors, April 29, 1974.

FEDERAL DEPOSIT INSURANCE CORPORATION,
[SEAL] ALAN R. MILLER,
Executive Secretary.

APRIL 30, 1974.

FEDERAL POWER COMMISSION

[18 CFR Part 35]

[Docket No. RM74-20]

FILING OF RATE DESIGN INFORMATION

Notice of Proposed Rulemaking

APRIL 26, 1974.

Pursuant to 5 U.S.C. 553 and sections 205, 206, 304, and 309 of the Federal Power Act (49 Stat. 851, 852, 855, 856, 858, 859; 16 U.S.C. 824d, 824e, 825c, 825h), the Commission hereby gives notice that it proposes to amend its regulations under the Federal Power Act to require the submission of rate design information by public utilities as a part of their filings of initial rate schedules under § 35.12 of the regulations and their filings of rate schedule changes under § 35.13. The proposed revisions would become effective 30 days following their promulgation. Specifically, the Commission propose to require submission of the following information:

1. For all rate schedule submittals, the filing utility shall submit a narrative statement describing the objectives of the design of the proffered rate, and the extent to which the rate design reflects costs, fosters conservation goals, or achieves other objectives.

2. Where the individual components such as the demand, energy and customer charges do not correspond to the comparable cost classifications supporting such charges, a detailed explanation shall be submitted stating the reasons for such departure.

3. Where the rates being charged contain more than one block, a detailed explanation shall be submitted indicating the rationale for the blocking and the cost, conservation or other considerations upon which such blocking is based.

4. Where the billing determinants (quantities of demand, energy, delivery points, etc.) are on different bases than the allocation determinants supporting such charges, an explanation shall be submitted explaining the reasons for such departure from a cost, conservation or other viewpoint.

In light of the rapid changes in recent years in the patterns of electric utility costs, and the Commission's expressed concern with respect to conservation of natural resources, revision of the Commission's regulations appears necessary in order to provide sufficient information to determine whether the design of rates contained in rate schedules filed with the Commission are consistent with the Commission's stated policies. In Order No. 495 issued November 13, 1973, in Docket No. R-454, the Commission indicated that it seeks to develop the role of rate design in the conservation and efficient utilization of energy resources. The order states an intention to undertake further general rulemaking for the purpose of developing accounting and reporting rules and regulations which will provide increased detail on all economic, environmental and other costs associated with the production and consumption of electric energy.

The explanation of the rate design in relation to conservation as well as cost considerations as proposed will serve to focus attention on the objectives of the rate design and the economic and conservation foundation underlying such design. Rate design and cost classification may be different for various reasons. Until the nature of, and reasons for, the departure of rate design from cost support are known, it is difficult to assess the reasonableness of such design or the degree to which the design may conflict with other considerations such as optimum utilization of capacity in times of short fuel supply.

In addition to the above proposed revisions to the Commission's regulations, we invite the comments of interested parties concerning the subject of electric rate design. Many if not most of the wholesale electric rate schedules on file with this Commission have remained unchanged in rate design from the time they were first filed. Such rate designs were developed during a period of decreasing unit costs of capacity over time, low fuel costs, abundant fuel supplies, and continually increasing gains in system efficiencies. With the reversal in the trend of decreasing unit capacity costs over time, rapidly escalating fuel costs, declining fuel supplies, and diminishing gains in system efficiencies, there is a need for reconsideration of electric rate design.

We express our particular concern that the typical design of rates in power contracts must be considered promotional in nature, thereby encouraging consumption of electric energy. It seems clearly essential to reconsider and re-evaluate the rationale underlying current rate designs and blocked rates in light of today's economic, energy, and environmental conditions. Commenting parties should address themselves to this issue and should discuss possible alternative rate designs which may be more appropriate in light of existing circumstances.

Sections 35.12 and 35.13 of the Commission's regulations are proposed to be amended as follows:

1. In § 35.12, paragraphs (b)(5) through (8) are added to read as follows:

§ 35.12 Filing of initial Rate schedules.

• • • • •

(b) • • •

(5) A narrative statement describing the objectives of the design by the proffered rate, and the extent to which the rate design reflects costs, fosters conservation goals, or achieves other objectives.

(6) Where the individual rates for the demand, energy and customer charges do not correspond to the comparable cost classifications supporting such charges, a detailed explanation shall be submitted stating the reasons for such departure.

(7) Where the rates being charged contain more than one block, a detailed explanation shall be submitted indicating the rationale for the blocking and the cost, conservation or other considerations upon which such blocking is based.

(8) Where the billing determinants (quantities of demand, energy, delivery points, etc.) are on different bases than the allocation determinants supporting such charges, an explanation shall be submitted explaining the reasons for such departure from a cost, conservation or other viewpoint.

2. In § 35.13, present paragraph (b)(5) is redesignated as (b)(9) and new paragraphs (b)(5) through (8) are added to read as follows:

§ 35.13 Filing of changes in Rate schedules.

• • • • •

(b) • • •

(5) A narrative statement describing the objectives of the design by the proffered rate, and the extent to which the rate design reflects costs, fosters conservation goals, or achieves other objectives.

(6) Where the individual components such as the demand, energy and customer charges do not correspond to the comparable cost classifications supporting such charges, a detailed explanation shall be submitted stating the reasons for such departure.

(7) Where the rates being charged contain more than one block, a detailed explanation shall be submitted indicating the rationale for the blocking and the cost, conservation or other considerations upon which such blocking is based.

(8) Where the billing determinants (quantities of demand, energy, delivery points, etc.) are on different bases than the allocation determinants supporting such charges, an explanation shall be submitted explaining the reasons for such departure from a cost, conservation or other viewpoint.

• • • • •

Any interested person may submit to the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, not later than May 27, 1974, any views, comments, or suggestions in writing concerning all or part of the proposals set forth herein. Written submittals will be placed in the Commission's public files and will be available for public inspection at the Commission's Office of Public Information, 825 North Capitol Street, NE., Washington, D.C. 20426, during regular business hours. The Commission will consider all such written submittals before acting on the matters proposed herein. An original and 14 conformed copies of any comments shall be filed with the Secretary of the Commission. Submittals to the Commission shall indicate the name, title, mailing address, and telephone number of the person to whom communications concerning the proposal shall be addressed.

The Secretary shall cause prompt publication of this notice to be made in the FEDERAL REGISTER.

By direction of the Commission.

KENNETH F. PLUMB,
Secretary.

Notices

This section of the FEDERAL REGISTER contains documents other than rules or proposed rules that are applicable to the public. Notices of hearings and investigations, committee meetings, agency decisions and rulings, delegations of authority, filing of petitions and applications and agency statements of organization and functions are examples of documents appearing in this section.

DEPARTMENT OF DEFENSE

Department of the Air Force

ADVISORY COMMITTEE ON THE AIR FORCE HISTORICAL PROGRAM

Notice of Meeting

APRIL 29, 1974.

The Advisory Committee on the Air Force Historical Program will meet at the Forrestal Building, Washington, D.C. 20314, on May 23 and 24, 1974, commencing at 8:30 a.m. in Conference Room 8E069.

The purpose of this meeting is to examine the mission, scope, progress and productivity of the Air Force Historical Program and make recommendations thereon for the consideration of the Secretary of the Air Force.

This meeting will be open to the public. Topics on the agenda include: Review of Air Force directives pertaining to the Historical Program; Staffing; Fellowships; and Reservists utilization.

If additional information is desired, contact HQ USAF (AF/CHO), Washington, D.C. 20314. Telephone 693-7373.

STANLEY L. ROBERTS,
Colonel, USAF, Chief, Legislative Division, Office of The Judge Advocate General.

Department of the Air Force

USAF SCIENTIFIC ADVISORY BOARD

Notice of Meetings

APRIL 29, 1974.

The Electronic Systems Division Advisory Group will hold a closed meeting on May 9, 1974, from 8:15 a.m. until 4 p.m., at L. G. Hanscom Field, Bedford, Massachusetts.

The meeting will consist of classified briefings on Electronic System Division programs.

The USAF Scientific Advisory Board ad hoc Committee on Future Air Force Energy Needs—Fuels and Systems, will hold a closed meeting on May 9 and 10, 1974, from 9 a.m. until 4 p.m., at the Pentagon, Washington, D.C.

The Committee will receive informational briefings on current and projected Air Force energy programs to include competition sensitive information.

For further information on these meetings, contact the Scientific Advisory Board Secretariat at 697-8404.

STANLEY L. ROBERTS,
Colonel, USAF, Chief, Legislative Division, Office of The Judge Advocate General.

BOARD OF CONSULTANTS OF THE NATIONAL WAR COLLEGE

Annual Meeting

The annual meeting of the Board of Consultants of The National War College will be held in the Library of the College located at Fort McNair, Washington, D.C. 20319, on June 3 and 4, 1974. Meetings are scheduled from 0900 to 1130 and 1330 to 1600 on both days.

The purpose of the annual meeting is for the Board of Consultants to review the entire range of College operations and, where appropriate, to provide advice and recommendations to the Commandant.

The meetings will be open to the public to the extent that space limitations of the meeting place permit. Because of these limitations, interested parties are requested to reserve space by calling the College Secretariat at 202-693-8318. Reservations will be on a first-come basis.

MAURICE W. ROCHE,
Director, Correspondence and Directives, OASD (Comptroller).

APRIL 30, 1974.

LAW ENFORCEMENT EDUCATION PROGRAM GUIDELINE MANUAL

Revision

Notice is hereby given that the Law Enforcement Education Program (LEEP) Guideline Manual 5200.1A has been revised by the Administration. Under the Crime Control Act of 1973 the Law Enforcement Education Program provides for educational assistance to criminal justice practitioners through two forms of assistance.

1. Grants for in-service practitioners attending accredited institutions of higher education while working for public criminal justice agencies.

2. Loans for preservice students in full-time study related to criminal justice with the intent to enter the criminal justice system upon completion of that education and for in-service personnel attending accredited institutions of higher education on a full-time basis.

Interested persons are invited to submit request for the revised Guideline Manual to the Law Enforcement Education Program, Law Enforcement Assistance Administration, U.S. Department of Justice, Washington, D.C. 20530.

DONALD E. SANTARELLI,
Administrator.

Fish and Wildlife Service

ENDANGERED SPECIES PERMIT

Notice of Receipt of Application

Notice is hereby given that the following applicant has applied for a permit under section 10 of the Endangered Species Act of 1973 (Pub. L. 93-205).

Applicant:
Great Adventure, Inc.,
320 East 65th Street,
New York, N.Y. 10021.

1. Great Adventure, a subsidiary corporation of Hardwicke Companies Incorporated (hereinafter referred to as "Company") applies for permission to import animals of an endangered species, namely 13 Bengal tigers (Panthera tigris tigris) as follows:

Sex	Date of birth	Origin
0.1	Dec. 9, 1972	Westfallischer Zoologischer Garten Munster.
3.0	Aug. 11, 1973	Kolnardens Djurpark.
2.2	Apr. 17, 1973	Zoological Garden Halle.
1.1	July, 1973	Central Circus, East Berlin.
3.0	Sept. 14, 1973	Twycross Zoo, England.

2. These tigers will be imported specifically for purposes of propagation, education exhibition and scientific research. The tigers will be exhibited on a 1500 hundred acre wild animal preserve located in Jackson Township, New Jersey. (see APPENDIX I) The importation of this number of Bengal tigers will benefit the species by increasing the potential for reproduction. In addition, the enhanced reproduction of the species will benefit the species due to the growth of the population and its potential to supply captive-born animals for dissemination to parks within our own Company and zoological parks throughout the U.S. The larger population of Bengal tigers within our own borders decreases the demand for the animals to be taken from the wild and thereby allows the existing foreign, native population to flourish.

In other words, conservation is the first priority. Management has developed methods to insure reproduction in captivity and it is confidentially expected that the tigers will breed when maturity is reached. The tigers are a compatible group and so there should be no difficulty in establishment.

The display will be of prime educational value. The public will view the animals in an environment similar to the natural habitat of the Bengal tiger.

3. The tigers we wish to import are all captive-born and therefore represent no damage to the wild stock. In this regard, the intent of the Lacey Act is fully upheld.

(Since all animals were born in captivity, the Lacey Act provisions for lawful capture do not apply.)

4. The 13 tigers will be maintained in enclosures encompassing an area of approximately 15 acres containing trees, shrubs, and other vegetation; they will be provided shade and shelter and water sources such as streams and ponds (see attached map, APPENDIX I). The shelters have indoor and outdoor sections. Sleeping dens are provided within the shelters. Food preparation and feeding facilities, with easy access, are conveniently located. Individual dens and shelters are provided so that the 13 tigers may enter the shelters voluntarily to find seclusion. Individual animals may also be isolated from the group for the sake of parturition, lactation, breeding and treatment of injury or illness. Facilities will be available in a central location to facilitate medical treatment or surgery should this become necessary. This facility will be located on the premises. Should intense medical care be required, Dr. Klein's medical facility located within fifteen minutes from the park, is well equipped to render such care.

The tiger enclosure will be surrounded by a 14' high chain link fence 9 gauge x 2" mesh with a two foot overhang toward the tigers of 2" x 11 gauge set at an angle of 90°. Tension wires to be fixed at the top, bottom and middle of the fence.

An underground skirt 18" wide of 2" chain link is buried at an angle of 45° along the bottom and firmly attached to the main fence. In all cases where the fence adjoins the boundary of the park an inner fence 8' high is constructed 15' inside the main fence.

This arrangement has proved entirely safe in other safari parks. Visitors drive through the enclosure on a winding road, observing the animals from the security of their cars. Entry and exit are provided through a lock arrangement of double gates. The two sets of gates are never opened simultaneously, thereby affording full security. A plan of the area and the central location is attached.

5. The animal collection at Great Adventure will be managed by experienced keeper personnel who have looked after a similar group of tigers at our park in Canada.

Rodney Dring (see Resume, APPENDIX 2) Director of Wildlife of the animal preserve has been responsible for the housing, feeding, care and acclimation of a similar group of tigers at our park in Canada. Mr. Dring is experienced in all matters of animal husbandry.

Mr. Dring's experience in the management and care of tigers will be particularly beneficial for the continuity of the welfare of this group of tigers.

Rodney Dring was trained in the British Safari Parks owned and managed by the Chipperfield Organization since the inception of the Safari Park concept.

The preserve in Parc Safari Africain was established on the basis of the experience and knowledge of the Chipperfield Organization, which originated the Safari Park concept in England in 1965. Since 1965, the Chipperfield Organization has either owned or managed on behalf of others, 12 Safari parks in six different countries. Their experience in the operation of safari parks is the most comprehensive in the world. Tigers are exhibited in most of the Chipperfield parks.

6. Great Adventure has employed as a Consultant Harold Tong, (See APPENDIX 3) former Director of Whipsnade Zoo for 23 years. Mr. Tong is an expert in the field of maintaining mammals in similar parks to that of Great Adventure and was employed as General Manager of Woburn Wild Animal Kingdom for a period of two years.

During Mr. Tong's 23 years at Whipsnade, tigers were bred and reared; and a breeding group of cheetahs established. Cheetah were first bred under the jurisdiction of Harold Tong. These animals have continued to breed since Mr. Tong's retirement and second generation animals are now breeding. Additionally, five cheetah have been bred and reared at Beekse Bergen Park in Holland under the jurisdiction of Julian Tong (in consultation with his father, Harold Tong).

The Company has retained two veterinarians who will be responsible for the health of the tigers as well as the rest of the animal population. A local veterinarian, Dr. Richard A. Klein (see Resume, APPENDIX 4) will be making routine calls and will be available on a 24-hour basis for emergency medical care of the animals. Dr. Klein has had extensive experience in the care of exotic species.

In addition, the Company has retained, as a consultant, Dr. Martin R. Dinnes (see Resume, APPENDIX 5) of Los Angeles, California. Dr. Dinnes has had considerable experience in the care and maintenance of large populations of adult tigers, including setting up breeding programs and maintenance of their offspring. He has extensive experience with exotic animals in zoos and drive-through safari parks throughout the county. Dr. Dinnes is the Chairman of the Research Committee of the American Association of Zoo Veterinarians. A major project of this Committee is the collection of normal physiological data to be retained in a computer system for dissemination to any zoo or park which requests such information.

Great Adventure will be a major contributor, by virtue of the size of its proposed animal population, for the gathering of data in support of the above project.

7. Since the animals are already in captivity, no capture operation needs to be accomplished. The countries of origin of the 13 animals are listed on Page 1, Paragraph 1.

The animals are owned by the Chipperfield Organization and are presently at Alsed Park, Germany. It is Great Adventure's plan to purchase the animals from the Chipperfield Organization.

animals from the Chipperfield Organization.

8. While a formal studbook does not exist at the present time, Great Adventure is most willing to contribute to same if one should be initiated.

Our plans are to actively participate in cooperative breeding programs relative to this species. Proper records will be kept for identification of the animals and their offspring.

All useful information gained through experience in the maintenance and breeding of these animals will be made available to all interested parties through various publications and upon requested consultation. The physiological data gained while working with these animals will be disseminated to all interested parties through the proper channels.

To the best of our knowledge, broad spectrum, cooperative breeding programs for this species do not exist at present. By virtue of the number of animals which we will have, we will be in an excellent position to cooperate with other zoos and parks in an active program for the exchange of breeding stock and the dissemination of the progeny. To minimize in-breeding, we shall also be interested in an exchange to preserve the strength and purity of the species.

9. Great Adventure is a member, in good standing, of the AAZPA as defined by the by-laws of the AAZPA—Article V, section VI.

10. The objective of this organization is to follow the aims and objectives of other zoos and organizations in establishing natural environmental habitats for Endangered Species.

It has been established by some of the major zoos that animals will breed in their natural habitat and we are following the suggestions and recommendations of these zoos resulting from studies of animals in the wild, i.e., White Rhino, San Francisco Zoo; Cheetah, San Diego Wild Animal Park; Toledo Zoo; Lion Country Safari Park, Atlanta, the Portland Oregon Wild Life Park, etc.

The Company has invested considerable funds in designing one of the outstanding wildlife parks in the world. It has drawn on its expertise in developing and operating similar parks in Canada and England.

As a successful corporation, with vast amounts of funds being invested in the establishment of wildlife in a near natural habitat, no talent or funds has been spared to engage top personnel, advisors and consultants in the management of this wild animal park.

In addition, the Company is the major shareholder of Wild Animal Kingdoms, Limited, which operates a Safari Park outside Madrid, Spain and will open one Safari Park in France and one in Germany in 1974.

Furthermore, the Company is fully confident that with the help of organizations such as the AAZPA there will be little difficulty in relocating any animals, should it become necessary. This will be done in accordance with recommendations made by these organizations based upon the needs of its constituent members for the species.

11. The tigers will be shipped in chartered space, on a commercial air-freighter, which is pressurized with heat available if necessary. The flight will originate in Hamburg, Germany and will arrive at Kennedy Airport, USA. An experienced attendant will accompany the animals on the aircraft.

The animals will be shipped in steel reinforced wooden crates. Each shipping crate will have sliding doors at each end. Each door will carry a padlock (attendant will have keys). There will be an inward opening flap at the bottom of each crate in order to facilitate feeding and watering of the tigers.

Crates will be wide enough to allow each animal to turn around and lie in lateral recumbency and there will be at least two feet of height above the head of each animal.

The animals will be transported from Kennedy Airport to our facility in Jackson, New Jersey on a flat bed stake truck with hydraulic lift gates in order to facilitate adequate ventilation. Each crate will be individually latched to the bed and to the stakes on the truck. The truck will carry a tarpaulin for additional shielding of wind or rain, should such conditions exist.

The trip from Kennedy Airport to our facility in New Jersey will be accomplished in 1½ hours.

12. I hereby certify that I have read and am familiar with the regulations contained in Title 50, Part 13, of the Code of Federal Regulations and other applicable part in Sub-Chapter B of Chapter 1 of Title 50, and I further certify that the information submitted in this application for a permit is complete and accurate to the best of my knowledge and belief. I understand that any false statement hereon may subject me to the criminal penalties of 18 U.S.C. 1001.

FRANK GRANAT,
Executive Vice President, Great Adventure, Inc.

Documents and other information submitted in connection with this application are available for public inspection during normal business hours at the Bureau's office in Suite 600, 1612 K Street NW., Washington, D.C.

Interested persons may comment on this application by submitting written data, views, or arguments, preferably in

V 39 187 MAY 3 74 XUM

triplicate, to the Director (FSF/LE), Bureau of Sport Fisheries and Wildlife, Washington, D.C. 20240. All relevant comments received no later than June 3, 1974 will be considered.

Dated: May 3, 1974.

F. V. SCHMIDT,
Acting Director, Bureau of Sport Fisheries and Wildlife.

[FR Doc.74-10253 Filed 5-2-74;8:45 am]

ENDANGERED SPECIES PERMIT

Notice of Receipt of Application

Notice is hereby given that the following applicant has applied for a permit under section 10 of the Endangered Species Act of 1973 (Pub. L. 93-205).

Applicant:
Great Adventure, Inc.,
320 East 65th Street,
New York, N.Y. 10021.

1. Great Adventure, a subsidiary corporation of Hardwicke Companies Incorporated, (hereinafter referred to as "Company") applies for permission to import animals of an endangered species, namely 3.7 cheetah (A. jubatus).

2. These cheetah will be imported for purposes of propagation, education, exhibition and scientific research. The importation of this number of cheetah will benefit the species by increasing the potential for reproduction. In addition, the enhanced reproduction of the species will benefit the species due to the growth of the population and its potential to supply captive-born animals for dissemination to parks within our own Company and zoological parks throughout the U.S. The larger population of cheetah, within our own borders, decreases the demand for the animals to be taken from the wild and thereby allows the existing foreign, native population to flourish.

The recently completed studies by Norman Meyers for the I.U.C.N. indicates that cheetah in Africa are in a state of serious decline and the present chances for survival in the wild are in a perilous condition. The greater the population within the borders of the U.S.A., the greater insurance against extinction of the species through total loss in the wild. Captive bred cheetah will be the greatest insurance against future extinction. We cannot possibly support taking cheetah out of the wild while they are in such a fragile state. However, these cheetah were already in captivity prior to being placed on the Endangered Species list in March of 1972.

The total concept in importing these cheetah was to achieve active reproduction, public education and exhibition. Cheetah are already breeding at several Safari Parks and Zoos. (See APPENDIX 1a, 1b and 1c.)

3. These cheetah were imported into Canada for purposes of propagation, education and scientific research. They are part of a group of 24 cheetah presently owned by the Company and presently maintained on a preserve it owns in Canada. There is no intention of obtaining any further cheetah from the wild to replace those being imported from Canada. Management has developed methods to insure reproduction in captivity.

All major zoos have been contacted and it is certain there are no captive born cheetah available within the continental United States. In addition, the major zoos in Europe have been approached and it would appear there are no captive bred animals which we can acquire in Europe.

4. The cheetah will be maintained in enclosures (APPENDIX 1) encompassing an area of approximately 8 acres containing a mixture of terrain consisting of plains, grass areas, trees, forest area and shrub areas; they will be provided shade and shelter and water sources.

The shelters have indoor and outdoor sections. Sleeping dens are provided within the shelters. Food preparation and feeding facilities, with easy access, are conveniently located. Individual dens and shelters are provided so that the cheetah may enter the cheetah shelters voluntarily to find seclusion. Individual animals may also be isolated from the group for the sake of parturition, location, breeding and treatment of injury or illness. Facilities will be available in a central location to facilitate medical treatment or surgery should this become necessary. This facility will be located on the premises. Should intense medical care be required, Dr. Klein's medical facility, located within fifteen minutes from the park, is well equipped to render such care.

The area will be surrounded by a 12'0" high chain link fence, 11 gauge x 2" mesh, with a two foot overhang at 45° from main fence. Tension wires to be fixed at the top, bottom and middle of the fence.

An underground skirt 18" wide 2" chain link is buried at an angle of 45° along the bottom firmly attached to the main fence. Where the fence adjoins the boundary of the park then an inner fence 8' high is constructed 15' inside the main fence.

This arrangement has proved entirely safe in other safari parks. Visitors drive through the enclosure on a winding road, observing the animals from the security of their cars. Entry and exit are provided through a "lock" arrangement of double gates. The two sets of gates are never opened simultaneously thereby affording full security. A plan of the area with details of the shelter arrangements and the central location is attached (see APPENDIX 1).

5. The animal collection at Great Adventure will be managed by experienced keeper personnel who have looked after these animals at the park in Canada.

Rodney Dring (see Resume, APPENDIX 2), Director of Wildlife of the animal preserve, has been very closely associated with these cheetah. He has been responsible for the housing, feeding, care and acclimation of these cheetah since their date of acquisition. Mr. Dring is experienced in all matters of animal husbandry. His transfer with the animals will be particularly beneficial for the continuity of their welfare.

Rodney Dring was trained in the British Safari Parks owned and managed by the Chipperfield Organization since the inception of the Safari Park concept.

The preserve in Parc Safari Africain was established on the basis of the experience and knowledge of the Chipperfield Organization, which originated the Safari Park concept in England in 1965. Since 1965, the Chipperfield Organization has either owned or managed on behalf of others, 12 safari parks in six different countries. Their experience in the operation of safari parks is the most comprehensive in the world. Cheetah are exhibited in most of the Chipperfield Parks.

Great Adventure has employed as a consultant Harold Tong (see APPENDIX 3), former Director of Whipsnade Zoo for 23 years. Mr. Tong is an expert in the field of maintaining mammals in similar parks to that of Great Adventure and was employed as General Manager of Woburn Wild Animal Kingdom for a period of two years.

During Mr. Tong's 23 years at Whipsnade, cheetah were bred and reared; and a breeding group of cheetahs established. Cheetah were first bred under the jurisdiction of Harold Tong. These animals have continued to breed since Mr. Tong's retirement and second generation animals are now breeding. Additionally, five cheetah have been bred and reared at Beekse Bergen Park in Holland under the jurisdiction of Julian Tong (in consultation with his father, Harold Tong).

The Company has retained two veterinarians who will be responsible for the health of the cheetah as well as the rest of the animal population. A local veterinarian, Dr. Richard A. Klein (see Resume, APPENDIX 4) will be making routine calls and will be available on a 24-hour basis for emergency medical care of the animals. Dr. Klein has had extensive experience in the care of exotic species.

In addition, the Company has retained, as a consultant, Dr. Martin R. Dinnes of Los Angeles, Calif. (see APPENDIX 5). Dr. Dinnes has had considerable experience in the care and maintenance of large populations of cheetah, i.e., Filmore, California, including setting up breeding programs and maintenance of their offspring. He has extensive experience with exotic animals in zoos and drive-through safari parks throughout the country. Dr. Dinnes is the Chairman of the Research Committee of the American Association of Zoo Veterinarians. A major project of this Committee is the collection of normal physiological data to be retained in a computer system for dissemination to any zoo or park which requests such information.

Great Adventure will be a major contributor, by virtue of the size of its proposed animal population, for the gathering of data in support of the above project.

Great Adventure will employ a specialist to study the general behavior and mating habits of the cheetah. A program will be instituted similar to the existing one at the San Diego, Phoenix and Atlanta Zoological parks.

The importation of this group of cheetah will have no impact upon the status of the species in the wild.

6. The cheetah will be transferred from our park in Canada. Since the animals are already in captivity, since the Company already owns the animals and since they are located in one location in Canada, no capture operation or financial transaction needs to be accomplished. The animals were captured in May, 1971 in So. West Africa and exported from that location to Canada on 5/24/72. The origin in Africa was the Wolfgang Delfs Farm in Windhoek, So. West Africa.

7. While a formal studbook does not exist at the present time, Great Adventure is most willing to contribute to same if one should be initiated. At the moment we are awaiting the AAZPA census of this species as an aid to forming direct lines of communications with others who have cheetah or have had them breed successfully, in captivity. This project, while in its infancy as a formal project, is underway.

All useful information gained through experience in the maintenance and breeding of these animals will be made available to all interested parties through various publications and upon requested consultation. The physiological data gained while working with these animals will be disseminated to all interested parties through the proper channels.

8. While several seminars on the subject of cheetah breeding in captivity have been held (and were attended by several of our consultants, principles and staff members) there is, to the best of our knowledge, no formal cooperative breeding program in existence. Great Adventure is willing to cooperate in such a venture.

9. Great Adventure is a member, in good standing, of the AAZPA as defined by the bylaws of the AAZPA—Article V, Section VI.

10. The objective of this organization is to follow the aims and objectives of other zoos and organizations in establishing natural environmental habitats for Endangered Species.

It has been established by some of the major zoos that animals will breed in their natural habitat and we are following the suggestions and recommendations of these zoos resulting from studies of animals in the wild i.e. Cheetah, San Diego Wild Animal Park, Toledo Zoo; Lion Country Safari Park; Atlanta, Portland, Oregon Wild Life Park; Beekse Bergen, Holland; White Rhino, San Francisco Zoo, etc.

The Company has invested considerable funds in designing one of the outstanding wildlife parks in the world. It has drawn on its expertise in developing and operating similar parks in Canada and England.

As a group of successful business people, with vast amounts of funds being invested in the establishment of wildlife in a near natural habitat, no talent or funds has been spared to engage top personnel, advisors and consultants, in the management of this wild animal park.

In addition, the Company is the major shareholder of Wild Animal Kingdoms, Limited, which operates a Safari Park outside Madrid, Spain and will open one Safari Park in France and one in Germany in 1974.

Furthermore, the Company is fully confident that with the help of organizations such as the AAZPA there will be little difficulty in relocating any animals, should it become necessary. This will be done in accordance with recommendations made by these organizations based upon the needs of its constituent members for the species.

11. The cheetah will be shipped in steel reinforced wooden crates. Each shipping crate will have sliding doors at each end. Each door will carry a padlock (attendant will have keys). There will be an inward opening flap at the bottom of each crate in order to facilitate feeding and watering of the cheetah.

Crates will be wide enough to allow each animal to turn around and lie in lateral recumbency and there will be at least two feet of height above the head of each animal.

The animal will be transported from Parc Safari Africain to our facility in Jackson, New Jersey on a flat bed stake truck with hydraulic lift gates in order to facilitate adequate ventilation. Each crate will be individually latched to the bed and to the stakes on the truck. The truck will carry a tarpaulin for additional shielding of wind or rain, should such conditions exist. The trip from Parc Safari Africain in Hemmingsford, Quebec, Canada, to our facility in Jackson, New Jersey will be accomplished in approximately 12 hours.

12. I hereby certify that I have read and am familiar with the regulations contained in Title 50, Part 13, of the Code of Federal Regulations and other applicable part in Sub-Chapter B of Chapter I of Title 50, and I further certify that the information submitted in this application for a permit is complete and accurate to the best of my knowledge and belief. I understand that any false statement hereon may subject me to the criminal penalties of 18 U.S.C. 1001.

FRANK GRANAT,
Executive Vice President, Great Adventure, Inc.

Documents and other information submitted in connection with this application are available for public inspection during normal business hours at the Bureau's office in Suite 600, 1612 K Street NW., Washington, D.C.

Interested persons may comment on this application by submitting written data, views, or arguments, preferably in triplicate, to the Director (FSF/LE), Bureau of Sport Fisheries and Wildlife, Washington, D.C. 20240. All relevant comments received no later than June 3, 1974 will be considered.

2. These tigers will be imported into the U.S.A. specifically for purposes of propagation, education, exhibition and scientific research. The importation of this number of Siberian tigers will benefit the species by increasing the potential for reproduction. In addition, the enhanced reproduction of the species will benefit the species due to the growth of the population and its potential to supply captive-born animals for dissemination to parks within our own Company and zoological parks throughout the U.S. The larger population of Siberian tigers within our own borders decreases the demand for the animals to be taken from the wild and thereby allows the existing foreign, native population to flourish.

In other words, conservation is the first priority. Management has developed methods to insure reproduction in captivity and it is confidentially expected that the tigers will breed when maturity is reached. The tigers are a compatible group and so there should be no difficulty in establishment.

The display will be of prime education value. The public will view the animals in an environment similar to the natural habitat of the Siberian tiger.

3. This group of tigers is owned and is presently maintained by the Company on a preserve it owns in Canada. The tigers we wish to import are all captive-born and therefore represent no damage to the wild stock. In this regard, the intent of the Lacey Act is fully upheld. (Since all animals were born in captivity, the Lacey Act provisions for lawful capture do not apply). The 11 tigers are presently living together at Parc Safari Africain in Hemmingsford, Quebec, Canada, a park owned by the Company. These animals have been living together at this location for one year and have proven to be compatible with each other. The company wishes to transfer its tigers from the preserve in Hemmingsford to our preserve in Jackson Township, New Jersey.

Dr. Martin Dinnes had made every attempt to acquire registered Siberian tigers in the U.S. of an age compatible with our present collection and has not met with any success.

4. The 11 tigers will be maintained in enclosures encompassing an area of approximately 20 acres containing trees, shrubs, and other vegetation; they will be provided shade and shelter and water sources such as streams and ponds (see attached MAP, APPENDIX 1). The shelters have indoor and outdoor sections. Sleeping dens are provided within the shelters. Food preparation and feeding facilities, with easy access, are conveniently located. Individual dens and shelters are provided so that the 11 tigers may enter the shelters voluntarily to find seclusion. Individual animals may also be isolated from the group for the sake of parturition, lactation, breeding and treatment of injury or illness. Facilities will be available in a central location to facilitate medical treatment or surgery should this become necessary. This facility will be located on the premises. Should intense medical care be required, Dr. Klein's medical facility, located within fifteen minutes from the park, is well equipped to render such care.

The tiger enclosure will be surrounded by a 14' high chain link fence 9 gauge x 2" mesh with a two-foot overhang toward the tigers of 2" x 11 gauge set at an angle of 90°. Tension wires to be fixed at the top, bottom and middle of the fence.

An underground skirt 18" wide of 2" chain link is buried at an angle of 45° along the bottom and firmly attached to the main fence. In all cases where the fence adjoins the boundary of the park an inner fence 8' high is constructed 15' inside the main fence.

This arrangement has proved entirely safe in other safari parks. Visitors which through the enclosure on a winding road, observing the animals from the security of their cars. Entry and exit are provided through a "lock" arrangement of double gates. The two sets of gates are never opened simultaneously, thereby affording full security. A plan of the area and the central location is attached.

5. The animal collection at Great Adventure will be managed by experienced keeper personnel who have looked after these animals at the park in Canada.

Rodney Dring (see Resume, APPENDIX 2), Director of Wildlife of the animal preserve, has been very closely associated with these tigers. He has been responsible for the housing, feeding, care and acclimation of these tigers since their date of acquisition. Mr.

V 39 87 MAY 3 74 XUM

Dring is experienced in all matters of animal husbandry. His transfer with the animals will be particularly beneficial for the continuity of their welfare.

Rodney Dring was trained in the British Safari Parks owned and managed by the Chipperfield Organization since the inception of the Safari Park concept.

The preserve in Parc Safari Africain was established on the basis of the experience and knowledge of the Chipperfield Organization, which originated the Safari Park concept in England in 1965. Since 1965, the Chipperfield Organization has either owned or managed on behalf of others, 12 safari parks in six different countries. Their experience in the operation of safari parks is the most comprehensive in the world. Tigers are exhibited in most of the Chipperfield parks.

6. Great Adventure has employed as a Consultant Harold Tong, (see APPENDIX 3) former Director of Whipsnade Zoo for 23 years. Mr. Tong is an expert in the field of maintaining mammals in similar parks to that of Great Adventure and was employed as General Manager of Woburn Wild Animal Kingdom for a period of two years.

During Mr. Tong's 23 years at Whipsnade, tigers were bred and reared; and a breeding group of cheetahs established. Cheetah were first bred under the jurisdiction of Harold Tong. These animals have continued to breed since Mr. Tong's retirement and second generation animals are now breeding. Additionally, five cheetah have been bred and reared at Beekse Bergen Park in Holland under the jurisdiction of Julian Tong (in consultation with his father, Harold Tong).

The Company has retained two veterinarians who will be responsible for the health of the tigers as well as the rest of the animal population. A local veterinarian, Dr. Richard A. Klein (see Resume, APPENDIX 4) will be making routine calls and will be available on a 24-hour basis for emergency medical care of the animals. Dr. Klein has had extensive experience in the care of exotic species.

In addition, the Company has retained, as a consultant, Dr. Martin R. Dinnes (see Resume, APPENDIX 5) of Los Angeles, California, who has had considerable experience in the care and maintenance of large populations of adult tigers, including setting up breeding programs and maintenance of their offspring. He has extensive experience with exotic animals in zoos and drive-through safari parks throughout the country. Dr. Dinnes is the Chairman of the Research Committee of the American Association of Zoo Veterinarians. A major project of this Committee is the collection of normal physiological data to be retained in a computer system for dissemination to any zoo or park which requests such information.

Great Adventure will be a major contributor, by virtue of the size of its proposed animals population, for the gathering of data in support of the above project.

7. The tigers will be transferred from our park in Canada. Since the animals are already in captivity, since the Company already owns the animals and since they are located in one location in Canada, no capture operation or financial transaction needs to be accomplished. The countries of origin of the 11 animals are listed in part #1 of this application.

8. At the present time, a stud book for the species is in existence and being maintained by Marvin L. Jones, 1015 Geary Street, San Francisco, California 95109.

Our plans are to actively participate in cooperative breeding programs relative to this species. Proper records will be kept for identification of the animals and their offspring. All Siberian tigers owned by the Company have been registered in the stud book.

All useful information gained through experience in the maintenance and breeding of these animals will be made available to all interested parties through various publications and upon requested consultation. The physiological data gained while working with these animals will be disseminated to all interested parties through the proper channels.

To the best of our knowledge, broad spectrum, cooperative breeding programs for this species do not exist at present. By virtue of the number of animals which we will have, we will be in an excellent position to cooperate with other zoos and parks in an active program for the exchange of breeding stock and the dissemination of the progeny. To minimize in-breeding, we shall also be interested in an exchange to preserve the strength and purity of the species.

9. Great Adventure is a member, in good standing, of the AAZPA as defined by the bylaws of the AAZPA—Article V, Section VI.

10. The objective of this organization is to follow the aims and objectives of other zoos and organizations in establishing natural environmental habitats for Endangered Species.

It has been established by some of the major zoos that animals will breed in their natural habitat and we are following the suggestions and recommendations of these zoos resulting from studies of animals in the wild, i.e. White Rhino, San Francisco Zoo; Cheetah, San Diego Wild Animal Park, Toledo Zoo, Lion Country Safari Park, Atlanta, and the Portland Oregon Wild Life Park, etc.

The company has invested considerable funds in designing one of the outstanding wildlife parks in the world. It has drawn on its expertise in developing and operating similar parks in Canada and England.

As a successful corporation with vast amounts of funds invested in the establishment of wildlife in a near natural habitat, no talent or funds has been spared to engage top personnel, advisors and consultants in the management of this wild animal park.

In addition, the company is the major shareholder of Wild Animal Kingdoms, Limited, which operates a Safari Park outside Madrid, Spain and will open a safari park in France and one in Germany in 1974.

Furthermore, the company is fully confident that with the help of organizations such as the AAZPA there will be little difficulty in relocating any animals, should it become necessary. This will be done in accordance with recommendations made by these organizations based upon the needs of its constituant members for the species.

11. The tigers will be shipped in steel reinforced wooden crates. Each shipping crate will have sliding doors at each end. Each door will carry a padlock (attendant will have keys). There will be an inward opening flap at the bottom of each crate in order to facilitate feeding and watering of the tigers.

Crates will be wide enough to allow each animal to turn around and lie in lateral recumbency and there will be at least two feet of height above the head of each animal.

The animal will be transported from Parc Safari Africain to our facility in Jackson, New Jersey on a flat bed stake truck with hydraulic lift gates in order to facilitate adequate ventilation. Each crate will be individually latched to the bed and to the stakes on the truck. The truck will carry a tarpaulin for additional shielding for wind or rain, should such conditions exist. The trip from Parc Safari Africain in Hemmingsford, Quebec, Canada, to or facility in Jackson New Jersey will be accomplished in approximately 12 hours.

12. I hereby certify that I have read and am familiar with the regulations contained in Title 50, Part 13, of the Code of Federal Regulations and other applicable part in Sub-Chapter B of Chapter I of Title 50, and I further certify that the information submitted in this application for a permit is complete and accurate to the best of my knowledge and belief. I understand that any false statement hereon may subject me to the crim.inal penalties of 18 U.S.C. 1001.

FRANK GRANAT,
Executive Vice President,
Great Adventure, Inc.

Documents and other information submitted in connection with this application are available for public inspection during normal business hours at the Bureau's office in Suite 600, 1612 K Street NW., Washington, D.C.

Interested persons may comment on this application by submitting written data, views, or arguments, preferably in triplicate, to the Director (FSF/LE), Bureau of Sport Fisheries and Wildlife, Washington, D.C. 20240. All relevant comments received no later than June 3, 1974 will be considered.

Dated: May 3, 1974.

F. V. SCHMIDT,
Acting Director, Bureau of
Sport Fisheries and Wildlife.

Geological Survey

[Power Site Modification 452]

BIGHORN RIVER BASIN, WYOMING

Modification of Power Site

Pursuant to authority under the Act of March 3, 1879 (20 Stat. 394; 43 U.S.C. 31), and 220 Departmental Manual 6.1; Power Site Classification 345, of July 31, 1944, is hereby modified to the extent necessary to permit the grant of a right-of-way under Revised Statute 2477 (43 U.S.C. 932) to the Board of County Commissioners, Big Horn County, Wyoming, for the construction of a county road, as shown on a map on file with the Bureau of Land Management under Wyoming 38612. The right-of-way will affect the following described lands:

SIXTH PRINCIPAL MERIDIAN, WYOMING

T. 53 N., R. 94 W.,
sec. 12, lot 7 and SW¼SW¼;
sec. 13, lot 2 and NE¼SE¼.

This power site modification is subject to the condition that should the land traversed by the right-of-way be required for reservoir or power purposes, any improvements or structures thereon, when found by the Secretary of the Interior to interfere with reservoir or power development, shall be removed or relocated to eliminate interference with such development at no cost to the United States, its permittees, or licensees.

Dated: April 26, 1974.

HENRY W. COULTER,
Acting Director.

Geological Survey

ADVISORY COMMITTEE ON WATER DATA FOR PUBLIC USE

Public Meeting

Pursuant to Pub. L. 92-463 effective January 5, 1973, notice is hereby given that an open meeting of the Advisory Committee on Water Data for Public Use will be held May 21-23 at the Holiday Inn, Downtown, in Sioux Falls, South Dakota.

This technical committee is made up of representatives of water-resources oriented groups, including National, State, and regional organizations, professional and technical societies, and the academic community. Its principal responsibility is to represent the interests of the non-Federal community on plans, policies, and procedures related to water-data programs. The Director of the U.S. Geological Survey is Chairman of the Committee.

Hydrologic applications of remote sensing techniques will be a featured item at this meeting of the Advisory Committee. Included will be a tour of the Geological Survey's recently dedicated Earth Resources Observation System (EROS) Data Center. Other items on the agenda are river-quality assessments, emerging needs for new data and data products, and a review of the current activities relating to the coordination of water-data acquisition and dissemination.

Persons wishing to attend the meeting or desiring more detailed information about the meeting should contact R. H. Langford, Chief, Office of Water Data Coordination, U.S. Geological Survey, 417 National Center, Reston, Virginia 22092.

V. E. MCKELVEY,
Director,
U.S. Geological Survey.

National Park Service

BLUE RIDGE PARKWAY

Notice of Intention to Issue a Concession Permit

Pursuant to the provisions of section 5, of the Act of October 9, 1965, (79 Stat. 969; (16 U.S.C. 20)) public notice is hereby given that thirty (30) days after the date of publication of this notice, the Department of the Interior, through the Superintendent, Blue Ridge Parkway, proposes to issue a concession permit to Mr. S. S. Clark, Jr., authorizing him to provide concession facilities and services for the public at Moses H. Cone Park, Blue Ridge Parkway, for a period of two (2) years from January 1, 1974, through December 31, 1975.

An assessment of the environmental impact of this proposed action has been made and it has been determined that it will not significantly affect the quality of the human environment, and that it is not a major Federal action under the Environmental Quality Act and the guidelines of the Council on Environmental Quality. The environmental assessment may be reviewed in the Office of the Superintendent, Blue Ridge Parkway.

The foregoing concessioner has performed his obligations under a prior permit to the satisfaction of the National Park Service and, therefore, pursuant to the Act cited above, is entitled to be given preference in the renewal of the permit and in the negotiation of a new permit. However, under the Act cited above, the National Park Service is also required to consider and evaluate all proposals received as a result of this notice. Any proposal to be considered and evaluated must be submitted on or before June 3, 1974.

Interested parties should contact the Superintendent, Blue Ridge Parkway, P. O. Box 7606, Asheville, North Carolina 28807, for information as to the requirements of the proposed permit.

Dated: March 8, 1974.

GRANVILLE B. LILES,
Superintendent,
Blue Ridge Parkway.

Office of the Secretary

JOHN RICCA

Statement of Changes in Financial Interests

In accordance with the requirements of section 710(b)(6) of the Defense Production Act of 1950, as amended, and Executive Order 10647 of November 28, 1955, the following changes have taken place in my financial interests during the past six months:

(1) None.
(2) Add: Kennecott Copper, South Carolina Electric & Gas.
(3) None.
(4) None.

This statement is made as of April 23, 1974.

Dated: April 23, 1974.

JOHN RICCA.

DEPARTMENT OF COMMERCE

Maritime Administration

TUITION FEE FOR COLLISION AVOIDANCE RADAR TRAINING COURSE

Change of Procedures

Notice is hereby given that beginning August 1, 1974, the tuition fees that are assessed for the Collision Avoidance Radar courses being offered at the three Maritime Administration Regional Training Centers in New York, New Orleans, and San Francisco, will be increased to the following:

8- and 5-day courses	$50.00
3-day refresher course	30.00
Recertification exercise	10.00

Payment shall be to the registrar at the school attended in the form of a check or money order made payable to "Maritime Administration-Commerce" in the amount of the fee assessed for the course selected. Such receipts will be deposited in an appropriate account as general receipts of the Treasury of the United States.

Dated: April 30, 1974.

By order of the Assistant Secretary of Commerce for Maritime Affairs.

JAMES S. DAWSON, JR.,
Secretary,
Maritime Administration.

National Oceanic and Atmospheric Administration

DONALD B. SINIFF

Application for Scientific Research

Notice is hereby given that the following applicant has applied in due form to take marine mammals for scientific research as authorized by the Marine Mammals Protection Act of 1972 and the Regulations Governing the Taking and Importing of Marine Mammals.

Donald B. Siniff, Associate Professor, Department of Ecology and Behavioral Biology, 223 Snyder Hall, University of Minnesota, St. Paul, Minnesota 55101, to take, tag, release and track, collect biological specimen materials, and conduct other research activities as outlined below, with Weddell seals (*Leptonychotes weddelli*), leopard seals (*Hydrurga leptonyx*), Ross seals (*Ommatophoca rossi*), crabeater seals (*Lobodon carcinophagus*), southern elephant seals (*Mirounga leonina*), and southern fur seals (*Arctocephalus gazella*) in Antarctic waters.

The research activities will be conducted annually during October, November and December, from 1974 through 1977. The project will involve seal populations in McMurdo Sound and in the vicinity of the Antarctic Peninsula.

The McMurdo Sound studies will involve the following activities:

1. Capture, with physical restraint or drugs, 550 new-born Weddell seals annually, to be tagged with marker tags in the rear flipper and released;

2. Capture, with physical restraint or drugs, 150 adult female Weddell seals annually, to be tagged with marker tags and released. Twenty-five adult females may also be tagged each year with radiosonic tags;

3. Capture, with physical restraint or drugs, 50 adult male Weddell seals annually, to be tagged with marker tags and released. Twenty-five adult males may also be tagged each year with radiosonic tags;

4. Annually collect toenails from the 200 adult Weddell seals described in 2 and 3 above;

5. Annually collect blood samples from the 200 adult Weddell seals described in 2 and 3 above;

6. Intentionally sacrifice up to six Weddell seals per year, if the promise of unique scientific return seems to warrant it;

V 39 87 MAY 3 74 XUM

7. Transfer up to 24 Weddell seals from breeding colonies to artificial holes in the ice, in order to determine the effects of density manipulation;

8. Use long lasting (i.e., 4 to 6 hours effective time) immobilizing drugs and tranquilizers on 20 Weddell seals each year;

9. Collect skeletal and reproductive material from Weddell seals found dead from natural causes;

10. Conduct weekly censuses of Weddell seals in McMurdo Sound, to attempt to count all seals present on the surface of the ice and to record all tag numbers seen.

The Antarctic Peninsula studies will involve the following annual activities:

1. Use immobilizing and tranquilizing drugs to capture at present an unspecified number of crabeater seals, leopard seals, Ross seals, Weddell seals, southern fur seals and southern elephant seals;

2. Capture, tag, weigh, measure, extract a post-canine tooth, and draw blood samples from 50 crabeater seals and 25 leopard seals;

3. Place electronic tags on up to 25 crabeater seals, 25 leopard seals and 25 Ross seals;

4. Capture, tag, measure and collect blood samples and a toenail from 50 Weddell seals to compare with the McMurdo Sound Weddell seal population;

5. Census southern fur seal colonies on King George and Melchoir Islands;

6. Immobilize and collect blood samples from 25 southern fur seals and 25 southern elephant seals;

7. Intentionally sacrifice up to 6 crabeater seals, 6 leopard seals, 6 Weddell seals, 2 Ross seals, 2 southern fur seals and 2 southern elephant seals if the promise of unique scientific return warrants it. The purpose of these studies is to enumerate the various Antarctic seal stocks and to assess the pertinent factors of population dynamics which affect recruitment and natural regulation. Accurate and reliable estimates of the magnitude of the Antarctic seal stock plus detailed knowledge of the biology, behavior and ecology of each species are necessary to predict the effects of exploitation and management strategies.

Skulls and other skeletal material collected during this project will be housed in the Bell Museum of Natural History, University of Minnesota until the termination of the project, when the entire collection will be transferred to the National Museum, Washington, D.C.

The Principal Investigator, Dr. Siniff, has seven seasons' experience in Antarctic research. Other researchers have from one to six years' experience.

Documents submitted in connection with this application are available for review in the Office of the Director, National Marine Fisheries Service, Washington, D.C. 20235, telephone 202-343-7780.

Concurrent with the publication of this notice in the FEDERAL REGISTER the Director, National Marine Fisheries Service, is sending copies of the application to the Marine Mammal Commission and the Committee of Scientific Advisors.

Interested parties may submit written data or views on this application on or before June 3, 1974, to the Director, National Marine Fisheries Service, Washington, D.C. 20235.

All statements and opinions contained in this notice in support of this application are those of the Applicant and do not necessarily reflect the views of the National Marine Fisheries Service.

Dated: April 26, 1974.

JACK W. GEHRINGER,
Acting Director, National Marine Fisheries Service.

[FR Doc.74-10182 Filed 5-2-74;8:45 am]

FORT WAYNE CHILDREN'S ZOOLOGICAL GARDENS

Issuance of Permit for Marine Mammals

On December 27, 1973, notice was published in the FEDERAL REGISTER (38 FR 35340), that an application had been filed with the National Marine Fisheries Service by the Fort Wayne Children's Zoological Gardens, Fort Wayne, Indiana 46802, for a permit to take two (2) male and four (4) female California sea lions (*Zalophus californianus*) for public display.

Notice is hereby given that, on April 26, 1974, and as authorized by the provisions of the Marine Mammal Protection Act of 1972 (16 U.S.C. 1361-1407), the National Marine Fisheries Service issued a Permit to Fort Wayne Children's Zoological Gardens, subject to certain conditions set forth therein. The Permit is available for review by interested persons in the Office of the Director, National Marine Fisheries Service, Washington, D.C. 20235, and at the offices of the Regional Director, National Marine Fisheries Service, Southwest Region, 300 South Ferry Street, Terminal Island, California 90731 and the Regional Director, National Marine Fisheries Service, Northeast Region, Federal Building, 14 Elm Street, Gloucester, Massachusetts 01930.

Dated: April 26, 1974.

JACK W. GEHRINGER,
Acting Director, National Marine Fisheries Service.

[FR Doc.74-10183 Filed 5-2-74;8:45 am]

STATE OF ALASKA, DEPARTMENT OF FISH AND GAME

Notice of Receipt of Application for a Scientific Research Permit

Notice is hereby given that the following applicant has applied in due form for a permit to take marine mammals for the purpose of scientific research, as authorized by the Marine Mammal Protection Act of 1972 (16 U.S.C. 1361-1407) and the Regulations Governing the Taking and Importing of Marine Mammals.

State of Alaska, Department of Fish and Game, Subport Building, Juneau, Alaska 99801 to conduct research on belukha, or white whales (*Delphinapterus leucas*) in the Bristol Bay area of Alaska.

This project is a continuation of research to determine the feasibility of using underwater transmissions of killer whale (*Orcinus orca*) sounds for extended periods of time to prevent the movement of belukha whales up the major river systems in Bristol Bay and to determine if the food habits of those whales which are allowed to forage in the rivers are significantly different from those of whales which are prevented from entering the rivers. The purpose of this project is to determine the impact of belukha whales on sockeye salmon smolts.

The research proposal involves the following:

1. Three sound projection systems will be designed and manufactured for transmitting killer whale sounds underwater. Two systems will be installed at suitable locations in the Kvichak River. The third system will be used as backup;

2. Occasional aerial surveys will be made to determine the distribution of belukhas during the period when they normally enter the river and to determine if any whales have passed upstream undetected;

3. In mid-June, after sockeye salmon smolt migration has peaked in the Kvichak River, the sound projection system will be moved to a suitable location on the Nushagak River and the same activities as outlined in paragraphs 1 and 2 above will be conducted.

Documents submitted in connection with this application are available in the Office of the Director, National Marine Fisheries Service, Washington, D.C. 20235 (telephone 202-343-7780), and the Office of the Regional Director, National Marine Fisheries Service, Alaska Region, P.O. Box 1668, Juneau, Alaska 99801 (telephone 907-586-7221).

Concurrent with the publication of this notice in the FEDERAL REGISTER the Secretary of Commerce is sending a copy of the application to the Marine Mammal Commission and the Committee of Scientific Advisors.

Interested parties may submit written data or views on this application on or before June 3, 1974, to the Director, National Marine Fisheries Service, Department of Commerce, Washington, D.C. 20235.

All statements and opinions contained in this notice in support of this application are those of the Applicant and do not necessarily reflect the views of the National Marine Fisheries Service.

Dated: March 26, 1974.

JACK W. GEHRINGER,
Acting Director, National Marine Fisheries Service.

[FR Doc.74-10185 Filed 5-2-74;8:45 am]

OFFICE OF COASTAL ZONE MANAGEMENT

Notice of Meeting

Notice is hereby given that the Office of Coastal Zone Management, National Oceanic and Atmospheric Administration (NOAA), U.S. Department of Commerce, will hold a public meeting for the purpose of receiving comments on the draft Environmental Impact Statement for a proposed Estuarine Sanctuary Grant Award for a portion of South Slough, Coos Bay, Oregon, pursuant to the National Environmental Policy Act (Pub. L. 91-190). The public meeting will be held in:

The Cultural Auditorium
Coos Bay Library
525 Anderson
Coos Bay, Oregon

between the hours of 7:30 p.m. to midnight, on June 3, 1974. The views of the public and interested bodies are invited.

Both written and oral statements will be accepted. Presentations will be scheduled on a first-come, first-serve basis, but priority will be given to those who have prepared statements. Time will be allotted at the end of the meeting for those without statements who wish to be heard. In order that the maximum opportunity be afforded all those who wish to be heard, presentations will be limited to a maximum of fifteen minutes. No audio-visual equipment will be available. Office of Coastal Zone Management staff may wish to question speakers.

Persons or organizations wishing to be heard on this matter should contact the Office of Coastal Zone Management as soon as possible in order that a meeting schedule may be drawn up and definite times established for presentations. The address is: Office of Coastal Zone Management, National Oceanic and Atmospheric Administration, Rockville, Maryland 20852, 301/496-8526.

Written comments may also be submitted by mail to the Office of Coastal Zone Management. Such written comments must be received before June 17, 1974, in order to be considered for inclusion in the final statement.

Copies of the draft Environmental Impact Statement are available from the Office of Coastal Zone Management, and are also on file in the Coos County Library and the Oregon Coastal Conservation and Development Commission, P.O. Box N, Florence, Oregon 94739, 503/997-8248.

Comments should address the adequacy of the draft Environmental Impact Statement as well as the desirability of the proposed action.

No verbatim transcript of the meetings will be maintained, but staff present will record the general thrust of extemporaneous remarks.

Following consideration of the comments received at this meeting, as well as written comments submitted to the Office of Coastal Zone Management, the Office of Coastal Zone Management will prepare the Final Environmental Impact Statement pursuant to the National Environmental Policy Act of 1969 and implementing CEQ Guidelines.

T. P. GLEITER,
Assistant Administrator for Administration.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Office of Education

VETERANS' COST-OF-INSTRUCTION PROGRAM PAYMENTS TO INSTITUTIONS OF HIGHER EDUCATION

Closing Date for Receipt of Applications

Notice is hereby given that pursuant to the authority contained in section 420 of the Higher Education Act of 1965 (20 U.S.C. 1070e-1), applications for funds are being accepted from institutions of higher education under the Veterans' Cost-of-Instruction Program. In order to receive consideration such applications must be received on or before June 3, 1974.

Such applications must be submitted to the Veterans' Programs Unit, U.S. Office of Education, 400 Maryland Avenue, SW., Washington, D.C. 20202, attention 13.540. Information and application forms may be obtained from the various Regional Offices of the Office of Education, or from the Veterans' Programs Unit, U.S. Office of Education, Room 4616, ROB #3, 7th and D Streets, SW., Washington, D.C. 20202.

An application sent by mail will be considered to be received on time if:

(1) The application was sent by registered or certified mail not later than the fifth calendar day prior to the closing date (or if such fifth calendar day is a Saturday, Sunday, or Federal holiday, not later than the next following business day), as evidenced by the U.S. Postal Service postmark on the wrapper or envelope, or on the original receipt from the U.S. Postal Service; or

(2) The application is received on or before the closing date by either the Department of Health, Education, and Welfare, or the U.S. Office of Education mail rooms in Washington, D.C. (In establishing the date of receipt, the Commissioner will rely on the time-date stamp of such mail rooms or other documentary evidence of receipt maintained by the Department of Health, Education, and Welfare, or the U.S. Office of Education.)

(20 U.S.C. 1070e-1)

Dated: April 5, 1974.

JOHN OTTINA,
U.S. Commissioner of Education.

NATIONAL ADVISORY COUNCIL ON VOCATIONAL EDUCATION

Notice of Public Meeting

Notice is hereby given, pursuant to Pub. L. 92-463, that the next meeting of the National Advisory Council on Vocational Education will be held on May 15, 1974, from 1 p.m. to 5 p.m., local time and on May 16, 1974 from 9 a.m. to 12 noon, local time; a joint meeting of the National and State Advisory Councils will be held on May 16, 1974, from 1 p.m. to 5 p.m., local time and on May 17, 1974, from 8 a.m. to 4:30 p.m., local time, at the Ramada Inn, Washington, D.C.

The National Advisory Council on Vocational Education is established under section 104 of the Vocational Education Amendments of 1968 (20 U.S.C. 1244). The Council is directed to advise the Commissioner of Education concerning the administration of, preparation of feneral regulations for, and operation of, vocational education programs, supported with assistance under the act; review the administration and operation of vocational education programs under the act; including the effectiveness of such programs in meeting the purposes for which they are established and operated, make recommendations with respect thereto, and make annual reports of its findings and recommendations to the Secretary of HEW for transmittal to the Congress; and conduct independent evaluation of programs carried out under the act and publish and distribute the results thereof.

The meeting of the Council shall be open to the public. The proposed agenda includes:

May 15 and 16. (NACVE) Committee Reports Discussion of Legislation.
May 16 and 17. (Joint) Report from Department of Labor on CETA. Report on Congressional oversight hearings. Workshops for State Councils.

Records shall be kept of all Council proceedings and shall be available for public inspection at the office of the Council's Executive Director, located in Suite 412, 425-13th Street NW., Washington, D.C. 20004.

Signed at Washington, D.C., on April 29, 1974.

CALVIN DELLEFIELD,
Executive Director.

PROJECTS IN RESEARCH, TEACHER EDUCATION AND LEARNING DISABILITIES

Criteria for Selection of Applications in Fiscal Year 1974

Pursuant to the authority contained in sections 631, 632, and 661 of the Education of the Handicapped Act (Pub. L. 91-230, Title VI), notice is hereby given that the Commissioner of Education, with the approval of the Secretary of Health, Education, and Welfare has established criteria for selection of ap-

V 39 I 87 MAY 3 74 XUM

plications in Fiscal Year 1974 for research in the education of the handicapped, training personnel for the education of the handicapped, and specific learning disabilities projects as set forth below.

These criteria were proposed in the FEDERAL REGISTER on October 11, 1973 at 38 FR 28231, 28239, and 28245–28246, as a part of a comprehensive set of regulations for Federal discretionary programs for the handicapped under Parts C–G of the Education of the Handicapped Act.

Because of the time required to revise and republish the proposed rule as final regulations, in the light of comments received from the public, it is necessary to publish the criteria separately so as not to hold the funding of the projects in abeyance pending preparation of the final regulations for publication in the FEDERAL REGISTER.

No comments were received from the public on the substance of the criteria at the public hearing held on October 30, 1973 or during the comment period; the criteria are therefore adopted without change.

Effective date. These criteria shall be effective on May 3, 1974.

Dated: April 5, 1974.

JOHN OTTINA,
U.S. Commissioner of Education.

Approved: April 29, 1974.

CASPAR W. WEINBERGER,
Secretary of Health, Education, and Welfare.

(Catalog of Federal Domestic Assistance Number 13.443 Handicapped Research and Demonstration; 13.447 Handicapped Physical Education and Research; 13.451 Handicapped Teacher Education; 13.448 Handicapped Physical Education and Recreation Training; 13.520 Special Programs for Children With Specific Learning Disabilities)

CRITERIA FOR SELECTION OF APPLICATIONS IN FISCAL YEAR 1974

1. Research in the Education of the Handicapped (Pub. L. 91–230, Title VI, Part E; 20 U.S.C. 1441–1444).

Applications for grants under Part E of the Education of the Handicapped Act will only be considered if they relate directly to one or more of the following objectives:

(1) To assure that every handicapped child is receiving an appropriately designed education;

(2) To assure that every handicapped child who leaves school has had career educational training that is relevant to the job market, meaningful to his career aspirations, and realistic to his fullest potential;

(3) To assure that all handicapped children served in the schools have a trained teacher or other resource person competent in the skills required to aid the child in reaching his full potential; and

(4) To secure the enrollment of preschool aged handicapped children in Federal, State, and local educational and day care programs.

(20 U.S.C. 1402, 1441–1444)

Applications will also be evaluated on the basis of the criteria set forth in 45 CFR 121.402 (38 FR 13745, May 25, 1973) and 100a.26(b) (38 FR 30664, November 6, 1973).

2. Training Personnel for the Education of the Handicapped (Pub. L. 91–230, Title VI, Sections 631, 632, 634; 20 U.S.C. 1431, 1432, 1434).

In addition to the criteria set forth in 45 CFR 100a.26(b) (38 FR 30664, November 6, 1973), applications for grants under sections 631, 632, and 634 of the Education of the Handicapped Act (training personnel) will be evaluated on the basis of the following factors:

(a) The extent to which the applicant specifies and provides evidence that program graduates are meeting the educational needs of handicapped children at the local, State, or national level;

(b) The extent to which program philosophy, program objectives, activities implemented to attain program objectives and evaluation procedures are internally consistent, and are related to the educational needs of handicapped children;

(c) The extent to which the number of qualified staff is in a reasonable ratio to the number of students, and other program resources are available for the effective and efficient conduct of the program;

(d) The extent to which (1) present and former students, (2) consumer agencies (school districts, State agencies, etc.) and (3) individuals (parents, practicing teachers, etc), are involved in program planning, implementation, and evaluation;

(e) The extent to which the evaluation design and procedures (1) provide for assessment of the effective and efficiency of the use of program resources in the attainment of program objectives, and (2) provide for the collection of quantifiable program performance information such as (i) the numbers of personnel prepared and placed in positions relevant to the education of handicapped children, (ii) the type and location of positions accepted by program graduates, (iii) the number of handicapped children served by program graduates, (iv) the length of time that program graduates serve handicapped children, (v) employees' evaluation of program graduates' proficiency, and (vi) the effectiveness of program graduates in facilitating the educational progress of handicapped children;

(f) The extent to which the application describes procedures for assessing the impact, and in the case of an application for continuation support provides evidence of impact, of the program upon other related programs within the institution, community programs for the education of handicapped children, and improvement of services for handicapped children at the local, State, and/or national level;

(g) The extent to which the application describes and specifies the various roles or positions for which students are prepared, the tasks associated with such roles, and the competencies that must be acquired to complete each task successfully;

(h) The extent to which the application includes a delineation of competencies that each program graduate will acquire and will subsequently exhibit, and the evaluation procedures used in measuring the attainment of those competencies;

(i) The extent to which substantive content and organization of the program are (1) appropriate for the student's attainment of professional knowledge and competencies that are necessary for the provision of quality educational services for handicapped children, and (2) demonstrate an awareness of relevant methods, procedures, techniques, and instructional media or materials that can be used in the preparation of qualified educators of handicapped children;

(j) The extent to which appropriate practicum facilities are (1) utilized for observation, participation, practice teaching, laboratory or clinical experience internship, and other supervised experiences of adequate scope, combination, and length, (2) are accessible to the applicant and students, and (3) are staffed by qualified personnel; and

(k) The amount of fiscal and other effort the applicant will contribute to the program, and a delineation of the procedures that will be implemented for the increase of such effort over a specified time period in relationship to the amount of Federal funds awarded for support of the program.

(20 U.S.C. 1431, 1432, 1434)

3. Special Programs for Children with Specific Learning Disabilities (Pub. L. 91–230, Title VI, Part G; 20 U.S.C. 1461).

Priorities. In making grants and contracts under Part G of the Education of the Handicapped Act (learning disabilities) priority will be given to applications which (a) propose innovative and creative approaches to meeting the educational needs of children with specific learning disabilities, or (b) emphasize the prevention and early identification of learning disabilities.

Proposal review. (a) Applications will be evaluated by the Commissioner and outside consultants specifically chosen by the Commissioner for their expertise in the area of learning disabilities.

(b) In reviewing applications submitted under this part, in addition to the criteria set forth in 45 CFR 100a.26(b) (38 FR 30664, November 6, 1973), the following criteria will be considered:

(1) The presence of a clear, logical statement of the replication strategy, including objectives, target populations and evaluation measurements; and

(2) The degree and nature of parental involvement.

(20 U.S.C. 1461)

National Institutes of Health

PERIODONTAL DISEASES ADVISORY COMMITTEE

Amended Notice of Meeting

Pursuant to Pub. L. 92–463, notice is hereby given that the meeting of the Periodontal Diseases Advisory Committee, National Institute of Dental Research, scheduled for May 6 and 7, 1974, National Institutes of Health, Building 31–C, Conference Room 8, and published 39 FR 10463 (March 20, 1974), has been postponed due to conflicts of schedule. This meeting has been rescheduled for June 27–28, 1974, at the National Institutes of Health, Building 31–C, Conference Room 8. This meeting will be open to the public from 9:00 a.m. to 5:00 p.m. on June 27 and from 9:00 a.m. to 12:30 p.m. on June 28, to discuss research progress and plans in periodontal disease with particular attention to manpower needs. The Committee will also consider the results of a recent workshop to assess research progress on the role of immunological mechanisms in periodontal disease. Attendance by the public will be limited to space available.

Dr. Anthony A. Rizzo, Scientist-Administrator, Extramural Programs, National Institute of Dental Research, National Institutes of Health, Westwood Building, Room 521, Bethesda, Maryland 20014 (telephone 301–496–7784), will provide summaries of meetings, rosters of committee members, and substantive program information.

Dated: May 1, 1974.

(Catalog of Federal Domestic Assistance Program No. 13.325 and 13.627 National Institutes of Health)

SUZANNE L. FREMEAU,
Committee Management Officer.

[FR Doc.74–10368 Filed 5–2–74;10:18 am]

Office of the Secretary

PRESIDENT'S COUNCIL ON PHYSICAL FITNESS AND SPORTS

Notice of Meetings

The fifteen members of the President's Council on Physical Fitness and Sports will meet on May 22–23, 1974. The meetings will be held from 9:30 a.m. to 4 p.m. on May 22, and from 9 a.m. to 11:30 a.m. on May 23 in Room 208 of the Old Executive Office Building. The meeting will not be closed to the public.

The purpose of the meeting is to explain the functions of the Council as outlined in Executive Order 11562, dated September 25, 1970, and to report on the status of the progress of those functions. Six of the members are newly appointed by the President and will be attending their first Council meeting. A list of the Council members and the Executive Order establishing their responsibilities may be obtained from:

Mr. C. Carson Conrad
Executive Director
President's Council on Physical Fitness and Sports
400 Sixth Street, SW
Washington, D.C. 20201
(202) 755–7947

Dated: April 29, 1974.

V. L. NICHOLSON,
Acting Executive Secretary.

ATOMIC ENERGY COMMISSION

[Docket No. PRM–170–1]

ATOMIC INDUSTRIAL FORUM, INC.

Filing of Petition for Rulemaking

Notice is hereby given that the Atomic Industrial Forum, Inc., 475 Park Avenue South, New York, New York, by letter dated April 9, 1974, has filed with the Atomic Energy Commission a petition for rulemaking.

The petitioner requests that the Commission amend its regulation 10 CFR Part 170 to allocate a portion of the costs of the Commission's licensing program to the public in accordance with the principles set out in the recent Supreme Court decision *National Cable Television Assn. Inc. v. United States et al* (39 L Ed 2d 370).

The petitioner states that future fee schedule revisions are particularly critical with the advent of standardization policy implementation and that license fees based on full cost recovery could deter or retard optimal participation in standardization by a number of companies for whom very large licensing fees would have severe economic consequences.

The Commission staff is reviewing the provisions of 10 CFR Part 170 in the light of the referenced Supreme Court decision and a related decision *Federal Power Commission v. New England Power Co. et al* (39 L Ed 2d 383), and the petitioner's request for rulemaking will be considered in the further conduct of that study.

A copy of the petition for rule making is available for public inspection in the Commission's Public Document Room, 1717 H Street N.W., Washington, D.C. A copy of the petition may be obtained by writing the Rules and Proceedings Branch at the below address.

All interested persons who desire to submit written comments or suggestions concerning the petition for rulemaking should send their comments to the Rules and Proceedings Branch, Office of Administration-Regulation, U.S. Atomic Energy Commission, Washington, D.C. 20545, on or before July 2, 1974.

Dated at Germantown, MD. this 29th day of April, 1974.

For the Atomic Energy Commission.

PAUL C. BENDER,
Secretary of the Commission.

[Docket Nos. 50–329A, 50–330A]

CONSUMERS POWER CO.

Order Setting Aside the Evidentiary Hearing and Establishing New Hearing Dates

In the Matter of Consumers Power Co. (Midland Plant, Units 1 and 2).

Counsel for the Applicant filed an oral request with the Board to postpone the Evidentiary Hearing in this proceeding for two weeks, which hearing was scheduled to reconvene on May 21, 1974, pursuant to an order dated April 16, 1974. He advised the Licensing Board Chairman that the expert witness that he contemplated calling as part as his direct case will be out of the country during the week of May 21. He also advised that counsel for the other parties agreed to the postponement.

In view of the foregoing, the Board acquiesces in this request and, accordingly, directs that the Evidentiary Hearing in this proceeding resume on June 4, 1974, at the time and place previously noted in its order of April 16. The June 4 session will relate to the direct case of the Applicant. The rebuttal cases of both the Department of Justice and the Applicant will commence on June 11, 1974, also at the same place and time as noted in the Licensing Board's Order of April 16.

Further, the dates for the submittal of written testimony will, in view of the foregoing, be moved back two weeks respectively.

It is so ordered.

Issued at Bethesda, Maryland, this 29th day of April, 1974.

ATOMIC SAFETY AND LICENSING BOARD,
JEROME GARFINKEL,
Chairman.

THE DETROIT EDISON COMPANY

Availability of AEC Draft Environment Statement for Greenwood Energy Center, Units 2 and 3

Pursuant to the National Environmental Policy Act of 1969 and the United States Atomic Energy Commission's regulations in Appendix D to 10 CFR Part 50, notice is hereby given that a Draft Environmental Statement prepared by the Commission's Directorate of Licensing related to the proposed Greenwood Energy Center Units 2 and 3, to be constructed by the Detroit Edison Company in St. Clair County, Michigan, is available for inspection by the public in the Commission's Public Document Room at 1717 H Street NW., Washington, D.C., and in the St. Clair County Library, Port Huron, Michigan. The Draft Statement is also being made available at the State Planning Division, Executive Office of the Governor, Lansing, Michigan 48913 and the South East Michigan Council of Governments, 810 Book Building, Detroit, Michigan 48226. Copies of the Commission's Draft Environmental Statement may be obtained by request addressed to the U.S. Atomic Energy Commission, Washington, D.C. 20545, Attention: Deputy Director for Reactor Projects, Directorate of Licensing.

The Applicant's Environmental Report, as supplemented, submitted by the Detroit Edison Company is also available for public inspection at the above-designated locations. Notice of availability of the Applicant's Environmental Report was published in the FEDERAL REGISTER on November 14, 1973 (38 FR 31461).

Pursuant to 10 CFR Part 50, Appendix D, interested persons may submit comments on the Applicant's Environmental Report, as supplemented, and the Draft Environmental Statement for the Commission's consideration. Federal and State agencies are being provided with copies of the Applicant's Environmental Report and the Draft Environmental Statement (local agencies may obtain these documents upon request). Comments are due by June 24, 1974. Comments by Federal, State, and local officials, or other persons received by the Commission will be made available for public inspection at the Commission's Public Document Room in Washington, D.C., and the St. Clair County Library, Port Huron, Michigan. Upon consideration of comments submitted with respect to the Draft Environmental Statement, the Regulatory staff will prepare a final environmental statement, the availability of which will be published in the FEDERAL REGISTER.

Comments on the Draft Environmental Statement from interested members of the public should be addressed to the U.S. Atomic Energy Commission, Washington, D.C. 20545, Attention: Deputy Director for Reactor Projects, Directorate of Licensing.

V 39 N 87 MAY 3 74 XUM

Dated at Bethesda, Maryland, this 30th day of April 1974.

For the Atomic Energy Commission.

GEORGE W. KNIGHTON,
Chief, Environmental Projects Branch 1, Directorate of Licensing.

DUQUESNE LIGHT CO., ET AL.

Reconstitution of Atomic Safety and Licensing Appeal Board

In the matter of Duquesne Light Co., et al. (Beaver Valley Power Station, Units 1 and 2).

Notice is hereby given that, in accordance with the authority in 10 CFR 2.787 (a), the Chairman of the Atomic Safety and Licensing Appeal Panel has reconstituted the Atomic Safety and Licensing Appeal Board for these proceedings to consist of the following members:

Michael C. Farrar, Chairman
Dr. John H. Buck, Member
Dr. W. Reed Johnson, Member

Dated: April 29, 1974.

MARGARET E. DU FLO,
Secretary to the Appeal Board.

[FR Doc.74-10204 Filed 5-2-74;8:45 am]

REGULATORY GUIDES

Issuance and Availability

The Atomic Energy Commission has issued two guides in its Regulatory Guide series. The Regulatory Guide series has been developed to describe and to make available to the public methods acceptable to the AEC Regulatory staff for implementing specific parts of the Commission's regulations and, in some cases, to delineate techniques used by the staff in evaluating specific problems or postulated accidents and to provide guidance to applicants concerning certain information needed by the staff in its review of applications for permits and licenses.

The new guides are in Division 5, "Materials and Plant Protection." Regulatory Guide 5.21, "Nondestructive Uranium-235 Enrichment Assay by Gamma-Ray Spectrometry," describes acceptable procedures for nondestructively measuring the uranium-235 enrichment of uranium in bulk form such as in containers, process equipment and piping. Regulatory Guide 5.22, "Assessment of the Assumption of Normality (Employing Individual Observed Values)", identifies acceptable methods for assessing the validity of the assumption that a measured value is a random variable that can be described by a normal or Gaussian distribution function.

Regulatory Guides are available for inspection at the Commission's Public Document Room, 1717 H Street, Washington, D.C. Comments and suggestions in connection with improvements in the guides are encouraged and should be sent to the Secretary of the Commission, U.S. Atomic Energy Commission, Washington, D.C. 20545, Attention: Chief, Public Proceedings Staff. Requests for single copies of the issued guides (which may be reproduced) or for placement on an automatic distribution list for single copies of future guides should be made in writing to the Director of Regulatory Standards, U.S. Atomic Energy Commission, Washington, D.C. 20545. Telephone requests cannot be accommodated.

Other Division 5 Regulatory Guides currently being developed include the following:

Organization for Materials and Plant Protection
Management Review of Materials and Plant Protection Programs and Activities
Standards for Physical Barrier Construction
Special Nuclear Material Doorway Monitors
Plant Security Force Duties
Personnel Selection and Screening
Perimeter Intrusion Alarms
Road Shipment of SNM by Specially Designed Vehicle with Armed Guards
Communications with Transport Vehicles
Coordination of Response Plan with Law Enforcement Authority
Monitoring Transfers of Special Nuclear Material
Selection of Material Balance and Item Control Areas
Internal Transfers of Nuclear Material
Material Control in Unirradiated Scrap Recovery Facilities
Minimizing Nuclear Material Holdup in Wet Processes
Minimizing Nuclear Material Holdup in Dry Processes
Dynamic Inventory Techniques
Prior Measurement Verification
Analysis and Use of Production Data for Material Control
Materials Protection Contingency Measures for Uranium and Plutonium Processing and Fuel Fabrication Plants
Evaluation of Material Unaccounted for (MUF)
Evaluation of Shipper and Receiver Data
Resolution of Shipper-Receiver Differences
Measurement Control Program for Materials Accounting in Nuclear Material Processing Plants
Determination of Random Measurement Errors
Determination of Measurement Bias and Systematic Errors
Training and Qualifying Measurement Control Personnel
Nuclear Material Control Systems for Nuclear Power Plants
Methods for the Accountability of Plutonium Oxide Powder
Methods for the Accountability of High-Enriched UO_2
Chemical, Nuclear, and Radiochemical Analysis of $UO_2(NO_3)_2$ Solutions
Guide for Mass and Scales Calibration
Guide to Mixing and Sampling Nuclear Materials
Preparation of $Pu(NO_3)_4$ Solution as a Working Standard
Guide to Making Working Standards from Production Material
Preparation of $UO_2(NO_3)_2$ Solution as a Working Standard
Radiometric Calibration Techniques
Calorimetric Assay of Pu-Bearing Solids
Nondestructive Assay of Plutonium-Bearing Fuel Rods by Gamma-Ray Spectroscopy
Nondestructive Assay of High-Enrichment Uranium Fuel Plates
Nondestructive Assay of Plutonium Residual Holdup
Nondestructive Assay of Plutonium by Spontaneous Fission Coincidence Detection
Nondestructive Assay of High-Enrichment Uranium Scrap by Active Neutron Interrogation
Nondestructive Assay of Uranium Residual Holdup
Nondestructive Assay of Plutonium by Gamma-Ray Spectroscopy
Specifications for Ge(Li) Spectroscopy Systems for Material Protection—Part II: Data Reduction
Radionuclide Analysis of Specially Prepared Samples by Gamma-Ray Spectroscopy

(5 U.S.C. 552(a))

Dated at Bethesda, Maryland this 25th day of April, 1974.

[Docket No. 25513; Agreement C.A.B. 24268; Order 74-4-142]

INTERNATIONAL AIR TRANSPORT ASSOCIATION

Order Regarding Passenger Fare Matters

APRIL 26, 1974.

An agreement has been filed with the Board pursuant to section 412(a) of the Federal Aviation Act of 1958 (the Act) and Part 261 of the Board's Economic Regulations, between various air carriers, foreign air carriers, and other carriers, embodied in the resolutions of the Traffic Conferences of the International Air Transport Association (IATA). The agreement, which was adopted by mail vote, has been assigned the above designated C.A.B. agreement number.

The agreement would amend an existing IATA resolution which sets forth a special Transpacific fare construction rule, by allowing construction of Transpacific fares via Papeete, Nandi, Pago Pago or Rarotonga without reference to intermediate fares between these points and other Southwest Pacific points.

Pursuant to authority duly delegated by the Board in the Board's regulations, 14 CFR 385.14, it is not found that the following resolution, incorporated in Agreement C.A.B. 24268, is adverse to the public interest or in violation of the Act:

JT31(MAIL 259)014o

Accordingly, it is ordered, That:

Agreement C.A.B. 24268 be and hereby is approved.

Persons entitled to petition the Board for review of this order pursuant to the Board's regulations, 14 CFR 385.50, may file such petitions within ten days after the date of service of this order.

This order shall be effective and become the action of the Civil Aeronautics Board upon expiration of the above period, unless within such period a petition for review thereof is filed or the Board gives notice that it will review this order on its own motion.

This order will be published in the FEDERAL REGISTER.

[SEAL] EDWIN Z. HOLLAND,
Secretary.

INCREASED WESTERN HEMISPHERE PASSENGER FARES

IATA Agreements

Agreements adopted by members of the International Air Transport Association relating to passenger fares within the Western Hemisphere: Docket Nos. 24869, 25513, Agreements C.A.B. 24088, R-1 through R-24; 24136, R-1 and R-2; 24139; 24179, R-1 through R-24; 24207, R-1 through R-13; 24290; Docket 25280, Agreement C.A.B. 24267, R-1 and R-2.

By Order 74-2-123 (February 27, 1974) the Board established procedural dates for the receipt of carrier justification, comments and responses concerning agreements filed by the carrier members of the International Air Transport Association (IATA) on passenger fares within the Western Hemisphere for a one-year period commencing April 1.[1] The relevant documentation has been received, and the matter now stands ready for the Board's decision.

The agreements, insofar as they affect air transportation as defined by the Act, propose an across-the-board increase of three percent in all passenger fares between the United States and South America (except Colombia, Venezuela, Guyana, Surinam and French Guiana). Between the United States and Central America (as well as Colombia), a general five percent increase is proposed.[2]

U.S.-Mexico fares would generally be increased by approximately seven percent.[3] In the New York/Philadelphia/Detroit-Mexico markets, the present 15-passenger group inclusive-tour (GIT) fare would be replaced by an individual inclusive-tour (IIT) fare at a level about seven percent higher, and with an $11 weekend surcharge. A new 40-passenger, 5/21-day validity affinity-group fare is proposed in most U.S.-Mexico markets, while the present U.S.-Mexico advance-purchase travel group (APEX) fare will be eliminated. The new affinity-group fares would be about 10 percent above the current APEX levels, would permit no stopovers or weekend travel, and would be available all year except for a Christmas season blackout.

U.S.-Caribbean fares (as well as Venezuela, Guyana, Surinam and French Guiana) are proposed to be increased about five percent, and conditions on certain promotional fares would be tightened. The carriers have also adopted on an optional basis, a new baggage allowance system for Caribbean markets. The present worldwide IATA free-baggage allowance is 30 kilograms (66 lbs.) for first-class passengers, 20 kilograms (44 lbs.) for economy class.[4] In the Caribbean, each carrier would now have the option of allowing one checked piece of not more than 70 lbs., the sum of whose three dimensions does not exceed 62 inches; plus one carry-on piece whose dimensions do not exceed 45 inches.

Justification in support of the agreements has been received from Delta Air Lines, Inc. (Delta), Eastern Air Lines, Inc. (Eastern), Braniff Airways, Inc. (Braniff), Pan American World Airways, Inc. (Pan American) and American Airlines, Inc. (American). Comments have been received from Modern Air Transport, Inc. (Modern), and from Donald L. Pevsner, on his own behalf. Modern has also replied to the carrier justifications.

The carriers generally assert, inter alia, that the increased fares proposed for the respective Western Hemisphere areas are more than justified by substantially increased costs, including severe fuel cost increases; that the agreements will produce badly needed revenue but will not place any of the carriers in an excess earnings position; and that tightening the conditions on certain promotional fares will help alleviate traffic diversion and revenue dilution.[5]

[1] Caribbean area fares (except U.S.-Bermuda excursion fares) are proposed for April 15 effectiveness.

[2] In addition, a new excursion fare is proposed at $200 for application between San Juan, on the one hand, and San Jose and San Salvador, on the other hand.

[3] Exceptions are the Boston/New York/Philadelphia-Mexico City excursion fares, which would be increased between 11 and 18 percent, and group inclusive-tour fares in various U.S.-Mexico markets where new weekend surcharges are proposed.

[4] This matter is the subject of a currently pending Board investigation in Docket 24869, "Baggage Allowance Tariff Rules in Overseas and Foreign Air Transportation," instituted by Order 72-10-91, October 27, 1972.

[5] In U.S.-Netherlands Antilles markets peak season (22-28 November, 26 December-15 April, and 1 July-31 August) weekend travel would be prohibited on the 7/14-day group 10 GIT, and in U.S.-Venezuela markets the group 50 GIT would be eliminated entirely. A new weekend surcharge is to apply for U.S.-Mexico GIT fares, as well as an increased minimum tour price; and U.S.-Caribbean excursion fares would now be subject to a minimum stay of three days.

V 39 M AY 3 7 4 XUM

Delta contends that the five percent increase in U.S.-Caribbean fares is more than justified by the increased cost of fuel alone, and that the 109 percent increase in fuel prices since January 1973 is the equivalent of 11.6 percent of passenger revenues. Even with the proposed increases, and without considering other escalating costs such as labor, supplies, leases and landing fees, Delta alleges its operating income will actually decline slightly as compared with last year.

Despite general fare increases of five percent in the Caribbean and seven percent or better in U.S.-Mexico markets, Eastern forecasts an overall revenue improvement of only 2.7 percent, or about $2 million, assuming a price elasticity factor of −0.7. This forecast, which does not include fuel cost increases since September 30, 1973, produces a return on investment of 7.3 percent in Eastern's international operations, as compared to an estimated 4.4 percent under present fares. Eastern also provides an estimate of traffic generation/diversion under the new IIT fare in New York/Philadelphia-Mexico markets, alleging that 27 percent of present traffic will divert to the new fare, which will itself generate additional traffic equal to 8 percent of the present total volume. The net impact of this traffic re-distribution is expected to be a revenue improvement of $615,000. Eastern also estimates that some 5,000 passengers will travel on the new 40-passenger affinity-group fare between the United States and Mexico next year.

Braniff forecasts under both existing and proposed fares for calendar year 1974 a decline in net operating income at the new revenue and expense levels. For its South America operations, non-fuel costs have allegedly climbed 4.5 percent over levels experienced in 1973, and would require $2.95 million in additional revenue to maintain status quo. The proposed fare increase will provide only $1.969 million after payment of commissions, leaving a net short-fall of $981,000. The situation is allegedly similar in Mexico, where it anticipates a 10.3 percent rise in operating costs, including fuel.[6] The instant agreement, however, will produce only $788,000 in additional revenue after commissions, for a net decline of $517,000 in operating income.

Pan American estimates that, during the 12-month period of effectiveness, the new fare structure wil provide a $7.3 million improvement, or 3.4 percent, in its overall Latin American Division revenues. The forecast, which includes fuel cost increases since September 30, 1973, as well as related adjustments in traffic, revenues, and expenses, indicates a return on investment of 6.8 percent as opposed to 5.0 percent under present fares.

American's forecast includes known increases in fuel prices, and indicates an increase in passenger revenue of $727,000, or 2.1 percent, in U.S.-Mexico operations, and $194,000, or 1.6 percent, in its Caribbean operations. These additional revenues, which reflect adjustment for a −0.7 elasticity factor, would produce respective returns on investment of 3.1 percent and −0.2 percent, for its Mexican and Caribbean operations.

The Board recently approved a separate IATA agreement which increased all Western Hemisphere fares (except to/from Mexico) by a uniform seven percent, effective April 15, to compensate the carriers for increased fuel costs (Order 74–3–134, March 29, 1974), In their justifications submitted in support of the fuel-based rate increase, American, Eastern and Pan American included financial forecasts which incorporated not only the seven percent fuel increase, but also the revenue flowing from the general fare increase herein considered. These forecasts show returns on investment of 2.9 percent, −4.0 percent, and 10.0 percent, respectively, in overall Western Hemisphere operations except Mexico.[7]

Modern, which conducts extensive charter services between the United States and Mexico, has submitted comments in opposition to the new affinity-group fare proposed for groups of 40 or more passengers. Modern contends that the supplemental carriers' activities are limited to affinity charters for trips of less than seven days, and that the proposed affinity-group fare is directly competitive with this primary product. Modern also cites the Board's historical dissatisfaction with affinity-group charters on the grounds of discrimination and nonenforceability, which led to the promulgation of travel group charter (TGC) regulations and alleges that the Board now tolerates the affinity concept for charters only because no satisfactory substitute has yet been developed. There is allegedly no reason to maintain affinity-group fares in scheduled service, and the Board should not permit the introduction of another such fare, at a much lower level than the old U.S.-Mexico GIT, where none has previously existed.[8]

Mr. Pevsner contends that while the new free baggage allowance now optional in the Caribbean area represents a liberalization of present IATA regulations, it is still much less liberal than the U.S. domestic allowance, and at best only optional. This modification of the baggage allowance, Mr. Pevsner contends, is minor and totally inadequate to remedy the unjust IATA rules now under Board investigation in Docket 24869, and any approval should be extended only on an interim, non-precedential basis.

The Board has carefully considered the agreements, the carrier justifications, the comments and reply comments, and has concluded that the U.S.-Caribbean and most of the U.S.-Mexico fare increases should be approved, while the remaining U.S.-Mexico increases and those in the U.S.-Central and South America markets should be tentatively disapproved.[9]

All of the justifications submitted were found to be materially inadequate in important respects, and have had to be significantly adjusted by the Board. In a number of cases, the inadequacies of the carriers' submissions are such that the necessary adjustments have had to be made on a somewhat arbitrary basis. Thus, the two most profitable carriers, Braniff and Delta, have failed to submit rate-of-return calculations, or any data on the basis of which such calculations could be made. In the case of Braniff, such calculations have been supplied by using Form 41 investment data together with certain assumptions as to how the carrier's reported international investment should be allocated between its Mexican and Central/South American operations;[10] in the case of Delta, no such reconstruction has been possible, and it has had to be assumed that the carrier's reported system rate of return prevails in its Caribbean operations.

While some of the carrier justifications start with actual operating results for calendar 1973, or for the most recent available twelve-month period, others start with forecasts of 1974 operations whose relationship to actual 1973 experience is unexplained. Carriers which start from actual 1973 results generally purport to have adjusted them on an annualized basis for subsequent fare and rate increases already approved by the Board, as well as for cost increases, but the manner in which these annualized adjustments have been made is frequently not shown. In some instances it appears that particular fare and/or rate increases have not been reflected in the calculations, or have been taken into account on a less than fully annualized basis. On the cost side, in several instances the carriers have put predicted future cost increases into the calculations, contrary to the Board's firm policy of recognizing only actually experienced or firmly contracted costs. Pan American in particular has introduced into the calculations unexplained and unsubstantiated increases in unit costs alleged to stem from a future reduced scale of operations.

One element in some of the carrier calculations which is of considerable concern to the Board relates to the question of elasticity of demand. Braniff and Delta in their calculations employ

[6] Fuel cost increases were omitted from Braniff's U.S.-South America forecasts inasmuch as there was then a separate IATA agreement before the Board to increase fares to/from South America seven percent to account for fuel increases, and Braniff had submitted a sepaarte statement of justification for this fare increase.

[7] Pan American forecasts a 5.2 percent return in U.S.-Mexico operations.

[8] In its reply to the carriers' justifications, Modern alleges that none has provided substantiation for the fare, and that even Eastern's estimate of traffic at a 41/59 generation/diversion ratio is not based on data or argument included in its justification.

[9] We are also herein disposing of several agreements not directly applicable to or from the United States.

[10] It has been assumed that Braniff's Form 41 international investment should be allocated in proportion to the total operating expenses of its Mexican and South American divisions as forecast in this proceeding. It is noted, however, that this does not appear to be consistent with the way Braniff itself allocates its interest costs in its justification here.

no elasticity factor, passing the proposed fare increases directly through to revenues. American and Eastern, however, expressly employ an elasticity factor of −0.7, while Pan American employs an undisclosed but evidently somewhat smaller factor. When an elasticity factor is used, a certain percentage increase in fares does not produce the same percentage increase in revenues, since it is assumed that some traffic is lost as a result of the fare increase.[11]

The elasticity factor of −0.7 employed by American and Eastern is taken from the Board's determination in Phase 7 of the "Domestic Passenger-Fare Investigation." That determination, however, was based on evidence of record, in the DPFI relating to domestic passenger travel only, and cannot be automatically transposed to international markets, where the mix of business and pleasure travel is frequently quite different. Thus, while there can be little doubt that increases in international fares (particularly where substantial)[12] do have a depressing effect on the movement of traffic, the Board does not consider that the use of an elasticity factor of −0.7 can be justified solely by citation of the DPFI Phase 7 decision.

A further cause for concern lies in the fact that those carriers who posit a loss of traffic as a result of the proposed fare increases show no corresponding reduction in the capacity they expect to offer. In the DPFI, of course, the use of an elasticity factor in forecasting future traffic was coupled with the adoption of a load-factor standard which has the effect of requiring the carriers to bring their capacity offerings in line with anticipated traffic. The Board has not to date undertaken to adopt any load-factor standard in connection with international fares, although it has on occasion rejected or modified carrier forecasts which have assumed what appeared to be unreasonably low load factors.[13] Moreover, the Board has recently had occasion to point out "that fare increases cannot be denied where unit costs are shown to have increased as a result of factors beyond the carriers' power to control, even if these increases will have an adverse effect on the movement of traffic.[14] Nevertheless, in the long run carriers must of necessity scale their capacity offerings to the anticipated level of traffic. Fare increases which depress traffic and which are not accompanied by reductions in capacity offered will rapidly become self-defeating.[15] Thus, without at this time attempting to resolve the problems raised by certain carriers' use of an elasticity factor, the Board will expect any carrier employing such a factor in its forecasts (a) to justify the particular factor used, and (b) in case it does not forecast a reduction in capacity corresponding to the reduction in traffic it anticipates, to justify its failure to do so.

Notwithstanding the deficiencies in the carrier justifications described above, the Board has determined to approve the proposed increases in U.S.-Caribbean fares. Even when the carriers' forecasts are adjusted to the maximum extent suggested by the foregoing criticisms, it appears that neither American nor Pan American will be able to achieve a 12 percent return on investment with the existing fares[16] in effect, while Eastern will sustain a large operating loss, and the four U.S.-flag Caribbean carriers as a group will collectively achieve a return of between 6 and 7 percent.[17] With the proposed fare increases, American and Pan American may earn moderately more than a 12 percent return, but Eastern's still substantial losses will bring the earnings of the four-carrier group down to just over 10 percent.[18] Under the circumstances, we cannot find that the proposed increases are unwarranted, or will bring the U.S.-flag Caribbean carriers as a group into an excess earnings position. Additionally, tightening of the conditions on several of the promotional fares should further assist in improving the carriers' earnings position by discouraging diversion and revenue dilution; and the more liberal optional baggage allowance (discussed further hereinafter) represents an improvement from the traveler's standpoint.

The Board will also approve the proposed U.S.-Mexico fares, except as hereinafter indicated.[19] Even with the maximum adjustments in the carriers' forecasts suggested by the criticisms discussed above, it appears that the U.S.-Mexico earnings of American and Pan American will fall considerably short of the 12 percent standard even with the porposed increases in force. While a recomputation of Eastern's and Braniff's projected earnings show them exceeding 12 percent, the earnings of the four U.S.-flag IATA members as a group in the Mexican markets will still fall more than a percentage point short of the standard. In these circumstances, the proposed increases cannot be found excessive. Moreover, the greater emphasis on individual as opposed to group travel represented by the new individual inclusive tour-fares between New York/Philadelphia/Detroit and Mexico represents a desirable step toward a fare structure more appropriate to scheduled service.

On the other hand, we cannot find that the proposed increases in fares between Los Angeles, San Diego, San Francisco, Portland, and Seattle, on the one hand, and Mexico City and Acapulco, on the other hand, have been shown to be justified. Western Airlines, a non-IATA carrier, is the only U.S. carrier which provides direct service between the three California points and Mexico, and is a very strong participant in the Portland/Seattle-Mexico markets where no carrier provides direct service. The four U.S.-flag IATA carriers do not participate in these markets to a major extent. Data reported to the Board by Western shows a return on investment of over 25 percent in international operations,[20] and while we recognize that Western is not a party to the IATA agreement, it nevertheless has already filed tariffs to match the increases here proposed by the IATA carriers. Western is already in an excess earnings position in these markets, and accordingly, in the absence of specific justification, the proposed increases will be disapproved on a tentative basis.

In the U.S.-Central/South America markets, the Board's adjustments of the carriers' forecasts indicate that as a group they apparently will be in an excess earnings position if the increases here proposed are permitted to go into effect. Braniff's earnings are anticipated to exceed 17 percent rate of return, while Pan American's earnings would be at least 10.5 percent, and arguably as high

[11] Using an elasticity factor of −0.7, a 1 percent fare increase is assumed to diminish traffic by 0.7 percent, so that total passenger revenue increases by slightly less than 0.3 percent.

[12] In this connection it is noted that the increases here proposed in IATA Caribbean fares, for example, when added to two rounds of fuel-related increases already approved, will bring those fares to a level more than 19 percent above those prevailing in December 1973.

[13] See, e.g., Orders 72–3–105 (March 30, 1972) and 73–7–54 (July 12, 1973).

[14] Order 74–3–134 (March 29, 1974).

[15] This becomes inescapable if the coefficient of elasticity is assumed to be −1.0 or greater, as is certainly conceivable in international markets where the proportion of discretionary travel is high. In such a case, fare increases with no corresponding reduction in capacity may fail to benefit the carriers financially at all. Even assuming a coefficient of less than −1.0 (e.g., −0.7), failure to reduce capacity means that a given percentage improvement in revenues requires a several times larger increase in fares.

[16] In the "existing fares" we include the second-round fuel-related increase already approved by the Board in Order 74–3–134, March 29, 1974.

[17] This assumes that Delta's 1973 system average return of 16.0 percent will apply to its Caribbean operations in 1974. Excluding Delta, whose forecast Caribbean revenues are about one-eighth of the U.S.-flag Caribbean total, the group return without the fare increases will be just under 5 percent.

[18] Between 9 and 10 percent excluding Delta.

[19] In this connection it is noted that fares to and from Mexico were excluded from the IATA second-round fuel-related increase (Order 74–3–134) as a result of resistance from the Mexican carriers and government, so that the present fare increases will be only the second rather than the third this year in the U.S.-Mexico markets.

[20] Interim Financial Report for the year ending December 31, 1973.

V 39 N 87 MAY 3 74 XUM

as 12.5 percent.[21] On the basis of the data submitted, therefore, together with necessary adjustments, it appears that the combined earnings of the two carriers as a group would materially exceed the 12 percent standard.

We have also considered the carriers' prospective earnings in international operations for the Western Hemisphere (excluding Canada) as a whole. These show American and Eastern earning substantially less than 12 percent; Braniff and Western (and presumptively Delta) earning substantially in excess of that standard; while Pan American's overall Western Hemisphere IATA return computes as either slightly above, or slightly below, the standard depending on the assumptions employed. An average for all of the U.S.-flag carriers is difficult to calculate because of incompleteness of the data, but it appears that approval of all of the proposed increases would bring them as a group into an excess earnings position. Approval of some of the fares and disapproval of others, as is here tentatively determined, should apparently leave the carriers as a group close to the Board's return standard.

In weighing approval of IATA fare and rate agreements, the Board must consider not only the effect on individual carriers, but also the impact of the proposals on U.S.-carrier operations in each relevant area. It appears from the data submitted, incomplete as it is, that approval of the U.S.-Caribbean and most of the U.S.-Mexico fare proposals is warranted under this standard. Application of the same standard appears to indicate that approval of the proposed U.S. West Coast-Mexico and the U.S.-Central/South America fares is unwarranted, and they will accordingly be disapproved on a tentative basis.

Our tentative disapproval of the U.S.-Central/South America fares and the above-mentioned U.S.-Mexico fares will become final on its own terms on May 30, 1974, absent further economic justification from the affected carriers, which should be filed no later than May 15, 1974. In that event, further action will hinge on the Board's evaluation of the justification, which should include complete forecasts of revenue, expenses and returns on investment in these markets for the year ending March 31, 1975 under both existing and proposed fares, as well as forecasts of capacity and traffic for the same period. We will also require a comparable itemization of actual results for the year ended March 31, 1974. The other deficiencies in the forecasts referred to previously in this order should likewise be remedied.

Turning to the comments, the Board is not persuaded by Modern's arguments in opposition to the new U.S.-Mexico affinity-group fare. It is true that, looking to the future, we have expressed dissatisfaction with the affinity concept in both charter and scheduled service. However, affinity-group charters are still available in major international markets, and as long as this remains the situation it seems only equitable that comparable group fares be permitted in scheduled service. There appears no reason to create an exception in the case of Mexico. Nor are we persuaded that the impact of the new fare on the supplemental carriers would be as serious as Modern contends. Eastern anticipates that about 5,000 passengers will travel on the affinity-group fare, a volume equal to 1.8 percent of Eastern's scheduled U.S.-Mexico traffic.[22] Application of this percentage to the total scheduled traffic of U.S. carriers in U.S.-Mexico service for the year ended January 1974 would mean that only about 20,450 passengers would use the fare. On the other hand, Modern's international charter passengers for the same period totaled 360,384, so the actual impact of the new fare on that carrier should be minimal, even considering additional passengers which might travel on foreign carriers.

Existing IATA baggage rules permit only 20 kilograms (44 pounds) free checked baggage for economy-class passengers, 30 kilograms (66 pounds) for first class; with each kilogram over these limits charged at one percent of the normal first-class fare applicable for the particular journey. The new piece system for U.S.-Caribbean markets, while more liberal than current IATA practice, is still only optional and considerably more restrictive than U.S. domestic regulations. The latter allow three checked pieces with aggregate dimensions of 62, 55 and 45 inches, respectively, and one carry-on piece. No detail in support of this particular system has been submitted by the carriers. Since the agreement, albeit providing only for an option, represents a step in the right direction, we see no reason to withhold approval. However, our action is without prejudice to the record developed in the pending investigation of IATA baggage allowances and charges in Docket 24869, and the Board's ultimate decision.

Accordingly, pursuant to the Federal Aviation Act of 1958 and particularly sections 102, 204(a) and 412 thereof, the Board makes the following findings:

1. It is not found that the following resolutions, to the extent they would establish fares other than between Los Angeles, San Francisco, San Diego, Portland and Seattle, on the one hand, and Mexico City and Acapulco, on the other hand, and which are incorporated in the agreements indicated, are adverse to the public interest or in violation of the Act provided that approval is subject, where applicable, to conditions previously imposed by the Board:

[21] Pan American's forecast was adjusted to exclude anticipatory rather than actual fuel cost increases, as well as increases in aircraft rentals, insurance, depreciation, and amortization expense attributed to decreased aircraft utilization supposedly resulting from a reduced level of operations forecast for 1974. These adjustments result in an indicated 10.5 percent rate of return. Further adjustments to either (a) eliminate the elasticity factor in the carrier's computations (and thus render them parallel to Braniff's) or (b) reduce capacity in proportion to forecast reduced traffic, show a return of 12.5 percent. As noted previously, Braniff's filings here include no investment data, but the Board's quarterly Interim Financial Report for the year ended December 31, 1973, shows Braniff's corporate rate of return in international operations as 18.47 percent. Application of data included in Braniff's justifications indicates that this would decline slightly, to 17.4 percent, in calendar 1974, with the proposed fare increases in effect (or 15.9 percent without the increases).

[22] Year ended January 1974, as reported in Form 41 data.

24290	084ee	Expedited Resolution 084ee TC1 Group Inclusive-Tour Fares USA/Canada-Mexico (Amending).	1

Provided that with respect to Resolutions 084LL and 084ee: (a) The provisions which at departure would permit a lesser number of passengers than that prescribed by the resolution to travel shall not be limited to situations caused by circumstances beyond the control of the passengers dropping out of the group, and the balance of the group may travel at no added cost;

(b) In the event a passenger discontinues his journey en route for any reason, the amount of the fare paid may be applied as a credit toward the purchase of transportation at the applicable fare calculated from the original point of origin;

(c) The amount of the forfeiture to be imposed in the event of cancellation by the group or members of the group prior to or at departure time for any reason shall not exceed 25 percent of the fare paid and after departure the forfeiture shall not exceed 25 percent of the excess of the price of the group-fare ticket over the cost of normal-fare transportation from point of origin to point of cancellation.

Provided that with respect to Resolution 076aa:

(a) The provision which at departure time would permit a lesser number of passengers than that prescribed by the resolution to travel shall not be limited to situations caused by circumstances beyond the control of the passengers dropping out of the group, and the balance of the group may travel at no added cost;

(b) In the event a passenger discontinues his journey en route for any reason, the amount of the fare paid may be applied as a credit toward the purchase of transportation at the applicable fare calculated from the original point of origin;

(c) The amount of the forfeiture to be imposed in the event of cancellation by the group or members of the group prior to or at departure time for any reason shall not exceed 25 percent of the fare paid and after departure the forfeiture shall not exceed 25 percent of the excess of the price of the group-fare ticket over the cost of normal-fare transportation from the point of origin to the point of cancellation;

(d) Full refund shall be made in the event of death or illness of the passenger or of a member of the passenger's immediate family prior to travel; and

(e) Full refund of the group fares paid shall be made in the event of cancellation of travel arrangements by a carrier on the ground that the group or any member of the group is ineligible for the group fares.

3. It is not found that the following resolutions, incorporated in the agreements indicated, affect air transportation as defined by the Act:

Agreement CAB	IATA Resolution
24088:	
R-13	100(Mail 935)075l
R-14	100(Mail 935)075L

COMMITTEE FOR THE IMPLEMENTATION OF TEXTILE AGREEMENTS

COTTON TEXTILES AND COTTON TEXTILE PRODUCTS PRODUCED OR MANUFACTURED IN COLOMBIA

Entry or Withdrawal From Warehouse for Consumption

APRIL 30, 1974.

Under the Bilateral Cotton Textile Agreement of June 15, 1971, between the Governments of the United States and Colombia, the Government of Colombia has undertaken to limit exports of cotton textiles and cotton textile products to the United States to certain designated levels. Pursuant to this agreement, an administrative mechanism has been established which is intended to preclude circumvention of the licensing system for exports to the United States from Colombia. The purpose of this notice is to announce the implementation of this administrative mechanism.

Effective June 3, 1974, entry into the United States for consumption and withdrawal from warehouse for consumption of cotton textiles and cotton textile products produced or manufactured in Colombia and exported to the United States from Colombia on and after that date for which Colombia has not issued an appropriate export visa, fully described below, will be prohibited. Application of this visa system to cotton textiles and cotton textile products exported from Colombia before the date of publication is to become effective July 2, 1974.

The visa will be a stamped marking in blue ink on the front of the invoice (Special Customs Invoice Form 5515, or other successor document, or commercial invoice when such form is used), and will bear the signature of the official issuing the visa. The officials authorized to issue such visas are the following: Eduardo Paez Velasquez, Antonio Ernesto Beltran Candia, Ricardo Rafael Restrepo Diaz, Raul Farello P., Fernando Anchique V., Jaime Neira Baena, Ramiro Valencia Lopez, Carlos Lozano Angel, Rafaela Vergara Echavez, Joaquin Gutierrez Isaza, Gloria Mercedes Velásquez Latorre, Manuel Arturo Posada Gutierrez, Hernan Toro Franco, Humberto Gomez Diaz, Jaime Arroyave Gomez, Jesus Gomez Jaramillo, Julian Contreras Triviño, Telena de Florez, and Jaime Ospina Duque. A facsimile of the stamp, along with the signatures of the above officials, are filed as a part of the original document with the office of the FEDERAL REGISTER.

Interested parties are advised to take all necessary steps to assure that cotton textiles and cotton textile products produced or manufactured in Colombia which are to be entered into the United States for consumption or withdrawn from warehouse for consumption will meet the stated visa requiremonts.

There is published below a letter of April 30, 1974, from the Chairman of the Committee for the Implementation of Textile Agreements, to the Commissioner of Customs implementing the administrative mechanism.

SETH M. BODNER,
Chairman, Committee for the Implementation of Textile Agreements, and Deputy Assistant Secretary for Resources and Trade Assistance.

COMMITTEE FOR THE IMPLEMENTATION OF TEXTILE AGREEMENTS

COMMISSIONER OF CUSTOMS,
Department of the Treasury,
Washington, D.C. 20229:

APRIL 30, 1974.

DEAR MR. COMMISSIONER: Pursuant to paragraph 13 of the Bilateral Cotton Textile Agreement of June 15, 1971, between the Governments of the United States and Colombia, and in accordance with the procedures of Executive Order 11651 of March 3, 1972, you are directed to prohibit, effective June 3, 1974, and until further notice, entry into the United States for consumption and withdrawal from warehouse for consumption of cotton textiles and cotton textile products in Categories 1 through 64, produced or manufactured in Colombia for which Colombia has not issued an appropriate visa, fully described below, provided, however, that the aforestated cotton textiles and cotton textile products produced or manufactured in Colombia and exported therefrom prior to the date of publication shall not be denied entry until 60 days following the date of publication.

The visa will be a stamped marking in blue ink on the front of the invoice (Special Customs Invoice Form 5515, or other successor document, or commercial invoice when such form is used), and will bear the signature of an official authorized to issue visas. A facsimile of the stamp along with the names of the officials authorized to issue visas are enclosed.

You are further directed to allow entry into the United States for consumption and withdrawal from warehouse for consumption of designated shipments of cotton textiles and cotton textile products produced or manufactured in Colombia and exported to the United States from Colombia, notwithstanding the designated shipment or shipments do not meet the aforementioned visa requirements, whenever requested to do so in writing by the Chairman of the Committee for the Implementation of Textile Agreements.

A detailed description of the categories in terms of T.S.U.S.A. numbers was published in the FEDERAL REGISTER on January 25, 1974 (39 FR 3430).

In carrying out the above directions, entry into the United States for consumption shall be construed to include entry for consumption into the Commonwealth of Puerto Rico.

The actions taken with respect to the Government of Colombia and with respect to imports of cotton textiles and cotton textile products from Colombia have been determined by the Committee for the Implementation of Textile Agreements to involve foreign affairs functions of the United States. Therefore, the directions to the Commissioner of Customs being necessary to the implementation of such actions fall within the foreign affairs exception to the rulemaking provisions of 5 U.S.C. 553. This letter will be published in the FEDERAL REGISTER.

Sincerely,

SETH M. BODNER,
Chairman, Committee for the Implementation of Textile Agreements, and Deputy Assistant Secretary for Resources and Trade Assistance.

CITIZENS' ADVISORY COUNCIL ON THE STATUS OF WOMEN

NOTICE OF MEETING

Notice is hereby given of a meeting to be held by the Citizens' Advisory Council on the Status of Women established by Executive Order 11126 of November 1, 1963.

The meeting will begin on May 10, 1974, at 9:30 a.m., in Room 210 C and D, lower level of the Department of Labor Building, 14th and Constitution Avenue NW., Washington, D.C. The meeting will reconvene at 9:30 a.m. on May 11 in the Council Room of the Washington Hotel, 15th and Pennsylvania Avenue NW., Washington, D.C.

During the course of the meeting the following subjects will be discussed in the following order: Women's Stake in National Health Insurance, Status Report on Women in the Military, Use of Women's Own Name After Marriage, International Women's Year, and Recommendations and Future Program.

Members of the public are invited to attend the proceedings.

Any written data, views, or arguments received by the Council's executive secretary concerning the subjects to be considered on or before May 7, 1974, together with 25 duplicate copies will be provided to the members and will be included in the minutes of the meeting.

Interested persons wishing to address the Council at the meeting should submit a request to be heard to the executive secretary no later than May 7, 1974, stating the nature of their intended presentation and the amount of time they will need. At the commencement of the meeting, the chairperson will announce the extent to which time will permit the granting of such requests.

Communications to the executive secretary should be addressed as follows:

Catherine East, Executive Secretary, Citizens' Advisory Council on the Status of Women, Room 1336, Department of Labor Building, Washington, D.C. 20210.

Signed at Washington, D.C., this 30th day of April 1974.

CATHERINE EAST,
Executive Secretary.

COMMISSION ON THE REVIEW OF THE NATIONAL POLICY TOWARD GAMBLING

REVISED NOTICE OF MEETINGS

Pursuant to the provisions of the Federal Advisory Committee Act (Pub. L. 92–463, 86 Stat. 770), notice is hereby given that the Commission on the Review of the National Policy Toward Gambling, established under the authority of section Pub. L. 91–452, Part D, sec. 804–808 of the Organized Crime Control Act of 1970, will meet on May 15, 1974, in Room 457 of the Russell Senate Office Building, Washington, D.C., at 9:30 a.m. with the Department of Justice and at 2 p.m. with the Internal Revenue Service for the purpose of holding hearings. The reason for this Revised Notice is that Mr. Donald C. Alexander, Commissioner of the Internal Revenue Service, and other Internal Revenue Service personnel, will present testimony which they would be unable to do on May 8, 1974.

The purpose of these hearings will be to enable the Commission to explore the experiences of the Department of Justice and the Internal Revenue Service concerning their investigations and prosecution of gambling activities pursuant to those Federal statutes governing the prohibition and taxation of gambling activities. Representatives from these agencies will present statistical information relating to existing enforcement practices and in addition will offer testimony as to any recommendations they may have which in their opinion may serve to improve the effectiveness of the said existing practices.

The Hearings of the Commission will be open to the public, and interested persons are invited to attend. The rules of procedure for person or persons presenting matters to the Commission are subject to the following conditions:

(a) Any such interested person or persons must receive authorization to present such matters from the Chairman of the Commission. Not later than seven (7) days preceding such Executive or Public Hearings, a request for such authorization must be received in writing at the offices of the Commission. Such a request shall be accompanied by a concise description of the material which such person or persons desire to present to the Commission or Subcommittee.

(b) The Chairman of the Commission shall, within three (3) days from the receipt of such a request make a determination that the subject matter presented by such interested person or persons is timely and appropriate for such Executive or Public Hearings of the Commission or Subcommittee thereof, and shall notify such interested person or persons by Certified Mail of the decision.

(c) In the event such interested person or persons are allowed to present matters to the Commission or Subcommittee thereof in Executive or Public Hearings, then a prepared written statement of expected presentation shall be filed in the office of the Commission, not later than 48 hours in advance of the hearings of which the statement is to be presented.

(d) After the receipt of the statement of expected presentation, the Chairman shall then make a determination of the extent that time is available for such interested person or persons to present oral statements in addition thereto. In the event that the Chairman determines that time is not available for such oral statements, the interested person or persons' statement shall be recorded and made a part of the subject proceedings.

(e) Provided further that any such interested person or persons who feel aggrieved by or takes exception to any of the determinations made by the Chairman of the Commission shall have the opportunity to present in writing to each member of the Commission the basis for such grievance or exception taken to such ruling by the Chairman and thereafter the decision of the Chairman shall be reconsidered by each member of the Commission at its next regular meeting or hearing. Notice by Certified Mail to such interested person or persons shall include the final decision of the full Commission on its reconsideration and shall constitute notification of the action taken by the Commission.

(f) Any deviation from the preceding requirements, shall constitute on the part of such interested person or persons, a withdrawal of any request previously made.

JAMES E. RITCHIE,
Executive Director.

ENVIRONMENTAL PROTECTION AGENCY

[OPP-32000/51]

NOTICE OF RECEIPT OF APPLICATIONS FOR PESTICIDE REGISTRATION

Data To Be Considered in Support of Applications

On November 19, 1973, the Environmental Protection Agency published in the FEDERAL REGISTER (38 FR 31862) its interim policy with respect to the administration of section 3(c)(1)(D) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended (86 Stat. 979), and its procedures for implementation. This policy provides that EPA will, upon receipt of every application, publish in the FEDERAL REGISTER a notice containing the information shown below. The labeling furnished by the applicant will be available for examination at the Environmental Protection Agency, Room EB–37, East Tower, 401 M Street, SW., Washington, D.C. 20460.

On or before July 2, 1974, any person who (a) is or has been an applicant, (b) desires to assert a claim for compensation under section 3(c)(1)(D) against another applicant proposing to use supportive data previously submitted and approved, and (c) wishes to preserve his opportunity for determination of reasonable compensation by the Administrator must notify the Administrator and the applicant named in the FEDERAL REGISTER of his claim by certified mail. Every such claimant must include, at a minimum, the information listed in this interim policy published on November 19, 1973.

Applications submitted under 2(a) or 2(b) of the interim policy in regard to usage of existing supportive data for registration will be processed in accordance with existing procedures. Applications submitted under 2(c) will be held for the 60-day period before commencing processing. If claims are not received, the application will be processed in normal procedure. However, if claims are received within 60 days, the applicants against whom the particular claims are asserted will be advised of the alternatives available under the Act. No claims will be accepted for possible EPA adjudication which are received after July 2, 1974.

APPLICATIONS RECEIVED

[Report No. 698]

COMMON CARRIER SERVICES INFORMATION [1]

Applications Accepted for Filing [2]

APRIL 29, 1974.

Pursuant to §§ 1.227(b)(3) and 21.30 (b) of the Commission's rules, an application, in order to be considered with any domestic public radio services application appearing on the attached list, must be substantially complete and tendered for filing by whichever date is earlier: (a) the close of business one business day preceding the day on which the Commission takes action on the previously filed application; or (b) within 60 days after the date of the public notice listing the first prior filed application (with which subsequent applications are in conflict) as having been accepted for filing. An application which is subsequently amended by a major change will be considered to be a newly filed application. It is to be noted that the cut-off dates are set forth in the alternative—applications will be entitled to consideration with those listed in the appendix if filed by the end of the 60 day period, only if the Commission has not acted upon the application by that time pursuant to the first alternative earlier date. The mutual exclusivity rights of a new application are governed by the earliest action with respect to any one of the earlier filed conflicting applications.

The attention of any party in interest desiring to file pleadings pursuant to section 309 of the Communications Act of 1934, as amended, concerning any domestic public radio services application accepted for filing, is directed to § 21.27 of the Commission's rules for provisions governing the time for filing and other requirements relating to such pleadings.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] VINCENT J. MULLINS,
Secretary.

APPENDIX

APPLICATIONS ACCEPTED FOR FILING

DOMESTIC PUBLIC LAND MOBILE RADIO SERVICE

21255–C2–AL–74—Estate of Otis J. Stanley. Consent to Assignment of License from Estate of Otis J. Stanley, ASSIGNOR to Answer Iowa, Inc., ASSIGNEE, Station: KWH325, Davenport, Iowa.

21256–C2–AL–74—Estate of Otis J. Stanley. Consent to Assignment of License from Estate of Otis J. Stanley, ASSIGNOR to Answer Iowa, Inc., ASSIGNEE, Station: KAF642, Davenport, Iowa.

21257–C2–P–(4)–74—A Plus Communications of Puerto Rico, Inc. d/b as Caribbean Mobile Telephone Systems (NEW). C.P. for a new 2-way station to operate on 454.150, 454.225, 454.050, and 454.100 MHz to be located at Intersection of Avenida Pinero and Avenida San Patrico, Caparra Heights, Puerto Rico.

21258–C2–MP–(2)–74—Owen W. Hand (KUO 645). C.P. to replace transmitter operating on 152.12 MHz and for additional facilities to operate on 152.18 MHz located at Avalon Blvd., Swainton, New Jersey.

21259–C2–P–74—Berkshire Communicators, Inc. (KCA237). C.P. for additional facilities to operate on 152.09 MHz to be located at a new site described as Loc. No. 3: Mohawk Trail, near Eastern edge of City Limits, North Adams, Massachusetts.

21260–C2–P–(2)–74—Lett Electronics, Inc. (KEK275). C.P. for additional facilities to operate on 454.225 and 454.350 MHz at Loc. No. 1: 800 N. Halstead, Hutchinson, Kansas.

21261–C2–P–(4)–74—Dee Wetmore d/b as Westside Answering Service (KFL877). C.P. to change antenna system operating on 454.025 MHz and for additional facilities to operate on 454.050, 454.100, and 454.125 MHz located at 3717 Spruce Street, Tampa, Florida.

21262–C2–P–74—RCC of Virginia, Inc. (NEW). C.P. for a new 1-way station to operate on 152.24 MHz to be located at Sunnyside, Winchester, Virginia.

21263–C2–P–74—RCC of Virginia, Inc. (NEW). C.P. for a new 1-way station to operate on 152.24 MHz to be located .44 mile SSE. of Lynchburg, Virginia.

21264–C2–P–74—Byron W. White, d/b as Band Communications (NEW). C.P. for a new 2-way station to operate on 152.21 MHz to be located at North End of Ganett Street, Athens, Texas.

21265–C2–P–74—Continental Telephone Company of California (KMA746). C.P. for additional facilities to operate on 152.57 MHz located 5 miles SW. of Tupman, California.

21266–C2–TC–74—Electro-Craft, Inc. Consent to Transfer of Control from Estate of Jack A. Crowley, deceased, ASSIGNOR, to Executrix of the estate of Jack A. Crowley, Orel

[1] All applications listed in the appendix are subject to further consideration and review and may be returned and/or dismissed if not found to be in accordance with the Commission's rules, regulations and other requirements.

[2] The above alternative cut-off rules apply to those applications listed in the appendix as having been accepted in Domestic Public Land Mobile Radio, Rural Radio, Point-to-Point Microwave Radio and Local Television Transmission Services (Part 21 of the rules).

MAY 3 74
XUM

E. Crowley, ASSIGNEE. Station: KOP323, Rapid City, South Dakota.

21267–C2–P–74—Marathon Mobil Phone (KTS248). C.P. to change frequency from 152.12 MHz to 152.03 MHz located at 5996 Overseas Highway, Marathon, Florida.

21268–C2–P–(2)–74—Mobilfone Communications, Inc. (NEW). C.P. for a new 2-way station to operate on 454.325 and 454.350 MHz to be located at Hwy. 81, 1.3 miles NE. of San Marcos, Texas.

21269–C2–P–(4)–74—Answer, Inc. of San Antonio (KKG559). C.P. for additional facilities to operate on 454.150, 454.200, 454.250, and 454.350 MHz at KWEX–TV Tower, 411 W. Durango Blvd., San Antonio, Texas, Loc. No. 1.

21270–C2–P–74—Pacific Northwest Bell Telephone Company (KOF904). C.P. to change antenna system operating on 152.63 MHz located at Ortly Ridge, 6.2 miles NW. of the Dalles, Oregon.

21271–C2–P–74—Airsignal International, Inc. (KKG411). C.P. to relocate facilities operating on 152.12 MHz at Loc. No. 2: to Southland Life Building, Dallas, Texas.

21272–C2–P–74—P. L. Woodbury, d/b as Mobilfone of Kansas (NEW). C.P. for a new 1-way station to operate on 152.24 MHz located 2 miles East of McPherson, Kansas.

21273–C2–P–(6)–74—Rogers Radio Communications Service, Inc. (KSC644). C.P. to relocate facilities, change antenna system, and replace transmitters operating on 43.22 and 43.58 MHz at Loc. No. 1: 1 IBM Plaza, Chicago, Illinois; add antenna location No. 2 to operate on 43.22 and 43.58 MHz to be located at 143rd Street and State Road, Lockport, Illinois; and add antenna location No. 3 to operate on 43.22 and 43.58 MHz to be located at 5110 Tollview Road, Rolling Meadows, Illinois.

21274–C2–P–74—Waco Communications, Inc. (NEW). C.P. for a new 2-way station to operate on 152.12 MHz to be located 1 mile NNW. of Hamilton, Texas.

21275–C2–P–74—Polar Rural Telephone Mutual Aid Corporation (KAH671). C.P. for additional facilities to operate on 152.51 MHz located 2.5 miles NW. of Lankin, North Dakota.

21277–C2–P–74—Area-Wide Paging System, Inc. (KQK593). C.P. for additional facilities to operate on 43.58 MHz located at 50 Public Square Terminal Tower Building, Cleveland, Ohio.

21278–C2–P–74—South Central Bell Telephone Company (NEW) (Air-Ground). C.P. for a new air-ground station to operate on 454.850 base to be located at 3951 Erato Street, New Orleans, Louisiana.

21279–C2–P–74—Road Runner Radio Paging Service, Inc. (KKN282). C.P. for additional facilities to operate on 152.21 MHz located at East Mountain, 8 miles NW. of Longview in Upshur County, Texas.

21280–C2–P–74—Earl R. Law & Bart E. Gonzalez, d/b as Am-Tex Dispatch Service (KTS259). C.P. to relocate facilities and change antenna system and replace transmitter operating on 152.24 MHz to be located at 6th & Tayler, Amarillo, Texas.

21281–C2–P–(3)–74—Radio Enterprises of Ohio, Inc. (NEW). C.P. for a new 1-way station to operate on 35.33 MHz at three locations: Loc. No. 1: Jefferson Road, Ashtabula, Ohio; Loc. No. 2: 84 North State Street, Painesville, Ohio; and Loc. No. 3: 111 Water Street, Chardon, Ohio.

21284–C2–P–(2)–74—RCC of Virginia, Inc. (KLF465). C.P. for additional facilities to operate on 152.12 and 152.18 MHz to be located .44 mile SSE. of Lynchburg, Virginia.

21285–C2–P–74—Earl R. Law & Bart E. Gonzalez, d/b as Am-Tex Dispatch Service (KLB564). C.P. for additional facilities to operate on 152.03 MHz located at 1800 West Second Street, Amarillo, Texas.

21286–C2–P–74—Farmers' Mutual Telephone Company (KBM520). C.P. to change antenna system and replace transmitter operating on 152.63 MHz located 2 miles North of Rockford, Iowa.

21282–C2–P–74—DPRS, Inc., trading as Zipcall (KCB890). C.P. to add standby facilities to operate on 43.58 MHz at Loc. No. 7: Asnebumskit Hill, 2.6 miles East of Paxton, Mass.

MAJOR AMENDMENTS

20878–C2–P–74—Mobilefone Service, Inc., Ponca City, Oklahoma. Amend base frequency 152.12 to read 152.15. All other particulars are to remain as reported on PN 686, dated February 4, 1974.

20909–C2–P–(2)–74—L. M. Kelley, d/b as Seattle Radiotelephone Service (KOA733). Amend base frequency 454.225 to read 454.275 MHz. All other particulars to remain as reported on PN 687, dated February 11, 1974.

20983–C2–P–(3)–74—Edward C. Smith d/b as Answerite Professional Telephone Service (KIY581). Amend to add a repeater station to operate on 2129.6 MHz at a location described as Route 526, 6 miles West of Orlando, Florida (Lat. 28°32'30" N., Long. 81°30'38" W.), and a control station to operate on 2179.6 MHz at a location described as 63 East Pine Street, Orlando, Florida (Lat. 28°32'25" N., Long. 81°22'41" W.). All other particulars to remain as reported on PN 697, dated March 22, 1974.

INFORMATIVE

It appears that the following applications may be mutually exclusive and subject to the Commission's Rules regarding ex parte presentations by reason of economic competition or potential electrical interference.

Telephone Communications, Inc., Waukegan, Illinois (NEW) 20219–C2–P–74.

In Touch Communications, Inc., Lake Geneva, Wisconsin (NEW) 20018–C2–P–(2)–74.

CORRECTIONS

20029–C2–P–(2)–74 on PN 658, dated July 23, 1973, is a major amendment to 8449–C2–P–(2)–73 on PN 650. All other particulars are to remain as reported on PN 650, dated May 29, 1973.

20032–C2–P–(3)–74—AAA Anserphone, Inc.-Jackson (NEW). Correct to read amend application file No. 20033–C2–P–74 to add additional facilities on frequencies 454.025, 454.250, and 454.300 MHz. All other particulars to remain as reported on PN 658, dated July 23, 1974.

Renewal of Licenses expiring April 1, 1974.

Term: April 1, 1974, to April 1, 1979.

RURAL RADIO SERVICE:

60263–C6–P–74—Mountain States Telephone and Telegraph Company (NEW). C.P. for a new rural subscriber station to operate on 157.86 MHz to be located at Globe Ranch, 9.5 miles WSW. of Grand Canyon Village, Arizona.

60264–C6–P–74—RCA Alaska Communications, Inc. (NEW). C.P. for a new interoffice station to operate on 454.600 MHz located at White Alice Communication site at Mile 227, Richardson Highway; 38.5 miles South of Delta Junction, Black Rapids, Alaska.

60265–C6–P–74—RCA Alaska Communications, Inc. (NEW). C.P. for a new interoffice station to operate on 459.600 MHz located at Alyeska pipeline construction site at Mile 180, Richardson Highway; 42 miles South of Delta Junction, Pump Station No. 10, Alaska.

60266–C6–P–74—RCA Alaska Communications, Inc. (NEW). C.P. for a new interoffice station to operate on 454.425 MHz located at White Alice Communication site 9 miles west of Mile 164, Richardson Highway; 74 miles South of Delta Junction, Paxson, Alaska.

60267–C6–P–74—RCA Alaska Communications, Inc. (NEW). C.P. for a new interoffice station to operate on 459.425 MHz located at Alyeska pipeline construction site near Summit Lake Lodge at Mile 194, Richardson Highway, Paxson Camp, Alaska.

60268–C6–P–74—RCA Alaska Communications, Inc. (NEW). C.P. for a new interoffice station to operate on 454.575 MHz located at White Alice Communications site at Mile 189 Glen Highway, in Glennallen, Alaska.

60269–C6–P–74—RCA Alaska Communications, Inc. (NEW). C.P. for a new interoffice station to operate on 459.575 MHz located at Alyeska pipeline construction site at Mile 110 on Richardson Highway; 4 miles South of Glennallen, Glennallen Camp, Alaska.

60270–C6–P–74—RCA Alaska Communications, Inc. (NEW). C.P. for a new interoffice station to operate on 454.450 MHz located at Remote repeater site near Mile 88, Richardson Highway; 12 miles South of Copper Center, Stuck, Alaska.

60271–C6–P–74—RCA Alaska Communications, Inc. (NEW). C.P. for a new interoffice station to operate on 459.450 MHz to be located at Alyeska pipeline construction site at Mile 69 on the Richardson Highway; 42 miles South of Glennallen, Tonsina Camp, Alaska.

60272–C6–P–74—RCA Alaska Communications, Inc. (NEW). C.P. for a new interoffice station to operate on 454.650 MHz located at Alyeska pipeline construction site, near Mile 18 on Richardson Highway, 15 miles East of Valdez, Sheep Creek Camp, Alaska.

60273–C6–P–74—RCA Alaska Communications, Inc. (NEW). C.P. for a new interoffice station to operate on 459.650 MHz located at Remote repeater site near Hill 7067; 17.5 miles East of Valdez, Keystone, Alaska.

60274–C6–P–74—RCA Alaska Communications, Inc. (NEW). C.P. for a new interoffice station to operate on 454.375 MHz located at Alyeska pipeline terminus construction site; 4 miles South of Valdez, Valdez Terminal, Alaska.

60275–C6–P/L–74—RCA Alaska Communications, Inc. (NEW). C.P. for a new central office station to operate on 152.66 MHz located at Building T1, Cold Bay, Alaska.

60276–C6–P/L–74—RCA Alaska Communications, Inc. (NEW). C.P. for a new rural subscriber station to operate on 157.92 MHz located 43 miles NE. of Cold Bay, Cathedral River, Alaska.

60277–C6–P–74—RCA Alaska Communications, Inc. (WGF99). C.P. to change frequencies from 157.77 and 157.83 MHz to 157.95 and 158.01 MHz; relocate facilities, change antenna system, and replace transmitters located at Village Health Aid Office, White Mountain, Alaska.

60278–C6–P/L–74—RCA Alaska Communications, Inc. (WGG27). C.P. to relocate facilities, change antenna system, and replace transmitter operating on 157.95 and 158.01 MHz located at George Madro, Sr. Home, Kaltag, Alaska.

60279–C6–P/L–74—RCA Alaska Communications, Inc. (WOG23). C.P. to add facilities

to operate on 152.75 MHz, change antenna system operating on 454.450 and 454.65 MHz located 190 miles ESE. of Barrow, Frontier Camp, Alaska.

POINT TO POINT MICROWAVE RADIO SERVICE:

3863–C1–MP–74—Southern Pacific Communications Company (KEU95) Dallas, Texas. Lat. 32°42'30" N., Long. 96°44'56" W. Mod. C.P. to delete point of communication on freq. 5974.8V MHz towards Nevada, Texas, on azimuth 42°37'.

3864–C1–MP–74—Same (KEV45), Jonesboro, Arkansas. Lat. 35°47'34" N., Long. 90°44'-41" W. Mod. C.P. to delete point of communication on freq. 6004.5H MHz towards Fisher, Arkansas, on azimuth 212°54'.

3944–C1–P–74—The Mountain States Telephone and Telegraph Company (KPR48), 16 West Fourth Street, Hardin (Big Horn), Montana. Lat. 45°44'00" N., Long. 107°36'-24" W. C.P. to add freq. 11,075.0H MHz towards Fort Custer, Montana, via passive reflector.

3945–C1–P–74—Same (KPZ97), 20 miles SW. of Hardin (Big Horn), Montana, Lat. 45°-30'55" N., Long. 107°52'57" W. C.P. to add freq. 11,525.0H MHz towards Hardin, Montana, via passive reflector.

3946–C1–P–74—Southwestern Bell Telephone Company (KTQ97), 1408 Broadway, Lubbock (Lubbock), Texas. C.P. to add freq. 4030V MHz towards Slaton, Texas, on azimuth 110°41'.

3947–C1–P–74—Same (KTQ98), 5.4 miles NE. of Slaton (Lubbock), Texas. Lat. 33°29'46" N., Long. 101°34'13" W. C.P. to add freq. 4090H MHz towards Lubbock, Texas, on azimuth 290°50'.

3948–C1–P–74—Southern Bell Telephone and Telegraph Company (KJB50), 415 Clay Street, Jacksonville (Duval), Florida. Lat. 30°19'51" N., Long. 81°39'47" W. C.P. to change polarization from Horizontal to Vertical on freqs. 3770, 3850, 3930, 4010, 4090, and 4170 MHz towards Jacksonville Beach, Florida, on azimuth 96°18'.

3949–C1–P–74—Same (KJK61), Corner of North 3rd Street and North 17th Avenue, Jacksonville Beach (Duval), Florida. Lat. 30°18'18" N., Long. 81°23'47" W. C.P. to change polarization on freqs. 3730, 3810, 3890, 3970, 4050, and 4130 MHz towards Sampson Church, Florida, from Vertical to Horizontal on azimuth 201°08'; change polarization from Horizontal to Vertical on freqs. 3730, 3810, 3890, 3970, 4050, and 4130 MHz towards Jacksonville 2, Florida, on azimuth 276°26'.

3951–C1–P–74—Same (KJK63), 5.2 miles WSW. of Summer Haven (St. Johns), Florida. Lat. 29°39'30" N., Long. 81°18'02" W. C.P. to change polarization from Vertical to Horizontal on freqs. 3770, 3850, 3930, 4010, 4090, and 4170 MHz towards St. Augustine, Florida, on azimuth 350°34'; change polarization from Vertical to Horizontal on freqs. 3770, 3850, 3930, 4010, 4090, and 4170 MHz towards Flagler Beach, Florida, on azimuth 144°18'.

3952–C1–P–74—Southern Bell Telephone and Telegraph Company (KJK64), 0.75 mile West of City Limits of St. Augustine (St. Johns), Florida. Lat. 29°53'45" N., Long. 81°20'45" W. C.P. to change polarization from Horizontal to Vertical on freqs. 3730, 3810, 3890, 3970, 4050, and 4130 MHz towards Sampson Church, Florida, and from Vertical to Horizontal on freqs. 3730, 3810, 3890, 3970, 4050, and 4130 MHz towards Midway, Florida, on azimuth 170°33'.

3953–C1–P–74—Same (KJK65), 1.2 miles SW. of Flagler Beach (Flagler), Florida. Lat. 29°28'03" N., Long. 81°08'38" W. C.P. to change polarization from vertical to horizontal on freqs. 3730, 3810, 3890, 3970, 4050, and 4130 MHz towards Midway, Florida, on azimuth 324°22'; freq. 3730, 3810, 3890, 3970, 4050, and 4130 MHz from Horizontal to Vertical towards Daytona Beach, Florida, on azimuth 157°43'.

3954–C1–P–74—Same (KJK66), 268 N. Ridgewood Avenue, Daytona Beach, (Volusia), Florida. Lat. 29°12'53" N., Long. 81°01'33" W. C.P. to change polarization from horizontal to vertical on freqs. 3770, 3850, 3930, 4010, 4090, and 4170 MHz towards Flagler Beach, Florida, on azimuth 337°46'.

3966–C1–P–74—General Telephone Company of Indiana, Inc. (KSG61), 303 E. Berry Street, Fort Wayne (Allen), Indiana. Lat. 41°04'49" N., Long. 85°08'11" W. C.P. to change freqs., power, and replace transmitters to freqs. 6078.6H MHz towards Churubusco, Indiana, on azimuth 317°33'.

3967–C1–P–74—Same (KSI56), 0.06 Km ENE. of the intersection of roads US 33 and Indiana 205 in Churubusco (Whitley), Indiana. Lat. 41°13'50" N., Long. 85°19'07" W. C.P. to change freqs. power and replace transmitter to freqs. 6330.7H MHz towards Fort Wayne, Indiana, on azimuth 137°26'; freq. 6212.0H MHz towards Albion, Indiana, on azimuth 334°23'.

3968–C1–P–74—Same (KSI57), 0.08 Km SW. of intersection of roads, Indiana 8 and Indiana 9 in Albion (Noble), Indiana. Lat. 41°23'42" N., Long. 85°25'24" W. C.P. to change freq., power, and replace transmitter to freq. 5989.7H MHz towards Churubusco, Indiana, on azimuth 154°19'.

3969–C1–P–74—Pacific Northwest Bell Telephone Company (KOJ93), Joe Butte, 7 miles South of Kennewick (Benton), Washington. Lat. 46°06'13" N., Long. 119°07'43" W. C.P. to add freq. 3950V MHz towards Irrigon, Oregon, on azimuth 222°58'.

3970–C1–P–74—Same (KOQ86), 5 miles North of Skamania (Skamania), Washington. Lat. 45°41'02" N., Long. 122°04'13" W. C.P. to add freq. 3990V MHz towards Livingston Mountain, Washington, on azimuth 268°48'.

3971–C1–P–74—Pacific Northwest Bell Telephone Company (KOQ87), 3.3 miles SE. of Hood River (Hood River), Oregon. Lat. 45°41'00" N., Long. 121°27'52" W. C.P. to add freq. 3950V MHz towards Skamania, Washington, on azimuth 270° 101.

3972–C1–P–74—Same (KOQ38), 2.9 miles NW. of Moro (Sherman), Oregon. Lat. 45°30'58" N., Long. 120°46'45" W. C.P. to add freq. 3990V MHz towards Hood River, Oregon, on azimuth 289°25'.

3973–C1–P–74—Same (KOQ89), 2.5 miles NW. of Roosevelt (Klickitat), Washington. Lat. 45°45'51" N., Long. 120°14'31" W. C.P. to add freq. 3950V MHz towards Moro, Oregon, on azimuth 236°50'.

3974–C1–P–74—Same (KOQ90), Near Irrigon (Morrow), Oregon. Lat. 45°47'39" N., Long. 119°32'23" W. C.P. to add freq. 3990V MHz towards Roosevelt, Washington, on azimuth 266°45'.

3975–C1–P–74—Bell Telephone Company of Nevada (KPF95), Florida Canyon, 2.5 miles SE. of Humboldt (Pershing), Nevada. Lat. 40°34'23" N., Long. 118°13'29" W. C.P. to add freqs. 11,115V and 10,955V MHz towards Lovelock, Nevada, on azimuth 214°-42'; freq. 11,155V and 10,995V MHz towards Winnemucca, Nevada, via passive reflector.

3976–C1–P–74—Same (WIV57), 19 miles SW. of Lovelock (Churchill), Nevada. Lat. 39°59'55" N., Long. 118°44'27" W. C.P. to add freq. 11,405V and 11,565V MHz towards Florida Canyon, Nevada, on azimuth 34°22'.

3977–C1–P–74—Same (New), 102 Railroad Street, Winnemucca (Humboldt), Nevada. Lat. 40°58'13" N., Long. 117°43'52" W. C.P. for a new station on freqs. 11,605V and 11,-445V MHz towards Florida Canyon, Nevada, via passive reflector.

3978–C1–P–74—Southern Pacific Communications Company (New), 418 Duncan Avenue, Jersey City (Hudson), New Jersey. Lat. 40°43'58" N., Long. 74°05'12" W. C.P. for a new station on freq. 10,935V MHz towards New York, New York, on azimuth 78°28.'

3979–C1–MP–74—Same (KFM84), Empire State Building, 5th Avenue at 34th Street, New York (New York), New York. Lat 40°44'54" N., Long. 73°59'10" W. Mod. C.P. to add freq. 11,385H MHz towards a new point of Communication at Jersey City, New Jersey, on azimuth 258°32'.

3980–C1–P–74—General Telephone Company of Florida (KIO64), 1015 4th Avenue Bradenton (Manatee), Florida. Lat. 27°29'-46" N., Long. 82°34'23" W. C.P. to add freqs. 5960.0V MHz towards St. Petersburg, Florida, on azimuth 346°50'; freq. 5960.0V MHz towards Sarasota, Florida, on azimuth 168°27'.

3981–C1–P–74—General Telephone Company of Florida (KIO65), Corner of Pine Place & Bamboo Lane, Sarasota (Sarasota), Florida. Lat. 27°20'06" N., Long. 82°32'10" W. C.P. to add freq. 6212.1V MHz towards Bradenton, Florida, on azimuth 348°26'.

3982–C1–P–74—Same (KIY21), 830 Arlington Avenue, St. Petersburg (Pinellas), Florida. Lat. 27°46'19" N., Long. 82°38'44" W. C.P. to add freq. 6212.1V MHz towards Bradenton, Florida, on azimuth 166°46'.

3983–C1–P–74—Same (KIB48), 400 feet East of Lakeland, Highland Road, and 360 feet North of Seward Lake Drive, Highland City (Polk), Florida. Lat. 27°57'40" N., Long. 81°55'21" W. C.P. to add freqs. 5974.8V, 6034.2V, 6093.5V, 6152.8V and 2126.8H MHz towards a new point of communication at Lithia, Florida, on azimuth 243°10'; freq. 3730.0H, 3810.0H, 3890.0H, and 2117.2H MHz towards a new point of communication at Winter Haven, Florida, on azimuth 69°57'; freqs. 11,075.0V and 11,155.0V MHz towards a new point of communication at Lakeland, Florida, on azimuth 339°08'.

3984–C1–P–74—Same (KIL88), 519 Zack Street, Tampa (Hillsborough), Florida. Lat. 27°57'01" N., Long. 82°27'24" W. C.P. to add freqs. 5974.8H, 6093.5H, 6152.8H, 6004.5V, and 2122.0V MHz towards a new point of communication at Lithia, Florida on azimuth 112°26'.

BOARD OF COMMISSIONERS

Establishment Order

APRIL 30, 1974.

By the Commission:

1. Between April 19 and June 10, 1974, Commissioner Robert E. Lee will be absent from the country in his capacity as Chairman of the United States Delegation to the World Administrative Radio Conference for Maritime Mobile. In view of the fact that the Commission presently has only four members, we hereby establish a Board of Commissioners, pursuant to section 5(d) of the Communications Act of 1934, as amended, 47 U.S.C. § 155(d), consisting of all commissioners present and able to act, which is authorized to act from April 19, 1974 until further order of the Commission upon all matters normally acted upon by the Commission en banc except those matters specified in section 5(d) as being beyond the Commission's delegation authority. This delegation is without prejudice to the reference of appropriate matters to Commissioner Lee during this period for his consideration and vote.

Adopted: April 16, 1974.

Released: April 30, 1974.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] VINCENT J. MULLINS,
Secretary.

FEDERAL MARITIME COMMISSION

CEYLON/U.S.A. CONFERENCE

Agreement Filed

Notice is hereby given that the following agreement has been filed with the Commission for approval pursuant to section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763, 46 U.S.C. 814).

Interested parties may inspect and obtain a copy of the agreement at the Washington office of the Federal Maritime Commission, 1100 L Street, NW., Room 10126; or may inspect the agreement at the field offices located at New York, N.Y., New Orleans, Louisiana, San Francisco, California, and San Juan, Puerto Rico. Comments on such agreements, including requests for hearing, may be submitted to the Secretary, Federal Maritime Commission, Washington, D.C. 20573, on or before May 23, 1974. Any person desiring a hearing on the proposed agreement shall provide a clear and concise statement of the matters upon which they desire to adduce evidence. An allegation of discrimination or unfairness shall be accompanied by a statement describing the discrimination or unfairness with particularity. If a violation of the Act or detriment to the Commerce of the United States is alleged, the statement shall set forth with particularity the acts and circumstances said to constitute such violation or detriment to commerce.

A copy of any such statement should also be forwarded to the party filing the agreement (as indicated hereinafter) and the statement should indicate that this has been done.

William L. Hamm, Secretary
Ceylon/U.S.A. Conference
New York Committee
25 Broadway
New York, New York 10004

Agreement No. 8050–10 redefines the consequences attendant to a member line's failure to have a sailing in the trade for three or six months. If the failure to have a sailing for three months is due to force majeure or other circumstances beyond its control, the line concerned may retain all voting privileges if all other lines are agreeable. Should a line not have a sailing for six months then that line may be expelled from the Conference upon the unanimous vote of all other members. Presently, a line is automatically expelled from the Conference for a failure to have a sailing over a period of six months.

By Order of the Federal Maritime Commission.

Dated: April 30, 1974.

JOSEPH C. PALKING,
Assistant Secretary.

CONTINENTAL NORTH ATLANTIC WESTBOUND FREIGHT CONFERENCE

Amendment of Pending Modification; Agreement Filed

Notice is hereby given that the following agreement has been filed with the Commission for approval pursuant to section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763, 46 U.S.C. 814).

Interested parties may inspect and obtain a copy of the agreement at the Washington office of the Federal Maritime Commission, 1100 L Street, NW., Room 10126; or may inspect the agreement at the field Offices located at New York, N.Y., New Orleans, Louisiana, San Francisco, California, and San Juan, Puerto Rico. Comments on such agreements, including requests for hearing, may be submitted to the Secretary, Federal Maritime Commission, Washington, D.C. 20573, on or before May 13, 1974. Any person desiring a hearing on the proposed agreement shall provide a clear and concise statement of the matters upon which they desire to adduce evidence. All allegation of discrimination or unfairness shall be accompanied by a statement describing the discrimination or unfairness with particularity. If a violation of the Act or detriment to the Commerce of the United States is alleged, the statement shall set forth with particularity the acts and circumstances said to constitute such violation or detriment to commerce.

A copy of any such statement should also be forwarded to the party filing the agreement (as indicated hereinafter) and the statement should indicate that this has been done.

Howard A. Levy, Esq.
Suite 631
17 Battery Place
New York, New York 10004

Agreement No. 8210–23 (Sub 1), among the members of the above-named conference, amends Agreement No. 8210–23 which was filed September 28, 1973, and published in the FEDERAL REGISTER October 16, 1973, to give the conference specific authority to join the Canadian American Working Arrangement, Agreement No. 10090, as a single party upon unanimous consent of the member lines.

By Order of the Federal Maritime Commission.

Dated: April 29, 1974.

FRANCIS C. HURNEY,
Secretary.

NON-VESSEL OPERATING COMMON CARRIERS

Domestic Offshore Tariff Proceedings

On September 7, 1973, the Commission issued an Order to Show Cause why the individual tariffs of fifty-one (51) named Non-Vessel Operating Common Carriers (NVOCC's) should not be cancelled for failure to complete and return a questionnaire attached to a Commission Section 21 Order.[1] The Order to Show Cause considered "this failure to be prima facie evidence that those NVOCC's no longer operate pursuant to their tariffs."

Of the original fifty-one (51) respondent NVOCC's, twenty-seven (27) failed to respond to the Show Cause Order, while twelve (12) adequately replied, eight (8) responded but with insufficient information, and four (4) had already had their tariffs cancelled. On this basis, Hearing Counsel in their reply of December 3, 1973, urged the Commission to cancel the domestic offshore tariffs of the twenty-seven NVOCC's who failed to respond to the Show Cause Order, to dismiss the proceeding as to the twelve respondents who adequately replied to the Show Cause Order, to order the eight respondents who had inadequately replied to the Show Cause Order to submit additional information (holding in abeyance a final ruling of the Commission as to these respondents), and to dismiss the four respondents who tariffs had already been cancelled.

By a supplemental reply filed December 14, 1973, Hearing Counsel urged the Commission to hold in abeyance further action pertaining to cancellation of the tariff of Shipcosmos Thrucontainers, an NVOCC originally included in the list of those who had failed to reply, inasmuch as said respondent claimed never to have received the Show Cause Order. By a second supplemental reply filed January 25, 1974, Hearing Counsel urged the Commission to dismiss the proceeding as to Shipcosmos Thrucontainers inasmuch as it had as of that date complied with both the Show Cause Order and the Section 21 Order to the satisfaction of the Commission staff.

On April 11, 1974, Hearing Counsel filed their Third Supplemental Reply in which they petitioned the Commission to dismiss the proceeding as to the eight NVOCC's who had originally submitted inadequate replies to the Commission's questionnaire, the eight respondents having satisfactorily complied with the requirements of the Commission's Section 21 Order of February 1, 1973. Hearing Counsel cited either clerical error, misunderstanding or oversight as reasons for the previous inadequate replies.

La Isla Shipping Co. (La Isla), originally among those who had failed to reply, has informed the Commission staff that it had not received either the Section 21 Order or the Show Cause Order in this proceeding and has expressed a willingness to furnish the information requested. Furthermore, a proceeding (Docket No. 74-14) is presently pending before the Commission involving certain tariff matters in the operations of Hawaiian Freight Lines, Inc. (Hawaiian), also among those who had failed to respond to the Section 21 Order. Therefore, a final ruling with regard to these two NVOCC's will be held in abeyance: (1) pending compliance with the requirements of the Section 21 Order by La Isla as set forth hereinafter in the ordering paragraphs, and (2) with respect to Hawaiian, pending final determination of the proceeding (Docket No. 74–14) to which they are a party.

Now, therefore, it is ordered, That pursuant to sections 18(a), 21 and 22 of the Shipping Act, 1916 (46 U.S.C. 817, 820 and 821), and section 2 of the Intercoastal Shipping Act, 1933 (46 U.S.C. 844):

(1) that the domestic offshore tariffs of the twenty-four (24) NVOCC's listed in Appendix I hereto be cancelled for failure to respond;

(2) that the twenty-one (21) respondents listed in Appendix II hereto be dismissed from the proceeding because of their acceptable replies;

(3) that the proceeding be dismissed as to the four (4) respondents listed in Appendix III hereto, inasmuch as their tariffs have heretofore been cancelled;

(4) that a final ruling in this proceeding be held in abeyance for thirty (30) days with regard to the following respondent in order to allow for compliance with the Section 21 Order in this proceeding:

La Isla Shipping Co.
166 South 1st Street
Brooklyn, New York 11211

(5) that a final ruling in this proceeding be held in abeyance as to the following respondent pending completion of the proceedings in Docket No. 74–14:

Hawaiian Freight Lines, Inc.
P.O. Box 1601
Honolulu, Hawaii 98806

By the Commission.

[SEAL] FRANCIS C. HURNEY,
Secretary.

NORTH ATLANTIC CONTINENTAL FREIGHT CONFERENCE

Amendment of Pending Modification; Agreement Filed

Notice is hereby given that the following agreement has been filed with the Commission for approval pursuant to section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763, 46 U.S.C. 814).

Interested parties may inspect and obtain a copy of the agreement at the Washington office of the Federal Maritime Commission, 1100 L Street, NW, Room 10126; or may inspect the agreement at the field Offices located at New York, N.Y., New Orleans, Louisiana, San Francisco, California, and San Juan, Puerto Rico. Comments on such agreements, including requests for hearing, may be submitted to the Secretary, Federal Maritime Commission, Washington, D.C. 20573, on or before May 13, 1974. Any person desiring a hearing on the proposed agreement shall provide a clear and concise statement of the matters upon which they desire to adduce evidence. An allegation of discrimination or unfairness shall be accompanied by a statement describing the discrimination or unfairness with particularity. If a violation of the Act or detriment to the Commerce of the United States is alleged, the statement shall set forth with particularity the acts and circumstances said to constitute such violation or detriment to commerce.

A copy of any such statement should also be forwarded to the party filing the agreement (as indicated hereinafter) and the statement should indicate that this has been done.

[Docket No. 73–12]

SEA-LAND SERVICES, INC., ET AL.

Surcharges in the U.S. Atlantic and Gulf/Puerto Rico Trade; Third Supplemental Order

On April 28, 1974, Transamerican Trailer Transport, Inc. (TTT) proposes to place into effect minimum charges of $700 per trailer applicable to cargo moving from ports on the U.S. East Coast to Puerto Rico.[1] On March 7, 1974, the Commission issued Second Supplemental Order in this case, placing under investigation similar minimum charges filed by Sea-Land Service, Inc. (Sea-Land) and Seatrain Lines, Inc. (Seatrain).

TTT has submitted, as justification for its proposed minimum charges, an analysis of its 1973 operations indicating that its fully distributed cost of carrying a trailer in this trade is $790. No protests to TTT's proposed charges have been received.

Upon consideration of the above matters and of the competitive relationship among the three respondent carriers, the Commission is of the opinion that TTT's proposed minimum charges should be included in the subject investigation to determine whether they are unjust, unreasonable, or otherwise unlawful under section 18(a) of the Shipping Act, 1916 and/or section 4 of the Intercoastal Shipping Act, 1933. Good cause appearing, therefore,

It is ordered, That pursuant to the authority of section 22 of the Shipping Act, 1916, and sections 3 and 4 of the Intercoastal Shipping Act, 1933, an investigation is hereby instituted into the lawfulness of the proposed increase in minimum container charges contained on Original Page 31A to TTT's Tariff FMC–F No. 1, to make such findings and orders as the facts and circumstances warrant. In the event that the matter hereby placed under investigation is further changed, amended, or reissued, such changes are hereby ordered to be made a part of this investigation;

It is further ordered, That pursuant to section 18(a) of the Shipping Act, 1916, and section 4 of the Intercoastal Shipping Act, 1933, a determination shall be made as to whether the proposed increase in minimum per container charges is just, reasonable, and otherwise lawful within the meaning of those statutes;

It is further ordered, That this matter be joined with the matters previously set for investigation and hearing in this subject proceeding and their lawfulness be determined in the same proceeding by the same Administrative Law Judge of the Commission's Office of Administrative Law Judges;

It is further ordered, That (I) a copy of this order be forthwith served upon respondent and all other parties to this proceeding and published in the FEDERAL REGISTER; and (II) the respondent and all other parties be duly served with notice of time and place of hearing.

All persons (including individuals, corporations, associations, firms, partnerships, and public bodies) having an interest in this proceeding and desiring to intervene therein, should notify the Secretary of the Commission promptly and file petitions for leave to intervene in accordance with rule 5(1) of the Commission's rules of practice and procedure (46 CFR 502.72) with a copy to all parties to this proceeding.

By the Commission.

[SEAL] FRANCIS C. HURNEY,
Secretary.

SOUTH ATLANTIC NORTH EUROPE RATE AGREEMENT

Extension of Agreement; Agreement Filed

Notice is hereby given that the following agreement has been filed with the Commission for approval pursuant to section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763, 46 U.S.C. 814).

Interested parties may inspect and obtain a copy of the agreement at the Washington office of the Federal Maritime Commission, 110 L Street NW., Room 10126; or may inspect the agreement at the Field Offices located at New York, N.Y., New Orleans, La., San Juan, Puerto Rico and San Francisco, California. Comments on such agreements, including requests for hearing, may be submitted to the Secretary, Federal Maritime Commission, Washington, D.C. 20573, on or before May 13, 1974. Any person desiring a hearing on the proposed agreement shall provide a clear and concise statement of the matters upon which they desire to adduce evidence. An allegation of discrimination or unfairness

[1] The applicable tariff matter is Rule No. 335 contained on Original Page 31A to TTT's Tariff FMC–F No. 1.

V 39 I 87 MAY 3 74 XUM

shall be accompanied by a statement describing the discrimination or unfairness with particularity. If a violation of the Act or detriment to the commerce of the United States is alleged, the statement shall set forth with particularity the acts and circumstances said to constitute such violation or detriment to commerce.

A copy of any such statement should also be forwarded to the party filing the agreement (as indicated hereinafter) and the statement should indicate that this has been done.

Notice of Agreement Filed by:

Howard A. Levy, Esq.
Suite 631
17 Battery Place
New York, New York 10004

Agreement No. 9984–3, among the member lines of the abovenamed rate agreement, extends the effective period of the original agreement for an unlimited period insofar as it applies to cargo moving in the trades between the U.S. South Atlantic and Denmark, Finland, Norway, Poland and Sweden and from the U.S. South Atlantic to the United Kingdom, the Republic of Ireland and the Bordeaux Hamburg range.

By order of the Federal Maritime Commission.

Dated: April 29, 1974.

FEDERAL POWER COMMISSION

[Docket No. E–8691]

AMERICAN ELECTRIC POWER SERVICE CORP. (INDIANA & MICHIGAN ELECTRIC CO.)

Notice of Modification

APRIL 23, 1974.

Take notice that on March 25, 1974 the American Electric Power Service Corporation submitted on behalf of Indiana & Michigan Electric Company (I & M) modification No. 9, dated January 15, 1974, to the interconnection agreement, dated July 20, 1956, with Commonwealth Edison Company (Edison) which the Commission has designated as Indiana & Michigan Rate Schedule FPC No. 20.

Modification No. 9 provides for a new Service Schedule G-Supplemental Power to Edison. In recognition of the differences in seasonal load characteristics of the systems of the parties, the new service schedule provides that I & M will make available 500,000 kw of Supplemental Power to Edison in the summer "Annual Contract Period" of June through September inclusive during each year from 1974–78.

The proposed Service Schedule G provides for a demand charge and an energy charge. The demand charge for each month of the annual contract is at the rate of $2.15 per kw of supplemental contract demand. The energy charge is at the rate of 1.90 mills per kwh, subject to a fossil fuel cost adjustment.

Any person desiring to be heard or to make any protest with reference to this matter should on or before May 15, 1974, file with the Federal Power Commission, Washington, D.C. 20426 petitions to intervene or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). Persons wishing to become parties to a proceeding or to participate as a party in any hearing related thereto must file petitions to intervene in accordance with the Commission's rules. All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. The documents referred to in this notice are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. CI73–647]

BURMONT CO. (OPERATOR), ET AL.

Notice of Petition To Amend

APRIL 26, 1974.

Take notice that on April 10, 1974, Burmont Company (Operator), *et al.* (Petitioner), 1121 Americana Building, Houston, Texas 77002, filed in Docket No. CI73–647, a petition to amend the order issued in said docket on May 18, 1973 (49 FPC), pursuant to section 7(c) of the Natural Gas Act authorizing the sale for resale of natural gas in interstate commerce to Texas Eastern Transmission Corporation (Texas Eastern) by authorizing Petitioner to continue such sale of gas for an additional one-year period, all as more fully set forth in the petition to amend which is on file with the Commission and open to public inspection.

By the order of May 18, 1973, Petitioner was authorized to sell natural gas to Texas Eastern for a period of one year from the end of a 60-day emergency period within the contemplation of § 2.70 of the Commission's general policy and interpretations (18 CFR 2.70) at a rate of 45.0 cents per Mcf at 15.025 psia, subject to upward and downward Btu adjustment from a base of 1,000 Btu per cubic foot. Petitioner now requests authorization to extend the term of such sale to Texas Eastern of approximately 2,000 Mcf of gas per day for an additional year at a price of 59.0 cents per Mcf, subject to the same Btu adjustments as described above, pursuant to the terms of an amendatory agreement between Petitioner and Texas Eastern dated March 25, 1974.

Any person desiring to be heard or to make any protest with reference to said petition to amend should on or before May 25, 1974, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding.

Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

KENNETH F. PLUMB,
Secretary.

[Docket No. RP72–157]

CONSOLIDATED GAS SUPPLY CORP.

Notice of Proposed Changes In FPC Gas Tariff

APRIL 26, 1974.

Take notice that Consolidated Gas Supply Corporation (Consolidated), on April 16, 1974, tendered for filing Substitute Twenty-Fourth Revised Sheet No. 8 of its FPC Gas Tariff, First Revised Volume No. 1, pursuant to its PGA clause for rates to be effective May 1, 1974. Consolidated states that the substitute tariff sheet reflects revisions made in the rates of its pipeline suppliers.

Consolidated states that its filing reflects changes under three sections of its PGA clause:

a. Rate increase reflecting pipeline supplier increases.

b. Rate increase reflecting producer supplier increases.

c. Change to its surcharge to reflect the Unrecovered Purchased Gas Cost account and flow through of supplier refunds.

Consolidated states that the proposed rate change includes the effect of increases from Texas Eastern Transmission Corporation and Texas Gas Transmission Corporation both to be effective May 1, 1974, and increases paid for gas purchased from producer suppliers which increased rates will be in effect by May 1, 1974. Consolidated states that the effect of the proposed rate change for these supplier increases is an annual increase to jurisdictional revenues of $3.0 million. Consolidated further proposes a surcharge credit of 0.17¢/Mcf to be in effect May 1, 1974 through October 31, 1974 to reflect the amounts accumulated in the Unrecovered Purchased Gas account for the period August 1973 through January 1974, the jurisdictional portion of refunds received by Consolidated from its suppliers for the same six-month period, and a carry-over balance from the surcharge credit filed March 15, 1973, effective May 1, 1973 through October 31, 1973.

According to Consolidated, copies of this filing were served upon its jurisdictional customers, as well as interested state commissions.

An person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE, Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before May 8, 1974. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Persons presently parties to this proceeding need not file additional petitions to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. CP74–113; Docket No. CI74–276]

CONSOLIDATED GAS SUPPLY CORP. ET AL.

Notice Deferring Procedural Dates and Changing Prehearing Conference

APRIL 24, 1974.

On April 18, 1974, Consolidated Gas Supply Corporation, CNG Producing Company and Consolidated Natural Gas Company filed a motion for advancement of the prehearing conference fixed by order issued April 15, 1974 in the above-designated matter, and deferral of evidentiary submissions pending such conference.

The motion states that Staff Counsel and intervener Rochester Gas & Electric Corporation have expressed agreement in the motion.

Upon consideration, notice is hereby given that the prehearing conference shall be held on May 6, 1974, at 2 p.m. (EDT) in a Hearing Room of the Federal Power Commission, 825 N. Capitol Street, NE, Washington, D.C. The other procedural dates are deferred pending further notice.

Errata Notice

APRIL 17, 1974.

In the Order Providing for Hearing on and Suspension of Proposed Changes in Rates, and Allowing Rate Changes to Become Effective Subject to Refund issued April 12, 1974 and published in the FEDERAL REGISTER April 22, 1974, 39 FR 14249, Appendix "A", Page 14249, Change "Docket No. RI74–157" to "Docket No. RI74–204"; Change "Docket No. RI74–158" to "Docket No. RI74–205" and Change "Docket No. RI74–159" to Docket No. RI74–206."

KENNETH F. PLUMB,
Secretary.

[FR Doc.74–10132 Filed 5–2–74;8:45 am]

[Docket No. CI74–547]

HNG OIL CO.

Notice of Application

APRIL 26, 1974.

Take notice that on March 28, 1974, HNG Oil Company (Applicant), P.O. Box 767, Midland, Texas 79701, filed in Docket No. CI74–547 an application pursuant to Section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce to Valley Gas Transmission, Inc. (Valley Gas), from the La Huerta Field, Duval County, Texas, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant states that it commenced the sale of natural gas on November 30, 1973, within the contemplation of § 157.29 of the regulations under the Natural Gas Act (18 CFR 157.29) and proposes to continue said sale for a period of one year from the end of the emergency period within the contemplation of § 2.70 of the Commission's general policy and interpretations (18 CFR 2.70). Applicant proposes to sell approximately 500 Mcf of gas per day to Valley Gas at 45.0 cents per Mcf at 14.65 psia, subject to upward and downward Btu adjustment. Initial upward Btu adjustment is estimated to be 0.45 cent per Mcf.

Any person desiring to be heard or to make any protest with reference to said application should on or before May 18, 1974, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[Docket No. E–8736]

THE KANSAS POWER AND LIGHT CO.

Notice of Tariff Change

APRIL 26, 1974.

Take notice that The Kansas Power and Light Company (KPL) on April 17, 1974 tendered for filing proposed changes in its Rate Schedule FPC No. 123 with Supplements.

The proposed changes are the filing of supplemental initial rate schedules to provide Central Kansas Power Company, Inc. (CKP) forty-four (44) megawatts of participation power service from KPL's generation facilities for the period June 1, 1974 through May 31, 1975.

Copies of the filing were served on CKP and on the State Corporation Commission of Kansas.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE, Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before May 6, 1974. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

METROPOLITAN EDISON CO.

Further Extension of Time and Postponement of Prehearing Conference and Hearing

APRIL 24, 1974.

On April 12, 1974, Staff Counsel filed a motion for a further extension of the procedural dates fixed by notice issued March 15, 1974, in the above-designated matter. The motion states that there are no objections to this motion.

Upon consideration, notice is hereby given that the procedural dates in the above matter are further modified as follows:

Staff's Service of Testimony, May 10, 1974.
Intervener's Service of Testimony, May 24, 1974.
Prehearing Conference, May 28, 1974 (10 a.m. EDT).

V 39 I 87 MAY 3 74 XUM

Service of Company Rebuttal, June 11, 1974. Hearing, June 25, 1974 (10 a.m. EDT).

[Docket No. CI74-559]

MIDWEST OIL CORP.

Notice of Application

APRIL 26, 1974.

Take notice that on April 10, 1974, Midwest Oil Corporation (Applicant), 1700 Broadway, Denver, Colorado 80202, filed in Docket No. CI74-559 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce to El Paso Natural Gas Company (El Paso) from the South Carlsbad Field, Eddy County, New Mexico, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant states that it commenced the 60-day emergency sale of natural gas to El Paso on July 2, 1973, pursuant to § 157.29 of the regulations under the Natural Gas Act (18 CFR 157.29). Applicant further states that it filed on July 13, 1973, an application for a limited-term certificate within the contemplation of § 2.70 of the Commission's general policy and interpretations (18 CFR 2.70) which it withdrew by motion filed by November 13, 1973, upon promulgation of the Commission's Order 491-B in Docket No. RM74-3 (50 FPC), and thereupon initiated sales pursuant to the 180-day emergency provisions of § 157.29, as amended by Commission Order 491 (50 FPC).

Applicant proposes to continue said sale until May 1, 1975, within the contemplation of § 2.70 at 52 cents per Mcf at 14.65 psia, subject to upward and downward Btu adjustment. The contract, submitted by Applicant as its FPC gas rate schedule, provides for the sale of all available gas, estimated to be 5,000 Mcf per day initially. The sample billing statement submitted by Applicant pursuant to § 154.92(b) of the regulations under the Natural Gas Act (18 CFR 154.-92(b)) shows estimated sales during the first month of service to be 8,550 Mcf of gas.

Any person desiring to be heard or to make any protest with reference to said application should on or before May 20, 1974, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the Commission finds that a grant of the certificate and permission and approval for the proposed abandonment are required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[Docket No. E-8610]

NEVADA POWER CO.

Interchange Agreement

APRIL 26, 1974.

Take notice that on January 28, 1974, Nevada Power Company (Applicant) filed with the Federal Power Commission an executed Interchange Agreement, dated January 23, 1974, between Applicant and the Department of Water and Power of the City of Los Angeles, California. Said agreement covers the exchange of power and energy between the parties. The application states that this Interchange Agreement replaces an Exchange Agreement between the parties, filed with the Commission on June 6, 1972, which expired October 31, 1973. The effective date of the Interchange Agreement is stated to be November 1, 1973.

Applicant requests that the Commission waive the thirty day notice requirement of the Commission's Regulations in order that they might transfer spinning reserves.

Any person desiring to be heard or to make any protest with reference to said application should on or before May 16, 1974, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules. The application is on file with the Commission and available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Project No. 2482]

NIAGARA MOHAWK POWER CORP.

Order Providing for Hearing and Prescribing Procedures

APRIL 26, 1974.

Application was filed on June 19, 1972, by Niagara Mohawk Power Corporation, Licensee for the Hudson River Project No. 2482, for amendment of its license to abandon, retire and remove the Fort Edward Development from the Hudson River Project.

An imminent danger existed at the time that the Fort Edward timber crib dam, built in 1898, might fail with the next seasonal flood flows with resultant adverse impact to downstream navigation, private property and river ecology. We, therefore, granted the application before us in an order issued June 14, 1973, which amended the license to provide for the dam's removal in accordance with the procedures set out in the order. Our order required in part that the Licensee adhere to all applicable safety, health, and environmental standards.[1] The Licensee was also required by our order to take all reasonable measures necessary to prevent river siltation or other forms of water or air pollution resulting from removal of the Fort Edward Development.[2]

On February 20, 1974, a letter from the New York District, Corps of Engineers, was received by our New York Regional Office. In its letter, the Corps noted that the State of New York, Department of Environmental Conservation (DECON) has alleged that as a result of the removal of the dam, a substantial amount of material, formerly upstream of the structure, has been deposited downstream in the channel of the Hudson River and in the navigable channel of the New York Barge Canal, leading to the terminal at the Village of Fort Edward. DECON further stated that the accumulated silt and other material has created a potential flood hazard at the Village of Fort Edward.

The Commission's Secretary wrote to the Licensee on March 6, 1974, concerning the matters raised by the Corps and DECON in their earlier correspondence. On March 27, 1974, the Licensee responded that it had taken all reasonable measures within the intendment of Article 39. The Licensee, at the same time, enclosed copies of a telegram from the New York District, Corps of Engineers, which stated that as much as 100,000 cubic yards have already been deposited downstream in the vicinity of Fort Edward and pose a threat to the village of Fort Edward by flooding and to safe navigation in the navigable waters of the United States. The Corps further stated that it appears that the measures taken by the Licensee were ineffective to prevent river siltation as a consequence of the dam's removal.

Recent staff investigations indicate that Lock No. 7 of Champlain Canal, operated by the New York State Barge Canal System, is presently inoperative. It has also been brought to our attention by Region II, Environmental Protection Agency, that a potential health hazard may exist at Fort Edward caused by the backup of the sewage system. In addition, we are aware that there is currently pending in the State courts of New York a suit brought by the State against the Licensee, alleging, inter alia, the Licensee's failure to comply with its permit from DECON for removal of the dam.

On April 22, 1974, we received a letter from the Corps which stated that the Department of the Army (Army) had originally concurred in the amendment of the license, understanding at the time that the Licensee would remove accumulated silt from the river upstream of the dam, citing Article 39 in support of its proposition. The Corps asserted that deposition of these materials in the vicinity of Fort Edward has resulted in the "blockage of navigation, a public health hazard, and a potential flood hazard * * *" It is the position of the Corps and Army that the Commission should take appropriate steps to require Niagara Mohawk to comply with the conditions of the operating license as amended and to require Niagara Mohawk to remove * * * the accumulated silt which has created the problems * * *" The Corps further stated that it was prepared to present evidence on the existing situation and make recommendations for appropriate resolution of the problems it cited.

In view of the possibility of imminent flooding at the time of the spring thaw and the potential health hazard, we need not wait for the filing of a formal complaint. In any event, we will provide for an immediate hearing on our own motion. The purpose of the hearing will be to determine whether the Licensee has complied with our order of June 14, 1973, amending the license, in all material respects. The hearing ordered hereinafter will not be limited in scope to an examination of the provisions of Article 39, alone, but will consider Licensee's responsibilities in this matter in the light of the entire license, as amended, particularly Articles 36-41. The hearing should also consider whether the Commission pursuant to section 10(c) of the Federal Power Act, should adopt any rules or regulations for Project No. 2482 for the protection of life, health, and property. The hearing, or at least a portion of it, is to be held at or near the Village of Fort Edward for the convenience of parties.

The Commission finds: (1) In view of the factual assertions made, a question is raised as to the Licensee's compliance with the terms and conditions of its license; therefore, it is appropriate and in the public interest to hold a public hearing as provided herein respecting matters raised regarding the removal of the Fort Edward Dam. At the hearing Licensee should be required to present evidence showing compliance with the terms and conditions of its license and others should have a reasonable opportunity to present evidence to the contrary. The hearing should also consider evidence for the purpose of determining whether under section 10(c) of the Federal Power Act the Commission should promulgate rules and regulations for Project No. 2482 for the protection of life, health, and property.

(2) In order to make it convenient for them to participate in the hearing ordered herein we should give the following entities notice of this proceeding: U.S. Corps of Engineers, U.S. Department of Interior, U.S. Department of Justice, Environmental Protection Agency, U.S. Department of Health, Education and Welfare, DECON, New York State Department of Health, New York Department of Law, New York Department of Transportation, Hudson River Valley Commission, Town of Moreau, Town of Fort Edward, Village of Fort Edward, Scott Paper Company, Local No. 1 of the United Paper Makers International Union AFL-CIO, Local No. 673 of the United Brotherhood of Carpenters and Joiners of America AFL-CIO, Local No. 389 of the International Brotherhood of Electrical Workers AFL-CIO and Local No. 773 of the United Association of Plumbers and Steamfitters of the United States and Canada AFL-CIO.[3]

The Commission orders: (A) Pursuant to the authority contained in and subject to jurisdiction conferred upon the Federal Power Commission by the Federal Power Act, particularly sections 10(c), 308 and 309 thereof, and the Commission's rules of practice and procedure, a public hearing shall be held respecting the matters involved and issues presented in this proceeding.

(B) The purpose of the hearing shall be to obtain facts regarding the removal of the Fort Edward dam and the accumulation of material in the channel of the Hudson River and in the navigable channel of the New York Barge Canal, leading to the terminal at the Village of Fort Edward, for the determination of whether Niagara Mohawk Power Corporation has complied with its license as amended by our order of June 14, 1973, providing, inter alia, the removal of the Fort Edward dam, and the Federal Power Act, particularly section 10(c) (16 U.S.C. § 803(c)).

(C) A copy of this order is to be served on each of the entities noted in paragraph (2) above, and they are invited to participate in this proceeding by filing petitions to intervene.

(D) In order to demonstrate the measures it has taken to effect compliance with the requirements of its license, as amended, Licensee shall submit its testimony and exhibits in writing by May 16, 1974. All other parties desiring to file testimony and exhibits relating to the issues herein will file such testimony and exhibits by May 16, 1974. Witnesses shall be subject to cross-examination upon the opening of the hearing commencing at 9:30 a.m., on May 29, 1974, and continuing thereafter until completed at a location to be determined and noticed by the Presiding Administrative Law Judge. Rebuttal testimony, if any, will be presented immediately after the close of the direct case, in oral or written form, as the Presiding Administrative Law Judge, in his discretion, may order.

By the Commission.

[Docket Nos. E–8446, E–8598]

PENNSYLVANIA ELECTRIC CO.

Order Accepting Initial Rate Schedule for Filing, Instituting an Investigation Under Section 206, Consolidating Proceedings, and Granting Waiver of Notice Requirements

APRIL 26, 1974.

On January 17, 1974, as completed on March 12, 1974, Pennsylvania Electric Company (Penelec) tendered for filing an initial service agreement with West Penn Power Company (West Penn) under Penelec's FPC Electric Tariff and Tariff Rate Schedule RP. The service agreement was designated: Pennsylvania Electric Company, Service Agreement under FPC Electric Tariff Original Volume No. 1; Supplement to Service Agreement, Exhibit C; and Supplement to Supplement to Service Agreement, Facilities Charge. The rates to be charged West Penn by Penelec are those reflected in the Tariff Rate Schedule RP [1] plus an annual facilities charge of $20,610.

The term of the service agreement between Penelec and West Penn is from the date Penelec's facilities commence operations until December 31, 1976, subject to automatic renewal each year with a two year termination period. Penelec expected the facilities which would supply the power under the proposed agreement in Docket No. E–8598 to be finished in mid-April, and consequently, Penelec requested waiver of § 35.3 of the Commission's regulations to permit the agreement to become effective when the facilities were operational.

Notice of the filing was issued on January 30, 1974, with comments, protests, or petitions to intervene due on or before February 14, 1974. No comments or petitions to intervene have been received.

Our review of the filing in Docket No. E–8598 indicates it raises certain issues which may require development in an evidentiary proceeding. The rates, charges, and terms and conditions of service contained in the initial rate schedule have not been shown to be just and reasonable and may be unjust, unreasonable, unduly discriminatory or preferential or otherwise unlawful. Accordingly, we shall accept the initial agreement for filing and institute a section 206 investigation thereof and prescribe appropriate procedural dates. Moreover, for good cause shown, we shall grant Penelec's request for waiver of our notice requirements to permit the agreement with West Penn to become effective when the facilities for service are operational.

Due to the fact that certain issues of law and fact in Docket No. E–8446 are the same in this docket, we shall consolidate those dockets for purposes of hearing and decision. In light of this action, we shall revise the procedural dates in Docket No. E–8446 as set forth below.

The Commission finds: (1) It is necessary and proper in the public interest and to aid in the enforcement of the Federal Power Act that the Commission institute an investigation pursuant to section 206 on the terms and conditions of Penelec's proposed service agreement with West Penn.

(2) Good cause exists to grant waiver of § 35.3 of the Commission's regulations.

(3) Good cause exists to consolidate Docket No. E–8446 and E–8598 for purposes of hearing and decision.

The Commission orders: (A) Pursuant to the authority of section 206 of the Federal Power Act, an investigation to determine whether the proposed initial service agreement between Penelec and West Penn is just and reasonable and is hereby instituted.

(B) Docket Nos. E–8598 and E–8446 are consolidated for the purposes of hearing and decision.

(C) The procedural dates in Docket No. E–8446 as established in the notice issued by the Secretary of the Federal Power Commission on February 21, 1974, are hereby superseded by the procedural dates hereinafter established in the consolidated proceeding.

(D) On or before May 24, 1974, the Company shall serve its prepared testimony and exhibits concerning the proposed service agreement in Docket No. E–8598. The prepared testimony and exhibits of the Commission Staff shall be served on or before June 24, 1974. Prepared testimony and exhibits of any intervenors shall be served on or before July 8, 1974. The Company's Rebuttal Evidence shall be served on or before July 22, 1974. At 10 a.m., e.s.t., on August 6, 1974, a hearing for purposes of cross-examination of the evidence shall commence in a hearing room of the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426.

(E) A Presiding Administrative Law Judge shall preside at the hearing authorized by this order, shall prescribe relevant procedural matters not herein provided, and shall control this proceeding in accordance with the policies expressed in the Commission's rules of practice and procedure.

(F) Penelec's initial service agreement is accepted for filing to become effective upon the date service is initiated.

(G) Penelec's request for waiver of the notice requirements of § 35.3 of the Commission's regulations is hereby granted.

By the Commission.

[SEAL] KENNETH F. PLUMB, *Secretary.*

[FR Doc.74–10129 Filed 5–2–74;8:45 am]

[1] The revised Tariff Rate Schedule RP and associated fuel cost adjustment as proposed by Penelec on October 12, 1973, in Docket No. E–8446 have been suspended for 5 months to become effective May 12, 1974, subject to refund. The rates applicable to West Penn in the instant filing are the current rates being charged the wholesale customers of Penelec and the revised rates will apply after the end of the suspension period.

[Docket No. E–8727]

PENNSYLVANIA POWER CO.

Initial Rate Schedule

APRIL 26, 1974.

Take notice that on April 12, 1974 Pennsylvania Power Company (PPC) tendered for filing an initial rate schedule for its proposed Emergency Oil Conservation Tariff. The tariff is for service during off-peak hours which will be provided to any utility interconnected with the PPC. The basis of the rate is out-of-pocket cost with an add-on to cover investment for both generation and transmission facilities for service from the company's generating stations.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE, Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before May 6, 1974. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB, *Secretary.*

[Docket No. RP74–39–10]

TEXAS EASTERN TRANSMISSION CORP. AND TOWN OF SMYRNA, TENN.

Order Granting Temporary Emergency Relief, Granting Interventions, Providing for Hearing and Establishing Procedures

APRIL 26, 1974.

On March 19, 1974, the Town of Smyrna, Tennessee (Smyrna) filed a petition for emergency relief pursuant to § 1.7(b) of the Commission's rules of practice and procedure.[1] Smyrna requests that the Commission issue an order requiring its sole supplier of natural gas, Texas Eastern Transmission Corporation (TETCO), to increase its Annual Quantity Entitlement (AQE) from 156,828 Mcf to 290,620 Mcf. In addition, Smyrna requests that the Commission grant temporary relief pendente lite allowing Smyrna to take volumes up to 290,620 Mcf for the twelve months ending August 31, 1974.

Smyrna claims that its AQE as stated in Texas Eastern's currently effective tariff is inadequate to serve its actual requirements. Smyrna was afforded an opportunity to present and substantiate any additional existing requirements not included in its AQE before the prehearing conference on August 28, 1972, when the settlement agreement containing the AQE's was put into the record. However, evidence was not presented by Smyrna until September 12, 1972, when it stated that its AQE should be 290,620 Mcf rather than 156,828 Mcf.

The settlement agreement which was approved by the Commission on December 1, 1972, included the 156,828 Mcf figure. Smyrna requested rehearing based on its late evidence and rehearing was denied by Commission Order issued January 24, 1973. In that Order, the Commission stated that Smyrna's request for an increased AQE was denied but stated that Smyrna could file for extraordinary relief under § 1.7(b) of the Commission's rules if it experienced unusual problems. On April 27, 1973, Smyrna did file for emergency relief stating that it would exhaust its AQE before the end of the contract year, August 31, 1973. Smyrna requested in its petition that its AQE be increased to 177,175 Mcf. By June 1, 1973, Smyrna succeeded in arranging an emergency exchange of gas with another distributor and its petition for relief was therefore dismissed as moot by Commission order issued August 1, 1973, in Docket No. CP73–310. Smyrna purchased a total of 182,546 Mcf for the year ending August 31, 1973.

In its current petition, Smyrna states once more that its AQE is inadequate to supply loads which were connected or committed during the AQE base period (twelve months ending March 31, 1972). Smyrna claims it will exhaust its current AQE of 156,828 Mcf by early May, 1974. If no relief is granted Smyrna will become liable for penalty charges on all volumes it takes after exhausting its AQE. Thus Smyrna will have to curtail high priority loads or pay penalty charges of $3.00 per Mcf.

Smyrna lists the following adjustments which it claims should have been made to its base period sales:

60,000 Mcf	Dixie Concrete Company
52,000 Mcf	Lane Cedar Chest Company
21,792 Mcf	Tennessee Farmers Co-op
133,792 Mcf	Additional gas required

Smyrna alleges that it made a commitment to sell gas to Dixie Concrete Company in 1970 and that the plant did not come on line until December, 1972. Smyrna states that the Lane Cedar Chest Company requested 52,000 Mcf of natural gas per year in order to meet environmental standards. No date is given for a commitment by Smyrna to this company. Smyrna claims that the Tennessee Farmers Co-op (Co-op) should be allotted an additional 21,792 Mcf since it used only 38,208 Mcf during the base period because of equipment failure and thus, the Co-op's normal annual requirement is 60,000 Mcf. Therefore, Smyrna concludes that its AQE should be set at 290,620 Mcf.

Smyrna further states that based on its historical purchase patterns, it will consume at least 189,109 Mcf by August 31, 1974. Smyrna claims that it expects to purchase less than the 290,620 Mcf requested since it has refused to serve all of its prior committed load and since some of this load has not attained full usage levels due to delays in construction.

Public notice of Smyrna's petition was given on April 4, 1974, with protests and petitions to intervene due on April 17, 1974. The following parties have filed petitions to intervene:

Algonquin Gas Transmission Company
Boston Gas, *et al.*
Columbia Gas Transmission Corporation
Consolidated Edison Company of New York, Inc.
General Motors Corporation
Texas Eastern Transmission Corporation [2]

Columbia Gas Transmission Corporation requests a formal hearing. Columbia further requests that Smyrna be required to amend its petition to conform to the new § 2.78(a)(11) of part 2 of the Commission's general rules added by Commission Order No. 467–C issued on April 4, 1974, in Docket No. R–469.

Under these circumstances good cause has been shown to require TETCO to increase Smyrna's AQE by 32,281 Mcf to 189,109 Mcf, Smyrna's estimated consumption for the twelve months ending August 31, 1974. This grant of relief shall expire on August 31, 1974, or on the date on which a final decision is reached in this docket, whichever first occurs. The volumes of gas received by Smyrna pursuant to this temporary grant of relief may be subject to payback in full or in part pending the outcome of this proceeding.

We shall not require Smyrna to amend its petition to conform to the requirements of Order No. 467–C. That order is prospective in nature and we will not require parties filing petitions prior to the date of its issuance to meet its requirements. Smyrna shall, however, be required to submit, at the formal hearing, evidence to substantiate its claims that the volumes sought in its petition for relief were committed prior to the AQE base year.

The Commission finds: (1) Good cause has been shown to partially grant the relief requested by Smyrna on a temporary basis as hereinafter ordered.

[1] Smyrna filed a separate petition for emergency relief in Docket No. RP74–39–5 on December 28, 1973, for service to the Sewart Air Force Base area. This area is served from a separate delivery point of Texas Eastern and therefore the subject petition is independent of the petition of Smyrna for the Sewart area.

[2] The petition of Texas Eastern Transmission Corporation was filed out of time.

V 39 I 87 MAY 3 74 XUM

(2) Good cause exists to set the proceedings in Docket No. RP74–39–10 for formal hearing.

(3) The participation of each party named above who has petitioned to intervene in these proceedings may be in the public interest.

(4) Although the petition to intervene of Texas Eastern Transmission Corporation was not timely filed, good cause exists to allow that party to intervene since permitting the intervention will not be the basis of delay in these proceedings.

The Commission orders: (A) Texas Eastern shall increase Smyrna's AQE by 32,281 Mcf to 189,109 Mcf until August 31, 1974, or until the date on which a final decision is reached in this docket, whichever first occurs.

(B) The volumes of natural gas taken by Smyrna pursuant to this temporary grant of emergency relief may be subject to payback in full or in part pending the outcome of this proceeding.

(C) Pursuant to the authority of the Natural Gas Act, the Commission's Rules of Practice and Procedure, and the Regulations under the Natural Gas Act, a public hearing shall be held on May 28, 1974, at 10 a.m., in a hearing room of the Federal Power Commission, 825 North Capitol Street, NE, Washington, D.C. 20426, concerning the North Alabama petition.

(D) On or before May 14, 1974, Smyrna and all parties supporting Smyrna's request shall serve with the Commission and upon all parties to the proceeding including Commission Staff their testimony and exhibits in support of their position.

(E) As part of its case in support of its petition, Smyrna shall present evidence to substantiate its claims that the volumes it seeks in its petition for relief were committed prior to the AQE base year.

(F) An Administrative Law Judge to be designated by the Chief Administrative Law Judge for this purpose, shall preside at the hearing in this proceeding and shall prescribe relevant procedural matters not herein provided.

(G) Each party named above who has petitioned to intervene in this proceeding is hereby permitted to intervene, subject to the rules and regulations of the Commission; *Provided, however,* That the participation of such intervenors shall be limited to matters affecting the rights and interests specifically set forth in the respective petitions to intervene; and *Provided, further,* That the admission of such intervenors shall not be construed as recognition that they or any of them might be aggrieved because of any order or orders issued by the Commission in this proceeding.

By the Commission.

[SEAL] KENETH F. PLUMB,
Secretary.

[FR Doc.74–10127 Filed 5–2–74;8:45 am]

FEDERAL RESERVE SYSTEM

CENTRAN BANCSHARES CORP.

Acquisition of Protective Loan Corp.

Centran Bancshares Corporation, Cleveland, Ohio, a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval, under section 4(c)(8) of the Act and § 225.4(b)(2) of the Board's Regulation Y, to acquire all of the voting shares of the successor by merger to Protective Loan Corporation, Albany, New York ("Protective"), a company that engages in the activity of making personal installment loans and, through two wholly-owned subsidiaries, Reed Agency, Inc., and Protective Credit Corporation, both of Albany, New York, engages as agent in the sale of credit life insurance in connection with extensions of credit by Protective and in the purchase of personal installment contracts for goods and services.[1] Such activities have been determined by the Board to be closely related to banking (12 CFR 225.4(a)(1) and (9)). The company into which Protective is to be merged has no significance except as a means to facilitate the acquisition of voting shares of Protective. Accordingly, the proposed acquisition of shares of the successor organization is treated herein as the proposed acquisition of shares of Protective.

Notice of the application, affording opportunity for interested persons to submit comments and views on the public interest factors, has been duly published (39 FR 4694). The time for filing comments and views has expired, and none has been timely received. The Board has considered the application in the light of the public interest factors set forth in section 4(c)(8) of the Act (12 U.S.C. 1843(c)).

Applicant controls five banks with aggregate deposits of $1.4 billion.[2] Applicant also controls three nonbanking subsidiaries, two of which are consumer finance companies engaged in the making and servicing of personal installment loans, while the third subsidiary makes loans on the basis of second mortgages and secured consumer financing.

Protective had receivables of $6.9 million as of year end 1972. Of this amount, less than $50,000 was the result of the purchase of personal sales installment contracts. Protective operates a total of 11 offices within a 60-mile radius of Albany, New York. Such offices make personal loans of up to $2,500 to individuals.

There is no existing competition between any of Applicant's subsidiaries and Protective since the closest office of any subsidiary of Applicant is over 300 miles from an office of Protective. Nor does it appear that Protective has a dominant position in any of the communities in which it operates. In fact, except for the Albany area, Protective is one of the smaller consumer finance companies in each of the areas in which it operates. Even in Albany where it ranks as the third largest finance company, Protective is much smaller than the area's two largest finance companies which together have over 50 percent of the receivables outstanding of all finance companies in the area. Additionally, many of the smaller consumer finance companies operating in Albany are affiliates of large national concerns and are strong competitors. Moreover, several commercial banks also compete for personal installment loans so that Protective's position in the Albany area is not as strong as its rank among consumer finance companies may indicate. Applicant would not gain a substantial market position through its acquisition of Protective. The Board concludes, therefore, that consummation of the proposed acquisition would have no adverse effects on existing or potential competition in personal installment loans. Moreover, there is no evidence in the record indicating that consummation of the proposed acquisition would result in any undue concentration of resources, unfair competition, conflicts of interest, or unsound banking practices. Furthermore, due to the limited nature of both Protective's insurance activities and its purchase of personal installment loans, it does not appear that Applicant's acquisition of these activities would have any adverse effects.

Applicant's acquisition of Protective should ensure the latter a more stable and larger flow of funds which would enable it to provide increased competition for the larger consumer finance companies and commercial banks located in the area. Moreover, Applicant's experience in the consumer finance business should enable Protective to improve the efficiency of its operations. Thus, the affiliation of Protective with Applicant should result in some public benefits.

Based upon the foregoing and other considerations reflected in the record, the Board has determined that the balance of the public interest factors the Board is required to consider under section 4(c)(8) is favorable. Accordingly, the application is hereby approved. This determination is subject to the conditions set forth in § 225.4(c) of Regulation Y and to the Board's authority to require such modification or termination of the activities of a holding company or any of its subsidiaries as the Board finds necessary to ensure compliance with the provisions and purposes of the Act and the Board's regulations and orders issued thereunder or to prevent evasion thereof.

The transaction shall be made not later than three months after the effective date of this Order unless such period is extended for good cause by the Board or by the Federal Reserve Bank of Cleveland pursuant to delegated authority.

Effective: April 26, 1974.

By order of the Board of Governors.[3]

[SEAL] CHESTER B. FELDBERG,
Secretary of the Board.

[FR Doc.74–10124 Filed 5–2–74;8:45 am]

[1] Hereinafter Protective and its wholly-owned subsidiaries will be referred to as a group by the name of Protective.

[2] All banking data are as of June 30, 1973.

UNITED TENNESSEE BANCSHARES CORP.

Acquisition of United Tennessee Life Insurance Co.

United Tennessee Bancshares Corporation, Memphis, Tennessee, a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval under section 4(c)(8) of the Act and § 225.4(b)(2) of the Board's Regulation Y to acquire all of the voting shares of United Tennessee Life Insurance Company ("Company"), Phoenix, Arizona, a company to be organized de novo to engage in the underwriting, as reinsurer, of credit life and credit accident and health insurance in connection with extensions of credit by Applicant's banking subsidiaries. Such activity has been determined by the Board to be closely related to banking (12 CFR 225.4(a)(10)).

Notice of the application, affording opportunity for interested persons to submit comments and views on the public interest factors, has been duly published (39 FR 4816). The time for filing comments and views has expired, and none has been timely received. The Board has considered the application in light of the public interest factors set forth in section 4(c)(8) of the Act (12 U.S.C. 1843(c)).

Applicant controls five banks with aggregate deposits of $513.2 million, representing about 5 percent of total deposits in commercial banks in Tennessee.[1] Company will be formed under Arizona law as a full reserve life insurance company. Since Company will be qualified to underwrite insurance directly only in Arizona, its activities will be limited to acting as reinsurer of credit life and credit accident and health insurance policies made available in connection with extensions of credit by Applicant's banking subsidiaries located in Tennessee. Such insurance will be directly underwritten by an insurer qualified to underwrite in Tennessee and will thereafter be assigned or ceded to Company under a reinsurance agreement. The direct underwriter will provide certain technical assistance to Company in its operations.

Credit life and credit accident and health insurance is generally made available by banks and other lenders and is designed to assure repayment of a loan in the event of death or disability of a borrower. In connection with its addition of credit life and credit accident and health underwriting to the list of permissible activities for bank holding companies the Board stated that:

> To assure that engaging in the underwriting of credit life and credit accident and health insurance can reasonably be expected to be in the public interest, the Board will only approve applications in which an applicant demonstrates that approval will benefit the consumer or result in other public benefits. Normally, such a showing would be made by a projected reduction in rates or increase in policy benefits due to bank holding company performance of this service.

Applicant has stated that it will provide credit life insurance at rates to consumers at about 7 percent below the maximum rate authorized by State law and will offer credit accident and health insurance at a 5 percent reduction from the maximum authorized by State law. Applicant has also indicated that it will liberalize some of the eligibility exclusions traditionally found in contracts of this type. The Board believes that the reducing of costs of and narrowing of exclusions from credit life and credit accident and health insurance policies offered by Applicant are considerations favorable to the public interest. The Board concludes, therefore, that such public benefits, in the absence of any evidence in the record indicating the presence of any adverse statutory factors, provide support for approval of the application.

Based upon the foregoing and other considerations reflected in the record, the Board has determined that the balance of the public interest factors the Board is required to consider under section 4(c)(8) is favorable. Accordingly, the application is hereby approved. This determination is subject to the conditions set forth in § 225.4(c) of Regulation Y and to the Board's authority to require such modification or termination of the activities of a holding company or any of its subsidiaries as the Board finds necessary to assure compliance with the provisions and purposes of the Act and the Board's regulations and orders issued thereunder or to prevent evasion thereof.

The transaction shall be made not later than three months after the effective date of this order unless such period is extended for good cause by the Board or by the Federal Reserve Bank of Atlanta pursuant to delegated authority.

Effective: April 26, 1974.

By order of the Board of Governors.[2]

[SEAL] CHESTER B. FELDBERG,
Secretary of the Board.

NASA RESEARCH AND TECHNOLOGY ADVISORY COUNCIL COMMITTEE ON GUIDANCE, CONTROL AND INFORMATION SYSTEMS

Notice of Meeting

The NASA Research and Technology Advisory Council, Committee on Guidance, Control and Information Systems will meet on May 21–22, 1974, at NASA Headquarters, Washington, DC 20546. The meeting will be held in Room 521J of Federal Office Building 10B, 600 Independence Avenue, SW. Members of the public will be admitted to the meeting, beginning at 9:00 a.m. on May 21, on a first-come, first-served basis up to the seating capacity of the room which is about 25 persons.

The NASA Research and Technology Advisory Council, Committee on Guidance, Control and Information Systems, serves in an advisory capacity only. The current Chairman is Dr. Barry W. Boehm. There are 12 members. The following list sets for the approved agenda and schedule for the May 21–22, 1974, meeting of the Guidance, Control and Information Systems Committee. For further information, please contact Dr. Peter R. Kurzhals, Area Code 202, 755–2385.

MAY 21, 1974

Time	*Topic*
9 a.m.	Chairman's and Executive Secretary's Reports. (Purpose: To review results of Council meetings, and examine features and outlook of the Guidance, Control and Information Systems organization and program plans.)

V 39 N 87 MAY 3 74 XUM

Time	Topic
10:15 a.m.	Long Life Component Technology. (Purpose: To review plans for developing reliable, long-life electronic circuit arrays and obatin Committee comments on those plans.)
1 p.m.	Optical Communications Experiment. (Purpose: To examine plans for a joint NASA/DOD optical communications experiment with the objective of obtaining Committee comments for NASA consideration.)
2:30 p.m.	Standardized Aerospace Software. (Purpose: To review plans for developing common, modular software for aerospace computer applications and obtain Committee recommendations on program content and structure.)
3:30 p.m.	Civil Aircraft Computer Systems. (Purpose: To report progress in highly reliable computer technology development and obtain Committee comments on plans for hardware demonstration.)
MAY 22, 1974	
8:30 a.m.	Active Control Configured Transport. (Purpose: To describe plans for demonstrating active control technology in a civil transport aircraft with the objective of obtaining Committee comments for NASA consideration.)
9:30 a.m.	Digital Fly By Wire. (Purpose: To report status of the digital fly-by-wire program and planned modifications to support evaluation of Shuttle avionics with the objective of obtaining Committee comments.)
10:30 a.m.	Committee Deliberations and Recommendations. (Purpose: To review deliberations on previously listed agenda items, identify additional items which the Committee considers of significant interest to NASA, and develop Committee comments and formal recommendations for submission to NASA.)
12:30 p.m.	Adjournment.

BOYD C. MYERS II,
Assistant Associate Administrator for Organization and Management, National Aeronautics and Space Administration.

ADVISORY PANEL FOR PSYCHOBIOLOGY

Notice of Meeting

Pursuant to the Federal Advisory Committee Act (Pub. L. 92-463), notice is hereby given of a meeting of the Advisory Panel for Psychobiology to be held at 9 a.m. on May 23 and 24, 1974, in Room 543 at 1800 G Street NW., Washington, D.C. 20550.

The purpose of the Panel is to provide advice and recommendations as part of the review and evaluation process for specific proposals and projects. The agenda will be devoted to the review and evaluation of research proposals.

This meeting is concerned with matters which are within the exemptions of 5 U.S.C. 552(b) and will not be open to the public in accordance with the determination by the Director of the National Science Foundation dated December 17, 1973, pursuant to the provisions of section 10(d) of Pub. L. 92-463.

Individuals requiring further information about this Panel may contact Dr. Jacob Beck, Program Director, Psychobiology Program, Room 333, 1800 G Street, NW., Washington, D.C. 20550.

T. E. JENKINS,
Assistant Director for Administration.

OFFICE OF MANAGEMENT AND BUDGET

CLEARANCE OF REPORTS

List of Requests

The following is a list of requests for clearance of reports intended for use in collecting information from the public received by the Office of Management and Budget on April 30, 1974 (44 U.S.C. 3509). The purpose of publishing this list in the FEDERAL REGISTER is to inform the public.

The list includes the title of each request received; the name of the agency sponsoring the proposed collection of information; the agency form number, if applicable; the frequency with which the information is proposed to be collected; the name of the reviewer or reviewing division within OMB, and an indication of who will be the respondents to the proposed collection.

The symbol (x) identifies proposals which appear to raise no significant issues, and are to be approved after brief notice through this release.

Further information about the items on this Daily List may be obtained from the Clearance Office, Office of Management and Budget Washington, D.C. 20503 (202-395-4529).

SECURITIES AND EXCHANGE COMMISSION

[812-3600]

AETNA FUND, INC. ET AL.

Filing of Application for Exemption From the Certain Provisions

APRIL 29, 1974

Notice is hereby given that Aetna Fund, Inc. and Aetna Income Shares, Inc. (collectively referred to as "Funds"), diversified, open-end, management investment companies registered under the Investment Company Act of 1940 (the "Act"), and Aetna Financial Services, Inc. ("Aetna Financial"), 151 Farmington Ave., Hartford, Conn. (06115), a wholly-owned subsidiary of Aetna Life and Casualty Company of Hartford, Connecticut ("Aetna") and the principal underwriter of both of the Funds (collectively referred to with Funds as "Applicants"), have filed an application pursuant to section 6(c) of the Act for an order granting an exemption from section 22(d) of the Act to the extent specified therein. All interested persons are referred to the application on file with the Commission for a statement of the representations therein, which are summarized below.

Section 22(d) of the Act provides, in pertinent part, that no registered investment company or principal underwriter shall sell any redeemable security to any person except at a current public offering price described in the prospectus. Shares of both Funds are currently offered to the public at a price based on net asset value plus a sales charge that varies with the quantity of securities purchased. The maximum sales charge, expressed as a percentage of the public offering price, is 8.50 percent.

Applicants request an exemption from section 22(d) of the Act to permit the application of the proceeds of life insurance or annuity contracts, issued by Aetna or any company organized and operated as a life insurance company under applicable state law and controlled by Aetna, whether such proceeds are payable on death or otherwise, to the purchase of shares of either of the Funds at a sales charge that would be one-half the sales charge described in the prospectus of each Fund.

The reduced sales charge which would be applicable is as follows:

Total Investment in either fund at public offering price	*Sale Charge as Percentage of Offering Price*
0 less than $10,000	4.25
$10,000 but less than $25,000	3.75
$25,000 but less than $50,000	3.00
$50,000 but less than $100,000	2.50
$100,000 but less than $250,000	2.00
$250,000 but less than $500,000	1.50
$500,000 but less than $1,000,000	1.00
$1,000,000 and over	0.50

Applicants assert that the solicitation costs and sales efforts involved in sales of this type will be markedly reduced as compared with sales to new prospects and that the proposed exemption presents no significant threat to the orderly distribution of redeemable investment company securities. Premiums paid to Aetna on the insurance contracts constituting the source of the insurance proceeds applied to the purchase of shares of the Aetna Funds will already have been subjected to sales charges. Accordingly, Applicants assert that the requested exemption does not involve unfair discrimination and is, in fact, necessary to avoid unnecessary and inequitable duplication of sales charges to purchasers of this class.

Section 6(c) of the Act provides, in part, that the Commission, by order upon application, may conditionally or unconditionally exempt any class or classes of persons, securities, or transactions, from any provision or provisions of the Act, if and to the extent such exemption is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.

Applicants represent that the exemption requested from the provisions of section 22(d) of the Act is necessary and appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.

Notice is further given that any interested person may, not later than May 20, 1974, submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request, and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon Applicants at the address stated above. Proof of such service (by affidavit, or in the case of an attorney-at-law, by certificate) shall be filed contemporaneously with the request. As provided by Rule 0-5 of the Rules and Regulations promulgated under the Act, an order disposing of the application will be issued as of course following May 20, 1974, unless the Commission thereafter orders a hearing upon request or upon the Commission's own motion. Persons who request a hearing or advice as to whether a hearing is ordered, will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Investment Management Regulation, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,
Secretary.

[FR Doc.74-10249 Filed 5-2-74;8:45 am]

[File No. 500-1]

BBI, INC.

Notice of Suspension of Trading

APRIL 26, 1974.

The common stock of BBI, Inc., being traded on the American Stock Exchange and the Philadelphia-Baltimore-Washington Stock Exchange pursuant to provisions of the Securities Exchange Act of 1934 and all other securities of BBI, Inc., being traded otherwise than on a national securities exchange; and

It appearing to the Securities and Exchange Commission that the summary suspension of trading in such securities on such exchanges and otherwise than on a national securities exchange is required in the public interest and for the protection of investors;

Therefore, pursuant to sections 19(a)(4) and 15(c)(5) of the Securities Exchange Act of 1934, trading in such securities on the above mentioned exchange and otherwise than on a national securities exchange is suspended, for the period from April 29, 1974 through May 8, 1974.

By the Commission.

CENTRAL POWER AND LIGHT CO.

Proposed Issue and Sale of First Mortgage Bonds at Competitive Bidding

APRIL 26, 1974.

Notice is hereby given that Central Power and Light Company ("CP&L"), 120 North Chapparel St., Corpus Christi, Texas 78403, an electric utility subsidiary company of Central and South West Corporation ("Central"), a registered holding company, has filed a declaration with this Commission pursuant to the Public Utility Holding Company Act of 1935 ("Act"), designating sections 6(a) and 7 of the Act and Rule 50 promulgated thereunder as applicable to the proposed transaction. All interested persons are referred to the declaration, which is summarized below, for a complete statement of the proposed transaction.

CP&L proposes to issue and sell, subject to the competitive bidding requirements of Rule 50 under the Act, $40,000,000 principal amount of First Mortgage Bonds, Series N, to be dated June 1, 1974,

V 39 I 87 MAY 3 74 XUM

and to mature June 1, 2004 (the "bonds"). The interest rate (which will be multiple of ⅛ of 1 percent) and the price (which will not be less than 99 percent nor more than 102.75 percent of the principal amount of the bonds, exclusive of the accrued interest to be added to such price) will be determined by competitive bidding. The bonds will be issued and secured by CP&L's Indenture of Mortgage or Deed of Trust, dated November 1, 1943, to the First National Bank of Chicago and R. R. Manchester (successor Co-Trustee), as Trustees, as amended by the indentures supplemental thereto heretofore executed (the "Mortgage"), and to be further amended by a Supplemental Indenture to be dated June 1, 1974, which contains a prohibition until June 1, 1979, against refunding the issue with the proceeds of funds borrowed at a lower effective interest cost, except under certain debt retirement provisions of the Mortgage.

The proceeds to be derived by CP&L from the sale of the bonds (exclusive of accrued interest and after deducting expenses of issue) will be used to finance a part of the costs of additions, extensions, betterments and improvements made and to be made to its electric utility properties, including the payment of approximately $14,000,000 of short-term notes incurred or expected to be incurred by CP&L in connection with the interim financing of its construction expenditures. The proposed construction expenditures of CP&L for the calendar years 1974 and 1975 are presently estimated at $115,691,000 and $84,102,000, respectively. It is proposed to authenticate the bonds against approximately $24,435,000 of matured CP&L Series A bonds and approximately $25,941,667 of available unused net expenditures for bondable property of CP&L.

The fees and expenses to be paid by CP&L in connection with the issue and sale of the bonds are estimated to total $95,000, including legal fees of $18,500. The fees and expenses of legal counsel for the successful bidders, to be paid by the successful bidders, are estimated at $12,850. It is stated that no state commission and no federal commission, other than this Commission, has jurisdiction over the proposed transaction.

Notice is further given that any interested person may not later than May 24, 1974, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said declaration which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon the declarant at the above-stated address, and proof of service (by affidavit or, in case of attorney at law, by certificate) should be filed with the request. At any time after said date, the declaration, as filed or as it may be amended, may be permitted to become effective as provided in Rule 23 of the General Rules and Regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered, will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

[SEAL] GEORGE A. FITZSIMMONS,
Secretary.

DELCAP ENERGY FUND, INC.

Application for Order Declaring That Company Has Ceased To Be an Investment Company

APRIL 29, 1974.

NOTICE IS HEREBY GIVEN that Delcap Energy Fund, Inc. ("Applicant"), 901 Market St., Wilmington, Del. 19801 registered as an open-end, diversified management investment company under the Investment Company Act of 1940 ("Act"), has filed an application pursuant to section 8(f) of the Act for an order of the Commission declaring that Applicant has ceased to be an investment company as defined in the Act. All interested persons are referred to the application on file with the Commission for a statement of the representations set forth therein, which are summarized below.

Applicant was organized as a Delaware corporation on September 15, 1970, and registered under the Act on October 19, 1972, by filing a Form N-8A Notification of Registration. Applicant also filed a Registration Statement under the Securities Act of 1933 ("1933 Act") on December 1, 1972. This 1933 Act Registration Statement never became effective, and on March 7, 1974, the Commission consented to its withdrawal. Applicant represents that due to unfavorable market conditions it has never offered its shares to the public.

As of February 15, 1974, Applicant had total assets of approximately $87,200 and 26 shareholders. All of these shareholders are either officers, directors or members of the research department of Applicant. Applicant has no public shareholders and has no intention of offering its securities for sale to the public.

Section 3(c)(1) of the Act excepts from the definition of investment company any issuer whose outstanding securities are beneficially owned by not more than 100 persons, and which is, not making and does not presently propose to make a public offering of its securities.

Section 8(f) of the Act provides, in pertinent part, that when the Commission, upon application, finds that a registered investment company has ceased to be an investment company, it shall so declare by order, and upon the effectiveness of such order the registration of such company shall cease to be in effect.

Notice is further given that any interested person may, not later than May 21, 1974, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request, and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon the Applicant at the address stated above. Proof of such service (by affidavit, or in case of an attorney-at-law, by certificate) shall be filed contemporaneously with the request. As provided by Rule 0-5 of the rules and regulations promulgated under the Act, an order disposing of the application herein will be issued as of course following May 21, 1974, unless the Commission thereafter orders a hearing upon request or upon the Commission's own motion. Persons who request a hearing or advice as to whether a hearing is ordered will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Investment Management Regulation, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,
Secretary.

(6) Assistant District Director for Finance and Investment
(7) District Supervisory Loan Specialist (Financing Division)
(8) District Supervisory Loan Specialist (Portfolio Management)
(9) Chief, Financing Division (Richmond and Washington District Offices only)
(10) Chief, Loan Administration Division (Richmond and Washington District Offices only).

4. To approve minor modifications in fully undisbursed loan authorizations:

District Loan Specialist (Financing Division)

5.—a. To extend the disbursement period on *all* loan authorizations:

(1) Assistant Regional Director for Finance and Investment
(2) Regional Loan Specialist
(3) District Director
(4) Branch Manager
(5) Assistant Branch Manager
(6) Assistant District Director for Finance and Investment

b. To extend the disbursement period on all loan authorizations on loans fully undisbursed:

(1) District Supervisory Loan Specialist (Financing Division)
(2) Chief, Financing Division (Richmond and Washington District Offices only)

c. To extend the disbursement period on all loan authorizations on loans partially disbursed:

(1) District Supervisory Loan Specialist (Portfolio Management)
(2) Chief, Loan Administration Division (Richmond and Washington District Offices only)

6. To approve service charges by participating banks not to exceed 2 percent per annum on the outstanding principal balance of construction loans and loans involving accounts receivable and inventory financing:

(1) Assistant Regional Director for Finance and Investment
(2) Regional Loan Specialist
(3) District Director
(4) Assistant District Director for Finance and Investment
(5) District Supervisory Loan Specialist (Financing Division)—fully undisbursed loans
(6) Chief, Financing Division (Richmond and Washington District Offices only)—fully undisbursed loans
(7) District Supervisory Loan Specialist (Portfolio Management)—partially undisbursed loans
(8) Chief, Loan Administration Division (Richmond and Washington District Offices only)—partially undisbursed loans

PART II—DISASTER PROGRAM

SECTION A.—DISASTER LOAN AUTHORITY

1. To decline direct disaster and immediate participation disaster loans in any amount and to approve such loans up to the total SBA funds of (1) $50,000 per household for repairs or replacement of the home and/or not to exceed an additional $10,000 allowable for household goods and personal items, but in no event may the money loaned for physical loss or damage exceed $55,000 for a single disaster on home loans, except for funds to refinance prior liens or mortgages, which may be approved in addition to the foregoing limits for amounts up to $50,000; and (2) $500,000 on disaster business loans (excluding displaced business loans, coal mine health and safety, occupational safety and health, strategic arms limitation economic injury, and economic injury disaster loans in connection with declarations made by the Secretary of Agriculture for natural disasters) except to the extent of refinancing of a previous SBA disaster loan:

(1) Assistant Regional Director for Finance and Investment
(2) Regional Loan Specialist
(3) District Director
(4) Assistant District Director for Finance and Investment
(5) District Supervisory Loan Specialist (Financing Division)
(6) Chief, Financing Division (Richmond and Washington District Offices only)
(7) Disaster Branch Manager
(8) Assistant Disaster Branch Manager

2. To decline direct disaster and immediate participation disaster loans (excluding displaced business loans, coal mine health and safety, occupational safety and health, strategic arms limitation economic injury, and economic injury disaster loans in connection with declarations made by the Secretary of Agriculture for natural disasters) in any amount and to approve such loans up to the total SBA funds of $50,000:

(1) Assistant Regional Director for Finance and Investment
(2) Regional Loan Specialist
(3) District Director
(4) Assistant District Director for Finance and Investment
(5) District Supervisory Loan Specialist (Financing Division)
(6) Chief, Financing Division (Richmond and Washington District Offices only)
(7) Disaster Branch Manager
(8) Assistant Disaster Branch Manager

3. To decline disaster guaranteed loans in any amount and to approve such loans up to an SBA guarantee of the following amounts:

(1) Assistant Regional Director for Finance and Investment	$1,000,000
(2) Regional Loan Specialist	1,000,000
(3) District Director	500,000
(4) Assistant District Director for Finance and Investment	500,000
(5) District Supervisory Loan Specialist (Financing Division	500,000
(6) Chief, Financing Division (Richmond and Washington District Offices only)	500,000
(7) Disaster Branch Manager	500,000
(8) Assistant Disaster Branch Manager	500,000

4. To appoint as a processing representative any Bank in the disaster area:

(1) Assistant Regional Director for Finance and Investment
(2) Regional Loan Specialist
(3) District Director
(4) Assistant District Director for Finance and Investment
(5) Disaster Branch Manager

5. To approve or reject the request of an applicant to file for a disaster loan after the period for acceptance under the original disaster declaration, or extension thereof, has expired:

(1) Assistant Regional Director for Finance and Investment
(2) Regional Loan Specialist
(3) District Director

SECTION B—ADMINISTRATIVE AUTHORITY

1. *Establishment of Disaster Field Offices.* (a) To establish field offices upon receipt of advice of the designation of a disaster area and to close disaster field offices when no longer advisable to maintain such offices; and (b) to obligate the Small Business Administration to reimburse the General Services Administration for the rental of temporary office space.

(1) Assistant Regional Director for Finance and Investment
(2) Assistant Regional Director for Administration
(3) Regional Loan Specialist
(4) District Director

2. *Purchase and Contract Authority.* a. To contract for local credit bureau services and loss verification services pursuant to Chapter 4 of Title 41, United States Code, as amended, subject to the limitations contained in section 257 (a) and (b) of that chapter.

(1) Assistant Regional Director for Finance and Investment
(2) Regional Loan Specialist
(3) District Director
(4) Disaster Branch Manager

b. To purchase office supplies and equipment, including office machines and regular office equipment and furnishings; contract for repair and maintenance of equipment and furnishings; contract for printing (Government sources only); contract for services required in setting up, dismantling and moving SBA exhibits; and issue Government bills of lading pursuant to Chapter 4 of Title 41, United States Code, as amended, subject to the limitations contained in section 257 (a) and (b) of that chapter.

(1) Assistant Regional Director for Finance and Investment
(2) Regional Loan Specialist
(3) Regional Administrative Officer (Bala Cynwyd, Pa. office)
(4) District Director

PART III—COMMUNITY ECONOMIC DEVELOPMENT (CED) PROGRAM

a. Up to the following amounts (SBA share):

None

b. Up to the following amounts (SBA share) when project cost does not exceed $1,000,000: *Provided*, The official concurs in at least one prior recommendation:

(1) Assistant Regional Director for Finance and Investment	$350,000
(2) Regional Loan Specialist	350,000

c. Up to the following amounts (SBA share) when project cost does not exceed $700,000: *Provided*, The official concurs in at least one prior recommendation:

(1) District Director	$350,000

SECTION B—OTHER 501 AND 502 AUTHORITY

1. a. To extend the disbursement period on sections 501 and 502 loan authorizations:

(1) Assistant Regional Director for Finance and Investment
(2) Regional Loan Specialist
(3) District Director

V 39 I 87 MAY 3 74 XUM

(4) Assistant District Director for Finance and Investment

b. To extend the disbursement period on fully undisbursed sections 501 and 502 loans:

(1) Assistant Regional Director for Finance and Investment
(2) Regional Loan Specialist
(3) District Director
(4) Assistant District Director for Finance and Investment

2. a. To execute sections 501 and 502 loan authorizations for loans approved by higher authority and for loans personally approved under delegated authority:

(1) District Director
(2) Assistant District Director for Finance and Investment

3. a. To cancel, reinstate, modify and amend authorizations for sections 501 and 502 loans:

(1) Assistant Regional Director for Finance and Investment
(2) Regional Loan Specialist
(3) District Director
(4) Assistant District Director for Finance and Investment

b. To cancel, reinstate, modify and amend authorizations for fully undisbursed or partially disbursed sections 501 and 502 loans:

(1) Assistant Regional Director for Finance and Investment
(2) Regional Loan Specialist
(3) District Director
(4) Assistant District Director for Finance and Investment

4. To enter into section 502 loan participation agreements with banks:

(1) Assistant Regional Director for Finance and Investment
(2) Regional Loan Specialist
(3) District Director
(4) Assistant District Director for Finance and Investment

SECTION C.—LEASE AND SURETY GUARANTEE APPROVAL AUTHORITY

1. To approve or decline applications for the direct guarantee of payment of rent not to exceed the following amounts:

(1) Assistant Regional Director for Finance and Investment	$1,000,000
(2) Regional Loan Specialist	1,000,000
(3) District Director	500,000

2. To guarantee sureties of small businesses against portions of losses resulting from the breach of bid, payment, or performance bonds on contracts not to exceed $500,000:

(1) Assistant Regional Director for Finance and Investment
(2) Regional Loan Specialist

SECTION D.—OTHER LEASE GUARANTEE AUTHORITY

1. a. To issue and modify commitment letters:

(1) Assistant Regional Director for Finance and Investment
(2) Regional Loan Specialist
(3) District Director
(4) Assistant District Director for Finance and Investment

SECTION E.—EDA LOAN DISBURSEMENT AUTHORITY

1. a. To disburse approved EDA loans, as authorized:

(1) Regional Counsel
(2) Regional Office Attorney
(3) District Counsel
(4) District Office Attorney

PART IV—PORTFOLIO MANAGEMENT (PM) PROGRAM

SECTION A.—PORTFOLIO MANAGEMENT, SERVICING, COLLECTION AND LIQUIDATION AUTHORITY

1. To take all necessary actions in connection with the administration, servicing, collection and liquidation of all loans, exclusive of matters in litigation, and to do and perform and to assent to the doing and performance of, all and every act and thing requisite and proper to effectuate the granted powers, including without limiting the generality of the foregoing, the assignment, endorsement, transfer and delivery (but in all cases without representation, recourse, or warranty) of notes, claims, bonds, debentures, mortgages, deeds of trust, contracts, patents and applications therefor, licenses, certificates of stock and of deposit, and any other liens, powers, rights, charges on and interest in or to property of any kind, legal and equitable, now or hereafter held by the Small Business Administration or its Administrator; the execution and delivery of contracts of sale or of lease or sublease, quitclaim, bargain and sale of special warranty deeds, bills of sale, leases, subleases, assignments, subordination, release (in whole or part) of liens, satisfaction pieces, affidavits, and such other instruments in writing as may be appropriate and necessary to effectuate the foregoing; the approval of bank applications for use of liquidity privilege under the loan guaranty plan; and to advertise regarding the public sale of collateral in connection with the liquidation of loans, and acquired property;

a. Except: To compromise or sell any primary obligation or other evidence of indebtedness owed to the Agency for a sum less than the total amount due thereon; and to deny liability of the Small Business Administration under the terms of a participation or guaranty agreement, or the assertion of a claim for recovery from a participating bank under any alleged violation of a participation or guaranty agreement;

(1) Assistant Regional Director for Finance and Investment
(2) Regional Loan Specialist
(3) District Director
(4) Assistant District Director for Finance and Investment
(5) District Supervisory Loan Specialist (Portfolio Management)
(6) Chief, Loan Administration Division (Richmond District and Washington District Offices only)

b. Except: To compromise or sell any primary obligation or other evidence of indebtedness owed to the Agency for a sum less than the total amount due thereon; to deny liability of the Small Business Administration under the terms of a participation or guaranty agreement, or the assertion of a claim for recovery from a participating bank under any alleged violation of a participation or guaranty agreement; to authorize the liquidation of a loan; and the cancellation of authority to liquidate:

(1) Branch Manager
(2) Assistant Branch Manager

c. Except: To compromise or sell any primary obligation or other evidence of indebtedness owed to the Agency for a sum less than the total amount due thereon; to deny liability of the Small Business Administration under the terms of a participation or guaranty agreement, or the assertion of a claim for recovery from a participating bank under any alleged violation of a participation or guaranty agreement; to authorize the liquidation of a loan other than a disaster home loan and the cancellation of authority to liquidate any loan other than a disaster home loan.

None

2. To contract for the services of fee appraisers, engineering, marketing and feasibility studies, and other required services, in conjunction with loan processing, servicing and loan liquidation:

(1) Assistant Regional Director for Finance and Investment
(2) Regional Loan Specialist
(3) District Director
(4) Assistant District Director for Finance and Investment
(5) District Supervisory Loan Specialist (Portfolio Management)
(6) Chief, Loan Administration Division (Richmond and Washington District Offices only)

3. To take all necessary action in liquidating Economic Development Administration (EDA) loans, exclusive of matters in litigation, and acquired collateral, when and as authorized by EDA:

(1) Assistant Regional Director for Finance and Investment
(2) Regional Loan Specialist
(3) District Director
(4) Assistant District Director for Finance and Investment
(5) District Supervisory Loan Specialist (Portfolio Management)
(6) Chief, Loan Administration Division (Richmond and Washington District Offices only)

SECTION B—PORTFOLIO MANAGEMENT, SERVICING AND COLLECTION AUTHORITY

1. To take all necessary actions in connection with the administration, servicing, and collection of all loans, other than those accounts classified as "in liquidation" and to do and perform and to assent to the doing and performance of, all and every act and thing requisite and proper to effectuate the granted powers, including without limiting the generality of the foregoing, the assignment, endorsement, transfer and delivery (but in all cases without representation, recourse, or warranty) of notes, claims, bonds, debentures, mortgages, deeds of trust, contracts, patents and applications therefor, licenses, certificates of stock and of deposit, and any other liens, pow-

ers, rights, charges on an interest in or to property of any kind, legal and equitable, now or hereafter held by the Small Business Administration or its Administrator; the execution and delivery of contracts of sale or of lease or sublease, quitclaim, bargain and sale of special warranty deeds, bills of sale, leases, subleases, assignments, subordinations, releases (in whole or part), of liens, satisfaction pieces, affidavits, and such other instruments in writing as may be appropriate and necessary for use of liquidity privilege under the loan guaranty plan;

a. Except: To compromise or sell any primary obligation or other evidence of indebtedness owed to the Agency for a sum less than the total amount due thereon; and to deny liability of the Small Business Administration under the terms of a participation or guaranty agreement, or the assertion of a claim for recovery from a participating bank under any alleged violation of a participation or guaranty agreement; to authorize the liquidation of a loan; and the cancellation of authority to liquidate:

None

2. To approve the following actions:

a. Use of such portions of the cash surrender value of assigned life insurance as are required to pay premiums due on the policy.

b. Release of dividends on assigned life insurance or consent to application of dividends against premiums due or to become due.

c. Minor modifications in the authorization.

d. Extension of disbursement period on loans partially undisbursed.

e. Extension of initial principal payments.

f. Adjustment of interest payment dates.

g. Release of hazard insurance checks not in excess of $500 and endorsement of such checks on behalf of the Agency where SBA is named as joint loss payee.

h. Release of equipment with or without consideration where the value of equipment being released does not exceed $500.

(1) Concerning all current direct and participation loans and First Mortgage Plan 502 loans:

District Loan Officer (Portfolio Management)

(2) Concerning all direct and participation loans:

None

SECTION C—LEASE GUARANTEE ADMINISTRATION AND SERVICING AUTHORITY

1. a. To service claims arising under all lease insurance policies issued in the region, approving the payment, or recommending denial of such claims:

(1) Assistant Regional Director for Finance and Investment
(2) Regional Loan Specialist

b. To service claims arising under all lease insurance policies issued in the district, approving the payment, or recommending denial of such claims:

(1) District Director
(2) Assistant District Director for Finance and Investment
(3) District Supervisory Loan Specialist (Portfolio Management)
(4) Chief, Loan Administration Division (Richmond and Washington District Offices only)

c. To service claims arising under all lease insurance policies issued in the branch office area, approving the payment or recommending denial of such claims:

None

2. To take all actions necessary to mitigate losses from lease guarantees:

a. Issued in the region:

(1) Assistant Regional Director for Finance and Investment
(2) Regional Loan Specialist

b. Issued in his district:

(1) District Director
(2) Assistant District Director for Finance and Investment
(3) District Supervisory Loan Specialist (Portfolio Management)
(4) Chief, Loan Administration Division (Richmond and Washington District Offices only)

PART V—PROCUREMENT ASSISTANCE

SECTION A—CERTIFICATE OF COMPETENCY APPROVAL AUTHORITY

1. With the exception of re-referred cases, to approve applications for certificates of Competency up to but not exceeding $250,000 bid value received from small business concerns located within the geographical jurisdiction of the following:

None

2. To deny an application for a Certificate of Competency when an adverse determination as to capacity or credit is concurred in:

Assistant Regional Director for Procurement Assistance

SECTION B—SECTION 8 (A) CONTRACTING AUTHORITY

1. To enter into contracts, not exceeding the following amounts, on behalf of the Small Business Administration with the U.S. Government and any department, agency, or officer thereof having procurement powers, obligating the Small Business Administration to furnish articles, equipment, supplies, or materials to the Government and agreeing as to the terms and conditions of such contracts:

(1) Assistant Regional Director for Procurement Assistance	$100,000

2. To arrange for the performance of such contracts by negotiating or otherwise letting subcontracts to small business concerns or others for the manufacture, supply, or assembly of such articles, equipment, supplies, or materials, or parts thereof, or servicing or processing in connection therewith, or such management services as may be necessary to enable the Small Business Administration to perform such contracts:

(1) Assistant Regional Director for Procurement Assistance

3. To certify to any officer of the Government having procurement powers that the Small Business Administration is competent to perform any specific Government procurement contract to be let by any such officer:

(1) Assistant Regional Director for Procurement Assistance

PART VI—MANAGEMENT ASSISTANCE

SECTION A—SECTION 406 CONTRACT MANAGEMENT AUTHORITY

1. To take all necessary actions in connection with the administration and management of contracts, executed by the Associate Administrator for Financial Assistance under the authority granted in Section 406 of the Economic Opportunity Act of 1964, as amended, except changes, amendments, modifications, or termination of the original contract:

(1) Assistant Regional Director for Management Assistance

PART VII—LEGAL SERVICES

SECTION A—AUTHORITY TO CONDUCT LITIGATION ACTIVITIES

1. To conduct all litigation activities, including SBIC matters, as assigned, and to take all action necessary in connection with matters in litigation; and to do and perform and to assent to the doing and performance of, all and every act and thing requisite and proper to effectuate the granted powers, including without limiting the generality of the foregoing:

a. The assignment, endorsement, transfer and delivery (but in all cases without representation, recourse, or warranty) of notes, claims, bonds, debentures, mortgages, deeds of trust, contracts, patents and application therefor, licenses, certificates of stock and of deposit, and any other liens, powers, rights, charges, on and interest in or to property of any kind, legal and equitable, now or hereafter held by the Small Business Administration or its Administrator, as to all matters in litigation.

b. The execution and delivery of contracts of sale or of lease or sublease, quitclaim, bargain and sale of special warranty deeds, bills of sale, leases, subleases, assignments, subordinations, releases (in whole or part) of liens, satisfaction pieces, affidavits, proofs of claim in bankruptcy or other estates, and such other instruments in writing as may be appropriate and necessary to effectuate the foregoing, as to matters in litigation.

(1) Except: To compromise or sell any primary obligation or other evidence of indebtedness owed to the Agency for a sum less than the total amount due thereon; and to deny liability of the Small Business Administration under the terms of a participation or guaranty agreement, or the assertion of a claim for recovery from a participating bank under any alleged violation of a participation or guaranty agreement:

V 39 I 87 MAY 3 74 XUM

(1) Regional Counsel

(2) Except: To compromise or sell any primary obligation or other evidence of indebtedness owed to the Agency for a sum less than the total amount due thereon; to deny liability of the Small Business Administration under the terms of a participation or guaranty agreement, or the assertion of a claim for recovery from a participating bank under any alleged violation of a participation or guaranty agreement; to authorize the liquidation of a loan and the cancellation of authority to liquidate:

(1) District Counsel
(2) Branch Counsel

2. To conduct all litigation activities, including SBIC matters, as assigned, and to take all action necessary in connection with matters in litigation, and to do and perform and to assent to the doing and performance of, all and every act and thing requisite and proper to effectuate the granted powers, with the exception of the following, which are reserved to regional and district counsel:

a. The assignment, endorsement, transfer and delivery of notes, claims, bonds, debentures, mortgages, deeds of trust, contracts, patents and applications therefor, licenses, certificates of stock and of deposit, and any other liens, powers, rights, charges, on and interest in or to property of any kind, legal and equitable, now or hereafter held by the Small Business Administration or its Administrator, as to all matters in litigation.

b. The execution and delivery of contracts of sale or of lease or sublease, quitclaim, bargain and sale of special warranty deeds, bills of sale, leases, subleases, assignments, subordinations, releases (in whole or part) of liens, satisfaction pieces, affidavits, proofs of claim in bankruptcy or other estates, and such other instruments in writing as may be appropriate and necessary to effectuate the foregoing, as to all matters in litigation:

(1) Regional Office Attorney
(2) District Office Attorney
(3) Branch Counsel
(4) Branch Office Attorney

3. To take all necessary action in liquidating Economic Development Administration (EDA) loans having litigative aspects, when and as authorized by EDA:

(1) Regional Counsel
(2) Regional Office Attorney
(3) District Counsel
(4) District Office Attorney

SECTION B—LOAN CLOSING AUTHORITY

1. To close and disburse approved SBA loans:

(1) Regional Counsel
(2) Regional Office Attorney
(3) District Counsel
(4) District Office Attorney
(5) Branch Counsel
(6) Branch Office Attorney

2. To close approved EDA loans, as authorized:

(1) Regional Counsel
(2) Regional Office Attorney
(3) District Counsel
(4) District Office Attorney

3. To approve, when requested, in advance of disbursements, conformed copies of notes and other closing documents; and certify to the participating bank that such documents are in compliance with the participation authorization:

(1) Regional Counsel
(2) Regional Office Attorney
(3) District Counsel
(4) District Office Attorney
(5) Branch Counsel
(6) Branch Office Attorney

PART VIII—ELIGIBILITY AND SIZE DETERMINATION

SECTION A—ELIGIBILITY DETERMINATIONS

1. a. In accordance with Small Business Administration standards and policies, to determine eligibility of applicants for assistance under any program of the Agency,

(1) Except: the SBIC program:

(1) Assistant Regional Director for Finance and Investment (Financial Programs)
(2) Assistant Regional Director for Procurement Assistance (Procurement Programs)
(3) Regional Loan Specialist
(4) District Director

(2) Except: The SBIC and community economic development programs:

(1) Assistant District Director for Finance and Investment
(2) District Supervisory Loan Specialist (Financing Division)

b. In accordance with Small Business Administration standards and policies, to determine eligibility of applicants for assistance under the sections 501 and 502 program of the Agency:

(1) None

SECTION B—SIZE DETERMINATION

1. a. To make initial size determinations in all cases within the meaning of the Small Business Size Standards Regulations, as amended, and further, to make product classification decisions for financial assistance purposes only:

(1) Assistant Regional Director for Finance and Investment
(2) Regional Loan Specialist

b. To make initial size determinations in all cases within the meaning of the Small Business Size Standards Regulations, as amended, and further, to make product classification decisions for financing purposes only:

(1) District Director
(2) Assistant District Director for Finance and Investment

c. To make initial size determinations in all cases within the meaning of the Small Business Size Standards Regulations, as amended, except sections 501 and 502 loans, and further, to make product classification decisions for financing purposes only:

(1) District Supervisory Loan Specialist (Financing Division)
(2) Chief, Financing Division (Richmond and Washington District Offices only)

d. To make initial size determinations in all sections 501 and 502 loans within the meaning of the Small Business Size Standards Regulations, as amended, and further, to make product classification decisions for sections 501 and 502 loans only:

None

e. Product classification decisions for procurement purposes are made by contracting officers.

PART IX—ADMINISTRATIVE

SECTION A.—AUTHORITY TO PURCHASE, RENT, OR CONTRACT FOR EQUIPMENT, SERVICES AND SUPPLIES

1. To purchase reproductions of loan documents, chargeable to the revolving fund, requested by U.S. attorneys in foreclosure cases:

(1) Assistant Regional Director for Administration
(2) District Director

2. To purchase office supplies and equipment, including office machines and rent regular office equipment and furnishings; contract for repair and maintenance of equipment and furnishings; contract for printing (Government sources only); contract for services required in setting up and dismantling and moving SBA exhibits; and issue Government bills of lading pursuant to Chapter 4 of Title 41, United States Code, as amended, subject to the limitations contained in section 257 (a) and (b) of that chapter.

(1) Assistant Reigonal Director for Administration
(2) Regional Office Services Specialist
(3) District Director

3. To rent motor vehicles and garage space for the storage of such vehicles when not furnished by this Administration.

(1) Assistant Regional Director for Administration
(2) Regional Office Services Specialist
(3) District Director

4. To rent temporarily SBA conference space except within the Metropolitan Washington area.

(1) Assistant Regional Director for Administration
(2) District Director

5. To certify true copies of any books, records, papers, or other documents on file with the Small Business Administration; to certify extracts from such material; to certify the non-existence of records on file; and to cause the Seal of the Small Business Administration to be affixed to all such certifications:

(1) District Director
(2) Branch Manager

PART X—EXERCISE OF AUTHORITY BY OFFICIAL IN AN ACTING CAPACITY AND REDELEGATION

The authority delegated herein to a specific position may not be redelegated however, such authority may be exercised by an SBA employee designated as acting in that position.

PART XI—RECISSION OF AUTHORITY

All authority previously delegated by the Regional Director to specific positions in Region III is hereby rescinded without prejudice to actions taken under all such delegations of authority prior to the effective date hereof.

Effective date: November 11, 1973.

A. M. PETERSON,
Regional Director,
Region III.

ESTABLISHMENT OF STANDARDS AND GUIDELINES FOR LENDING INSTITUTIONS

Notice of Meeting; Inquiry

Notice is hereby given of an opportunity for interested parties to participate in a meeting to be held for the purpose of obtaining public comment and suggestions for the further development of the standards and guidelines established by the Small Business Administration (SBA) for lending institutions which are not subject to regulation and supervision by either Federal or State authorities. The meeting will be held on May 17, 1974, commencing at 9:00 a.m., in the headquarters of SBA located at 1441 L Street NW., Washington, D.C. 20416. The intention is to complete the meeting in one day. An allocation of time for oral presentations will be made on the basis of the number of requests received for the presentation of oral statements. The proceedings will be conducted informally subject to the discretion of the Chairman of the meeting. Persons wishing to submit comments and suggestions in writing are hereby invited to do so whether or not they participate in the meeting.

Background. Pursuant to the Small Business Act and the Economic Opportunity Act of 1964, SBA may participate with private lending institutions in loans to eligible small business concerns. Pursuant to regulations adopted by SBA, particularly Part 120 of 13 CFR 120.3(c) (38 FR 34459), SBA participates both with lending institutions which are subject to regulation and supervision by Federal or State authorities and with lending institutions which are not subject to Federal or State regulation and supervision where such institutions qualify pursuant to standards and guidelines established by SBA.

The following are examples of topics which comment or suggestions would be appropriate:

1. In order to qualify as a nonregulated lender, it is required that the institution has been engaged in providing financial assistance to business organizations for a minimum period of time. The question is what should be the minimum period of lending experience that SBA should require from a nonregulated lender before SBA will participate with that lender in a loan to a small business concern?

2. It has been determined that the participation of a non-regulated lender in lending programs administered by SBA not be the principal lending activity of such lender. At what level should SBA establish the maximum percentage for the nonregulated lender's lending activity relating to SBA's loan programs?

3. SBA requires that a nonregulated lender participating with SBA must maintain an unimpaired capital of not less than $200,000. The question upon which public comment is invited is the extent to which this minimum capitalization requirement should be increased or other capital or reserve requirements imposed?

4. SBA's primary statutory function is to protect and assist the interests of small business concerns. SBA also seeks to encourage the development of private sources of financial assistance to the small business community by enabling and facilitating the participation of both regulated and nonregulated lending institutions in the SBA loan programs. However, SBA desires to avoid participating with private lenders in any manner that would affect SBA's freedom to administer its programs for the assistance of small business concerns. Public comment is invited on the adoption by SBA of guidelines to avoid the dependence of nonregulated lenders on SBA in a manner that would encroach upon SBA's ability to execute its statutory function, to adopt or amend its regulations, or to take administrative actions to protect the interests of the small business community and the Government.

5. How can the development of nonregulated lenders be encouraged or assisted without adversely affecting regulated lenders and without encroaching on SBA's administrative discretion?

6. Shall participating lenders, including nonregulated lenders, be permitted or be precluded from providing nonlending services for a fee to borrowers, such as the sale of insurance or providing management or consulting services?

7. Such other questions or issues in this general area that may be appropriately developed at the designated meeting.

Notification of intent to make oral presentations, and inquiries regarding this meeting, should be directed to William W. Rosenfield, Jr., Acting Director, Office of Program Development, at the above headquarters address, or by telephoning Area Code 202, 382-7164. Only one oral presentation may be made on behalf of a single party. Written comments on the above or related topics will be accepted for an additional 10 days after the date of the meeting.

Dated: May 2, 1974.

THOMAS S. KLEPPE,
Administrator.

TARIFF COMMISSION

[337-L-68]

PIEZOELECTRIC CERAMIC 10.7 MHz ELECTRIC WAVE FILTERS

Extension of Time

On November 26, 1973, the U.S. Tariff Commission issued notice of the receipt of a complaint received under section 337 of the Tariff Act of 1930, filed by the Vernitron Corporation of Bedford, Ohio alleging unfair methods of competition and unfair acts in the importation and sale of piezoelectric ceramic 10.7 MHz electric wave filters (38 FR 33127 Nov. 30, 1973). Interested parties were given until February 18, 1974, to file written views pertinent to the subject matter of a preliminary inquiry into the allegations of the complaint. The Commission has extended the time for filing written views until the close of business May 26, 1974.

By order of the Commission.

Issued: April 29, 1974.

[SEAL] KENNETH R. MASON,
Secretary.

DEPARTMENT OF LABOR

Office of the Secretary

MOUNTAIN STATES REGIONAL MANPOWER ADVISORY COMMITTEE

Notice of Meeting

The Mountain States Regional Manpower Advisory Committee will meet at the Game Lodge in Custer State Park, South Dakota on May 16 and 17, 1974. Appointed by the Secretary of Labor, the Committee makes recommendations to the Department of Labor's Assistant Regional Director for Manpower and the Department of Health, Education and Welfare's Regional Director relative to the carrying out of their duties under the Manpower Development and Training Act of 1962, as amended. Members of the Committee are chosen from representatives of labor, management, agriculture, education, training and the public at large. The chairman is J. Kenneth Davies of Brigham Young University.

At its meeting on May 16 and 17, the Mountain States Regional Manpower Advisory Committee will discuss the Comprehensive Employment and Training Act of 1973 and its implications for the role and composition of advisory bodies; review the Basic Education Opportunity Grant Program of HEW; and discuss HEW's health manpower policy.

The meeting will be held in the Game Lodge starting at 9 a.m. on May 16 and is expected to adjourn at 12 noon on May 17. The meeting will be open to the public.

V 39 87 MAY 3 74 XUM

Signed at Denver, Colorado, this 15th day of April, 1974.

ROBERT M. HUNTER,
Executive Secretary, Mountain States Regional Manpower Advisory Committee.

IRREGULAR-ROUTE MOTOR COMMON CARRIERS OF PROPERTY—ELIMINATION OF GATEWAY LETTER NOTICES

APRIL 30, 1974.

The following letter-notices of proposals to eliminate gateways for the purpose of reducing highway congestion, alleviating air and noise pollution, minimizing safety hazards, and conserving fuel have been filed with the Interstate Commerce Commission under the Commission's Gateway Elimination rules (49 CFR 1065(a)), and notice thereof to all interested persons is hereby given as provided in such rules.

An original and two copies of protests against the proposed elimination of any gateway herein described may be filed with the Interstate Commerce Commission on or before May 13, 1974. A copy must also be served upon applicant or its representative. Protests against the elimination of a gateway will not operate to stay commencement of the proposed operation.

Successively filed letter-notices of the same carrier under these rules will be numbered consecutively for convenience in identification. Protests, if any, must refer to such letter-notices by number.

No. MC-25798 (Sub-No. E1), filed April 7, 1974. APPLICANT: Clay Hyder Trucking Lines, Inc., P.O. Box 1186, Auburndale, Fla. 33823. Applicant's representative: Tony G. Russell (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Fresh vegetables* in mixed shipments with frozen citrus products or citrus products not canned and not frozen (1) from points in Florida west of the eastern boundary of Jefferson County, to points in Kentucky east of a line beginning at the Kentucky-Tennessee State line and its intersection with Florida Highway 61, thence along Florida Highway 61 to Elizabethtown, thence north along U.S. Highway 31W to its intersection with U.S. Highway 60, thence west on U.S. Highway 60 to its intersection with Kentucky Highway 79, thence north on Kentucky Highway 79 to the Kentucky-Indiana State line; (2) from points in Florida west of the eastern boundary of Jefferson County, to points in Illinois on and north of a line beginning at the intersection of U.S. Highway 460 and the Illinois-Indiana State lines, thence along U.S. Highway 460 to its intersection with U.S. Highway 40, thence west on U.S. Highway 40 to the Illinois-Missouri State line; (3) from points in Florida west of the eastern boundary of Jefferson County, to points in Indiana (except Posey, Vanderburg, Warrick, Spencer, Perry, Dubois, Gibson, and Pike Counties, Ind.); and (4) from points in Florida to points in Michigan, Minnesota, Ohio, West Virginia, and Wisconsin. The purpose of this filing is to eliminate the gateway of Henderson County, N.C.

No. MC-73616 (Sub-No. E1), filed April 24, 1974. APPLICANT: Bilkays Express Co., 100 Third Avenue, Elizabeth, N.J. 07256. Applicant's representative: J. C. Carver (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), between points in Hunterdon, Morris, Sussex, and Warren Counties, N.J., and those in Somerset County, N.J., north of the Raritan River, on the one hand, and, on the other, points in Dutchess, Orange, Putnam, Rockland, and Westchester Counties, N.Y. The purpose of this filing is to eliminate the gateway of New York, N.Y.

No. MC-95540 (Sub-No. E25), filed April 15, 1974. APPLICANT: Watkins Motor Lines, Inc., P.O. Box 1636, Atlanta, Ga. 30301. Applicant's representative: Clyde W. Carver, Suite 212, 5299 Roswell Rd. NE., Atlanta, Ga. 30342. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meats, meat products, and meat by-products*, as described in Section A of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766 (except commodities in bulk, in tank vehicles), from Dade City, Fla., to points in West Virginia. The purpose of this filing is to eliminate the gateway of Tifton, Ga.

No. MC-95540 (Sub-No. E-26), filed April 15, 1974. Applicant: WATKINS MOTOR LINES INC., P.O. Box 1636, Atlanta, Ga. 30301. Applicant's representative: Clyde W. Carver, Suite 212, 5299 Roswell Rd. NE., Atlanta, Ga. 30342. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen fruits and frozen vegetables*, from points in Florida to points in Ohio. The purpose of this filing is to eliminate the gateway of Tifton, Ga.

No. MC-95540 (Sub-No. E-34), filed April 15, 1974. Applicant: WATKINS MOTOR LINES, INC., P.O. Box 1636, Atlanta, Ga. 30301. Applicant's representative: Clyde W. Carver, Suite 212, 5299 Roswell Rd. NE., Atlanta, Ga. 30342. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen fruits* and *frozen vegetables*, from points in Florida, to points in North Dakota. The purpose of this filing is to eliminate the gateway of Tifton, Ga., and Tennessee.

No. MC-95540 (Sub-No. E38), filed April 15, 1974. APPLICANT: Watkins Motor Lines, Inc., P.O. Box 1636, Atlanta, Ga. 30301. Applicant's representative: Clyde W. Carver, Suite 212, 5299 Roswell Rd. NE., Atlanta, Ga. 30342. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen fruits* and *frozen vegetables*, from points in Florida to points in Delaware. The purpose of this filing is to eliminate the gateway of Tifton, Ga.

No. MC-95540 (Sub-No. E39), filed April 15, 1974. APPLICANT: Watkins Motor Lines, Inc., P.O. Box 1636, Atlanta, Ga. 30301. Applicant's representative: Clyde W. Carver, Suite 212, 5299 Roswell Road NE., Atlanta, Ga. 30342. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meats, meat products, and meat by-products*, as described in Section A of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766 (except commodities in bulk, in tank vehicles), from Dade City, Fla., to points in Rhode Island.

The purpose of this filing is to eliminate the gateway of Tifton, Ga.

No. MC-95540 (Sub-No. E40), filed April 15, 1974. APPLICANT: Watkins Motor Lines, Inc., P.O. Box 1636, Atlanta, Ga. 30301. Applicant's representative: Clyde W. Carver, Suite 212, 5299 Roswell Road NE., Atlanta, Ga. 30342. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen fruits and frozen vegetables*, from points in Florida on and east of U.S. Highway 231, to points in Nevada. The purpose of this filing is to eliminate the gateway of Tifton, Ga., and Tennessee.

No. MC-95540 (Sub-No. E41), filed April 15, 1974. APPLICANT: Watkins Motor Lines, Inc., P.O. Box 1636, Atlanta, Ga. 30301. Applicant's representative: Clyde W. Carver, Suite 212, 5299 Roswell Road NE., Atlanta, Ga. 30342. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen fruits and frozen vegetables*, from points in Florida to points in Michigan. The purpose of this filing is to eliminate the gateway of Tifton, Ga.

No. MC-95540 (Sub-No. E42), filed April 15, 1974. APPLICANT: Watkins Motor Lines, Inc., P.O. Box 1636, Atlanta, Ga. 30301. Applicant's representative: Clyde W. Carver, Suite 212, 5299 Roswell Road NE., Atlanta, Ga. 30342. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen fruits and frozen vegetables*, from points in Florida to points in Washington. The purpose of this filing is to eliminate the gateway of Tifton, Ga., and Tennessee.

No. MC-95540 (Sub-No. E43), filed April 15, 1974. APPLICANT: Watkins Motor Lines, Inc., P.O. Box 1636, Atlanta, Ga. 30301. Applicant's representative: Clyde W. Carver, Suite 212, 5299 Roswell Road NE., Atlanta, Ga. 30342. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meats, meat products, and meat by-products*, as described in Section A of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766 (except commodities in bulk, in tank vehicles), from Dade City, Fla., to points in Illinois. The purpose of this filing is to eliminate the gateway of Tifton, Ga.

No. MC-95540 E64, filed April 18, 1974. APPLICANT: Watkins Motor Lines, Inc., P.O. Box 1636, Atlanta, Ga. 30301. Applicant's representative: Clyde W. Carver, Suite 212–5299, Roswell Road NE., Atlanta, Ga. 30342. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meats, meat products*, and *meat by-products*, as described in Section A of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766 (except commodities in bulk, in tank vehicles), from Dade City, Fla., to points in South Carolina on and west of a line beginning at the Georgia-South Carolina State line and extending north along U.S. Highway 29 through Anderson to its intersection with Interstate Highway 85, thence along Interstate Highway 85 to Greenville, thence along U.S. Highway 25 to the Tennessee-South Carolina State line. The purpose of this filing is to eliminate the gateway of Tifton, Ga.

No. MC-95540 (Sub-No. E71), filed April 18, 1974. APPLICANT: Watkins Motor Lines, Inc., P.O. Box 1636, Atlanta, Ga. 30301. Applicant's representative: Clyde W. Carver, Suite 212, 5299 Roswell Rd. NE., Atlanta, Ga. 30342. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meats, meat products, and meat by-products* as described in Section A of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766 (except commodities in bulk, in tank vehicles), from Jacksonville, Fla., to points in Mississippi. The purpose of this filing is to eliminate the gateway of Tifton, Ga.

No. MC-95540 (Sub-No. E73), filed April 18, 1974. APPLICANT: Watkins Motor Lines, Inc., P.O. Box 1636, Atlanta, Ga. 30301. Applicant's representative: Clyde W. Carver, Suite 212, 5299 Roswell Rd. NE., Atlanta, Ga. 30342. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meats, meat products and meat by-products*, as described in Section A of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766 (except commodities in bulk, in tank vehicles), from Jacksonville, Fla., to points in Kentucky. The purpose of this filing is to eliminate the gateway of Tifton, Ga.

No. MC-95540 (Sub-No. E74), filed April 18, 1974. APPLICANT: Watkins Motor Lines, Inc., P.O. Box 1636, Atlanta, Ga. 30301. Applicant's representative: Clyde W. Carver, Suite 212, 5299 Roswell Rd. NE., Atlanta, Ga. 30342. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meats, meat products and meat by-products*, as described in Section A of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766 (except commodities in bulk, in tank vehicles), from Jacksonville, Fla., to points in Louisiana. The purpose of this filing is to eliminate the gateway of Tifton, Ga.

No. MC-95540 (Sub E75), filed April 18, 1974. Applicant: Watkins Motor Lines, Inc., P.O. Box 1636, Atlanta, Ga. 30301. Applicant's representative: Clyde W. Carver, Suite 212, 5299 Roswell Rd. NE., Atlanta, Ga. 30342. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meats, meat products, and meat by-products*, as described in Section A of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766 (except commodities in bulk, in tank vehicles), from Jacksonville, Fla., to points in Indiana. The purpose of this filing is to eliminate the gateway of Tifton, Ga.

No. MC-95540 (Sub E77), filed April 18, 1974. Applicant: Watkins Motor Lines, Inc., P.O. Box 1636, Atlanta, Ga. 30301. Applicant's representative: Clyde W. Carver, Suite 212, 5299 Roswell Rd. NE., Atlanta, Ga. 30342. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meats, meat products and meat by-products*, as described in Section A of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766 (except commodities in bulk, in tank vehicles), from Jacksonville, Fla., to points in Massachusetts. The purpose of this filing is to eliminate the gateway of Tifton, Ga.

No. MC-95540 (Sub-No. E78), filed April 18, 1974. APPLICANT: Watkins Motor Lines, Inc., P.O. Box 1636, Atlanta, Ga. 30301. Applicant's representative: Clyde W. Carver, Suite 212, 5299 Roswell Rd. NE., Atlanta, Ga. 30342. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meats, meat products, and meat by-products* as described in Section A of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766 (except commodities in bulk, in tank vehicles), from Jacksonville, Fla., to points in Maryland. The purpose of this filing is to eliminate the gateway of Tifton, Ga.

No. MC-100666 (Sub-No. E9) (CORRECTION), filed April 7, 1974, published in the Federal Register April 25, 1974. APPLICANT: Melton Truck Lines, Inc., 1129 Grimmet Drive, P.O. Box 7666, Shreveport, La. 71107. Applicant's representative: Richard W. May (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: In No. MC-100666 (Sub-No. E9).

(5) *Plastic pipe*, except oil field commodities as described by the Commission in *Mercer Extension—Oilfield Commodities*, 74 M.C.C. 459, from Slocomb, Ala., (a) to points in that part of Illinois on, north and west of a line beginning at Quincy, thence east on Illinois Highway 104 to the junction of Illinois Highway 104 and Interstate Highway 67, thence north on Interstate Highway 67 to the junction of Interstate Highway 67 and Interstate Highway 136, thence east on Interstate Highway 136 to the junction of Interstate Highway 136 and Illinois Highway 41, thence north on Illinois Highway 41 to the junction of Illinois Highway 41 and Illinois Highway 34, thence north on Illinois Highway 34 to the junction of Illinois Highway 34 and Illinois Highway 88, thence north on Illinois Highway 88 to the junction of Illinois Highway 88 and Illinois Highway 2, thence northeast on Illinois Highway 2 to the junction of Illinois Highway 2 and Illinois Highway 26, thence north on Illinois Highway 26 to the Illinois-Wisconsin State line; (b) to points in that part of Wisconsin on and west of a line beginning at the junction of Interstate Highway 90 and the Illinois-Wisconsin State line, thence north on Interstate Highway 90 to the junction of

V 39 I 87 MAY 3 74 XUM

Interstate Highway 90 and Wisconsin Highway 26, thence north on Wisconsin Highway 26 to the junction of Wisconsin Highway 26 and Interstate Highway 41, thence north on Interstate Highway 41 to the junction of Interstate Highway 41 and Wisconsin Highway 47, thence north to the junction of Wisconsin Highway 47 and the junction of Interstate Highway 51, thence north on Interstate Highway 51 to the Wisconsin-Michigan State line; (c) to points in the Upper Peninsula of Michigan. The purpose of this filing is to eliminate the gateway of Columbia, Miss.

The purpose of this correction is to indicate the origin as Slocomb, Ala., not Slocomb, Ark., as previously published. The rest of the notice remains as previously published.

No. MC–113267 (Sub-No. E1), filed April 25, 1974. APPLICANT: Central & Southern Truck Lines, 3385 Airways Blvd., Memphis, Tenn. 38116. Applicant's representative: Lawrence A. Fischer (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meats, meat products, and meat by-products, dairy products*, and *articles* distributed by meat packinghouses, as described in Sections A, B, and C of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766 (except hides and commodities in bulk, in tank vehicles), from points in Iowa (except points in Woodbury, Monona, Harrison, Shelby, Pottawattamie, Cass, Mills, Montgomery, Adams, Fremont, Page, and Taylor Counties), to Memphis, Tenn. The purpose of this filing is to eliminate the gateway of Paducah, Ky.

No. MC–115840 (Sub-No. E3), filed April 21, 1974. APPLICANT: Colonial Fast Freight, Inc., P.O. Box 10327, Birmingham, Ala. 35202. Applicant's representative: Roger M. Shaner (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Iron and steel articles* (except commodities in bulk and those used in or in connection with discovery, development, production, refining, manufacturing, processing, storage, transmission, and distribution of natural gas and petroleum and their products and by-products), from points in North Carolina and South Carolina, to points in Arkansas and Oklahoma. The purpose of this filing is to eliminate the gateway of Birmingham, Ala.

No. MC–117119 (Sub No. E1), filed April 8, 1974. APPLICANT: Willis Shaw Frozen Express, Inc., P.O. Box 188, Elm Springs, Ark. 72728. Applicant's representative: L. M. McLean (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Foodstuffs*, in truckloads of 20,000 pounds or more, from points in that part of Maryland east of the Chesapeake Bay and south of the Chesapeake and Delaware Canal to points in Arizona, California, New Mexico, and Texas. Restriction: The authority above is restricted to the transportation of the quantity indicated, when transported from one consignor to one or more consignees. (2) *Foodstuffs* (except dairy products and commodities in bulk) in truckloads of 20,000 pounds or more, from points in that part of Maryland east of the Chesapeake Bay and south of the Chesapeake and Delaware Canal to points in Idaho and Utah. [Notice No. 72.]

MOTOR CARRIER BOARD TRANSFER PROCEEDINGS

Synopses of orders entered by the Motor Carrier Board of the Commission pursuant to sections 212(b), 206(a), 211, 312(b), and 410(g) of the Interstate Commerce Act, and rules and regulations prescribed thereunder (49 CFR Part 1132), appear below:

Each application (except as otherwise specifically noted) filed after March 27, 1972, contains a statement by applicants that there will be no significant effect on the quality of the human environment resulting from approval of the application. As provided in the Commission's Special Rules of Practice any interested person may file a petition seeking reconsideration of the following numbered proceedings on or before May 23, 1974. Pursuant to section 17(8) of the Interstate Commerce Act, the filing of such a petition will postpone the effective date of the order in that proceeding pending its disposition. The matters relied upon by petitioners must be specified in their petitions with particularity.

No. MC–FC–74991. By order of April 22, 1974, the Motor Carrier Board approved the transfer to Capp Express, Inc., Pittsburgh, Pa., of Certificates of Registration Nos. MC–99772 (Sub-No. 1) and MC–99772 (Sub-No. 2) issued March 16, 1967, to Capp Trucking Company, a corporation, Pittsburgh, Pa., evidencing the authority to perform a transportation service in interstate or foreign commerce corresponding in scope to the intrastate authority granted in Docket No. 83066, Folder 3 and Folder 4 dated May 7, 1956, and in Docket No. 83066, Folder 6 dated January 16, 1967, both dockets as amended to stand in the name of Capp Trucking Company, a corporation, by order dated January 23, 1967, by the Pennsylvania Public Utility Commission. Mr. Arthur J. Diskin, Attorney at Law, 806 Frick Building, Pittsburgh, Pa. 15219.

No. MC–FC–75031. By order of March 29, 1974, the Motor Carrier Board approved the transfer to Woodrow Moore and Phillip M. Moore, a partnership, doing business as A. L. & W. Moore Trucking Company, Bossier City, La., of the operating rights in Certificate No. MC–55865 issued January 25, 1960 to Andrew Lee Moore and Woodrow Moore, a partnership, doing business as A. L. and W. Moore, Bossier City, La., authorizing the transportation of Mercer description commoditites between points in Lousiana, Arkansas, Alabama, Mississippi and Texas. Neil Dixon, 1025 Slattery Bldg., Shreveport, La., 71101 Attorney for applicants.

No. MC–FC–75069. By order of April 25, 1974, the Motor Carrier Board approved the transfer to Frank Champer, Inc., Cambridge, Mass., of Permit No. MC–94548 issued March 19, 1965, to Frank Champer, Malden, Mass., authorizing the transportation of new furniture from Everett, Somerville, and Melrose, Mass., to points in Maine, New Hampshire, Connecticut, and Rhode Island within 200 miles of the origin points. Pinta and Murphy, Attorneys at Law, One State Street, Boston, Mass. 02109.

No. MC–FC–75091. By order entered April 22, 1974, the Motor Carrier Board approved the transfer to Zephyr Line, Inc., West Springfield, Mass., of that portion of the operating rights set forth in Certificate No. MC–2051, issued December 29, 1965, to J. C. Driscoll Transportation, Inc., Chelsea, Mass., authorizing the transportation of general commodities, with the usual exceptions, between Boston, Mass., and Pittsfield, Mass., over specified routes, serving the intermediate points of Brighton, Brookline, Worcester, Northampton, Palmer, Springfield, and Westfield, Mass., and the off-route points of Holyoke, Allston, and Easthampton, Mass. Frank J. Weiner, 15 Court Square, Boston, Mass. 02108, attorney for applicants.

[Ex Parte No. 305]

RAILROAD FREIGHT CARRIERS

Nationwide Increase of Ten Percent in Freight Rates and Charges, 1974

APRIL 30, 1974.

It appearing, That on April 22, 1974, most of the nation's railroads [1] and certain water and motor carriers having joint rates with those railroads, filed a petition, accompanied by supporting verified statements, requesting the Commission to institute an investigation into the revenue needs of all carriers by railroad operating in the United States, and to make all such carriers respondent hereto, to authorize the filing of a master tariff and connecting link supplements and other necessary tariffs and supplements, fourth-section relief, and modification of all outstanding orders to the extent necessary, increasing present rates and charges within, from, to, and via all territories by 10 percent (subject to unidentified exceptions which may be warranted), to become effective on May 2, 1974, or as soon thereafter as possible, upon not less than 10 days' notice, subject to a refund rule;

It further appearing, That in view of the extraordinary request to make the proposed increase effective on May 2, 1974, or as soon thereafter as possible, upon not less than 10 days' notice, it is necessary to consider that exceptional request separately at this time;

[1] The Long Island Rail Road did not join in the petition.

V 39 I 87
MAY 3 74
XUM

It further appearing, That the proposed 10 percent increase would produce additional revenues of $1.5 billion for all railroads, $505 million in the Eastern District, $272 million in the Southern District, and $723 million in the Western District (excluding the one percent sought by the eastern and western railroads in excess of that authorized on an interim basis and presently pending in Ex Parte No. 303);

It further appearing, That the railroads' rate of return on net investment was 3.08 percent nationally, 0.56 percent in the Eastern District, 5.40 percent in the Southern District, and 4.21 percent in the Western District; and that at the proposed rates and present cost levels the respective estimated rates of return would be 5.27, 2.99, 7.48, and 6.26 percent;

It further appearing, That letters supporting the railroads' request to be authorized to make the proposed increase effective on 10 days' notice have been received from the Secretary of Transportation, the United Transportation Union, and the Brotherhood of Railway, Airline and Steamship Clerks, Freight Handlers, Express and Station Employees; and that an objection to such request has been received from the National Industrial Traffic League;

It further appearing, That the petition discloses that the railroads reached agreement on the proposal on April 3; that, however, it was not filed with the Commission until April 22, with the request that the increases be permitted to become effective on May 2 on 10 days' notice which would have required action on the petition on the day of filing; that the evidence submitted with the petition consists of 9 voluminous exhibits and 50 verified statements supporting a proposed increase totalling approximately $1.5 billion; and that it was obviously impossible to adequately consider and verify the evidence in the general public interest in less than one day;

It further appearing, that with respect to the request to make the increase effective on May 2, the petitioners claim that through publicity and the mailing of copies of the petition and supporting evidence on April 22, the date of filing with the Commission, to the parties in the last general rate increase proceeding, sufficient opportunity has been afforded the shipping public to present its views before May 2; but that, to the contrary, allowing for time in the mails for actual delivery of the petitioners' request and any shipper responses, the remainder of time available for shipper consideration of the proposal would have been wholly inadequate;

It further appearing, that concerning the alternative request to make the increase effective on 10 days' notice as soon as possible after May 2, except for the Penn Central Transportation Company (George P. Baker, Richard C. Bond, and Robert W. Blanchette, Trustees), and the Lehigh Valley Railroad Company, the emphasis of the arguments in the proposal is on the need for funds for maintenance and capital improvements; and that it is not established that irreparable harm would follow the delay necessary to permit shippers and other interested persons a fair opportunity to present their views;

It further appearing, that, the Penn Central and the Lehigh Valley urge that unless their cash flow is improved their continued operations are in peril; but that, based on monthly, weekly, and daily reports of cash positions of those carriers furnished to the Commission on a continuing basis, it does not appear that their continued operations are threatened in the time necessary to provide for public responses; and that, furthermore, under the Rail Reorganization Act of 1973, funds have been designated for interim relief to railroads in reorganizations, therefore,

It is ordered, that the petition to the extent that it requests authority to publish increases on short notice, that is to make the proposed increases effective on 10 days' notice be, and it is hereby, denied. As soon as possible, the Commission shall specify the procedures to be followed with respect to this petition in a subsequent order. In an effort to maintain orderly procedure and to avoid the filing of duplicative representations, interested parties are requested not to file any pleadings either supporting or objecting to the substance of the petition until the subsequent order has been served.

It is further ordered, that notice of this order be given by serving a copy thereof on each party to the proceeding in Ex Parte No. 303, to the Governor and public utility regulatory body of each State, the Environmental Protection Agency, the Special Assistant to the President for Consumer Affairs, and by depositing a copy in the Office of the Secretary of the Commission at Washington, D.C., and by filing a copy with the Director, Office of the Federal Register for publication therein.

By the Commission.

[SEAL] ROBERT L. OSWALD, *Secretary.*

Minimum Wages for Federal and Federally Assisted Construction

Modification and Supersedeas Decision, Index

No. 87—Pt. II——1

V 39 I 87 MAY 3 74 XUM

DEPARTMENT OF LABOR

Employment Standards Administration

MINIMUM WAGES FOR FEDERAL AND FEDERALLY ASSISTED CONSTRUCTION

General Wage Determination Decisions

General Wage Determination Decisions of the Secretary of Labor specify, in accordance with applicable law and on the basis of information available to the Department of Labor from its study of local wage conditions and from other sources, the basic hourly wage rates and fringe benefit payments which are determined to be prevailing for the described classes of laborers and mechanics employed in construction activity of the character and in the localities specified therein.

The determinations in these decisions of such prevailing rates and fringe benefits have been made by authority of the Secretary of Labor pursuant to the provisions of the Davis-Bason Act of March 3, 1931, as amended (46 Stat. 1494, as amended, 40 U.S.C. 276a) and of other Federal statutes referred to in 29 CFR 1.1 (including the statutes listed at 36 FR 306 following Secretary of Labor's Order No. 24–70) containing provisions for the payment of wages which are dependent upon determinations by the Secretary of Labor under the Davis-Bacon Act; and pursuant to the provisions of Part 1 of Subtitle A of Title 29 of Code of Federal Regulations, Procedure for Predetermination of Wage Rates, (37 FR 21138) and of Secretary of Labor's Orders 12–71 and 15–71 (36 FR 8755, 8756). The prevailing rates and fringe benefits determined in these decisions shall, in accordance with the provisions of the foregoing statutes, constitute the minimum wages payable on Federal and federally assisted construction projects to laborers and mechanics of the specified classes engaged on contract work of the character and in the localities described therein.

Good cause is hereby found for not utilizing notice and public procedure thereon prior to the issuance of these determinations as prescribed in 5 U.S.C. 553 and not providing for delay in effective date as prescribed in that section, because the necessity to issue construction industry wage determination frequently and in large volume causes procedures to be impractical and contrary to the public interest.

General Wage Determination Decisions are effective from their date of publication in the FEDERAL REGISTER without limitation as to time and are to be used in accordance with the provisions of 29 CFR, Parts 1 and 5. Accordingly, the applicable decision together with any modifications issued subsequent to its publication date shall be made a part of every contract for performance of the described work within the geographic area indicated as required by an applicable Federal prevailing wage law and 29 CFR, Part 5. The wage rates contained therein shall be the minimum paid under such contract by contractors and subcontractors on the work.

Modifications and Supersedeas Decisions to General Wage Determination Decisions. Modifications and Supersedeas Decisions to General Wage Determination Decisions are based upon information obtained concerning changes in prevailing hourly wage rates and fringe benefit payments since the decisions were issued.

The determinations of prevailing rates and fringe benefits made in the Modifications and Supersedeas Decisions have been made by authority of the Secretary of Labor pursuant to the provisions of the Davis-Bacon Act of March 3, 1931, as amended (46 Stat. 1494, as amended, 40 U.S.C. 276a) and of other Federal statutes referred to in 29 CFR 1.1 (including the statutes listed at 36 FR 306 following Secretary of Labor's Order No. 24–70) containing provisions for the payment of wages which are dependent upon determination by the Secretary of Labor under the Davis-Bacon Act; and pursuant to the provisions of Part 1 of Subtitle A of Titl 29 of Code of Federal Regulations, Procedure for Predetermination of Wage Rates, (37 FR 21138) and of Secretary of Labor's Orders 13–71 and 15–71 (36 FR 8755, 8756). The prevailing rates and fringe benefits determined in foregoing General Wage Determination Decisions, as hereby modified, and/or superseded shall, in accordance with the provisions of the foregoing statutes, consitiute the minimum wages payable on Federal and federally assisted construction projects to laborers and mechanics of the specified classes engaged in contract work of the character and in the localities described therein.

Modifications and Supersedeas Decisions are effective from their date of publication in the FEDERAL REGISTER without limitation as to time and are to be used in accordance with the provisions of 29 CFR, Parts 1 and 5.

Any person, organization, or governmental agency having an interest in the wages determined as prevailing is encouraged to submit wage rate information for consideration by the Department. Further information and self-explanatory forms for the purpose of submitting this data may be obtained by writing to the U.S. Department of Labor, Employment Standards Administration, Office of Special Wage Standards, Division of Wage Determinations, Washington, D.C. 20210. The cause for not utilizing the rulemaking procedures prescribed in 5 U.S.C. 553 has been set forth in the original General Wage Determination Decision.

GROUP I						
Cranes, draglines, and shovels equipped with 100 foot boom including jib or over, or a lifting capacity of 100 tons or over, and/or attachments five (5) cubic yards or over, as rated by the manufacturer, and operators of all tower, climbing cranes, and derricks required to work 25 feet or over from the ground	$7.64	.25	.25			
GROUP II						
Cranes, draglines, and shovels equipped with less than 100 foot of boom including jib, or a lifting capacity less than 100 tons, and/or attachments less than 5 cubic yards, as rated by the manufacturer, all backhoes capable of a 360 degree swing, all derricks, floating, tractor or truck types, all piledrivers, land or floating, all overhead and traveling cranes, all cableways, cherry pickers or tractors with swinging boom attachments, whirley, paving mixers with boom, grade alls, scrapers or pulls in tandem, all above equipment irrespective of motive power, leaverman (engineer), hydraulic and bucket dredges, irrespective of size, mechanics and/or welders, blacksmith	6.89	.25	.25			
GROUP III - HEAVY EQUIPMENT OPERATORS						
All Bulldozers, all front end loaders, all sidebooms, all push tractors, all single unit pull scrapers, all motor graders, all hydraulic backhoes not capable of 360 degree swing, all trenching machines, wheel, bucket, chain, or conveyor types regardless of size or motive power, all backfillers, all central mixing plants, mixers 10S and larger and concrete spreaders, all boiler firemen high or low pressure, all asphalt spreaders, rollers and finishing machines, hydro truck crane, multiple drum hoist, irrespective of motive power, all rotary, cable, tool, core drill or churn drill, water well and foundation drilling machines, regardless of size, regardless of motive power, first assistant engineer (dredge) boat and dredge tender operator	6.56	.25	.25			

POWER EQUIPMENT OPERATORS (CONT'D)	Basic Hourly Rates	Fringe Benefits Payments				
		H & W	Pensions	Vacation	App. Tr.	Others
GROUP IV - SEMI-HEAVY EQUIPMENT OPERATORS						
Oilerdriver motor crane, single drum hoists, winches and air tuggers, irrespective of motive power, winch or A frame trucks, forklifts, skytracks, dirt rollers of all types and pull tractors, regardless of size, elevator operators inside and outside when used for carrying workmen from floor to floor and handling building material, Lad-A-Vator, conveyor, batch plant, concrete mixers below 10S, pumpcrete, spray machine and pressure grout machine, air compressors, regardless of size. All Light Equipment, in multiple units four or more, all dewatering pumps when used in connection with well point systems, second assistant engineer (dredge)	$5.52	.25	.25			
GROUP V - LIGHT EQUIPMENT OPERATORS						
All welding machines, light plants, pumps, space heaters, in units less than 4, irrespective of size, irrespective of motive power, equipment greaser, oiler, mechanic helper, drilling machine helper, asphalt distributor, chip spreader, form grader, and dump Euclid and like equipment, third assistant engineer (dredge), safety boat operator, oiler on dredge	5.16	.25	.25

XUM 47 3 MAY 78 1 93 V

BUILDING CONSTRUCTION 1-DC-1-2 F 3 of 3

PAID HOLIDAYS:

A-New Year's Day; B-Memorial Day; C-Independence Day; D-Labor Day; E-Thanksgiving Day; F-Christmas Day.

FOOTNOTES:

a. Holidays: A through F

b. Employer contributes 4% basic hourly rate for 5 years or more of service or 2% basic hourly rate for 6 months to 5 years service as vacation pay credit.

c. Holidays: A through F, plus Washington's Birthday, Good Friday and Christmas Eve (provided employee has worked at least 45 full days during the 120 calendar days prior to the holiday, and the regularly schedule work days immediately preceding and following the holiday).

e. Employer contributes $37.92 per man per month.

f. $8.00 per week when employee has worked 90 days and works 3 days in a work week.

g. Holidays: A - D- E and F (provided the employee works the regularly scheduled work days immediately preceding and following the holiday).

h. Five paid holidays: Labor Day, Veteran's Day; Thanksgiving Day, Christmas Day and New Year's Day.

j. One week's paid vacation providing employee has worked 3 years and a minimum of 1450 hours during any calendar year.

PAID HOLIDAYS:

A-New Year's Day; B-Memorial Day; C-Independence Day; D-Labor Day; E-Thanksgiving Day; F-Christmas Day.

FOOTNOTES:

a. Employer contributes $8.00 per day to Annuity Fund.

b. Holidays: A through F; Lincoln's Birthday, Washington's Birthday, Columbus Day, Election Day and Armistice Day.

c. Employer contributes 6.4% basic hourly rate for 5 years or more of service of 4.2% basic hourly rate for 6 months to 5 years of service as Vacation Pay Credit.

d. One week vacation after one year's work; 2 weeks vacation after 4 years work; 3 weeks vacation after 15 years work.

e. Holidays: A through F; Washington's Birthday, Good Friday providing employee has worked at least 45 full days during the 120 calendar days prior to the holiday, and the regularly scheduled work days immediately preceding and following the holiday.

f. Employer contributes 1% to Temporary Disability Fund.

g. Employer contributes a total of $.55 per hour to Pension, Health & Welfare Fund.

h. Employer contributes $.60 per hour to a trust fund and $.15 per hour to an Annuity Fund.

i. Employer contributes $100.00 per year.

PAID HOLIDAYS:
A-New Year's Day; B-Memorial Day; C-Independence Day; D-Labor Day; E-Thanksgiving Day; F- Christmas Day.

FOOTNOTES:
a. Employer contributes $8.00 per day to Annuity Fund.

b. Holidays: A through F; Lincoln's Birthday, Washington's Birthday, Columbus Day, Election Day; Armistice Day.

c. Employer contributes .4% basic hourly rate for 5 years or more of service or 4.2% basic hourly rate for 6 months to 5 years of service as Vacation Pay Credit.

d. Holidays: A through F; Washington's Birthday; and Good Friday, providing employee has worked at least 45 full days during the 120 calendar days prior to the holiday and the regular scheduled work days immediately preceding and following the holiday.

e. Employer contributes 1% to Temporary Disability Fund.

f. Employer contributes $.60 per hour to a trust fund and $.15 per hour to an Annuity Fund.

BUILDING & HEAVY CONSTRUCTION - POWER EQUIPMENT OPERATORS:

GROUP I: Autograde - combn. subgrader, base MTL spreader & base trimmer (CMI & similar types), autograde placer-trimmer-spreader-combn. (CMI & similar types), autograde slipform paver (CMI & similar types), backhoes (all types, including all combination hoe loaders), central power plants (all types), concrete paving machines, cranes (all types including overhead & straddle travelling type), cranes (gantry), derricks (land or floating), drillmaster, quarrymaster (down the hole drill), draglines, elevator graders, engines (large diesel 1620 HP and staging pump), front end loaders (5 yds. and over), gradalls, grader, rago, helicopters (co-pilot), jack (screw air hydraulic power operated unit or console type (not hand jack or pile load test type), locomotive (large), mucking machines, pavers (21-E and over), paver (resinous, broyhill), pavement & concrete breaker (superhammer), pavement breaker truck mounted, piledriver, scooper (loader and shovel) koehring, shovels, tree chopper, trench machines

GROUP II: "A" frame, boring & drilling machines, brush chopper, chipper & shredder, cableways carryalls, cherry pickers (6 tons & under), concrete pump, concrete pumping system, pumpcrete, squeezecrete & similar types, conveyors (125' & over), econo-mobiles (hilo, lull, hyster similar type equipment), fork lifts, front end loaders (2 yds, but less than 5 yds.), groove cutting machine, heater planer, pans (letourneau, dw's ukes), pumpcrete (unit type), pumpcrete machines (squeezecrete & concrete punping regardless of size), rollers (backtop), scrapers (letourneau, dw's ukes), side booms, squeezecrete, straddle carrier (ross & similar types), winch trucks (hpisting)

GROUP III: Aerial platform (used as hoist), hoist (all type hoists, gas, diesel, electric, air hydraulic, single and double drum, concrete, brick shaft caisson, conveyor, snorkel, roof, tugger, and house cars or any other similar type hoisting machines, portable or stationary, except Chicago boom type), elevators or house cars, roof hoist

GROUP IV: Asphalt curbing machine, asphalt plant engineer, asphalt spreaders, auto-grade tube finisher & texturing machine (CMI & similar), autograde curecrete machine (CMI & similar), autograde crub trimmer & sidewalk, shoulder slipform (CMI & similar types), bar bending machines (power), batchers, batching plant & crusher on site, belt conveyor systems, boilers and steam jennies (irrespective of their use), boom type skimmer machines, bridge deck finisher, car dumpers (railroad), compressor and blower type units (used independently or mounted on dual purpose trucks, on job site or in conjunction with hob site, in loading and unloading of concrete, cement, fly ash, instancrete, or similar type materials), concrete breaking machines, concrete finishing machines, concrete saws & cutters (ride on type), concrete spreaders hetzel, rexomatic and similar types, conveyors (under 125'), crushing machines, ditching machines (small, ditchwitch or similar), drill doctor (duties include dust collector, maintenance), dope pots (mechanical with or without pump), dumpsters, fine grade machine (large type), front end loaders (under 2 yds.), generators giraffe grinders, grader (finish only), graders and motor patrols, gunite machines (excluding nozzle), hammer vibrator (in conjunction with generator), hoppers, hopper doors (power operated), ladders (motorized), laddervator, lights (portable generating light plants), locomotive (dinky type), maintenance and repair of asphalt curbing machines, concrete finishing machines, concrete vibrators, gas buggies, leveling machines, portable generators, power saws, compressor equipment or compressor units used in connection with cement,

BUILDING & HEAVY CONSTRUCTION - POWER EQUIPMENT OPERATORS CONT'D.:

paint, insulating and acoustical sprays, plaster, curing and sandblasting (all and similar types), mechanic, mixers (excepting paving mixers), motor patrols and graders, pavers (under 21-E), pavement breakers (small, self propelled ride on type, also maintains compressor or hydraulic unit), pipe bending machine (power), pitch pump, plaster pump (regardless of size), post hole digger, rod bending machines (power), scales (power), seaman pulverizing mixer, silas, steam jennies and boilers (irrespective of theiruse), steel cutting machine (service & maintains), vibrating plants (used in conjunction with unloading, welder and repair mechanic.

GROUP V: Welding machines (gas or electric converters of any type 2 or 3 in battery), compressors (2 or 3 within a total distance of 100' constitutes a battery), welding systen, mutiple (rectifier transformer type)

GROUP VI: Bulldozer, fireman, sprinkler and water pump trucks (used on job site or in conjunction with job site), stone, spreaders, sweepers & brooms, tractors (D-8 and over), water & sprinkler trucks (used on job site or in conjunction with job site)

GROUP VII: Compressor (single), heaters (nelson or other type including propane, natural gas or flow type units), pumps (4 inch suction & over including submersible pumps), temporary heating plant (nelson or other type including propane, natural gas or flow type units), welding machines (gas or electric converters of any type single), wellpoint system (including installation and maintenance)

GROUP VIII: Concrete spreaders (small type), fertilizing equipment and maintenance of), grease, gas, fuel and oil supply trucks, mulching equipment (operation and maintenance of), seeding equipment (operation and maintenance of), tamping machines (vibrating self propelled)

GROUP IX: Assistant engineer/oiler, mechanics helper, tire repair & maintenance

GROUP X: Water Operations: On all power boats used in conjunction with pipeline, river crossings and all types of construction: captain (power boats), tug master (power boats)

GROUP XI: Water Operations: Deckhand

GROUP XII: Pump (staging)

GROUP XIII: Rollers (grade fill or stone base)

GROUP XIV: Helicopters (pilot/engineer)

BUILDING, HEAVY & HIGHWAY CONSTRUCTION

PAID HOLIDAYS:
A-New Year's Day; B-Memorial Day; C-Independence Day; D-Labor Day; E-Thanksgiving Day; F-Christmas Day.

FOOTNOTES:

a. Employer contributes $1.29 per hour to an Annuity Fund.

b. Employer contributes $8.00 per day to Annuity Fund.

c. Holidays: A through F; Lincoln's Birthday, Washington's Birthday; Columbus Day; Armistice Day & Election Day.

d. Employer contributes 6.4% of basic hourly rate for 5 years or more of service or 4.2% basic hourly rate for 6 months to 5 years of service as Vacation Pay Credit.

e. Holidays: A through F; Washington's Birthday, Xmas. Eve and Good Friday, providing employee has worked 45 full days during the 120 calendar days prior to the holiday and the regular scheduled work days immediately preceding and following the holiday.

f. Employer contributes $4.00 per day to Annuity Fund.

g. Holidays: A through F, Lincoln's Birthday, Washington's Birthday, Columbus Day, Election Day, Veteran's Day, (providing employee works two days in the calendar week in which the holiday falls and shape each remaining workday during such calendar week.)

h. For each 15 days worked within the contract year an employee will receive one day's vacation with pay, with a maximum vacation of three weeks per year.

i. Employer contributes $4.80 per day to Annuity Fund.

k. Employer contributes $28.86 per month to Health & Welfare.

m. Employer contributes $29.13 per month to Pension Fund.

n. Holidays: A through F; Lincoln's Birthday; Washington's Birthday; Good Friday; Columbus Day; Armistice Day; Election Day.

o. Paid Holiday: St. Patricks Day.

LABORERS:						
Laborers and driller helpers	$6.26	.50	.65	a		
Concrete aggregate bin, mortar mixer, hand or machine vibrator gin buggy, mason tenders, concrete boatman, chain saw, jackhammer, pavement breaker and all other gas, electric oil and air-tool operators, hull float tamper, pipelayers	6.46	.50	.65	a		
Drillers, asphalt rakers, stone or granite curb setters and acetylene torch operator	6.66	.50	.65	a		
Blasters, form setters, stone or granite curb setters	6.86	.50	.65	a		

PAID HOLIDAYS:
A-New Year's Day; B-Memorial Day; C-Independence Day; D-Labor Day; E-Thanksgiving Day; F-Christmas Day.

FOOTNOTE:
a. Holidays A through F, providing the employee works the day before and after the holiday.

BUILDING CONSTRUCTION

	Basic Hourly Rates	Fringe Benefits Payments H & W	Pensions	Vacation	App. Tr.	Other
Power Equipment Operators:						
Oilers	$7.91	.70	.40	a	.10	
Firemen and heavy duty greasers, all boilers and steam generators	7.96	.70	.40	a	.10	
Pumps, vibrators, concrete mixers, spreaders, concrete finishing machines, mortar mixers, air compressors, dust collectors, welding machines well points, two or more Herman Nelson and like heaters, batch and plant op., seed and mulching machines, generators, temporary light plants, concrete pump, beltcrete power pac (beltcrete system), electric submersible pump 4" and over	8.05	.70	.40	a	.10	
Dinkey locomotives, Barber Greene loaders, Loaders and conveyors, tractors, scoopmobiles, bulldozers, road rollers, form fine graders, power brooms and sweepers	8.22	.70	.40	a	.10	
Black top spreaders, black top rollers, high lifts, fork lifts, one drum hoist or hod hoists, post hole diggers, trenchexcavators, core and well drillers (one drum), econosobile and similar type machines, elevators, A-L frame winches, power hoisting(single drum)	8.49	.70	.40	a	.10	
LeTourneau graders or scrapers, trenching machines, push cart	8.605	.70	.40	a	.10	
Tractor road pavers, cranes, power road graders, shovels, backhoes, draglines, pile drivers, hoists two or more drums, three drum engines, hystors, two drum and swinging engines, three drum swinging engine, locomotive cranes, gradalls, hydrocrane, model CMB Vibrotamp or similar machines, Murphy type diesel generator-beltcrete system, side booms, hydro hammer, tractor mounted drill (quarry master) euclid loaders, concrete pumps, all CMI equipment, concrete central mix plant, automated asphalt concrete plant, derrick, whirlies, tower cranes, cableways, hydraulic cranes, power hoisting (2 drum and over), mucking machine	8.76	.70	.40	a	.10	

PAID HOLIDAYS:
A-New Year's Day; B-Memorial Day; C-Independence Day
D-Labor Day; E-Thanksgiving Day; F- Christmas Day.
